NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Note A – Summary of Significant Accounting Policies

Presentation of Consolidated Condensed Financial Statements – The significant accounting policies followed by the Company and its wholly owned subsidiaries for interim financial reporting are consistent with the accounting policies followed for annual financial reporting. All adjustments that are of a normal recurring nature and are in the opinion of management necessary for a fair statement of the results for the periods reported have been included in the accompanying consolidated condensed financial statements. The consolidated condensed balance sheet of the Company as of December 26, 2009 has been derived from the audited consolidated balance sheet of the Company as of that date. Certain information and note disclosures normally included in the Company’s annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Form 10-K annual report for 2009 filed with the Securities and Exchange Commission.

Note B – Reclassifications

Certain reclassifications have been made to prior year financial statements to conform to the current year financial statement presentation. These reclassifications had no effect on net earnings.

Note C – Seasonal Aspects

The results of operations for the three and six month periods ended July 10, 2010 and July 11, 2009 are not necessarily indicative of the results to be expected for the full year.

Note D – Inventories

In thousands	July 10, 2010	July 11, 2009	December 26, 2009
Raw materials	\$ 6,913	\$ 9,574	\$ 6,357

	\$ 26,232	\$ 28,102	\$ 20,905

Note E – Equity Interest Investments

The Company has a 50% interest in two joint ventures, Stiga Sports AB (Stiga) and Escalade International, Ltd. These 50% owned joint ventures are accounted for under the equity method of accounting. Stiga Sports AB, located in Sweden, is a global sporting goods company producing table tennis equipment and game

products. Escalade International Ltd., located in the United Kingdom, is a sporting goods wholesaler, specializing in fitness and exercise equipment and game tables. Financial information for these two entities reflected in the table below has been translated from local currency to U.S. dollar using exchange rates in effect at the respective period-end for balance sheet amounts and using average exchange rates for income statement amounts. Certain differences exist between U.S. GAAP and local GAAP in Sweden and the United Kingdom, and the impact of these differences is not reflected in the summarized information reflected in the table below. The most significant difference relates to the accounting for goodwill for Stiga which is amortized over eight years in Sweden but is not amortized for U.S. GAAP reporting purposes. The effect on Stiga's net assets resulting from the amortization of goodwill for the periods ended July 10, 2010 and July 11, 2009 are addbacks to Stiga's consolidated financial information of \$6.2 million and \$4.4 million, respectively. These net differences are comprised of cumulative goodwill adjustments of \$8.7 million offset by the related cumulative tax effect of \$2.5 million as of July 10, 2010 and cumulative goodwill adjustments of \$6.1 million offset by the related cumulative tax effect of \$1.7 million as of July 11, 2009. The income statement impact of these goodwill and tax adjustments and other individually insignificant U.S. GAAP adjustments for the periods ended July 10, 2010, and July 11, 2009 are to increase Stiga's net income by approximately \$0.9 million and \$0.7 million, respectively. In addition, Escalade has a 49.9% interest in a joint venture in Taiwan which is reporting no income and for which its assets have no material impact on the Company's financial reporting. Information regarding this entity is considered immaterial and has not been included in the combined totals listed below.

Summarized financial information for combined Stiga Sports AB and Escalade International, Ltd. balance sheets as of July 10, 2010, July 11, 2009, and December 26, 2009 and statements of operations for the three and six months ended July 10, 2010, and July 11, 2009, of which Escalade, Incorporated is a 50% owner, is as follows:

Note F – Notes Payable

On May 31, 2010 the Company entered into the Sixth Amendment to its Credit Agreement with its issuing bank, JP Morgan Chase Bank, N.A. The Sixth Amendment amends the Credit Agreement dated as of April 30, 2009, which had a maturity date of May 31, 2010. The Amendment provides for a multi-year loan facility. As amended, the Credit Agreement now makes available to the Company a senior revolving credit facility in the maximum principal amount of up to \$27 million with a maturity date of May 31, 2012 and a term loan in the principal amount of \$10 million with a maturity date of May 31, 2015. The term loan agreement requires the Company to make repayment of the principal balance in equal installments of \$0.5 million per quarter beginning in September 2010. The Amendment also provides a \$2 million euro overdraft facility to replace the previous \$1 million euro overdraft facility and the revolving Euro credit facility. A portion of the credit facility not in excess of \$5 million is available for the issuance of commercial or standby letters of credit to be issued by Chase.

Note G – Income Taxes

The provision for income taxes was computed based on financial statement income. In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, the Company has recorded the following changes in uncertain tax positions:

In thousands	Six Months Ended	
	July 10, 2010	July 11, 2009

Note H – Fair Values of Financial Instruments

The following methods were used to estimate the fair value of all financial instruments recognized in the accompanying balance sheets at amounts other than fair values.

Cash and Cash Equivalents and Time Deposits

Fair values of cash and cash equivalents and time deposits approximate cost due to the short period of time to maturity.

Notes Payable and Long-term Debt

As of July 10, 2010, the Company has \$8 million of debt classified as long-term, which consists of the non-current portion of the term loan described in Note F. The Company believes the carrying value of both short-term and long-term debt adequately reflects the fair value of these instruments.

The following table presents estimated fair values of the Company's financial instruments in accordance with FASB ASC 480 at July 10, 2010 and July 11, 2009.

In thousands	July 10, 2010		July 11, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets				
Cash and cash equivalents	\$2,463	\$2,463	\$4,137	\$4,137
Time deposits	\$1,250	\$1,250	\$—	\$—
Available-for-sale securities-mutual funds	\$—	\$—	\$1,403	\$1,403
Financial liabilities				
Note payable and Long-term debt	\$23,712	\$23,712	\$40,052	\$40,052

Note I – Stock Compensation

The fair value of stock-based compensation is recognized in accordance with the provisions of FASB ASC 718, Stock Compensation.

During the six months ended July 10, 2010 and pursuant to the 2007 Incentive Plan, in lieu of director fees, the Company awarded to certain directors 21,184 shares of common stock. In addition, the Company awarded 30,000 stock options to directors and 299,000 stock options to employees. The stock options awarded to directors vest at the end of one year and have an exercise price equal to the market price on the date of grant. Director stock options are subject to forfeiture, except for termination of services as a result of retirement, death or disability, if on the vesting date the director no longer holds a position with the Company. The 2010 stock options awarded to employees have a graded vesting of 25% per year over four years and are subject to forfeiture if on the vesting date the employee is no longer employed. The Company utilizes the Black-Scholes option pricing model to determine the fair value of stock options granted.

For the three month and six months ended July 10, 2010, the Company recognized stock based compensation expense of \$55 thousand and \$217 thousand, respectively, compared to stock based compensation expense of \$158 thousand and \$273 thousand for the same periods last year. During the second quarter of 2010, the Company recorded the impact of pre-vesting forfeitures of certain restricted stock units. The impact of these pre-vesting forfeitures was to reduce stock compensation expense in the second quarter by \$259 thousand. At July 10, 2010 and July 11, 2009, respectively, there was \$0.6 and \$0.9 million in unrecognized stock-based compensation expense related to non-vested stock awards.

Note K – Dividend Payment

The Company has not declared a dividend to be paid in 2010.

Note L - Earnings Per Share

The shares used in computation of the Company's basic and diluted earnings per common share are as follows:

All amounts in thousands	Three Months Ended		Six Months Ended	
	July 10, 2010	July 11, 2009	July 10, 2010	July 11, 2009

Stock options that are anti-dilutive as to earnings per share and unvested restricted stock units which have a market condition for vesting that has not been achieved are ignored in the computation of dilutive earnings per share. The number of stock options and restricted stock units that were excluded in 2010 and 2009 were 529,149 and 492,725, respectively.

Note M – New Accounting Standards

With the exception of those discussed below, there have been no recent accounting pronouncements or changes in accounting pronouncements during the six months ended July 10, 2010, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K for the fiscal year ended December 26, 2009, that are of significance, or potential significance to the Company.

In December 2009, FASB issued Accounting Standards Update 2009-17, Improvements to Financial Reporting by Enterprises with Variable Interest Entities to incorporate the changes made by FASB Statement No. 167 into the FASB Codification. The guidance in this update is effective for periods beginning after November 15, 2009 and thus is effective for the Company's first quarter reporting in 2010. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In December 2009, FASB issued Accounting Standards Update 2010-02, Consolidation (Topic 810) – Accounting and Reporting for Decreases in Ownership of a Subsidiary – A Scope Clarification, which expands the disclosure requirements about deconsolidation of a subsidiary or derecognition of a group of assets. The guidance in this update is effective for periods beginning in the first interim or annual reporting period ending on or after December 15, 2009 and thus is effective for the Company's first quarter reporting in 2010. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

Note N – Commitments and Contingencies

The Company has been made aware of a potential financial obligation relating to an 8,600 square foot facility we are sub-leasing in Spain. We are actively investigating the legitimacy of this claim and the potential recourse options available to us should the claim be valid. At this time, Management is unable to estimate the potential exposure

related to this matter, if any, but does not believe this will create a material adverse impact on our consolidated financial conditions.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This report contains forward-looking statements relating to present or future trends or factors that are subject to risks and uncertainties. These risks include, but are not limited to, the impact of competitive products and pricing, product demand and market acceptance, Escalade's ability to successfully integrate the operations of acquired assets and businesses, new product development, the continuation and development of key customer and supplier relationships, Escalade's ability to control costs, general economic conditions, fluctuation in operating results, changes in the securities market, Escalade's ability to obtain financing and to maintain compliance with the terms of such financing, and other risks detailed from time to time in Escalade's filings with the Securities and Exchange Commission. Escalade's future financial performance could differ materially from the expectations of Management contained herein. Escalade undertakes no obligation to release revisions to these forward-looking statements after the date of this report.

Overview

Escalade, Incorporated ("Escalade" or "Company") manufactures and distributes products for two industries: Sporting Goods and Office Products. Within these industries the Company has successfully built a market presence in niche markets. This strategy is heavily dependent on expanding the customer base, barriers to entry, brand recognition and excellent customer service. A key strategic advantage is the Company's established relationships with major customers that allow the Company to bring new products to the market in a cost effective manner while maintaining a diversified product line and wide customer base. In addition to strategic customer relations, the Company has over 80 years of manufacturing and import experience that enable it to be a low cost supplier.

A majority of the Company's products are in markets that are experiencing low growth rates. Where the Company enjoys a commanding market position, such as table tennis tables in the Sporting Goods segment and paper folding machines in the Office Products segment, revenue growth is expected to be roughly equal to general growth/decline in the economy. However, in markets that are fragmented and where the Company is not the dominant leader, such as archery in the Sporting Goods segment and data security shredders in the Office Products segment, the Company anticipates growth. To enhance growth, the Company has a strategy of promoting new product innovation and development and brand marketing. In addition, the Company will continue to investigate acquisition opportunities of companies or product lines that complement or expand the Company's product lines. A key objective is the acquisition of product lines with barriers to entry that the Company can take to market through its established distribution channels or through new market channels. Significant synergies are achieved through assimilation of acquired product lines into the existing company structure. Management believes that key indicators in measuring the success of this strategy are revenue growth, earnings growth and the expansion of channels of distribution.

Results of Operations

Operating income for the second quarter more than doubled from the same period in the prior year. The Company's operating income for the second quarter and first half of fiscal 2010 was \$3.5 million and \$4.9 million, respectively, compared to operating income of \$1.4 million and \$0.7 million for the same periods last year. Consolidated net sales for the second quarter of 2010, compared to the same period in 2009 were up 9% in the Sporting Goods segment, while down 17% in the Office Product segment. Consolidated net sales for the second quarter and first half of 2010 remain steady and show slight improvement over the same periods last year.

The following schedule sets forth certain consolidated statement of operations data as a percentage of net revenue:

Consolidated Revenue and Gross Margin

Revenues from the Sporting Goods business were up 9% in both the first and second quarters compared to the same quarters last year. Increases in consumer spending and new product distribution are driving sales increases. Management believes improved sales in the Sporting Goods segment will continue through the remainder of the year.

Compared to last year, revenues from the Office Products business declined 17% and 15% for the second quarter and first half of 2010, respectively. Excluding the effects of changes in the currency exchange rates, revenues declined 15.4% and 15.9%, for the second quarter and first half of 2010, respectively. Financial uncertainty in several key markets in Europe, particularly Spain, Germany and the UK, has negatively impacted customer sentiment and slowed recovery. In addition, many European governments have enacted significant budget cuts which could further impact sales. North America experienced similar decreases in both government and commercial sales channels. The Company will continue with new product launches to achieve future growth; however, Management expects the challenging sales environment in the Office Product segment to continue through the remainder of 2010.

The overall gross margin ratios for the second quarter and first half of 2010 were 33.3% and 33.6%, respectively, compared to 31.0% and 31.2%, respectively, for same periods last year. Management expects gross margins for the remainder of 2010 to exceed prior year.

Consolidated Selling, General and Administrative Expenses

Compared to the same periods last year, consolidated selling, general and administrative (“SG&A”) costs decreased 7.8% in the second quarter and 10.9% in the first half of 2010. The Company continues to identify and implement cost savings initiatives while increasing strategic investments in product development and brand marketing.

Provision for Income Taxes

The effective tax rate in the second quarter of 2010 was 39.6% compared to 52.0% in the same period last year. The decrease in the current period tax rate is due mainly to a reduction in the settlement accrued for prior year audits in Germany offset by a decrease in the deferred tax asset relating to forfeitures of restricted stock units. Also affecting the tax rate for both years are losses in certain foreign countries where a tax benefit is not expected to be realized. The Company anticipates the effective tax rate for 2010 to be relatively unchanged for the remainder of the year.

Financial Condition and Liquidity

Edgar Filing: ESCALADE INC - Form 10-Q

Total bank debt at the end of the first half of 2010 was down 41% from the same period last year, as well as down 14% from the latest year end. The following schedule summarizes the Company's total bank debt:

12

In thousands	July 10, 2010	July 11, 2009	December 26, 2009
Notes payable short-term	\$ 13,712	\$ 40,052	\$ 27,644
Current portion long-term debt	2,000	—	—
Long term debt	8,000	—	—
Total bank debt	\$ 23,712	\$ 40,052	\$ 27,644

The Company continues to improve its debt to equity ratio. As a percentage of stockholders' equity, total bank debt was 28%, 50% and 33% at July 10, 2010, July 11, 2009 and December 26, 2009, respectively.

During the first half of 2010, operations provided \$4.2 million in cash primarily due to positive net income as well as a reduction in accounts receivable and an increase in accounts payable relating to timing differences.

The Company funds working capital requirements through operating cash flows and revolving credit agreements with its bank. As a result of the successful reduction of existing outstanding debt during the prior year, the Company was able to reduce its borrowing capacity commitment for 2010. Based on working capital requirements, the Company expects to have access to adequate levels of revolving credit to meet growth needs.

The Company successfully completed negotiations with JPMorgan Chase, its primary lender, regarding amendment to its Senior Secured Revolving Credit Facility and finalized the agreement on May 31, 2010. The Company is continuing to market the Reynosa facility through a national broker and is pursuing all viable offers of purchase or lease. Implementation of a new ERP system at the Office Products U.S. facility has begun with a targeted completion date of year end. Management will evaluate the success of this project before committing to additional implementation sites. Should the Company decide to abandon the Oracle system at all locations, the remaining book value of the Oracle system of approximately \$5.6 million (\$3.6 million, net of tax) would be expensed over the estimated remaining economic life of the system.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to financial market risks, including changes in currency exchange rates, interest rates and marketable equity security prices. To mitigate these risks, the Company has utilized derivative financial instruments among other strategies, but is not currently utilizing any derivative financial instruments. The Company does not use derivative financial instruments for speculative purposes.

Interest Rates

The Company's exposure to market-rate risk for changes in interest rates relates primarily to its revolving variable rate bank debt which is based on LIBOR interest rates and its overdraft facility which is based on EURIBOR interest rates. A hypothetical 1% or 100 basis point change in interest rates would not have a significant effect on our consolidated financial position or results of operation.

Foreign Currency

The Company conducts business in various countries around the world and is therefore subject to risks associated with fluctuating foreign exchange rates. This revenue is generated from the operations of the Company's subsidiaries in their respective countries and surrounding geographic areas and is primarily denominated in each subsidiary's local functional currency. These subsidiaries incur most of their expenses (other than inter-company expenses) in their local functional currency and include the Euro, Great Britain Pound Sterling, Mexican Peso, Chinese Yuan, Swedish Krona and South African Rand.

The geographic areas outside the United States in which the Company operates are generally not considered to be highly inflationary. Nonetheless, the Company's foreign operations are sensitive to fluctuations in currency exchange rates arising from, among other things, certain inter-company transactions that are denominated in currencies other than the respective functional currency. Operating results as well as assets and liabilities are also subject to the effect of foreign currency translation when the operating results, assets and liabilities of our foreign subsidiaries are translated into U.S. dollars in our consolidated financial statements.

The Company and its subsidiaries conduct substantially all their business in their respective functional currencies to avoid the effects of cross-border transactions. To protect against reductions in value and the volatility of future cash flows caused by changes in currency exchange rates, the Company carefully considers the use of transaction and balance sheet hedging programs such as matching assets and liabilities in the same currency. Such programs reduce, but do not entirely eliminate the impact of currency exchange rate changes. The Company has evaluated the use of currency exchange hedging financial instruments but has determined that it would not use such instruments under the current circumstances. Changes in currency exchange rates may be volatile and could affect the Company's performance.

Item 4T. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Escalade maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-14(c). In designing and evaluating the disclosure controls and procedures, Management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and Management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, the Company has investments in certain unconsolidated entities. As the Company does not control or manage these entities, its disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those it maintains with respect to its consolidated subsidiaries.

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

Management of the Company has evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, changes in the Company's internal controls over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the second quarter of 2010.

There have been no changes to the Company's internal control over financial reporting that occurred since the beginning of the Company's second quarter of 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Not Required.

Item 1A. Not Required.

Item 2. (c) ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
Shares purchases prior to 3/20/2010 under the current repurchase program.	982,916	\$ 8.84	982,916	\$ 2,273,939
Second quarter purchases:				
03/21/2010–04/17/2010	None	None	No Change	No Change

06/13/2010-07/10/2010	None	None	No Change	No Change
Total share purchases under the current program	982,916	\$ 8.84	982,916	\$ 2,273,939

The Company has one stock repurchase program which was established in February 2003 by the Board of Directors and which authorized management to expend up to \$3,000,000 to repurchase shares on the open market as well as in private negotiated transactions. The repurchase plan has no termination date. There have been no share repurchases that were not part of a publicly announced program. In February 2008, the Board of Directors increased the remaining amount on this plan to its original level of \$3,000,000. Although authorized by the Board, the Company has agreed to certain restrictions on the repurchase of shares as part of the April 30, 2009 Credit Agreement terms. The Sixth Amendment contained no changes in these restrictions.

Item 3. Not Required.

Item 4. Submission of Matters to a Vote of Security Holders

As previously discussed in the Company's Form 8-K filed with the SEC on May 5, 2010, on April 30, 2010, Escalade, Incorporated (the "Company") held its Annual Meeting of Stockholders for which the Board of Directors solicited proxies. At the Annual Meeting, the stockholders voted on the election of seven directors and the appointment of the Company's independent registered public accounting firm for the Company's 2010 fiscal year.

In the election of directors, results of the voting were as follows:

	For	Withheld
George Savitsky (2 year term)	7,081,558	1,736,920
Richard D. White (2 year term)	7,087,929	1,730,549
Edward E. Williams (2 year term)	7,520,979	1,297,499
Robert E. Griffin (1 year term)	6,974,531	1,843,947
Robert J. Keller (1 year term)	6,985,402	1,833,076
Richard F. Baalman, Jr. (1 year term)	7,519,079	1,299,399

Edgar Filing: ESCALADE INC - Form 10-Q

Patrick J. Griffin (1 year term)	6,921,464	1,897,014
Blaine E. Matthews, Jr.	986,803	7,831,675

Therefore, Messrs. Savitsky, White, Williams, R. Griffin, Keller, Baalman, and P. Griffin were elected to the Board. Mr. Matthews was not elected and his term as a director of the Company ceased immediately upon the election of the seven directors identified in the previous sentence.

As to the appointment of the firm, BKD, LLP to serve as the Company's independent registered public accounting firm for the Company's 2010 fiscal year, the Company's stockholders ratified such appointment by a vote of 10,935,001 shares FOR, 6,094 shares AGAINST, and 55,026 shares ABSTAINED. Therefore, the appointment of BKD, LLP was approved.
