Our Company

We are one of the world's leading franchisors of real estate brokerage services. Our business strategy is to recruit and retain agents and sell franchises. Our franchisees operate under the RE/MAX brand name, which has held the number one market share in the U.S. and Canada since 1999, as measured by total residential transaction sides completed by our agents. Accordingly, our company slogan is "Nobody sells more real estate than RE/MAX." The RE/MAX brand has the highest level of unaided brand awareness in real estate in the U.S. and Canada according to a 2014 consumer survey by MMR Strategy Group, and our iconic red, white and blue RE/MAX hot air balloon is one of the most recognized real estate logos in the world.

The RE/MAX brand is built on the strength of our global franchise network, which is designed to attract and retain the best-performing and most experienced agents by maximizing their opportunity to retain a larger portion of their commissions. As a result of this agent-centric approach, we believe that our agents are substantially more productive than the industry average. We consider agent count to be a key measure of our business performance as the majority of our revenue is derived from fixed, contractual fees and dues paid to us based on the number of agents in our franchise network.

RE/MAX was founded in 1973 by David and Gail Liniger with an innovative, entrepreneurial culture affording our agents and franchisees the flexibility to operate their businesses with great independence. This business strategy led to a 33-year period of uninterrupted growth, highlighted in the charts below, as RE/MAX added large numbers of franchises and agents in the U.S., Canada and around the world. Today, the RE/MAX brand operates in more countries than any other real estate brokerage brand in the world.

As of September 30, 2015.

Table of Contents

We grew our total agent count at a compound annual growth rate, or "CAGR", of 30% from our founding to a peak of approximately 120,000 agents in 2006. Our agent count declined approximately 26.8% from 2006 through 2011 as real estate transaction activity declined during the U.S. and global real estate downturn and economic recession. We returned to growth starting in 2012, resulting in a net gain of 10,534 agents between 2012 and 2014 (of which 5,953 were in the U.S.). In the first nine months of 2015, we gained 5,481 agents (of which 2,674 were in the U.S.) as the upturn has continued, for a total of 103,491 agents (of which 59,779 were in the United States and 19,506 were in Canada). Approximately 25% of our agents gained during the twelve months ended September 30, 2015 were from offices newly opened in 2014. We expect that our U.S. agent count will continue to increase as we continue to attract agents who recognize the strength of the RE/MAX brand and our agent-centric value proposition.

As approximately 83% of our revenue for the twelve month period ended September 30, 2015 came from the U.S., we believe that we are benefiting from an improving U.S. housing market. After entering a period of recovery and rising by more than 9% per year in 2012 and 2013, existing home sale transactions fell by 2.9% in 2014, according to the National Association of Realtors, or "NAR." However, such recovery is expected to continue through 2015 with NAR forecasting that existing home sale transactions will rise 7.0% in 2015 and 3.5% in 2016. With approximately 13% of our revenue for the twelve month period ended September 30, 2015 coming from Canada, where RE/MAX has the leading market share among residential brokerage firms, we also expect to benefit from generally stable Canadian housing market trends, where home sales were up 5.1% in 2014, and are forecasted to rise 3.3% in 2015, before leveling off in 2016, according to the Canadian Real Estate Association, or "CREA."

As a franchisor with less than 1% owned brokerage offices in the U.S., we maintain a low fixed-cost structure, which enables us to generate high margins and helps us drive significant operating leverage through incremental revenue growth.

(1) Adjusted EBITDA is a non-GAAP measure. See " Non-GAAP Measures Adjusted EBITDA" below.

(2) Excludes adjustments attributable to the non-controlling interest.

Market Opportunity

We operate in the real estate brokerage franchise industry in nearly 100 countries, including the U.S. and Canada.

U.S. and Canadian Real Estate Brokerage Industry Overview. Based upon U.S. Census Bureau data and existing home sales information from NAR, the U.S. residential real estate industry is an approximately

Table of Contents

\$1.41 trillion market based on 2014 sales volume. Residential real estate represents the largest single asset class in the U.S. with a value of approximately \$20.0 trillion, according to the Federal Reserve.

Residential real estate brokerages typically realize revenue by charging a commission based on a percentage of the price of the home sold. The real estate brokerage industry generally benefits in periods of rising home prices and transaction activity (with the number of licensed real estate agents generally increasing during such periods), and is adversely impacted in periods of falling prices and home sale transactions (with the number of licensed real estate agents generally decreasing during such periods).

We believe that the traditional agent-assisted business model compares favorably to alternative channels of the residential brokerage industry, such as discount brokers and "for sale by owner," because full-service brokerages are the best-suited to address many of the key characteristics of real estate transactions, including: (i) the complexity and large monetary value involved in home sale transactions, (ii) the infrequency of home sale transactions, (iii) the high price variability in the home market, (iv) the unique nature of each home and (v) the consumer's need for a high degree of personalized advice and support in light of these factors. For these reasons, we believe that consumers will continue to use the agent-assisted model for residential real estate transactions. In addition, although listings are available for viewing on a wide variety of real estate websites, we believe an agent's local market expertise provides the ability to better understand the inventory of for-sale homes and the interests of potential buyers. This knowledge allows the agent to customize the pool of potential homes they show to a buyer, as well as help sellers to present their home professionally to best attract potential buyers. According to NAR, 89% of sellers of existing homes used an agent or broker in 2015 compared to 82% in 2004, and 87% of buyers used an agent or broker, compared with 77% in 2004.

Cyclical Nature. The residential real estate industry is cyclical in nature, but has shown strong long-term growth. From the second half of 2005 through 2011, the U.S. real estate industry experienced a significant downturn, with existing home sale transactions declining by 40% from 7.1 million in 2005 to 4.3 million in 2011, according to NAR. Since then, the U.S. real estate industry has improved, with 4.7 million existing home sale transactions in 2012, 5.1 million in 2013, and 4.9 million in 2014. NAR forecasts 5.3 million existing home sales in 2015 and 5.5 million in 2016.

Similarly, the median home sale price declined by 24% from 2005 to 2011, but increased by 6.4% in 2012, and another 11.5% in 2013, according to NAR. Median price increases moderated to 5.7% in 2014, leaving prices at the end of 2014 5.1% below the end of 2005. NAR forecasts a similar rate of home price increases in 2015, before the increases moderate somewhat in 2016.

Table of Contents

We believe we are well-positioned to benefit from an increase in our agent count as a result of the current U.S. economic recovery and the improving U.S. housing sector. As illustrated below, the number of existing home sale transactions in the U.S. has generally increased during periods of economic recovery:

Source: National Association of Realtors

Favorable Long-term Demand. We believe that long-term demand for housing in the U.S. is primarily driven by the economic health of the domestic economy, and local factors such as demand relative to supply. We also believe that the residential real estate market in the U.S. will benefit from fundamental demographic shifts over the long term. These include an increase in household formations, including as a result of immigration and population growth. According to the 2014 State of the Nation's Housing Report compiled by the Joint Center for Housing Studies, U.S. household formation increased by only 600,000 to 800,000 formations in each of the past several years, well below historic levels, but is projected to grow by 11.6 million to 13.2 million between 2015 and 2025. Likewise, the U.S. Census Bureau projects that the U.S. will continue to experience long-term population growth and predicts total net immigration of 49.0 million individuals between 2015 and 2050. We believe that there is also pent-up selling demand from generational shifts, such as many retirement age homeowners who are likely to take advantage of improving housing market conditions in order to sell their existing residences and retire in new areas of the country or purchase smaller homes. Similarly, we believe there is also pent-up buying demand among adult children, particularly in the large millennial generation, currently living in their parents' homes or renting with others, who are likely to take advantage of an improving economy and good home affordability, driving household formation back to historical levels.

Our Market Position. We attribute our success to our ability to recruit and retain experienced agents and sell franchises. Our approach to sustained agent recruiting and retention and franchise sales depends upon two key elements of our unique business model: (i) creating and maintaining a premier market presence in the real estate brokerage industry worldwide, and (ii) creating and maintaining the unique RE/MAX "growth engine."

Premier Market Presence. The strength of our brand worldwide in the real estate brokerage industry is the result of our ability to successfully create and maintain "Premier Market Presence." We believe that we offer agents and franchisees a compelling market presence in the real estate brokerage industry through the combination of the following six attributes:

leading unaided brand awareness;

highly experienced and productive agents;

leading market share;

Table of Contents

high traffic web presence;

high level of customer satisfaction; and

strong community citizenship.

We believe our focus on creating and maintaining Premier Market Presence has led to a sustained growth of our global franchise network and the RE/MAX brand.

RE/MAX "Growth Engine." The RE/MAX Growth Engine is a virtuous circle whereby all of the key stakeholders in our franchise network — our franchisees, agents and RE/MAX — benefit from mutual investment and participation in the RE/MAX network, or, as we say in RE/MAX, "Everybody wins." By building our leading brand around an agent-centric model, we believe we are able to attract and retain highly productive agents and motivated franchisees. As a result, our agents and franchisees help to further enhance our brand and market share, expand our franchise network, and ultimately grow our revenue, as illustrated below:

The RE/MAX Growth Engine leads to the following unique benefits for our franchisees and agents and RE/MAX:

Table of Contents**Our Franchise Structure**

Franchise Organizational Model. We function under the following franchise organizational model, with nearly all of the RE/MAX branded brokerage office locations being operated by franchisees:

| Franchise Tier | Description |
|-------------------------------------|--|
| RE/MAX | Owns the right to the RE/MAX brand and sells franchises and franchising rights. |
| Regional Franchise Owner | Owns rights to sell brokerage franchises in a specified region. In the U.S. and Canada, RE/MAX owns 12 of 32 regional franchises, representing 43,658 agents, or 55% of our U.S. and Canada agent count as of September 30, 2015. The remaining 20 regional franchises, representing 22,633 agents in the U.S. and 12,994 in Canada, or, combined, about 45% of our U.S. and Canada agent count, are Independent Regions as of September 30, 2015. |
| Franchisee (or Broker-Owner) | Owns right to operate a RE/MAX-branded brokerage office, list properties and recruit agents. 6,886 offices globally, as of September 30, 2015. |
| Agent (or Sales Associate) | Branded independent contractors who operate out of local franchise brokerage offices. 103,491 agents globally, as of September 30, 2015. |

In the early years of our expansion in the U.S. and Canada, we sold regional franchise rights to independent owners for certain Independent Regions while retaining rights to other regions. In recent years, we have pursued a strategy to reacquire regional franchise rights, such as the California-Hawaii, Florida and Carolinas regions in 2007, the Mountain States region in 2011, the Texas region in 2012 and the Central Atlantic and Southwest regions in 2013. Such acquisitions have supported our ability to grow in terms of our number of agents and drive incremental Adjusted EBITDA contribution. For example, following the Texas region acquisition in 2012, the average incremental Adjusted EBITDA contribution from that region for 2013 and 2014 was \$7.3 million per year, and its average growth in agents for 2013 and 2014 was 440 agents per year, compared to 86 agents in 2012.

Franchise Agreements and Relationship Terms. In those regions that are owned by us in the U.S. and Canada, we typically enter into a five-year renewable franchise agreement with franchisees covering a standard set of terms and conditions. For those regions that are independently owned, we enter into a long-term agreement (typically between 15 and 20 years, with up to three renewal periods of equal length) with the Independent Region owner, pursuant to which the regional franchise owner is authorized to enter into franchise agreements with individual franchisees in that region.

In general, the franchisees (or broker-owners) do not receive an exclusive territory except under certain limited circumstances. Prior to opening an office, a franchisee or principal owner is required to attend a four to five day training program at our global headquarters. We maintain a close relationship with our franchisees and provide them with ongoing training via our RE/MAX University® to help them better attract and train agents, market, and operate more effectively. Prospective franchisees, renewing franchisees, and transferees of a franchise are subject to a criminal background check and must meet certain subjective and objective standards, including those related to relevant experience, education, licensing, background, financial capacity, skills, integrity and other qualities of character.

Our Revenue Model

The majority of our revenue is derived from a stable set of fees paid by our agents, franchisees and regional franchise owners.

Table of Contents

Revenue Streams. Our revenue streams are illustrated in the following chart:

Continuing Franchise Fees. In the U.S. and Canada, continuing franchise fees are fixed contractual fees paid monthly by regional franchise owners in Independent Regions or franchisees in Company-owned Regions to RE/MAX based on the number of agents in the franchise region or the franchisee's office.

Annual Dues. Annual dues are the membership fees that agents pay directly to RE/MAX to be a part of the RE/MAX network and use the RE/MAX brand. Annual dues are currently a flat fee of US\$400/CA\$400 per agent annually for our U.S. and Canadian agents.

Broker Fees. Broker fees are assessed to the broker against real estate commissions paid by customers when an agent sells a home. Agents pay a negotiated percentage of these earned commissions to the broker in whose office they work. Broker-owners in turn pay a percentage of the commission to the regional franchisor. Generally, the amount paid by broker-owners to the regional franchisor, which we refer to as the "broker fee," is 1% of the total commission on the transaction. The amount of commission collected by brokers is based primarily on the sales volume of RE/MAX agents, home sale prices in such sales and real estate commissions earned by agents on these transactions. Broker fees therefore vary based upon the overall health of the real estate industry and the volume of existing home sales in particular. This revenue stream is based on sales volume and provides us with incremental upside during a real estate market recovery.

Franchise Sales and Other Franchise Revenue. Franchise sales and other franchise revenue primarily comprises:

Franchise Sales. Franchise sales revenue consists of revenue from sales and renewals of individual franchises from Company-owned Regions and Independent Regions, as well as regional and country master franchises in global markets outside of North America. We receive only a portion of the revenue from the sales and renewals of individual franchises from Independent Regions.

Other Franchise Revenue. Other franchise revenue includes revenue from preferred marketing arrangements and approved supplier programs with third parties, including mortgage lenders and other real estate service providers, as well as event-based revenue from training and other programs, including our annual convention in the U.S.

Table of Contents

Brokerage Revenue. Brokerage revenue principally represents fees assessed by our owned brokerages for services provided to their affiliated real estate agents. Our owned brokerage offices are solely in the U.S. and represent less than 1% of the 3,500 real estate brokerage offices that operate under the RE/MAX brand name in the U.S. as of September 30, 2015.

Revenue per Agent in U.S. and Canada Owned and Independent Regions. We receive a higher amount of revenue per agent in our Company-owned Regions than in our Independent Regions. While both Company-owned Regions and Independent Regions charge relatively similar fees to RE/MAX brokerages and agents, we receive the entire amount of the continuing franchise fee, broker fee and initial franchise and renewal fee in Company-owned Regions, whereas we receive only a portion of these fees in Independent Regions. We generally receive 15%, 20% or 30% of the amount of such fees in Independent Regions, which is a fixed rate in each particular Independent Region established by the terms of the applicable regional franchise agreement. In 2014, the average annual revenue per agent in our Company-owned Regions was approximately \$2,449, whereas the average annual revenue per agent in Independent Regions was approximately \$821.

Franchise and Agent Fee Increases. Given the low fixed infrastructure cost of our franchise model, modest increases in aggregate fees per agent positively affect our profitability. Although we may pursue future opportunities to increase our aggregate fees per agent over time, our strategic focus is to grow agent count through recruiting programs and retention initiatives.

International Revenue. We base our continuing franchise fees, agent dues and broker fees outside the U.S. and Canada on the same structure as our Independent Regions, except that the aggregate level of such fees is substantially lower in these markets than in the U.S. and Canada.

Table of Contents

Our revenue and agent count by geography are illustrated in the following charts:

Free Cash Flow Fuels Growth Catalysts and Return of Capital. Recruiting and retaining agents and selling franchises are at the core of our franchise model. These activities have delivered stable, recurring revenue streams and high operating and Adjusted EBITDA margins. As a result, we generate a significant amount of cash from operations and, due to the low capital expenditure requirements of our business, this has resulted in strong free cash flow, as demonstrated below.

(1) Free cash flow is defined as operating cash flow less capital expenditures. See " Non-GAAP Measures Free Cash Flow" below.

(2) Represents free cash flow less tax and other discretionary non-dividend distributions paid to RIHI, Inc., or "RIHI", to enable RIHI to satisfy its income tax obligations.

(3)

Unencumbered cash generated is defined as free cash flow less distributions to RIHI, quarterly debt principal payments and the annual excess cash flow payment on debt.

S-9

Table of Contents

This free cash flow supports our organic growth and we anticipate that it will support future catalysts to our business, including independent regional acquisitions, strategic reinvestment in the business, and other strategic acquisitions. Strong free cash flow also has allowed us to return capital to shareholders. Since our initial public offering, we have consistently paid quarterly dividends, and we also periodically assess our ability to return additional capital to shareholders, which in the first half of 2015 took the form of a special dividend.

Our Agent-Centric Approach

We believe that our agent-centric approach enables us to attract and retain highly effective agents and motivated franchisees to our network and drive growth in our business and profitability. We have built a franchise model designed to provide the following unique combination of benefits to our franchisees and agents:

Affiliation with the Best Brand in Residential Real Estate. We believe buyers and sellers of real estate are most comfortable doing business with an entity and brand with which they are familiar. We drive brand awareness through transaction activity and visibility in the market. The RE/MAX brand has held number one market share as measured by total residential transaction sides completed by our agents in both the U.S. and Canada since 1999. We reinforce brand awareness through marketing and advertising programs that are supported by promotional campaigns of our franchisees and agents in their local markets. RE/MAX has surpassed all U.S. real estate franchises in television advertising every year from 2002 to 2014, according to Nielsen Monitor-Plus total unequivalized ad impressions among adults of ages from 25 to 54 for ads purchased through nationwide buys (not including Spanish-language television).

Entrepreneurial, High Performance Culture. We attract highly driven professionals through our recruiting and franchise sales efforts. We provide our franchisees and agents with a vast array of industry-leading tools, resources and support, but allow them autonomy to run their businesses independently. Our approach gives them the freedom generally to set commission rates and oversee local advertising in order to best meet the needs of their particular markets and circumstances. As we say to our agents, they are "in business for themselves, but not by themselves."

High Agent Commission Fee Split and Low Franchise Fees. In the RE/MAX franchise network, we recommend to our franchisees an agent-favorable commission split of 95%/5% (with the agent receiving 95%). In exchange for the agent generally retaining a high percentage of commissions, our agents pay the franchise broker a pre-agreed sum to share the overhead and other fixed costs of the brokerage. This model is highly attractive to high-producing agents because it allows them to earn a higher commission compared to traditional brokerages where the broker typically takes 30% to 40% of the agent's commission.

Lead Referral Systems Supported by High Traffic Websites. We provide an attractive lead referral system to our agents free of referral fees. We believe that no other national real estate brand provides their real estate agents comparable access to free leads. Our websites, including remax.com, global.remax.com, theremaxcollection.com and remaxcommercial.com, collectively were visited over 70.0 million times in 2014. Remax.com was the most visited real estate franchise website during the first half of 2015, according to Experian Hitwise Marketing Services data. In addition, the traffic across our websites provides listed properties additional exposure to potential buyers. When a prospective buyer inquires about a property displayed on our websites, or the websites of certain of our regions, offices, and agents, a RE/MAX agent receives this lead through our lead referral system, LeadStreet®, without a referral fee. Our expansive global network of agents also generates traditional agent-to-agent leads, such as when a relocating home seller wants their RE/MAX agent's referral for an agent to help them buy in their new area, or a customer's business needs the specialized assistance of a RE/MAX Commercial® practitioner.

Table of Contents

RE/MAX University® Training Programs. RE/MAX is an industry leader in providing comprehensive education programs for franchisees and agents. In 1994, RE/MAX created the revolutionary RE/MAX Satellite Network, which was the only real estate related educational and training system of its kind for over a decade. In 2007, RE/MAX introduced RE/MAX University®, or RU, which offers worldwide, 24/7, on-demand access to the latest information on key industry topics and is aimed at helping our global network of agents deliver the best service possible to their existing and potential new customers. RE/MAX University further enhances our agent expertise by equipping agents with advanced training in areas such as distressed properties, luxury properties, senior clients, buyer agency and many other specialty areas of real estate.

Our franchise model is designed to attract and retain the most productive and experienced network of agents in real estate. The productivity of our agents is a key driver in the success of our franchisees. This dynamic reinforces itself as high performing agents benefit from being associated with successful brokerage offices in their local markets. Closely-tracked surveys of large brokerages, such as the Real Trends 500 survey and the Real Trends Canadian 250 survey have for several years demonstrated that RE/MAX agents average more transactions per agent than any other national brand in both the U.S. and Canada.

Our Growth Strategy

Source: 2014 Real Trends Canadian 250 Survey of the largest Canadian brokerages, containing 2013 data

We intend to leverage our market leadership in the residential real estate brokerage industry in the U.S. and Canada through various growth initiatives. The key elements of our growth strategy include:

Capitalize on Recovery in the U.S. Residential Real Estate Market and Increase Our Agent Count. Since 2006, the residential real estate industry across the globe, and especially in the U.S., experienced a historic downturn, including a significant decline in the number of agents in the business. The residential real estate market in the U.S. is in a recovery and we are well positioned to capitalize on this trend due, in large part, to our leading brand and the quality of our agent and franchise network. Based on our experience, we believe gradually improving market conditions in the U.S. will enable us to continue to sell franchises and recruit and retain higher numbers of agents, increasing our revenue and profitability. We experienced agent losses during the downturn, but we returned to a period of net agent growth in 2012 and our year-over-year growth in agent count accelerated in 2013, 2014 and the first nine months of 2015. As the housing market continues to improve, we expect the growth in our agent count to continue.

Drive Continuing Franchise Sales Growth and Agent Recruitment and Retention. Our business strategy is to continue to sell franchises and recruit and retain agents:

We sold 832 franchises during the twelve months ended September 30, 2015 and intend to continue adding franchises in new and existing markets, and as a result, increase our global market share and brand awareness. In the U.S., we believe we will increase the sales of our franchises as the U.S. housing recovery continues. We believe we are also well-positioned to further grow the number of our franchises outside the U.S. and Canada, where the growth potential for the RE/MAX brand is substantial, particularly in faster growing international markets.

We intend to continue to focus on recruiting and retaining agents, as each incremental agent leverages our existing infrastructure, allowing us to drive additional revenue at little incremental

cost. We intend to focus on recruitment and retention of agents through a range of new and existing programs and tools, including increasingly targeted marketing and promotional efforts, additional hiring of franchise sales representatives, improved training and development programs for franchisees and agents, and benefits to both agents and franchisees from our network infrastructure such as our high-traffic websites and lead referral system.

Reacquire Independent RE/MAX Regional Franchises. We intend to continue to pursue reacquisitions of the regional RE/MAX franchise rights in a number of Independent Regions in the U.S. and Canada. The reacquisition of a regional franchise substantially increases our revenue per agent and provides an opportunity for us to drive enhanced profitability, as we receive a higher amount of revenue per agent in our Company-owned Regions than in our Independent Regions. For example, we can establish operational efficiencies and improvements in financial performance of a reacquired region by leveraging our existing infrastructure and experience.

While both Company-owned Regions and Independent Regions charge relatively similar fees to their brokerages and agents, we receive the entire amount of the continuing franchise fee, broker fee and initial franchise and renewal fee in Company-owned Regions, whereas we receive a fixed percentage (generally 15%, 20% or 30%) of such fees in Independent Regions, according to the terms of the applicable regional franchise agreement. In 2014, the average annual revenue per agent in our Company-owned Regions was approximately \$2,449, whereas the average annual revenue per agent in Independent Regions was approximately \$821. By reacquiring regional franchise rights, we can capture 100% of the fees referred to above and substantially increase the average revenue per agent for agents in the reacquired region, which, as a result of our low fixed-cost structure, further increases our overall margins.

We currently franchise directly in Company-owned Regions representing 55% of our agents in the U.S. and Canada combined, while the remaining 45% of our U.S. and Canada combined agent count operate in 20 Independent Regions, as of September 30, 2015.

Corporate Structure and Ownership

We are a holding company and our only business is to act as the sole manager of RMCO, LLC, or "RMCO". In that capacity, we operate and control all of the business and affairs of RMCO. As of September 30, 2015, we own 41.03% of the common units in RMCO, while the selling stockholder, RIHI

Table of Contents

owns the remaining 58.97% of common units in RMCO. RIHI is majority owned and controlled by David Liniger, our Chief Executive Officer, Chairman and Co-Founder, and by Gail Liniger, our Vice Chair and Co-Founder. Daryl Jespersen, one of our directors, holds a minority ownership interest in RIHI.

Due to RIHI's approximate 59% equity interest in RMCO, our results reflect a significant non-controlling interest and our pre-tax income represents approximately 41% of RMCO's net income. Our only source of cash flow from operations is in the form of distributions from RMCO and management fees paid by RMCO pursuant to a management services agreement between us and RMCO.

The diagram below depicts our organizational structure:

As of September 30, 2015, the holders of our Class A common stock collectively own 100% of the economic interests in RE/MAX Holdings, Inc. and have 25.81% of the voting power of RE/MAX Holdings, Inc., while RIHI has the remaining 74.19% of the voting power of RE/MAX Holdings, Inc. through ownership of 100% of the outstanding shares of our Class B common stock. The shares of Class B common stock have no economic rights but entitle the holder, without regard to the number of shares of Class B common stock held, to a number of votes on matters presented to stockholders of RE/MAX Holdings, Inc. that is equal to two times the aggregate number of common units of RMCO held by such

holder. As a result of RIHI's ownership of shares of our Class B common stock, it holds effective control of a majority of the voting power of our outstanding common stock and we constitute a "controlled company" under the corporate governance standards of the New York Stock Exchange and therefore are not required to comply with certain corporate governance requirements.

After giving effect to the sale by RIHI of all shares offered by this prospectus supplement, as of September 30, 2015, we would have owned 55.99% of the common units in RMCO and the holders of our Class A common stock would have held 38.88% of the voting power of RE/MAX Holdings, Inc. RIHI would have owned 44.01% of the common units in RMCO and held 61.12% of the voting power of RE/MAX Holdings, Inc. This balance of economic interest and voting power, as of September 30, 2015, with and without giving effect to the sale of shares offered by this prospectus supplement (without giving effect to the underwriters' option to purchase additional shares), is illustrated below:

Because RIHI would continue to control a majority of the voting power of our outstanding common stock after giving effect to the sale of all shares offered by this prospectus supplement, we expect to continue to be a "controlled company" under the corporate governance standards of the New York Stock Exchange. RIHI's voting rights will be reduced to equal the aggregate number of RMCO common units it holds after any of the following events: (i) October 7, 2018; (ii) the death of the Company's Chief Executive Officer, Chairman and Co-Founder David Liniger; or (iii) at such time as RIHI's ownership of RMCO common units falls below 5,320,380 common units.

Effect of the Offering on Amounts Payable Pursuant to Tax Receivable Agreement

At the time of our IPO, we entered into separate tax receivable agreements, or "TRAs," with RMCO's historical owners, RIHI and Weston Presidio V., L.P., or "Weston Presidio." During the second quarter of 2015, Weston Presidio assigned, transferred and conveyed to Oberndorf Investments LLC, or "Oberndorf," all of its rights, title and interest in and to, and all of its liabilities and obligations under,

Table of Contents

Weston Presidio's TRA with us, and we entered into a joinder to the TRA on May 29, 2015 with Western Presidio and Oberndorf. Neither the assignment and transfer nor the joinder agreement impacted our financial position, results of operations or cash flows.

This offering is expected to affect the estimated amounts payable pursuant to our TRAs. We previously disclosed in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2015 that, as of September 30, 2015, we estimated that amounts payable pursuant to our TRAs within the next 12 month period will be approximately \$3.9 million. However, the total aggregate amount payable pursuant to the TRAs subsequent to the completion of this offering will increase. The timing and amount of the payments to be made under the TRAs are subject to certain contingencies, including that we must have sufficient taxable income to utilize all of the tax benefits defined in the TRAs. If we elect to terminate the TRAs early, we would be required to make an immediate cash payment equal to the present value of the anticipated future tax benefits that are the subject of the TRAs, which payment may be made significantly in advance of the actual realization, if any, of such future tax benefits.

Non-GAAP Measures

Adjusted EBITDA

Adjusted EBITDA includes adjustments to EBITDA for (gains) losses on sale or disposition of assets and sublease, loss on early extinguishment of debt, non-recurring equity-based compensation, non-cash straight-line rent expense, salaries paid to David Liniger, our Chief Executive Officer, Chairman and Co-Founder, and Gail Liniger, our Vice Chair and Co-Founder, that we discontinued subsequent to our initial public offering (the "IPO"), professional fees and certain non-recurring expenses incurred in connection with the IPO, acquisition integration and professional fees and non-recurring severance and other related charges incurred in connection with the restructuring plan designed to improve efficiencies at our corporate headquarters, the retirement of our former Chief Executive Officer on December 31, 2014, subsequent organizational changes in 2015 and the retirement of our former president on August 19, 2015. See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the year ended December 31, 2014 and "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Quarterly Report on Form 10-Q for the quarter ended September 30, 2015 for further discussion of Adjusted EBITDA and a reconciliation of the differences between Adjusted EBITDA and net income.

The underwriters have informed us that they do not intend sales to discretionary accounts to exceed five percent of the total number of shares of Class A common stock offered by them.

Our Class A common stock is listed on the NYSE under the trading symbol "RMAX."

We, RMCO, the selling stockholder and our directors and executive officers have agreed that, without the prior written consent of the representatives on behalf of the underwriters, we and they will not, during the period ending 75 days after the date of this prospectus supplement (the "restricted period"):

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or redeemable for shares of common stock;

file any registration statement with the SEC relating to the offering of any shares of common stock or any securities convertible into or exercisable or redeemable for common stock; or

enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the common stock,

whether any such transaction described above is to be settled by delivery of common stock or such other securities, in cash or otherwise. In addition, we and each such person agrees that, without the prior written consent of the representatives on behalf of the underwriters, we or such other person will not, during the restricted period, make any demand for, or exercise any right with respect to, the registration of any shares of common stock or any security convertible into or exercisable or redeemable for common stock.

The restrictions described in the immediately preceding paragraph relating to our directors and executive officers do not apply to:

transactions relating to shares of our common stock or other securities acquired in open market transactions after the consummation of this offering, provided that no filing under Section 16(a) of the Exchange Act shall be required or shall be voluntarily made in connection with transfers or dispositions of such shares of common stock or other securities acquired in such open market transactions (other than a filing on Form 5 made after the expiration of the restricted period);

transfers of our common stock or any security convertible into common stock to the spouse, domestic partner, parent, sibling, child or grandchild of such person or to a trust formed for the benefit of such person or of an immediate family member; transfers of shares of our common stock or any security convertible into common stock as a bona fide gift; distributions of shares of our common stock or any security convertible into common stock to limited partners, members, stockholders or affiliates of such person or to any investment fund or other entity controlled or managed by, or under common control or management with, such person; or as a distribution by a

transfers of our common stock or any securities convertible into or exercisable or exchangeable for common stock to us, pursuant to agreements under which we have the option to repurchase such shares or securities or a right of first refusal with respect to transfers of such shares or securities, provided that unless such transfers are pursuant to our option to repurchase in the event of termination or resignation of an employee, no filing under Section 16(a) of the Exchange Act shall be required or shall be voluntarily made in connection with such transfers (other than a filing on Form 5 made after the expiration of the restricted period);

in the case of certain of our officers, the disposition of shares of common stock to us in a transaction solely in connection with the payment of taxes due with respect to the net settlement of restricted stock units, provided that such restricted stock unit was outstanding prior to the date of this prospectus supplement pursuant to a plan or agreement disclosed in this prospectus supplement, and provided further that any public report or filing under Section 16(a) of the Exchange Act relating to the disposition of shares of common stock to us in a transaction pursuant to this clause shall clearly indicate in the footnotes thereto that such disposition of shares was solely to us; or

the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act, for the transfer of shares of our common stock, provided that (i) such plan does not provide for the transfer of common stock during the restricted period and (ii) to the extent a public announcement or filing under the Exchange Act, if any, is required or voluntarily made regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of common stock may be made under such plan during the restricted period.

the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act, for the transfer of shares of our common stock, provided that (i) such plan does not provide for the transfer of common stock during the restricted period and (ii) to the extent a public announcement or filing under the Exchange Act, if any, is required or voluntarily made regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of common stock may be made under such plan during the restricted period;

the sale or issuance of or entry into an agreement to sell or issue shares of common stock or securities convertible into or exercisable for common stock in connection with any (i) mergers, (ii) acquisition of businesses or franchise rights, (iii) joint ventures or (iv) strategic alliances, provided, that the aggregate number of shares of common stock shall not exceed 10% of the total number of shares of our common stock on a fully diluted basis immediately following this offering and, provided further, that the recipient of any such securities issued shall be subject to restrictions substantially similar to those applicable to holders of our outstanding stock as described above.

The representatives, in their sole discretion, may release the Class A common stock and other securities subject to the lock-up agreements described above in whole or in part at any time with or without notice.

In order to facilitate the offering of the Class A common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Class A common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option to purchase additional shares. The underwriters can close out a covered short sale by exercising the option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option to purchase additional shares. The underwriters may also sell shares in excess of the option, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Class A common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of Class A common stock in the open market to stabilize the price of the Class A common stock. These activities may raise or maintain the market price of the Class A common stock above independent market levels or prevent or delay a decline in the market price of the Class A common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We, the selling stockholder and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of shares of Class A common stock to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the "SEC", using a "shelf" registration or continuous offering process. Under this shelf process, the selling stockholder may from time to time sell the shares of Class A common stock described in this prospectus in one or more offerings. Additionally, under the shelf process, in certain circumstances, we may provide a prospectus supplement that will contain certain specific information about the terms of a particular offering by the selling stockholder. We may also provide a prospectus supplement to add information to, or update or change information contained in this prospectus.

You should rely only on the information contained or incorporated by reference into this prospectus or any applicable prospectus supplement. We have not, and the selling stockholder has not, authorized anyone to provide you with different information. The selling stockholder is offering to sell, and seeking offers to buy, shares of our Class A common stock only in jurisdictions where it is lawful to do so. The information in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of our Class A common stock.

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere or incorporated by reference into this prospectus. Because it is a summary, it does not contain all of the information that you should consider before investing in our securities. You should read this entire prospectus carefully, as well as the risks described under "Risk Factors" in Item 1A of our most recent Annual Report on Form 10-K and Item 1A of any subsequently filed Quarterly Reports on Form 10-Q, the information under "Management's Discussion and Analysis of Financial Condition and Results of Operations" also found in such reports and the other information contained or incorporated by reference in this prospectus, before making an investment decision.

In this document, unless the context requires otherwise, "we," "our," "us" and the "Company" refer to RE/MAX Holdings, RMCO and RMCO's subsidiaries.

Corporate Structure and Ownership

We are a holding company and our only business is to act as the sole manager of RMCO. In that capacity, we operate and control all of the business and affairs of RMCO. As of September 30, 2015, we own 41.03% of the common units in RMCO, while the selling stockholder, RIHI, Inc., or "RIHI", owns the remaining 58.97% of common units in RMCO. RIHI is majority owned and controlled by David Liniger, our Chief Executive Officer, Chairman and Co-Founder, and by Gail Liniger, our Vice Chair and Co-Founder. Daryl Jespersen, one of our directors, holds a minority ownership interest in RIHI.

Due to RIHI's approximate 59% equity interest in RMCO, our results reflect a significant non-controlling interest and our pre-tax income represents approximately 41% of RMCO's net income. Our only source of cash flow from operations is in the form of distributions from RMCO and management fees paid by RMCO pursuant to a management services agreement between us and RMCO.

Table of Contents

The diagram below depicts our organizational structure (and percentages of voting power and common unit ownership, as of September 30, 2015):

As of September 30, 2015, the holders of our Class A common stock collectively own 100% of the economic interests in RE/MAX Holdings, Inc. and have 25.81% of the voting power of RE/MAX Holdings, Inc., while RIHI has the remaining 74.19% of the voting power of RE/MAX Holdings, Inc. through ownership of 100% of the outstanding shares of our Class B common stock. The shares of Class B common stock have no economic rights but entitle the holder, without regard to the number of shares of Class B common stock held, to a number of votes on matters presented to stockholders of RE/MAX Holdings, Inc. that is equal to two times the aggregate number of common units of RMCO held by such holder. As a result of RIHI's ownership of shares of our Class B common stock, it holds effective control of a majority of the voting power of our outstanding common stock and we constitute a "controlled company" under the corporate governance standards of the New York Stock Exchange and therefore are not required to comply with certain corporate governance requirements.

After giving effect to the sale by RIHI of all shares offered by this prospectus, the holders of our Class A common stock would have held 49.22% of the voting power of RE/MAX Holdings, Inc. as of September 30, 2015, while RIHI would have held the remaining 50.78% of the voting power of

Table of Contents

RE/MAX Holdings, Inc. Because RIHI would continue to control a majority of the voting power of our outstanding common stock after giving effect to the sale of all shares offered by this prospectus, we expect to continue to be a "controlled company" under the corporate governance standards of the New York Stock Exchange following the completion of the sale of all shares offered by this prospectus.

RISK FACTORS

An investment in our Class A common stock involves risks. You should carefully consider the risk factors incorporated by reference from our Annual Report on Form 10-K for the year ended December 31, 2014, together with all of the other information contained or incorporated by reference in this prospectus before purchasing shares of our Class A common stock from the selling stockholder. The occurrence of any of the events described could materially and adversely affect our business, prospects, financial condition, results of operations and our ability to make cash distributions to our stockholders, which could cause you to lose all or a significant part of your investment in our Class A common stock. Some statements in this prospectus constitute forward-looking statements. Please refer to the section entitled "Forward-Looking Statements."

Risks Related to This Offering

The substantial number of shares that are eligible for sale could cause the market price for our Class A common stock to decline or make it difficult for us to sell equity securities in the future.

The selling stockholder effectively owns more than 50% of our shares of Class A common stock as a result of its ownership of common units in RMCO (which units are redeemable at the selling stockholder's election for, at our option, newly issued shares of our Class A common stock on a one-for-one basis or a cash payment equal to the market price of one share of our Class A common stock). Expectations that shares of our Class A common stock may be sold by the selling stockholder could create an "overhang" that may adversely affect the market price for our Class A common stock.

We cannot predict the effect on the market price of our Class A common stock from time to time as a result of (i) sales by the selling stockholder of some or all of the 7,500,000 shares of our Class A common stock under this prospectus, (ii) the availability of such shares of Class A common stock for sale by the selling stockholder, or (iii) the perception that such shares or additional shares of our Class A common stock may be offered for sale by the selling stockholder. Sales of substantial amounts of shares of our Class A common stock in the public market, or the perception that those sales will occur, could cause the market price of our Class A common stock to decline or make future offerings of our equity securities more difficult. Any sale, or perceived impending sale, of a substantial number of shares of our Class A common stock could cause our stock price to fluctuate or decline.

There are 12,339,639 shares of our Class A common stock outstanding at October 23, 2015. The 7,500,000 shares of Class A common stock that may be sold under this prospectus represent a substantial additional number of shares of our Class A common stock that would be outstanding after this offering is completed.

Our Class A common stock price may be volatile or may decline regardless of our operating performance and you may not be able to resell your shares at or above the price you paid for them.

Many factors, which are outside our control, may cause the market price of our Class A common stock to fluctuate significantly, including the following:

our operating and financial performance and prospects;

our quarterly or annual earnings or those of other companies in our industry compared to market expectations;

conditions that impact demand for our services, including the condition of the U.S. residential housing market unrelated to our performance;

future announcements concerning our business or our competitors' businesses;

the public's reaction to our press releases, other public announcements and filings with the SEC;

Table of Contents

the size of our public float;

coverage by or changes in financial estimates by securities analysts or failure to meet their expectations;

market and industry perception of our success, or lack thereof, in pursuing our growth strategy;

strategic actions by us or our competitors, such as acquisitions or restructurings;

changes in government regulation;

housing and mortgage finance markets;

changes in accounting standards, policies, guidance, interpretations or principles;

changes in senior management or key personnel;

issuances, exchanges or sales, or expected issuances, exchanges or sales of our capital stock;

adverse resolution of new or pending litigation against us;

changes in general market, economic and political conditions in the U.S. and global economies or financial markets, including those resulting from natural disasters, terrorist attacks, acts of war and responses to such events; and

material weakness in our internal control over financial reporting.

Volatility in the market price of our Class A common stock may prevent investors from being able to sell their Class A common stock at or above the price they paid for the stock. In addition, price volatility may be greater if the public float and trading volume of our Class A common stock is low. As a result, you may suffer a loss on your investment.

An active trading market for our Class A common stock may not always exist.

Prior to our initial public offering and the listing of our Class A common stock on the New York Stock Exchange on October 7, 2013, there had not been a public market for our Class A common stock. We cannot predict the extent to which investor interest in our Class A common stock will continue or how liquid the trading market in our shares might become. The shares of Class A common stock available for trading on the New York Stock Exchange before giving effect to any sales of shares under this prospectus represent approximately 40% of the economic interests in our Class A common stock and the remaining 60% of the economic interests are held by RIHI through its ownership of common units in RMCO. As a result, the market for our shares may be less liquid than the market for shares of other public companies and there may be imbalances between supply and demand for our shares. Our share price may therefore experience significant volatility and may not necessarily reflect the value of our expected performance. If an active trading market does not exist, you may have difficulty selling any of our Class A common stock that you buy. Consequently, you may not be able to sell our Class A common stock at prices equal to or greater than the price you paid.

USE OF PROCEEDS

The proceeds from the sale or other disposition of the Class A common stock covered by this prospectus are solely for the accounts of the selling stockholder. We will not receive any proceeds from any sale or other disposition of these shares of Class A common stock by the selling stockholder.

DETERMINATION OF OFFERING PRICE

This offering is being made solely to allow the selling stockholder to offer and sell shares of our Class A common stock to the public. The selling stockholder may offer for sale some of its shares at the time and price that it chooses. On any given day, the price per share is likely to be based on the market price of our Class A common stock, as quoted on the New York Stock Exchange on the date of sale, unless shares are sold in private transactions. Consequently, we cannot currently determine the price at which the shares offered for resale pursuant to this prospectus may be sold.

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 180,000,000 shares of Class A common stock, par value \$0.0001 per share, 1,000 shares of Class B common stock, par value \$0.0001 per share, and 10,000,000 shares of preferred stock, par value \$0.0001 per share. The following description of our capital stock is a summary and is qualified in its entirety by reference to our certificate of incorporation and bylaws, the forms of which are filed as exhibits to the registration statement of which this prospectus forms a part, and by applicable law. Unless our board of directors determines otherwise, we will issue all shares of our capital stock in uncertificated form.

Common Stock

Class A common stock

Holders of shares of our Class A common stock are entitled to one vote for each share held of record on all matters submitted to a vote of stockholders.

Holders of shares of our Class A common stock are entitled to receive dividends when and if declared by our board of directors out of funds legally available therefor, subject to any statutory or contractual restrictions on the payment of dividends and to any restrictions on the payment of dividends imposed by the terms of any outstanding preferred stock.

Upon our dissolution or liquidation or the sale of all or substantially all of our assets, after payment in full of all amounts required to be paid to creditors and to the holders of preferred stock having liquidation preferences, if any, the holders of shares of our Class A common stock will be entitled to receive pro rata our remaining assets available for distribution.

Holders of shares of our Class A common stock do not have preemptive, subscription, redemption or conversion rights.

Class B common stock

Each holder of Class B common stock shall be entitled, without regard to the number of shares of Class B common stock held by such holder, to two votes for each common unit in RMCO held by such holder. RIHI is the sole owner of our Class B common stock. As a result of its ownership of the Class B common stock, RIHI has a number of votes in RE/MAX Holdings, Inc. that is equal to two times the aggregate number of common units that it holds in RMCO.

The voting rights of the Class B common stock will be reduced from two votes for each common unit in RMCO held to one vote upon the earliest of the following dates: (i) October 7, 2018; (ii) at the time of the death of the Company's Chief Executive Officer, Chairman and Co-Founder David Liniger; or (iii) at such time as RIHI's ownership of RMCO common units falls below 5,320,380 common units. In the event that any common units of RMCO are validly transferred in accordance with the terms of the RMCO's fourth amended and restated limited liability company operating agreement, or the "restated RMCO LLC agreement", to a transferee other than David Liniger, the voting rights of the corresponding shares of Class B common stock transferred will also be reduced to one times the aggregate number of RMCO common units held by such transferee.

Holders of shares of our Class A common stock and Class B common stock vote together as a single class on all matters presented to our stockholders for their vote or approval, except as otherwise required by applicable law.

Holders of our Class B common stock do not have any right to receive dividends or to receive a distribution upon a dissolution or liquidation or the sale of all or substantially all of our assets. Additionally, holders of shares of our Class B common stock do not have preemptive, subscription, redemption or conversion rights.

Preferred Stock

Our certificate of incorporation authorizes our board of directors to establish one or more series of preferred stock (including convertible preferred stock). Unless required by law or by any stock exchange, the authorized shares of preferred stock will be available for issuance without further action by you. Our board of directors is able to determine, with respect to any series of preferred stock, the terms and rights of that series, including:

the designation of the series;

the number of shares of the series, which our board may, except where otherwise provided in the preferred stock designation, increase or decrease, but not below the number of shares then outstanding;

whether dividends, if any, will be cumulative or non-cumulative and the dividend rate of the series;

the dates at which dividends, if any, will be payable;

the redemption rights and price or prices, if any, for shares of the series;

the terms and amounts of any sinking fund provided for the purchase or redemption of shares of the series;

the amounts payable on shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding-up of the affairs of our company;

whether the shares of the series will be convertible into shares of any other class or series, or any other security, of our company or any other entity, and, if so, the specification of the other class or series or other security, the conversion price or prices or rate or rates, any rate adjustments, the date or dates as of which the shares will be convertible and all other terms and conditions upon which the conversion may be made;

restrictions on the issuance of shares of the same series or of any other class or series; and

the voting rights, if any, of the holders of the series.

We could issue a series of preferred stock that could, depending on the terms of the series, impede or discourage an acquisition attempt or other transaction that some, or a majority, of you might believe to be in your best interests or in which you might receive a premium for your shares of Class A common stock over the market price of the shares of Class A common stock.

Options and Other Equity Awards

Our certificate of incorporation authorizes us to issue shares of Class A common stock and options, rights, warrants and appreciation rights relating to Class A common stock for the consideration and on the terms and conditions established by our board of directors in its sole discretion, whether in connection with acquisitions or otherwise. As of September 30, 2015, we had (i) options to purchase 88,057 shares of Class A common stock outstanding under our 2013 Omnibus Incentive Plan, or Incentive Plan, (ii) 111,988 shares of Class A common stock subject to restricted stock units outstanding under our Incentive Plan, and (iii) an additional 1,930,704 shares available for issuance pursuant to future grants of equity under the Incentive Plan.

Controlled Company

Edgar Filing: RE/MAX Holdings, Inc. - Form 424B4

As a result of the voting rights of the Class B common stock held by RIHI, we qualify as a "controlled company" under the corporate governance standards of the New York Stock Exchange. As

Table of Contents

a controlled company, we are not required to comply with certain corporate governance requirements, including the requirements that:

a majority of our board of directors consists of "independent directors," as defined under the rules of the New York Stock Exchange;

we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and

we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.

We expect RIHI to continue to control a majority of the voting power of our outstanding common stock after the sale of all of the shares of Class A common stock offered by this prospectus and therefore that we will continue to be a "controlled company" under the governance standards of the New York Stock Exchange.

Antitakeover Effects of Delaware Law and Our Certificate of Incorporation and Bylaws

Our certificate of incorporation and bylaws also contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give our board of directors the power to discourage acquisitions that some stockholders may favor.

Undesignated Preferred Stock

The authorization of undesignated preferred stock in our certificate of incorporation will make it possible for our board of directors to issue preferred stock with super voting, special approval, dividend or other rights or preferences on a discriminatory basis that could impede the success of any attempt to acquire us. These and other provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of our company.

Classified Board of Directors

Our certificate of incorporation provides that our board of directors will be divided into three classes, with each class serving three-year staggered terms. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of our company.

Requirements for Advance Notification of Stockholder Meetings, Nominations and Proposals

Our certificate of incorporation provides that special meetings of the stockholders may be called only by a resolution adopted by the affirmative vote of the majority of the directors then in office. Our bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting. In addition, any stockholder who wishes to bring business before an annual meeting or nominate directors must comply with the requirements set forth in our bylaws. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers or changes in control or management of our company.

Table of Contents

Stockholder Action by Written Consent

Pursuant to Section 228 of the Delaware General Corporation Law, or the DGCL, any action required to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote if a consent or consents in writing, setting forth the action so taken, is signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our stock entitled to vote thereon were present and voted, unless our company's certificate of incorporation provides otherwise. Our certificate of incorporation provides that, after the date on which RIHI no longer has voting power over a majority of the outstanding shares of our Class A and Class B common stock, any action required or permitted to be taken by our stockholders may be effected at a duly called annual or special meeting of our stockholders and may not be effected by consent in writing by such stockholders.

No Cumulative Voting

The DGCL provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our amended and restated certificate of incorporation provides otherwise. Our certificate of incorporation does not expressly provide for cumulative voting.

Business Combinations with Interested Stockholders

We have elected in our certificate of incorporation not to be subject to Section 203 of the DGCL, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation's voting stock for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, we are not subject to any anti-takeover effects of Section 203. However, our certificate of incorporation contains provisions that have the same effect as Section 203, except that they provide that RIHI and any person to whom RIHI sells its common stock will not be subject to the restrictions set forth in these provisions.

Transfer Agent and Registrar

The transfer agent and registrar for our Class A common stock is Broadridge Financial Solutions, Inc.

Exchange Listing

Our Class A common stock is listed on the New York Stock Exchange under the symbol "RMAX".

SELLING STOCKHOLDER

The selling stockholder, RIHI, is a founding member of RMCO, which holds our operating company indirect subsidiaries. RIHI is a Delaware corporation that is majority owned and controlled by David Liniger, our Chief Executive Officer, Chairman and Co-Founder, and Gail Liniger, our Vice Chair and Co-Founder. Daryl Jespersen, one of our directors, holds a minority ownership interest in RIHI. On October 7, 2013, we issued and sold 11,500,000 shares of our Class A common stock at a public offering price of \$22.00 per share in our IPO and became a member and the sole manager of RMCO. We are a holding company and, as of September 30, 2015, we own 41.03% of the common units in RMCO, while RIHI owns the remaining 58.97% of common units in RMCO. For additional information regarding relationships between us and the selling stockholder, see "Certain Relationships and Related Party Transactions" in our Definitive Proxy Statement on Schedule 14A filed with the SEC on March 27, 2015, which is incorporated by reference into this prospectus.

The common units were issued as "restricted securities" under the Securities Act and are subject to certain restrictions on transfer under the RMCO LLC agreement. In general, the common units can be exchanged for our Class A common stock on a one-to-one basis, except if we exercise our option to exchange the common units for cash. This prospectus covers the offer and sale or other disposition by the selling stockholder of 7,500,000 shares of Class A common stock issuable to the selling stockholder upon exchange of 7,500,000 common units. We do not expect to exercise our option to exchange such 7,500,000 common units for cash. As detailed further below, 7,500,000 common units comprises only a portion of the selling stockholder's total holdings.

We have registered the above-referenced 7,500,000 shares to permit the selling stockholder and its pledgees, donees, transferees or other successors-in-interest that, after the date of this prospectus, receive shares of Class A common stock issued upon exchange of their common units to resell or otherwise dispose of the shares in the manner contemplated under the "Plan of Distribution."

The selling stockholder may exchange some, all or none of its common units for shares of Class A common stock (subject to our option to exchange units for cash), and it may sell some, all or none of its shares of Class A common stock. Other than our obligation to register the shares for resale pursuant to the registration rights agreement, we currently have no agreements, arrangements or understandings with the selling stockholder regarding the sale of any of the shares. The shares of Class A common stock offered by this prospectus may be offered from time to time by the selling stockholder. As part of the original agreement with the selling stockholder at the time of the IPO, we have agreed to, upon request, use reasonable best efforts to keep a registration statement effective for the selling stockholder until the earlier of (a) such time as all the shares owned by the selling stockholder as a consequence of its exchange and conversion of the common units have been disposed of by the selling stockholder or (b) all such shares may be sold by the selling stockholder without limitation or restriction within a three-month period in compliance with Rule 144. The selling stockholder has not requested that all shares issuable in exchange for the entirety of the selling stockholder's common units be registered and this registration statement does not cover all such shares issuable to the selling stockholder in exchange of the entire of its common units. The Company will file a prospectus supplement setting forth any sale plans prior to any sale or other disposition of the selling stockholder's shares pursuant to this registration statement.

The following table sets forth the name of the selling stockholder, the number of shares beneficially owned (through exchange rights associated with the common units) by the selling stockholder, the number of shares that may be offered under this prospectus and the number of shares of our Class A common stock to be owned by the selling stockholder after this offering is completed. The number of shares in the column "Number of Shares Being Offered" represents all of the shares that the selling stockholder may possibly offer under this prospectus.

Table of Contents

Beneficial ownership of a security is determined in accordance with the rules and regulations of the SEC. Under these rules, a person is deemed to beneficially own a share of our Class A common stock if that person has or shares voting power or investment power with respect to that share, or has the right to acquire beneficial ownership of that share within 60 days, including through the exercise of any option or other right or the conversion of any other security. Shares issuable under stock options and warrants not subject to this offering are deemed outstanding for computing the percentage of the person holding options or warrants but are not deemed outstanding for computing the percentage of any other person. As of September 30, 2015, the percentage of beneficial ownership for the following table is based upon 12,339,639 shares of capital stock (excluding certain options) outstanding of RE/MAX Holdings and 30,074,239 common units of RMCO outstanding, of which 12,339,639 are owned by RE/MAX Holdings.

| Name | Shares Beneficially Owned Prior to Offering(1) | | Number of Shares Being Offered(1) | Shares Beneficially Owned After Offering(2) | |
|---------|--|------------|-----------------------------------|---|------------|
| | Number of Shares | % of Class | | Number of Shares | % of Class |
| RIHI(3) | 17,734,600 | 58.97% | 7,500,000 | 10,234,600 | 34.03% |

(1) Assumes exchange of all of the holder's common units into shares of Class A common stock on a one-to-one basis.

(2) Assumes all offered shares are sold and beneficial ownership of any additional shares or securities that are convertible or exchangeable into shares are not acquired. The registration of these shares does not necessarily mean that the selling stockholder will sell all or any portion of the shares covered by this prospectus.

(3) RIHI is majority owned and controlled by David Liniger, our Chief Executive Officer, Chairman and Co-Founder and Gail Liniger, our Vice Chair and Co-Founder. As such, Mr. and Mrs. Liniger have dispositive, voting and investment control over the common units held by RIHI. Daryl Jespersion, one of our directors, holds a minority ownership interest in RIHI.

PLAN OF DISTRIBUTION

We are registering the shares of our Class A common stock covered by this prospectus to permit the selling stockholder to resell these securities from time to time after the date of this prospectus. We will not receive any of the proceeds from the offering of the shares of our Class A common stock by the selling stockholder. We have been advised by the selling stockholder that the selling stockholder or pledgees, donees or transferees of, or other successors in interest to, the selling stockholder may sell all or a portion of the 7,500,000 shares of our Class A common stock beneficially owned by them and offered hereby from time to time either directly, or through underwriters, broker-dealers or agents, who may act solely as agents or who may acquire the shares of our Class A common stock as principals or as both, and who may receive compensation in the form of discounts, commissions or concessions from the selling stockholder or from the purchasers of our Class A common stock for whom they may act as agent (which compensation as to a particular broker-dealer may be less than or in excess of customary commissions). We anticipate that the selling stockholder will determine the timing, manner and size of any sale of shares of Class A common stock pursuant to this prospectus.

Unless otherwise permitted by law, if shares of our Class A common stock are to be sold pursuant to this prospectus by pledgees, donees or transferees of, or other successors in interest to, the selling stockholder, then we must file a prospectus supplement or an amendment to this registration statement under applicable provisions of the Securities Act amending it to include such pledgee, donee, transferee or other successors in interest as selling stockholder under this prospectus.

Determination of Offering Price by the Selling Stockholder

Except as may be described in any prospectus supplement accompanying this prospectus, the selling stockholder may offer its shares of our Class A common stock pursuant to this prospectus from time to time at fixed prices, which may be changed, at prevailing market prices at the time of sale, at varying prices determined at the time of sale, or at negotiated prices. The prices will be determined by the selling stockholder or by agreement between the selling stockholder and underwriters or dealers.

Our Class A common stock is listed on the New York Stock Exchange under the symbol "RMAX." The public price at which our shares trade in the future might be below the prevailing market price at the time the registration statement of which this prospectus is a part is declared effective. In determining the prices at which the selling stockholder may offer its shares of our Class A common stock from time to time pursuant to this prospectus, we expect the selling stockholder to consider a number of factors in addition to prevailing market conditions, including, among others:

the information set forth in this prospectus and otherwise available to the selling stockholder;

the history of and prospects for our industry;

an assessment of our management;

our present operations;

the trend of our revenues and earnings;

our earnings prospects;

the price of similar securities of generally comparable companies; and

other factors deemed relevant.

Edgar Filing: RE/MAX Holdings, Inc. - Form 424B4

The aggregate proceeds to the selling stockholder from the sale of the shares of Class A common stock offered by it hereby will be the purchase price of the shares of our Class A common stock less discounts and commissions, if any, paid by the selling stockholder.
