**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On September 12, 2006, the Board of Directors of Flextronics International Ltd. (the Company ) approved the disposal and exit of certain real estate owned and leased by the Company in order to reduce its investment in property, plant and equipment. As a result, during the second quarter ended September 30, 2006, the Company expects to recognize approximately \$90 to \$95 million in pre-tax charges consisting primarily of impairment charges and other exit charges, which are primarily facility lease termination costs. These activities are expected to generate net positive cash of approximately \$10 million, representing the net of expected cash expenditures of approximately \$40 million related to exit costs and the estimated proceeds of approximately \$50 million related to the sale of the real estate.

**Item 2.06. Material Impairments.**

In connection with the exit activities described in Item 2.05 above, property, plant and equipment that has been determined to be impaired will be written down to fair value during the second quarter ended September 30, 2006. At this time, the Company has estimated a range related to the impairment charges to be approximately \$45 to \$50 million (which is included in the estimated total charges of \$90 to \$95 million included in Item 2.05 above). No material cash expenditures are expected to result from the impairment charge.
