TOTAL ENTERTAINMENT RESTAURANT CORP.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

1. Basis of Presentation and Description of Business

The unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the Company's audited consolidated financial statements in its 2002 Form 10-K. The results of the twelve weeks ended September 9, 2003 are not necessarily indicative of the results to be expected for the full year ending December 30, 2003.

2. Accounting for Stock-Based Compensation

In accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, the Company uses the intrinsic value-based method for measuring stock-based compensation cost which measures compensation cost as the excess, if any, of the quoted market price of Company's common stock at the grant date over the amount the employee must pay for the stock. The Company's policy is to grant stock options with grant prices equal to the fair value of the Company's common stock at the date of grant. Proceeds from the exercise of common stock options issued to officers, directors and key employees under the Company's stock option plans are credited to common stock to the extent of par value and to additional paid-in capital for the excess.

Pro forma information regarding net income and earnings per share is required by Statement No. 123, which also requires the information be determined as if the Company has accounted for its employee stock options granted under the fair value of that Statement. The fair value method for these options were estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions: risk-free interest rate ranging from 2.3% to 5.3%; no dividend yields; volatility factor ranging from 0.281 to 0.853; and a weighted-average expected life of the option of 5 years.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the option's vesting period. The Company's pro forma information is as follows:

- 6 -

Twelve Weeks Ended		Thirty-six Weeks Ended

Diluted, pro forma	0.03	0.04	0.35	0.
Weighted average fair value of options granted during the period	\$ 5.66	N/A	\$ 5.36	\$ 6.

3. Stock Options

During the twelve week period ended September 9, 2003, the Company granted to certain key employees stock options for 22,500 shares of Common Stock at a weighted average exercise price of \$8.54 per share and options to purchase 37,192 shares were exercised at a weighted-average exercise price of \$3.30 per share pursuant to its 1997 Incentive and Nonqualified Stock Option Plan.

4. Earnings Per Share

Basic earnings per share amounts are computed based on the weighted average number of shares actually outstanding. The number of weighted averaged shares outstanding for the twelve week periods ended September 9, 2003 and September 3, 2002 were 9,753,883 and 9,573,356, respectively; the number of weighted average shares outstanding for the thirty-six week periods ended September 9, 2003 and September 3, 2002 were 9,785,127 and 9,007,756, respectively.

Diluted earnings per share are computed similar to basic earnings per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options were exercised and the proceeds from such exercises were used to acquire common shares at an average price during the reporting period. The number of shares resulting from this computation of diluted earnings per share for the twelve weeks ended September 9, 2003 and September 3, 2002 were 10,212,946 and 10,140,017, respectively, and for the thirty-six week periods ended September 9, 2003 and September 3, 2002 were 10,183,126 and 9,500,124, respectively.

- 7 -

5. New Accounting Standards

In August 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 addresses significant issues relating to the implementation of SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, and develops a single accounting method under which long-lived assets that are to be disposed of by sale are measured at the lower of book value or fair value less cost to sell. Additionally, SFAS No. 144 expands the scope of discontinued operations to include all components of an entity with operations that (1) can be distinguished from the rest of the entity and (2) will be eliminated from the

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

ongoing operations of the entity in a disposal transaction. The Company adopted the provisions of SFAS No. 144 effective December 26, 2001. The Company closed and abandoned one restaurant on March 31, 2002. Pursuant to SFAS No. 144, each restaurant is a component of the entity, and the operations of the closed restaurant can be distinguished from the rest of the entity and will be eliminated from the ongoing operations of the Company. Accordingly, the operations of the closed restaurant, net of applicable income tax effect, have been presented as discontinued operations.

6. Legal Proceedings

Certain former employees have filed a complaint on their own behalf and on the behalf of similarly situated persons alleging the Company violated certain provisions of the Fair Labor Standards Act. Management of the Company is of the opinion that any resulting liability will not have a material adverse effect on the Company's financial statements.

7. Note Payable

The Company's note payable (line of credit) with a bank was amended effective October 1, 2003 resulting in an extension of the terms of the line of credit by three years. The line of credit now requires monthly payments of interest only until November 1, 2006, at which time equal monthly installments of principal and interest are required as necessary to fully amortize the outstanding indebtedness plus future interest over a period of four years. All other terms of the line of credit remained unchanged.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The following discussion and analysis should be read in conjunction with the Financial Statements and Notes thereto included elsewhere in this Form 10-Q.

As of September 9, 2003, the Company owned and operated 60 restaurants under the Fox and Hound Smokehouse & Tavern and Fox and Hound English Pub & Grille ("Fox and Hound"), Bailey's Smokehouse & Tavern, Bailey's Sports Grille and Bailey's Pub & Grille ("Bailey's") brand names. The Company's restaurants offer a broad menu of mid-priced appetizers, entrees, and desserts served in generous portions. In addition, each location features a full-service bar and offers a wide selection of major domestic, imported and specialty beers. Each restaurant emphasizes a high energy environment with multiple billiard tables and satellite and cable coverage of a variety of sporting events and music videos. In addition to its food, the Company believes that customers are attracted to the elegant yet comfortable atmosphere of polished brass, embroidered chairs and booths, hunter green and burgundy walls, and etched glass. The Fox and Hound and Bailey's restaurants share identical design and operational principles and menus. As of September 9, 2003, the Company owned and operated 45 Fox and Hound restaurants and 15 Bailey's restaurants located in Alabama, Arizona, Arkansas, Colorado, Georgia, Illinois, Indiana, Kansas, Louisiana, Michigan, Missouri, Nebraska, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas and Virginia. As of September 3, 2002, the Company owned and operated 37 Fox and Hound restaurants and 14 Bailey's restaurants.

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

The components of the Company's net sales are food and non-alcoholic beverages, alcoholic beverages, and entertainment and other (principally billiard table rental fees). For the twelve weeks ended September 9, 2003, food and non-alcoholic beverages were 35.0% of total sales, alcoholic beverages were 57.1% of total sales and entertainment and other were 7.9% of total sales. For the twelve weeks ended September 3, 2002, food and non-alcoholic beverages were 33.5% of total sales, alcoholic beverages were 57.7% of total sales and entertainment and other were 8.8% of total sales.

The components of the Company's cost of sales primarily include direct costs of food, non-alcoholic beverages and alcoholic beverages. These costs are generally variable and will fluctuate with changes in sales volume and sales mix.

Components of restaurant operating expenses include operating payroll and fringe benefits, and occupancy, maintenance and utilities. All but one of the Company's locations are leased and provide for a minimum annual rent, with some leases calling for additional rent based on sales volume at the particular location in excess of specified minimum sales levels.

Depreciation and amortization costs primarily include depreciation and amortization of capital expenditures for restaurants.

Preopening costs include labor costs, costs of hiring and training personnel and certain other costs relating to opening new restaurants.

General and administrative expenses include all corporate and administrative functions that support existing operations and provide an infrastructure to support future growth. Management, supervisory and staff salaries, employee benefits, travel, information systems, training, rent and office supplies as well as accounting services fees are major items of costs in this category.

In calculating comparable restaurant sales, the Company includes a restaurant in the comparable restaurant base after it has been in operation for 18 full months. As of September 9, 2003, there were 45 restaurants in the comparable restaurant base. Annualized average weekly sales are computed by dividing net sales during the period by the number of store operating weeks and multiplying the result by 52. These calculations include sales and store operating weeks for the one unit included in discontinued operations.

Results of Operations

The following table sets forth for the periods indicated (i) the percentages which certain items included in the Condensed Consolidated Statement of Operations bear to net sales, and (ii) other selected operating data. The Company operates on a 52 or 53 week fiscal year ending the last Tuesday in December. Fiscal year 2002 consisted of 53 weeks and fiscal year 2003 consists of 52 weeks. Fiscal quarters consist of three accounting periods of 12 weeks each and a final period of 16 or 17 weeks.

Loss from discontinued operations	--	--
Net income	1.9%	2.3%
Restaurant Operating Data (dollars in thousands):		
Annualized average weekly sales per location	\$ 1,840	\$ 1,822
Number of restaurants at end of the period	60	51

Twelve Weeks Ended September 9, 2003 Compared to Twelve Weeks Ended September 3, 2002

Net sales increased \$4,257,000 (20.3%) for the twelve weeks ended September 9, 2003 to \$25,269,000 from \$21,012,000 for the twelve weeks ended September 3, 2002. This increase was due to a 19.3% increase in store weeks (714 versus 600) as a result of nine restaurants opened since September 3, 2002 and a 1.0% increase in annualized average weekly sales per location. Comparable restaurant sales decreased 2.8% for the twelve weeks ended September 9, 2003.

Costs of sales increased \$1,117,000 (20.2%) for the twelve weeks ended September 9, 2003 to \$6,650,000 from \$5,533,000 in the twelve weeks ended September 3, 2002, and was 26.3% of sales for both periods.

Restaurant operating expenses increased \$2,528,000 (21.4%) for the twelve weeks ended September 9, 2003 to \$14,353,000 from \$11,825,000 in the twelve weeks ended September 3, 2002, and increased as a percentage of net sales to 56.8% from 56.3%. This increase as a percentage of sales is principally attributable to higher occupancy costs on new units, higher utility costs, and higher liability insurance and claims expense offset by lower advertising costs.

Depreciation and amortization increased \$297,000 (25.0%) for the twelve weeks ended September 9, 2003 to \$1,485,000 from \$1,188,000 in the twelve weeks ended September 3, 2002, and increased as a percentage of sales to 5.9% from 5.7%. This increase in expense is due to additional depreciation on nine restaurants opened since September 3, 2002.

Preopening costs increased \$56,000 (11.8%) for the twelve weeks ended September 9, 2003 to \$526,000 from \$470,000 in the twelve weeks ended September 3, 2002. These costs are attributable to two units that opened during the twelve weeks ended September 9, 2003 and partial preopening expenses for five restaurants which have yet to open. Three restaurants were opened in the twelve weeks ended September 3, 2002.

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

General and administrative expenses increased \$272,000 (23.2%) for the twelve weeks ended September 9, 2003 to \$1,441,000 from \$1,169,000 in the twelve weeks ended September 3, 2002, due to an increase in corporate infrastructure to support the Company's expansion. General and administrative expenses increased as a percentage of net sales to 5.7% from 5.6%.

Loss on disposal of assets was \$25,000 for the twelve weeks ended September 9, 2003. The losses reflect the disposal of certain point of sale equipment.

Interest expense was \$60,000 for the twelve weeks ended September 9, 2003 and \$62,000 for the twelve weeks ended September 3, 2002.

The effective income tax rate was 34.1% for the twelve weeks ended September 9, 2003 and 37.8% for the twelve weeks ended September 3, 2002. This decrease is due primarily to the impact of the credit for social security taxes paid on tips in excess of minimum wage relative to the amount of income before taxes.

Thirty-six Weeks Ended September 9, 2003 Compared to Thirty-six Weeks Ended September 3, 2002

Net sales increased \$13,313,000 (20.7%) for the thirty-six weeks ended September 9, 2003 to \$77,558,000 from \$64,245,000 for the thirty-six weeks ended September 3, 2002. This increase was due to a 20.6% increase in store weeks (2,053 versus 1,703) as a result of nine restaurants opened since September 3, 2002 and a 0.4% decrease in annualized average weekly sales per location. Comparable restaurant sales decreased 1.9% for the thirty-six weeks ended September 9, 2003.

Costs of sales increased \$3,303,000 (19.6%) for the thirty-six weeks ended September 9, 2003 to \$20,164,000 from \$16,861,000 in the thirty-six weeks ended September 3, 2002, and decreased as a percentage of sales to 26.0% from 26.2%. This decrease as a percentage of sales is principally attributable to price increases implemented in the first quarter of fiscal year 2003.

Restaurant operating expenses increased \$7,874,000 (23.5%) for the thirty-six weeks ended September 9, 2003 to \$41,372,000 from \$33,498,000 in the thirty-six weeks ended September 3, 2002, and increased as a percentage of net sales to 53.3% from 52.1%. This increase as a percentage of sales is principally attributable to higher occupancy costs on new units, higher utility costs, and higher liability insurance and claims.

Depreciation and amortization increased \$992,000 (30.5%) for the thirty-six weeks ended September 9, 2003 to \$4,244,000 from \$3,252,000 in the thirty-six weeks ended September 3, 2002, and increased as a percentage of sales to 5.5% from 5.1%. This increase in expense is due to additional depreciation on nine restaurants opened since September 3, 2002.

Preopening costs decreased \$137,000 (10.4%) for the thirty-six weeks ended September 9, 2003 to \$1,185,000 from \$1,322,000 in the thirty-six weeks ended September 3, 2002. These costs are attributable to six units that opened during the thirty-six weeks ended September 9, 2003 and partial preopening expenses for five restaurants which have yet to open. Nine restaurants were opened in the thirty-six weeks ended September 3, 2002.

General and administrative expenses increased \$742,000 (21.2%) for the thirty-six weeks ended September 9, 2003 to \$4,237,000 from \$3,495,000 in the thirty-six weeks ended September 3, 2002, due to an increase in corporate infrastructure to support the Company's expansion. General and administrative expenses increased as a percentage of net sales to 5.5% from 5.4%.

- 11 -

Loss on disposal of assets was \$42,000 for the thirty-six weeks ended September 9, 2003 and \$18,000 for the thirty-six weeks ended September 3, 2002. The losses reflect the disposal of certain point of sale equipment in the current fiscal year and video games in the prior fiscal year.

Interest expense was \$130,000 for the thirty-six weeks ended September 9, 2003 and \$287,000 for the thirty-six weeks ended September 3, 2002. This

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

decrease is due mainly to a lower average balance applicable to the revolving note payable in the current fiscal year compared with the prior fiscal year as well as a lower interest rate.

The effective income tax rate was 35.6% for the thirty-six weeks ended September 9, 2003 and 36.8% for the thirty-six weeks ended September 3, 2002. This decrease is due primarily to the impact of the credit for social security taxes paid on tips in excess of minimum wage relative to the amount of income before taxes.

Income from discontinued operations was \$13,000 for the thirty-six weeks ended September 3, 2002 applicable to the restaurant closed on March 31, 2002.

Quarterly Fluctuations, Seasonality and Inflation

The timing of new unit openings will result in significant fluctuations in quarterly results. The Company expects seasonality to be a factor in the results of its business in the future due to expected lower second and third quarter revenues due to the summer season. The primary inflationary factors affecting the Company's operations include food, liquor and labor costs. A large number of the Company's restaurant personnel are tipped employees who are paid at the federal subminimum wage level; therefore, future subminimum wage changes will have a significant effect on labor costs. As costs of food and labor have increased, the Company has historically been able to offset these increases through economies of scale, improved operating procedures and menu price changes; however, short-term fluctuations in raw product pricing may have an impact on the Company's costs of food. To date, inflation has not had a material impact on operating margins.

Liquidity and Capital Resources

As is customary in the restaurant industry, the Company operates with negative working capital. Negative working capital decreased \$622,000 to \$4,997,000 as of September 9, 2003 from \$5,618,000 as of December 31, 2002. This decrease is attributable primarily to the excess of working capital provided by operations and net proceeds from the line of credit in excess of the cost of purchases of property and equipment and repurchases of common stock offset by the increase in current portion of notes payable of \$1,519,000. Cash decreased \$446,000 to \$670,000 at September 9, 2003 compared to the balance of \$1,116,000 at December 31, 2002. The Company does not have significant receivables or inventory and receives trade credit based upon negotiated terms in purchasing food and supplies. Because funds available from cash sales are not needed immediately to pay for food and supplies, or to finance inventory, they may be considered as a source of financing for noncurrent capital expenditures.

On September 1, 1998 the Company entered into a loan agreement with Intrust Bank, N.A. (the "Line of Credit") which provides for a line of credit of \$20,000,000 subject to certain limitations based on earnings before interest, taxes, depreciation and amortization of the past fifty-two weeks and the amount of capital lease obligations on personal property. The Line of Credit is secured by substantially all of the Company's assets. The Line of Credit was amended on October 1, 2003 resulting in an extension of the terms of the Line of Credit by three years. The Line of Credit requires monthly payments of interest only until November 1, 2006, at which time

- 12 -

equal monthly installments of principal and interest are required as necessary to fully amortize the outstanding indebtedness plus future interest over a period of four years. Interest is accrued at 1/2% below the prime rate as published in The Wall Street Journal. Proceeds from the Line of Credit are being used for restaurant development. As of September 9, 2003 the Company had borrowed \$7,455,000 under the Line of Credit. The Company is in compliance with all debt covenants.

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

Cash flows from operations were \$6,884,000 in the thirty-six weeks ended September 9, 2003 compared to \$7,396,000 in the thirty-six weeks ended September 3, 2002. Purchases of property and equipment were \$10,955,000 in the thirty-six weeks ended September 9, 2003 compared to \$12,951,000 in the thirty-six weeks ended September 3, 2002. Advances made to the developer of two build-to-suit locations were \$272,000 in the thirty-six weeks ended September 9, 2003. Net proceeds from the revolving note payable to bank was \$4,915,000 for the thirty-six week period ending September 9, 2003 compared to net repayments of \$9,515,000 for the thirty-six weeks ending September 3, 2002. At September 9, 2003, the Company had \$670,000 in cash and cash equivalents.

The Company intends to open ten new locations in fiscal year 2003 and twelve to fifteen new locations in fiscal year 2004. At September 9, 2003, six units had been opened in fiscal 2003, four units were under construction, leases had been executed on three additional sites, and lease negotiations had begun on seven additional sites. The Company is currently evaluating locations in markets familiar to its management team. However, the number of locations actually opened and the timing thereof may vary depending upon the ability of the Company to locate suitable sites and negotiate favorable leases. The Company expects to expend approximately \$15.0 to \$23.0 million to open new locations over the next twelve months.

The Company believes the funds available from the Line of Credit and its cash flow from operations will be sufficient to satisfy its working capital and capital expenditure requirements for at least the next twelve months. There can be no assurance, however, that changes in the Company's operating plans, the acceleration or modification of the Company's expansion plans, lower than anticipated revenues, increased expenses, stock repurchases, potential acquisitions or other events will not cause the Company to seek additional financing sooner than anticipated, prevent the Company from achieving the goals of its expansion strategy or prevent any newly opened locations from operating profitably. There can be no assurance that additional financing will be available on terms acceptable to the Company or at all.

Forward Looking Statements

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. Although the Company believes that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate. Our actual results may differ materially from the forward-looking statements contained herein. Factors that could cause actual results to differ from the results discussed in the forward-looking statements include, but are not limited to, potential increases in food, alcohol, labor, and other operating costs, changes in competition, the inability to find suitable new locations, changes in consumer preferences or spending patterns, changes in demographic trends, the effectiveness of our operating and growth initiatives and promotional efforts, and changes in

- 13 -

government regulation. Further information about the factors that might affect the Company's financial and other results are included in the Company's 10-K, filed with the Securities and Exchange Commission. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Edgar Filing: TOTAL ENTERTAINMENT RESTAURANT CORP - Form 10-Q

Interest Rate Risk

The Company's Line of Credit has a variable rate which is directly affected by changes in U.S. interest rates. The average interest rate of the Line of Credit was 3.54% for the twelve weeks ended September 9, 2003. The interest rate at September 9, 2003 was 3.50%. The following table presents the quantitative interest rate risks at September 9, 2003:

	Principal Amount by Expected Maturity						
(dollars in thousands)	(In thousands)						There-
	2003	2004	2005	2006	2007	after	To
Variable rate debt	\$290	\$1,778	\$1,841	\$1,906	\$1,640	\$ --	\$7,
Average Interest Rate--							
1/2% below prime	--	3.50%	3.50%	3.50%	3.50%	3.50%	

Item 4. Procedures and Controls

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective. There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.
