NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Basis of Presentation

Station Casinos, Inc. (the "Company", "Station", "we", "our" or "us"), a Nevada corporation, is a gaming and entertainment company that currently owns and operates ten major hotel/casino properties (two of which are 50% owned) and eight smaller casino properties (three of which are 50% owned), in the Las Vegas metropolitan area, as well as manages a casino for a Native American tribe. The accompanying condensed consolidated financial statements include the accounts of Station, its wholly-owned subsidiaries and MPM Enterprises, LLC (which is 50% owned by Station and required to be consolidated). Investments in all other 50% or less owned affiliated companies are accounted for under the equity method. All significant intercompany accounts and transactions have been eliminated.

The accompanying condensed consolidated financial statements included herein have been prepared by Station, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations, although we believe that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary for a fair presentation of the results for the interim periods have been made. The results for the three months ended March 31, 2010 are not necessarily indicative of results to be expected for the full fiscal year. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009.

Certain amounts in the condensed consolidated financial statements for the three months ended March 31, 2009 have been reclassified to be consistent with the current year presentation. These reclassifications had no effect on the previously reported net loss.

Overview of Recent Developments

On July 28, 2009, the Company and its affiliates FCP Holding Inc., FCP VoteCo, LLC, Fertitta Partners, LLC, FCP MezzCo Parent, LLC, FCP MezzCo Parent Sub, LLC, FCP MezzCo Borrower VII, LLC, FCP MezzCo Borrower VI, LLC, FCP MezzCo Borrower V, LLC, FCP MezzCo Borrower IV, LLC, FCP MezzCo Borrower III, LLC, FCP MezzCo Borrower II, LLC, FCP MezzCo Borrower I, LLC, FCP PropCo, LLC, Northern NV Acquisitions, LLC, Tropicana Station, LLC, River Central, LLC and Reno Land Holdings, LLC (collectively, the "Debtors") filed voluntary petitions in the United States Bankruptcy Court for the District of Nevada in Reno, Nevada (the "Bankruptcy Court") under chapter 11 of title 11 of the United States Code. These chapter 11 cases are being jointly administered under the caption In re Station Casinos, Inc., et al Debtors Case No. 09-52470 (the "Chapter 11 Case"). On February 10, 2010, GV Ranch Station, Inc., a wholly-owned subsidiary of Station Casinos, Inc. that manages and owns 50% of Green Valley Ranch Resort Spa Casino ("Green Valley Ranch"), filed a voluntary petition in the Bankruptcy Court under chapter 11 of title 11 of the United States Code. The Chapter 11 Case and the GV Ranch Station, Inc. chapter 11 case are collectively referred to as the "Chapter 11 Cases."

On March 24, 2010, the Debtors filed a joint plan of reorganization under Chapter 11 of the Bankruptcy Code (the "Joint Plan of Reorganization"). Fertitta Gaming LLC ("Fertitta Gaming"), which is owned by Frank and Lorenzo Fertitta, and the steering committee representing over 60% of the Company's senior secured bank debt (the "Opco Lenders") have reached an agreement (the "Opco Plan

Support Agreement") to support the Joint Plan of Reorganization of the Company and its subsidiaries that are debtors and debtors in possession (collectively, the "Debtors") in the Chapter 11 cases pending in the United States Bankruptcy Court, which is to be modified pursuant to the terms of the Opco Plan Support Agreement (as so modified, the "Joint Plan").

Pursuant to the Opco Plan Support Agreement, the Opco Lenders have agreed to support the \$772 million "stalking horse" bid by a newly-formed company ("Newco") to be owned by Fertitta Gaming, Colony Capital and the mortgage lenders to FCP Propco, LLC ("Propco" and the "Propco Lenders," respectively), to purchase substantially all of the assets of the Company, which include Santa Fe Station, Texas Station, Fiesta Henderson, Fiesta Rancho and Native American gaming projects (the "Opco Properties"). The Company is not currently party to any agreement with respect to Newco's purchase of the Opco Properties and such purchase is subject to the Company conducting a sale process for such assets under the supervision of the Bankruptcy Court. If Newco is the successful bidder, Fertitta Gaming will manage the Opco Properties under a long-term management agreement.

Also pursuant to the Opco Plan Support Agreement, the parties have agreed to support the Joint Plan as it relates to the restructuring of Propco, which includes the acquisition of Red Rock Casino Resort Spa, Palace Station, Boulder Station, and Sunset Station (the "Propco Properties") by Newco. The Propco Lenders have agreed to sell 46% of the equity in Newco to Fertitta Gaming, which will be making a new investment in Newco. The remaining equity in Newco will be owned primarily by the Propco Lenders and Colony Capital, which will also be making a new investment in the company. Fertitta Gaming will also manage the Propco Properties under a long-term management agreement. The restructuring of Propco under the Joint Plan is not conditioned upon Newco ultimately becoming the successful bidder for the Opco Properties.

The Joint Plan of Reorganization and the disclosure statement have not yet been approved by the Bankruptcy Court and are subject to further negotiations with creditors of the Company and its subsidiaries. As a result, the Joint Plan of Reorganization and the disclosure statement may be materially modified before approval. In addition to customary Chapter 11 proceedings, the completion of the transaction is subject to Hart-Scott-Rodino and other antitrust reviews and customary closing conditions.

This report is not intended to be, and should not in any way be construed as, a solicitation of votes on the Joint Plan of Reorganization. The Joint Plan of Reorganization and the related disclosure statement have been filed with the Bankruptcy Court and were filed with the Securities and Exchange Commission by the Company on its Current Report on Form 8-K dated March 24, 2010, which is publicly available at <http://www.sec.gov>. The Joint Plan of Reorganization and the disclosure statement may not be relied on for any purpose until a determination by the Bankruptcy Court is made that the proposed disclosure statement contains adequate information, as required by the U.S. Bankruptcy Code. Following Bankruptcy Court approval of the disclosure statement and related voting solicitation procedures, the Company will solicit acceptances of the plan and seek its confirmation by the Bankruptcy Court. There can be no assurance that such plan acceptances or confirmation will be obtained.

The Company's direct and indirect subsidiaries that operate its hotel and casino properties have not filed for bankruptcy relief and continue to operate their businesses in the ordinary course.

The Debtors continue to conduct their businesses as debtors-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code and the orders of the Bankruptcy Court.

It is probable that a plan of reorganization would require the issuance of common stock or common stock equivalents.

Accounting for Reorganization

Accounting Standards Codification ("ASC") Topic 852, *Reorganizations* provides accounting guidance for financial reporting by entities in reorganization under the bankruptcy code including companies in chapter 11, and generally does not change the manner in which financial statements are prepared. The condensed consolidated financial statements have been prepared on a going-concern basis, which assumes continuity of operations, realization of assets and satisfaction of liabilities in the ordinary course of business. The Chapter 11 Cases create substantial doubt about Station's ability to continue as a going concern. The accompanying condensed consolidated financial statements do not reflect any adjustments relating to the recoverability of assets and the classification of liabilities that might result from the outcome of these uncertainties. In addition, a plan of reorganization could materially change the amounts and classifications reported in the condensed consolidated financial statements which do not give effect to any adjustments to the carrying values of assets or amounts of liabilities that might be necessary as a consequence of confirmation of a plan of reorganization.

Station's ability to continue as a going concern is contingent upon, among other things, its ability to (i) maintain compliance with the debtor in possession ("DIP") credit agreement, (ii) generate sufficient cash flow from operations; and (iii) obtain confirmation of a plan of reorganization under the Bankruptcy Code. In the event Station's restructuring activities are not successful and it is required to liquidate, the Company will be required to adopt the liquidation basis of accounting. Under the liquidation basis of accounting, assets are stated at their estimated net realizable values and liabilities are stated at their estimated settlement amounts.

ASC Topic 852 requires that the financial statements for periods subsequent to the filing of the Chapter 11 Cases distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. As a result, revenues, expenses, realized gains and losses, and provisions for losses that can be directly associated with the reorganization and restructuring of the business were reported separately as reorganization items in the statements of operations beginning in the quarter ended September 30, 2009. ASC Topic 852 also requires that the balance sheet distinguish pre-petition liabilities subject to compromise from both those pre-petition liabilities that are not subject to compromise and from post-petition liabilities, and requires that cash used for reorganization items be disclosed separately in the statement of cash flows. Station adopted ASC Topic 852 on July 28, 2009 and has segregated those items as outlined above for all reporting periods subsequent to such date.

Factors Affecting Comparability

As a result of the filing of the Chapter 11 Cases, Station is now periodically required to file various documents with (and provide certain information to) the Bankruptcy Court, including statements of financial affairs, schedules of assets and liabilities, and monthly operating reports in forms prescribed by federal bankruptcy law, as well as certain financial information on an unconsolidated basis. Such materials will be prepared according to requirements of federal bankruptcy law. While they accurately provide then-current information required under federal bankruptcy law, they are nonetheless unconsolidated, unaudited, and prepared in a format different from that used in Station's financial statements filed under the securities laws. Accordingly, we believe that the substance and format do not allow meaningful comparison with our regular publicly disclosed financial statements. Moreover, the materials filed with the Bankruptcy Court are not prepared for the purpose of providing a basis for an investment decision relating to Station's securities, or for comparison with other financial information filed with the Securities and Exchange Commission.

DIP Financing

In connection with the filing of the Chapter 11 Case, on July 31, 2009, the Company entered into a \$150 million unsecured, subordinated administrative priority debtor in possession credit agreement (the "DIP Credit Agreement") among the Company, as borrower, Vista Holdings, LLC (a non-debtor subsidiary of the Company) as administrative agent (the "Administrative Agent") and lender, and the lenders party thereto. The DIP Credit Agreement provides for a \$150 million revolving credit facility to be funded on a committed basis for so long as Vista Holdings, LLC has cash and cash equivalents on hand in an amount in excess of \$100 million and on a discretionary basis thereafter. During the three months ended March 31, 2010, the DIP Credit Agreement was amended to increase the facility to \$185 million. The proceeds of the loans incurred under the DIP Credit Agreement will be used for working capital and other general corporate purposes of the Company and will be available for intercompany loans to its subsidiaries during the pendency of the Chapter 11 Case. At March 31, 2010, advances under the DIP Credit Agreement totaled \$172.0 million, and availability was \$13.0 million. Vista Holdings, LLC had cash and cash equivalents on hand of \$13.0 million at March 31, 2010.

The Company's obligations under the DIP Credit Agreement will be an administrative expense claim in the Chapter 11 Case having *pari passu* priority with other administrative expense claims, provided that repayment of the loan by the Company shall be subordinate to the full repayment of the lenders under the Company's prepetition Credit Agreement.

The Company's obligations under the DIP Credit Agreement may be accelerated following certain events of default, including (without limitation) the conversion of any of the Chapter 11 Case to a case under chapter 7 of the Bankruptcy Code or the appointment of a trustee pursuant to chapter 11 of the Bankruptcy Code.

The DIP Credit Agreement matures on the earlier of (i) August 10, 2010, (ii) ten business days after the effective date a chapter 11 plan of reorganization is confirmed in the Chapter 11 Case by the Bankruptcy Court, and (iii) the date of acceleration, if any, of the advances under the DIP Credit Agreement following an event of default thereunder.

Also, in connection with the filing of the Chapter 11 Case, on July 31, 2009, the Company entered into an Unsecured Revolving Loan Promissory Note in favor of Past Enterprises, Inc. (a non-debtor subsidiary of the Company) pursuant to which Past Enterprises provides to the Company an unlimited revolving credit facility (the "Past Revolving Loan") at an interest rate of 2.78% per annum, the proceeds of which will be used for working capital and other general corporate purposes of the Company and will be available for intercompany loans to its subsidiaries.

The Past Revolving Loan matures on the earlier of (i) demand, or (ii) July 31, 2011, and provides for a default rate of interest of 4.78% if principal or interest due thereunder is not paid when due. At March 31, 2010, the outstanding balance due under the Past Revolving Loan totaled \$98.0 million.

The Company's obligations under the Past Revolving Loan will be an administrative expense claim in the Chapter 11 Case having *pari passu* priority with other administrative expense claims, provided that repayment of the loan by the Company shall be subordinate to the full repayment of the lenders under the Company's prepetition Credit Agreement.

Merger

On November 7, 2007, the Company completed its merger (the "Merger") with FCP Acquisition Sub, a Nevada corporation ("Merger Sub"), pursuant to which Merger Sub merged with and into the Company with the Company continuing as the surviving corporation. The Merger was completed pursuant to the

Agreement and Plan of Merger (the "Merger Agreement"), dated as of February 23, 2007 and amended as of May 4, 2007, among the Company, Fertitta Colony Partners LLC, a Nevada limited liability company ("FCP"), and Merger Sub.

Significant Accounting Policies

A description of the Company's significant accounting policies can be found in Item 7 of its Annual Report on Form 10-K, as amended, for the year ended December 31, 2009.

Recently Issued Accounting Standards

In April 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-16, *Entertainment Casinos (Topic 924): Accruals for Casino Jackpot Liabilities, a consensus of the FASB Emerging Issues Task Force*. This guidance clarifies that an entity should not accrue jackpot liabilities (or portions thereof) before a jackpot is won if the entity can avoid paying that jackpot. Jackpots should be accrued and charged to revenue when an entity has the obligation to pay the jackpot. The guidance applies to both base and progressive jackpots. The guidance is effective for reporting periods beginning after December 15, 2010. Accordingly, we will adopt the new guidance in the first fiscal quarter of 2011. The adoption of this new guidance is not expected to have a material impact on our condensed consolidated financial statements.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This guidance clarifies and extends the disclosure requirements about recurring and nonrecurring fair value measurements. The guidance is effective for reporting periods beginning after December 15, 2009. Accordingly, we adopted the new guidance in the first fiscal quarter of 2010. The adoption of this new guidance did not have a material impact on our condensed consolidated financial statements.

In June 2009, the FASB issued new authoritative guidance for accounting for transfers of financial assets. The new guidance removes the concept of a qualifying special-purpose entity (QSPE) from the accounting guidance for accounting for transfers and servicing of financial assets and extinguishment of liabilities and removes the exception from applying the accounting guidance related to consolidation of variable interest entities. The new guidance also clarifies the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. This new guidance is effective for fiscal years beginning after November 15, 2009, and accordingly, we adopted this new guidance on January 1, 2010. The adoption of this new guidance did not have a material impact on our condensed consolidated financial statements.

In June 2009, the FASB issued new authoritative guidance amending the accounting guidance related to consolidation of variable interest entities ("VIE"). Among other things, the new guidance requires a qualitative rather than a quantitative analysis to determine the primary beneficiary of a VIE; requires continuous assessments of whether an enterprise is the primary beneficiary of a VIE; enhances disclosures about an enterprise's involvement with a VIE including disclosure of significant judgments and assumptions as to whether a VIE must be consolidated and how involvement with a VIE affects the company's financial statements; and amends certain guidance for determining whether an entity is a VIE. Under the new guidance, a VIE must be consolidated if the enterprise has both (a) the power to direct the activities of the VIE that most significantly impact the entity's economic performance, and (b) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. This new guidance is effective for fiscal years beginning after November 15, 2009. Accordingly, we adopted this new guidance on January 1, 2010. The adoption of this new guidance did not have a material impact on our condensed consolidated financial statements.

Table of Contents**1. Basis of Presentation (Continued)**

A variety of proposed or otherwise potential accounting guidance is currently under study by standard-setting organizations and certain regulatory agencies. Because of the tentative and preliminary nature of such proposed accounting guidance, we have not yet determined the effect, if any, that the implementation of such proposed accounting guidance would have on our condensed consolidated financial statements.

2. Due from Unconsolidated Affiliate

Effective January 1, 2009, a promissory note in the amount of \$5.0 million (the "2009 GVR Promissory Note") was executed between GV Ranch Station, Inc. (the consolidated entity that owns our 50% portion of Green Valley Ranch) and Green Valley Ranch. The 2009 GVR Promissory Note accrues interest at an annual rate of 5.0% and matures on January 1, 2011. This promissory note is subordinate to Green Valley Ranch's senior secured debt and interest rate swaps. During the three months ended March 31, 2010, events of default occurred related to Green Valley Ranch's senior secured debt and interest rate swaps. As a result, the Company determined the GVR Promissory Note and the related accrued interest may not be recoverable and accordingly, the note and accrued interest receivable were fully reserved during the three months ended December 31, 2009.

The intangible asset for customer relationships refers to the value associated with our rated casino guests. The Company amortizes its definite-lived intangible assets, including its customer relationship intangible asset, ratably over their estimated useful lives. The aggregate amortization expense for those assets that are amortized under the provisions of ASC Topic 350, *Intangibles Goodwill and Other*, was approximately \$8.9 million and \$14.1 million for the three months ended March 31, 2010 and 2009,

respectively. Estimated annual amortization expense for intangible assets for the years ended December 31, 2010, 2011, 2012, 2013 and 2014 is anticipated to be approximately \$21.9 million, \$0.8 million, \$4.3 million, \$23.8 million and \$23.8 million, respectively.

4. Investments in Joint Ventures

We have various investments in 50% owned joint ventures, and a 6.7% investment in a joint venture that owns the Palms Casino Resort in Las Vegas, Nevada, which are accounted for under the equity method. Under the equity method, original investments are recorded at cost and adjusted by our share of earnings, losses and distributions of the joint ventures, and the carrying value of investments may be reduced below zero, resulting in a deficit investment balance, when the investor is committed to provide further financial support for the investee. The investment balance also includes the effect of any previously recognized impairment charges. As of March 31, 2010, we have received distributions in excess of our equity earnings. Investments in joint ventures consist of the following (amounts in thousands):

- (b) As a result of the ongoing losses of Aliante Station and an impairment of our joint venture investment recognized during the year ended December 31, 2008, our investment in Aliante Station at March 31, 2010 and December 31, 2009 reflects a deficit of approximately \$44.3 million and \$38.4 million, respectively, which is recorded as a long-term liability on our condensed consolidated balance sheets.
- (c) As a result of the significant decline in real estate values in the Las Vegas valley, Rancho Road recorded an impairment charge related to its land held for development during the year ended December 31, 2009. Our investment in Rancho Road at March 31, 2010 and December 31, 2009 reflects a deficit of approximately \$104.4 million and \$104.7 million, respectively, which is recorded as a long-term liability on our condensed consolidated balance sheets.

- (b) Certain long-term debt is subject to compromise as a result of the Chapter 11 Case and is classified as liabilities subject to compromise in the accompanying condensed consolidated balance sheets as described below.

Liabilities Subject to Compromise

Under bankruptcy law, actions by creditors to collect upon liabilities of the Debtors incurred prior to the Petition Date are stayed and certain other pre-petition contractual obligations may not be enforced against the Debtors without approval of the Court. In accordance with ASC Topic 852, these liabilities are classified as liabilities subject to compromise in our condensed consolidated balance sheets as of March 31,

Table of Contents**5. Long-term Debt and Liabilities Subject to Compromise (Continued)**

2010 and December 31, 2009, and are adjusted to the expected amount of the allowed claims, even if they may be settled for lesser amounts. The expected amount of the allowed claims for certain liabilities subject to compromise differ from their prepetition carrying amounts mainly as a result of the write-off of approximately \$185.7 million in debt discounts during the year ended December 31, 2009 and the reversal of approximately \$88.6 million in nonperformance risk adjustments that had previously been included in the pre-petition fair values of the interest rate swap liabilities in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures*. Adjustments to the claims may result from negotiations, payments authorized by the Court, interest accruals, or other events. It is anticipated that such adjustments, if any, could be material. As of March 31, 2010 and December 31, 2009, respectively, certain pre-petition liabilities included in liabilities subject to compromise have been reduced or increased as a result of the payment of certain accounts payable and notes payable as allowed by the court, and as a result of non-cash adjustments of the expected amount of the allowed claims related to interest rate swap liabilities. In addition, during the three months ended March 31, 2010, a \$6.1 million settlement liability related to a pre-petition litigation matter was recorded. Any payment terms established for the liabilities subject to compromise will be established in connection with actual confirmation of a plan of reorganization. Liabilities subject to compromise are classified separately from long-term obligations and current liabilities on the accompanying condensed consolidated balance sheets.

Liabilities subject to compromise consist of the following (in thousands):

Interest Expense

In accordance with ASC Topic 852, interest expense is recognized only to the extent that it will be paid during the bankruptcy proceeding or that it is probable that it will be an allowed claim. Currently the Company is not accruing interest for the senior notes, the senior subordinated notes or the mezzanine financings. As a result, post-petition interest expense is lower than pre-petition interest expense. The write-off of debt discounts and deferred debt issue costs related to liabilities subject to compromise also reduces post-petition interest expense as there are no longer any non-cash amortization charges related to these items.

CMBS Loans

In connection with the Merger, on November 7, 2007, a number of wholly-owned unrestricted direct and indirect subsidiaries of Station (collectively, the "CMBS Borrower") entered into a mortgage loan and related mezzanine financings in the aggregate principal amount of \$2.475 billion (the "CMBS Loans"), for the purpose of financing the Merger consideration payable to the Company's stockholders upon consummation of the Merger and paying fees and expenses incurred in connection with the Merger.

The CMBS Loans are secured by substantially all fee and leasehold real property comprising Palace Station, Boulder Station, Sunset Station and Red Rock (collectively, the "CMBS Property"). Prior to the 2009 maturity date, the CMBS Borrower exercised a one-year extension to extend the maturity date to November 2010 subject to two additional one-year extensions. The lenders have disputed the effectiveness of the extension. Interest on the CMBS Loans is equal to one-month LIBOR plus 5.3% per annum, which includes an additional 3.0% default rate. As a result of the Chapter 11 Case, interest due on the mezzanine financings is not being remitted to the mezzanine lenders. The CMBS Borrower is required to hedge the LIBOR interest rate such that it will not exceed 5.5% on a blended basis. As a result, the CMBS Borrower purchased interest rate caps with a combined notional amount of \$1.11 billion and a cap rate of 5.8% for an initial premium of \$3.6 million. The initial premium was recorded in other assets and, in accordance with ASC Topic 815, *Derivatives and Hedging*, is marked to market at each reporting period. In addition, the CMBS Borrower entered into an interest rate swap with a notional amount of \$1.36 billion in which the borrower paid a fixed rate of approximately 5.3% and received one-month LIBOR, terminating in November 2012. This interest rate swap was early terminated during the three months ended December 31, 2009 (see Note 6 Derivative Instruments).

The loan documents for the CMBS Loans (the "CMBS Loan Documents") contain a number of covenants that, among other things, restrict, subject to certain exceptions, each wholly-owned unrestricted direct and indirect subsidiary's ability to incur additional indebtedness; create liens on assets; engage in mergers or consolidations; sell assets; pay dividends or make distributions; make investments, loans or advances; make certain acquisitions; engage in certain transactions with affiliates; and fundamentally change its business. The CMBS Loan Documents also require the CMBS Borrower to fund specific reserves as defined. In addition, the CMBS Loan Documents contain a requirement that if the CMBS Borrower fails to maintain a minimum lease coverage ratio of 1.15 to 1.00 during two consecutive fiscal quarters, 80% of the funds available following the payment of all amounts and reserves required to be made pursuant to the CMBS Loan Documents be deposited into an account for the benefit of the lenders instead of permitting distribution of such funds to the Company. As of December 31, 2009 and March 31, 2010, we were not in compliance with the lease coverage ratio. In a letter dated April 6, 2009 to the CMBS Borrower, certain lenders under the CMBS Loans alleged that the CMBS Borrower had not calculated the lease coverage ratio in accordance with the CMBS Loan Documents for the quarters ended September 30, 2008 and December 31, 2008 and further alleged that the CMBS Borrower would not have been in compliance with the minimum lease coverage ratio if the lease coverage ratio had been properly calculated. As a result, those lenders instituted a block against the release of 80% of the funds available following the payment of all amounts and reserves due under the CMBS Loans and instructed our depository bank to hold such funds in a collateral account for the benefit of the lenders. As a result of the Chapter 11 Case, the block against the release of funds increased to 100% of the funds available following the payment of all amounts and reserves due under the CMBS Loans. As of March 31, 2010, \$109.3 million has been deposited in the collateral account in relation to this block.

Land Loan

On February 7, 2008, CV Propco, LLC, a wholly-owned, indirect unrestricted subsidiary of Station, as borrower, entered into a \$250 million delay-draw term loan which is collateralized by land located on the southern end of Las Vegas Boulevard at Cactus Avenue and land surrounding Wild Wild West in Las Vegas, Nevada (the "Land Loan"). The Land Loan contains no principal amortization and matures on February 7, 2011. At closing, \$200 million was drawn with the remaining \$50 million drawn in June 2008. The proceeds were used to fund a distribution to Station, establish an interest reserve and pay transaction expenses. Borrowings under the Land Loan bear interest at LIBOR plus 5.5% per annum or at the Alternate Base Rate (as defined in the Land Loan) plus 4.5% per annum, which includes an additional 2% default rate, at the borrower's election. The borrower is required to hedge the interest rate such that LIBOR will not exceed 6.5%. As a result, the borrower entered into two interest rate swap agreements with notional amounts of \$200 million and \$50 million in which the borrower pays a fixed LIBOR rate of 3.0% and 3.7%, respectively, and receives one-month LIBOR. These interest rate swaps were early terminated in November 2009 (see Note 6 Derivative Instruments).

The Land Loan contains a number of covenants that, among other things, restrict, subject to certain exceptions, the borrower's ability to incur additional indebtedness; create liens on assets; engage in mergers or consolidations; sell assets; pay dividends or make distributions; make investments, loans or advances; make certain acquisitions; engage in certain transactions with affiliates; and fundamentally change its business. In addition, the Land Loan requires the borrower to maintain a loan-to-value ratio of no more than 40% and also contains customary affirmative covenants and certain events of default.

During the first quarter of 2009, the lenders under the Land Loan, based on appraisals, indicated their opinion that the value of the collateral had likely decreased to the point that the loan-to-value ratio was no longer less than 40%, as required under the credit agreement, and thus an event of default had occurred under the credit agreement. As a result of such event of default, lenders have become entitled to exercise remedies, including, among other things, the ability to declare the Land Loan and related accrued interest due and payable and to foreclose on the underlying collateral of the borrower which at March 31, 2010 and December 31, 2009 included land with a book value of \$133.2 million. In December 2009, the balance of the interest reserve account of \$8.2 million was liquidated, and \$8.0 million was applied as a principal reduction to the loan with the remainder applied to the swap termination settlement amount. In addition, the borrower did not make the November 2009 payments or any subsequent payments due on account of interest or the interest rate swap agreements. There is no recourse to the Company for any portion of the land loan that is not satisfied by the Borrower or the collateral. The Company is in discussions with the lenders regarding a restructuring of the Land Loan however the Company can provide no assurance that it will be able to reach an agreement with the lenders. As a result the outstanding indebtedness related to the Land Loan has been classified as current in the accompanying condensed consolidated balance sheets.

Credit Agreement

In connection with the Merger, Station, as borrower, entered into a new \$900 million senior secured credit agreement (the "Credit Agreement") consisting of a \$650 million revolving facility (the "Revolver") and a \$250 million term loan (the "Term Loan"). The maturity date for both the Term Loan and the Revolver is August 7, 2012 subject to a single 15-month extension (as further defined in the Credit Agreement). The Term Loan requires quarterly principal payments of \$625,000. The Revolver contains no principal amortization. Borrowings under the Credit Agreement bear interest at a margin above the Alternate Base Rate or the Eurodollar Rate (each as defined in the Credit Agreement), as selected by us. The margin above such rates, and the fee on the unfunded portions of the Revolver, will vary quarterly based on our total debt to Adjusted EBITDA (as defined in the Credit Agreement). As of March 31, 2010,

Table of Contents

5. Long-term Debt and Liabilities Subject to Compromise (Continued)

the borrower's margin above the Eurodollar Rate on borrowings under the Credit Agreement was 4.50%. As of March 31, 2010, the maximum margin for Eurodollar Rate borrowings was 4.50% and the maximum margin for Alternate Base Rate borrowings was 3.50%. As of March 31, 2010, the fee for any unfunded portion of the Revolver was 0.375%.

The Credit Agreement contains certain financial and other covenants. These include a minimum interest coverage ratio, a maximum total debt to Adjusted EBITDA (as defined in the Credit Agreement) ratio and a total senior secured debt to Adjusted EBITDA (as defined in the Credit Agreement) ratio.

For the quarters ended December 31, 2008, March 31, 2009, June 30, 2009, September 30, 2009, December 31, 2009 and March 31, 2010, we were not in compliance with the financial covenants in the Credit Agreement. In addition, the filing of the Chapter 11 Case constitutes an event of default under the terms of the Credit Agreement resulting in an acceleration of the obligations thereunder, subject to the bankruptcy stay.

Senior and Senior Subordinated Notes

The indentures (the "Indentures") governing our \$2.3 billion in aggregate principal amount of senior and senior subordinated notes (the "Notes") contain certain customary financial and other covenants, which limit our and our subsidiaries' ability to incur additional debt.

We have not made scheduled interest payments on the Company's \$450 million 6¹/₂% Senior Subordinated Notes due February 1, 2014 (the "2014 Subordinated Notes"), \$400 million 7³/₄% Senior Notes due August 15, 2016 (the "2016 Senior Notes"), \$700 million 6⁷/₈% Senior Subordinated Notes due 2016 (the "2016 Subordinated Notes"), \$300 million 6⁵/₈% Senior Subordinated Notes due 2018 (the "2018 Subordinated Notes") or \$450 million 6% Senior Notes due 2012 (the "2012 Senior Notes") since February 1, 2009. The grace periods with respect to the payment of interest on the 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes and 2012 Senior Notes have expired, resulting in an event of default under the indentures governing such indebtedness. In addition as a result of the filing of the Chapter 11 Case, the 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes and 2012 Senior Notes have been accelerated and are due and payable, subject to the bankruptcy stay.

Gain on Early Retirement of Debt

In January 2009, a wholly-owned subsidiary of the Company purchased \$40.0 million in aggregate principal amount of our outstanding \$700 million 6⁷/₈% Senior Subordinated Notes and \$8.0 million in aggregate principal amount of our outstanding \$450 million 6¹/₂% Senior Subordinated Notes for approximately \$1.5 million plus approximately \$1.4 million in accrued interest. As a result, during the three months ended March 31, 2009, we recorded a gain on early retirement of debt of approximately \$40.3 million, which is the difference between the reacquisition price and the net carrying amount of the extinguished debt including the face amount of the associated debt adjusted for the related unamortized discount and debt issuance costs.

Corporate Office Lease

In November 2007, we entered into a sale-leaseback agreement related to our corporate office building with a third-party real estate investment firm. We sold the corporate office building for approximately \$70 million and subsequently entered into a lease with the purchaser for an initial period of 20 years with four options to extend the lease, each option for an extension of five years. An event of default under the sale leaseback agreement for the corporate office building occurred on October 26, 2009

Table of Contents**5. Long-term Debt and Liabilities Subject to Compromise (Continued)**

as a result of the Chapter 11 Case not being dismissed within 90 days following the filing thereof, entitling the landlord to exercise its remedies thereunder, including, among other things, termination of the lease and acceleration of contractual rents. Annual lease payments increase approximately 1.2% annually to approximately \$6.7 million in the final year of the original term. The lease also contains two options for us to repurchase the corporate office building, one option at the end of the fifth year of the lease term and a second option at the end of the tenth year of the lease term, which is considered continuing involvement under the authoritative guidance for accounting for sale-leaseback transactions involving real estate. Because of this continuing involvement, the sale-leaseback transaction is being accounted for as a financing transaction, with the sales proceeds recorded as a liability and the lease payments recorded as interest expense. In addition, we continue to include the corporate office building within property and equipment, net on our condensed consolidated balance sheets and depreciate it according to our policy. During the three months ended March 31, 2010 and 2009, we recorded interest expense related to this lease of approximately \$1.3 million, respectively. Future minimum lease payments related to this lease for the next five years are approximately \$5.4 million, \$5.5 million, \$5.5 million, \$5.6 million and \$5.7 million for the years ended December 31, 2010, 2011, 2012, 2013 and 2014, respectively.

Fair Value of Long-term Debt

At March 31, 2010, the estimated aggregate fair value of our publicly traded debt securities is \$100.4 million compared to a carrying amount of \$2.25 billion. At December 31, 2009, the estimated aggregate fair value of our publicly traded debt securities was \$138.3 million compared to a carrying amount of \$2.25 billion. The fair value of our publicly traded debt securities is estimated based on quoted market prices, which is considered a Level 1 fair value measurement. As a result of the uncertainties surrounding the Chapter 11 Case, it is not practicable to estimate the fair value of our long-term debt that is not publicly traded.

6. Derivative Instruments

Our objective in using derivatives is to add stability to interest expense and to manage our exposure to interest rate movements or other identified risks. To accomplish this objective, we primarily use interest rate swaps and interest rate caps as part of our cash flow hedging strategy. Interest rate swaps utilized as cash flow hedges involve the receipt of variable-rate payments in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. We do not use derivative financial instruments for trading or speculative purposes.

At March 31, 2010 we have a floating-to-fixed interest rate swap with a notional amount of \$250 million, terminating in January 2011, which effectively converts a portion of our floating-rate debt to a fixed rate. This interest rate swap is not designated as a hedging instrument and as a result, gains or losses resulting from the change in fair value of this swap are recognized in earnings in the period of the change. As a result of the Chapter 11 Case, this swap is classified in liabilities subject to compromise in the accompanying condensed consolidated balance sheets, and in accordance with ASC Topic 852, the liability is carried at the expected amount of the allowed claim, which approximates the fair value of the swap without adjustments for non-performance risk. Fluctuations in interest rates can cause the fair value of our derivative instruments to change each reporting period. While we attempt to predict such movements in interest rates and impact on derivative instruments, such estimates are subject to a large degree of variability which could have a significant impact on our condensed consolidated financial statements. As of March 31, 2010, we paid a weighted-average fixed rate of approximately 3.0% and received one-month LIBOR which approximated 0.2% on this interest rate swap.

6. Derivative Instruments (Continued)

During the three months ended March 31, 2010, an interest rate swap of one of our 50% owned joint ventures with a notional amount of \$430.0 million was early terminated and as a result, we reclassified \$2.0 million of deferred losses, net of tax, from accumulated other comprehensive income (loss) into operations. As a result of the termination of this interest rate swap, the carrying amount of the liability was adjusted to the termination settlement amount and a loss was recorded by the joint venture. Our 50% share of this loss is reflected in interest and other expense from joint ventures in the accompanying condensed consolidated statement of operations for the three months ended March 31, 2010.

During the three months ended December 31, 2009, we early terminated a floating-to-fixed interest rate swap with a notional amount of \$1.36 billion. Prior to termination, this cash flow hedge effectively converted a portion of our floating-rate debt to a fixed rate. This interest rate swap was not designated as a hedging instrument and as a result, gains or losses resulting from the change in fair value of this swap were recognized in earnings in the period of the change. The estimated expected amount of the allowed claim related to this interest rate swap, which approximates the termination settlement amount of the swap, is classified in liabilities subject to compromise in the accompanying condensed consolidated balance sheets.

Also during the three months ended December 31, 2009, we early terminated two floating-to-fixed interest rate swaps with a combined notional amount of \$250 million. Prior to termination, these cash flow hedges effectively converted a portion of our floating-rate debt to a fixed rate. These interest rate swaps previously qualified and were designated as cash flow hedges, resulting in the effective portion of the gain or loss from the change in fair value being reported as a component of other comprehensive income (loss). During the first quarter of 2009, these interest rate swaps were de-designated as cash flow hedges for accounting purposes. As a result of the termination of these swaps, we reclassified \$1.7 million in deferred losses, net of tax, from accumulated other comprehensive income (loss) into earnings during the three months ended December 31, 2009. The total termination settlement amount of these swaps is recorded in accrued expenses and other current liabilities in the accompanying condensed consolidated balance sheets.

During the second quarter of 2009, two interest rate swaps of one of our 50% owned joint ventures with notional amounts of \$297.8 million were terminated. As a result, we reclassified \$0.3 million in deferred losses, net of tax, from accumulated other comprehensive income into operations during the year ended December 31, 2009. Accumulated other comprehensive loss on our condensed consolidated balance sheets at December 31, 2009 includes our proportionate share of our 50% owned joint ventures' deferred net losses on interest rate swaps that were previously designated as hedging instruments. As of March 31, 2010, all deferred net losses related to these interest rate swaps have been reclassified from accumulated other comprehensive income (loss) into operations.

In accordance with ASC Topic 852, *Reorganizations*, the Debtors' interest rate swap liabilities are classified as liabilities subject to compromise in our condensed consolidated balance sheets as of March 31, 2010 and December 31, 2009. These interest rate swap liabilities are adjusted to the expected amounts of the allowed claims, which are different than the prepetition carrying amounts of these liabilities as a result of changes in the fair values of these instruments. Gains and losses resulting from adjustments to the carrying values of swap liabilities subject to compromise are recorded in reorganization items in the accompanying condensed consolidated statements of operations.

The difference between amounts received and paid under our interest rate swap agreements, as well as any costs or fees, is recorded as an addition to, or reduction of, interest expense as incurred over the life of the interest rate swaps. The net effect of the interest rate swaps and interest rate cap resulted in an increase in interest expense of approximately \$1.7 million and \$19.3 million for the three months ended March 31, 2010 and 2009, respectively. In addition, our proportionate share of the net effect of interest rate swaps of our 50% owned joint ventures is reflected as an increase or decrease in interest and other expense from joint ventures in our condensed consolidated statements of operations, and totaled approximately \$26.8 million and \$0.6 million for the three months ended March 31, 2010 and 2009, respectively.

7. Fair Value Measurements

The Company measures the fair value of its derivative instruments, deferred compensation assets and liabilities, and available-for-sale securities on a recurring basis pursuant to ASC Topic 820, *Fair Value Measurements and Disclosures*, which utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. Fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that we have the ability to access. Level 2 inputs include inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable, and include situations in which there is little, if any, market activity for the asset or liability at the measurement date.

Table of Contents**7. Fair Value Measurements (Continued)**

The following table presents information about our financial assets and liabilities measured at fair value on a recurring basis at March 31, 2010, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value (amounts in thousands, unaudited):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at March 31, 2010
Assets				
Company-owned life insurance deferred compensation	\$	\$ 20,670	\$	\$ 20,670
Interest rate caps		2		2
Available-for-sale securities	337			337
Total assets measured at fair value on a recurring basis	\$ 337	\$ 20,672	\$	\$ 21,009
Liabilities				
Liabilities subject to compromise:				
Interest rate swap	\$	\$ 5,316	\$	\$ 5,316
Deferred compensation liabilities	1,086			1,086
Total liabilities measured at fair value on a recurring basis	\$ 1,086	\$ 5,316	\$	\$ 6,402

The fair values of Company-owned life insurance deferred compensation assets are based on quotes for like instruments with similar credit ratings and terms. The fair values of available-for-sale securities and deferred compensation liabilities are based on quoted prices in active markets. The fair values of interest rate swaps and interest rate caps are based on quoted market prices from various banks for similar instruments. These quoted market prices are based on relevant factors such as the contractual terms of our interest rate swap agreements and interest rate curves and are adjusted for the non-performance risk of either us or our counterparties, as applicable. Certain interest rate swaps previously accounted for at fair value have been terminated early, and as a result, are no longer accounted for at fair value on a recurring basis.

The Company's remaining interest rate swap liability that is measured at fair value on a recurring basis has been reclassified to liabilities subject to compromise as a result of the Chapter 11 Case. In accordance with ASC Topic 852, this liability is carried at the expected amount of the allowed claim, which approximates its fair value, and as such, its carrying amount no longer includes an adjustment for non-performance risk.

8. Stockholders' Equity*Other Comprehensive Income*

ASC Topic 220, *Comprehensive Income* requires companies to disclose other comprehensive income (loss) and the components of such income (loss). Comprehensive income (loss) is the total of net income (loss) and all other non-stockholder changes in equity, and includes unrealized gains (losses) on available-for-sale securities and the amortization of unrecognized pension and postretirement benefit plan liabilities. In addition, comprehensive income (loss) includes recognition of deferred mark-to-market adjustments on interest rate swaps that were previously designated as hedging instruments, as well as our

50% share of deferred mark-to-market adjustments on interest rate swaps previously designated as hedging instruments at Green Valley Ranch and Aliante Station. Comprehensive loss was computed as follows (amounts in thousands, unaudited):

	Three months ended March 31,	
	2010	2009
Net loss	\$ (53,533)	\$ (33,709)
Mark-to-market valuation of interest rate swaps, net of tax	1,985	2,079
Unrealized (losses) gains on available-for-sale securities, net of tax	(37)	29
Amortization of unrecognized pension and postretirement benefit plan liabilities, net of tax	(11)	(9)
Comprehensive loss	\$ (51,596)	\$ (31,610)

The components of accumulated other comprehensive income (loss) are as follows (amounts in thousands):

	March 31, 2010	December 31, 2009
	(unaudited)	
Mark-to-market valuation of interest rate swaps of joint ventures, net of tax	\$	\$ (1,985)
Unrealized loss on available-for-sale securities, net of tax	(122)	(85)
Amortization of unrecognized pension and postretirement benefit plan liabilities, net of tax	1,137	1,148
Accumulated other comprehensive income (loss)	\$ 1,015	\$ (922)

The mark-to-market valuation of interest rate swaps, net of tax, included in accumulated other comprehensive loss at December 31, 2009 relates to our 50% interest in the mark-to-market valuation of the interest rate swap at Green Valley Ranch that was de-designated as a cash flow hedge during the year ended December 31, 2009. During the three months ended March 31, 2010, the Green Valley Ranch interest rate swap was early terminated and as a result, the remaining balance of deferred losses, net of tax, in accumulated other comprehensive loss was reclassified to operations.

9. Share-Based Compensation

Long-term incentive compensation is provided in the form of non-voting limited liability company membership interests in FCP and Fertitta Partners LLC, a Nevada limited liability company ("Fertitta Partners") pursuant to the Second Amended and Restated Operating Agreement of Fertitta Colony Partners and the Amended and Restated Operating Agreement of Fertitta Partners, respectively (collectively "the Operating Agreements"). The Operating Agreements allow certain officers and members of management of the Company to participate in the long-term growth and financial success of the Company through indirect ownership of Class B Units and direct ownership of Class C Units in FCP and Fertitta Partners. The purpose is to promote the Company's long-term growth and profitability by aligning the interests of the Company's management with the interests of the owners of the Company and by encouraging retention.

Upon the consummation of the Merger and during the year ended December 31, 2008, certain members of management were awarded indirect ownership of Class B Units and direct ownership of Class C Units in each of FCP and Fertitta Partners. The Class C Units include certain call and put provisions as defined in the Operating Agreements, such that under certain circumstances, within ninety

Table of Contents**9. Share-Based Compensation (Continued)**

days after termination, in certain cases, of the Class C Unit holder's employment with Station, FCP and Fertitta Partners can call the Class C Units and the employee that holds the Class C Units can put the Class C Units back to FCP and Fertitta Partners. The conditions that could result in the employee putting the Class C Units back to FCP and Fertitta Partners are either contingent or within the control of the issuer.

At March 31, 2010, we had unearned share-based compensation of approximately \$38.4 million associated with Class B Units and Class C Units which was originally expected to be recognized through September 2013. Should the Class B Units and Class C Units be cancelled as a result of the Chapter 11 proceedings, the remaining unearned share-based compensation will be recognized upon cancellation. During the three months ended March 31, 2010 and 2009, respectively, there were no Class B Units or Class C Units granted.

The following table shows the classification of share-based compensation expense within the accompanying condensed consolidated financial statements (amounts in thousands, unaudited):

	Three months ended	
	March 31,	
	2010	2009
Total share-based compensation	\$ 3,463	\$ 3,663

10. Future Development*Las Vegas Development**Rancho Road*

In December 2006, we entered into an amended and restated operating agreement with FBLV Holding Company LLC ("FBLV"). Pursuant to the amended and restated operating agreement, the parties contributed approximately 52 acres (with approximately 20 acres contributed by us for our 50% ownership and approximately 32 acres contributed by FBLV for their 50% ownership) of improved and unimproved real property located along Rancho Road south of Palace Station in Las Vegas, Nevada into a joint venture. It is anticipated that the joint venture will develop, construct and manage, pursuant to a master development plan, a mixed-use residential, retail and entertainment project on all or a portion of such property. The timing, cost and scope of the project have yet to be determined. Through March 31, 2010, we have contributed an additional \$44.7 million to fund the acquisition of additional property as well as design and development costs.

Native American Development

The Federated Indians of Graton Rancheria

We have entered into Development and Management Agreements with the Federated Indians of Graton Rancheria (the "FIGR"), a federally recognized Native American tribe. Pursuant to those agreements, we will assist the FIGR in developing and operating a gaming and entertainment project to be located in Sonoma County, California. The FIGR selected us to assist them in designing, developing and financing their project and, upon opening we will manage the facility on behalf of the FIGR. The Management Agreement has a term of seven years from the opening of the facility and we will receive a management fee equal to 24% of the facility's net income in years 1 through 4 and 27% of the facility's net income in years 5 through 7. We will also receive a development fee equal to 2% of the cost of the project upon the opening of the facility.

In October 2003, the FIGR entered into a Memorandum of Understanding with the City of Rohnert Park. In August 2005, we purchased 270 acres of land just west of the Rohnert Park city limits in Sonoma County, California. In March 2006, we purchased an additional 4.7 acres adjacent to the previously acquired property. The property purchased is approximately one-quarter mile from Highway 101 and approximately 43 miles from downtown San Francisco. In March 2008, it was determined that approximately 247 acres of the 270-acre site purchased in August 2005 would be taken into trust, with the remaining 23 acres retained by Station. As a result, the estimated cost of the remaining 23 acres was reclassified from Native American development costs to land held for development during the year ended December 31, 2008. Over the period of May 2007 through June 2008, we purchased an additional 11 acres of land adjacent to the 23 acres, bringing the total land held for development to 34 acres. Development of the gaming and entertainment project is subject to certain governmental and regulatory approvals, including, but not limited to, negotiating a gaming compact with the State of California, the United States Department of the Interior (the "DOI") accepting a portion of the land into trust on behalf of the FIGR and approval of the Management Agreement by the National Indian Gaming Commission (the "NIGC"). Prior to obtaining third-party financing, we will contribute significant financial support to the project. Through March 31, 2010, we have advanced approximately \$145.3 million toward the development of this project, primarily to complete the environmental impact study and secure real estate for the project, which is included on our consolidated balance sheets. Funds advanced by us are expected to be repaid from the proceeds of the project financing or from the FIGR's gaming revenues. In addition, we have agreed to pay approximately \$11.3 million upon achieving certain milestones, which will not be reimbursed. Through March 31, 2010, approximately \$2.0 million of these payments had been made and were expensed as incurred. The timing and feasibility of the project are dependent upon the receipt of the necessary governmental and regulatory approvals. The Company plans to continue contributing significant financial support to the project, even though there can be no assurances as to when or if the necessary approvals will be obtained.

On May 7, 2008, the DOI published in the Federal Register a Notice of Final Agency Determination (the "Determination") to take certain land into trust for the benefit of the FIGR. The publication commenced a thirty-day period in which interested parties could seek judicial review of the Determination. On June 6, 2008, the Stop The Casino 101 Coalition and certain individuals filed a complaint (the "Complaint") in the United States District Court for the Northern District of California seeking declaratory and injunctive relief against the DOI and officials of the DOI. The Complaint sought judicial review of the Determination. On September 10, 2008, the U.S. Attorney representing the DOI exercised her right to have the case reassigned from a magistrate to an Article III judge, and the FIGR subsequently intervened in the lawsuit. On November 17, 2008, the federal defendants and the FIGR filed their respective motions to dismiss the complaint for lack of jurisdiction and failure to state a claim. In response,

Table of Contents**10. Future Development (Continued)**

the plaintiffs filed a motion for leave to amend their complaint which was granted on January 26, 2009. The Company believes that the allegations contained in the Complaint are without merit. The DOI and the FIGR filed motions to dismiss the amended complaint on February 20, 2009, and on March 27, 2009, a hearing was held to argue such motions. On April 21, 2009, the DOI and FIGR's motions to dismiss were granted. On June 8, 2009, the plaintiffs filed an appeal (the "Appeal") in the United States Court of Appeals for the Ninth Circuit Appeals, and the DOI agreed to voluntary stay the taking of the site into trust pending resolution of the appeal. The plaintiffs, including several who are now represented separately by a second attorney, filed their opening briefs on October 26, 2009. On November 4, 2009, DOI filed an unopposed motion to expedite the oral argument. DOI and FIGR then filed their answering briefs on November 25, 2009. The plaintiffs responded by filing reply briefs on December 28, 2009. The court clerk initially rejected the motion to expedite oral argument, but following FIGR's motion for reconsideration, the court has scheduled oral argument for April 15, 2010. As with all litigation, no assurances can be provided as to the outcome of this lawsuit.

On February 19, 2009, a Notice of Availability of a Final Environmental Impact Statement (the "EIS") was filed in the Federal Register, leaving only the issuance of the Record of Decision (the "ROD") to complete the environmental process for the FIGR project. Issuance of the ROD will initiate a 30-day period in which opponents of the project will have the right to seek judicial review of the ROD.

Gun Lake Tribe

On November 13, 2003, we agreed to purchase a 50% interest in MPM Enterprises, LLC, a Michigan limited liability company ("MPM"). Concurrently with our agreement to purchase that interest, MPM and the Match-E-Be-Nash-She-Wish Band of Pottawatomi Indians of Michigan, a federally recognized Native American tribe commonly referred to as the Gun Lake Tribe ("Gun Lake"), entered into amended Development and Management Agreements, pursuant to which MPM agreed to assist Gun Lake in developing and operating a gaming and entertainment project to be located in Allegan County, Michigan. On July 29, 2005, MPM and Gun Lake entered into amended and restated Development and Management Agreements. We agreed to pay \$6.0 million for our 50% interest in MPM, which was payable upon achieving certain milestones and is not reimbursable. As of March 31, 2010, payments totaling \$6.0 million had been made and were expensed as incurred. An additional \$12.0 million in total may be paid by us in years six and seven of the Third Amended and Restated Management Agreement, subject to certain contingencies. Under the terms of the Third Amended and Restated Development Agreement, we have agreed to arrange financing for the ongoing development costs and construction of the project. Through March 31, 2010, we have advanced approximately \$59.5 million toward the development of this project, primarily to complete the environmental assessment and secure real estate for the project, which is included on our consolidated balance sheets. Funds advanced by us are expected to be repaid from the proceeds of the project financing and from Gun Lake's gaming revenues. The Third Amended and Restated Management Agreement has a term of seven years from the opening of the facility and provides for a management fee of 30% of the project's net income to be paid to MPM. Pursuant to the terms of the MPM Operating Agreement, our portion of the management fee is 50% of the first \$24 million of management fees earned, 83% of the next \$24 million of management fees and 93% of any management fees in excess of \$48 million. Since the risks and rewards under the Development and Management Agreements are shared disproportionately by MPM's members, MPM is considered a variable interest entity under the provisions of ASC Topic 810, *Consolidation*. We have determined that the Company is the primary beneficiary of MPM and based on a qualitative analysis, we believe Station directs the most significant activities that impact MPM's economic performance, therefore we consolidate MPM in our condensed consolidated financial statements. The following table sets forth the carrying amounts of the

The project is being developed on approximately 147 acres on U.S. Highway 131 and 129th Avenue, approximately 25 miles south of Grand Rapids, Michigan and 25 miles north of Kalamazoo, Michigan. As currently contemplated, the project will include slot machines, table games and various dining options. Construction of the project includes the conversion of a portion of an existing 192,000 square-foot building into the casino and entertainment facility. Development of the gaming and entertainment project and operation of Class III gaming is subject to certain governmental and regulatory approvals, including, but not limited to, approval of the Management Agreement by the NIGC.

On February 27, 2004, the DOI issued a Finding of No Significant Impact with respect to the proposed project. On May 13, 2005, the DOI published in the Federal Register a Notice of Final Agency Determination (the "Determination") to take certain land into trust for the benefit of Gun Lake. On June 13, 2005, Michigan Gambling Opposition (the "MGO Plaintiffs") filed a complaint (the "MGO Complaint") in the United States District Court, District of Columbia (the "District Court"), seeking declaratory and injunctive relief against the DOI and officials of the DOI. The MGO Complaint sought judicial review of the Determination. On January 6, 2006, Gun Lake filed a motion for judgment on the pleadings or, in the alternative, for summary judgment. Also on January 6, 2006, the DOI filed a motion to dismiss or, in the alternative, for summary judgment.

On February 23, 2007, the District Court issued its decision in favor of the DOI and Gun Lake, finding that there were no facts which would entitle the MGO Plaintiffs to any relief on the issues raised in the MGO Complaint, and granted the parties' motion to dismiss or, in the alternative for summary judgment (the "Dispositive Motions"). On March 1, 2007, the MGO Plaintiffs filed a motion for stay pending appeal with the District Court. On March 5, 2007, the District Court granted the MGO Plaintiffs' motion for stay pending appeal, thereby precluding the DOI from taking the site into trust for the benefit of Gun Lake until the District Court's decision granting the Dispositive Motions had been reviewed on appeal. On May 21, 2007, the MGO Plaintiffs filed their appellate brief in the United States Court of Appeal for the District of Columbia (the "Court of Appeals") appealing the District Court's decision. On July 6, 2007, the DOI and Gun Lake filed their responsive briefs. On July 30, 2007, the MGO Plaintiffs filed their reply brief. Oral arguments were heard on October 19, 2007. On April 29, 2008, the Court of Appeals affirmed the District Court's dismissal of the lawsuit filed by the MGO Plaintiffs.

On May 13, 2008, the MGO Plaintiffs filed a petition for rehearing en banc with the Court of Appeals. On July 25, 2008, the Court of Appeals denied the MGO Plaintiffs' petition for rehearing en banc. On July 29, 2008, the MGO Plaintiffs filed an emergency motion for stay of mandate pending petition for certiorari. On August 1, 2008, the DOI and Gun Lake filed their responses to the emergency motion for

stay of mandate. On August 15, 2008, the Court of Appeals granted the emergency motion for stay of mandate. On October 23, 2008, the MGO Plaintiffs filed a petition for certiorari seeking review of the Court of Appeals' decision by the United States Supreme Court. On January 21, 2009, the United States Supreme Court denied the petition for certiorari and on January 27, 2009, the appellate court issued a mandate that dissolved the stay. On January 30, 2009, the DOI accepted approximately 147 acres of real property into trust in Allegan County, Michigan, for the benefit of Gun Lake. On August 18, 2009, the Secretary of Interior issued an Initial Reservation Proclamation proclaiming that the 147-acre parcel is Gun Lake's reservation.

On August 1, 2008, David Patchak filed a complaint (the "Patchak Complaint") seeking declaratory and injunctive relief against the DOI and officials of the DOI. On October 6, 2008, Gun Lake filed a motion for judgment on the pleadings. The Patchak Complaint also seeks judicial review of the Determination. On October 7, 2008, the DOI filed a motion to dismiss. On October 17, 2008, the plaintiff filed a motion to stop the DOI from taking land into trust for Gun Lake, which was denied by the District Court on January 26, 2009. The District Court filed an order that gave the plaintiff 21 days to submit a memorandum addressing whether the District Court still has jurisdiction in this case in light of the DOI accepting the land in trust for the benefit of Gun Lake. The DOI and Gun Lake filed their memoranda addressing this issue on April 6, 2009. On August 19, 2009, the DOI's motion to dismiss and motion for judgment on the pleadings was granted and the plaintiff's motions for preliminary injunctive relief were denied. On September 15, 2009, plaintiff filed a notice of appeal with the United States Court of Appeals for the District of Columbia Circuit. On November 6, 2009, Gun Lake filed a Motion to Dismiss the appeal in part. The Motion has been referred to the panel of judges to whom the case will be assigned for decision. On January 8, 2010, the Court ordered the Court Clerk to enter a briefing schedule. Appellant's brief is due on April 9, 2010, Appellees' briefs are due on May 10, 2010, and Appellant's reply brief is due on May 24, 2010. The Company believes that the appeal is without merit. As with all litigation, no assurances can be provided as to the outcome of this lawsuit.

On March 9, 2007, Gun Lake and the State of Michigan entered into a tribal-state Class III gaming compact. The compact was subject to approval by the Michigan Legislature and, if approved, would regulate gaming at Gun Lake's proposed gaming and entertainment project to be developed on the site. On August 8, 2007, the Michigan House of Representatives ratified the compact. On February 11, 2009, the Michigan Senate passed a resolution approving the compact. On February 19, 2009, the Michigan House of Representatives passed a similar resolution approving the Compact and the Compact was submitted to the Secretary of Interior for his approval. On April 22, 2009, the Compact became effective by publication in the Federal Register. Prior to obtaining third-party financing, we will contribute significant financial support to the project. Construction on the project began in September 2009.

Mechoopda Indian Tribe

We have entered into Development and Management Agreements with the Mechoopda Indian Tribe of Chico Rancheria, California (the "MITCR"), a federally recognized Native American tribe. Pursuant to those agreements, we will assist the MITCR in developing and operating a gaming and entertainment facility to be located on a portion of an approximately 650-acre site in Butte County, California, at the intersection of State Route 149 and Highway 99, approximately 10 miles southeast of Chico, California and 80 miles north of Sacramento, California. Under the terms of the Development Agreement, we have agreed to arrange the financing for the ongoing development costs and construction of the facility. Funds advanced by us are expected to be repaid from the proceeds of the project financing or from the MITCR's gaming revenues. Through March 31, 2010, we have advanced approximately \$11.8 million toward the development of this project, primarily to complete the environmental assessment and secure real estate for the project. In addition, we have agreed to pay approximately \$2.2 million of payments upon achieving

certain milestones, which will not be reimbursed. Through March 31, 2010, \$50,000 of these payments had been made and were expensed as incurred. Although the Company continues to fund advances to MITCR, given the recent recession and thus the revised expected potential of the project, as of March 31, 2010 the Company has fully impaired the associated long-term asset. The Management Agreement has a term of seven years from the opening of the facility and provides for a management fee of 24% of the facility's net income. As currently contemplated, the facility will include slot machines, table games and dining and entertainment amenities. Development of the facility is subject to certain governmental and regulatory approvals, including, but not limited to, negotiating a gaming compact with the State of California, the DOI accepting land into trust on behalf of the MITCR and approval of the Management Agreement by the NIGC. Prior to obtaining third-party financing, we will contribute significant financial support to the project. The timing of this type of project is difficult to predict and is dependent upon the receipt of the necessary governmental and regulatory approvals. There can be no assurances when or if these approvals will be obtained.

On January 17, 2008, the Bureau of Indian Affairs (the "BIA") issued a Finding of No Significant Impact with respect to the proposed project. On May 8, 2008, the DOI published in the Federal Register a Notice of Final Agency Determination (the "Determination") to take certain land into trust for the benefit of MITCR. On March 26, 2008, Butte County, California (the "Plaintiff") filed a complaint in the United States District Court for the District of Columbia (the "District Court") seeking declaratory and injunctive relief against the NIGC. On May 19, 2008, the Plaintiff filed a first amended complaint (the "Amended Complaint") in the District Court seeking declaratory and injunctive relief against the NIGC, the DOI and officials of the DOI. The Amended Complaint sought judicial review of the Determination and the NIGC's approval of the tribal-gaming ordinance. On May 13, 2008, MITCR filed a motion to intervene in that lawsuit which was granted by the District Court on June 16, 2008. On June 30, 2008, MITCR filed an answer to the Amended Complaint. On September 12, 2008, the U.S. Department of Justice on behalf of the NIGC and DOI, and MITCR each filed a motion to dismiss the Plaintiff's Amended Complaint. The Plaintiff's opposition to MITCR's motion to dismiss and the Plaintiff's dispositive motion were filed on October 24, 2008, and the NIGC, DOI and MITCR briefs concerning the dispositive motions were filed on December 8, 2008. Oral arguments were heard by the District Court on February 13, 2009. On April 13, 2009, the District Court granted the DOI and MITCR's motion to dismiss. On May 13, 2009, the Plaintiff filed an appeal in the U.S. Court of Appeals for the District of Columbia in Washington DC. The Plaintiff's brief was filed on September 14, 2009, and the MITCR and DOI's briefs were filed October 14, 2009. The Plaintiff's reply brief was filed October 28, 2009, and oral arguments were held on December 10, 2009. The Company believes that the appeal is without merit. As with all litigation, no assurances can be provided as to the outcome of this lawsuit.

North Fork Rancheria of Mono Indian Tribe

We have entered into Development and Management Agreements with the North Fork Rancheria of Mono Indians (the "Mono"), a federally recognized Native American tribe located near Fresno, California. Pursuant to those agreements, we will assist the Mono in developing and operating a gaming and entertainment facility to be located in Madera County, California. We have purchased, for the benefit of the Mono, a 305-acre parcel of land located on Highway 99 north of the city of Madera. Under the terms of the Development Agreement, we have agreed to arrange the financing for the ongoing development costs and construction of the facility. Funds advanced by us are expected to be repaid from the proceeds of the project financing or from the Mono's gaming revenues. Through March 31, 2010, we have advanced approximately \$15.8 million toward the development of this project, primarily to complete the environmental impact study and secure real estate for the project, which is included on our consolidated balance sheets. In addition, we have agreed to pay approximately \$1.3 million of payments

upon achieving certain milestones, which will not be reimbursed and will be expensed as incurred. Through March 31, 2010, none of these payments had been made. The Management Agreement has a term of seven years from the opening of the facility and provides for a management fee of 24% of the facility's net income. As currently contemplated, the facility will include slot machines, table games, restaurants, a hotel and entertainment amenities. Development of the gaming and entertainment project is subject to certain governmental and regulatory approvals, including, but not limited to, approval by the California Legislature of the gaming compact with the State of California, the DOI accepting the land into trust on behalf of the Mono and approval of the Management Agreement by the NIGC.

On April 28, 2008, the Mono and the State of California entered into a tribal-state Class III gaming compact. The compact is subject to approval by the California Legislature and, if approved, will regulate gaming at the Mono's proposed gaming and entertainment project to be developed on the site. No assurances can be provided as to whether the California Legislature will approve the compact. Prior to obtaining third-party financing, we will contribute significant financial support to the project. The timing of this type of project is difficult to predict, and is dependent upon the receipt of the necessary governmental and regulatory approvals. There can be no assurances when, or if, these approvals will be obtained.

Land Held for Development

As of March 31, 2010, we had \$305.5 million of land held for development consisting primarily of eleven sites that are owned or leased, which includes 368 acres in the Las Vegas valley, 1,321 acres in northern California and 200 acres in Reno, Nevada. The primary gaming-entitled land that we own in the Las Vegas valley consists of 77 acres of land (106 acres including those leased or under contract) on which the Wild Wild West is located and the surrounding area, 71 acres located at the intersection of Durango Road and the Southern Beltway/Interstate 215 in the southwest area of Las Vegas, 58 acres also located in southwest Las Vegas at the intersection of Town Center and Interstate 215, 45 acres in the master-planned community of Inspirada located in Henderson, Nevada, 61 acres located on the southern end of Las Vegas Boulevard at Cactus Avenue of which we lease and have an option to purchase 2.5 acres, and 30 acres on Boulder Highway at the site formerly known as the Castaways Hotel Casino and Bowling Center.

In December 2008, we amended the lease and purchase agreement for the 19-acre parcel of land on which the Wild Wild West is located. Under the amended agreement, we have an option to purchase the land for a purchase price of \$36 million. The amended lease also includes options to purchase the land in July 2023, 2044 and 2065 for a purchase price equal to fair market value as of July 2022, 2043 and 2064, respectively. No amounts related to these purchase options have been recorded on our consolidated balance sheets at March 31, 2010 or December 31, 2009.

Our decision whether to proceed with any new gaming or development opportunity is dependent upon future economic and regulatory factors, the availability of acceptable financing and competitive and strategic considerations. As many of these considerations are beyond our control, no assurances can be made that we will be able to proceed with any particular project.

13. Retirement Plans

Effective as of November 30, 1994, we adopted the Supplemental Executive Retirement Plan (the "SERP"), which is an unfunded defined benefit plan for the Chief Executive Officer and President as sole participants. On January 21, 2005, Station amended the SERP (the "First SERP Amendment"). The purpose of the First SERP Amendment was to (i) increase the Early Retirement Date (as defined in the SERP) for participants from age 45 to age 50, (ii) increase the Normal Retirement Date (as defined in the SERP) for the participants from age 55 to age 60, (iii) add the President of the Company as a participant, and (iv) include the average annual bonus (in addition to base salary) earned by participants for the three most recent fiscal years in determining Final Annual Compensation (as defined in the SERP). On November 7, 2007, Station further amended the SERP for the purpose of updating the "Change of Control" definition and confirming that the Merger would not constitute a "Change of Control" for purposes of the plan. On April 17, 2008, the Company executed the third amendment of the SERP to increase the Early Retirement Date (as defined in the SERP) for participants from age 50 to age 60 and increase the Normal Retirement Date (as defined in the SERP) for participants from age 60 to age 65.

Effective as of November 30, 1994, we adopted the Supplemental Management Retirement Plan (the "SMRP"), which is an unfunded defined benefit plan. Certain key executives (other than the Chief Executive Officer and President) as selected by the Board of Directors are able to participate in the SMRP. On November 7, 2007, Station amended the SMRP for the purpose of updating the "Change of Control" definition under the plan and confirming that the Merger would not constitute a "Change of Control" for purposes of the plan. On April 17, 2008, the Company executed the second amendment of the SMRP to increase the Early Retirement Date (as defined in the SMRP) for participants from age 55 to age 60 and increase the Normal Retirement Date (as defined in the SMRP) for participants from age 60 to age 65.

The components of the net periodic pension benefit cost related to the SERP and SMRP consist of the following (amounts in thousands, unaudited):

14. Income Taxes

For the three months ended March 31, 2010 and 2009, our effective tax rates were 4.3% and (208.6)%, respectively. The effective tax rate for the three months ended March 31, 2010 was significantly lower than the prior period due to an increase in the prior period in our valuation allowance due to a portion of our net operating loss that is more likely than not unrealizable.

15. Commitments and Contingencies*Luckevich, Scott and St. Cyr Litigation*

On February 4, 2008, Josh Luckevich, Cathy Scott and Julie St. Cyr filed a purported class action complaint against the Company and certain of its subsidiaries in the United States District Court for the District of Nevada, Case No. CV-00141 (the "Federal Court Action"). The plaintiffs are all former employees of the Company or its subsidiaries. The complaint alleged that the Company (i) failed to pay its employees for all hours worked, (ii) failed to pay overtime, (iii) failed to timely pay wages and (iv) unlawfully converted certain earned wages. The complaint in the Federal Court Action sought, among other relief, class certification of the lawsuit, compensatory damages in excess of \$5,000,000, punitive damages and an award of attorneys' fees and expenses to plaintiffs' counsel.

On October 31, 2008, the Company filed a motion for judgment on the pleadings. During a hearing on that motion, the United States District Court questioned whether it had jurisdiction to adjudicate the matter. After briefing regarding the jurisdiction question, on May 16, 2009, the United States District Court dismissed the Federal Court Action for lack of jurisdiction and entered a judgment in the Company's favor. Subsequently, on July 21, 2009, the plaintiffs filed a purported class action complaint against the Company and certain of its subsidiaries in the District Court of Clark County, Nevada, Case No. A-09-595614-C (the "State Court Action"). The complaint in the State Court Action alleges substantially the same claims that were alleged in the complaint in the Federal Court Action.

15. Commitments and Contingencies (Continued)

On August 19, 2009, the corporate defendants, other than the Company, filed an answer responding to the complaint. Subsequently, on August 27, 2009, the corporate defendants, other than the Company, filed a motion to stay the State Court Action pending the resolution of the Company's bankruptcy petition. That motion was granted on September 30, 2009.

On or about April 30, 2010, the Company and the plaintiffs reached preliminary agreement on the terms of global settlement of all claims asserted in the State Court Action. The principal terms of the settlement are:

- a. The plaintiffs will have an aggregate allowed \$5 million general unsecured claim in the Company's bankruptcy case in respect of all of the claims alleged in the State Court Action that arose prior to Jan. 28, 2009.
- b. The Company will set aside \$1.1 million to pay (i) the claims of the plaintiffs that were employed at the Company and its subsidiaries that are defendants in the State Court Action during the period January 28, 2009 through the date of the approval of the settlement by the Bankruptcy Court, and (ii) the fees and expenses of the plaintiffs' counsel.
- c. The State Court Action will be removed from the state court to the Bankruptcy Court. Upon approval of the settlement by the Bankruptcy Court, the State Court Action will be dismissed.

The settlement remains subject to final documentation, and will further require (i) preliminary approval by the Bankruptcy Court, (ii) notice to the current and former employees covered by the State Court Action of their right to object to the settlement and/or be excluded therefrom; and (iii) final approval by the Bankruptcy Court.

Bankruptcy Proceedings

On July 28, 2009, the Company and its affiliates FCP Holding Inc., FCP VoteCo, LLC, Fertitta Partners, LLC, FCP MezzCo Parent, LLC, FCP MezzCo Parent Sub, LLC, FCP MezzCo Borrower VII, LLC, FCP MezzCo Borrower VI, LLC, FCP MezzCo Borrower V, LLC, FCP MezzCo Borrower IV, LLC, FCP MezzCo Borrower III, LLC, FCP MezzCo Borrower II, LLC, FCP MezzCo Borrower I, LLC, FCP PropCo, LLC, Northern NV Acquisitions, LLC, Tropicana Station, LLC, River Central, LLC and Reno Land Holdings, LLC (collectively, the "Debtors") filed voluntary petitions in the United States Bankruptcy Court for the District of Nevada in Reno, Nevada (the "Bankruptcy Court") under chapter 11 of title 11 of the United States Code. These chapter 11 cases are being jointly administered under the caption In re Station Casinos, Inc., et al Debtors Case No. 09-52470 (the "Chapter 11 Case").

On February 10, 2010, the Company's wholly owned subsidiary, GV Ranch Station, Inc. ("*GV Ranch*"), filed a Voluntary Petition for Chapter 11 Protection in the United States Bankruptcy Court, District of Nevada, Case No. 10-50381-gwz. GV Ranch and its joint venture partner, GCR Gaming, LLC ("*GCR*"), each own a 50% equity interest in Green Valley Ranch Gaming, LLC, an entity that holds as its asset the Green Valley Ranch Resort and Casino, located in Henderson Nevada ("*GVR*"). GV Ranch manages GVR under an operating agreement executed between the GV Ranch, GCR, and Green Valley Ranch Gaming, LLC (the "*Operating Agreement*"). On February 18, 2010, GCR filed a motion in the Bankruptcy Court seeking (i) dismissal of the G.V. Ranch Chapter 11 case as a bad faith filing; or, in the alternative (ii) rejection of the Operating Agreement; or, in the alternative (iii) relief from the automatic stay to enforce its rights under the Operating Agreement. In its motion, GCR alleges that GV Ranch mismanaged the property by, among other things, diverting business from GVR to another Station-managed property. The motion, along with a motion for joint administration of the case with Station's bankruptcy cases in the same court, will be heard on June 4, 2010. The Company vigorously denies any and all of GCR's allegations.

Luckevich, Scott and St. Cyr Litigation

On or about April 30, 2010, the Company and the plaintiffs reached preliminary agreement on the terms of global settlement of all claims asserted in the State Court Action. The principal terms of the settlement are:

- a. The plaintiffs will have an aggregate allowed \$5 million general unsecured claim in the Company's bankruptcy case in respect of all of the claims alleged in the State Court Action that arose prior to Jan. 28, 2009.
- b. The Company will set aside \$1.1 million to pay (i) the claims of the plaintiffs that were employed at the Company and its subsidiaries that are defendants in the State Court Action during the period January 28, 2009 through the date of the approval of the settlement by the Bankruptcy Court, and (ii) the fees and expenses of the plaintiffs' counsel.
- c. The State Court Action will be removed from the state court to the Bankruptcy Court. Upon approval of the settlement by the Bankruptcy Court, the State Court Action will be dismissed.

The settlement remains subject to final documentation, and will further require (i) preliminary approval by the Bankruptcy Court, (ii) notice to the current and former employees covered by the State Court Action of their right to object to the settlement and/or be excluded therefrom; and (iii) final approval by the Bankruptcy Court. The \$6.1 million settlement was accrued during the three months ended March 31, 2010, and the liability is classified in liabilities subject to compromise in the accompanying condensed consolidated financial statements.

We evaluated all activity of the Company and concluded that no other subsequent events have occurred that would require recognition in the condensed consolidated financial statements or disclosure in the notes to the condensed consolidated financial statements.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(unaudited)**

The following discussion and analysis of our results of operations and financial condition for the three months ended March 31, 2010 and 2009, should be read in conjunction with our audited consolidated financial statements, and the notes to those statements, included in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009.

Overview

The following table highlights the results of our operations as compared to the prior period (dollars in thousands, unaudited):

Results of Operations

Consolidated net revenues for the three months ended March 31, 2010 decreased 11.8% to \$249.4 million as compared to \$282.7 million for the three months ended March 31, 2009. The decrease in net revenues was due primarily to an overall decrease in gaming revenue across all of our properties as the result of the continuation of weak Las Vegas and U.S. economies. Declining real estate values, increased unemployment and a decrease in consumer confidence levels have all precipitated an economic slowdown which has continued to negatively impact our operations. Similarly, combined net revenues from our Major Las Vegas Operations decreased 12.1% to \$227.6 million for the three months ended March 31, 2010 as compared to \$258.8 million for the three months ended March 31, 2009.

Table of Contents

Consolidated operating income decreased by \$4.2 million or 15.3% for the three months ended March 31, 2010 as compared to the three months ended March 31, 2009. This decrease is primarily due a decrease in revenues as a result of the economic slowdown discussed above, partially offset by decreases in operating expenses including depreciation and amortization expense, corporate expense and selling, general and administrative expenses, which are discussed in more detail below. Our consolidated operating margin decreased slightly to 9.4% for the three months ended March 31, 2010 compared to 9.8% for the three months ended March 31, 2009 for the reasons previously mentioned. We continue to monitor our expenses for additional opportunities for cost savings reductions. While we have made significant reductions in expenses we will continue to focus on operating efficiencies; however, many of our operational costs are fixed costs and thus our operating income and operating margin tend to decline as net revenues decrease.

The following table highlights the various sources of our revenues and expenses as compared to the prior period (dollars in thousands, unaudited):

Casino. Casino revenues decreased 11.2% to \$180.3 million for the three months ended March 31, 2010 as compared to \$203.1 million for the three months ended March 31, 2009. The decrease in casino revenues is primarily due to the continuation of the general economic slowdown discussed above. As a result, customer visits to our properties and customer spend per visit decreased during the three months ended March 31, 2010 as compared to the same period in the prior year. Casino expenses decreased to \$72.5 million for the three months ended March 31, 2010 as compared to \$83.0 million for the three months ended March 31, 2009 due to a decrease in gaming taxes as a result of lower gaming revenues, a decrease in costs related to complimentaries and reduced payroll expense as a result of decreased staffing company-wide. The casino operating margin for the three months ended March 31, 2010 increased 0.7% as compared to the same period in the prior year.

Food and Beverage. Food and beverage revenues decreased 25.2% for the three months ended March 31, 2010 as compared to the same period in the prior year primarily due to the conversion of several owned outlets to leased outlets, and as a result of the general economic slowdown discussed above. Food

Table of Contents

covers for the three months ended March 31, 2010 decreased 37.5% compared to the three months ended March 31, 2009 due to these same factors. Food and beverage expenses decreased 18.7% for the three months ended March 31, 2010 as compared to the same period in the prior year due to the decrease in food covers, an overall decrease in our food and beverage costs as a result of efficiency efforts and reduced payroll expenses due to reduced staffing as a result of the conversion of owned outlets to leased outlets. The food and beverage operating margin for the three months ended March 31, 2010 decreased by 5.1% as compared to the three months ended March 31, 2009. The average guest check increased 5.1% for the three months ended March 31, 2010 as compared to the three months ended March 31, 2009, primarily due to the closure of lower priced restaurants.

Room. Room revenues decreased 13.7% for the three months ended March 31, 2010 as compared to the three months ended March 31, 2009. Room occupancy decreased to 79% for the three months ended March 31, 2010 as compared to 85% for the three months ended March 31, 2009 due to the general economic slowdown discussed above. The average daily room rate decreased to \$66 for the three months ended March 31, 2010 from \$71 in the same period in the prior year due to an overall decrease across all properties as a result of the general economic slowdown. Room expenses decreased 3.2% for the three months ended March 31, 2010 as compared to the same period in the prior year primarily due to reduced occupancy. Room operating margin for the three months ended March 31, 2010 decreased 4.8% compared to the three months ended March 31, 2009.

Other. Other revenues primarily include income from gift shops, bowling, entertainment, leased outlets and the spa. Other revenues were approximately \$15.5 million for the three months ended March 31, 2010, reflecting a slight increase as compared to approximately \$15.2 million for the three months ended March 31, 2009.

Management Fees. We manage Thunder Valley on behalf of the United Auburn Indian Community (the "UAIC") and receive a management fee equal to 24% of net income (as defined in the management agreement). In addition, we are the managing partner for Green Valley Ranch, Aliante Station, Barley's, The Greens and Wildfire Lanes and receive a management fee equal to 2% of revenues and approximately 5% of Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") from Green Valley Ranch and Aliante Station and 10% of EBITDA from Barley's, The Greens and Wildfire Lanes. For the three months ended March 31, 2010, management fees decreased to approximately \$12.5 million as compared to \$14.0 million for the three months ended March 31, 2009 as a result of no management fee revenue being recognized for Green Valley Ranch and Aliante Station, partially offset by increased revenues at Thunder Valley. The Thunder Valley management agreement will expire in June 2010.

Selling, General and Administrative ("SG&A"). SG&A expenses decreased 2.8% or approximately \$1.5 million for the three months ended March 31, 2010 as compared to the three months ended March 31, 2009. This improvement is primarily the result of a \$0.5 million gain on net deferred compensation assets during the 2010 period, compared to a loss of \$1.0 million during the 2009 period. SG&A as a percentage of net revenues increased to 21.5% for the three months ended March 31, 2010 compared to 19.5% for the same period in the prior year. A large portion of these costs are fixed, which causes an increase in the percentage of net revenues as revenues decline.

Corporate Expense. For the three months ended March 31, 2010, corporate expense decreased 23.0% to \$8.9 million as compared to \$11.6 million for the same period in the prior year. The decrease is primarily due to legal expenses that were recognized in the 2009 period related to the proposed debt restructuring. No comparable legal expenses were charged to corporate expense during the three months ended March 31, 2010. Corporate expense as a percentage of net revenues decreased to 3.6% for the three months ended March 31, 2010 compared to 4.1% for the three months ended March 31, 2009.

Development and preopening expense. Development and preopening expense includes costs to identify potential gaming opportunities and other development opportunities, and expenses incurred prior

Table of Contents

to the opening of projects under development, including payroll, travel and legal expenses. Development and preopening expense for the three months ended March 31, 2010 was approximately \$1.9 million compared to \$2.4 million for the same period in the prior year. The decrease in development and preopening expense is primarily the result of decreased activity related to projects under development.

Depreciation and Amortization. Depreciation and amortization decreased 17.7% to approximately \$44.1 million for the three months ended March 31, 2010 as compared to \$53.5 million for the three months ended March 31, 2009. Depreciation expense decreased by approximately \$4.2 million as a result of certain depreciable assets becoming fully depreciated during the year ended December 31, 2009, and amortization expense decreased by approximately \$5.2 million as a result of impairment losses recorded in the fourth quarter of 2009 related to our definite-lived intangible assets.

Write-downs and Other Charges, net. During the three months ended March 31, 2010, write-downs and other charges, net were approximately \$6.7 million and consisted of a \$6.1 million legal settlement, approximately \$0.1 million in net losses on disposal of assets and approximately \$0.5 million in severance expense. During the three months ended March 31, 2009, write-downs and other charges, net were approximately \$5.3 million and consisted of a loss on land disposition of approximately \$4.8 million, approximately \$0.2 million in net losses on disposal of assets, and approximately \$0.2 million in severance expense.

Earnings from Joint Ventures. We own a 50% interest in various joint ventures, including Green Valley Ranch and Aliante Station, and a 6.7% interest in a joint venture that owns the Palms Casino Resort. We recorded our share of the earnings from these joint ventures of approximately \$1.7 million for the three months ended March 31, 2010 compared to earnings of approximately \$1.7 million for the prior year period.

Interest Expense. Interest expense, net of capitalized interest, decreased 70.2% to \$27.5 million in the three months ended March 31, 2010 as compared to \$92.1 million in the three months ended March 31, 2009. A majority of the decrease is due to the accounting treatment under the ASC Topic 852, *Reorganizations*, whereby interest expense is recognized only to the extent that it will be paid during the bankruptcy proceeding or that it is probable that it will be an allowed claim. As a result of the Chapter 11 Case, we stopped accruing interest for the senior notes, the senior subordinated notes and the mezzanine financings. Had we recognized the additional contractual interest expense, interest expense for the three months ended March 31, 2010 would have been \$74.9 million higher than what was recorded. Capitalized interest for the three months ended March 31, 2010 was approximately \$2.0 million compared to \$3.5 million for the prior year period. The reduction in capitalized interest was due primarily to a decrease in our weighted average cost of capital during 2010 due to the cessation of interest accruals on a portion of our debt.

Interest and Other Expense from Joint Ventures. We recorded approximately \$34.3 million in interest and other expense related to our unconsolidated joint ventures for the three months ended March 31, 2010, compared to approximately \$7.6 million for the comparable period in 2009. The increase of approximately \$26.7 million relates primarily to recording our 50% share of the loss that resulted from the early termination of Green Valley Ranch's interest rate swap in March 2010. Prior to the termination of this interest rate swap, the liability was carried at fair value, which incorporated nonperformance risk adjustments related to credit risks of both counterparties in accordance with ASC Topic 815, *Derivatives and Hedging*. Upon early termination of the swap, fair value accounting for the swap was discontinued and the carrying value of the liability was increased to a fixed termination settlement amount which does not incorporate a nonperformance risk adjustment.

Change in Fair Value of Derivative Instruments. During the three months ended March 31, 2010, we recorded a loss of approximately \$41,000 related to the change in fair value of our interest rate cap, as compared to a gain of approximately \$19.0 million related to the change in fair value of our derivative

Table of Contents

instruments not designated as hedges for accounting purposes during the three months ended March 31, 2009. Fluctuations in interest rates can cause the fair value of our derivative instruments to change each reporting period. During the fourth quarter of 2009, two derivative instruments with notional amounts totaling approximately \$1.61 billion were early terminated and the liabilities were adjusted to their respective termination settlement amounts. As a result, no fair value adjustments were recorded for these liabilities during the three months ended March 31, 2010. In addition, an interest rate swap with a notional amount of \$250 million was reclassified to liabilities subject to compromise in connection with the Chapter 11 Case, and as a result, changes in the fair value of this swap are no longer reflected in the change in fair value of derivative instruments line, but instead are reflected in reorganization items in our condensed consolidated statements of operations in accordance with ASC Topic 852.

Gain on Early Retirement of Debt. In January 2009, a wholly-owned subsidiary of the Company purchased \$40.0 million in aggregate principal amount of our outstanding \$700 million 6⁷/₈% Senior Subordinated Notes and \$8.0 million in aggregate principal amount of our outstanding \$450 million 6¹/₂% Senior Subordinated Notes for approximately \$1.5 million plus approximately \$1.4 million in accrued interest. As a result, we recorded a gain on early retirement of debt of approximately \$40.3 million during the three months ended March 31, 2009, representing the difference between the reacquisition price and the net carrying amount of the extinguished debt based on the face amount of the associated debt adjusted for the related unamortized discount and debt issuance costs. No gain or loss on early retirement of debt was recorded during the three months ended March 31, 2010.

Income Tax Benefit (Provision). For the three months ended March 31, 2010 and 2009 our effective tax rates were 4.3% and (208.6)%, respectively. The effective tax rate for the three months ended March 31, 2010 was significantly lower than the prior year period due to an increase in the prior year period in our valuation allowance due to a portion of our net operating loss that became more likely than not unrealizable.

Liquidity and Capital Resources

The following liquidity and capital resources discussion contains certain forward-looking statements with respect to our business, financial condition, results of operations, dispositions, acquisitions, expansion projects and our subsidiaries, which involve risks and uncertainties that cannot be predicted or quantified, and consequently, actual results may differ materially from those expressed or implied herein. Such risks and uncertainties include, but are not limited to, our ability to effect a successful restructuring; the impact of the bankruptcy filing on our operations; our ability to finance operations and expenses associated with the pending bankruptcy proceeding; the impact of the substantial indebtedness incurred to finance the consummation of the going private transaction in November 2007; the effects of local and national economic, credit and capital market conditions on the economy in general, and on the gaming and hotel industries in particular; changes in laws, including increased tax rates, regulations or accounting standards, third-party relations and approvals, and decisions of courts, regulators and governmental bodies; litigation outcomes and judicial actions, including gaming legislative action, referenda and taxation; acts of war or terrorist incidents or natural disasters; the effects of competition, including locations of competitors and operating and market competition; and other risks described in our filings with the Securities and Exchange Commission. In addition, construction projects entail significant risks, including shortages of materials or skilled labor, unforeseen regulatory problems, work stoppages, weather interference, floods and unanticipated cost increases. The anticipated costs and construction periods are based on budgets, conceptual design documents and construction schedule estimates. There can be no assurance that the budgeted costs or construction period will be met. All forward-looking statements are based on our current expectations and projections about future events.

Overview of Recent Developments

On March 24, 2010, the Debtors filed a joint plan of reorganization under Chapter 11 of the Bankruptcy Code. Fertitta Gaming LLC ("Fertitta Gaming"), which is owned by Frank and Lorenzo Fertitta, and the steering committee representing over 60% of the Company's senior secured bank debt (the "Opco Lenders") have reached an agreement (the "Opco Plan Support Agreement") to support the Joint Plan of Reorganization of the Company and its subsidiaries that are debtors and debtors in possession (collectively, the "Debtors") in the Chapter 11 cases pending in the United States Bankruptcy Court, which is to be modified pursuant to the terms of the Opco Plan Support Agreement (as so modified, the "Joint Plan").

Pursuant to the Opco Plan Support Agreement, the Opco Lenders have agreed to support the \$772 million "stalking horse" bid by a newly-formed company ("Newco") to be owned by Fertitta Gaming, Colony Capital and the mortgage lenders to FCP Propco, LLC ("Propco" and the "Propco Lenders," respectively), to purchase substantially all of the assets of the Company, which include Santa Fe Station, Texas Station, Fiesta Henderson, Fiesta Rancho and Native American gaming projects (the "Opco Properties"). The Company is not currently party to any agreement with respect to Newco's purchase of the Opco Properties and such purchase is subject to the Company conducting a sale process for such assets under the supervision of the Bankruptcy Court. If Newco is the successful bidder, Fertitta Gaming will manage the Opco Properties under a long-term management agreement.

Also pursuant to the Opco Plan Support Agreement, the parties have agreed to support the Joint Plan as it relates to the restructuring of Propco, which includes the acquisition of Red Rock Casino Resort Spa, Palace Station, Boulder Station, and Sunset Station (the "Propco Properties") by Newco. The Propco Lenders have agreed to sell 46% of the equity in Newco to Fertitta Gaming, which will be making a new investment in Newco. The remaining equity in Newco will be owned primarily by the Propco Lenders and Colony Capital, which will also be making a new investment in the company. Fertitta Gaming will also manage the Propco Properties under a long-term management agreement. The restructuring of Propco under the Joint Plan is not conditioned upon Newco ultimately becoming the successful bidder for the Opco Properties.

The Joint Plan of Reorganization and the disclosure statement have not yet been approved by the Bankruptcy Court and are subject to further negotiations with creditors of the Company and its subsidiaries. As a result, the Joint Plan of Reorganization and the disclosure statement may be materially modified before approval. In addition to customary Chapter 11 proceedings, the completion of the transaction is subject to Hart-Scott-Rodino and other antitrust reviews and customary closing conditions.

This report is not intended to be, and should not in any way be construed as, a solicitation of votes on the Joint Plan of Reorganization. The Joint Plan of Reorganization and the related disclosure statement have been filed with the Bankruptcy Court and were filed with the Securities and Exchange Commission by the Company on its Current Report on Form 8-K dated March 24, 2010, which is publicly available at <http://www.sec.gov>. The Joint Plan of Reorganization and the disclosure statement may not be relied on for any purpose until a determination by the Bankruptcy Court is made that the proposed disclosure statement contains adequate information, as required by the U.S. Bankruptcy Code. Following Bankruptcy Court approval of the disclosure statement and related voting solicitation procedures, the Company will solicit acceptances of the plan and seek its confirmation by the Bankruptcy Court. There can be no assurance that such plan acceptances or confirmation will be obtained.

The Company's direct and indirect subsidiaries that operate its hotel and casino properties have not filed for bankruptcy relief and continue to operate their businesses in the ordinary course.

The Debtors continue to conduct their businesses as debtors-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code and the orders of the Bankruptcy Court.

Table of Contents

Quarter Ended March 31, 2010

During the three months ended March 31, 2010, cash provided by operating activities was approximately \$50.1 million, as compared to cash used in operating activities of \$53.6 million for the three months ended March 31, 2009, reflecting a \$103.7 million increase in cash flows from operations compared to the prior year period. This increase resulted primarily from a \$50.3 million improvement in our operating results, net of noncash items and reorganization costs, a decrease of \$53.2 million in restricted cash and a decrease of \$28.1 million in cash paid for interest, partially offset by \$14.7 million in cash used for reorganization during the 2010 period, and approximately \$13.2 million in other operating uses of cash, primarily changes in net working capital. The increase in restricted cash during the first quarter of 2009 was due primarily to additional collateral required for our treasury management function. The decrease in restricted cash during the first quarter of 2010 was due primarily to restricted cash released in connection with the DIP financing, partially offset by restrictions placed on our cash by the lenders of the CMBS Loans and the Bankruptcy Court. The decrease in cash paid for interest during the three months ended March 31, 2010 was primarily due to the cessation of interest payments on certain portions of our debt.

At March 31, 2010, we had no borrowing availability under our Revolver but had \$13.0 million of availability under our DIP Credit Agreement. We had \$216.6 million in cash and cash equivalents as of March 31, 2010, of which approximately \$65.6 million is in our casino cages to be used for the day-to-day operations of our properties and the remaining \$151.0 million is to be used for general corporate purposes.

During the three months ended March 31, 2010, total capital expenditures were approximately \$9.5 million for maintenance capital expenditures and various other projects. We classify items as maintenance capital to differentiate replacement type capital expenditures such as new slot machines from investment type capital expenditures to drive future growth such as an expansion of an existing property. In contrast to normal repair and maintenance costs that are expensed when incurred, items we classify as maintenance capital are expenditures necessary to keep our existing properties at their current levels and are typically replacement items due to the normal wear and tear of our properties and equipment as a result of use and age. Capital expenditures for the three months ended March 31, 2010 were \$4.6 million lower than the prior year period primarily due to differences in timing of capital expenditures during 2010 compared to 2009.

In addition to capital expenditures, during the three months ended March 31, 2010, we paid approximately \$7.1 million in reimbursable advances for our Native American development projects (see "Future Development") and paid approximately \$1.1 million in equity contributions to joint ventures. During the same period in 2009, advances for Native American development costs were \$3.3 million and equity contributions to joint ventures were \$1.9 million. During the three months ended March 31, 2010, we paid \$0.7 million in principal payments on our debt, primarily the \$0.6 million quarterly payment on the Term Loan.

Year ending December 31, 2010

Our primary cash requirements for the remainder of 2010 are expected to include (i) approximately \$55 million to \$75 million for maintenance and other capital expenditures, (ii) payments related to our existing and potential Native American projects, and (iii) expenses related to the Chapter 11 Cases. Our liquidity and capital resources for 2010 are expected to be significantly affected by the filing of the Chapter 11 Cases and completion of a restructuring of our indebtedness. At this time it is not possible to predict with certainty the effect the Chapter 11 Cases and a restructuring will have on our business or various creditors, or the timing or cost of completing such a restructuring. Our future results depend upon our confirming and successfully implementing, on a timely basis, a restructuring or our indebtedness. Our operations and relationships with our customers, employees, regulators, vendors and agents may be adversely affected by the filing of the Chapter 11 Cases. As a result of the filing of the Chapter 11 Cases, we expect to incur, among other things, increased costs for professional fees and similar expenses. In

Edgar Filing: STATION CASINOS INC - Form 10-Q

Table of Contents

addition, the filing may make it more difficult to retain and attract management and other key personnel and requires senior management to spend a significant amount of time and effort dealing with our financial reorganization instead of focusing on the operations of our business.

Our cash flows may be affected by a variety of factors, many of which are outside our control, including regulatory issues, competition, financial markets and other general business conditions. We cannot assure you that we will possess sufficient income and liquidity to meet all of our liquidity requirements and other obligations. Although we believe that cash flows from operations and borrowings under our DIP facility will be adequate to meet our financial and operating obligations in 2010, our results for future periods are subject to numerous uncertainties. We may encounter liquidity problems, which could affect our ability to meet our obligations while attempting to meet competitive pressures or adverse economic conditions.

In connection with the filing of the Chapter 11 Case, on July 31, 2009, Station Casinos, Inc. entered into an unsecured, subordinated administrative priority DIP Credit Agreement among the Company, as borrower, Vista Holdings, LLC (a non-debtor subsidiary of the Company), as administrative agent and lender, and the lenders party thereto. The DIP Credit Agreement, as amended, provides for a \$185 million revolving credit facility that will be funded on a committed basis for so long as Vista Holdings, LLC has cash and cash equivalents on hand in an amount in excess of \$100 million and on a discretionary basis thereafter. The proceeds of the loans incurred under the DIP Credit Agreement will be used for working capital and other general corporate purposes of the Company and will be available for intercompany loans to its subsidiaries during the pendency of the Chapter 11 Case. Advances under the DIP Credit Agreement bear interest at a rate equal to 2.5% plus LIBOR. At March 31, 2010, advances under the DIP Credit Agreement totaled \$172.0 million, and Vista Holdings, LLC had cash and cash equivalents on hand of \$13.0 million.

Station Casinos, Inc.'s obligations under the DIP Credit Agreement will be an administrative expense claim in the Chapter 11 Case having *pari passu* priority with other administrative expense claims, provided that repayment of the loan by Station Casinos, Inc. shall be subordinate to the full repayment of the lenders under the Company's prepetition Credit Agreement.

Station Casinos, Inc.'s obligations under the DIP Credit Agreement may be accelerated following certain events of default, including (without limitation) the conversion of any of the Chapter 11 Cases to a case under chapter 7 of the Bankruptcy Code or the appointment of a trustee pursuant to chapter 11 of the Bankruptcy Code.

The DIP Credit Agreement matures on the earlier of (i) August 10, 2010, (ii) ten business days after the effective date of a chapter 11 plan of reorganization is confirmed in the Chapter 11 Case by the Bankruptcy Court, and (iii) the date of acceleration, if any, of the advances under the DIP Credit Agreement following an event of default thereunder.

Also, in connection with the filing of the Chapter 11 Case, on July 31, 2009, the Station Casinos, Inc. entered into an Unsecured Revolving Loan Promissory Note in favor of Past Enterprises, Inc. (a non-debtor subsidiary of the Company) pursuant to which Past Enterprises provides to Station Casinos, Inc. an unlimited revolving credit facility (the "Past Revolving Loan") at an interest rate of 2.78% per annum, the proceeds of which will be used for working capital and other general corporate purposes of the Company and will be available for intercompany loans to its subsidiaries.

The Past Revolving Loan matures on the earlier of (i) demand, or (ii) July 31, 2011, and provides for a default rate of interest of 4.78% if principal or interest due thereunder is not paid when due. At March 31, 2010, the outstanding balance due under the Past Revolving Loan totaled \$98.0 million.

Station Casinos, Inc.'s obligations under the Past Revolving Loan will be an administrative expense claim in the Chapter 11 Case having *pari passu* priority with other administrative expense claims, provided that repayment of the loan by Station Casinos, Inc. shall be subordinate to the full repayment of the lenders under the Company's prepetition Credit Agreement.

Off-Balance Sheet Arrangements

As of March 31, 2010, we have certain off-balance sheet arrangements that affect our financial condition, liquidity and results of operations, including interest rate swaps with a notional amount of \$250 million (see "Description of Certain Indebtedness and Capital Stock *Interest Rate Swaps*"). We also have certain contractual obligations including long-term debt, operating leases, employment contracts, long-term stay-on performance agreements and slot conversion purchases. There have been no material changes to our contractual obligations previously reported in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009.

Future Development Las Vegas

Rancho Road

In December 2006, we entered into an amended and restated operating agreement with FBLV Holding Company LLC ("FBLV"). Pursuant to the amended and restated operating agreement, the parties contributed approximately 52 acres (with approximately 20 acres contributed by us for our 50% ownership and approximately 32 acres contributed by FBLV for their 50% ownership) of improved and unimproved real property located along Rancho Road south of Palace Station in Las Vegas, Nevada into a joint venture. It is anticipated that the joint venture will develop, construct and manage, pursuant to a master development plan, a mixed-use residential, retail and entertainment project on all or a portion of such property. The timing, cost and scope of the project have yet to be determined. Through March 31, 2010, we have contributed an additional \$44.0 million to fund the acquisition of additional property as well as design and development costs.

Future Development Native American

The Federated Indians of Graton Rancheria

We have entered into Development and Management Agreements with the Federated Indians of Graton Rancheria (the "FIGR"), a federally recognized Native American tribe. Pursuant to those agreements, we will assist the FIGR in developing and operating a gaming and entertainment project to be located in Sonoma County, California. The FIGR selected us to assist them in designing, developing and financing their project and, upon opening we will manage the facility on behalf of the FIGR. The Management Agreement has a term of seven years from the opening of the facility and we will receive a management fee equal to 24% of the facility's net income in years 1 through 4 and 27% of the facility's net income in years 5 through 7. We will also receive a development fee equal to 2% of the cost of the project upon the opening of the facility.

In October 2003, the FIGR entered into a Memorandum of Understanding with the City of Rohnert Park. In August 2005, we purchased 270 acres of land just west of the Rohnert Park city limits in Sonoma County, California. In March 2006, we purchased an additional 4.7 acres adjacent to the previously acquired property. The property purchased is approximately one-quarter mile from Highway 101 and approximately 43 miles from downtown San Francisco. In March 2008, it was determined that approximately 247 acres of the 270-acre site purchased in August 2005 would be taken into trust, with the remaining 23 acres retained by Station. As a result, the estimated cost of the remaining 23 acres was reclassified from Native American development costs to land held for development during the year ended December 31, 2008. Over the period of May 2007 through June 2008, we purchased an additional 11 acres of land adjacent to the 23 acres, bringing the total land held for development to 34 acres. Development of the gaming and entertainment project is subject to certain governmental and regulatory approvals, including, but not limited to, negotiating a gaming compact with the State of California, the United States Department of the Interior (the "DOI") accepting a portion of the land into trust on behalf of the FIGR and approval of the Management Agreement by the National Indian Gaming Commission (the "NIGC"). Prior to obtaining third-party financing, we will contribute significant financial support to the project.

Table of Contents

Through March 31, 2010, we have advanced approximately \$145.3 million toward the development of this project, primarily to complete the environmental impact study and secure real estate for the project, which is included on our consolidated balance sheets. Funds advanced by us are expected to be repaid from the proceeds of the project financing or from the FIGR's gaming revenues. In addition, we have agreed to pay approximately \$11.3 million upon achieving certain milestones, which will not be reimbursed. Through March 31, 2010, approximately \$2.0 million of these payments had been made and were expensed as incurred. The timing and feasibility of the project are dependent upon the receipt of the necessary governmental and regulatory approvals. The Company plans to continue contributing significant financial support to the project, even though there can be no assurances as to when or if the necessary approvals will be obtained.

On May 7, 2008, the DOI published in the Federal Register a Notice of Final Agency Determination (the "Determination") to take certain land into trust for the benefit of the FIGR. The publication commenced a thirty-day period in which interested parties could seek judicial review of the Determination. On June 6, 2008, the Stop The Casino 101 Coalition and certain individuals filed a complaint (the "Complaint") in the United States District Court for the Northern District of California seeking declaratory and injunctive relief against the DOI and officials of the DOI. The Complaint sought judicial review of the Determination. On September 10, 2008, the U.S. Attorney representing the DOI exercised her right to have the case reassigned from a magistrate to an Article III judge, and the FIGR subsequently intervened in the lawsuit. On November 17, 2008, the federal defendants and the FIGR filed their respective motions to dismiss the complaint for lack of jurisdiction and failure to state a claim. In response, the plaintiffs filed a motion for leave to amend their complaint which was granted on January 26, 2009. The Company believes that the allegations contained in the Complaint are without merit. The DOI and the FIGR filed motions to dismiss the amended complaint on February 20, 2009, and on March 27, 2009, a hearing was held to argue such motions. On April 21, 2009, the DOI and FIGR's motions to dismiss were granted. On June 8, 2009, the plaintiffs filed an appeal (the "Appeal") in the United States Court of Appeals for the Ninth Circuit Appeals, and the DOI agreed to voluntary stay the taking of the site into trust pending resolution of the appeal. The plaintiffs, including several who are now represented separately by a second attorney, filed their opening briefs on October 26, 2009. On November 4, 2009, DOI filed an unopposed motion to expedite the oral argument. DOI and FIGR then filed their answering briefs on November 25, 2009. The plaintiffs responded by filing reply briefs on December 28, 2009. The court clerk initially rejected the motion to expedite oral argument, but following FIGR's motion for reconsideration, the court has scheduled oral argument for April 15, 2010. As with all litigation, no assurances can be provided as to the outcome of this lawsuit.

On February 19, 2009, a Notice of Availability of a Final Environmental Impact Statement (the "EIS") was filed in the Federal Register, leaving only the issuance of the Record of Decision (the "ROD") to complete the environmental process for the FIGR project. Issuance of the ROD will initiate a 30-day period in which opponents of the project will have the right to seek judicial review of the ROD.

Gun Lake Tribe

On November 13, 2003, we agreed to purchase a 50% interest in MPM Enterprises, LLC, a Michigan limited liability company ("MPM"). Concurrently with our agreement to purchase that interest, MPM and the Match-E-Be-Nash-She-Wish Band of Pottawatomi Indians of Michigan, a federally recognized Native American tribe commonly referred to as the Gun Lake Tribe ("Gun Lake"), entered into amended Development and Management Agreements, pursuant to which MPM agreed to assist Gun Lake in developing and operating a gaming and entertainment project to be located in Allegan County, Michigan. On July 29, 2005, MPM and Gun Lake entered into amended and restated Development and Management Agreements. We agreed to pay \$6.0 million for our 50% interest in MPM, which was payable upon achieving certain milestones and is not reimbursable. As of March 31, 2010, payments totaling \$6.0 million had been made and were expensed as incurred. An additional \$12.0 million in total may be paid by us in

Table of Contents

years six and seven of the Third Amended and Restated Management Agreement, subject to certain contingencies. Under the terms of the Third Amended and Restated Development Agreement, we have agreed to arrange financing for the ongoing development costs and construction of the project. Through March 31, 2010, we have advanced approximately \$59.5 million toward the development of this project, primarily to complete the environmental assessment and secure real estate for the project, which is included on our consolidated balance sheets. Funds advanced by us are expected to be repaid from the proceeds of the project financing and from Gun Lake's gaming revenues. The Third Amended and Restated Management Agreement has a term of seven years from the opening of the facility and provides for a management fee of 30% of the project's net income to be paid to MPM. Pursuant to the terms of the MPM Operating Agreement, our portion of the management fee is 50% of the first \$24 million of management fees earned, 83% of the next \$24 million of management fees and 93% of any management fees in excess of \$48 million. Since the risks and rewards under the Development and Management Agreements are shared disproportionately by MPM's members, MPM is considered a variable interest entity under the provisions of ASC Topic 810, *Consolidation*. We have determined that the Company is the primary beneficiary of MPM and as a result, we consolidate MPM in our condensed consolidated financial statements.

The project is being developed on approximately 147 acres on U.S. Highway 131 and 129th Avenue, approximately 25 miles south of Grand Rapids, Michigan and 25 miles north of Kalamazoo, Michigan. As currently contemplated, the project will include slot machines, table games and various dining options. Construction of the project includes the conversion of a portion of an existing 192,000 square-foot building into the casino and entertainment facility. Development of the gaming and entertainment project and operation of Class III gaming is subject to certain governmental and regulatory approvals, including, but not limited to, approval of the Management Agreement by the NIGC.

On February 27, 2004, the DOI issued a Finding of No Significant Impact with respect to the proposed project. On May 13, 2005, the DOI published in the Federal Register a Notice of Final Agency Determination (the "Determination") to take certain land into trust for the benefit of Gun Lake. On June 13, 2005, Michigan Gambling Opposition (the "MGO Plaintiffs") filed a complaint (the "MGO Complaint") in the United States District Court, District of Columbia (the "District Court"), seeking declaratory and injunctive relief against the DOI and officials of the DOI. The MGO Complaint sought judicial review of the Determination. On January 6, 2006, Gun Lake filed a motion for judgment on the pleadings or, in the alternative, for summary judgment. Also on January 6, 2006, the DOI filed a motion to dismiss or, in the alternative, for summary judgment.

On February 23, 2007, the District Court issued its decision in favor of the DOI and Gun Lake, finding that there were no facts which would entitle the MGO Plaintiffs to any relief on the issues raised in the MGO Complaint, and granted the parties' motion to dismiss or, in the alternative for summary judgment (the "Dispositive Motions"). On March 1, 2007, the MGO Plaintiffs filed a motion for stay pending appeal with the District Court. On March 5, 2007, the District Court granted the MGO Plaintiffs' motion for stay pending appeal, thereby precluding the DOI from taking the site into trust for the benefit of Gun Lake until the District Court's decision granting the Dispositive Motions had been reviewed on appeal. On May 21, 2007, the MGO Plaintiffs filed their appellate brief in the United States Court of Appeal for the District of Columbia (the "Court of Appeals") appealing the District Court's decision. On July 6, 2007, the DOI and Gun Lake filed their responsive briefs. On July 30, 2007, the MGO Plaintiffs filed their reply brief. Oral arguments were heard on October 19, 2007. On April 29, 2008, the Court of Appeals affirmed the District Court's dismissal of the lawsuit filed by the MGO Plaintiffs.

On May 13, 2008, the MGO Plaintiffs filed a petition for rehearing en banc with the Court of Appeals. On July 25, 2008, the Court of Appeals denied the MGO Plaintiffs' petition for rehearing en banc. On July 29, 2008, the MGO Plaintiffs filed an emergency motion for stay of mandate pending petition for certiorari. On August 1, 2008, the DOI and Gun Lake filed their responses to the emergency motion for stay of mandate. On August 15, 2008, the Court of Appeals granted the emergency motion for stay of

Table of Contents

mandate. On October 23, 2008, the MGO Plaintiffs filed a petition for certiorari seeking review of the Court of Appeals' decision by the United States Supreme Court. On January 21, 2009, the United States Supreme Court denied the petition for certiorari and on January 27, 2009, the appellate court issued a mandate that dissolved the stay. On January 30, 2009, the DOI accepted approximately 147 acres of real property into trust in Allegan County, Michigan, for the benefit of Gun Lake. On August 18, 2009, the Secretary of Interior issued an Initial Reservation Proclamation proclaiming that the 147-acre parcel is Gun Lake's reservation.

On August 1, 2008, David Patchak filed a complaint (the "Patchak Complaint") seeking declaratory and injunctive relief against the DOI and officials of the DOI. On October 6, 2008, Gun Lake filed a motion for judgment on the pleadings. The Patchak Complaint also seeks judicial review of the Determination. On October 7, 2008, the DOI filed a motion to dismiss. On October 17, 2008, the plaintiff filed a motion to stop the DOI from taking land into trust for Gun Lake, which was denied by the District Court on January 26, 2009. The District Court filed an order that gave the plaintiff 21 days to submit a memorandum addressing whether the District Court still has jurisdiction in this case in light of the DOI accepting the land in trust for the benefit of Gun Lake. The DOI and Gun Lake filed their memoranda addressing this issue on April 6, 2009. On August 19, 2009, the DOI's motion to dismiss and motion for judgment on the pleadings was granted and the plaintiff's motions for preliminary injunctive relief were denied. On September 15, 2009, plaintiff filed a notice of appeal with the United States Court of Appeals for the District of Columbia Circuit. On November 6, 2009, Gun Lake filed a Motion to Dismiss the appeal in part. The Motion has been referred to the panel of judges to whom the case will be assigned for decision. On January 8, 2010, the Court ordered the Court Clerk to enter a briefing schedule. Appellant's brief is due on April 9, 2010, Appellees' briefs are due on May 10, 2010, and Appellant's reply brief is due on May 24, 2010. The Company believes that the appeal is without merit. As with all litigation, no assurances can be provided as to the outcome of this lawsuit.

On March 9, 2007, Gun Lake and the State of Michigan entered into a tribal-state Class III gaming compact. The compact was subject to approval by the Michigan Legislature and, if approved, would regulate gaming at Gun Lake's proposed gaming and entertainment project to be developed on the site. On August 8, 2007, the Michigan House of Representatives ratified the compact. On February 11, 2009, the Michigan Senate passed a resolution approving the compact. On February 19, 2009, the Michigan House of Representatives passed a similar resolution approving the Compact and the Compact was submitted to the Secretary of Interior for his approval. On April 22, 2009, the Compact became effective by publication in the Federal Register. Prior to obtaining third-party financing, we will contribute significant financial support to the project. Construction on the project began in September 2009.

Mechoopda Indian Tribe

We have entered into Development and Management Agreements with the Mechoopda Indian Tribe of Chico Rancheria, California (the "MITCR"), a federally recognized Native American tribe. Pursuant to those agreements, we will assist the MITCR in developing and operating a gaming and entertainment facility to be located on a portion of an approximately 650-acre site in Butte County, California, at the intersection of State Route 149 and Highway 99, approximately 10 miles southeast of Chico, California and 80 miles north of Sacramento, California. Under the terms of the Development Agreement, we have agreed to arrange the financing for the ongoing development costs and construction of the facility. Funds advanced by us are expected to be repaid from the proceeds of the project financing or from the MITCR's gaming revenues. Through March 31, 2010, we have advanced approximately \$11.8 million toward the development of this project, primarily to complete the environmental assessment and secure real estate for the project. In addition, we have agreed to pay approximately \$2.2 million of payments upon achieving certain milestones, which will not be reimbursed. Through March 31, 2010, \$50,000 of these payments had been made and were expensed as incurred. Although the Company continues to fund advances to MITCR, given the recent recession and thus the revised expected potential of the project, as of March 31, 2010 the

Table of Contents

Company has fully impaired the associated long-term asset. The Management Agreement has a term of seven years from the opening of the facility and provides for a management fee of 24% of the facility's net income. As currently contemplated, the facility will include slot machines, table games and dining and entertainment amenities. Development of the facility is subject to certain governmental and regulatory approvals, including, but not limited to, negotiating a gaming compact with the State of California, the DOI accepting land into trust on behalf of the MITCR and approval of the Management Agreement by the NIGC. Prior to obtaining third-party financing, we will contribute significant financial support to the project. The timing of this type of project is difficult to predict and is dependent upon the receipt of the necessary governmental and regulatory approvals. There can be no assurances when or if these approvals will be obtained.

On January 17, 2008, the Bureau of Indian Affairs (the "BIA") issued a Finding of No Significant Impact with respect to the proposed project. On May 8, 2008, the DOI published in the Federal Register a Notice of Final Agency Determination (the "Determination") to take certain land into trust for the benefit of MITCR. On March 26, 2008, Butte County, California (the "Plaintiff") filed a complaint in the United States District Court for the District of Columbia (the "District Court") seeking declaratory and injunctive relief against the NIGC. On May 19, 2008, the Plaintiff filed a first amended complaint (the "Amended Complaint") in the District Court seeking declaratory and injunctive relief against the NIGC, the DOI and officials of the DOI. The Amended Complaint sought judicial review of the Determination and the NIGC's approval of the tribal-gaming ordinance. On May 13, 2008, MITCR filed a motion to intervene in that lawsuit which was granted by the District Court on June 16, 2008. On June 30, 2008, MITCR filed an answer to the Amended Complaint. On September 12, 2008, the U.S. Department of Justice on behalf of the NIGC and DOI, and MITCR each filed a motion to dismiss the Plaintiff's Amended Complaint. The Plaintiff's opposition to MITCR's motion to dismiss and the Plaintiff's dispositive motion were filed on October 24, 2008, and the NIGC, DOI and MITCR briefs concerning the dispositive motions were filed on December 8, 2008. Oral arguments were heard by the District Court on February 13, 2009. On April 13, 2009, the District Court granted the DOI and MITCR's motion to dismiss. On May 13, 2009, the Plaintiff filed an appeal in the U.S. Court of Appeals for the District of Columbia in Washington DC. The Plaintiff's brief was filed on September 14, 2009, and the MITCR and DOI's briefs were filed October 14, 2009. The Plaintiff's reply brief was filed October 28, 2009, and oral arguments were held on December 10, 2009. The Company believes that the appeal is without merit. As with all litigation, no assurances can be provided as to the outcome of this lawsuit.

North Fork Rancheria of Mono Indian Tribe

We have entered into Development and Management Agreements with the North Fork Rancheria of Mono Indians (the "Mono"), a federally recognized Native American tribe located near Fresno, California. Pursuant to those agreements, we will assist the Mono in developing and operating a gaming and entertainment facility to be located in Madera County, California. We have purchased, for the benefit of the Mono, a 305-acre parcel of land located on Highway 99 north of the city of Madera. Under the terms of the Development Agreement, we have agreed to arrange the financing for the ongoing development costs and construction of the facility. Funds advanced by us are expected to be repaid from the proceeds of the project financing or from the Mono's gaming revenues. Through March 31, 2010, we have advanced approximately \$15.8 million toward the development of this project, primarily to complete the environmental impact study and secure real estate for the project, which is included on our consolidated balance sheets. In addition, we have agreed to pay approximately \$1.3 million of payments upon achieving certain milestones, which will not be reimbursed and will be expensed as incurred. Through March 31, 2010, none of these payments had been made. The Management Agreement has a term of seven years from the opening of the facility and provides for a management fee of 24% of the facility's net income. As currently contemplated, the facility will include slot machines, table games, restaurants, a hotel and entertainment amenities. Development of the gaming and entertainment project is subject to certain governmental and regulatory approvals, including, but not limited to, approval by the California

Legislature of the gaming compact with the State of California, the DOI accepting the land into trust on behalf of the Mono and approval of the Management Agreement by the NIGC.

On April 28, 2008, the Mono and the State of California entered into a tribal-state Class III gaming compact. The compact is subject to approval by the California Legislature and, if approved, will regulate gaming at the Mono's proposed gaming and entertainment project to be developed on the site. No assurances can be provided as to whether the California Legislature will approve the compact. Prior to obtaining third-party financing, we will contribute significant financial support to the project. The timing of this type of project is difficult to predict, and is dependent upon the receipt of the necessary governmental and regulatory approvals. There can be no assurances when, or if, these approvals will be obtained.

Land Acquisition

We have acquired certain parcels of land as part of future development activities. Our decision whether to proceed with any new gaming or development opportunity is dependent upon future economic and regulatory factors, the availability of acceptable financing and competitive and strategic considerations. As many of these considerations are beyond our control, no assurances can be made that we will be able to proceed with any particular project.

As of March 31, 2010, we had \$305.5 million of land held for development consisting primarily of eleven sites that are owned or leased, which includes 368 acres in the Las Vegas valley, 1,321 acres in northern California and 200 acres in Reno, Nevada. The primary gaming-entitled land that we own in the Las Vegas valley consists of 77 acres of land (106 acres including those leased or under contract) on which the Wild Wild West is located and the surrounding area, 71 acres located at the intersection of Durango Road and the Southern Beltway/Interstate 215 in the southwest area of Las Vegas, 58 acres also located in southwest Las Vegas at the intersection of Town Center and Interstate 215, 45 acres in the master-planned community of Inspirada located in Henderson, Nevada, 61 acres located on the southern end of Las Vegas Boulevard at Cactus Avenue of which we lease and have an option to purchase 2.5 acres, and 30 acres on Boulder Highway at the site formerly known as the Castaways Hotel Casino and Bowling Center.

In December 2008, we amended the lease and purchase agreement for the 19-acre parcel of land on which the Wild Wild West is located. Under the amended agreement, we have an option to purchase the land for a purchase price of \$36 million. The amended lease also includes options to purchase the land in July 2023, 2044 and 2065 for a purchase price equal to fair market value as of July 2022, 2043 and 2064, respectively. No amounts related to these purchase options have been recorded on our consolidated balance sheets at March 31, 2010 or December 31, 2009.

Regulation and Taxes

We are subject to extensive regulation by the Nevada gaming authorities and will be subject to regulation, which may or may not be similar to that in Nevada, by any other jurisdiction in which we may conduct gaming activities in the future, including the NIGC and tribal gaming agency of the UAIC.

The gaming industry represents a significant source of tax revenue, particularly to the State of Nevada and its counties and municipalities. From time to time, various state and federal legislators and officials have proposed changes in tax law, or in the administration of such law, affecting the gaming industry. The Nevada Legislature meets every two years and when special sessions are called by the Governor. The Nevada Legislature is not currently in session and is next scheduled to meet in early 2011. An increase in the gaming tax could have an adverse effect on our results of operations.

On March 27, 2008, in the matter captioned Sparks Nugget, Inc. vs. State ex rel. Department of Taxation, the Nevada Supreme Court ruled that complimentary meals provided to employees and patrons are not subject to Nevada use tax. We have filed refunds for the periods from April 2000 through February 2008. The amount subject to these refunds is approximately \$15.3 million plus interest. Any amount

Table of Contents

refunded to us would be reduced by a contingent fee owed to a third party advisory firm. On April 15, 2008, the Department of Taxation filed a motion for rehearing of the Supreme Court's decision. On July 16, 2008, the Nevada Supreme Court denied the Department of Taxation's motion for rehearing. The Company is currently evaluating the impact of the Nevada Supreme Court's decision not to rehear the case. Accordingly, we have not recorded a receivable related to a refund for previously paid use tax on complimentary employee and patron meals in the accompanying consolidated balance sheets as of March 31, 2010 and December 31, 2009, respectively. However, we began claiming this exemption on sales and use tax returns for periods subsequent to February 2008 given the Nevada Supreme Court decision.

We believe that our recorded tax balances are adequate. However, it is not possible to determine with certainty the likelihood of possible changes in tax law or in the administration of such law, regulations or compact provisions. Such changes, if adopted, could have a material adverse effect on our operating results.

Description of Certain Indebtedness and Capital Stock

CMBS Loans

In connection with the Merger, on November 7, 2007, a number of wholly-owned unrestricted direct and indirect subsidiaries of Station (collectively, the "CMBS Borrower") entered into a mortgage loan and related mezzanine financings in the aggregate principal amount of \$2.475 billion (the "CMBS Loans"), for the purpose of financing the Merger consideration payable to the Company's stockholders upon consummation of the Merger and paying fees and expenses incurred in connection with the Merger.

The CMBS Loans are secured by substantially all fee and leasehold real property comprising Palace Station, Boulder Station, Sunset Station and Red Rock (collectively, the "CMBS Property"). Prior to the 2009 maturity date, the CMBS Borrower exercised a one-year extension to extend the maturity date to November 2010 subject to two additional one-year extensions. The lenders have disputed the effectiveness of the extension. Interest on the CMBS Loans is equal to one-month LIBOR plus 5.3% per annum, which includes an additional 3.0% default rate. As a result of the Chapter 11 Case, interest due on the mezzanine financings is not being remitted to the mezzanine lenders. The CMBS Borrower is required to hedge the LIBOR interest rate such that it will not exceed 5.5% on a blended basis. As a result, the CMBS Borrower purchased interest rate caps with a combined notional amount of \$1.11 billion and a cap rate of 5.8% for an initial premium of \$3.6 million. The initial premium was recorded in other assets and, in accordance with ASC Topic 815, *Derivatives and Hedging*, is marked to market at each reporting period. In addition, the CMBS Borrower entered into an interest rate swap with a notional amount of \$1.36 billion in which the borrower paid a fixed rate of approximately 5.3% and received one-month LIBOR, terminating in November 2012. This interest rate swap was early terminated during the three months ended December 31, 2009 (see Note 6 Derivative Instruments).

The loan documents for the CMBS Loans (the "CMBS Loan Documents") contain a number of covenants that, among other things, restrict, subject to certain exceptions, each wholly-owned unrestricted direct and indirect subsidiary's ability to incur additional indebtedness; create liens on assets; engage in mergers or consolidations; sell assets; pay dividends or make distributions; make investments, loans or advances; make certain acquisitions; engage in certain transactions with affiliates; and fundamentally change its business. The CMBS Loan Documents also require the CMBS Borrower to fund specific reserves as defined. In addition, the CMBS Loan Documents contain a requirement that if the CMBS Borrower fails to maintain a minimum lease coverage ratio of 1.15 to 1.00 during two consecutive fiscal quarters, 80% of the funds available following the payment of all amounts and reserves required to be made pursuant to the CMBS Loan Documents be deposited into an account for the benefit of the lenders instead of permitting distribution of such funds to the Company. As of December 31, 2009 and March 31, 2010, we were not in compliance with the lease coverage ratio. In a letter dated April 6, 2009 to the CMBS Borrower, certain lenders under the CMBS Loans alleged that the CMBS Borrower had not calculated the

Table of Contents

lease coverage ratio in accordance with the CMBS Loan Documents for the quarters ended September 30, 2008 and December 31, 2008 and further alleged that the CMBS Borrower would not have been in compliance with the minimum lease coverage ratio if the lease coverage ratio had been properly calculated. As a result, those lenders instituted a block against the release of 80% of the funds available following the payment of all amounts and reserves due under the CMBS Loans and instructed our depository bank to hold such funds in a collateral account for the benefit of the lenders. As a result of the Chapter 11 Case, the block against the release of funds increased to 100% of the funds available following the payment of all amounts and reserves due under the CMBS Loans. As of March 31, 2010, \$109.3 million has been deposited in the collateral account in relation to this block.

Land Loan

On February 7, 2008, CV Propco, LLC, a wholly-owned, indirect unrestricted subsidiary of Station, as borrower, entered into a \$250 million delay-draw term loan which is collateralized by land located on the southern end of Las Vegas Boulevard at Cactus Avenue and land surrounding Wild Wild West in Las Vegas, Nevada (the "Land Loan"). The Land Loan contains no principal amortization and matures on February 7, 2011. At closing, \$200 million was drawn with the remaining \$50 million drawn in June 2008. The proceeds were used to fund a distribution to Station, establish an interest reserve and pay transaction expenses. Borrowings under the Land Loan bear interest at LIBOR plus 5.5% per annum or at the Alternate Base Rate (as defined in the Land Loan) plus 4.5% per annum, which includes an additional 2% default rate, at the borrower's election. The borrower is required to hedge the interest rate such that LIBOR will not exceed 6.5%. As a result, the borrower entered into two interest rate swap agreements with notional amounts of \$200 million and \$50 million in which the borrower pays a fixed LIBOR rate of 3.0% and 3.7%, respectively, and receives one-month LIBOR. These interest rate swaps were early terminated in November 2009 (see Note 6 Derivative Instruments).

The Land Loan contains a number of covenants that, among other things, restrict, subject to certain exceptions, the borrower's ability to incur additional indebtedness; create liens on assets; engage in mergers or consolidations; sell assets; pay dividends or make distributions; make investments, loans or advances; make certain acquisitions; engage in certain transactions with affiliates; and fundamentally change its business. In addition, the Land Loan requires the borrower to maintain a loan-to-value ratio of no more than 40% and also contains customary affirmative covenants and certain events of default.

During the first quarter of 2009, the lenders under the Land Loan, based on appraisals, indicated their opinion that the value of the collateral had likely decreased to the point that the loan-to-value ratio was no longer less than 40%, as required under the credit agreement, and thus an event of default had occurred under the credit agreement. As a result of such event of default, lenders have become entitled to exercise remedies, including, among other things, the ability to declare the Land Loan and related accrued interest due and payable and to foreclose on the underlying collateral of the borrower which at March 31, 2010 and December 31, 2009 included land with a book value of \$133.2 million. In December 2009, the balance of the interest reserve account of \$8.2 million was liquidated, and \$8.0 million was applied as a principal reduction to the loan with the remainder applied to the swap termination settlement amount. In addition, the borrower did not make the November 2009 payments or any subsequent payments due on account of interest or the interest rate swap agreements. There is no recourse to the Company for any portion of the land loan that is not satisfied by the Borrower or the collateral. The Company is in discussions with the lenders regarding a restructuring of the Land Loan however the Company can provide no assurance that it will be able to reach an agreement with the lenders. As a result the outstanding indebtedness related to the Land Loan has been classified as current in the accompanying condensed consolidated balance sheets.

Credit Agreement

In connection with the Merger, Station, as borrower, entered into a new \$900 million senior secured credit agreement (the "Credit Agreement") consisting of a \$650 million revolving facility (the "Revolver")

Table of Contents

and a \$250 million term loan (the "Term Loan"). The maturity date for both the Term Loan and the Revolver is August 7, 2012 subject to a single 15-month extension (as further defined in the Credit Agreement). The Term Loan requires quarterly principal payments of \$625,000. The Revolver contains no principal amortization. Borrowings under the Credit Agreement bear interest at a margin above the Alternate Base Rate or the Eurodollar Rate (each as defined in the Credit Agreement), as selected by us. The margin above such rates, and the fee on the unfunded portions of the Revolver, will vary quarterly based on our total debt to Adjusted EBITDA (as defined in the Credit Agreement). As of March 31, 2010, the borrower's margin above the Eurodollar Rate on borrowings under the Credit Agreement was 4.50%. As of March 31, 2010, the maximum margin for Eurodollar Rate borrowings was 4.50% and the maximum margin for Alternate Base Rate borrowings was 3.50%. As of March 31, 2010, the fee for any unfunded portion of the Revolver was 0.375%.

The Credit Agreement contains certain financial and other covenants. These include a minimum interest coverage ratio, a maximum total debt to Adjusted EBITDA (as defined in the Credit Agreement) ratio and a total senior secured debt to Adjusted EBITDA (as defined in the Credit Agreement) ratio.

For the quarters ended December 31, 2008, March 31, 2009, June 30, 2009, September 30, 2009, December 31, 2009 and March 31, 2010, we were not in compliance with the financial covenants in the Credit Agreement. In addition, the filing of the Chapter 11 Case constitutes an event of default under the terms of the Credit Agreement resulting in an acceleration of the obligations thereunder, subject to the bankruptcy stay.

Senior and Senior Subordinated Notes

The indentures (the "Indentures") governing our \$2.3 billion in aggregate principal amount of senior and senior subordinated notes (the "Notes") contain certain customary financial and other covenants, which limit our and our subsidiaries' ability to incur additional debt.

We have not made scheduled interest payments on the Company's \$450 million 6¹/₂% Senior Subordinated Notes due February 1, 2014 (the "2014 Subordinated Notes"), \$400 million 7³/₄% Senior Notes due August 15, 2016 (the "2016 Senior Notes"), \$700 million 6⁷/₈% Senior Subordinated Notes due 2016 (the "2016 Subordinated Notes"), \$300 million 6⁵/₈% Senior Subordinated Notes due 2018 (the "2018 Subordinated Notes") or \$450 million 6% Senior Notes due 2012 (the "2012 Senior Notes") since February 1, 2009. The grace periods with respect to the payment of interest on the 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes and 2012 Senior Notes have expired, resulting in an event of default under the indentures governing such indebtedness. In addition as a result of the filing of the Chapter 11 Case, the 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes and 2012 Senior Notes have been accelerated and are due and payable, subject to the bankruptcy stay.

Gain on Early Retirement of Debt

In January 2009, a wholly-owned subsidiary of the Company purchased \$40.0 million in aggregate principal amount of our outstanding \$700 million 6⁷/₈% Senior Subordinated Notes and \$8.0 million in aggregate principal amount of our outstanding \$450 million 6¹/₂% Senior Subordinated Notes for approximately \$1.5 million plus approximately \$1.4 million in accrued interest. As a result, during the three months ended March 31, 2009, we recorded a gain on early retirement of debt of approximately \$40.3 million, which is the difference between the reacquisition price and the net carrying amount of the extinguished debt including the face amount of the associated debt adjusted for the related unamortized discount and debt issuance costs.

Corporate Office Lease

In November 2007, we entered into a sale-leaseback agreement related to our corporate office building with a third-party real estate investment firm. We sold the corporate office building for approximately \$70 million and subsequently entered into a lease with the purchaser for an initial period of 20 years with four options to extend the lease, each option for an extension of five years. An event of default under the sale leaseback agreement for the corporate office building occurred on October 26, 2009 as a result of the Chapter 11 Case not being dismissed within 90 days following the filing thereof, entitling the landlord to exercise its remedies thereunder, including, among other things, termination of the lease and acceleration of contractual rents. Annual lease payments increase approximately 1.2% annually to approximately \$6.7 million in the final year of the original term. The lease also contains two options for us to repurchase the corporate office building, one option at the end of the fifth year of the lease term and a second option at the end of the tenth year of the lease term, which is considered continuing involvement under the authoritative guidance for accounting for sale-leaseback transactions involving real estate. Because of this continuing involvement, the sale-leaseback transaction is being accounted for as a financing transaction, with the sales proceeds recorded as a liability and the lease payments recorded as interest expense. In addition, we continue to include the corporate office building within property and equipment, net on our condensed consolidated balance sheets and depreciate it according to our policy. During the three months ended March 31, 2010 and 2009, we recorded interest expense related to this lease of approximately \$1.3 million, respectively. Future minimum lease payments related to this lease for the next five years are approximately \$5.4 million, \$5.5 million, \$5.5 million, \$5.6 million and \$5.7 million for the years ended December 31, 2010, 2011, 2012, 2013 and 2014, respectively.

Derivative Instruments

We have entered into various interest rate swaps with members of our bank group to manage interest expense. At March 31, 2010 we have a floating-to-fixed interest rate swap with a notional amount of \$250 million, terminating in January 2011, which effectively converts a portion of our floating-rate debt to a fixed rate. This interest rate swap is not designated as a hedging instrument and as a result, gains or losses resulting from the change in fair value of this swap are recognized in earnings in the period of the change. As a result of the Chapter 11 Case, this swap is classified in liabilities subject to compromise in the accompanying condensed consolidated balance sheets, and in accordance with ASC Topic 852, the liability is carried at the expected amount of the allowed claim, which approximates the fair value of the swap without adjustments for non-performance risk. Fluctuations in interest rates can cause the fair value of our derivative instruments to change each reporting period. While we attempt to predict such movements in interest rates and impact on derivative instruments, such estimates are subject to a large degree of variability which could have a significant impact on our condensed consolidated financial statements. As of March 31, 2010, we paid a weighted-average fixed rate of approximately 3.0% and received one-month LIBOR which approximated 0.2% on this interest rate swap.

During the three months ended March 31, 2010, an interest rate swap of one of our 50% owned joint ventures with a notional amount of \$430.0 million was early terminated and as a result, we reclassified \$2.0 million of deferred losses, net of tax, from accumulated other comprehensive loss into operations. As a result of the termination of this interest rate swap, the carrying amount of the liability was adjusted to the termination settlement amount and a loss was recorded by the joint venture. Our 50% share of this loss is reflected in interest and other expense from joint ventures in the accompanying condensed consolidated statement of operations for the three months ended March 31, 2010.

During the three months ended December 31, 2009, we early terminated a floating-to-fixed interest rate swap with a notional amount of \$1.36 billion. Prior to termination, this cash flow hedge effectively converted a portion of our floating-rate debt to a fixed rate. This interest rate swap was not designated as a hedging instrument and as a result, gains or losses resulting from the change in fair value of this swap were recognized in earnings in the period of the change. The estimated expected amount of the allowed claim

Table of Contents

related to this interest rate swap, which approximates the termination settlement amount of the swap, is classified in liabilities subject to compromise in the accompanying condensed consolidated balance sheets.

Also during the three months ended December 31, 2009, we early terminated two floating-to-fixed interest rate swaps with a combined notional amount of \$250 million. Prior to termination, these cash flow hedges effectively converted a portion of our floating-rate debt to a fixed rate. These interest rate swaps previously qualified and were designated as cash flow hedges, resulting in the effective portion of the gain or loss from the change in fair value being reported as a component of other comprehensive income (loss). During the first quarter of 2009, these interest rate swaps were de-designated as cash flow hedges for accounting purposes. As a result of the termination of these swaps, we reclassified \$1.7 million in deferred losses, net of tax, from accumulated other comprehensive income (loss) into earnings during the three months ended December 31, 2009. The total termination settlement amount of these swaps is recorded in accrued expenses and other current liabilities in the accompanying condensed consolidated balance sheets.

During the second quarter of 2009, two interest rate swaps of one of our 50% owned joint ventures with notional amounts of \$297.8 million were terminated. As a result, we reclassified \$0.3 million in deferred losses, net of tax, from accumulated other comprehensive income (loss) into operations during the year ended December 31, 2009.

Accumulated other comprehensive loss on our condensed consolidated balance sheets at December 31, 2009 includes our proportionate share of our 50% owned joint ventures' deferred net losses on interest rate swaps that were previously designated as hedging instruments. As of March 31, 2010, all deferred net losses related to these interest rate swaps have been reclassified from accumulated other comprehensive income (loss) into operations.

In accordance with ASC Topic 852, *Reorganizations*, the Debtors' interest rate swap liabilities are classified as liabilities subject to compromise in our condensed consolidated balance sheets as of March 31, 2010 and December 31, 2009. These interest rate swap liabilities are adjusted to the expected amounts of the allowed claims, which are different than the prepetition carrying amounts of these liabilities as a result of changes in the fair values of these instruments. Gains and losses resulting from adjustments to the carrying values of swap liabilities subject to compromise are recorded in reorganization items in the accompanying condensed consolidated statements of operations.

The difference between amounts received and paid under our interest rate swap agreements, as well as any costs or fees, is recorded as an addition to, or reduction of, interest expense as incurred over the life of the interest rate swaps. The net effect of the interest rate swaps and interest rate cap resulted in an increase in interest expense of approximately \$1.7 million and \$19.3 million for the three months ended March 31, 2010 and 2009, respectively. In addition, our proportionate share of the net effect of interest rate swaps of our 50% owned joint ventures is reflected as an increase or decrease in interest and other expense from joint ventures in our condensed consolidated statements of operations, and totaled approximately \$26.8 million and \$0.6 million for the three months ended March 31, 2010 and 2009, respectively.

Common Stock

We are authorized to issue up to 10,000 shares of voting common stock, \$0.01 par value per share. At March 31, 2010, there were 41.7 shares of voting common stock issued and outstanding. Each holder of issued and outstanding shares of voting common stock is entitled to one vote for each share held of record on each matter submitted to a vote of stockholders. Holders of our voting common stock have no cumulative voting, conversion or redemption rights. Under the Equityholders Agreement of Station, FCP and Fertitta Partners, as amended, in certain circumstances, FCP VoteCo, as the holder of Station's voting common stock, shall have the preemptive right to purchase or subscribe to any voting stock to be sold or issued by Station on the terms and conditions as such voting stock is being offered and sold or issued. Subject to any preferences that may be granted to the holders of our preferred stock, each holder of voting

common stock is entitled to receive ratably, such dividends as may be declared by our Board of Directors out of funds legally available therefore, as well as any distributions to the stockholders and, in the event of our liquidation, dissolution or winding up is entitled to share ratably in all our assets remaining after payment of liabilities.

Non-Voting Common Stock

We are authorized to issue up to 100,000,000 shares of non-voting common stock, \$0.01 par value per share. At March 31, 2010, there were 41,674,838 shares of non-voting common stock issued and outstanding. Holders of issued and outstanding shares of non-voting common stock are not entitled to vote on any matters to be voted on by the stockholders of the Company and are not to be included in determining the number of shares voting or entitled to vote. Holders of our non-voting common stock have no cumulative voting, conversion or redemption rights. Under the Equityholders Agreement of Station, FCP and Fertitta Partners, as amended, in certain circumstances, holders of non-voting common stock shall have the preemptive right to purchase or subscribe to any equity interests (other than voting stock) to be sold or issued by Station on the same terms and conditions as such equity interests are being offered and sold or issued. Subject to any preferences that may be granted to the holders of our preferred stock, each holder of non-voting common stock is entitled to receive ratably, such dividends as may be declared by our Board of Directors out of funds legally available therefor, as well as any distributions to the stockholders and, in the event of our liquidation, dissolution or winding up is entitled to share ratably in all our assets remaining after payment of liabilities.

Preferred Stock

We are authorized to issue up to 10,000 shares of preferred stock, \$0.01 par value per share, of which none are issued. The Board of Directors, without further action by the holders of our common stock, may issue shares of preferred stock in one or more series and may fix or alter the rights, preferences, privileges and restrictions, including the voting rights, redemption provisions (including sinking fund provisions), dividend rights, dividend rates, liquidation rates, liquidation preferences, conversion rights and the description and number of shares constituting any wholly unissued series of preferred stock. Except as described above, our Board of Directors, without further stockholder approval, may issue shares of preferred stock with rights that could adversely affect the rights of the holders of our common stock. The issuance of shares of preferred stock under certain circumstances could have the effect of delaying or preventing a change of control of Station or other corporate action.

Critical Accounting Policies

A description of our critical accounting policies can be found in Item 7 of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009.

Forward-looking Statements

When used in this report and elsewhere by management from time to time, the words "may", "might", "could", "believes", "anticipates", "expects" and similar expressions are intended to identify forward-looking statements with respect to our financial condition, results of operations and our business including our reorganization plan, expansions, development and acquisition projects, legal proceedings and employee matters. Certain important factors, including but not limited to, financial market risks, could cause our actual results to differ materially from those expressed in our forward-looking statements. Further information on potential factors which could affect our financial condition, results of operations and business including, without limitation, our ability to effect a successful restructuring, the impact of our bankruptcy filing on our operations; our ability to finance our operations and expenses associated with the bankruptcy, the impact of the substantial indebtedness incurred to finance the consummation of the going private transaction in November 2007, the ability to maintain existing management, integration of

acquisitions, competition within the gaming industry, the cyclical nature of the hotel business and gaming business, economic conditions, development and construction risks, regulatory matters and litigation are included in our filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date thereof. We undertake no obligation to publicly release any revisions to such forward-looking statements to reflect events or circumstances after the date hereof.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our long-term debt. We attempt to limit our exposure to interest rate risk by managing the mix of our long-term and short-term borrowings under the Credit Agreement. Borrowings under the Credit Agreement bear interest at a margin above the Alternate Base Rate or the Eurodollar Rate (each as defined in the Credit Agreement) as selected by us. However, the amount of outstanding borrowings is expected to fluctuate and may be reduced from time to time. The borrowings under the Credit Agreement mature in August 2012.

The following table provides information about our long-term debt at March 31, 2010 (see also "Description of Certain Indebtedness and Capital Stock") (amounts in thousands, unaudited):

	Maturity date	Face amount	Carrying value	Estimated fair value (b)
CMBS Loans, weighted-average interest rate of approximately 5.7%	November 2012 (a)	\$ 2,475,000	\$ 2,475,000	\$ 2,475,000
Land Loan, weighted-average interest rate of approximately 8.5%	February 2011	242,032	242,032	242,032
Revolver, weighted-average interest rate of approximately 5.2%	August 2012	628,237	628,237	628,237
Term Loan, weighted-average interest rate of approximately 4.9%	August 2012	244,375	244,375	244,375
6% senior notes	April 2012	450,000	450,000	36,000
7 ³ / ₄ % senior notes	August 2016	400,000	400,000	33,000

6 ⁵ / ₈ % senior subordinated notes	March 2018	300,000	300,000	6,000
Other debt, weighted-average interest rate of approximately 7.9%	2010 - 2027	79,713	79,713	79,713
Total		\$ 5,921,357	\$ 5,921,357	\$ 3,769,727

(a)

Prior to the maturity date, the CMBS Borrower exercised a one-year extension to extend the maturity date to November 2010 subject to two additional one-year extensions. The lenders have disputed the effectiveness of the extension.

(b)

The estimated fair values of the senior notes and the senior subordinated notes are based on actual market prices for the most recent trades on or before March 31, 2010. As a result of the Chapter 11 Case, it is impracticable to estimate the fair values of all other long-term debt, therefore the estimated fair values are assumed to be equal to the carrying values, and do not reflect any adjustments related to the Company's credit risk, the potential impact of the Chapter 11 Case on the amounts recoverable by creditors, the Joint Plan of Reorganization, or the "stalking horse" bid.

Table of Contents

We are also exposed to market risk in the form of fluctuations in interest rates and their potential impact upon our debt. This market risk is managed by utilizing derivative financial instruments in accordance with established policies and procedures. We evaluate our exposure to market risk by monitoring interest rates in the marketplace, and do not utilize derivative financial instruments for trading purposes. Our derivative financial instruments consist exclusively of interest rate swap agreements and interest rate cap agreements. Interest differentials resulting from these agreements are recorded on an accrual basis as an adjustment to interest expense.

The following table provides information about our financial instruments that are sensitive to changes in interest rates (amounts in thousands, unaudited):

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective and designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure. There was no change in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II OTHER INFORMATION

Item 1. Legal Proceedings

Station and its subsidiaries are defendants in various lawsuits relating to routine matters incidental to their business. As with all litigation, no assurance can be provided as to the outcome of the following matters and litigation inherently involves significant costs. Following is a summary of key litigation impacting Station. Station believes that the plaintiffs' claims are without merit and does not expect that the lawsuits will have a material adverse effect on the financial position or results of operations.

Luckevich, Scott and St. Cyr Litigation

On February 4, 2008, Josh Luckevich, Cathy Scott and Julie St. Cyr filed a purported class action complaint against the Company and certain of its subsidiaries in the United States District Court for the District of Nevada, Case No. CV-00141 (the "Federal Court Action"). The plaintiffs are all former employees of the Company or its subsidiaries. The complaint alleged that the Company (i) failed to pay its employees for all hours worked, (ii) failed to pay overtime, (iii) failed to timely pay wages and (iv) unlawfully converted certain earned wages. The complaint in the Federal Court Action sought, among other relief, class certification of the lawsuit, compensatory damages in excess of \$5,000,000, punitive damages and an award of attorneys' fees and expenses to plaintiffs' counsel.

On October 31, 2008, the Company filed a motion for judgment on the pleadings. During a hearing on that motion, the United States District Court questioned whether it had jurisdiction to adjudicate the matter. After briefing regarding the jurisdiction question, on May 16, 2009, the United States District Court dismissed the Federal Court Action for lack of jurisdiction and entered a judgment in the Company's favor. Subsequently, on July 21, 2009, the plaintiffs filed a purported class action complaint against the Company and certain of its subsidiaries in the District Court of Clark County, Nevada, Case No. A-09-595614-C (the "State Court Action"). The complaint in the State Court Action alleges substantially the same claims that were alleged in the complaint in the Federal Court Action.

On August 19, 2009, the corporate defendants, other than the Company, filed an answer responding to the complaint. Subsequently, on August 27, 2009, the corporate defendants, other than the Company, filed a motion to stay the State Court Action pending the resolution of the Company's bankruptcy petition. That motion was granted on September 30, 2009.

On or about April 30, 2010, the Company and the plaintiffs reached preliminary agreement on the terms of global settlement of all claims asserted in the State Court Action. The principal terms of the settlement are:

- a. The plaintiffs will have an aggregate allowed \$5 million general unsecured claim in the Company's bankruptcy case in respect of all of the claims alleged in the State Court Action that arose prior to Jan. 28, 2009.
- b. The Company will set aside \$1.1 million to pay (i) the claims of the plaintiffs that were employed at the Company and its subsidiaries that are defendants in the State Court Action during the period January 28, 2009 through the date of the approval of the settlement by the Bankruptcy Court, and (ii) the fees and expenses of the plaintiffs' counsel.
- c. The State Court Action will be removed from the state court to the Bankruptcy Court. Upon approval of the settlement by the Bankruptcy Court, the State Court Action will be dismissed.

The settlement remains subject to final documentation, and will further require (i) preliminary approval by the Bankruptcy Court, (ii) notice to the current and former employees covered by the State Court Action of their right to object to the settlement and/or be excluded therefrom; and (iii) final approval by the Bankruptcy Court.

Bankruptcy Proceedings

On July 28, 2009, the Company and its affiliates FCP Holding Inc., FCP VoteCo, LLC, Fertitta Partners, LLC, FCP MezzCo Parent, LLC, FCP MezzCo Parent Sub, LLC, FCP MezzCo Borrower VII, LLC, FCP MezzCo Borrower VI, LLC, FCP MezzCo Borrower V, LLC, FCP MezzCo Borrower IV, LLC, FCP MezzCo Borrower III, LLC, FCP MezzCo Borrower II, LLC, FCP MezzCo Borrower I, LLC, FCP PropCo, LLC, Northern NV Acquisitions, LLC, Tropicana Station, LLC, River Central, LLC and Reno Land Holdings, LLC (collectively, the "Debtors") filed voluntary petitions in the United States Bankruptcy Court for the District of Nevada in Reno, Nevada (the "Bankruptcy Court") under chapter 11 of title 11 of the United States Code. These chapter 11 cases are being jointly administered under the caption In re Station Casinos, Inc., et al Debtors Case No. 09-52470 (the "Chapter 11 Case").

On February 10, 2010, the Company's wholly owned subsidiary, GV Ranch Station, Inc. ("*GV Ranch*"), filed a Voluntary Petition for Chapter 11 Protection in the United States Bankruptcy Court, District of Nevada, Case No. 10-50381-gwz. GV Ranch and its joint venture partner, GCR Gaming, LLC ("*GCR*"), each own a 50% equity interest in Green Valley Ranch Gaming, LLC, an entity that holds as its asset the Green Valley Ranch Resort and Casino, located in Henderson Nevada ("*GVR*"). GV Ranch manages GVR under an operating agreement executed between the GV Ranch, GCR, and Green Valley Ranch Gaming, LLC (the "*Operating Agreement*"). On February 18, 2010, GCR filed a motion in the Bankruptcy Court seeking (i) dismissal of the G.V. Ranch Chapter 11 case as a bad faith filing; or, in the alternative (ii) rejection of the Operating Agreement; or, in the alternative (iii) relief from the automatic stay to enforce its rights under the Operating Agreement. In its motion, GCR alleges that GV Ranch mismanaged the property by, among other things, diverting business from GVR to another Station-managed property. The motion, along with a motion for joint administration of the case with Station's bankruptcy cases in the same court, will be heard on June 4, 2010. The Company vigorously denies any and all of GCR's allegations.

Item 1A. Risk Factors

A description of our risk factors can be found in Item 1A of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009. The information presented below updates, and should be read in conjunction with, the risk factors and information disclosed in our Form 10-K. Except as presented below, there have been no material changes from the risk factors described in our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds None.

Item 3. Defaults Upon Senior Securities.

For the quarters ended December 31, 2008, March 31, 2009, June 30, 2009 and September 30, 2009, December 31, 2009 and March 31, 2010, we were not in compliance with the financial covenants, as defined in our Credit Agreement. We have not made scheduled interest payments on the Company's \$450 million 6¹/₂% Senior Subordinated Notes due February 1, 2014 (the "2014 Subordinated Notes"), \$400 million 7³/₄% Senior Notes due August 15, 2016 (the "2016 Senior Notes"), \$700 million 6⁷/₈% Senior Subordinated Notes due 2016 (the "2016 Subordinated Notes"), \$300 million 6³/₈% Senior Subordinated Notes due 2018 (the "2018 Subordinated Notes") or \$450 million 6% Senior Notes due 2012 (the "2012 Senior Notes") since February 1, 2009. The grace periods with respect to the payment of interest on the 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes and 2012 Senior Notes have expired, resulting in an event of default under the indentures governing such indebtedness. In addition as a result of the filing of the Chapter 11 Case, the 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes and 2012 Senior Notes have been accelerated and are due and payable, subject to the bankruptcy stay. See Note 1 Overview of Recent Developments for further discussion.

Table of Contents

In addition, the filing of the Chapter 11 Case constitutes an event of default or otherwise triggered repayment obligations under the Company's Credit Agreement, CMBS mortgage loan and related mezzanine financings, Land Loan, 2014 Subordinated Notes, 2016 Senior Notes, 2016 Subordinated Notes, 2018 Subordinated Notes, 2012 Senior Notes and corporate office lease. As a result of the Chapter 11 Case, all debt outstanding under such debt arrangements became automatically due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Debtors and the application of applicable bankruptcy law under the Bankruptcy Code. The total amount of the defaults is \$6.0 billion and the total arrearage as of the date of filing this Quarterly Report on Form 10-Q is \$152.3 million.
