INFORMATION ABOUT THE MEETING

This Proxy Statement

We have sent you this proxy statement and the enclosed proxy card because our board of directors is soliciting your proxy to vote at our 2003 annual meeting of stockholders or any adjournment or postponement of the meeting. The meeting will be held at 3 P.M., Eastern standard time, on Tuesday, December 9, 2003, at the offices of Hale and Dorr LLP, Twenty-Sixth Floor, 60 State Street, Boston, Massachusetts.

THIS PROXY STATEMENT summarizes information about the proposals to be considered at the meeting and other information you may find useful in determining how to vote.

THE PROXY CARD is the means by which you actually authorize another person to vote your shares in accordance with your instructions.

Our directors, officers and employees may solicit proxies in person or by mail, telephone, facsimile or electronic mail. We will pay the cost of soliciting these proxies. We expect that the expense of any solicitation will be nominal. We will reimburse brokers and other nominee holders of shares for expenses they incur in forwarding proxy materials to beneficial owners of those shares. We have not retained the services of any proxy solicitation firm to assist us in this solicitation. In the event we subsequently decide to engage a proxy solicitation firm, we will pay all of the fees and reasonable out-of-pocket expenses incurred by that firm in connection with our solicitation of proxies for the Meeting. We expect that those fees would not exceed \$15,000.

We are mailing this proxy statement and the enclosed proxy card to stockholders for the first time on or about November 10, 2003. In this mailing, we are including a copy of our 2003 annual report to stockholders. Our annual report on Form 10-K for the fiscal year ended June 30, 2003 may also be accessed electronically by means of the SEC's home page on the Internet at <http://www.sec.gov>.

How to Vote

At the meeting, you are entitled to one vote for each share of common stock, 100 votes for each share of Series D-1 convertible preferred stock and 100 votes for each shares of Series D-2 convertible preferred stock (subject to certain voting limitations contained in our charter) registered in your name at the close of business on October 20, 2003. Only holders of common stock and Series D-2 convertible preferred stock may vote for Proposal 1 Election of Class III Directors. The proxy card states the number of shares you are entitled to vote at the meeting.

You may vote your shares at the meeting in person or by proxy or prior to the meeting by telephone:

TO VOTE IN PERSON, you must attend the meeting, and then complete and submit the ballot provided at the meeting.

TO VOTE BY TELEPHONE, you must call the toll-free telephone number specified on your proxy card. If you vote by telephone, you should not return your proxy card unless you subsequently decide to amend your vote by proxy.

TO VOTE BY PROXY, you must complete and return the enclosed proxy card. Your proxy card will be valid only if you sign, date and return it before the meeting. By completing and returning the proxy card, you will direct the designated persons to vote your shares at the meeting in the manner you specify in the proxy card. If you complete the proxy card with the exception of the voting instructions, then the designated persons will vote your shares in favor of the proposals described in this proxy statement. If any other business properly comes before the meeting, the designated persons will have the discretion to vote your shares as they deem appropriate.

Revocability of Proxy

Even if you vote by telephone or if you complete and return a proxy, you may revoke it at any time before it is exercised by taking one of the following actions:

send written notice to Stephen J. Doyle, our Secretary, at our address set forth in the notice appearing before this proxy statement;

vote by telephone after the date of your earlier telephonic vote or proxy;

send us another signed proxy with a later date; or

attend the meeting, notify Mr. Doyle that you are present, and then vote in person.

Quorum Required to Transact Business

At the close of business on October 20, 2003, 40,033,696 shares of common stock, 300,300 shares of Series D-1 convertible preferred stock and 63,064 shares of Series D-2 convertible preferred stock were outstanding. Our by-laws require that shares representing a majority of the votes entitled to be cast by the holders of our common stock and preferred stock outstanding on that date, voting together as a class, be present in person or by proxy at the meeting in order to constitute the quorum to transact business. Shares as to which holders abstain from voting as to a particular matter, and shares held in "street name" by brokers or nominees who indicate on their proxies that they do not have discretionary authority to vote those shares as to a particular matter (that is, broker non-votes), will be counted in determining whether there is a quorum of stockholders present at the meeting.

DISCUSSION OF PROPOSALS

Proposal 1: Election of Class III Directors

The first proposal on the agenda for the meeting is the election of Douglas R. Brown, Stephen L. Brown and Stephen M. Jennings to serve as Class III directors for a three-year term beginning at the Meeting and ending at our 2006 Annual Meeting of Stockholders.

Under our by-laws, the board of directors has the authority to fix the number of directors. The number of directors currently is fixed at nine. Our by-laws provide that the board is to be divided into three classes with each class of directors serving for staggered three-year terms. Under our charter, the holders of our Series D-1 convertible preferred stock, which we refer to as the Series D-1 holders, are entitled to designate and elect up to four of our nine directors. Messrs. Douglas A. Kingsley and Michael Pehl are the current designees of the Series D-1 holders serving on our board of directors. The Series D-1 holders may only vote for the election of their director designees and are not entitled to vote with the holders of our common stock in the general election of directors. The holders of our Series D-2 convertible preferred stock do not have a separate class vote with respect to the election of directors and instead vote, on an as-converted-to-common basis, with the holders of our common stock in the general election of directors.

The board has nominated the current Class III directors standing for re-election. A brief biography of each of the nominees, as of October 20, 2003, follows. You will find information about their stock holdings on pages 26 through 29.

Douglas R. Brown

Mr. Brown has served as one of our Class III directors since 1986. He currently serves as a member of the compensation committee of our board of directors. Since April 2003, Mr. Brown has served as the President and Chief Executive Officer of Ionics, Incorporated, a separations technology company. From January 1996 to March 2003, Mr. Brown served as the President and Chief Executive Officer and a director of Advent International Corporation, a

venture capital investment firm. Mr. Brown has served as a member of the board of directors of Ionics, Incorporated since May 1997. Mr. Brown holds an S.B. in Chemical Engineering from M.I.T. and an M.B.A. from the Harvard Graduate School of Business Administration. Mr. Brown is 49 years old.

5

Stephen L. Brown

Mr. Brown has served as one of our Class III directors since July 2000. He currently serves as a member of the audit committee, the compensation committee and the nominating and corporate governance committee of our board of directors. Since May 2001, Mr. Brown has served as a consultant for John Hancock Financial Services, Inc. and John Hancock Life Insurance Company. Mr. Brown served as the Chairman of the Board of John Hancock Financial Services from August 1999 to May 2001 and also served as the Chief Executive Officer of John Hancock Financial Services from August 1999 to June 2000. Mr. Brown served as the Chairman of the Board of John Hancock Life Insurance Company from 1992 to May 2001 and also served as the Chief Executive Officer of John Hancock Life Insurance Company from 1992 to June 2000. Mr. Brown serves on the board of directors of Ionics, Incorporated and Hancock Natural Resource Group, Inc., a farmland and timberland investment management company. Mr. Brown holds a B.A. in Mathematics from Middlebury College. Mr. Brown is 66 years old.

Stephen M. Jennings

Mr. Jennings has served as one of our Class III directors since July 2000. He currently serves as a member of the audit committee, compensation committee and the nominating and corporate governance committee of our board of directors. Mr. Jennings has been a Director of The Monitor Group, a strategy consulting firm, since 1996. He serves as a member of the board of directors of LTX Corporation, a semiconductor test equipment manufacturer. Mr. Jennings is 42 years old.

The three nominees receiving the greatest number of votes cast will be elected as directors. We will not count abstentions or broker non-votes when we tabulate votes cast for the election of directors.

If for any reason any of the nominees become unavailable for election, the persons designated in the proxy card may vote the proxy for the election of a substitute. Each of Messrs. Douglas Brown, Stephen Brown and Stephen Jennings has consented to serve as a director if elected, and we have no reason to believe that any of the nominees will become unavailable for election.

The board of directors recommends that you vote FOR the election of Messrs. Douglas Brown, Stephen Brown and Stephen Jennings as Class III directors.

The affirmative "FOR" vote of the holders of a plurality of the outstanding shares of common stock and Series D-2 convertible preferred stock present or represented by proxy, voting together as a class on Proposal 1 is required for the election of directors.

Proposal 2: Amendment to 1998 Employee Stock Purchase Plan

At the meeting, our stockholders will be asked to approve an amendment to increase the number of shares of common stock reserved for issuance under the 1998 employee stock purchase plan, which we refer to as the stock purchase plan, from 3,000,000 to 6,000,000 shares (subject to appropriate adjustment in the event of stock splits, stock dividends or other capital changes).

The stock purchase plan permits employees to purchase our common stock at a discounted price. Our board believes that the stock purchase plan is an important benefit in recruiting and retaining employees. The stock purchase plan is designed to encourage and assist our employees and employees of our subsidiaries in acquiring an equity interest in our company through the purchase of our common

6

stock. On October 15, 2003, the board of directors adopted, upon the recommendation of its compensation committee and subject to stockholder approval, an amendment to the stock purchase plan to increase the number of shares of common stock available for purchase under the plan by

3,000,000 shares. Currently, there are 496,324 shares of common stock available for purchase under the stock purchase plan. The board believes that it is necessary to adopt the amendment to the stock purchase plan in order to ensure that there are sufficient shares for all stock purchases under the stock purchase plan through calendar 2006.

Description of the Plan

The following is a brief summary of the stock purchase plan and is qualified in its entirety by reference to the stock purchase plan, a copy of which is attached to the electronic copy of this proxy statement filed with the SEC and may be accessed from the SEC's home page (www.sec.gov). In addition, you may obtain a copy of the stock purchase plan from Joshua Young, our director of investor relations, by telephone at (617) 949-1274 or by e-mail to joshua.young@aspentech.com.

All of our employees and the employees of our subsidiaries who have been employed for at least one month and are customarily employed for at least twenty hours per week and for more than five months per calendar year are eligible to participate in the stock purchase plan as of the first enrollment date following employment. As of October 1, 2003, 1,745 employees were eligible to participate in the stock purchase plan. Because participation in the stock purchase plan is voluntary, we cannot determine the number of shares of common stock to be purchased in the future by non-executive employees as a group. However, during the last four six-month offering periods, we have issued an average of 339,232 shares per offering period under the stock purchase plan. Executive officers may participate in the stock purchase plan.

The stock purchase plan is typically implemented through a series of six-month offering periods. The stock purchase plan is administered by the compensation committee of our board of directors, which determines whether to grant options under the stock purchase plan and the length of offering periods, provided that an offering period may not exceed 27 months.

Participants may elect to make contributions up to a maximum of 10% of their base compensation. On the last trading date of each offering period, we apply the funds then in each participant's account to the purchase of shares of our common stock. Currently, the last trading day in June and the last trading day in December are designated as the trading dates. The cost of each share purchased is 85% of the lower of the closing prices for our common stock on the first trading day or last trading day in the offering period. In addition, the participant's right to purchase stock will not accrue at a rate which exceeds \$25,000 of fair market value of the stock (determined as of the first date of the offering period) for each calendar year in which the option to purchase shares under the stock purchase plan is outstanding.

The compensation committee may terminate or amend the stock purchase plan at any time, provided that the compensation committee may not, without approval by a majority of the stockholders, increase the maximum number of shares of stock purchasable under the stock purchase plan, change the description of employees or classes of employees eligible to receive options, change the manner of determining the exercise price of options, or extend the period during which options may be granted or exercised.

Federal Income Tax Consequences

The following generally summarizes the United States federal income tax consequences that will arise with respect to participation in the stock purchase plan and with respect to the sale of shares of our common stock acquired under the stock purchase plan. This summary is based on the tax laws in

7

effect as of the date of this proxy statement. Changes to these laws could alter the tax consequences described below.

Tax Consequences to Participants. A participant will not have income upon enrolling in the stock purchase plan or upon purchasing stock at the end of an offering.

A participant may have both compensation income and capital gain income if the participant sells stock that was acquired under the stock purchase plan at a profit (if sales proceeds exceed the purchase price). The amount of each type of income will depend on when the participant sells the stock. If the participant sells the stock more than two years after the commencement of the offering during which the stock was purchased and more than one year after the date that the participant purchased the stock, then the participant will have compensation income equal to the lesser of:

15% of the value of the stock on the day the offering commenced; and

the participant's profit.

Any excess profit will be long-term capital gain.

If the participant sells the stock prior to satisfying these waiting periods, then he or she will have engaged in a disqualifying disposition. Upon a disqualifying disposition, the participant will have compensation income equal to the value of the stock on the day he or she purchased the stock less the purchase price. If the participant's profit exceeds the compensation income, then the excess profit will be a capital gain. If the participant's profit is less than the compensation income, the participant will have a capital loss equal to the value of the stock on the day he or she purchased the stock less the sales proceeds. This capital gain or loss will be long-term if the participant has held the stock for more than one year, and otherwise will be short-term.

If the participant sells the stock at a loss (if sales proceeds are less than the purchase price), then the loss will be a capital loss. This capital loss will be long-term if the participant has held the stock for more than one year and otherwise will be short-term.

Tax Consequences to AspenTech. There will be no tax consequences to us except that we will be entitled to a deduction when a participant has compensation income upon a disqualifying disposition. Any such deduction will be subject to the limitations of Section 162(m) of the Internal Revenue Code.

The board of directors recommends that the stockholders vote "FOR" Proposal 2 to approve an amendment to the stock purchase plan to increase the number of shares of common stock authorized for issuance under the plan from 3,000,000 to 6,000,000 shares.

The affirmative "FOR" vote of the holders of a majority of the outstanding shares of common stock and preferred stock present or represented by proxy, voting together as a class on Proposal 2, is required for the approval of Proposal 2. We will not count abstentions or broker non-votes when we tabulate votes cast on Proposal 2.

Other Matters

Neither we nor the board of directors intends to propose any matters at the meeting other than the election of three Class III directors and the approval of the amendment to the stock purchase plan.

Stockholder Proposals for 2004 Annual Meeting

A stockholder who intends to present a proposal at the 2004 annual meeting of stockholders for inclusion in our 2004 proxy statement must submit the proposal by June 30, 2004. In order for the proposal to be included in the proxy statement, the stockholder submitting the proposal must meet certain eligibility standards and must comply with certain procedures established by the SEC, and the proposal must comply with the requirements as to form and substance established by applicable laws

8

and regulations. The proposal must be mailed to Stephen J. Doyle, our Secretary, at our address set forth on the Notice appearing before this proxy statement.

In addition, in accordance with our by-laws, a stockholder wishing to bring an item of business before the 2004 annual meeting of stockholders must deliver notice of the item of business to us at our offices no later than 60 days and no earlier than 90 days prior to that meeting, even if the item is not to be included in our proxy statement. If a stockholder who wishes to present a proposal fails to notify us by this date, the proxies our management solicits for that meeting will have discretionary authority to vote on the stockholder's proposal if it is properly brought before that meeting. If a stockholder makes timely notification, the proxies may still exercise discretionary authority under circumstances consistent with the SEC's proxy rules.

Important Notice Regarding Delivery of Stockholder Documents

Some banks, brokers and other nominee record holders are already "householding" proxy statements and annual reports. This means that only one copy of our proxy statement or annual report may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you if you write to or call us at the following address or phone number: Investor Relations, Aspen Technology, Inc., Ten Canal Park, Cambridge, Massachusetts 02141, (617) 949-1000, joshua.young@aspentech.com. If you want to receive

separate copies of the proxy statement and annual report in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker, or other nominee record holder, or you may contact us at the above address or phone number.

Board and Committee Meetings

The board of directors held twenty-six meetings during fiscal year 2003, including four regular meetings and twenty-three special meetings. The board currently has an audit committee, a compensation committee and a nominating and corporate governance committee. All directors attended at least 75% of (a) the total number of meetings of the board of directors and (b) the total number of meetings of each committee of the board on which he or she served, in each case during the period that he or she served.

The audit committee met eight times during fiscal year 2003. The audit committee:

reviews the scope and results of the annual audit of our consolidated financial statements conducted by our independent accountants;

reviews the scope of other services provided by our independent accountants;

11

reviews proposed changes in our financial and accounting standards and principles and in our policies and procedures for our internal accounting, auditing and financial controls; and

makes recommendations to the board of directors on the engagement of our independent accountants.

The audit committee currently consists of Stephen L. Brown, Stephen M. Jennings and Joan C. McArdle, each of whom are "independent" as defined by Rule 4200(a)(15) of the National Association of Securities Dealers' listing standards.

The compensation committee met eight times during fiscal year 2003. The compensation committee administers our compensation programs, including our 1995 Stock Option Plan, Amended and Restated 1995 Directors Stock Option Plan, 1996 Special Stock Option Plan, 1998 Employee Stock Purchase Plan, and 2001 Stock Option Plan. The nominating and corporate governance committee identifies individuals qualified to become board members, recommends to the board the persons to be nominated by the board for election as directors at the annual meeting of stockholders, develops and recommends to the board a set of corporate governance principles and oversees the evaluation of the board and management. The nominating and corporate governance committee consists of Stephen L. Brown, Stephen M. Jennings and Joan C. McArdle and did not hold any meetings during fiscal 2003. The nominating committee considers for nomination to our board of directors candidates suggested by the stockholders, provided that such recommendations are delivered to Mr. Doyle, our Secretary, with an appropriate biographical summary, no later than the deadline for submission of stockholder proposals.

Compensation Committee Interlocks and Insider Participation

The compensation committee consists of Douglas R. Brown, Stephen L. Brown and Stephen L. Jennings, none of whom has ever been an employee of our company or any of our subsidiaries. None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as members of our board of directors or compensation committee.

Director Compensation

We pay our directors who are not our full-time employees an annual fee of \$25,000 for their services as members of the board of directors. In addition, at the election of any director, his or her annual fee may be converted to a right to purchase shares of our common stock at the then-current market price.

Additionally, upon initial election to the board, each non-employee director is granted an option to purchase 24,000 shares of common stock at fair market value, *provided* such non-employee director was not, within the twelve months preceding his or her election as a director, either an officer or employee of AspenTech or any of our subsidiaries. This option vests quarterly over a three-year period beginning on the last day of the calendar quarter following the grant date. At each annual meeting, each non-employee director is to be granted an option to purchase an additional 8,000 shares of common stock at fair market value. These options become exercisable in four quarterly installments, beginning on the third anniversary of the grant date. Options granted under the plan have a term of 10 years.

12

In addition, we paid Gresham T. Brebach, Jr. \$230,000 as compensation for services as a management consultant during fiscal 2003.

Report of Audit Committee

The following is the report of the audit committee of our board of directors. This report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any of our other filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate this report by reference therein.

The amended and restated charter of our audit committee, which was approved by the board of directors on August 5, 2003, reflects standards set forth in SEC regulations and Nasdaq Stock Market rules. The charter is set forth as an appendix to this proxy statement and may also be accessed electronically from the SEC's Internet site at <http://www.sec.gov>.

Our management is responsible for our internal controls and the financial reporting process. Our independent accountants are responsible for performing an independent audit of our financial statements in accordance with generally accepted accounting principles and for issuing a report on those financial statements. The audit committee is responsible for monitoring and overseeing these processes. The audit committee's primary responsibilities fall into three broad categories:

first, the audit committee is charged with overseeing the preparation of quarterly and annual financial reports by our management, including discussions with management and our outside auditors about draft annual financial statements and key accounting and reporting matters;

second, the audit committee is responsible for matters concerning the relationship among the audit committee, our board of directors, outside auditors and management, including recommending the appointment or removal of our outside auditors, reviewing the scope of their audit services and related fees, as well as any other services being provided to us, and determining whether the outside auditors are independent (based in part on the annual letter provided to us pursuant to Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*); and

third, the audit committee oversees management's implementation of effective systems of internal controls, including review of policies relating to legal and regulatory compliance, ethics and conflicts of interest.

Edgar Filing: ASPEN TECHNOLOGY INC /DE/ - Form DEF 14A

The audit committee has implemented procedures to ensure that during the course of each fiscal year it devotes the attention that it deems necessary or appropriate to each of the matters assigned to it under the audit committee's charter. To carry out its responsibilities, the audit committee met during the months of August, October and November 2002 and January, February, April, May and June 2003. The audit committee also met in September 2003 to accept the report of our outside auditors for the fiscal year ended June 30, 2003.

In overseeing the preparation of our financial statements, the audit committee met with both management and our outside auditors to review and discuss all financial statements prior to their issuance and to discuss significant accounting issues. Management advised the audit committee that all financial statements were prepared in accordance with generally accepted accounting principles, and the audit committee discussed the statements with both management and our outside auditors. The audit committee's review included discussions with our outside auditors of matters required to be discussed pursuant to Statement on Auditing Standards No. 61, *Communication With Audit Committees*. SAS 61 requires our independent auditors to discuss with the audit committee, among other things, the following:

methods to account for significant and/or unusual transactions;

13

the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance over consensus;

the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of those estimates; and

disagreements with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

The audit committee, among other things, discussed with our outside auditors, Deloitte & Touche LLP, matters relating to Deloitte & Touche's independence from us, including the disclosures made by Deloitte & Touche to the audit committee as required by the Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*. Independence Standards Board Standard No. 1 requires auditors annually to disclose in writing all relationships that in the auditor's professional opinion may reasonably be thought to bear on independence, to confirm their perceived independence and to engage in a discussion of independence. The audit committee also considered whether our independent auditors' provision of certain non-audit related services to us is compatible with maintaining such auditors' independence.

On the basis of these reviews and discussions, the audit committee recommended to our board of directors that the board approve the inclusion of our audited financial statements in our annual report on Form 10-K for the fiscal year ended June 30, 2003 for filing with the SEC.

Availability and Fees of Auditors

On June 17, 2002, we dismissed Arthur Andersen LLP as our independent public accountants and engaged Deloitte & Touche LLP to serve as our independent public accountants for our fiscal year ended June 30, 2002. The decision to change accountants was recommended by our audit committee and approved by the board of directors. The reports of Arthur Andersen on our consolidated financial statements for each of our last two fiscal years did not contain an adverse opinion or disclaimer of opinion, nor were those reports qualified or modified as to uncertainty, audit scope or accounting principles. Our audit committee also selected Deloitte & Touche LLP as our independent public accountants for our fiscal year ended June 30, 2003.

Edgar Filing: ASPEN TECHNOLOGY INC /DE/ - Form DEF 14A

During our fiscal years ended June 30, 2002 and 2001 and through the date we dismissed Arthur Andersen, (a) there were no disagreements with Arthur Andersen on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure that, if not resolved to the satisfaction of Arthur Andersen, would have caused them to make reference to the subject matter in connection with their report on our consolidated financial statements for such years and (b) there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

During our fiscal years ended June 30, 2001 and 2000 and through the date we dismissed Arthur Andersen, we did not consult with Deloitte & Touche with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

We expect that representatives of Deloitte & Touche will attend the meeting, will have an opportunity to make a statement, and will be available to respond to appropriate questions.

For the fiscal years ended June 30, 2002 and 2003, we paid or accrued fees for services provided by Deloitte & Touche as follows:

Audit Fees. Deloitte & Touche billed aggregate fees of \$455,000 in fiscal 2002 and \$755,000 in fiscal 2003 for professional services rendered for the audit of our annual financial statements, for the reviews of the financial statements included in our quarterly reports on Form 10-Q and in connection with statutory and regulatory filings or engagements for each of those fiscal years.

Audit-Related Fees. Deloitte & Touche did not bill any fees in fiscal 2002 or fiscal 2003 for assurances and related services rendered that would have been reasonably related to the performance of the audit or review of our financial statements for each of those fiscal years.

Tax Fees. Deloitte & Touche billed aggregate fees of \$139,000 in fiscal 2002 and \$60,000 in fiscal 2003 for professional services rendered for tax compliance, tax advice and tax planning. These fees primarily related to compliance matters, including sales and use tax.

All Other Fees. Deloitte & Touche billed aggregate fees of \$10,000 in fiscal 2002 and no fees in fiscal 2003 for services rendered other than the services described above under Audit Fees, Audit-Related Fees and Tax Fees. These services in fiscal 2002 consisted of benefit plan consultation.

In accordance with the policies adopted by our audit committee, all non-audit related services to be performed by our independent public accountants must be approved in advance by our audit committee or by the Chairman of our audit committee. Any action by the Chairman of our audit committee to pre-approve a non-audit service is presented to our full audit committee at its next

following meeting. However, no pre-approval is required with respect to the provision of a non-audit service if:

the aggregate amount of all non-audit services constitutes not more than 5% of the total amount of revenues we have provided to the auditors during the fiscal year in which the non-audit services are provided;

we did not recognize such services at the time of the engagement to be non-audit services; and

such services are promptly brought to the attention of our audit committee and approved prior to the completion of the audit by our audit committee or the Chairman of our audit committee.

All fees described above under Audit-Related, Tax Fees and All Other Fees were approved by our audit committee.

Lisa W. Zappala			123,619	43,438	9,488	35,751

The values in the value realized column are based on the closing sale prices of common stock on the respective dates of exercise, as reported by the Nasdaq National Market, less the respective option exercise price.

The closing sale price for the common stock as reported by the Nasdaq National Market on June 30, 2003, the last business day of fiscal year 2003, was \$4.74. The value of unexercised in-the-money options is calculated on the basis of the amount, if any, by which an option exercise price exceeds the closing sale price of the common stock at June 30, 2003, multiplied by the number of shares of common stock underlying the option.

Executive Stock Option Grants

In June 2003, in connection with the Series D financing, our compensation committee approved a corporate equity and executive compensation plan that established a new equity incentive program for our executive officers and employees. Pursuant to this plan and to terms of certain letter agreements between the company and each of the executive officers named below, we agreed that following the closing of the financing, we would grant each of these executives an option to purchase the number of shares set forth in the table below under the heading "Original Option Grant." Following the closing in August 2003, each of these executives voluntarily agreed to reduce the number of shares subject to the option to which he was entitled in order to make more shares available for the general employee stock option pool. On August 18, 2003, we granted to each of these executives an option to purchase the total number of shares set forth in the table below under the heading "Reduced Option Grant" at an exercise price per share of \$2.75. Each option granted has a maximum term of ten years and vests in sixteen equal quarterly installments.

Mr. Sim's base salary for the initial term of the agreement was Cd\$330,000 per year and is subject to periodic salary reviews. In addition, Mr. Sim is eligible to receive a performance bonus of up to 50% of his base salary upon meeting certain performance criteria established by our chief executive officer.

On April 1, 2002, we entered into an employment agreement with Mary Palermo Cotton, under which Ms. Cotton agreed to serve as our executive vice president and co-chief operating officer until at least September 30, 2002 and, thereafter, to serve for 15 months as our advisor focusing on business development issues. On March 13, 2003, we agreed with Ms. Cotton to amend the employment agreement to provide that the 15-month period would commence as of April 1, 2003. During this 15-month period, Ms. Cotton will continue to receive her base salary as in effect at the end of fiscal year 2002 and her stock options will continue to vest. Ms. Cotton's change in control agreement, dated August 12, 1997, has been terminated.

Change in Control Agreements

On August 12, 1997, we entered into change in control agreements with Messrs. McQuillin and Doyle. We subsequently entered into change in control agreements with Ms. Zappala on November 3, 1999 and Mr. Sim on May 9, 2002.

In the event of both a change in control and termination of employment (excluding termination for cause but including constructive termination), Messrs. McQuillin and Sim and Ms. Zappala will be entitled to a severance payment equal to three times salary plus bonus plus cost of benefits. In the event of both a change in control and termination of employment (excluding termination for cause but including constructive termination), Mr. Doyle will be entitled to a severance payment equal to two times salary plus bonus plus cost of benefits if such

events occur prior to August 1, 2004 and a severance payment equal to one time salary plus bonus plus cost of benefits if such events occur prior to August 14, 2006.

A "change in control" is generally defined as any one person or group of persons purchasing 25% of the outstanding stock. Each agreement provides that the payment will be increased in the event that it would subject the executive to excise tax as a parachute payment under Section 280G of the Internal Revenue Code. The increase would be equal to an amount necessary for the executive to receive after payment of such tax cash in an amount equal to the amount the executive would have received in the absence of such tax. However, the increased payment will not be made if the total severance payment, if so increased, would not exceed 110% of the highest amount (the "reduced amount") that could be paid without causing an imposition of the excise tax. In that event, in lieu of an increased payment, the total severance payment will be reduced to such reduced amount.

With the exception of Mr. Doyle's agreement, each agreement is automatically renewed thereafter on a yearly basis unless the board of directors ends the automatic renewal feature at least 60 days before June 30 (the annual renewal date). Mr. Doyle's agreement terminates on August 14, 2006 and does not automatically renew.

We may enter into similar change in control agreements in the future with other officers of our company.

Report of Compensation Committee

The following is the report of the compensation committee of the board of directors. The report describes the compensation policies and rationales that the compensation committee used to determine the compensation paid to our executive officers during fiscal year 2003.

Purpose of the Compensation Committee. The compensation committee is responsible for determining compensation levels for the executive officers for each fiscal year based upon a consistent set of policies and procedures.

Elements of the Compensation Program. Each executive officer's compensation package has three elements:

base compensation, which reflects individual performance and is designed primarily to be competitive with salary levels in a comparative group;

bonus compensation, payable in cash and based on achievement of financial performance goals established by the compensation committee; and

stock options, designed to assure long-term alignment with the interests of stockholders.

During fiscal 2003, the compensation committee conducted a detailed review of existing executive and employee equity compensation policies to determine whether the policies are in line with our corporate goals and the interests of stockholders. Based on the report to the compensation committee

of Clark Bardes Consulting, independent compensation consultants, the compensation committee determined that the equity compensation provided to executive officers and employees was below the market standard for our industry. As a result, in June 2003 and in connection with the Series D convertible preferred stock financing we completed on August 14, 2003, the compensation committee approved a new compensation plan that addressed existing compensation and severance arrangements in place for executive officers and established a new equity incentive program for executive officers and employees. In determining the number of options to grant to our executive officers under the compensation plan, the compensation committee took into consideration, among other factors, the number of existing options held by each executive officer with an exercise price less than \$10.00.

Based on the information reviewed by the compensation committee, including the report of Clark Bardes Consulting, the compensation committee determined that total executive compensation packages were authorized at levels deemed by the compensation committee to be appropriate to continue alignment with stockholder interests and to serve as a means to retain the services of the executive officers.

Section 162(m) Limitations. The cash compensation to be paid to our executive officers for the fiscal year ended June 30, 2003 is not expected to exceed the \$1,000,000 limit per officer imposed on the tax deductibility of such compensation by Section 162(m) of the Internal Revenue Code. Because our 1995 Stock Option Plan and 2001 Stock Option Plan limit the maximum number of shares of common stock for which any one participant may be granted stock options, any compensation deemed paid to an executive officer when he or she exercises an outstanding option under these plans will qualify as performance-based compensation and will not count toward (or beyond) the \$1,000,000 limitation.

INFORMATION ABOUT STOCK OWNERSHIP AND PERFORMANCE

Stock Owned by Directors, Executive Officers and Greater-Than-5% Stockholders

The following table sets forth certain information as of October 1, 2003, with respect to the beneficial ownership of our common stock, Series D-1 convertible preferred stock and Series D-2 convertible preferred stock by:

each person or group that we know owns of record or beneficially more than 5% of the outstanding shares of the common stock;

each of the named officers;

each of our directors, including the nominees for re-election; and

all of our executive officers and directors as a group.

A total of 40,017,211 shares of common stock, 300,300 shares of Series D-1 convertible preferred stock and 63,064 shares of Series D-2 convertible preferred stock were outstanding as of October 1, 2003.

Unless otherwise noted, each person identified possesses sole voting and investment power with respect to shares, subject to community property laws where applicable. Shares under "Common Stock Right to Acquire" include shares subject to options or warrants that were vested as of October 1, 2003 or will vest within 60 days of October 1, 2003, as well as shares issuable upon the conversion of Series D-1 and Series D-2 convertible preferred stock and our 5^{1/4}% convertible subordinated debentures due June 2005, or our convertible debentures. Shares not outstanding but deemed beneficially owned by virtue of the right of a person to acquire those shares are treated as outstanding only for purposes of determining the number and percent of shares of common stock owned by such person or group. Percentages under "Common Stock % of Voting Power" represent beneficial rights to vote with respect to matters on which holders of common stock generally are entitled to vote, including the election of directors at the meeting, as of October 1, 2003, and are based on (a) the number of outstanding shares of common stock beneficially owned by that person, (b) the number of shares subject to options or warrants held by that person that were exercisable on, or within 60 days after, October 1, 2003 and the number of shares issuable upon conversion of convertible debentures held by that person, and (c) the voting rights attributable to shares of Series D-1 and Series D-2 convertible preferred stock. In calculating percentages under "Common Stock % of Voting Power", the total number of votes entitled to be cast as of October 1, 2003 consists of (1) 40,017,211 votes, which is equal to the sum of the total votes to which the holders of outstanding shares of common stock are entitled and an aggregate of 36,336,400 votes to which the holders of Series D shares, voting on an as-converted basis are entitled, plus, (2) for an identified person, a number of votes equal to the number of shares issuable upon conversion or subject to options or warrants that were exercisable by such person on, or within 60 days after, October 1, 2003.

Pursuant to our charter, the number of shares of common stock that may be acquired upon conversion of the Series D-2 convertible preferred stock is limited to the extent necessary to ensure that, following such conversion, the common stock beneficially owned by a holder and its affiliates, and any other person that might be aggregated with such holder under Rule 13(d) of the Securities Exchange Act of 1934, does not exceed 4.99% of the outstanding common stock, including common stock issuable upon conversion of the Series D-2 convertible preferred

Edgar Filing: ASPEN TECHNOLOGY INC /DE/ - Form DEF 14A

stock. We refer to this limitation as the 4.99% conversion limitation. A holder of Series D-2 convertible preferred stock may, upon 61 days' written notice to us, waive the 4.99% conversion limitation or increase the percent at which such limitation is triggered with respect to such holder. The percentage of voting power and the number of shares of common stock shown below as beneficially owned by Smithfield Fiduciary LLC, Pine Ridge Financial, Inc. and Perseverance LLC disregard the 4.99% conversion limitation.
