 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 2.02 Results of Operations and Financial Condition

On January 26, 2012, FirstEnergy Corp. issued two public documents regarding a change in its method of accounting for pension and other post-employment benefit plans and related matters, which are attached as Exhibits 99.1 and 99.2 hereto and incorporated by reference. FirstEnergy has also posted related materials to its website at www.firstenergycorp.com, including unaudited historical financial results for certain prior periods incorporating retroactive adjustments to reflect the accounting change. The information on its website, the Letter to the Investment Community, the press release and the information contained herein, including Exhibits 99.1 and 99.2, shall not be deemed filed for purposes of the Securities Exchange Act of 1934, nor shall such information and Exhibits 99.1 and 99.2 be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such a filing.

FirstEnergy's Letter to the Investment Community and news release contain non-GAAP* financial measures. Pursuant to the requirements of Regulation G, FirstEnergy has provided quantitative reconciliations within the Letter to the Investment Community and the news release of the non-GAAP* financial measures to the most directly comparable GAAP financial measures.

The Letter to the Investment Community and news release contain references to the non-GAAP* financial measure, basic non-GAAP earnings per share, which are not calculated in accordance with GAAP because they exclude the impact of "special items." Special items reflect the impact on earnings of events that are not routine or that may be related to discontinued businesses. Management believes presenting normalized earnings calculated in this manner provides useful information to investors in evaluating the ongoing results of FirstEnergy's businesses and assists investors in comparing FirstEnergy's operating performance to the operating performance of other companies in the energy sector. Management believes presenting this non-GAAP* measure provides useful information to investors in assessing FirstEnergy's normalized operating performance. FirstEnergy's management frequently references this non-GAAP* financial measure in its decision-making, using it to facilitate historical and ongoing performance comparisons as well as comparisons to the performance of peer companies.

The non-GAAP* information presented in the Letter to the Investment Community and news release should be considered in addition to, and not as a substitute for, the most directly comparable financial measure prepared in accordance with GAAP. Also, the non-GAAP* financial measure may not be comparable to similarly titled measures used by other entities.

Item 9.01 Financial Statements and Exhibits

(d) Exhibits

Exhibit No.	Description
99.1	Letter to the Investment Community, dated January 26, 2012
99.2	News release issued by FirstEnergy Corp., dated January 26, 2012

*This Form 8-K contains non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position, or cash flows that either excludes or includes amounts, or is subject to adjustment that has the effect of excluding or including amounts, that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with accounting principles generally accepted in the United States, or GAAP.

Forward-Looking Statements: This Form 8-K includes forward-looking statements based on information currently available to management. Such statements are subject to certain risks and uncertainties. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms "anticipate," "potential," "expect," "believe," "estimate" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Actual results may differ materially due to: the speed and nature of increased competition in the electric utility industry, the impact of the regulatory process on the pending matters in the various states in which we do business including, but not limited to, matters related to rates, the status of the PATH project in light of the PJM Interconnection, L.L.C. (PJM) direction to suspend work on the project pending review of its planning process, its re-evaluation of the need for the project and the uncertainty of the timing and amounts of any related capital expenditures, business and regulatory impacts from ATSI's realignment into PJM, economic or weather conditions affecting future sales and margins, changes in markets for energy services, changing energy and commodity market prices and availability, financial derivative reforms that could increase our liquidity needs and collateral costs, the continued ability of FirstEnergy's regulated utilities to collect transition and other costs, operation and maintenance costs being higher than anticipated, other legislative and regulatory changes, and revised environmental requirements, including possible GHG emission, water intake and coal combustion residual regulations, the potential impacts of any laws, rules or regulations that ultimately replace the Clean Air Interstate Rule (CAIR) including the Cross-State Air Pollution Rule (CSAPR), which was stayed by the courts on December 30, 2011, and the effects of the EPA's recently released Mercury and Air Toxics Standards (MATS) rules, the uncertainty of the timing and amounts of the capital expenditures that may arise in connection with any NSR litigation or potential regulatory initiatives or rulemakings (including that such expenditures could result in our decision to shut down or idle certain generating units), the uncertainty associated with PJM's review of the company's plan to retire its older unscrubbed fossil units, adverse regulatory or legal decisions and outcomes with respect to our nuclear operations (including, but not limited to, the revocation or non-renewal of necessary licenses, approvals or operating permits by the NRC, including as a result of the incident at Japan's Fukushima Daiichi Nuclear Plant), issues that could result from our continuing investigation and analysis of the indications of cracking in the plant shield building at Davis-Besse, adverse legal decisions and outcomes related to Met-Ed's and Penelec's ability to recover certain transmission costs through their transmission service charge riders, the continuing availability of generating units and changes in their ability to operate at or near full capacity, replacement power costs being higher than anticipated or inadequately hedged, the ability to comply with applicable state and federal reliability standards and energy efficiency mandates, changes in customers' demand for power, including but not limited to, changes resulting from the implementation of state and federal energy efficiency mandates, the ability to accomplish or realize anticipated benefits from strategic goals and our ability to improve electric commodity margins and the impact of, among other factors, the increased cost of coal and coal transportation on such margins, the ability to experience growth in the distribution business, the changing market conditions that could affect the value of assets held in FirstEnergy's nuclear decommissioning trusts, pension trusts and other trust funds, and cause FirstEnergy to make additional contributions sooner, or in amounts that are larger than currently anticipated, the impact of changes to material accounting policies, the ability to access the public securities and other capital and credit markets in accordance with FirstEnergy's financing plan, the cost of such capital and overall condition of the capital and credit markets affecting FirstEnergy and its subsidiaries, changes in general economic conditions affecting FirstEnergy and its subsidiaries, interest rates and any actions taken by credit rating agencies that could negatively affect FirstEnergy's and its subsidiaries' access to financing or their costs and increase requirements to post additional collateral to support outstanding commodity positions, LOCs and other financial guarantees, the continuing uncertainty of the national and regional economy and its impact on the major industrial and commercial customers of FirstEnergy's subsidiaries, issues concerning the soundness of financial institutions and counterparties with which FirstEnergy and its subsidiaries do business, issues arising from the completed merger of FirstEnergy and Allegheny Energy, Inc. and the ongoing coordination of their combined operations including FirstEnergy's ability to maintain relationships with

customers, employees or suppliers, as well as the ability to continue to successfully integrate the businesses and realize cost savings and any other synergies and the risk that the credit ratings of the combined company or its subsidiaries may be different from what the companies expect, the risks and other factors discussed from time to time in FirstEnergy's and its applicable subsidiaries' SEC filings, and other similar factors. The foregoing review of factors should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy's business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy expressly disclaims any current intention to update, except as required by law, any forward-looking statements contained herein as a result of new information, future events or otherwise.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
