PART 1. FINANCIAL INFORMATION

Item 1.

Financial Statements

The consolidated financial statements included herein have been prepared by Global Casinos, Inc. (the Company) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such SEC rules and regulations. In the opinion of management of the Company the accompanying statements contain all adjustments necessary to present fairly the financial position of the Company as of March 31, 2007, and its results of operations for the three and nine month periods ended March 31, 2007 and 2006 and its cash flows for the nine month periods ended March 31, 2007 and 2006. The results for these interim periods are not necessarily indicative of the results for the entire year. The accompanying financial statements should be read in conjunction with the financial statements and the notes thereto filed as a part of the Company's annual report on Form 10-KSB.

GLOBAL CASINOS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2007
(UNAUDITED)

1. Organization and Consolidation

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and Item 310(b) of Regulation S-B. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the financial statements of the Company as of June 30, 2006, and for the two years then ended, including notes thereto included in the Company's Form 10-KSB. Global Casinos, Inc. (the Company or Global), a Utah corporation, develops and operates gaming casinos. The consolidated financial statements of the Company include the accounts of its wholly-owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation. As of March 31, 2007, the Company's only operating subsidiary was CASINOS USA, INC. ("Casinos USA"), a Colorado corporation, which owns and operates the Bull Durham Saloon and Casino ("Bull Durham"), located in the limited stakes gaming district of Black Hawk, Colorado.

Certain amounts in the financial statements as of and for the three and nine months ended March 31, 2007 have been reclassified to conform to the current presentation.

2. Revenue Recognition

In accordance with gaming industry practice, we recognize casino revenues as the net win from gaming activities, which is the difference between gaming wins and losses. Anticipated payouts resulting from our customer loyalty program (Sharpshooter's Club), in which registered customers are awarded cash based on the frequency and amounts of their gaming activities are included in promotional allowances. In accordance with gaming industry practice and EITF 00-22, these promotional allowances are presented as a reduction of casino revenues.

3. Earnings per Common Share

Earnings per share ("EPS") are calculated in accordance with the provisions of Statement of Financial Accounting Standard No. 128, *Earnings Per Share*. SFAS No. 128 requires the Company to report both basic earnings per share, which is based on the weighted-average number of common shares outstanding, and diluted earnings per share, which is based on the weighted-average number of common shares outstanding plus all dilutive potential common shares outstanding, except where the effect of their inclusion would be anti-dilutive. Potentially dilutive shares of 112,784 and 0 were not included in the calculation of diluted earnings per share for the three months ended March 31, 2007 and 2006, respectively, as their inclusion would have been anti-dilutive. For the nine months ended March 31, 2007 and 2006, potentially dilutive shares of 15,000 and 1,349,040, respectively,

were not included in the calculation of diluted earnings per share as their inclusion would have been anti-dilutive.

4. Accrued Gaming Income

Gaming income represents the difference between the cash played by customers, and the cash paid out by the casino machines. On a regular basis, the cash representing the casino's revenue is pulled from the machines and deposited. However, this process does not always occur at the end of the last business day of the month. Accrued gaming income represents the amount of revenue (cash) in the machines that has not yet been pulled and deposited at the end of the reporting period. At March 31, 2007, \$57,855 of income was accrued and recorded as a current asset.

5.

Stock-Based Compensation

During the nine months ended March 31, 2007, we adopted the provisions of, and account for stock-based compensation in accordance with, the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards No. 123 revised 2004 (SFAS 123R), *Share-Based Payment* which replaced Statement of Financial Accounting Standards No. 123 (SFAS 123), *Accounting for Stock-Based Compensation* and supersedes APB Opinion No. 25 (APB 25), *Accounting for Stock Issued to Employees*. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the period during which the holder is required to provide services in exchange for the award, i.e., the vesting period. We elected the modified-prospective method, under which prior periods are not revised for comparative purposes. The valuation provisions of SFAS 123R apply to new grants and to grants that were outstanding as of the effective date and are subsequently modified. Estimated compensation for grants that were outstanding as of the effective date will be recognized over the remaining service period using the compensation cost estimated for the SFAS 123 pro forma disclosures.

For the three and nine months ended March 31, 2007 we recorded compensation expense of \$29,664 and \$70,631, respectively, under the requirements as discussed above. No such expense was recorded for the three or six months ended March 31, 2006.

6. Notes Payable and Long-Term Debt

At March 31, 2007, notes payable and long-term debt consisted of the following:

Senior mortgages payable to an investment company, collateralized by real estate, interest at 7%, monthly payments of \$6,768 through September 2009. Final payment of \$943,000.	\$ 977,784
Junior mortgages payable to private lenders, collateralized by real estate, interest at 4%, monthly payments of \$5,054 through September 2009. Final payment of \$909,000	966,624
	<u>56,886</u>
Installment notes payable to equipment suppliers, bearing interest at various rates from 0% to 6%, due at various times during 2007.	
Total notes payable and long-term debt	2,001,294
Less current portion	<u>(92,465)</u>
Long-term debt, net	<u>\$ 1,908,829</u>

Effective January 3, 2005, the Company finalized the private placement of convertible debentures that bore interest at 12% and were to mature on December 31, 2007. The debentures were sold at face value for gross proceeds of \$500,000 and were secured by a pledge of 100% of our shares of Casinos USA. The debentures were convertible into common stock at a conversion rate of \$0.50 per share. Holders of the debentures also received warrants to purchase 500,000 shares of common stock at an exercise price of \$0.15 per share. All holders of the debentures agreed that the entire principal amount of the debentures would automatically convert into shares of common stock, and as such the debentures were converted to 1,000,000 shares of common stock on December 31, 2005.

The warrants were valued using the Black Scholes option pricing model based on the market price of the common stock at the commitment date. The warrant valuation of \$237,000 was allocated to additional paid in capital. After allocating value to the warrants, we used the intrinsic value method to determine that all the remaining proceeds should be allocated to the embedded beneficial conversion feature. As such, \$263,000 was credited to additional paid

in capital. The total allocation of \$500,000 was amortized over 12 months (ending December 31, 2005) to coincide with the term of the conversion feature. Amortization expense during the three and nine months ended March 31, 2006 was \$0 and \$250,000, respectively, and is included in interest expense.

7. STOCKHOLDERS EQUITY

On January 5, 2007, the stockholders approved a proposal to adopt and approve a reverse split of up to a ratio of one-for-five of the issued and outstanding shares of our common stock, and issued and outstanding options, warrants and other rights convertible into shares of our common stock, all at the discretion of our Board of Directors to be implemented in the future as and when determined by our

Board of Directors.

On January 30, 2007, a previously awarded stock option grant to our General Manager at the Bull Durham Casino that was to expire on that date was extended for an additional year. Total compensation cost associated with the extension was \$29,664, and is included in operating, general, and administrative expenses for the three and nine months ended March 31, 2007. The fair value of the option extension was estimated utilizing the Black-Scholes option pricing model with the following assumptions: expected life of 0.5 years; expected volatility of 65%; risk free interest rate of 5.11% and no dividend yield. On February 20, 2007 all the options associated with the extension were exercised, and as a result, 50,000 shares of common stock were issued. The Company realized proceeds of \$6,500 associated with the exercise of the options.

8. Related Party Transactions

An officer and director operates a law firm that provides legal services to the Company. During the nine months ended March 31, 2007 and 2006, his billings to the Company totaled \$62,535 and \$39,846 respectively.

A former officer and director provided certain management, accounting, and administrative services to the Company. In December 2005, the former officer and director agreed to reduce his prior accumulated billings by approximately \$78,000, to \$25,000, to be paid without interest in five equal monthly installments of \$5,000 beginning January 1, 2006. The resulting reduction of accounts payable was credited to additional paid-in capital. The officer and director tendered his resignation effective December 31, 2005.

Effective with the resignation of the officer and director on December 31, 2005 as discussed above, the Company contracted an officer to provide management and accounting services to the Company. During the nine months ended March 31, 2007 and 2006, his billings to the company for services were \$21,500 and \$8,000.

An affiliated company provided management, clerical and administrative services to the Company until December 31, 2005. For the nine months ended March 31, 2006, the Company recorded such fees in the aggregate amount of \$24,000.

9. Commitments and Contingencies

Michael Jacobs vs. Global Casinos, Inc.

This matter was filed as a civil action, which has been stayed since 1998, pending mandatory arbitration. There has been no action to prosecute the arbitration whatsoever and the matter has been dormant since 1998. Mr. Jacobs was a former employee of the Company in Dallas, Texas and is asserting claims for compensation for services rendered while under the supervision of William P. Martindale at the Company's then existing Dallas, Texas office. The Company believes that the likelihood of a material adverse outcome in this matter is remote.

Leases

Prior to January 2006, the Company leased approximately 4,200 square feet of space used as its corporate offices. The lease required monthly payments of approximately \$3,500. A portion of the space was subleased for monthly rental income of approximately \$2,500. In January 2006, the lease with the landlord was terminated and assumed by Gunpark Asset Management, LLC (Gunpark), a company operated by the Company's former President and Director. Concurrently, the Company entered into a Shared Services Agreement with Gunpark. The agreement requires Gunpark provide sufficient office space to the Company, and requires the Company make monthly payments directly to the landlord of \$3,000. The monthly payment is allocated as \$2,000 to rent expense, and \$1,000 to clerical services. The agreement expired on December 31, 2006 and was extended under the same terms to December 31, 2007 by mutual agreement.

At March 31, 2007 the minimum required payments through the remaining term of the Shared Services Agreement for fiscal year 2007 are \$9,000.

10. Income Taxes

The Company and its subsidiaries are subject to income taxes on income arising in, or derived from, the tax jurisdictions in which they operate.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets are comprised mainly of net operating loss carry-forwards.

The reconciliation between the statutory federal tax rate and the effective tax rate as a percentage is as follows:

	<u>2007</u>	<u>2006</u>
Statutory federal income tax rate	34%	34%
Effect of net operating loss carry-forward	<u>(34)</u>	<u>(34)</u>
	<u>-%</u>	<u>-%</u>

At March 31, 2007, the Company had net operating loss carry-forwards of approximately \$5,898,000 available to reduce future taxable income.

11. INVESTMENT IN GLOBAL GAMING TECHNOLOGIES

On February 28, 2006, the Company entered into an Organization Agreement with a certain individual to form a for-profit limited liability company under the name of Global Gaming Technologies, LLC (GGT). Under the terms of the Agreement, the individual contributed to GGT all of his intellectual property rights related to two games of poker, which he individually developed. The Company agreed to make an initial cash capital contribution to GGT of \$100,000, for which it received a 25% equity interest in GGT. At the Company's election, it may make an additional \$100,000 cash capital contribution to GGT for which it will receive an additional 25% equity

interest. The initial cash contribution will be used to further develop the two games and to investigate patent protection. At the present time, both games are still under development and neither has been approved for use in any gaming jurisdiction. At this time GGT has no revenues and is considered to be in an early development stage.

The investment is being accounted for under the equity method. Its cash outlays have primarily been related to investigating patent protection for the products under development and for various product development and organizational start-up costs. For the nine months ended March 31, 2007 we have recorded \$20,256 for various GGT organizational start-up and product development expenditures.

As of March 31, 2007, the Company has made cash payments to GGT of \$50,000 as part of the initial \$100,000 cash capital payments required under the Agreement. The remaining \$50,000 joint venture obligation is recorded as a current liability.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations which are not historical facts are forward-looking statements such as statements relating to future operating results, existing and expected competition, financing and refinancing sources and availability and plans for future development or expansion activities and capital expenditures. Such forward-looking statements involve a number of risks and uncertainties that may significantly affect our liquidity and results in the future and, accordingly, actual results may differ materially from those expressed in any forward-looking statements. Such risks and uncertainties include, but are not limited to, those related to effects of competition, leverage and debt service financing and refinancing efforts, general economic conditions, changes in gaming laws or regulations (including the legalization of gaming in various jurisdictions) and risks related to development and construction activities. The following discussion and analysis should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this report.

Overview

We operate in the domestic gaming industry. We were organized as a holding company for the purpose of acquiring and operating casinos, gaming properties and other related interests. At March 31, 2007, our operations consisted solely of the Bull Durham Saloon & Casino in Black Hawk, Colorado.

Our operations are seasonal. The Bull Durham experiences a significant increase in business during the summer tourist season.

We operate in a highly regulated environment subject to the political process. Our retail gaming license is subject to annual renewal by the Colorado Division of Gaming. Changes to existing statutes and regulations could have a negative effect on our operations.

Results of Operations - Three Months Ended March 31, 2007 Compared to the Three Months Ended March 31, 2006

We recognized a net loss of \$(1,573) (\$0.00 per share) for the three months ended March 31, 2007 compared to net income of \$23,930 (\$0.00 per share) for the same period in 2006. The primary factor attributable to the current period loss was a 3% decrease in casino revenues due to decreased customer traffic caused by poor weather during the quarter ended March 31, 2007, particularly during the month of January.

Revenues

Casino revenues for the three months ended March 31, 2007 were \$898,546 compared to \$929,162 for the 2006 period, a decrease of \$30,616 or 3.3%. Our total coin-in was down by 3.7% for the three months ended March 31, 2007 over the comparable period in 2006 due to unfavorable weather

conditions during the quarter as discussed above. However, our hold percentage was slightly higher for the three months ended March 31, 2007 over the comparable period in 2006.

Promotional allowances include anticipated redemptions associated with our Sharpshooter's Club which awards customers with cash payouts dependent upon the frequency and amount of their gaming activities on our slot machines. The total allowances increased \$7,492 from \$29,039 to \$36,531 for the three months ended March 31, 2007 and 2006, respectively. The primary reason for the increase is due a change in our estimate of the expected redemption rates under the program.

Operating Expenses

Casino operations: Includes all expenses associated with the operations of the Bull Durham Casino. The following table summarizes such expenses for comparison and discussion purposes:

	For the Three Months Ended			
	March 31, 2007	March 31, 2006	\$ Variance	% Variance
Labor & Benefits	\$ 307,253	\$ 314,981	\$ (7,728)	-2.5%
Marketing & Advertising	109,935	129,208	(19,273)	-14.9%
Depreciation & Amortization	121,030	109,637	11,393	10.4%

Other casino expenses	17,057	14,481	2,576	17.8%
	\$ 758,376	\$ 785,502	\$ (27,126)	-3.5%

Labor & Benefits: Includes all salary and contract labor costs associated with the operations of the casino, payroll taxes, and costs associated with the casino's benefit and insurance plans. The 2.5% decrease is primarily attributable to

decreases in salaries and wages costs due to the decreases in customer traffic we realized because of the poor weather conditions, particularly in January. In addition, we also were successful in negotiating a lower compensation rate for our drop team. Costs associated with our employee medical, dental and vision insurance plan increased by approximately \$6,400, and is attributable to the overall rising of health care costs. Total labor and benefits costs as a percentage of casino revenues increased slightly for the quarter from 33.9% to 34.2% for the three months ended March 31, 2007 and 2006, respectively.

Marketing & Advertising: Includes all costs associated with our advertising and marketing efforts including promotional activities designed to drive customers to our casino, and programs designed to foster customer loyalty. The decrease of \$19,273 (14.9%) from the comparable period in 2006 is primarily due to a decrease in spending for promotional products, and refinements of our customer data base which allows us to focus our promotional dollars on a more targeted population.

Depreciation & Amortization: Primarily includes depreciation on our gaming equipment, casino building improvements, furniture and fixtures, as well as amortization on our customer tracking software. The increase of \$11,393 is primarily associated with depreciation on new and upgraded slot machines placed in service. This increase is the result of continued efforts to upgrade and maintain the quality and appearance of the machines in order to provide the best customer experience possible.

Food & Beverage: Includes all costs associated with our bar and limited menu food services. The \$9,628 decrease from the comparable period in 2006 is primarily the result of the decreased customer traffic due to unfavorable weather conditions during the quarter as discussed above, and to a lesser degree changes in certain products offered.

Repair, Maintenance & Supplies: Includes costs associated with the general upkeep of the facility, as well as parts and repair efforts to maintain the quality of our slot machines. The decrease of \$9,147 from the comparable period in 2006 is due to a decrease in purchasing of slot machine parts as our efforts to enhance the quality of the machines during the last year with the addition of several new machines and upgrades has resulted in a more reliable slot machine population that has required less repair and maintenance. We also realized savings of approximately \$5,200 in janitorial services with a change in our cleaning service provider.

Device Fees: Includes local fees paid to the city of Blackhawk based on the number of slot machines in operation. Prior to calendar year 2007, the city of Blackhawk waived device fees on the first fifty slot machines operated by a casino. In 2007, this waiver of fees was eliminated. The increase of approximately \$7,800 for the quarter over quarter comparison is attributed to the elimination of this waiver.

Professional Fees: Includes all costs and fees associated with legal services, accounting and auditing services, and the Board of Directors of Casinos USA (d/b/a The Bull Durham Saloon & Casino). The slight decrease of \$3,944 is attributed to certain legal services provided to the casino in 2006; no legal services were required for the three months ended March 31, 2007.

Insurance, Taxes & Licenses: Includes all non-payroll taxes, liability and property insurance, and licenses associated with the operation of the casino. For the three months ended March 31, 2007, there were no significant variances in costs within this category as compared to the three months ended March 31, 2006.

Utilities & Telephone: Include all costs associated with the casino's telephone system, cell phone usage, and utility costs. For the three months ended March 31, 2007, there were no significant variances in costs within this category as

compared to the three months ended March 31, 2006.

Other Casino Expenses: Includes all other costs of the casino operations not included in the above categories, including travel, postage, bad debts, parking allowances and lease costs associated with off-site storage. For the three months ended March 31, 2007, there were no significant variances in costs within this category as compared to the three months ended March 31, 2006.

Operating, general, and administrative: Generally includes all expenses associated with the operations of the parent entity, Global Casinos, Inc., including legal services provided by the company's principal executive officer, and accounting services provided by the company's principal accounting officer, as well as clerical and bookkeeping services, corporate marketing efforts, and stock-based compensation costs relating to the company's executive officers, directors, and subsidiary management. For the three months ended March 31, 2007, total operating, general, and administrative costs were \$71,623, as compared to \$61,524 for the comparable three months ended March 31, 2006, an increase of \$10,099 or 16.4%. Accounting and legal services decreased by \$13,726, from \$45,623 to \$31,537 for the three months ended March 31, 2006 and 2007, respectively. This decrease was offset by \$29,644 of stock based compensation expense associated with the vesting of certain stock options granted in April 2006, and the extension of an option grant to the general manager of the Bull Durham Casino that expired during the quarter.

We have adopted the provisions of, and account for stock-based compensation in accordance with, the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards No. 123 revised 2004 (SFAS 123R), *Share-Based Payment* which replaced Statement of Financial Accounting Standards No. 123 (SFAS 123), *Accounting for Stock-Based Compensation* and supersedes APB Opinion No. 25 (APB 25), *Accounting for Stock Issued to Employees*. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the period during which the holder is required to provide services in exchange for the award, i.e., the vesting period. Other than that noted above, neither period included any unusual items or significant fluctuations.

Interest expense

Interest expense was \$22,272 for the three months ended March 31, 2007 compared to \$27,602 for the comparable period in 2006, and represents regularly scheduled payments on various senior and junior mortgages collateralized by the Bull Durham Saloon and Casino real estate. Monthly interest expense is expected to continue to decrease as the principal balances of our mortgage notes continue to decrease through normal debt service.

Other

On February 28, 2006, we entered into an Organization Agreement with a certain individual to form a for-profit limited liability company under the name of Global Gaming Technologies, LLC (GGT). GGT was formed for the purpose of bringing to market two games of poker developed by the other party to the agreement, whose contribution included all of his intellectual property rights related to the two games which he developed. At the present time, both games are still under development and neither has been approved for use in any gaming jurisdiction. At this time GGT has no revenues and is considered to be in an early development stage. The investment is being accounted for under the equity method. Its cash outlays have primarily been related to investigating patent protection for the products under development and for various product development and organizational start-up costs. For the three

months ended March 31, 2007 we have recorded \$11,317 for various GGT organizational start-up and product development expenditures.

The loss on asset disposals of \$1,565 for the quarter ended March 31, 2006 resulted from the retirement and sale of certain casino equipment and fixtures.

For federal income tax purposes, Global has a net operating loss carryover (NOL) approximating \$5,898,000, which can be used to offset future taxable income, if any. Under the Tax Reform Act of 1986, the amounts of and the benefits from NOL's are subject to certain limitations including restrictions imposed when there is a loss of business continuity or when ownership changes in excess of 50% of outstanding shares, under certain circumstances. Thus, there is no guarantee that Global will be able to utilize its NOL before it expires and no potential benefit has been recorded in the financial statements.

Inflation did not have a material impact on the Company's operations for the period.

Other than the foregoing, management knows of no trends, demands, or uncertainties that are reasonably likely to have a material impact on the Company's results of operations.

Results of Operations - Nine Months Ended March 31, 2007 Compared to the Nine Months Ended March 31, 2006

We recognized net income of \$109,316 (\$.02 per share) for the nine months ended March 31, 2007 compared to a net loss of \$(20,100) (\$(0.00) per share) for the same period in 2006. The primary difference is attributable to a significant decrease in interest expense associated with certain debt that was converted to common stock on December 31, 2005 as discussed below and elsewhere in this report.

Revenues

Casino revenues for the nine months ended March 31, 2007 were \$2,843,666 compared to \$2,950,691 for the 2006 period, a decrease of \$107,025 or 3.6%. Our total coin-in was down by 1.6% for the nine months ended March 31, 2007 over the comparable period in 2006 primarily the result of unfavorable weather conditions during the second and third quarter in which we realized a 5.3% decrease. Our hold percentage was down slightly by 0.2% for the nine months ended March 31, 2007 over the comparable period in 2006.

Promotional allowances include anticipated redemptions associated with our Sharpshooter's Club which awards customers with cash payouts dependent upon the frequency and amount of their gaming activities on our slot machines. The total allowances increased \$35,616 from \$89,879 to \$125,495 for the nine months ended March 31, 2006 and 2007, respectively. The primary reason for the increase is due to a change in our estimate of the expected

redemption rates under the program for the nine months ended March 31, 2007.

Operating Expenses

Casino operations: Includes all expenses associated with the operations of the Bull Durham Casino. The following table summarizes such expenses for comparison and discussion purposes:

	For the Nine Months Ended		\$ Variance	% Variance
	March 31, 2007	March 31, 2006		
Labor & Benefits	938,558	972,292	(33,734)	-3.5%
Marketing & Advertising	372,712	380,548	(7,836)	-2.1%
Depreciation & Amortization	363,186	329,043	34,143	10.4%
Food & Beverage	153,787	175,674	(21,887)	-12.5%
Repair, Maintenance & Supplies	117,768	126,981	(9,213)	-7.3%
Device fees	107,199	98,583	8,616	8.7%
Professional fees	75,000	77,944	(2,944)	-3.8%
Insurance, Taxes & Licenses	72,060	69,720	2,340	3.4%
Utilities & Telephone	53,253	52,544	709	1.3%
Other casino expenses	47,703	46,193	1,510	3.3%
	2,301,226	2,329,522	(28,296)	-1.2%

Labor & Benefits: Includes all salary and contract labor costs associated with the operations of the casino, payroll taxes, and costs associated with the casino's benefit and insurance plans. The 3.5% decrease is primarily attributable to decreases in salaries and wages costs due to the decreases in customer traffic we realized because of the poor weather conditions, particularly during the second and third quarters. In addition, employee bonuses paid in December 2006 were down significantly from amounts paid in December 2005. Finally, we also were successful in negotiating a lower compensation rate for our drop team. Costs associated with our employee medical, dental and vision insurance plan increased by approximately \$15,600, and is attributable to the overall rising of health care costs. Total labor and benefits costs as a percentage of casino revenues remained steady from 33.0% for both the nine months ending March 31, 2007 and 2006.

Marketing & Advertising: Includes all costs associated with our advertising and marketing efforts including promotional activities designed to drive customers to our casino, and programs designed to foster customer loyalty. The decrease of \$7,836 (2.1%) from the comparable period in 2006 is primarily due to a decrease in spending for

promotional products, and refinements of our customer data base which allows us to focus our promotional dollars on a more targeted population.

Depreciation & Amortization: Primarily includes depreciation on our gaming equipment, casino building improvements, furniture and fixtures, as well as amortization on our customer tracking software. The increase of \$34,143 is primarily associated with depreciation on new and upgraded slot machines placed in service. This increase is the result of continued efforts to upgrade and maintain the quality and appearance of the machines in order to provide the best customer experience possible.

Food & Beverage: Includes all costs associated with our bar and limited menu food services. The \$21,887 decrease from the comparable period in 2006 is primarily the result of the decreased customer traffic due to unfavorable weather conditions during the quarter as discussed above, and to a lesser degree changes in certain products offered.

Repair, Maintenance & Supplies: Includes costs associated with the general upkeep of the facility, as well as parts and repair efforts to maintain the quality of our slot machines. The decrease of \$9,213 from the comparable period in 2006 is primarily due to savings of approximately \$16,400 in janitorial services with a change in our cleaning service provider. In addition, we also realized savings of approximately \$5,400 in repair and maintenance costs on our slot machines as our efforts to enhance the quality of the machines during the last year with the addition of several new machines and upgrades has resulted in a more reliable slot machine population. Partially offsetting these savings were approximately \$15,100 in increased spending for general casino and slot machine supplies.

Device Fees: Includes local fees paid to the city of Blackhawk based on the number of slot machines in operation. Prior to calendar year 2007, the city of Blackhawk waived device fees on the first fifty slot machines operated by a casino. In 2007, this waiver of fees was eliminated. The increase of approximately \$8,600 for the quarter over quarter comparison is attributed to the elimination of this waiver.

Professional Fees: Includes all costs and fees associated with legal services, accounting and auditing services, and the Board of Directors of Casinos USA (d/b/a The Bull Durham Saloon & Casino). The slight decrease of \$2,944 is attributed to certain legal services provided to the casino in 2006; no legal services were required for the nine months ended March 31, 2007.

Insurance, Taxes & Licenses: Includes all non-payroll taxes, liability and property insurance, and licenses associated with the operation of the casino. An increase in property taxes of \$2,550 was the primary cause for the \$2,340 increase in this category for the nine months ended March 31, 2007.

Utilities & Telephone: Include all costs associated with the casino's telephone system, cell phone usage, and utility costs. For the nine months ended March 31, 2007, there were no significant variances in costs within this category as compared to the nine months ended March 31, 2006.

Other Casino Expenses: Includes all other costs of the casino operations not included in the above categories, including travel, postage, bad debts, parking allowances and lease costs associated with off-site storage. For the nine months ended March 31, 2007, there were no significant variances in costs within this category as compared to the nine months ended March 31, 2006.

Operating, general, and administrative: Generally includes all expenses associated with the operations of the parent entity, Global Casinos, Inc., including legal services provided by the company's principal executive officer, and accounting services provided by the company's principal accounting officer, as well as clerical and bookkeeping services, corporate marketing efforts, and stock-based compensation costs relating to the company's executive officers, directors, and subsidiary management. For the nine months ended March 31, 2007, total operating, general, and

administrative costs were \$214,439, as compared to \$188,333 for the comparable nine months ended March 31, 2006, an increase of \$26,106 or 13.9%. Accounting and legal services decreased by \$21,911, from \$123,731 to \$101,820 for the nine months ended March 31, 2006 and 2007, respectively. In addition, for the nine months ended March 31, 2006 we realized approximately \$11,500 attributable to certain corporate marketing efforts. No such expense was realized for the nine months ended March 31, 2007. These cost decreases were offset by \$70,631 of stock based compensation expense associated with the vesting of certain stock options granted in April 2006, and the extension of an option grant to the general manager of the Bull Durham Casino that expired in January 2007.

We have adopted the provisions of, and account for stock-based compensation in accordance with, the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards No. 123 revised 2004 (SFAS 123R), *Share-Based Payment* which replaced Statement of Financial Accounting Standards No. 123 (SFAS 123), *Accounting for Stock-Based Compensation* and supersedes APB Opinion No. 25 (APB 25), *Accounting for Stock Issued to Employees*. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the period during which the holder is required to provide services in exchange for the award, i.e., the vesting period. Other than that noted above, neither period included any unusual items or significant fluctuations.

Interest Expense

Interest expense was \$72,934 for the nine months ended March 31, 2007 compared to \$363,782 for the similar period in 2006. During 2005, we issued 12% convertible debentures with detachable warrants and a beneficial conversion feature. Included in interest expense for the nine months ended March 31, 2006 is \$250,000 of amortization attributable to the debt discounting resulting from the valuation of the detachable warrants and beneficial conversion feature. Interest expense for the nine months ended March 31, 2007 is attributed to regularly scheduled payments on various senior and junior mortgages collateralized by the Bull Durham Saloon and Casino real estate. Monthly interest expense is expected to continue to decrease as the principal balances of our mortgage notes continue to decrease through normal debt service.

Other

On February 28, 2006, we entered into an Organization Agreement with a certain individual to form a for-profit limited liability company under the name of Global Gaming Technologies, LLC (GGT). GGT was formed for the purpose of bringing to market two games of poker developed by the other party to the agreement, whose contribution included all of his intellectual property rights related to the two games which he developed. At the present time, both games are still under development and neither has been approved for use in any gaming jurisdiction. At this time GGT has no revenues and is considered to be in an early development stage. The investment is being accounted for under the equity method. Its cash outlays have primarily been related to investigating patent protection for the

products under development and for various product development and organizational start-up costs. For the nine months ended March 31, 2007 we have recorded \$20,256 for various GGT organizational start-up and product development expenditures.

The gain from settlement of debt in the amount of \$2,290 for the nine months ended March 31, 2006 represents the negotiated settlement of a junior mortgage note payable that was paid off prior to its scheduled maturity in 2009.

The loss on asset disposals of \$1,565 for the nine months ended March 31, 2006 resulted from the retirement and sale of certain casino equipment and fixtures.

For federal income tax purposes, Global has a net operating loss carryover (NOL) approximating \$5,898,000, which can be used to offset future taxable income, if any. Under the Tax Reform Act of 1986, the amounts of and the benefits from NOL's are subject to certain limitations including restrictions imposed when there is a loss of business continuity or when ownership changes in excess of 50% of outstanding shares, under certain circumstances. Thus, there is no guarantee that Global will be able to utilize its NOL before it expires and no potential benefit has been recorded in the financial statements.

Inflation did not have a material impact on the Company's operations for the period.

Other than the foregoing, management knows of no trends, demands, or uncertainties that are reasonably likely to have a material impact on the Company's results of operations.

Liquidity and Capital Resources

Our primary source of cash is internally generated through operations. Historically, cash generated from operations has not been sufficient to satisfy working capital requirements and capital expenditures. Consequently, we have depended on funds received through debt and equity financing to address these shortfalls. We have also relied, from time to time, upon loans from affiliates to meet immediate cash demands. There can be no assurance that these affiliates or other related parties will continue to provide funds to us in the future, as there is no legal obligation on these parties to provide such loans.

As of March 31, 2007, neither the Company nor its subsidiaries have commercial bank credit facilities. Consequently, we believe that cash necessary for future operating needs must be internally generated through operations. Cash flow at the Company's sole operating subsidiary has been sufficient to fund operations at that subsidiary and we believe that cash flow will be sufficient during the next twelve months to continue operation of the subsidiary.

At March 31, 2007, the Company had cash and cash equivalents of \$1,542,761, substantially all of which was utilized in our casino operations. Pursuant to state gaming regulations, the casino is required to maintain cash balances sufficient to pay potential jackpot awards. Our cash balance at March 31, 2007 was in excess of funds required by gaming regulations.

Our working capital improved by \$405,759 to \$1,100,304 at March 31, 2007 from \$694,545 at June 30, 2006, primarily because of cash flow from operating activities.

Cash provided by operating activities was \$643,190 for the nine months ended March 31, 2007. For the same period in 2006, operating activities provided net cash of \$399,638. The increase in cash provided by operating activities of \$243,552 was primarily the result of the increase in our net income resulting from reduced interest expense as discussed above.

Cash used in investing activities was \$77,505 for the nine months ended March 31, 2007 included \$17,356 in cash purchases of gaming equipment. Additional gaming equipment valued at \$99,772 was acquired in a vendor financing arrangement which requires monthly payments of \$8,314 through August 2007. For the year ended June 30, 2007 we expect to spend approximately \$200,000 in capital expenditures primarily to continue our efforts to upgrade and purchase new slot machines. We expect much of this activity to continue to be short-term financed by our vendors under favorable terms. In addition, the Bull Durham completed various building improvements including a new roof and paving at a cost of \$19,143. For the nine months ended March 31, 2006, we used net cash of \$17,108 in investing activities, also primarily for capital expenditures.

On February 28, 2006, we entered into an Organization Agreement with a certain individual to form a for-profit limited liability company under the name of Global Gaming Technologies, LLC (GGT). GGT was formed for the purpose of bringing to market two games of poker developed by the other party to the agreement, whose contribution included all of his intellectual property rights related to the two games which he developed. At the present time, both games are still under development and neither has been approved for use in any gaming jurisdiction. Under the terms of the agreement we agreed to make an initial cash contribution to GGT of \$100,000 in exchange for a 25% equity interest. As of March 31, 2007, we had made total cash contributions totaling \$50,000, \$40,000 since June 30, 2006. The balance due of \$50,000 under the terms of the agreement has been recorded as a current liability. The timing of the future cash payments required under the agreement is dependent upon the cash requirements of GGT to execute its business plan. Also under the terms of the agreement, we have the option to make additional cash contribution of \$100,000 in exchange for an additional 25% equity interest. At this time GGT has no revenues and is considered to be in an early development stage. The investment is being accounted for under the equity method. Its cash outlays have primarily been related to investigating patent protection for the products under development and for various product development and organizational start-up costs. For the nine months ended March 31, 2007 we have recorded \$20,256 for various GGT organizational start-up and product development expenditures.

Cash flows used in financing activities decreased \$33,743 to \$204,832 for the nine months ended March 31, 2007, compared to cash used of \$238,575 in 2006. The \$211,332 for the nine months ended March 31, 2007 represents principal payments on our mortgage debt and equipment financing obligations. For the nine months ended March 31, 2006, principal payments on debt were \$353,575, which included approximately \$79,000 attributable to payments made for the purchase of the Oasis Casino Management System. In February 2007, certain employee stock purchase options were exercised resulting in the issuance of 50,000 shares of common stock and proceeds of \$6,500. In December 2005, certain stock purchase warrants and employee stock options were exercised resulting in cash proceeds of \$115,000.

Effective January 3, 2005 the Company finalized the private placement of convertible debentures that bore interest at 12% and were to mature on December 31, 2007. The debentures were sold at

face value for gross proceeds of \$500,000 and were secured by a pledge of 100% of our shares of Casinos USA. The debentures are convertible into common stock at a conversion rate of \$0.50 per share. Holders of the debentures also received warrants to purchase 500,000 shares of common stock at an exercise price of \$0.15 per share. All holders of the debentures agreed that the entire principal amount of the debentures would automatically convert into shares of common stock on December 31, 2005 and as such the debentures were converted to 1,000,000 shares of common stock on December 31, 2005.

The warrants were valued using the Black Scholes option pricing model based on the market price of the common stock at the commitment date. The warrant valuation of \$237,000 was allocated to additional paid in capital. After allocating value to the warrants, we used the intrinsic value method to determine that all the remaining proceeds should be allocated to the embedded beneficial conversion feature. As such, \$263,000 was credited to additional paid in capital. The total allocation of \$500,000 was amortized over 12 months (ending December 31, 2005) to coincide with the term of the conversion feature. Amortization expense during the nine months ended March 31, 2006 was \$250,000 and is included in interest expense.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Securities and Exchange Commission regulation S-K.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates included herein relate to the recoverability of assets, the value of long-lived assets and liabilities, the value of share based compensation transactions, the long-term viability of the business, the future impact of gaming regulations, and future obligations under various tax statutes. Actual results may differ from estimates.

Other than the foregoing, management knows of no trends, demands, or uncertainties that are reasonably likely to have a material impact on the Company's liquidity and capital resources.

ITEM 3. CONTROLS AND PROCEDURES

The Company's Principal Executive Officer and Principal Financial Officer, have established and are currently maintaining disclosure controls and procedures for the Company. The disclosure controls and procedures have been designed to provide reasonable assurance that the information required to be disclosed by the Company in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and to ensure that information required to be disclosed by the Company is accumulated and communicated to the Company's management as appropriate to allow timely decisions regarding required disclosure.

The Principal Executive Officer and Principal Financial Officer conducted an update review and evaluation of the effectiveness of the Company's disclosure controls and procedures and have concluded, based on their evaluation as of the end of the period covered by this Report, that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our principal executive officer and our principal financial officer, to allow timely decisions regarding required disclosure and we refer you to Exchange Act Rule 13a-15(e).

In addition, our principal executive officer and principal financial officer have determined that there has occurred no change in our internal control over financial reporting occurred during or subsequent to the three month period ended September 30, 2006 that has materially affected, or is (as that term is defined in Rules 13(a)-15(f) and 15(d)-15(f) of the Securities Exchange Act of 1934) reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

None, except as previously disclosed.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None, except as previously disclosed.

Item 3. Defaults Upon Senior Securities

None, except as previously disclosed.

Item 4. Submission of Matters to a Vote of Security Holders

None, except as previously disclosed.

Item 5. Other Information

None, except as previously disclosed.

Item 6. Exhibits and Reports on Form 8-K

Exhibits:

31. Certification
32. Certification Pursuant to 18 U.S.C. Section 1350

Reports on Form 8-K:

Current Report on Form 8-K, Item 7.01 dated April 25, 2007 as filed with the Commission on April 25, 2007.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this Quarterly Report to be signed on its behalf by the undersigned, thereunto duly authorized.
