PROXY STATEMENT

DOVER MOTORSPORTS, INC.
ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD MAY 22, 2002

The information concerning the enclosed proxy and the matters to be acted upon at the Annual Meeting of Stockholders to be held on May 22, 2002 (the "Annual Meeting") is submitted to the stockholders for their information.

DOVER MOTORSPORTS, INC., a Delaware corporation (the "Company"), was previously known as Dover Downs Entertainment, Inc. The Company changed its name on March 31, 2002 in connection with the transfer of its gaming operations to Dover Downs Gaming & Entertainment, Inc. and the tax free spin-off of that entity on a pro rata basis to the Company's stockholders.

SOLICITATION OF AND POWER TO REVOKE PROXY

This Proxy Statement is furnished in connection with the solicitation of proxies on behalf of the Board of Directors of the Company. Proxies solicited hereby are to be voted at the Annual Meeting or at any adjournment thereof.

The mailing address for the Company's principal executive office is PO Box 843, Dover, Delaware 19903. This Proxy Statement and the form of proxy were first sent to the Company's stockholders on or about April 26, 2002.

A form of proxy is enclosed. Each proxy submitted will be voted as directed but, if not otherwise specified, proxies solicited by the Board of Directors of the Company will be voted in favor of the candidates for election to the Board of Directors as Class III Directors and for the proposal to authorize the Board of Directors to effect a Reverse Stock Split in a ratio of One for Two.

The solicitation of proxies will be by mail. It may be that further solicitation of proxies will be made by telephone, telegram or interview with some stockholders of the Company, following the original solicitation. All such further solicitations will be made by regular officers and employees of the Company, who will not be additionally compensated therefor, or its Transfer Agent. The Company will bear the entire cost of all such solicitations, which will be nominal and include reimbursements paid to brokerage firms and others for their expenses in forwarding solicitation material regarding the meeting to beneficial owners.

Each stockholder has the right to revoke his or her proxy at any time before it is voted. A proxy may be revoked by filing with the General Counsel of the Company a written revocation or a duly executed proxy bearing a later date or by voting in person at the Annual Meeting. Any stockholder may attend the Annual Meeting and vote in person, whether or not such stockholder has previously given a proxy. If you hold your stock in a broker or bank "street" account and wish to vote your shares in person at the meeting, you must obtain the appropriate documentation from your broker or bank custodian (the record holder).

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

CAPITAL STOCK AND VOTING RIGHTS

The outstanding capital stock of the Company on April 18, 2002 consisted of 14,284,252 shares of Common Stock, par value \$.10 per share (the "Common Stock"), and 23,769,085 shares of Class A Common Stock, par value \$.10 per share (the "Class A Common Stock"). Shares of Class A Common Stock are convertible at any time into shares of Common Stock on a share-for-share basis at the option of the holder thereof.

Voting Rights in General. Each holder of Common Stock is entitled to one vote for each share of Common Stock held and each holder of Class A Common Stock is entitled to ten votes for each share of Class A Common Stock held, except to the extent that voting by class is required by law. At a meeting of stockholders at which a quorum is present, a majority of the votes cast decides all questions, unless the matter is one upon which a different vote is required by express provision of law or the Company's Certificate of Incorporation or Bylaws. Under the General Corporation Law of the State of Delaware, holders of Common Stock and Class A Common Stock are entitled to vote as a class with respect to certain matters, including mergers and amendments to the Certificate of Incorporation of the Company which would have certain specified effects on the Common Stock and Class A Common Stock, respectively.

Quorum. A majority of the outstanding shares, present in person or by proxy, will constitute a quorum at the Annual Meeting. Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Broker non-votes occur when a broker or other nominee does not vote on a particular proposal because it does not have discretionary voting authority for that proposal and has not received voting instructions from the beneficial owner.

Vote Required. Proposal Number One relative to the election of the nominees named herein as Directors will require a plurality of the votes cast by the shares entitled to vote in the election (i.e., the nominees receiving the greatest number of votes will be elected). Accordingly, abstentions and broker non-votes will not affect the outcome of the election of directors. There is no class voting or cumulative voting with respect to the election of directors. Proposal Number Two relative to a Reverse Stock Split in a ratio of One for Two requires the affirmative vote of a majority of the outstanding shares of both Common Stock and Class A Common Stock, voting separately as a class. Abstentions and broker non-votes on this proposal will be counted for purposes of determining the number of shares present on the proposal but will not be counted as votes "for" the proposal. Therefore, abstentions and broker non-votes will have the same effect as votes against these proposals.

STOCK OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

As of March 31, 2002, only 10 persons were known to the Company to own beneficially more than five percent (5%) of the outstanding shares of the Common Stock or Class A Common Stock. Management is responsible for the Company's internal controls and the financial reporting process. The Company's independent auditors are responsible for performing an independent audit of the Company's

6

consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and for issuing a report thereon. The Audit Committee's responsibility is generally to monitor and oversee these processes, as described in the Audit Committee Charter. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally accepted accounting principles; that is the responsibility of management and the Company's independent public accountants.

Each member of the Audit Committee is independent in the judgment of the Company's Board of Directors and as required by the listing standards of the New York Stock Exchange.

With respect to the year ended December 31, 2001, in addition to its other work, the Audit Committee:

REPORT OF THE COMPENSATION AND STOCK OPTION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

During the fiscal year ending December 31, 2001, the members of the Compensation and Stock Option Committee of the Board of Directors held primary responsibility for determining executive compensation levels.

The Company is engaged in a highly competitive industry. As a consequence, the Company views its ability to attract and retain qualified executives as the cornerstone of its future success. In order to accomplish this objective, the Company has endeavored to structure its executive compensation in a fashion that takes into account the Company's operating performance and the individual performance of the executive.

Of necessity, this analysis is subjective in nature and not based upon a structured formula. The factors referred to above are not weighted in an exact fashion.

Pursuant to the above compensation philosophy, the total annual compensation of executive officers of the Company is made up of one or more of three elements. The three elements are salary, an annual incentive and, in some years, grants of stock options.

7

The salary of each executive officer is determined by the Compensation and Stock Option Committee. As previously stated, in making its determinations the Committee gives consideration to the Company's operating performance for the prior fiscal year and the individual executive's performance.

The annual incentive compensation package for the executive officers is developed by the Chief Executive Officer of the Company prior to the end of each fiscal year and presented to the Committee for review, modification or approval. The package is based upon a performance formula for the ensuing fiscal year but its payment is within the discretion of the Chief Executive Officer based on each individual officer's performance.

Awards under the Company's Stock Option Plan are purely discretionary, are not based upon any specific formula and may or may not be granted in any given fiscal year. Grants are made under the Plan and the Plan is administered pursuant to Rule 16b-3 of the Securities Exchange Act of 1934. When considering the grant of stock options, the Committee gives consideration to the overall performance of the Company and the performance of individual employees.

CEO COMPENSATION

The CEO's compensation is determined by the Compensation and Stock Option Committee. As is the case with respect to the executive officers, the CEO's compensation is based upon the Company's operating performance and his individual performance. The CEO's compensation consists of the same three

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

elements identified above with respect to executive officers: salary, an annual incentive, and, in some years, grants of stock options. The determination of salary and the award of stock options, if any, are subjective and not based upon any specific formula or guidelines. The determination of an annual incentive is based on the amount by which the Company's pre-tax earnings exceed a target established by the Committee prior to the beginning of the fiscal year. The target is revised annually. The CEO is not a member of the Committee and does not participate in the deliberations of the Committee when his salary or incentive is determined.

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors and persons who own more than ten percent of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC"). Officers, directors and greater than ten percent stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based on its review of the copies of such forms received by it, the Company believes that during its fiscal year ended December 31, 2001, all filing requirements applicable to its officers, directors and greater than ten percent beneficial owners were complied with.

COMMON STOCK PERFORMANCE

The following graph reflects a comparison of the cumulative total stockholder return on the Company's Common Stock with the S&P Composite 500 Index and an index of peer companies selected by the Company consisting of companies engaged in the motorsports business. The peer group is comprised of the Company, Speedway Motorsports, Inc., International Speedway Corporation and Championship Auto Racing Teams, Inc. In addition, as required by Securities and Exchange Commission rules, the graph includes the peer group from last year's proxy statement ("Old Peer Group") which includes the following gaming companies: Penn National Gaming, Inc., Argosy Gaming Company, The Sands Regent, President Casinos, Inc., Isle of Capri Casinos, Inc., Churchill Downs, Inc. and Pinnacle Entertainment, Inc. These have been dropped from the peer group due to the transfer of the Company's gaming operations to Dover Downs Gaming & Entertainment, Inc. and the March 31, 2002 spin-off of that entity to the Company's stockholders. The graph assumes that the value of the investment in the Company's common stock and each index was 100 at December 31, 1996 and all dividends were reinvested. The comparisons in this table are required by the Securities and Exchange Commission and, therefore, are not intended to forecast or be necessarily indicative of any future return on the Company's common stock.

OPTION AND STOCK APPRECIATION RIGHTS GRANTS IN LAST FISCAL YEAR

The following table sets forth stock options granted in the fiscal year ending December 31, 2001 to each of the Company's Named Executives. Employees of the Company and its subsidiaries are eligible for stock option grants based on individual performance. The Company did not issue any stock appreciation rights. The table also sets forth the hypothetical gains that would exist for the options at the end of their eight-year terms, assuming compound rates of stock appreciation of 0%, 5% and 10%. The actual future value of the options will depend on the market value of the Company's Common Stock. All option exercise prices are based on the market price on the grant date.

- (2) These amounts, based on assumed appreciation rates of 0% and the 5% and 10% prescribed by the Securities and Exchange Commission rules, are not intended to forecast possible future appreciation, if any, of the Company's stock price. These numbers do not take into account certain provisions of options providing for termination of the option following termination of employment, nontransferability or phased-in vesting.

BENEFIT PLANS

Pension Plans

The Company's Pension Plan is a non-contributory qualified employee defined benefit plan. All full time employees of the Company are eligible to participate in the Pension Plan. Up to September 30, 1989, retirement benefits were equal to the sum of from 1% to 1.8% of an employee's annual cash compensation for each year of service to age 65. Commencing October 1, 1989 and thereafter, retirement benefits are equal to the sum of 1.35% of earnings up to covered compensation, as that term is defined in the Plan, and 1.7% of earnings above covered compensation. Pensionable earnings includes regular salaries or wages, commissions, bonuses, overtime earnings and short-term disability income protection benefits.

Retirement benefits are not subject to any reduction for Social Security benefits or other offset amounts. An employee's benefits may be paid in certain alternative forms having actuarially equivalent values. Retirement benefits are fully vested after the completion of five years of credited service or, if earlier, upon reaching age 55. The maximum annual benefit under a qualified pension plan is currently \$160,000 beginning at the Social Security retirement age (currently age 65).

The Company maintains a non-qualified, defined benefit plan, called the Excess Benefit Plan, which covers those participants of the Pension Plan whose benefits are limited by the Internal Revenue Code. A participant in the Excess

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

Benefit Plan is entitled to a benefit equaling the difference between the amount of the benefit payable without limitation and the amount of the benefit payable under the Pension Plan.

Annual pension benefit projections for the Named Executives assume: (a) that the participant remains in the service of the Company until age 65; (b) that the participant's earnings continue at the same rate as paid in the fiscal year ended December 31, 2001 during the remainder of his service until age 65; and (c) that the Plans continue without substantial modification. Mr. Sutor has resigned from the Company in order to assume the position of Executive Vice President of Dover Downs Gaming & Entertainment, Inc. and, therefore, his benefit projection reflects the discontinuation of benefit accruals under the Plan.

The estimated annual benefit at retirement for each of the following Named Executives of the Company is: Denis McGlynn, \$70,459; Edward J. Sutor, \$4,030; Timothy R. Horne, \$52,221; Klaus M. Belohoubek, \$66,431; and Robert M. Comollo, \$39,438.

401(k) Retirement Plan

The Company has a deferred compensation plan pursuant to section 401(k) of the Internal Revenue Code for all its full time employees who have completed ninety (90) days of service. Covered employees may contribute up to 15% of their compensation for each calendar year. In addition, the Company contributes up to an additional 100% of the first \$250 of compensation contributed by any covered employee to the plan. An employee's maximum annual contribution to the plan is \$11,000. All contributions are funded currently.

PROPOSAL NUMBER TWO AUTHORIZATION FOR THE BOARD TO EFFECT A REVERSE STOCK SPLIT IN A RATIO OF ONE FOR TWO

General

The Company's stockholders are being asked to act upon a proposal to authorize the Board of Directors to effect a reverse stock split of one (1) new share of Common Stock for each two (2) existing shares of Common Stock and one (1) new share of Class A Common Stock for each two (2) existing shares of Class A Common Stock (the "Reverse Stock Split") at any time prior to the Company's 2003 Annual Meeting of Stockholders,

12

depending upon a determination by the Board of Directors that the Reverse Stock Split is in the best interests of the Company and its stockholders. The Board of Directors has approved the Reverse Stock Split and has directed that the Reverse Stock Split be submitted to the Company's stockholders for approval.

If the Reverse Stock Split is approved by the stockholders of the Company at its 2002 Annual Meeting, the Reverse Stock Split will be effected only upon a determination by the Board of Directors that the Reverse Stock Split is in the best interests of the Company and its stockholders, based on factors, including the marketability and liquidity of the Common Stock, prevailing market conditions, the likely effect on the market price of the Common Stock, and other relevant factors.

If approved by the stockholders of the Company, the Reverse Stock Split would become effective on any date (the "Effective Date") selected by the

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

Board of Directors on or prior to the Company's 2003 Annual Meeting of Stockholders. If the Reverse Stock Split is not effected by such date, the Board of Directors will take action to abandon the Reverse Stock Split.

The complete text of the resolutions of the Board of Directors authorizing the Amendment to the Company's Certificate of Incorporation required for the Reverse Stock Split is set forth in Exhibit A to this Proxy Statement; however, such text is subject to amendment to include such changes as may be required by the Delaware Secretary of State. If the Reverse Stock Split is approved by the requisite vote of the Company's stockholders, upon filing of the Amendment to the Company's Certificate of Incorporation with the Delaware Secretary of State on the Effective Date, the Reverse Stock Split will be effective, and each two shares of the Common Stock or Class A Common Stock issued and outstanding immediately prior thereto (the "Old Stock") will be automatically converted into and reclassified as one share of the Company's Common Stock or Class A Common Stock, as appropriate (the "New Stock"); provided, however, that no fractional shares of New Stock will be issued as a result of the Reverse Stock Split. Each holder of Old Stock who would otherwise be entitled to receive a fractional share of New Stock will receive cash in lieu of such fractional share of New Stock in an amount equal to the product obtained by multiplying (a) the closing price of the Common Stock as reported on the New York Stock Exchange on the trading day immediately preceding the Effective Date by (b) the number of shares of Old Stock held by such holder that would otherwise have been exchanged for such fractional share interest.

Exchange of Certificates

Shortly after the Effective Date, stockholders will be asked to surrender certificates representing shares of Old Stock in accordance with the procedures set forth in a letter of transmittal to be sent by the Company. The Company will instruct its transfer agent to act as its exchange agent (the "Exchange Agent") and to act for holders of Common Stock and Class A Common Stock in implementing the exchange of their certificates. Upon the surrender of certificates representing Old Stock, certificates representing shares of New Stock will be issued and forwarded to the stockholders (and cash in lieu of any fractional share interests); however, each certificate representing shares of Old Stock will continue to be valid and represent the number of shares of New Stock equal to one-half of the number of shares of Old Stock (and cash in lieu of any fractional shares, as described above). For shares of Old Stock held by a stockholder in a brokerage account in "street name", the conversion and reclassification will be handled electronically with no action necessary on the part of the stockholder.

Purposes of the Reverse Stock Split

The Board of Directors believes that the Reverse Stock Split is desirable for several reasons. The Reverse Stock Split is intended to enhance the acceptability of the Common Stock by the financial community and the investing public. The reduction in the number of issued and outstanding shares of Common Stock caused by the Reverse Stock Split is anticipated initially to increase proportionally the per share market price of the Common Stock.

The Company's Common Stock is listed for trading on the New York Stock Exchange. On April 19, 2002, the reported closing price of the Common Stock on the New York Stock Exchange was \$8.75 per share. The

Board believes that a decrease in the number of shares of Common Stock outstanding may increase the trading price of such shares to a price more

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

appropriate for a security listed on the New York Stock Exchange, although no assurance can be given that the market price of the Common Stock will rise in proportion to the reduction in the number of outstanding shares resulting from the Reverse Stock Split.

Although, the Company has not experienced identifiable problems in the marketability and liquidity of its Common Stock, the Board believes that the current per share price of the Common Stock may limit the effective marketability of the Common Stock because of the reluctance of many brokerage firms and institutional investors to recommend lower-priced stocks to their clients or to hold them in their own portfolios.

A variety of brokerage house practices tend to discourage individual brokers from dealing with lower priced stocks. Some of those practices pertain to the payment of broker's commissions and to procedures that make the handling of lower priced stocks economically unattractive to brokers. In addition, the structure of trading commissions tends to have an adverse impact upon holders of lower priced stock because the brokerage commission on a sale of lower priced stock generally represents a higher percentage of the sales price than the commission on a relatively higher priced issue. The Reverse Stock Split could result in a price level for the Common Stock that would minimize, to some extent, the effect of brokerage house practices and the impact of trading commissions on the market for the Common Stock. However, as a result of the Reverse Stock Split, stockholders who now own "round lots" may hold "odd lots" and, as a result, may be subject to increased transaction costs on the sale of their Common Stock.

There can be no assurance that the market price per share of the Common Stock after the Reverse Stock Split will be two times the market price per share of the Common Stock before the Reverse Stock Split, or that such price will either exceed or remain in excess of the current market price. Further, there can be no assurance that the market for the Common Stock will be improved. Stockholders should note that the Board of Directors cannot predict what effect the Reverse Stock Split will have on the market price or liquidity of the Common Stock.

Certain Effects of the Reverse Stock Split

The Reverse Stock Split will be effected by means of filing the Amendment to the Company's Certificate of Incorporation with the Delaware Secretary of State. Assuming approval of the Reverse Stock Split by the requisite vote of the stockholders at the 2002 Annual Meeting, the Amendment to the Company's Certificate of Incorporation will be filed with the Delaware Secretary of State as promptly as practicable after a determination by the Board of Directors to proceed with the Reverse Stock Split, and the Reverse Stock Split will become effective on the date of such filing.

After giving effect to the settlement of fractional shares of Common Stock, there will be no differences between the rights of the shares of Common Stock and Class A Common Stock outstanding prior to the Reverse Stock Split and those outstanding after the Reverse Stock Split is effected. The relative voting power of Class A Common Stock to the voting power of the Common Stock will be the same as existed immediately prior to the Reverse Stock Split. The Company's currently outstanding options will be equitably adjusted so that the number of shares of Common Stock so optioned will be decreased by one-half and the exercise price increased by a factor of two. No officer, director or affiliate of the Company is expected to derive any benefit from the Reverse Stock Split other than the benefits that would be enjoyed by any other person holding the same number of shares.

Consummation of the Reverse Stock Split will result in a decrease in the Company's authorized capital stock from 131,000,000 shares to 66,000,000

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

shares: consisting of 37,500,000 shares of Common Stock, 27,500,000 shares of Class A Common Stock, and 1,000,000 shares of Preferred Stock. The number of authorized shares of Common Stock and Class A Common Stock was reduced by a factor of two since the Reverse Stock Split will reduce the number of outstanding shares by a factor of two. The par value of the New Stock will remain at \$.10 per share following the Reverse Stock Split. As a consequence, the aggregate par value of the New Stock will be reduced, while the aggregate capital in excess of par value attributable to such stock for statutory and accounting

14

purposes will be correspondingly increased. This increase in capital in excess of par value will be treated as capital for statutory purposes.

As of March 31, 2002, there were approximately 14,284,252 shares of Common Stock and 23,769,085 shares of Class A Common Stock outstanding, held of record by 1,228 holders. Following the Reverse Stock Split, the Company estimates that it will have 7,142,126 shares of Common Stock and 11,884,542 shares of Class A Common Stock outstanding, held of record by substantially the same number of holders. The Company's Common Stock will continue to be registered under the Securities Exchange Act of 1934, as amended, and the Company will remain obligated to comply with the reporting obligations of such Act.

Federal Income Tax Consequences of the Reverse Stock Split

The Company has not sought and will not seek an opinion of counsel or a ruling from the Internal Revenue Service regarding the federal income tax consequences of the Reverse Stock Split. The Company believes that the Reverse Stock Split will have the following federal income tax effects:

1. A stockholder will not recognize gain or loss on the exchange of Old Stock for New Stock. In the aggregate, the stockholder's basis in shares of New Stock will equal his basis in shares of Old Stock.
2. A stockholder's holding period for tax purposes for shares of New Stock will be the same as the holding period for tax purposes of the shares of Old Stock exchanged therefor.
3. The Company will not recognize any gain or loss as a result of the Reverse Stock Split.
4. To the extent a stockholder receives cash from the Company in lieu of a fractional share of New Stock, the stockholder will be treated for tax purposes as though he sold the fractional share. Such a stockholder will recognize a gain equal to the excess of (i) his cash distribution over (ii) his tax basis in the fractional share deemed sold. If the stockholder's tax basis in the fractional share deemed sold exceeds his cash distribution, the stockholder will recognize a loss.

The foregoing discussion regarding the tax consequences of the split is limited to federal income taxes, is provided for informational purposes only and is not based upon the opinion of legal counsel or other tax experts. The Company recommends that stockholders discuss the federal, state and local tax consequences of the split with their own tax advisors.

Vote Required

The approval of the Reverse Stock Split requires the affirmative vote of a majority of the outstanding shares of Common Stock, voting separately as a

Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

class, and the affirmative vote of a majority of the outstanding shares of Class A Common Stock, voting separately as a class. The enclosed form of proxy provides a means for stockholders to vote for the approval of this proposal, to vote against the approval of this proposal or to abstain from voting with regard to the approval of this proposal. Each properly executed proxy received in time for the 2002 Annual Meeting will be voted as specified therein. If a stockholder executes and returns a proxy but does not specify otherwise, the shares represented by such proxy will be voted "FOR" the approval of this proposal.

No Dissenter's Rights

Stockholders have no right under Delaware law to appraisal or dissenter's rights relative to the Reverse Stock Split.

AUDITORS

The Board of Directors has not selected or recommended the name of an independent public accounting firm for approval or ratification by the stockholders. Edgar Filing: DOVER MOTORSPORTS INC - Form DEF 14A

and Exchange Commission filings required in connection therewith.

The Audit Committee of the Board of Directors considered whether the provision of the services described above under "Financial Information Systems Design and Implementation Fees" and "All Other Fees" was compatible with maintaining KPMG LLP's independence.
