Item 8.01 Other Events

On August 2, 2016, Acorda Therapeutics, Inc. (the "Company") entered into a settlement agreement with Alkem Laboratories Ltd. and Ascend Laboratories, LLC (collectively "Alkem") to resolve pending patent litigation brought by the Company against Alkem involving Ampyra® (dalfampridine) Extended-Release Tablets. The pending patent litigation was filed by the Company in the U.S. District Court for the District of Delaware in response to Alkem's submission of an Abbreviated New Drug Application ("ANDA") to the U.S. Food and Drug Administration ("FDA"), seeking marketing approval for a generic version of Ampyra. As a result of the settlement agreement, Alkem will be permitted to market a generic version of Ampyra in the United States at a specified date in 2027, or potentially earlier under certain circumstances. The parties will request that the Court enter a Consent Order, in which it will dismiss the Company's litigation against Alkem referred to above. Details of the settlement are confidential, and the parties will submit the agreement to the Federal Trade Commission and the Department of Justice, as required by federal law. The settlement with Alkem does not resolve pending patent litigation brought by the Company against other parties who have submitted ANDAs to the FDA seeking marketing approval for generic versions of Ampyra. The expiration date for the Company's latest expiring Ampyra patent listed in the FDA's Orange Book is May 2027.
