Report of Independent Registered Public Accounting Firm

The Plan Administrator

The Columbia Bank 401(k) Plan and Trust:

We have audited the accompanying statements of net assets available for benefits of The Columbia Bank 401(k) Plan and Trust (the Plan), as of December 31, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

THE COLUMBIA BANK 401 (k) PLAN AND TRUST

Notes to Financial Statements

December 31, 2006 and 2005

(1) Description of Plan

The following description of The Columbia Bank 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan sponsored by The Columbia Bank (the Company) and covering all employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In December 2006, the Plan was amended to establish an employee stock ownership plan within and as a part of the Plan effective January 1, 2007.

Effective February 1, 2006, the former sponsor of the Plan, Columbia Bancorp, merged with and into Fulton Financial Corporation (Fulton). The merger was consummated pursuant to a previously announced Agreement and Plan of Merger, dated July 26, 2005, between Fulton and Columbia Bancorp. On the effective date of the merger, all participants in the Plan became 100% vested in their accounts, 156,921 shares of Columbia Bancorp stock were redeemed for cash at \$42.48 per share totaling \$6,666,000 and 8,961 shares of Columbia Bancorp stock were exchanged for 20,834 shares of Fulton stock.

On February 1, 2006, the Plan was amended and restated to change the sponsor to The Columbia Bank and was renamed The Columbia Bank 401(k) Plan and Trust (formerly Columbia Bancorp 401(k) Plan and Trust).

On March 7, 2005, DailyAccess.Com, Inc. amended the prototype plan to reduce the involuntary cash-out threshold from \$5,000 and \$1,000. In addition, rollover contributions and earnings thereon will be taken into account in determining whether the \$1,000 threshold has been exceeded. The provisions of the amendment apply with respect to distributions made on or after March 28, 2005.

(b) Contributions

Each year, participants may contribute from 1% to 100% of eligible annual compensation, as defined in the Plan, subject to the limits established by the Internal Revenue Code. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

THE COLUMBIA BANK 401 (k) PLAN AND TRUST

Notes to Financial Statements

December 31, 2006 and 2005

Matching contributions are made by the Company at its discretion in an amount determined annually by the Company. During 2006 and 2005, the Company contributed 50% of the employee's contributions up to the first 15% of the employee's compensation. The Company's matching contributions are allocated in the same manner as the participant's contributions. The Company may make additional contributions to the Plan under certain circumstances. Such additional contributions are distributed to accounts of participants pursuant to guidelines set forth in the Plan.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and an allocation of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. All participants in the Plan on or before February 1, 2006 are 100% vested in their Company contributions. Participants entering the Plan subsequent to February 1, 2006 vest in Company contributions at a rate of 20% per year of service and are 100% vested at the completion of five years of service.

(e) Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. Interest and processing fees on such borrowings and repayment schedules are determined pursuant to guidelines in the Plan. Generally, borrowings bear interest at a minimum of the prime rate at the time of the loan application, and must be repaid to the Plan over a period not to exceed five years.

(f) Payment of Benefits

Upon termination of service due to death, retirement, disability or other reasons, a participant receives the vested interest in his or her account as a lump sum distribution.

(g) Forfeited Accounts

Forfeitures of nonvested Company contributions are allocated to active participants pursuant to guidelines set forth in the Plan. Forfeitures totaled approximately \$7,000 and \$32,000 for the years ended December 31, 2006 and 2005, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

(b) Valuation and Income Recognition

The Plan's investments are presented at fair value based on quoted market information. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of investments are recorded on a trade date basis. Appreciation and depreciation in the fair values of investments are recognized in the financial statements in the period in which the changes occur. Interest income is recorded on the accrual basis. Dividends are recorded on the ex dividend date.

(c) Administrative Expenses

The Company pays all of the Plan's administrative expenses except for loan administration expenses, which are deducted directly from the individual participants' accounts.

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(e) Benefits

Benefits are recorded when paid.

Notes to Financial Statements

December 31, 2006 and 2005

(4) Transactions with Parties in Interest

During the year ended December 31, 2006, the Plan invested in shares of Common Stock of Fulton Financial Corporation, parent company of The Columbia Bank. During the year ended December 31, 2005, the Plan invested in shares of Common Stock of Columbia Bancorp. Columbia Bancorp merged with and into Fulton Financial Corporation on February 1, 2006.

The Company pays all of the Plan's administrative expenses except for loan administration expenses, which are deducted directly from the individual participants' accounts.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA, resulting in 100% vesting of the interests of all participants.

(6) Tax Status

The Plan is a nonstandardized prototype plan sponsored by DailyAccess.Com, Inc. A favorable opinion letter issued by the Internal Revenue Service and dated June 20, 2002 has been received for the prototype plan. The Company is relying on the opinion letter as provided for in Announcement 2001-77. The Plan has been amended since the opinion letter was issued, but the Company and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC).

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
