FIRST EQUITY PROPERTIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

First Equity Properties, Inc. is Nevada based corporation organized in December 19, 1996 and the Company is headquartered in Dallas, TX. The Company's principal line of business and source of revenue has been earnings on investments and interest on notes receivable. The Company is currently in the business of real estate investing. FEPI is a publicly traded company however, no trading market presently exists for the shares of common stock and its value is therefore not determinable.

Basis of presentation

The accompanying unaudited financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in the unaudited financial statements prepared in accordance with accounting principles generally accepted in the United States, or GAAP, have been condensed or omitted in accordance with such rules and regulations, although management believes the disclosures are adequate to prevent the information presented from being misleading. In the opinion of management, all adjustments (consisting of normal recurring matters) considered necessary for a fair presentation have been included. Certain 2011 balances have been reclassified to conform to the 2012 presentation.

The year-end Balance Sheet at December 31, 2012, was derived from the audited financial statements at that date, but does not include all of the information and disclosures required by GAAP for complete financial statements. For further information, refer to the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Cost capitalization

Costs related to planning and developing a project are capitalized and classified as Real Estate development costs in the Consolidated Balance Sheets. We capitalized certain operating expenses until development is substantially complete, but no later than one year from the cessation of major development activity.

Newly issued accounting pronouncements

We have considered all other newly issued accounting guidance that are applicable to our operations and the preparation of our statements, including that which we have not yet adopted. We do not believe that any such guidance will have a material effect on our financial position or results of operation.

NOTE 2. REAL ESTATE ACTIVITY

On December 31, 2010 the Company acquired a subsidiary, ART Westwood FL, Inc. and purchased land from a related party. Effective March 31, 2011 ART Westwood FL, Inc. changed its name to Kelly Lot Development, Inc. On December 31, 2010 the Company owned various parcels of undeveloped land which consist of approximately 7.53 acres of Kelly Lots Land located in Farmers Branch, TX, approximately 6.916 acres of Vineyard Land located in Grapevine, TX and approximately 5.618 acres and 6.25 acres of Nashville Land located in Nashville, TN all purchased from a related party. On April 1, 2011 the Company purchased approximately 3.028 acres of Seminary West Land located in Fort Worth, Texas and 6.796 acres of Travis Ranch Land located in Kaufman County, Texas

from a related party. On November 30, 2011 the Company purchased approximately 23.237 acres known as Cooks Lane located in Fort Worth, TX from a related party.

Effective April 1, 2012, the Company sold 100% of the outstanding stock of its former subsidiary Kelly Lot Development, Inc., a Nevada corporation (formerly ART Westwood FL, Inc.) (“KLD”) to Tacco Financial, Inc., a Nevada corporation (“TFI”). TFI’s only relationship with FEPI is that TFI loaned certain funds to FEPI in the past. The consideration given by TFI for the purchase of the stock of KLD total \$5,576,494 comprised of and paid by the cancellation of a note and interest thereon due to TFI from FEPI in the amount of \$4,120,300, assumption by TFI of certain indebtedness to third parties aggregating \$1,456,194 including a note issued by FEPI to Adams Realty, Inc. in the amount of \$944,000 and the assumption of an obligation to pay accrued real estate taxes on certain land in the amount of \$32,313.

NOTE 3. FEDERAL INCOME TAXES

The Company accounts for income taxes in accordance with Accounting Standards Codification, (“ASC”) No. 740, “Accounting for Income Taxes”. ASC 740 requires an asset and liability approach to financial accounting for income taxes. In the event differences between the financial reporting basis and the tax basis of the Company’s assets and liabilities result in deferred tax assets, ASC 740 requires an evaluation of the probability of being able to realize the future benefits indicated.

Recognition of the benefits of deferred tax assets will require the Company to generate future taxable income. There is no assurance that the Company will generate earnings in future years.

NOTE 4. NOTES RECEIVABLE AND ACCRUED INTEREST – AFFILIATE

Receivables from affiliates primarily consist of two notes of \$1,822,540 and \$585,000 which are payable in quarterly installments of interest only. The notes accrue interest at 10% per annum. These notes came due December 31, 2011 and have been extended to December 31, 2013. The Company received \$482,168 in May 2013 for the past interest receivable balance at December 31, 2012.

Unsecured, due on demand, interest rate of 10%, due monthly	\$ 2,407,540	\$ 2,407,540
Accrued interest – affiliates	180,071	482,168
Accounts receivable – affiliates	158,134	211,525
Total notes and accounts receivable – affiliates	\$ 2,745,745	\$ 3,101,233

NOTE 5. RELATED PARTIES TRANSACTIONS

Transactions involving related parties cannot be presumed to be carried out on an arm’s length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in best interest of our company.

The Company has an administrative agreement with Pillar Income Asset Management, Inc., an affiliated entity, for accounting and administrative services. This agreement was revised effective April 1, 2013 and was increased from \$2,500 to \$5,000 per month. The total expense of the nine months ended September 30, 2013 was \$37,500 which is included in General and Administrative expenses of the Consolidated Statement of Operations.

ITEM 2. MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words “anticipate”, “believe”, “estimate”, “expect”, “intend”, “may”, “might”, “plan”, “project”, “result”, “should”, “will” and similar expressions which do not relate solely to his matters are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to

anticipate future results or trends.

During 2012, the Company determined that it could not obtain adequate funding to properly develop raw land parcels and entered into a contract to sell Kelly Lot Development, Inc., which held all the Company's real estate holdings, effective April 1, 2012 to Tacco Financial, Inc. ("TFI"), a related party. The transaction resulted in \$259,071 of gain on sale. With the disposition of Kelly Lot Development the Company no longer has any land holdings.

Related Parties

We apply ASC Topic 805, "Business Combinations", to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

Results of Operations

The following discussion is based on our Statement of Operations within our Financial Statements as presented in Part 1, Item 1 of this report for the nine months ended September 30, 2013 and 2012. The discussion is not meant to be an all inclusive discussion of the changes within our operations. Instead, we have focused on the significant items relevant to obtain an understanding of the changes in our operations.

The results of operations for the nine months ended September 30, 2013, are not necessarily indicative of the results that may be expected for other interim periods or for the full fiscal year.

A substantial asset concentration relates to notes receivables from affiliated entities which is the primary source of income consisting of interest on such receivables. The principal balances on those receivables have been consistent for the past years, thus making our revenues consistent from year to year. Expenses are primarily related to professional and administrative fees and interest on affiliated notes.

Comparison of the three months ended September 30, 2013 to the same period ended 2012.

We reported net income applicable to common shareholders of \$5,327 for the three months ended September 30, 2013 as compared to a net income to common shareholders of \$31,547 for the same period ended 2012.

This decrease in net income was primarily due to higher administrative fees to Pillar as compared to the period ended 2012.

Comparison of the nine months ended September 30, 2013 to the same period ended 2012.

We reported net income applicable to common shareholders of \$6,837 for the nine months ended September 30, 2013 as compared to a net income to common shareholders of \$197,376 for the same period ended 2012.

This decrease in net income was primarily due to the recognition of a gain from the sale of the land parcels partially offset by the reduction in interest expense also due to the land sales in 2012.

Liquidity and Capital Resources

General

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses including interest expense and legal and administrative fees.

Our principal source of cash is proceeds from interest income on our notes receivables.

The following impacted our balance sheet as of September 30, 2013:

Our notes receivable and accrued interest – affiliates decreased due to payments received on interest on notes receivables.

Our accounts payable – affiliates decreased due to payments made on interest owed on notes payable and principal on the BCM note.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates, which may adversely affect its financial position, results of operations and cash flows. In seeking to minimize the risks from interest rate fluctuations, the Company manages exposures through its regular operating activities. The Company does not use financial instruments for trading or other speculative purposes and is not a party to any leveraged financial instruments.

Based upon the Company's market risk sensitive instruments (including variable rate debt) outstanding at September 30, 2013, the Company has determined that there was no material market risk exposure to the Company's financial position, results of operations or cash flows as of such date.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Financial Officer and Acting Principal Executive Officer of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Chief Financial Officer and Acting Principal Executive Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting him to material information relating to the Company required to be included in the Company's periodic SEC filings.

(b) Changes in Internal Controls over Financial Reporting.

There have been no changes in the Company's internal controls over financial reporting during the quarter ended September 30, 2013, that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
