NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION:

1725758 Ontario Inc. (formerly 757979 Ontario Inc.) (the “Company”) operates an optical group purchasing business which provides its members with vendor discounts on optical products for resale. The Company currently has approximately 525 active members in its optical group purchasing business. Such members are typically independent optical retailers. The Company was incorporated in the Province of Ontario, Canada on February 3, 1988 under the Ontario Business Corporations Act.

On June 15, 2007, 757979 Ontario Inc. merged into 1725758 Ontario Inc. under the provisions of the Ontario Business Corporations Act.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES:

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities as of the dates of such financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Significant estimates made by management include, but are not limited to income tax liabilities and allowances on accounts receivable.

Cash and cash equivalents

Cash represents cash on deposit with financial institutions. All highly liquid investments with a maturity date of three months or less are considered cash equivalents. The Company’s cash equivalents are invested in Canadian treasury accounts.

Fair Value of Financial Instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing as of December 31, 2006. For the majority of financial instruments, including receivables, standard market conventions and techniques, such as discounted cash flow analysis, replacement cost and termination cost, are used to determine fair value. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

Property and Equipment, net

Property and equipment, net, are recorded at cost, less accumulated depreciation and amortization. Depreciation and amortization are recorded using the straight-line and declining-balance methods over the useful lives of the respective classes of assets. All depreciation and amortization costs are reflected in selling, general and administrative expenses in the Statement of Income and Comprehensive Income for the year ended December 31, 2006.

Impairment of Long-Lived Assets

The Company follows the provisions of the Financial Accounting Standards Board's ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This Statement requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable, but amends the prior accounting and reporting standards for segments of a business to be disposed of. The Company periodically evaluates its long-lived assets based on, among other factors, the estimated, undiscounted future cash flows expected to be generated from such assets in order to determine if impairment exists. For the year ended December 31, 2006, the Company did not record any impairment charges.

Revenue Recognition and Cost of Sales

The Company follows the requirements of SEC Staff Accounting Bulletin ("SAB") No. 104, "Revenue Recognition." The Company derives its revenue from the product pricing extended to its members associated with the sale of vendor's eye care products to such members. The Company does not carry any inventory as members' orders are shipped directly to the member from the vendors. Accordingly, revenues and the related cost of sales are recognized when delivery has occurred, prices to buyers are fixed or determinable, and collectibility is reasonably assured.

Cost of sales include the Company's cost of product (based on the volume purchasing power from ordering for its members as a group) from its vendors, the associated shipping and freight costs, less certain discounts for the Company's guaranteed prompt payment.

Selling, General and Administrative Expenses

Selling, general and administrative expenses primarily include payroll and related benefits, rent, other overhead, depreciation, and advertising.

Advertising Costs

The Company expenses advertising costs as incurred. Advertising costs aggregated approximately \$37,000 for the year ended December 31, 2006, and is reflected in selling, general and administrative expenses on the accompanying Statement of Income and Comprehensive Income.

Comprehensive Income

The Company follows the provisions of SFAS No. 130, "Reporting Comprehensive Income," which establishes rules for the reporting of comprehensive income and its components. Comprehensive income is defined as the change in equity from transactions and other events and circumstances other than those resulting from investments by owners and distributions to owners. The Company's comprehensive income is comprised of the cumulative translation adjustment arising from the conversion of foreign currency.

Foreign Currency Translation

The financial position and results of operations of the Company were measured using the Company's local currency (Canadian Dollars) as the functional currency. Balance sheet accounts are translated from the foreign currency into U.S. Dollars at the year-end rate of exchange. Income and expenses are translated at the weighted average rates of exchange for the year. The resulting translation gain from the conversion of foreign currency to U.S. Dollars is included as a component of comprehensive income for the year ended December 31, 2006 and is recorded directly to accumulated comprehensive income within the Statement of Shareholder's Equity.

Income Taxes

The Company accounts for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes." Income taxes are based on pretax financial income and calculated using the applicable Canadian federal and provincial tax rates. As of December 31, 2006, there were no material temporary differences.

In July 2006, the FASB issued Interpretation ("FIN") No. 48 "*Accounting for Uncertainty in Income Taxes – An Interpretation of SFAS No. 109.*" FIN 48 prescribes a recognition threshold and measurement attribute for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. FIN 48 will require that the financial statements reflect expected future tax consequences of such positions presuming the taxing authorities' full knowledge of the position and all relevant facts, but without considering time values. FIN 48 is effective for annual periods beginning after December 15, 2006. The Company is currently evaluating the impact on its financial statements.

Concentration of Credit Risk

Cash

The Company maintains cash balances with financial institutions, which, at times, may exceed the Canada Deposit Insurance Corporation. The Company has not experienced any losses to date as a result of this policy, and management believes there is little risk of loss.

Receivables

The Company operates predominantly in Canada, and its receivables are primarily from members that operate retail optical stores in Canada. The Company estimates an allowance for doubtful accounts based on its members' financial condition and collection history. Management believes the Company's allowances are sufficient to cover any losses related to its inability to collect its accounts receivable. Accounts receivable are written-off when significantly past due and deemed uncollectible by management.

Vendors

The Company utilizes certain key vendors to provide its members with a broad spectrum of product purchasing options. If one of these key vendors ceases to do business with the Company, or ceases to exist, the Company could see a decrease in the amount of product purchased by its members, thus decreasing sales and net income. Management believes that there is a sufficient number of competing vendors and enough of a product mix to offset any changes to the Company's key vendors.

As of December 31, 2006, accounts payable relating to its two most significant vendors was as follows:

	Percentage of Accounts Payable
Vendor A	19.5%
Vendor B	13.0%
	32.5%

NOTE 3 – PROPERTY AND EQUIPMENT, NET:

Property and equipment, net, consists of the following:

	As of December 31, 2006	Estimated Useful Lives
Furniture and fixtures	\$ 26,699	5 years
Leasehold improvements	10,952	*
Computer equipment	43,433	3 years
Software	42,090	3 years
	123,174	
Less: Accumulated depreciation and amortization	(90,713)	
	\$ 32,461	

* Based upon the lesser of the assets' useful lives or the term of the lease of the related property.

Depreciation and amortization expense totaled \$25,698 and is included in selling, general and administrative expenses in the Statement of Income for the year ended December 31, 2006.

NOTE 4 –RELATED PARTY TRANSACTIONS:

For the year ended December 31, 2006, the Company paid approximately \$42,000 for rent and related charges under this lease. Management believes that the lease is at fair market value. The lease expired in July 2007 and is currently month-to-month.

At various times during 2006, the Company loaned funds to its sole shareholder during the ordinary course of business. As of December 31, 2006, the Company was owed \$79,270 from such shareholder. During 2007, the shareholder repaid all such borrowings.

Notes to the Unaudited Pro Forma Condensed Combined Financial Statements**

NOTE 1 – BASIS OF PRO FORMA PRESENTATION

On September 29, 2006, and effective as of August 1, 2006, Emerging Vision, Inc. (“EVI”) (the “Company”), through EVI’s wholly-owned subsidiary, COM Acquisition, Inc., acquired substantially all of the tangible and intangible assets and business of Combine Optical Management Corporation (“COM”), a Florida corporation that operates an optical group purchasing business. The purchase price was as follows: (i) \$2,473,000 in cash, \$700,000 of which was paid at closing, and the aggregate balance of which (\$1,773,000) is payable in accordance with the terms of two promissory notes, the first of which is in the original principal amount of \$1,273,000 payable (without interest) in four annual installments commencing on October 1, 2007, and the second of which is in the original principal amount of \$500,000 payable (with interest at 7% per annum) in sixty monthly installments of \$9,960, and (ii) options issued to Neil Glachman to purchase 3,515,625 shares of EVI’s common stock, at an exercise price per share of \$0.15, of which 2,187,500 may be put back to EVI during the period commencing September 29, 2010 and ending on September 28, 2016, at a put price per share of \$0.32.

On August 10, 2007, and effective as of July 31, 2007, the Company, through its wholly-owned subsidiary OG Acquisition, Inc., acquired all of the outstanding equity interests of 1725758 Ontario Inc. (formerly 757979 Ontario Inc.) (“TOG”) and substantially all of the assets of Corowl Optical Credit Services Inc. (“COC”) for an aggregate purchase price of \$3,800,000 CAD (approximately \$3,600,000 USD). TOG is based in Ontario, Canada and operates an optical group purchasing business. COC is based in Ontario, Canada and operates a credit reference business within the optical industry.

The purchases were accounted for as business purchase transactions with the assets acquired and liabilities assumed recorded at their respective fair values. The results of COM’s operations have been included in the Company’s consolidated financial statements from the effective date of the acquisition, and TOG and COC operations will be included in the Company’s future consolidated financial statements from the effective date of the acquisitions.

The accompanying unaudited pro forma condensed combined financial statements present how the combined financial statements of EVI and its subsidiaries, and COM, TOG and COC may have appeared had the businesses actually been consolidated as of December 31, 2006 and for the year then ended, and present how the combined financial statements of EVI and its subsidiaries (including COM) and TOG and COC may have appeared had the businesses actually been consolidated as of July 31, 2007 and for the seven months then ended. The pro forma condensed combined financial statements may not be indicative of the actual results of the businesses had the acquisitions occurred on January 1, 2006 or on January 1, 2007, as the case may be.

The accompanying unaudited condensed combined pro forma financial statements should be read in conjunction with the historical financial statements and the related notes of EVI, COM, TOG and COC.

NOTE 2 – PRO FORMA ADJUSTMENTS

The pro forma adjustments included in the unaudited pro forma condensed combined financial statements are as follows:

- (1) The assets acquired and liabilities assumed in the TOG and COC purchase have been reflected at their fair values and the excess cost over net tangible assets acquired is reflected on the combined balance sheet as an intangible asset. Additionally, the debt associated with the acquisition has been reflected on the combined balance sheets as of July 31, 2007 and December 31, 2006. Remaining assets, liabilities and equity balances of TOG and COC have been adjusted accordingly.
- (2) Assets, liabilities and equity of TOG and COC that were not acquired or assumed by EVI have been eliminated at the beginning of each period.
- (3) Certain salary and related benefits have been excluded from selling, general and administrative expenses on the combined statement of income as the President of COM will be receiving a reduced salary from what he was receiving prior to the acquisition and the President of TOG and COC will not remain after the acquisition. In addition, certain other related expenses will be absorbed by EVI's existing resources.
- (4) Certain rental charges and related overhead expenses incurred by TOG have been excluded from selling, general and administrative expenses on the consolidated statements of income as the landlord will be reallocating certain real estate taxes and CAM adjustments amongst the other tenants in favor of the Company.
- (5) Certain professional fees have been excluded from selling, general and administrative expenses on the consolidated statements of income as EVI will be able to utilize its existing accounting, consulting and legal resources to handle the professional service needs that were previously engaged prior to the acquisitions.
- (6) Certain equipment leasing expenses incurred by COM have been excluded from selling, general and administrative expenses on the consolidated statements of operations as EVI will acquire and capitalize such equipment and depreciate over their respective useful lives.
