Exhibit 1

Letter sent to Management and the Directors October 10, 2001

Karpus Management, Inc. (d.b.a. Karpus Investment Management) as of September 30, 2001 represents beneficial ownership of 429,215 shares of Cornerstone Strategic Value Fund, Inc. (CLM) (the "Fund").

We have accumulated shares in the Fund since October 23, 1989 on behalf of our various client portfolios. Also, we have filed a Schedule 13D with the Securities and Exchange Commission since October 8, 1999 and continue to file on a monthly basis.

I am writing to the Fund and the Directors to express my disappointment with the new management and Directors of the Fund. I believe that other shareholders would share my sentiments.

It is extremely disappointing that the wide discount of the Fund has not been addressed by management. Even with new management of the Fund, the discount was -23.25%, as of September 28, 2001. The discount has averaged -15.06% for the time period of Oct. 6, 2000 through September 27, 2001. This extreme discount must be addressed and closed. The share buy-back program is not enough to narrow the discount.

Performance of the Fund, in my opinion, is dismal. The total return based on The net asset value of the Fund has equaled -44.3149% for the holding period From October 5, 2000 through September 27, 2001. Price return for the same period has equaled -47.2842%.

Cornerstone Advisors was approved as the new investment manager of the Fund as of February 9, 2001. I believed that this group would address the past concerns of the shareholders. Instead it appears that nothing has changed. Price performance of the Fund from Feb. 9, 2001 through Sept. 27, 2001 has been -30.281%, or an annual equivalent of -42.6117%. Net asset performance has been -32.6972% (annual equivalent of -46.4969%) for the same period. This inferior price and net asset value performance, in my opinion, is not and should not be acceptable to the shareholders.

## Edgar Filing: KARPUS MANAGEMENT INC - Form SC 13D/A

Methods of closing the discount, such as periodic tenders for shares, should be explored by the Fund and its' Directors. Periodic tenders have the ability to close persistent deep discounts. Open-ending the Fund would completely eliminate the discount.

It is my hope that management is sympathetic to the concerns of the shareholders and further, that we may explore together the methods in which Fund performance may be improved and the deep discount of the Fund may be addressed.
