NATIONAL GRID TRANSCO

Exit from operational nuclear assets complete

National Grid Transco plc notes Friday's announcement from FPL Group Inc that it has completed the acquisition of a controlling interest in the Seabrook Nuclear Generating Station in New Hampshire from a consortium of owners including New England Power, a subsidiary of National Grid USA.

As a result of this, and other previous transactions, National Grid Transco no longer owns any interest in operational nuclear generating plants.

These transactions contribute to National Grid Transco's strategy to focus its core skills in the management of large and complex energy delivery networks.
