-

Item 7.01 Regulation FD Disclosure.

On May 26, 2015, the Journal of Vascular Surgery published an abstract entitled “Thirty-Day Results of the Pivotal Trial of the Nellix System for Endovascular Aneurysm Sealing (EVAS).” In response to inquiries regarding the Type II endoleak rate, Endologix, Inc. (the “Company”) disclosed that such endoleaks are very small and involved only lumbar arteries. In addition, the Company disclosed that of the eight patients with reported Type II endoleaks, seven have preliminary follow-up data at six months which shows that five of those seven endoleaks have resolved. The foregoing is similar to endoleak data from the Company’s EVAS FORWARD - Global Registry which also shows a low rate of Type II endoleaks.

In accordance with General Instruction B.2 of Form 8-K, the information in this Item 7.01 is being furnished and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

ENDOLOGIX, INC.
