Castex informed Gulfport that the investment had paid out effective September 1, 2001. In lieu of a 25% interest in the partnership, Gulfport elected to take a proportionately reduced 25% working interest in the properties. During March, 2002 the Company received

approximately \$220,000 from Castex which the Company believes consists of sales income for the period after payout net of operating expenses, although the Company has not received confirmation of such. Also not included in the calculation of 2002 diluted earnings per share are 108,625 warrants issued in connection with the Company's revolving line of credit with Gulfport Funding, which was retired during March 2002. These potential common shares were not considered in the calculation due to their anti-dilutive effect during the periods presented.

8. COMMITMENTS

Plugging and Abandonment Funds

In connection with the acquisition of the remaining 50% interest in the WCBB properties, the Company assumed the obligation to contribute approximately \$18,000 per month through March, 2004, to a plugging and abandonment trust and the obligation to plug a minimum of 20 wells per year for 20 years commencing March 11, 1997. Texaco retained a security interest in production from these properties until abandonment obligations to Texaco have been fulfilled. Once the plugging and abandonment trust is fully funded, the Company can access it for use in plugging and abandonment charges associated with the property. As of March 31, 2002, the plugging and abandonment trust totaled \$2,335,000, including interest received during 2002 of approximately \$8,000.

During March 2002, Gulfport began to fulfill its yearly plugging commitment of 20 wells at WCBB for the twelve-month period ending March 31, 2002. As of the date of this filing, the plugging had been completed.

9. PRIVATE PLACEMENT OFFERING

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

In March 2002, the Company commenced a Private Placement Offering of \$10 million dollars consisting of 10,000 Units. Each Unit consists of (i) one (1) share of Cumulative Preferred Stock, Series A, of the Company (Preferred) and (ii) a warrant to purchase up to 250 shares of common stock, par value \$0.01 per share. Dividends accrue on the Preferred prior to the Mandatory Redemption Date (as defined below) at the rate of 12% per annum payable quarterly in cash or, at the option of the Company for a period not to exceed two (2) years from the Closing Date, payable in whole or in part in additional shares of the Preferred based on the Liquidation Preference (as defined below) of the Preferred at the rate of 15% per annum. No other dividends shall be declared or shall accrue on the Preferred. To the extent funds are legally available, the Company is obligated to declare and pay the dividends on the Preferred. The Warrants have a term of ten (10) years and an exercise price of \$4.00. The Company is required to redeem the Preferred on the fifth anniversary of the first issuance and the Company may at its sole option, choose to redeem the Preferred at any time before the expiration of the five years. Accordingly, the Preferred issued in connection with this Offering is treated as redeemable stock in the accompanying balance sheet.

Two-thirds of the Preferred Stockholders can affect any Company action, which would effect their preference position. The Preferred cannot be sold or transferred by its holders and the Company must use its best efforts to register with the Securities and Exchange Commission ("SEC") the common stock issued in connection with the exercise of the Warrants or, if possible, piggyback the issued common stock if the Company participates in a public offering with the SEC.

The Offering was made available to stockholders and affiliates of the Company as of December 31, 2001 who were known to be accredited investors by the Company. Purchasers were able to participate up to their pro rata share of ownership in the Company as of December 31, 2001. The Offering's initial closing began March 29, 2002 and continued until April 15, 2002, with a total subscription of \$9,289,000 or 9,288.84 units. Mike Liddell, the Company's Chief Executive Officer, shall have until September 30, 2002 to subscribe for his proportionate share of the Offering.

On March 29, 2002, Gulfport Funding, LLC, participated in the Offering through a conversion of its \$3.0 million dollar loan along with the accumulated interest due from the Company for 3,262.98 Units. Additionally, on March 29, 2002 entities controlled by the majority shareholder initially funded a share of the Preferred Offering in the amount of \$2,738,000.

10. DIVIDENDS ON SERIES A PREFERRED STOCK

As discussed in Note 9, the Company may, at its option, accrue additional shares of Preferred for the payment of dividends at a rate of 15% per annum rather than accrue cash dividends payable at a rate of 12% per annum during the initial two years following the closing date of its Offering. The Company has chosen to do such for the three-month period ended March 31, 2002 and has therefore accrued 5 additional shares payable as of that date related to the Preferred Stock Series A shares issued and outstanding during that time period.

11. RECLASSIFICATIONS

Certain reclassifications have been made to the 2001 financial statements presentation in order to conform to the 2002 financial statements presentation.

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

FINANCIAL POSITION AND RESULTS OF OPERATIONS DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Form 10-Q includes "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). All statements, other than statements of historical facts, included in this Form 10-Q that address activities, events or developments that Gulfport Energy Corporation ("Gulfport" or the "Company"), a Delaware corporation, expects or anticipates will or may occur in the future, including such things as estimated future net revenues from oil and gas reserves and the present value thereof, future capital expenditures (including the amount and nature thereof), business strategy and measures to implement strategy, competitive strengths, goals, expansion and growth of the Company's business and operations, plans, references to future success, references to intentions as to future matters and other such matters are forward-looking statements. These statements are based on certain assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments as well as other factors it believes are appropriate in the circumstances. However, whether actual results and developments will conform with the Company's expectations and predictions is subject to a number of risks and uncertainties; general economic, market or business conditions; the opportunities (or lack thereof) that may be presented to and pursued by the Company; competitive actions by other oil and gas companies; changes in laws or regulations; and other factors, many of which are beyond the control of the Company. Consequently, all of the forward-looking statements made in this Form 10-Q are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated by the Company will be realized, or even if realized, that they will have the expected consequences to or effects on the Company or its business or operations.

The following discussion is intended to assist in an understanding of the Company's financial position as of March 31, 2002 and its results of operations for the three-month periods ended March 31, 2002 and 2001. The Financial Statements and Notes included in this report contain additional information and should be referred to in conjunction with this discussion. It is presumed that the readers have read or have access to Gulfport Energy Corporation's 2001 annual report on Form 10-K.

Overview

Gulfport is an independent oil and gas exploration and production company with properties located in the Louisiana Gulf Coast. Gulfport has a market enterprise value of approximately \$37.0 million dollars on May 9, 2002 and generated EBITDA of \$0.9 million and \$1.8 million dollars for the three months ended March 31, 2002 and March 31, 2001, respectively.

The Company is currently consulting with its financial advisors to determine how to take advantage of the current markets whether through internal value creation or a capital markets transaction.

As of January 1, 2002, the Company had in excess of 28.9 MMBOE proved reserves with a present value (discounted at 10%) of estimated future net reserves of \$130 million dollars.

Gulfport is actively pursuing further development of its properties in order to fully exploit its reserves. The Company has a substantial portfolio of low risk developmental projects for the next several years providing the opportunity to increase production and cash flow. Gulfport's developmental

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

program is designed to reach the Company's high impact, higher potential rate of return prospects through the penetration of several producing horizons.

Additionally, Gulfport owns 3-D seismic data, which along with the Company's technical expertise, will be used to identify exploratory prospects and test undrilled fault blocks in its existing fields.

The Company's operations are concentrated in two fields: West Cote Blanche Bay and the Hackberry Fields. In addition, during the first quarter of 2002, the Company backed in to a working interest in the Bayou Penchant, Bayou Pigeon, Deer Island and Golden Meadow fields operated by Castex Energy.

West Cote Blanche Bay

Background

West Cote Blanche Bay ("WCBB") Field lies approximately five miles off the coast of Louisiana primarily in St. Mary's Parish in a shallow bay, with water depths averaging eight to ten feet. WCBB overlies one of the largest salt dome structures in the Gulf Coast. There are over 100 distinct sandstone reservoirs throughout most of the field and nearly 200 major and minor discrete intervals have been tested. Within almost 900 wellbores that have been drilled to date in the field, over 4,000 potential zones have been penetrated. The sands are highly porous and permeable reservoirs primarily with a strong water drive.

As of March 31, 2002, there have been 871 wells drilled at WCBB, and of these 38 are currently producing, 313 are shut-in and 5 are utilized as salt water disposal wells. The balance of the wells (or 515) have been plugged and abandoned.

During April 2001, Gulfport finished the seven well drilling program it commenced in January of 2001. The Company successfully drilled, completed and is currently producing six intermediate depth wells, with total depths averaging approximately 9,000' and one shallow well, with a total depth of 2,500'. These wells found significant oil and gas deposits in multiple targets ranging from relatively low risk proven undeveloped objectives to higher potential exploratory targets. Gulfport feels that by taking most future wells to a depth of 9,000' there will be an increased chance of converting reserves currently classified as possible and probable to proved.

Gulfport has an ongoing plan to review and increase production from existing marginal and non-producing wells and has continued its ongoing program to modernize and service the existing production facilities at West Cote Blanche Bay. During the second quarter of 2001, the Company put two new gas compressors into full time service at the field replacing two outdated compressors. The new compressors increased efficiency and together with a new header valve Gulfport installed at one of the tank batteries reduced the Company's gas usage by 50%.

During October 2001, Gulfport completed the yearly program to meet its plugging liability for the year ended March 31, 2001. The Company plugged 26 non-producing wells at West Cote Blanche Bay.

13

Activity for the Quarter Ended March 31, 2002

During the first quarter of 2002, Gulfport performed two re-completions and one workover at the West Cote Blanche Bay Field. Some of this work commenced during the fourth quarter of 2001.

In March 2002, Gulfport began work on the yearly 20 well plugging

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

commitment at West Cote Blanche Bay. As of the date of this filing, the plugging had been completed.

During March 2002, Gulfport's net current daily production in this field averaged 1,019 barrels of oil equivalent

During April 2002, the Company commenced drilling the first well of an 8-10 well drilling program. The vast majority of the wells in this drilling program have multiple objectives with some of the target reserves classified as relatively low risk, proven undeveloped and other reserves classified as higher risk, higher potential and exploratory. Most of the subject wells are being drilled to intermediate depths of around 9,000 feet and are being steered with downhole motors in an attempt to encounter as many potential target formations as possible at their maximum structural position with a single wellbore. Gulfport also plans to drill a horizontal well in this program that will have a 500' lateral in a relatively shallow zone of unconsolidated sand. This well will use state of the art drilling and completion technology and should have significant oil production and limited water production. If this well is successful, the Company should be able to repeat the idea in over 100 other locations in the field. This drilling program also contains one relatively shallow exploratory well that is being drilled close to the Company's lease boundary in order to test the productive limits of the field.

Since the end of the first quarter of 2002, Gulfport has completed an additional six workovers, one re-completion and one capital maintenance project.

Hackberry Fields

Background

The Hackberry fields are located along the shore of Lake Calcasieu in Cameron Parish, Louisiana. The Hackberry Field is a major salt intrusive feature, elliptical in shape with East Hackberry on the east end of the ridge with West Hackberry located on the western end of the ridge. There are over 30 pay zones in this field. The salt intrusion at East Hackberry trapped Oligocene through Lower Miocene rocks in a series of complex, steeply dipping fault blocks. The Camerina sand series at East Hackberry is a prolific producer with 1-2 MMBL per well oil potential. West Hackberry consists of a series of fault bounded traps in the Oligocene-age Vincent and Keough sands associated with the Hackberry Salt Ridge.

The East Hackberry field was discovered in 1926 by Gulf Oil Company (now Chevron Corporation) by a gravitational anomaly survey. The massive shallow salt stock presented an easily recognizable gravity anomaly indicating a productive field. Initial production began in 1927 and has continued to the present. The estimated cumulative oil and condensate production through 1999 was 111 million barrels of oil with casinghead gas production being 60 billion cubic feet of gas. There have been a total of 170 wells drilled on Gulfport's portion of the field with 17 having current daily production; 3 produce intermittently; 73

14

wells are shut-in and 4 wells have been converted to salt water disposal wells. The remaining 73 wells have been plugged and abandoned.

At West Hackberry, the first discovery well was drilled in 1938 and was developed by Superior Oil Company (now Exxon-Mobil Corporation) between 1938 and 1988. The estimated cumulative oil and condensate production through 2000 was 170 million barrels of oil with casinghead gas production of 120 billion cubic feet of gas. There have been 36 wells drilled to date on Gulfport's portion of West Hackberry and currently 3 are producing, 24 are shut-in and 1 well has been converted to a saltwater disposal well. The remaining 8 wells have been plugged

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

and abandoned. During the first quarter of 2001, Gulfport unsuccessfully sidetracked an existing non-producing well at West Hackberry and conducted remedial operations to increase production.

During the 3rd quarter of 2001, Gulfport tested 22 shut-in wells on the State Lease 50 portion of East Hackberry Field to check the viability of putting these wells back into production. After the tests were completed the Company elected to reactivate seven of the 22 wells that were tested. To put the wells back on production certain parts of the field's infrastructure had to be repaired or replaced. Gulfport repaired the main gas lift supply line in order to reactivate a satellite tank battery at State Lease 50 and made other minor repairs to the battery. The Company also repaired and or replaced flow lines and gas lift lines to the seven wells that were restored to production.

Gulfport's continued plan of development includes the testing of additional wells that are currently inactive, mostly in the southern portion of State Lease 50, which will also entail dredging. These additional tests should allow the Company to restore more wells to productive status in the near future.

Activity for the Quarter Ended March 31, 2002

During the first quarter of 2002, Gulfport worked over one salt-water disposal well at the East Hackberry Field. The Company also commenced a four well plugging program on the State Lease 50 portion of East Hackberry and completed the work in the second quarter.

Later during 2002, Gulfport plans to re-complete two wells at the State Lease 50 portion of the East Hackberry field.

Total net production per day for both Hackberry fields was 209 barrels of oil equivalent for the three-month period ended March 31, 2002.

Castex Back-In

Gulfport sold its interest in the Bayou Penchant, Bayou Pigeon, Deer Island and Golden Meadow fields to Castex Energy 1996 Limited Partnership effective April 1, 1998 subject to a 25% reversionary interest in the partnership after Castex had received 100% of the initial investment. Castex informed Gulfport that the investment had paid out effective September 1, 2001. In lieu of a 25% interest in the partnership, Gulfport elected to take a proportionately reduced 25% working interest in the properties. During March, 2002 the Company received approximately \$220,000 from Castex which the Company believes consists of sales income for the period after payout net of operating expenses, although the Company has not received confirmation of such. As a result, this amount received has been included in the accompanying statement of income for the three months ended March 31, 2002 as "Other Income".

The following financial table recaps the Company's operating activity for the three-month periods ended March 31, 2002 as compared to the same periods in 2001.

- (1) EBITDA is defined as earnings before interest, taxes, depreciation, depletion and amortization. EBITDA is an analytical measure frequently used by securities analysts and is presented to provide additional information about the Company's ability to meet its future debt service, capital expenditure and working capital requirements. EBITDA should not be considered as a better measure of liquidity than cash flow from operations.

RESULTS OF OPERATIONS

Comparison of the Three Months Ended March 31, 2002 and 2001

During the three months ended March 31, 2002, the Company reported net income of \$10,000, a decrease from net income of \$0.3 million for the

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

corresponding period in 2001. This decrease is primarily due to the following factors:

Oil and Gas Revenues. For the three months ended March 31, 2002, the Company reported oil and gas revenues of \$2.5 million, a decrease from \$3.4 million for the comparable period in 2001. This decrease was due principally to a 29% decrease in oil prices from \$28.85 to \$20.43 for the three months ended March 31, 2001 and 2002, respectively. The decrease in total revenues due to lower product prices was partially offset by an increase in production for the three months ended March 31, 2002 as compared to the same period in 2001. This increase in production was due to the new oil production generated from the Company's drilling program initiated during the first quarter of 2001.

The following table summarizes the Company's oil and gas production and related pricing for the three months ended March 31, 2002 and 2001:

	Three Months Ended March 31, 2002	2001
	----	----
Oil production volumes (Mbbls)	121	113
Gas production volumes (Mmcf)	19	13
Average oil price (per Bbl)	\$20.43	\$28.85
Average gas price (per Mcf)	\$3.15	\$10.51

Operating Expenses. Lease operating expenses decreased \$0.3 million from \$1.6 million for the three months ended March 31, 2001 to \$1.3 million for the comparable period in 2002. This decrease was due primarily to a \$.44 million decrease in gas lift costs for the three months ended March 31, 2002 as compared to the same period in 2001, which was partially offset by increases in various other operating costs. This decrease in gas lift costs was a result of lower prices paid for gas used for gas lift during the first quarter of 2002 as compared to the same period in 2001.

Depreciation, Depletion and Amortization. Depreciation, depletion and amortization increased \$.07 million from \$.72 million for the three months ended March 31, 2001 to \$.79 million for the comparable period in 2002. This increase was attributable primarily to an increase in production to 124 MBOE's for the three months ended March 31, 2002 as compared to 115 MBOE's for the same period in 2001.

General and Administrative Expenses. General and administrative expenses decreased 23% from \$.46 million for the three months ended March 31, 2001 to \$.35 million for the comparable period in 2002. This decrease is due mainly to a general and administrative expense reimbursement of \$.12 million by entities that have similar controlling interests as those controlling the Company. This administrative expense reimbursement began subsequent to the first quarter of 2001. However, only \$18,000 of reimbursements related to the period ended March 31, 2001 were booked as a subsequent periods reduction of general and administrative expenses in 2001.

Interest Expense. Interest expense decreased slightly from \$.97 million for the three months ended March 31, 2001 to \$.93 million for the comparable period in 2002. This decrease was primarily due to the settlement of the disputed amounts with Texaco in April 2001. Previously, the Company was accruing interest expense related to the unsettled and disputed amounts. This decrease was partially offset by an increase in average debt outstanding due to the loan

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

from related party. See Note 5 to Financial Statements.

Income Taxes. As of December 31, 2001, the Company had a net operating loss carryforward of approximately \$83 million, in addition to numerous timing differences which gave rise to a deferred tax asset of approximately \$47 million, which was fully reserved by a valuation allowance at that date. Utilization of net operating loss carryforwards and other timing differences will be recognized as a reduction in income tax expense in the year utilized. A current tax provision of \$4,000 was provided for the three-month period ended March 31, 2002, which was fully offset by an equal income tax benefit due to operating loss carryforwards.

Capital Expenditures, Capital Resources and Liquidity

Net cash flow provided by operating activities for the three-month period ended March 31, 2002 was \$.66 million, as compared to net cash flow provided of \$5.8 million for the comparable period in 2001. This decrease was primarily due to a decrease in the Company's accounts payable as a result of the completion of the Company's drilling program initiated in January 2001 offset by the gain on the settlement of amounts previously in dispute with Texaco.

Net cash used in investing activities during the three months ended March 31, 2002 was \$.80 million as compared to \$7.5 million used during the same period of 2001. This decrease was a result of the Company's drilling program it initiated and completed in 2001.

Net cash provided in financing activities for the three months ended March 31, 2002 was \$2.4 million as compared to net cash used of \$.21 million during the same period of 2000. The increase is primarily a result of the initial proceeds received as a result of the Private Placement Offering initiated in March 2002. See Note 9 to the Financial Statements.

Capital Expenditures. During the three months ended March 31, 2002, Gulfport invested \$.73 million in oil and gas properties and other property and equipment as compared to \$7.4 million invested during the comparable period in 2001. The \$.73 million the Company spent in the first three months of 2002 was spent on workover activity on existing wells.

During the three month period ended March 31, 2002, Gulfport financed its capital expenditures payment requirements with cash flows provided by operations, borrowings under the Company's credit facilities and borrowings from a related third party.

Gulfport's strategy is to continue to increase cash flows generated by its properties by undertaking new drilling, workover, sidetrack and recompletion projects in the fields to exploit its extensive reserves. The Company has upgraded its infrastructure by enhancing its existing facilities to increase operating efficiencies, increase volume capacities and lower lease operating expenses. Additionally, Gulfport completed the reprocessing of its 3-D seismic data in its principal property, West Cote Blanche Bay. The reprocessed data will enable the Company's geophysicists to generate new prospects and enhance existing prospects in the intermediate zones in the field thus creating a portfolio of new drilling opportunities in the most prolific depths of the field.

Capital Resources. On July 11, 1997 Gulfport entered into a \$15,000,000 credit facility with ING (U.S.) Capital Corporation ("ING"). During 1998 and 1999, there were two amendments to the facility and the maturity date was reset to September 30, 2000. On September 28, 2000, the Company repaid in full its credit facility at ING and established a new credit facility at Bank of Oklahoma

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

("BOK"). Gulfport was advanced \$1.6 million on this new facility, which called for interest payments to be made monthly in addition to twelve monthly principal payments of \$100,000, with the remaining unpaid balance due on August 31, 2001. On March 22, 2001, Gulfport executed a new note with BOK increasing the availability to \$1,760,000, increasing the monthly payments slightly to \$110,000 beginning July 1, 2001 and extending the maturity date to October 1, 2002. This new note replaces the original BOK note dated September 28, 2000. In April 2001, the Company borrowed the amount remaining and available on its BOK credit facility.

On May 22, 2001, the Company entered in to a revolving line of credit agreement with Gulfport Funding, LLC, ("Gulfport Funding") which has ownership in common with the Company. Under the terms of the agreement, the Company may borrow up to \$3,000,000, with borrowed amounts bearing interest at Bank of America Prime Rate plus four percent. All outstanding principal amounts along with accrued interest are due on February 22, 2002. At March 29, 2002, the Company had borrowed the \$3,000,000 available under this line. As a result of the Private Placement Offering initiated in March 2002, this debt along with its accumulated interest was retired in exchange for shares of preferred stock and related detachable warrants.

The Company has initiated discussions with Bank of Oklahoma and is attempting to put in place a larger and longer-term revolving credit facility. The Company cannot be sure however that it will be successful.

The Company is currently consulting with its financial advisors to determine how to take advantage of the current market whether through internal value creation or a capital markets transaction.

Liquidity. The primary capital commitments faced by the Company are the capital requirements needed to continue developing the Company's proved reserves and to continue meeting the required principal payments on its Credit Facilities.

In Gulfport's January 1, 2002 reserve report, 85% of Gulfport's net reserves were categorized as proved undeveloped. The proved reserves of Gulfport will generally decline as reserves are depleted, except to the extent that Gulfport conducts successful exploration or development activities or acquires properties containing proved developed reserves, or both.

To realize reserves and increase production, the Company must continue its exploratory drilling, undertake other replacement activities or utilize third parties to accomplish those activities. In the year 2002, Gulfport expects to undertake an intermediate drilling program. It is anticipated that these reserve development projects will be funded either through the use of cash flow from operations when available, funds received through its Preferred Stock Offering, interim bank financing or related third party financing, a long-term credit facility or by accessing the capital markets. The cash flow generated from these new projects will be used to make the Company's

19

required principal payments on its debt with the remainder reinvested in the field to complete more capital projects.

COMMITMENTS

Plugging and Abandonment Funds

In connection with the acquisition of the remaining 50% interest in the WCBB properties, the Company assumed the obligation to contribute approximately \$18,000 per month through March 2004 to a plugging and abandonment trust and the

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

obligation to plug a minimum of 20 wells per year for 20 years commencing March 11, 1997. Texaco retained a security interest in production from these properties and the plugging and abandonment trust until such time the Company's obligations to Texaco have been fulfilled. Once the plugging and abandonment trust is fully funded, the Company can access it for use in plugging and abandonment charges associated with the property. As of March 31, 2002, the plugging and abandonment trust totaled \$2,335,000. These funds are invested in a U.S. Treasury Money Market.

During March 2002, Gulfport began to fulfill its yearly plugging commitment of 20 wells at WCBB for the twelve-month period ending March 31, 2002. As of the date of this filing, the plugging had been completed.

In addition, the Company has letters of credit totaling \$200,000 secured by certificates of deposit being held for plugging costs in the East Hackberry field. Once specific wells are plugged and abandoned the \$200,000 will be returned to the Company.

DISCLOSURE regarding FORWARD-LOOKING STATEMENTS

This Confidential Disclosure Statement contains, and incorporates by reference, forward-looking statements and information relating to us, as well as our business and operations. We intend to identify forward-looking statements in this Confidential Disclosure Statement by using words such as "believes," "intends," "expects," "may," "will," "should," "plan," "projected," "contemplates," "anticipates," or similar statements. These statements are based on our beliefs as well as assumptions we made using information currently available to us. Because these statements reflect our current views concerning future events, these statements involve risks, uncertainties, and assumptions. Our actual future results may differ significantly from the results discussed in the forward-looking statements in this Confidential Disclosure Statement. Some, but not all, of the factors that may cause this kind of difference include those which we discuss in the special considerations and risk factors included herein.

The Offering

The Company is hereby offering (the "Offering") for sale 10,000 Units (a "Unit"), each Unit consisting of (i) one (1) share of Cumulative Preferred Stock, Series A, par value \$0.01 per share ("Series A Preferred Stock"), of the Company and (ii) a warrant (a "Warrant", together with all warrants sold in the Offering, the "Warrants") to purchase up to 250 shares (subject to adjustment upon certain events) of common stock, par value \$0.01 per share ("Common Stock"), of the Company, each as described in more detail in the summary of principal terms included in this Confidential Disclosure Statement in Schedule I hereto (the "Summary of Principal Terms"). NOTE - The Summary of Principal Terms is qualified in its entirety by reference to the Transaction Documents. The purchase price is \$1,000 per Unit.

The Units are being offered to certain stockholders of the Company which are "accredited investors" as that term is defined in Rule 501(a) of Regulation D promulgated by the Commission. Each offeree of Units shall be entitled to purchase up to a percentage of the Units offered hereby equal to such offeree's beneficial ownership percentage of the Company's Common Stock as of December 31, 2001, subject to possible increase at the Company's sole discretion. Attached hereto as Exhibit G are the Investor Qualifications to be met by each investor who purchases Units.

Investors who purchase Units must execute and deliver a Securities Purchase Agreement and Registration Rights Agreement, substantially in the forms attached hereto as Exhibit C and Exhibit D, respectively. The Securities Purchase Agreement sets forth, among other matters, certain representations and warranties which will be made by us and the investors who purchase Units.

EACH OFFEREE SHOULD READ AND EVALUATE THE TRANSACTION DOCUMENTS (INCLUDING WITHOUT LIMITATION THE SECURITIES PURCHASE AGREEMENT AND THE REGISTRATION RIGHTS AGREEMENT) CAREFULLY WHEN DETERMINING WHETHER TO INVEST IN THE UNITS OFFERED HEREBY.

The Offering will terminate on April 15, 2002 (the "Offer Termination Date"); provided, however, that Mike Liddell, our Chief Executive Officer shall have the right to purchase up to 746.208 Units (the "Liddell Units") on or prior to September 30, 2002. There will be an initial closing of the Offering on March 29, 2002. Any Units offered by the Company (other than the Liddell Units) but not sold on or prior to the Offer Termination Date, shall be purchased by Gulfport Funding LLC, a Delaware limited liability company ("Gulfport Funding") on the Offer Termination Date. Gulfport Funding is affiliated with Chuck Davidson and Wexford Capital, LLC, each of which is in turn affiliated with the Company.

The Units are being offered and sold to investors by the Company directly

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

and not through a placement agent.

THIS CONFIDENTIAL DISCLOSURE STATEMENT IS THE EXCLUSIVE OFFERING DOCUMENT RELATING TO THE OFFERING. PROSPECTIVE INVESTORS SHOULD NOT RELY ON ANY INFORMATION NOT CONTAINED IN THIS CONFIDENTIAL DISCLOSURE STATEMENT OR INCORPORATED HEREIN BY REFERENCE.

5

USE OF PROCEEDS

The cash proceeds to us from the sale of the Units offered hereby is expected to be approximately \$6.75 million (including sale of the Liddell Units). The Company has agreed to sell approximately 3,252 of the Units to Gulfport Funding, in consideration of the surrender by Gulfport Funding of a promissory note dated May 22, 2001 in the principal amount of \$3.0 million (the "Gulfport Funding Note") and cancellation of accrued and unpaid interest thereon of approximately \$252,000. We intend to use the cash proceeds of this Offering of approximately \$6.75 million to finance our drilling and exploration operations in West Cote Blanche Bay, Louisiana through the drilling of approximately 10 additional wells on the property and for general corporate purposes.

THE COMPANY

Prospective investors are directed to the Company's SEC Documents for a description of the Company's properties (including West Cote Blanche Bay) and operations. Set forth below is certain supplemental information concerning the Company, its current and contemplated operations and certain financing plans, for consideration by a prospective investor in determining whether to invest in the Units.

Agreement with Gulfport Funding. On May 22, 2001, the Company entered into a revolving line of credit agreement with Gulfport Funding, which is wholly-owned by one of the Company's stockholders. Under the terms of the agreement, the Company has borrowed \$3 million with interest accruing thereon at Bank of America Prime Rate plus 4%, evidenced by the Gulfport Funding Note. All outstanding principal amounts together with accrued interest thereon became due on February 22, 2002. On March 8, 2001, the Company entered into a letter agreement (the "Gulfport Funding Agreement") with Gulfport Funding pursuant to which, among other things, the Company agreed to offer and sell the Units offered hereby to certain of its stockholders and Gulfport Funding agreed to purchase such of the Units offered by the Company not otherwise sold to such offerees on the terms set forth in the Summary of Principal Terms attached hereto as Schedule I. In connection therewith, the Company agreed to accept surrender of the Gulfport Funding Note to the Company for cancellation and cancellation of the accrued and unpaid interest thereon, in partial payment for the Units to be purchased by Gulfport Funding. A summary of the Gulfport Funding Agreement is provided in the Company's report on Form 8-K filed with the Commission on March 12, 2002, a copy of which is available from the Company upon request.

Contemplated Debt Offering. The Company has retained Jefferries & Company, Inc. to conduct a senior secured notes offering in an amount currently expected to be \$25 million. If the note offering is completed the Company's debt will be increased to approximately \$26 million. While no assurances can be made that the note offering will be completed, we currently anticipate completion of the offering in the second quarter of 2002. We currently contemplate that the net proceeds from the note offering would be used primarily to finance additional exploration and development operations in West Cote Blanche Bay and to shoot 3-D seismic at East Hackberry.

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

Current Exploration and Exploitation Plans. The Company has identified 170 developmental wells and 36 workovers to be completed at West Cote Blanche Bay. The Company currently has plans to drill eight developmental wells, one horizontal well and one shallow exploratory well. The Company hopes that the cash flow generated from this drilling program will allow the Company to contract a drilling rig continuously for one year.

6

SPECIAL CONSIDERATIONS AND RISK FACTORS

You should carefully consider the following matters, as well as the other information contained in this Confidential Disclosure Statement, before making an investment decision. Information contained in this Confidential Disclosure Statement contains "forward-looking statements," which are qualified by the information contained in the section of this Confidential Disclosure Statement entitled "Disclosure Regarding Forward-Looking Statements." If any of the risks described below materialize, our ability to satisfy our obligations to the holders of the Series A Preferred Stock and the trading price of our Common Stock could be adversely affected.

Considerations and Risks Relating to Our Business and the Company

Oil and natural gas prices are volatile.

Fluctuations in the prices of oil and natural gas will affect many aspects of our business, including:

- our revenues, cash flows and earnings;
- our ability to attract capital to finance our operations;
- our cost of capital;
- the amount we are allowed to borrow under our senior credit facilities; and
- the value of our oil and natural gas properties.

Both oil and natural gas prices are extremely volatile. Oil prices are determined by international supply and demand. Political developments, compliance or non-compliance with self-imposed quotas, or agreements between members of the Organization of Petroleum Exporting Countries can affect world oil supply and prices. Any material decline in prices could result in a reduction of our net production revenue and overall value. The economics of producing from some wells could change as a result of lower prices. As a result, we could elect not to produce from certain wells. Any material decline in prices could also result in a reduction in our oil and natural gas acquisition and development activities.

We are in technical breach of our obligations to Texaco as a result of which Texaco has the right to take control of our revenue from the West Cote Blanche Bay

In connection with the Company's acquisition from Texaco Exploration and Production, Inc. ("Texaco") of its West Cote Blanche Bay properties, the Company, among other things, agreed to plug a minimum of 20 wells per year for 20 years to be completed by March 17 of each year. The Company has engaged a local contractor to plug the twenty wells for the 2001 commitment that was due

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

by March 17, 2002. However, due to equipment and crew unavailability the contractor has not completed the plugging of the wells. It is anticipated that the plugging program due to have been completed by March 17, 2002 will be completed by mid-April 2002. Texaco has not declared the Company in default for not meeting the March 17, 2002 deadline. The Company does not anticipate that the tardiness in fulfilling this commitment will have a material adverse effect on the Company.

You should not unduly rely on reserve information because reserve information represents estimates.

Estimates of oil and natural gas reserves involve a great deal of uncertainty, because they depend in large part upon the reliability of available geologic and engineering data, which is inherently imprecise. Geologic and engineering data are used to determine the probability that a reservoir of oil and natural gas exists at a particular location, and whether oil and natural gas are recoverable from a reservoir. Recoverability is ultimately subject to the accuracy of data regarding, among other factors:

- geological characteristics of the reservoir structure;
- reservoir fluid properties;
- the size and boundaries of the drainage area; and
- reservoir pressure and the anticipated rate of pressure depletion.

7

The evaluation of these and other factors is based upon available seismic data, computer modeling, well tests and information obtained from production of oil and natural gas from adjacent or similar properties, but the probability of the existence and recoverability of reserves is less than 100% and actual recoveries of proved reserves usually differ from estimates, in some instances significantly.

Estimates of oil and natural gas reserves also require numerous assumptions relating to operating conditions and economic factors, including, among others:

- the price at which recovered oil and natural gas can be sold;
- the costs associated with recovering oil and natural gas;
- the prevailing environmental conditions associated with drilling and production sites;
- the availability of enhanced recovery techniques;
- the ability to transport oil and natural gas to markets; and
- governmental and other regulatory factors, such as taxes and environmental laws.

A change in any one or more of these factors could result in known quantities of oil and natural gas previously estimated as proved reserves becoming unrecoverable. For example, a decline in the market price of oil or natural gas to an amount that is less than the cost of recovery of such oil and natural gas in a particular location could make production thereof commercially impracticable. Each of these factors, by having an impact on the cost of recovery and the rate of production, will also affect the present value of future net cash flows from estimated reserves.

In addition, estimates of reserves and future net cash flows expected from them prepared by different independent engineers or by the same engineers at different times may vary substantially.

In addition, in accordance with GAAP, we could be required to write down the carrying value of our oil and natural gas properties if oil and natural gas prices become depressed for even a short period of time, or if there are substantial downward revisions to our quantities of proved reserves. A write

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

down would result in a charge to earnings and a reduction of stockholders' equity.

We might be unable to replace reserves that we have produced.

Our future success depends upon our ability to find, develop and acquire additional oil and gas reserves that are economically recoverable. Without successful exploration, exploitation or acquisition activities, our reserves, revenues and cash flow may decline. We cannot assure you that we will be able to find and develop or acquire additional reserves at an acceptable cost.

We might not be able to develop our reserves or make acquisitions if we are unable to generate sufficient cash flow or raise capital.

We will be required to make substantial capital expenditures to develop our existing reserves and to discover new oil and gas reserves. Historically, we have financed these expenditures primarily with cash from operations, proceeds from bank borrowings and proceeds from the sale of debt and equity securities. We cannot assure you that we will be able to generate sufficient cash flow or raise capital in the future. We also make offers to acquire oil and gas properties in the ordinary course of our business. If these offers are accepted, our capital needs may increase substantially.

Information in this Confidential Disclosure Statement regarding our future exploitation and exploration projects reflects our current intent and is subject to change.

We describe our current exploitation and exploration plans in this Confidential Disclosure Statement. Whether we ultimately undertake an exploitation or exploration project will depend on the following factors:

- availability and cost of capital;

8

- current and projected oil or gas prices;
- the costs and availability of drilling rigs and other equipment supplies and personnel necessary to conduct these operations;
- success or failure of activities in similar areas;
- changes in the estimates of the costs to complete the project.

We will continue to gather data about our projects and it is possible that additional information will cause us to alter our schedule or determine that a project should not be pursued at all. You should understand that our plans regarding our projects might change.

Drilling activities are subject to many risks.

Drilling activities are subject to many risks, including the risk that no commercially productive reservoirs will be encountered. We cannot assure you that new wells we drill will be productive or that we will recover all or any portion of our investment. Drilling for oil and natural gas could involve unprofitable efforts, not only from dry wells, but from wells that are productive but do not produce enough net revenue to return a profit after drilling, operating and other costs. The cost of drilling, completing and operating wells is often uncertain. Our drilling operations could be curtailed, delayed or canceled as a result of numerous factors, many of which are beyond our control, including:

- adverse weather conditions;
- compliance with governmental requirements; and

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

- shortages or delays in the delivery of equipment and services.

Our operations are affected by operating hazards and uninsured risks.

There are many operating hazards in exploring for and producing oil and natural gas, including:

- our drilling operations could encounter unexpected formations or pressures that could cause damage to equipment or personal injury;
- we could experience blowouts, accidents, oil spills, fires or other damage to a well that could require us to redrill it or take other corrective action;
- we could experience equipment failure that curtails or stops production;
- our drilling and production operations, such as trucking of oil, are often interrupted by bad weather; and
- we could be unable to access our properties or conduct our operations due to surface conditions.

Any of these events could result in damage to or destruction of oil and natural gas wells, production facilities or other property, or injury to persons. In addition, any of the above events could result in environmental damage or personal injury for which we will be liable.

We cannot assure you that we will be able to maintain adequate insurance at rates we consider reasonable to cover our possible losses from operating hazards. The occurrence of a significant event not fully insured or indemnified against could seriously harm our financial condition and operating results. Furthermore, we cannot assure you of the continued availability of insurance or its availability at commercially acceptable prices.

Complying with environmental and other government regulations could be costly and could negatively impact our production.

Our operations are governed by numerous laws and regulations at the state and federal level. These laws and regulations govern the operation and maintenance of our facilities, the discharge of materials into the environment and other environmental protection issues. The laws and regulations may, among other potential consequences:

9

- require that we acquire permits before commencing drilling;
- restrict the substances that can be released into the environment in connection with drilling and production activities;
- limit or prohibit drilling activities on protected areas such as wetlands or wilderness areas;
- require the reclamation measures to mitigate pollution from former operations, such as plugging abandoned wells and remediating contaminated soil and groundwater; and
- require remedial measures be taken with respect to property designated as a contaminated site, for which we are a responsible person.

Under these laws and regulations, we could be liable for personal injury, clean-up costs and other environmental and property damages, as well as administrative, civil and criminal penalties. We maintain limited insurance coverage for sudden and accidental environmental damages as well as environmental damage that occurs over time. However, we do not believe that insurance coverage for the full potential liability of environmental damages is available at a reasonable cost. Accordingly, we could be liable, or could be required to cease production on properties, if environmental damage occurs.

Although we currently believe that the costs of complying with

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

environmental laws and regulations will not have a material adverse effect on our financial condition or results of operations, we cannot assure you that the costs of complying with environmental laws and regulations in the future will not have that kind of effect. Furthermore, future changes in environmental laws and regulations could result in materially increased costs for us, and changes could occur that result in stricter standards and enforcement, larger fines and liability, and increased capital expenditures and operating costs, any of which could have a material adverse effect on our financial condition or results of operations.

Factors beyond our control affect our ability to market production.

Our ability to market oil and gas from our wells depends upon numerous factors beyond our control. These factors include:

- the availability of capacity to refine oil;
- the availability of natural gas processing capacity;
- the availability of pipeline capacity;
- the supply of and demand for oil and natural gas;
- the availability of alternative fuel sources;
- the effects of inclement weather;
- federal and state regulation of oil and natural gas marketing.

Because of these factors, we could be unable to market all of the oil or gas we produce. In addition, we could be unable to obtain favorable prices for the oil and gas we produce.

Essential equipment might not be available.

Oil and natural gas exploration and development activities depend upon the availability of drilling and related equipment in the particular areas where those activities will be conducted. Demand for that equipment or access restrictions may affect the availability of that equipment to us and delay our exploration and development activities. Our breach of plugging obligations to Texaco is attributable, in part, to the lack of availability of essential equipment to perform such operations on a timely basis.

We operate in a highly competitive industry.

The oil and natural gas industry is highly competitive. Our competitors include companies that have significantly greater financial and personnel resources than we do. Our ability to acquire additional properties and to discover reserves in the future depends upon our ability to evaluate and select suitable properties and to complete transactions in a highly competitive environment.

10

We depend upon key personnel.

We rely upon key employees and their expertise. If we lose any of our key technical employees or executive officers, our operations could suffer.

Risks Relating to the Units

We are in the process of raising approximately \$25 million in debt financing which could be issued within a short time after the completion of this Offering. Our increased debt level could limit flexibility in obtaining additional financing and in pursuing business opportunities.

As of March 26, 2002, we have approximately \$880,000 of senior debt,

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

represented primarily by our credit facility with Bank of Oklahoma which becomes due on October 1, 2002. The Company has retained Jefferies & Company, Inc., an investment bank, to conduct an offering of \$25 million dollars of senior notes. If that offering is completed the Company's debt will be increased to \$25.9 million.

Our debt level will have important effects on our future obligations, including:

- a portion of our cash flow could be used to pay interest and principal on our debt and would not be available for other purposes;
- our ability to obtain additional financing for capital expenditures and other purposes may be limited.

In addition, our ability to make scheduled payments (including, without limitation, dividend and mandatory redemption payments in respect of the Series A Preferred Stock) or to refinance our obligations on debt will depend upon our financial and operating performance, which, in turn, depends upon prevailing industry specific and general economic conditions that are beyond our control. If our cash flow and capital resources are insufficient to fund our debt service obligations, we might be forced to:

- reduce and/or delay scheduled capital expenditures;
- sell material assets or operations;
- obtain additional capital; or
- restructure our debt.

We cannot assure you that our operating performance, cash flow and capital resources will be sufficient to repay our debt in the future or meet our dividend payment and redemption obligations in respect of the Series A Preferred Stock. If we are required to dispose of material assets or restructure our debt to meet our debt service and other obligations, we cannot assure you about the terms of any transaction or how soon any transaction could be completed.

If we borrow more money, the related risks described above could be significantly increased. If we become insolvent or are liquidated, payment under our debt instruments would be accelerated, and debtholders of the Company will be entitled to exercise the remedies available under applicable law and will have a claim on our assets before the holders of our equity securities (including the Series A Preferred Stock and Warrants). We can not be sure the liquidation value of our assets would be sufficient to repay in full the obligations under the Series A Preferred Stock.

There will not be a liquid market for resale of the Units and any resale of the Units will require the prior written consent of the Company.

We have not registered the Units, the Series A Preferred Stock or the Warrants under the Securities Act or any state securities laws. Until we register such securities, they may not be offered or sold except under an exemption from, or in a transaction not subject to, the registration

requirements of the Securities Act and applicable state securities laws. In addition, pursuant to the Securities Purchase Agreement under which the Units are to be purchased and sold, the Units will not be transferable, in whole or in part, without the prior written consent of the Company, which may be given or withheld in the Company's sole discretion. We have agreed to use our best efforts, in certain limited circumstances, to register the shares of Common Stock issuable upon exercise of the Warrants under a shelf registration statement. See "Restrictions on Resale."

Restrictions on Resale

Pursuant to the Securities Purchase Agreement pursuant to which the Units will be sold (the form of which is attached as Exhibit B), the Units will not be transferable, in whole or in part, without the prior written consent of the Company, which may be given or withheld in the Company's sole discretion. In addition, upon consummation of this Offering, all of the Units, Series A Preferred Stock and the Warrants sold in this Offering will be deemed "restricted securities" within the meaning of Rule 144 promulgated under the Securities Act, and may not be resold, except pursuant to registration under the Securities Act or an exemption from registration, including an exemption afforded by Rule 144, when such exemption becomes available. At the present time, Rule 144 would not be available to holders of Units, Series A Preferred Stock or Warrants due to the holding period required by Rule 144, the absence of a public trading market for the Units, the Series A Preferred Stock or the Warrants. We cannot make any representations or give any assurances as to the future availability of a public market for the Units, Series A Preferred Stock or the Warrants or the availability of Rule 144 to holders of restricted securities. Therefore, an investor may be required to hold Units for an indefinite period of time.

12

INVESTOR SUITABILITY REQUIREMENTS

We are offering the Units in reliance upon certain exemptions from the registration and qualification requirements of federal and state securities laws. We have established certain standards that must be met by persons who wish to purchase the Units. All prospective investors must be capable of evaluating the merits and risks of their investment and have a net worth or income level sufficient to withstand a loss of their entire investment. Those persons who wish to invest in the Units must meet all applicable criteria set forth in Exhibit G attached hereto.

Series A Preferred Stock

Designation and Number of Shares

The series of preferred stock described herein shall consist of 15,000 shares and shall be designated "Cumulative Preferred Stock, Series A", par value \$0.01 per share, hereinafter referred to "Series A Preferred Stock".

Dividends

Dividends shall accrue on the Series A Preferred Stock prior to the Mandatory Redemption Date (as defined below) at the rate of 12% per annum payable quarterly in cash or, at the option of the Company for a period not to exceed two (2) years from the Closing Date, payable in whole or in part in additional shares of Series A Preferred Stock based on the Liquidation Preference (as defined below) of the Series A Preferred Stock at the rate of 15% per annum. No other dividends shall be declared or shall accrue on the Series A Preferred Stock. To the extent funds are legally available, the Company is obligated to declare and pay the dividends on the Series A Preferred Stock.

Voting

Each share of Series A Preferred Stock shall be entitled to vote only on those matters required by law and, unless the vote or consent of holders of a greater number of shares shall be required by law or by the Company's certificate of incorporation, the vote of at least 66 2/3% of the votes entitled to be cast by the holders of the shares of Series A Preferred Stock shall be necessary for: (i) amendment, alteration or repeal of any of the provisions of the Company's certificate of incorporation that materially adversely affects the voting powers, rights or preferences of the holders of the Series A Preferred Stock action which adversely alters or amends the terms, relative rights, preferences, and limitations of the Series A Preferred Stock; and (ii) the authorization or creation or, or the increase in the authorized amount of any shares of (x) any class or series of a class of capital stock of the Company the terms of which expressly provide that the shares thereof rank senior as to the payment of dividends or the distribution of assets upon the liquidation, dissolution or winding up of the Company to the shares of the Series A Preferred Stock ("Senior Securities"), or (y) any security convertible into, or exchangeable or exercisable for shares of any Senior Securities.

Mandatory Redemption

On the fifth anniversary of the first issuance of Series A Preferred Stock (the "Mandatory Redemption Date"), the shares of

Series A Preferred Stock shall be redeemed by the Company out of the funds of the Company

19

legally available therefor, for an amount per share equal to the Redemption Price (as defined below). Upon the redemption thereof, the shares of Series A Preferred Stock shall become authorized, but undesignated and unissued, shares of the preferred stock of the Company. To the extent that, as of the Mandatory Redemption Date, the funds of the Company legally available for redemption payments to the holders of Series A Preferred Stock will be, or are anticipated to be, insufficient to redeem all shares of Series A Preferred Stock (as determined in the sole discretion of the Company), the Company shall redeem the Series A Preferred Stock to the extent of its funds legally available for such redemption, pro rata among the holders of Series A Preferred Stock. Notwithstanding anything to the contrary herein, any holder (or all holders) of Series A Preferred Stock may waive his or its respective rights to redemption of its Series A Preferred Stock on the Mandatory Redemption Date. "Redemption Price" shall mean the amount equal to the sum of (i) the Liquidation Preference per share of Series A Preferred Stock (as the same shall be proportionately adjusted for stock splits, combinations or recapitalizations affecting Series A Preferred Stock or dividends or distributions of shares of Series A Preferred Stock, or similar events or transactions), plus (ii) accrued, but unpaid, dividends on such share of Series A Preferred Stock as of the Redemption Date.

The Company may, at its sole discretion, at any time, redeem all or a portion of the then outstanding shares of Series A Preferred Stock at a redemption price per share equal to the Liquidation Preference per share of Series A Preferred Stock plus all accrued and unpaid dividends thereon as of the effective date of such optional redemption; provided, however, to the extent not all shares of Series A Preferred Stock are to be redeemed by the Company, any such redemption shall be

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

made among holders of Series A Preferred Stock pro rata based on their respective ownership percentage of Series A Preferred Stock as of the relevant redemption date.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution, or winding up of the Company prior to the Redemption Date (a "Liquidation"), before any payment or distribution of assets of the Company shall be made to, or set apart for, the holders of the common stock or any other capital stock of the Company not ranking prior to, or on a parity with, the Series A Preferred Stock in

20

respect of rights upon a Liquidation, the holders of the Series A Preferred Stock shall first be entitled to receive payment out of such assets of the Company legally available therefor equal to \$1,000 per share of Series A Preferred Stock (as the same may be adjusted proportionately for splits, combinations, recapitalizations, etc.) (the "Liquidation Preference"). If the assets of the Company legally available for distribution to holders of Series A Preferred Stock in connection with a Liquidation (after payments have been made to the creditors of the Company and as otherwise required by law) are insufficient to permit full payment to the holders of the Series A Preferred Stock of an amount equal to the Liquidation Preference per share, such assets legally available for distribution in connection with a Liquidation (after payments have been made to the creditors of the Company and as otherwise required by law) shall be distributed ratably among the holders of the outstanding Series A Preferred Stock

Liquidation Rights Conversion Rights

Conversion Rights

None.

Warrants

Each Warrant shall entitle its holder to purchase up to 250 shares (as the same shall be proportionately adjusted for stock splits, combinations or recapitalizations affecting Common Stock or dividends or distributions of shares of Common Stock, or similar events or transactions and as the same may be adjusted upon certain issuances of additional shares of Common Stock by the Company) at a price per share of \$4.00 (as the same shall be proportionately adjusted for stock splits, combinations or recapitalizations affecting Common Stock or dividends or distributions of shares of Common Stock, or similar events or transactions and as the same may be adjusted upon certain issuances of additional shares of Common Stock by the Company) (the

"Exercise Price"). The Exercise Price shall be payable either in (i) cash, (ii) by surrender of shares of Series A Preferred Stock, with each share surrendered having a value equal to the Liquidation Preference thereof together with accrued and unpaid dividends thereon through the date of such surrender, (iii) a combination of cash and Series A Preferred Stock or (iv) by cashless exercise of the Warrant.

Warrants will be exercisable after the Closing Date and on or prior to the tenth anniversary of the Closing Date.

Registration Rights

S-3 Demand Rights:

The Company will use its best efforts to file a registration statement on Form S-3 (if available) with the Securities and Exchange Commission, covering the shares of Common Stock issued or issuable upon the conversion of the Warrants (the "Warrant Shares"), as soon as practicable following the request of holders of a majority of the Warrant Shares. The Company will use its best efforts to cause such registration statement to become effective as soon as reasonably practicable

21

thereafter. Notwithstanding anything to the contrary herein, the Company shall not be required to file such a registration statement (i) if it is not eligible for use of Form S-3 (or any successor form thereto), (ii) if the Company has already effected two such registrations, (iii) if the holders of the Warrants propose to sell Warrant Shares at an aggregate price to the public of less than \$1,000,000 or (iv) if the securities to be registered pursuant hereto are eligible to be sold pursuant to Rule 144 of the Securities Act during any 90-day period. The selling holders shall be responsible for all of their own selling expenses.

Piggyback Rights:

Each holder of Warrant Shares shall have the right to have its Warrant Shares included in any registration statement of the Company (subject to limited exceptions) registering shares of its Common Stock; provided, however, if the underwriter determines in good faith that marketing factors require a limitation of the number of shares to be underwritten, the number of shares that may be included in the underwriting shall be

allocated, first to the Company, second to the holders of the Warrant Shares pro rata based on the number of Warrant Shares proposed to be sold in the offering held by such holders; and third to any other stockholders of the Company on a pro rata basis.

Business Knowledge and Investment Sophistication

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

Section 4(2) under the Securities Act, many state securities laws, and general principles of fair dealing all make it necessary that each purchaser of Units be able to demonstrate that, by reason of his, her or its knowledge and experience in business and financial matters, he, she or it is capable of evaluating the merits and risks of an investment in the Units and protecting his, her or its own interests in connection with the transaction. A purchaser who does not have sufficient knowledge and experience in financial and business matters must employ a "purchaser representative" who has that knowledge and experience either alone, together with other purchaser representatives of the purchaser, or together with the purchaser. A purchaser who wishes to use and rely upon a purchaser representative in connection with making an investment in the Units should be aware that a purchaser representative (1) must meet certain statutory requirements, (2) must be acknowledged by the purchaser in writing to be his or her purchaser representative in connection with evaluating the merits and risks of purchasing the Units, (3) must be an attorney, a certified public accountant, a broker-dealer or agent thereof, an investment adviser, a bank, a savings and loan association, or any other person who, as a regular part of such person's business, is customarily relied upon by others for investment recommendations or decisions and who is customarily compensated for such services either specifically or by way of compensation for related professional services, (4) may not be affiliated with us or our management and (5) may not receive compensation from any of the persons or entities listed in (4). No broker-dealer or any person receiving a commission from us may act as purchaser representative on behalf of any investor in this Offering.

5. You understand that this agreement does not obligate the Company to disclose any information, negotiate or enter into any agreement or relationship or otherwise commit or obligate the Company.
6. 7. This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York (without giving effect to any choice or conflict of laws provisions). SECTION 2. Restrictions on Transfer and Registration

2.1 Restrictions on Transfer

(a) Each Holder agrees not to make any disposition of all or any portion of the Registrable Securities unless and until:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) (A) The transferee has agreed in writing to be bound by the

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

terms of this Agreement, (B) such Holder shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition, and (C) if reasonably requested by the Company, such Holder shall have furnished the Company with an opinion of counsel, reasonably satisfactory to the Company, that such disposition will not require registration of such shares under the Securities Act.

(iii) Notwithstanding the provisions of paragraphs (i) and (ii) above, no such registration statement or opinion of counsel shall be necessary for a transfer (A) by a Holder which is a partnership, to its partners or former partners in accordance with partnership interests, (B) to the Holder's family member or trust for the benefit of an individual Holder or such Holder's family member(s); provided, that in each case the transferee will be subject to the terms of this Agreement to the same extent as if such transferee were an original Holder hereunder, (C) pursuant to Rule 144(k); provided, however, that the Company must be satisfied in its reasonable discretion that the proposed sale of securities fully qualifies with all Rule 144 requirements, or (D) to a Holder's "affiliates", as the term "affiliates" is defined by the Securities Act or regulations promulgated under the Securities Act.

(b) Each certificate representing shares of Series A Stock, Warrants or Registrable Securities shall (unless otherwise permitted by the provisions of the Agreement) be stamped or otherwise imprinted with a legend substantially similar to the following (in addition to any legend required under applicable state securities laws):

"THE SECURITIES EVIDENCED HEREBY HAVE NOT BEEN REGISTERED UNDER FEDERAL OR APPLICABLE STATE SECURITIES LAWS AND INSTEAD ARE BEING ISSUED PURSUANT TO EXEMPTIONS CONTAINED IN SAID LAWS. THE SECURITIES REPRESENTED BY THIS CERTIFICATE MAY NOT BE TRANSFERRED UNLESS (1) A REGISTRATION STATEMENT WITH RESPECT TO SUCH SECURITIES SHALL BE EFFECTIVE UNDER THE SECURITIES ACT OF 1933 (THE "SECURITIES ACT") OR (2) GULFPORT ENERGY CORPORATION (THE "COMPANY") SHALL HAVE RECEIVED AN OPINION OF COUNSEL REASONABLY SATISFACTORY TO IT THAT NO VIOLATION OF THE SECURITIES ACT OR SIMILAR STATE ACTS WILL BE INVOLVED IN SUCH

3

TRANSFER; PROVIDED THAT IN THE EVENT SUCH SECURITIES ARE TRANSFERRED PURSUANT TO RULE 144, OR ANY SUCCESSOR RULE, UNDER THE SECURITIES ACT, NO SUCH OPINION SHALL BE REQUIRED UNLESS REQUESTED IN WRITING BY THE TRANSFER AGENT OF SUCH SECURITIES. THE SECURITIES EVIDENCED HEREBY ARE SUBJECT TO THE TERMS OF A CERTAIN REGISTRATION RIGHTS AGREEMENT BY AND AMONG THE COMPANY AND CERTAIN STOCKHOLDERS IDENTIFIED THEREIN, PROVIDING FOR, AMONG OTHER THINGS, CERTAIN RESTRICTIONS ON TRANSFER. A COPY OF SUCH REGISTRATION RIGHTS AGREEMENT MAY BE OBTAINED UPON WRITTEN REQUEST TO THE COMPANY."

(c) The Company shall be obligated to reissue promptly unlegended certificates at the request of any Holder thereof if the Holder shall have obtained an opinion of counsel (which counsel may be counsel to the Company) reasonably acceptable to the Company to the effect that the securities proposed to be disposed of may lawfully be so disposed of without registration, qualification or legend.

2.2 Piggyback Registrations. (a) The Company shall notify all Holders of Registrable Securities in writing at least twenty (20) days prior to the filing of any registration statement under the Securities Act for purposes of a public offering of securities of the Company (including, but not limited to, registration statements relating to secondary offerings of securities of the

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

Company, but excluding Special Registration Statements) and will afford each such Holder an opportunity to include in such registration statement all or part of such Registrable Securities held by such Holder. Each Holder desiring to include in any such registration statement all or any part of the Registrable Securities held by it shall, within twenty (20) days after the above-described notice from the Company, so notify the Company in writing. Such notice shall state the intended method of disposition of the Registrable Securities by such Holder. If a Holder decides not to include all of its Registrable Securities in any registration statement thereafter filed by the Company, such Holder shall nevertheless continue to have the right to include any Registrable Securities in any subsequent registration statement or registration statements as may be filed by the Company with respect to offerings of its securities, all upon the terms and conditions set forth herein.

(b) Underwriting. (i) If the registration statement with respect to which the Company gives notice under this Section 2.2 is for an underwritten offering, the Company shall so advise the Holders of Registrable Securities. In such event, the right of any such Holder to be included in a registration pursuant to this Section 2.2 shall be conditioned upon such Holder's

4

participation in such underwriting and the inclusion of such Holder's Registrable Securities in the underwriting to the extent provided herein. All Holders proposing to distribute their Registrable Securities through such underwriting shall enter into an underwriting agreement in customary form with the underwriter or underwriters selected for such underwriting by the Company. Notwithstanding any other provision of this Agreement, if the underwriter determines in good faith that marketing factors require a limitation of the number of shares to be underwritten, the number of shares that may be included in the underwriting shall be allocated, first, to the Company; second, to the Holders on a pro rata basis based on the total number of Registrable Securities proposed to be sold in the offering held by the Holders; and third, to any shareholder of the Company (other than a Holder) on a pro rata basis. In no event will shares of any other selling shareholder be included in such registration which would reduce the number of shares which may be included by Holders without the written consent of Holders of not less than sixty-six and two-thirds percent (66 2/3%) of the Registrable Securities proposed to be sold in the offering.

(ii) If any Holder disapproves of the terms of any such underwriting, such Holder may elect to withdraw therefrom by written notice to the Company and the underwriter, delivered at least ten (10) business days prior to the effective date of the registration statement. Any Registrable Securities excluded or withdrawn from such underwriting shall be excluded and withdrawn from the registration.

(c) Right to Terminate Registration. (i) The Company shall have the right to terminate or withdraw any registration initiated by it under this Section 2.2 prior to the effectiveness of such registration whether or not any Holder has elected to include securities in such registration. The Registration Expenses of such withdrawn registration shall be borne by the Company in accordance with Section 2.4 hereof.

(d) Registrations effected pursuant to this Section 2.2 shall not be counted as Form S-3 registrations effected pursuant to Sections 2.3.

2.3 Form S-3 Registration. 2.4 Form S-3 Registration. In case the Company shall receive from any Holder or Holders of a majority of the Registrable Securities (the "Initiating Holders") a written request or requests that the Company effect a registration on Form S-3 (or any successor to Form S-3) or any

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

similar short-form registration statement and any related qualification or compliance with respect to all or a part of the Registrable Securities owned by such Holder or Holders, the Company will:

(a) promptly give written notice of the proposed registration, and any related qualification or compliance, to all other Holders of Registrable Securities; and

(b) as soon as practicable, effect such registration and all such qualifications and compliances as may be so requested and as would permit or facilitate the sale and distribution of all or such portion of such Holder's or Holders' Registrable Securities as are specified in such request, together with all or such portion of the Registrable Securities of any other Holder or Holders joining in such request as are specified in a written request given within fifteen (15) days after receipt of such written notice from the Company; provided, however, that the Company shall not be obligated to effect more than

5

two (2) registrations on Form S-3 and shall not be obligated to effect any such registration, qualification or compliance pursuant to this Section 2.3:

(i) if Form S-3 is not available for such offering by the Holders; or

(ii) if the Holders, together with the holders of any other securities of the Company entitled to inclusion in such registration, propose to sell Registrable Securities and such other securities (if any) at an aggregate price to the public of less than one million dollars (\$1,000,000) (unless the registration request is for all remaining Registrable Securities).

(c) Subject to the foregoing, the Company shall file a Form S-3 registration statement covering the Registrable Securities and other securities so requested to be registered as soon as practicable after receipt of the request or requests of the Holders. If the registration statement under which the Company files under this Section 2.3 is an underwritten offering, the Company shall so advise the Holders of Registrable Securities. In such event the right of any Holder to be included in a registration pursuant to this Section 2.3 shall be conditioned upon such Holder's participation in such underwriting and the inclusion of such Holder's Registrable Securities in the underwriting to the extent provided herein. All Holders proposing to distribute their Registrable Securities through such underwriting shall enter into an underwriting agreement in customary form with the underwriter or underwriters selected for such underwriting by the Holders.

2.4 Expenses of Registration. Except as specifically provided herein, all Registration Expenses incurred in connection with each registration under Section 2.2 or Section 2.3 herein shall be borne by the Company. All Selling Expenses incurred in connection with any registrations hereunder, shall be borne by the holders of the securities so registered pro rata on the basis of the number of shares so registered. The Company shall not, however, be required to pay for (i) expenses of any registration proceeding begun pursuant to Section 2.3, the request of which has been subsequently withdrawn by the Initiating Holders unless (a) the withdrawal is based upon material adverse information concerning the Company of which the Initiating Holders were not aware at the time of such request or (b) the Holders of sixty-six and two-thirds percent (66 2/3%) of Registrable Securities agree to forfeit their right to one demand registration pursuant to Section 2.3, as applicable, in which event such right shall be forfeited by all Holders). If the Holders are required to pay the Registration Expenses, such expenses shall be borne by the holders of securities (including Registrable Securities) requesting such registration in proportion to

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

the number of shares for which registration was requested. If the Company is required to pay the Registration Expenses of a withdrawn offering pursuant to clause (a) above, then the Holders shall not forfeit their rights pursuant to Section 2.3 to a demand registration.

2.5 Obligations of the Company. Whenever required to effect the registration of any Registrable Securities, the Company shall, as expeditiously as reasonably possible:

(a) prepare and, after a request or demand (as the case may be) for registration has been given to the Company, file with the Commission a registration statement with respect to such Registrable Securities and use its best efforts to cause such registration statement to become effective; provided,

6

that the Company may discontinue any registration of its securities which is being effected pursuant to Section 2.2 at any time prior to the effective date of the registration statement;

(b) prepare and file with the Commission such amendments and supplements to any registration statement referred to in clause (i) of this Section 2.5 and the prospectus used in connection therewith as may be necessary to keep such registration statement effective for a period not in excess of one hundred eighty (180) days (except with respect to any registration statement filed pursuant to Rule 415 under the Securities Act if the Company is eligible to file a Form S-3 registration statement, in which case the Company shall use its best efforts to keep such registration statement effective and updated until such time as all of the Registrable Securities have been disposed of in accordance with the intended methods of disposition by the Holder or Holders set forth in such registration statement) and to comply with the provisions of the Securities Act with respect to the disposition of all Registrable Securities covered by such registration statement during such period in accordance with the intended methods of disposition by the seller or sellers thereof set forth in such registration statement; provided, that before filing a registration statement or prospectus, or any amendments or supplements thereto, the Company will furnish to one counsel selected by the Holders holding a majority of the Registrable Securities covered by such registration statement to represent all Holders of Registrable Securities covered by such registration statement, copies of all documents proposed to be filed, which documents will be subject to the review of such counsel;

(c) if such registrable securities have not been registered under Section 12 of the Exchange Act, prepare and, in any event within 40 days after a request for registration has been given to the Company, file with the Commission a registration statement with respect to such Registrable Securities under the Exchange Act and use its best efforts to cause such registration statement to become effective; provided, that the Company may discontinue any registration of its securities which is being effected pursuant to Section 2.2 at any time prior to the effective date of the registration statement;

(d) furnish to each seller of such Registrable Securities such number of copies of any registration statement referred to in clause (i) of this Section 2.5 and of each amendment and supplement thereto (in each case including all exhibits), such number of copies of the prospectus included in such registration statement (including each preliminary prospectus and summary prospectus), and any other prospectus filed under Rule 424 under the Securities Act in conformity with the requirements of the Securities Act, and such other documents as such seller may reasonably request;

(e) use its best efforts to register or qualify such Registrable Securities covered by any registration statement referred to in clause (i) of

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

this Section 2.5 under such other securities or blue sky laws of such jurisdictions as each seller of such Registrable Securities shall reasonably request, and do any and all other acts and things which may be reasonably necessary or advisable to enable such seller to consummate the disposition in such jurisdictions of the Registrable Securities owned by such seller, except that the Company shall not for any such purpose be required to qualify generally to do business as a foreign corporation in any jurisdiction where, but for the requirements of this clause (v), it would not be obligated to be so qualified or to consent to general service of process in any such jurisdiction;

7

(f) use its best efforts to cause such Registrable Securities covered by a registration statement to be registered with or approved by such other governmental agencies or authorities as may be necessary to enable the seller or sellers thereof to consummate the disposition of such Registrable Securities;

(g) notify each seller of any such Registrable Securities covered by a registration statement, at any time when a prospectus relating thereto is required to be delivered under the Securities Act, of the Company's becoming aware that the prospectus included in such registration statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances then existing, and at the request of any such seller, prepare and furnish to such seller a reasonable number of copies of an amended or supplemental prospectus as may be necessary so that, as thereafter delivered to the sellers of such Registrable Securities, such prospectus shall not include an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances then existing;

(h) otherwise use its best efforts to comply with all applicable rules and regulations of the Commission, and make available to its security holders, as soon as reasonably practicable (but not more than eighteen months) after the effective date of the registration statement, an earnings statement which shall satisfy the provisions of Section 11(a) of the Securities Act and the rules and regulations promulgated thereunder;

(i) use its best efforts to list such Registrable Securities on any securities exchange or automated quotation system if (A) requested by Holders holding a majority of such Registrable Securities and (B) such listing is then permitted under the rules of such exchange or system, and to provide a transfer agent and registrar for such Registrable Securities covered by a registration statement not later than the effective date of such registration statement;

(j) enter into such customary agreements (including an underwriting agreement in customary form) and take such other actions as sellers of a majority of such Registrable Securities or the underwriters, if any, reasonably request in order to expedite or facilitate the disposition of such Registrable Securities;

(k) obtain a "cold comfort" letter or letters from the Company's independent public accountants in customary form and covering matters of the type customarily covered by "cold comfort" letters as the seller or sellers of a majority of such Registrable Securities shall reasonably request;

(l) obtain an opinion of counsel for the Company in customary form and covering matters of the type customarily covered in opinions of issuer's counsel as the seller or sellers of a majority of such Registrable Securities shall reasonably request; and

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

(m) make available for inspection by any seller of such Registrable Securities covered by a registration statement, by any underwriter participating in any disposition to be effected pursuant to such registration statement and by any attorney, accountant or other agent retained by any such seller or any such

8

underwriter, all pertinent financial and other records, pertinent corporate documents and properties of the Company, and cause all of the Company's officers, directors and employees to supply all information reasonably requested by any such seller, underwriter, attorney, accountant or agent in connection with such registration statement.

2.6 Termination of Registration Rights. A Holder's registration rights shall expire if all Registrable Securities held by and issuable to such Holder (and its affiliates, partners, former partners, members and former members) may be sold under Rule 144 during any ninety (90) day period.

2.7 Furnishing Information. It shall be a condition precedent to the obligations of the Company to take any action pursuant to Section 2.2 or 2.3 that the selling Holders shall furnish to the Company such information regarding themselves, the Registrable Securities held by them and the intended method of disposition of such securities as shall be required to effect the registration of their Registrable Securities.

2.8 Indemnification. In the event any Registrable Securities are included in a registration statement under Sections 2.2 or 2.3:

(a) To the extent permitted by law, the Company will indemnify and hold harmless each Holder, the partners, officers and directors of each Holder, any underwriter (as defined in the Securities Act) for such Holder and each person, if any, who controls such Holder or underwriter within the meaning of the Securities Act or the Exchange Act, against any losses, claims, damages, or liabilities (joint or several) to which they may become subject under the Securities Act, the Exchange Act or other federal or state law, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any of the following statements, omissions or violations (collectively a "Violation") by the Company: (i) any untrue statement or alleged untrue statement of a material fact contained in such registration statement, including any preliminary prospectus or final prospectus contained therein or any amendments or supplements thereto, (ii) the omission or alleged omission to state therein a material fact required to be stated therein, or necessary to make the statements therein not misleading, or (iii) any violation or alleged violation by the Company of the Securities Act, the Exchange Act, any state securities law or any rule or regulation promulgated under the Securities Act, the Exchange Act or any state securities law in connection with the offering covered by such registration statement; and the Company will pay as incurred to each such Holder, partner, officer, director, underwriter or controlling person for any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability or action; provided however, that the Company shall not be liable in any such case for any such loss, claim, damage, liability or action to the extent that it arises out of or is based upon a Violation which occurs in reliance upon and in conformity with written information furnished expressly for use in connection with such registration by such Holder, partner, officer, director, underwriter or controlling person of such Holder.

(b) To the extent permitted by law, each Holder will, if Registrable Securities held by such Holder are included in the securities as to which such registration qualifications or compliance is being effected, indemnify and hold harmless the Company, each of its directors, its officers and each person, if any, who controls the Company within the meaning of the Securities Act, any

underwriter and any other Holder selling securities under such registration statement or any of such other Holder's partners, directors or officers or any person who controls such Holder, against any losses, claims, damages or liabilities (joint or several) to which the Company or any such director, officer, controlling person, underwriter or other such Holder, or partner, director, officer or controlling person of such other Holder may become subject under the Securities Act, the Exchange Act or other federal or state law, insofar as such losses, claims, damages or liabilities (or actions in respect thereto) arise out of or are based upon any Violation, in each case to the extent (and only to the extent) that such Violation occurs in reliance upon and in conformity with written information furnished by such Holder under an instrument duly executed by such Holder and stated to be specifically for use in connection with such registration; and each such Holder will pay as incurred any legal or other expenses reasonably incurred by the Company or any such director, officer, controlling person, underwriter or other Holder, or partner, officer, director or controlling person of such other Holder in connection with investigating or defending any such loss, claim, damage, liability or action if it is judicially determined that there was such a Violation; provided, however, that in no event shall any indemnity under this Section 2.8 exceed the net proceeds from the offering received by such Holder.

(c) Promptly after receipt by an indemnified party under this Section 2.8 of notice of the commencement of any action (including any governmental action), such indemnified party will, if a claim in respect thereof is to be made against any indemnifying party under this Section 2.8, deliver to the indemnifying party a written notice of the commencement thereof and the indemnifying party shall have the right to participate in, and, to the extent the indemnifying party so desires, jointly with any other indemnifying party similarly noticed, to assume the defense thereof with counsel mutually satisfactory to the parties; provided, however, that an indemnified party shall have the right to retain its own counsel, with the fees and expenses to be paid by the indemnifying party, if representation of such indemnified party by the counsel retained by the indemnifying party would be inappropriate due to actual or potential differing interests between such indemnified party and any other party represented by such counsel in such proceeding. The failure to deliver written notice to the indemnifying party within a reasonable time of the commencement of any such action will not relieve it of any liability that it may have to any indemnified party otherwise than under this Section 2.8 except to the extent that the indemnifying party has been materially prejudiced.

(d) If the indemnification provided for in this Section 2.8 is held by a court of competent jurisdiction to be unavailable to an indemnified party with respect to any losses, claims, damages or liabilities referred to herein, the indemnifying party, in lieu of indemnifying such indemnified party thereunder, shall to the extent permitted by applicable law contribute to the amount paid or payable by such indemnified party as a result of such loss, claim, damage or liability in such proportion as is appropriate to reflect the relative fault of the indemnifying party on the one hand and of the indemnified party on the other in connection with the Violation(s) that resulted in such loss, claim, damage or liability, as well as any other relevant equitable considerations. The relative fault of the indemnifying party and of the indemnified party shall be determined by a court of law by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission to state a material

fact relates to information supplied by the indemnifying party or by the indemnified party and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission;

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

provided, that in no event shall any contribution by a Holder hereunder exceed the net proceeds from the offering received by such Holder.

(e) The obligations of the Company and Holders under this Section 2.8 shall survive completion of any offering of Registrable Securities in a registration statement and the termination of this agreement. No indemnifying party, in the defense of any such claim or litigation, shall, except with the consent of each indemnified party, consent to entry of any judgment or enter into any settlement which does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect to such claim or litigation.

2.9 Assignment of Registration Rights 2.10 Assignment of Registration Rights. The rights to cause the Company to register Registrable Securities pursuant to this Section 2 may be assigned by a Holder to a permitted transferee or assignee of Registrable Securities which (a) is a subsidiary, parent, general partner, limited partner, retired partner, member or retired member of a Holder, (b) is a Holder's family member or trust for the benefit of an individual Holder, or (c) is acquiring at least one hundred thousand (100,000) shares of Registrable Securities (as adjusted for stock splits and combinations); provided, however, (i) the transferor shall, at within ten (10) days after such transfer, furnish to the Company written notice of the name and address of such transferee or assignee and the securities with respect to which such registration rights are being assigned and (ii) such transferee shall agree to be subject to all restrictions set forth in this Agreement.

2.10 Limitation on Subsequent Registration Rights. Other than as provided in Section 3.12, after the date of this Agreement, the Company shall not, without the prior written consent of the Holders of at least a majority (50.1%) of the Registrable Securities then outstanding, enter into any agreement with any holder or prospective holder of any securities of the Company that would grant such holder registration rights *pari passu* or senior to those granted to the Holders hereunder.

2.11 "Holder Market Stand-Off" Agreement. (a) Each Holder hereby agrees that such Holder shall not sell, transfer, make any short sale of, grant any option for the purchase of, or enter into any hedging or similar transaction with the same economic effect as a sale, any Common Stock (or other securities) of the Company held by such Holder (other than those included in the registration) for a period specified by the representative of the underwriters of Common Stock of the Company not to exceed ninety (90) days following the effective date of a registration statement registering Common Stock; provided, that all officers and directors of the Company and holders of at least one percent (1%) of the Company's voting securities enter into similar agreements.

(b) The Company hereby agrees that it will cause its officers and directors and holders of at least one percent (1%) of its voting securities not to sell, transfer, make any short sale of, grant any option for the purchase of, or enter into any hedging or similar transaction with the same economic effect as a sale, any Common Stock (or other securities) of the Company held by such officers and directors and holders of at least one percent (1%) of its voting securities (other than those included in the registration) for a period specified by the

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

WARRANT

TO

PURCHASE COMMON STOCK

OF

GULFPORT ENERGY CORPORATION

This certifies that, for good and valuable consideration, Gulfport Energy Corporation, a Delaware corporation (the "Company"), grants to [_____] or its registered assigns (the "Warrantholder"), the right to subscribe for and purchase from the Company the number of duly authorized and validly issued fully paid and non-assessable shares of common stock, par value \$0.01 per share, of the Company (the "Common Stock") set forth in Subsection 1.1 at the Exercise Price (as defined in Subsection 1.2). This Warrant shall be exercisable at any time, and from time to time, from and after the date hereof (the "Initial Exercise Date") to and including 5:00 P.M., Central Standard Time on the date that is ten years after the Initial Exercise Date (the "Expiration Date"). The Exercise Price and the number of Warrant Shares are subject to adjustment from time to time as provided in Section 6.

SECTION 1. NUMBER OF WARRANT SHARES; EXERCISE PRICE.

1.1. NUMBER OF WARRANT SHARES. The Warrantholder shall initially have the right to subscribe for and purchase hereunder [___] shares of Common Stock

(the "Warrant Shares"). The number of Warrant Shares that the Warrantholder shall have the right to subscribe for and purchase from the Company is subject to adjustment as provided in Section 6.

1.2. EXERCISE PRICE. The exercise price per Warrant Share shall be \$4.00, subject to adjustment as provided in Section 6 (the "Exercise Price").

SECTION 2. DURATION AND EXERCISE OF WARRANT; LIMITATION ON EXERCISE; TAXES; TRANSFER; DIVISIBILITY.

2.1. DURATION AND EXERCISE OF WARRANT. This Warrant is immediately exercisable on the Initial Exercise Date and may be exercised, in whole or in part, at any time and from time to time from and after the Initial Exercise Date to the Expiration Date. The rights represented by this Warrant may be exercised by the Warrantholder of record, in whole or in part, from time to time, by (a) surrender of this Warrant, accompanied by the Exercise Form annexed hereto (the "Exercise Form") duly executed by the Warrantholder of record and specifying the number of Warrants Shares to be purchased to the Company at the office of the Company located at 6307 Waterford Blvd., Suite 100, Oklahoma City, Oklahoma 73118, Attention: Lisa Holbrook, Esq. (or such other office or agency of the Company as it may designate by notice to the Warrantholder at the address of such Warrantholder appearing on the books of the Company), during normal business hours on any day (a "Business Day") other than a Saturday, Sunday or a day on which the New York Stock Exchange is authorized to close (a "Nonbusiness Day"), or after 9:00 A.M. Central Standard Time on the Initial Exercise Date, but not later than 5:00 P.M. Central Standard Time on the Expiration Date (or 5:00 P.M. on the next succeeding Business Day, if the Expiration Date is a Nonbusiness Day), (b) payment of the Exercise Price by (i) delivery to the Company in cash or by certified or official bank check in New York Clearing House Funds, of an amount equal to the Exercise Price for the number of Warrant Shares specified in the Exercise Form, (ii) delivery to the Company of such number of shares of Cumulative Preferred Stock, Series A, par value \$0.01 per

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

share, of the Company having a Liquidation Preference plus accrued and unpaid dividends, if any, equal to the Exercise Price for the number of Warrant Shares specified in the Exercise Form, (iii) a combination of (i) and (ii), or (iv) notice that the Warrantholder elects to effect a cashless exercise as contemplated by Subsection 2.6, and (c) such documentation as to the identity and authority of the Warrantholder as the Company may reasonably request. Such Warrant Shares shall be deemed by the Company to be issued to the Warrantholder as the record holder of such Warrant Shares as of the close of business on the date on which this Warrant shall have been surrendered and payment made for the Warrant Shares as aforesaid. Certificates for the Warrant Shares specified in the Exercise Form shall be delivered to the Warrantholder as promptly as practicable, and in any event within ten (10) Business Days, thereafter. The stock certificates so delivered shall be in denominations as may be specified by the Warrantholder and shall be issued in the name of the Warrantholder or, if permitted by Subsection 2.4 and in accordance with the provisions thereof, such other name as shall be designated in the Exercise Form. If this Warrant shall have been exercised only in part, the Company shall, at the time of delivery of the certificates for the Warrant Shares, deliver to the Warrantholder a new Warrant evidencing the rights to purchase the remaining Warrant Shares, which new Warrant shall in all other respects be identical with this Warrant. No adjustments or payments shall be made on or in respect of Warrant Shares issuable on the exercise of this Warrant for any cash dividends paid or payable

2

to holders of record of Common Stock prior to the date as of which the Warrantholder shall be deemed to be the record holder of such Warrant Shares.

2.2. LIMITATION ON EXERCISE. If this Warrant is not exercised prior to 5:00 P.M. Central Standard Time on the Expiration Date (or the next succeeding Business Day, if the Expiration Date is a Nonbusiness Day), this Warrant, or any new Warrant issued pursuant to Subsection 2.1, shall cease to be exercisable and shall become void, and all rights of the Warrantholder hereunder shall cease.

2.3. PAYMENT OF TAXES. The issuance of certificates for Warrant Shares shall be made without charge to the Warrantholder for any stock transfer or other issuance tax in respect thereto; provided, however, that the Warrantholder shall be required to pay any and all taxes which may be payable in respect of any transfer involved in the issuance and delivery of any certificates for Warrant Shares in a name other than that of the then Warrantholder as reflected upon the books of the Company.

2.4. RESTRICTIONS ON TRANSFER. Neither this Warrant nor any of the Warrant Shares may be transferred or sold, in whole or in part, without the prior written consent of the Company and except in compliance with applicable United States federal and state securities laws. Subject to the foregoing, this Warrant and all rights hereunder are transferable, in whole or in part, by the Warrantholder and any such transfer is registrable at the office of the Company referred to in Subsection 7.6(a) by the Warrantholder in person or by its duly authorized attorney, upon surrender of this Warrant in accordance with Section 4. The Company may not transfer or assign any of its rights or obligations under this Warrant, or any portion thereof.

2.5. DIVISIBILITY OF WARRANT. This Warrant may be divided into multiple warrants upon surrender at the office of the Company referred to in Subsection 7.6(a) on any Business Day, without charge to the Warrantholder.

2.6. CASHLESS EXERCISE. At the option of the Warrantholder, the Warrantholder may exercise this Warrant, without a cash payment of the Exercise Price, through a reduction in the number of Warrant Shares issuable upon the exercise of the Warrant. Such reduction may be effected by designating that the number of the shares of Common Stock issuable to the Warrantholder upon such

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

exercise shall be reduced by the number of shares having an aggregate Fair Market Value as of the date of exercise equal to the amount of the total Exercise Price for such exercise. For purposes of this Warrant, the "Fair Market Value" of the Common Stock on any date in question shall be the average closing sale price of the Common Stock on the principal stock exchange, stock market or quotation market on which the Common Stock is traded for the thirty (30) Business Days immediately preceding such date, as quoted in The Wall Street Journal or other nationally recognized, reputable publication. If the Common Stock is not listed or qualified for trading or quotation on a stock exchange or stock market or national quotation system at such time, then the Fair Market Value shall be determined using such method as the Warrantholder and the Company shall agree. In connection with any cashless exercise, no cash or other consideration will be paid by the Warrantholder in connection with such exercise other than the surrender of the Warrant itself, and no commission or other remuneration will be paid or given by the Warrantholder or the Company in connection with such exercise.

3

Section 3. RESERVATION OF SHARES.

All Warrant Shares issued upon the exercise of the rights represented by this Warrant, upon issuance and payment of the Exercise Price in accordance with the terms of this Warrant, shall be validly issued, fully paid and non-assessable and free from all taxes, liens, security interests, charges and other encumbrances with respect to the issuance thereof other than taxes in respect of any transfer occurring contemporaneously with such issuance. The issuance of the Warrant Shares pursuant hereto will not be subject to, and will not violate, any preemptive or similar rights. During the period within which this Warrant may be exercised, the Company shall at all times have authorized and reserved, and keep available and free from preemptive or similar rights, a sufficient number of shares of Common Stock to provide for the exercise of this Warrant and of all other options or rights to purchase or subscribe for Common Stock and the conversion or exchange of all convertible or exchangeable securities of the Company.

SECTION 4. EXCHANGE, LOSS OR DESTRUCTION OF WARRANT.

If permitted by Subsection 2.4 or 2.5, upon surrender of this Warrant to the Company with a duly executed instrument of assignment and funds sufficient to pay any transfer tax, the Company shall, without charge, execute and deliver a new Warrant of like tenor in the name of the assignee named in such instrument of assignment and this Warrant shall promptly be canceled. Upon receipt by the Company of evidence reasonably satisfactory to it of the loss, theft, destruction or mutilation of this Warrant, the Company will execute and deliver a new Warrant of like tenor.

Section 5. OWNERSHIP OF WARRANT.

The Company may deem and treat the person or entity in whose name this Warrant is registered as the holder and owner hereof (notwithstanding any notations of ownership or writing hereon made by anyone other than the Company) for all purposes and shall not be affected by any notice to the contrary, until presentation of this Warrant for registration of transfer as provided in Subsections 2.1 and 2.5 or in Section 4.

Section 6. CERTAIN ADJUSTMENTS.

The Exercise Price at which Warrant Shares may be purchased hereunder and the number of Warrant Shares to be purchased upon exercise hereof are subject to change or adjustment as follows:

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

6.1. NOTICE OF ADJUSTMENT. Whenever the number of Warrant Shares or the Exercise Price of such Warrant Shares is adjusted, as herein provided, the Company shall promptly send by first class mail, postage prepaid, to the Warrantholder, notice of such adjustment.

6.2. PRESERVATION OF PURCHASE RIGHTS UPON MERGER, CONSOLIDATION. In case of any consolidation of the Company with or merger of the Company with or into

4

another entity or in case of any sale, transfer or lease to another entity of all or substantially all the assets or stock of the Company, the Warrantholder shall have the right thereafter upon payment of the Exercise Price in effect immediately prior to such action to receive upon exercise of this Warrant the kind and amount of shares and other securities and property which such holder would have been entitled to receive after the happening of such consolidation, merger, sale, transfer or lease had this Warrant been exercised immediately prior to such action, and the Company or such successor or purchasing entity, as the case may be, shall execute with the Warrantholder an agreement to that effect. Such agreement shall provide for adjustments, which shall be as nearly equivalent as practicable to the adjustments provided for in this Section 6. The provisions of this Subsection 6.2 shall apply similarly to successive consolidations, mergers, sales, transfers or leases.

6.3. ADJUSTMENTS.

- (a) Stock Dividends, Distributions or Subdivisions. In the event the Company at any time or from time after the date hereof shall issue additional shares of Common Stock pursuant to a stock dividend, stock distribution, subdivision, share split or reclassification, then, and in each such case, concurrently with the effectiveness of such event, the Exercise Price in effect immediately prior to such event shall be proportionately decreased with the number of Warrant Shares purchasable upon exercise of this Warrant immediately prior to such event shall be proportionately increased.
- (b) Combinations or Consolidations. In the event the outstanding shares of Common Stock shall be combined or consolidated, by reclassification, reverse split or otherwise, into a lesser number of shares of Common Stock, concurrently with the effectiveness of such event, the Exercise Price in effect immediately prior to such event shall be proportionately increased and the number of Warrant Shares purchasable upon exercise of this Warrant immediately prior to such event shall be proportionately decreased.
- (c) Issuance of Additional Shares of Common Stock.
 - (i) In the event the Company at any time or from time to time after the date hereof shall issue or sell Additional Shares (as defined below) without consideration or for a consideration per share less than the Exercise Price in effect immediately prior to the issuance, then the Exercise Price shall be reduced to the price at which such Additional Shares are issued. The total number of shares of Common Stock to be purchased under the Warrant shall be increased by dividing the new Exercise Price into the aggregate exercise amount of the Warrant prior to the lowering of the Exercise Price.

5

(ii) In the event the Company shall issue Additional Shares for a consideration per share less than the Fair Market Value of the Common Stock as of the date of such issuance, but greater than the Exercise Price in effect immediately prior to the issuance, then the Exercise Price shall be reduced (but in no event increased) to the amount determined by multiplying such Exercise Price by a fraction:

(A) the numerator of which is the number of shares of Common Stock outstanding immediately prior to the issuance of such Additional Shares plus the number of shares of Common Stock that the aggregate consideration, if any, received by the Company for the Additional Shares so issued would purchase at a price equal to the Fair Market Value of the Common Stock as of the date of issuance; and

6

(B) the denominator of which is the number of shares of Common Stock outstanding immediately prior to the issuance of such Additional Shares plus the number of Additional Shares so issued. The total number of shares of Common Stock to be purchased under the Warrant shall be increased by dividing the new Exercise Price into the aggregate exercise amount of the Warrant prior to the lowering of the Exercise Price.

(iii) If the Company issues Common Stock for a consideration in whole or in part other than cash, the consideration other than cash shall be deemed to be the fair value thereof as determined by mutual agreement of the Warrantholder and the Company.

(iv) If the Company issues options or rights to purchase or subscribe for Common Stock, securities convertible into or exchangeable for Common Stock or options or rights to purchase or subscribe for such convertible or exchangeable securities, the following provisions shall apply for all purposes of calculating the number of shares of Common Stock outstanding under this Subsection 6.3 upon the Exercise of the Warrants:

(A) The aggregate maximum number of shares of Common Stock deliverable upon exercise (assuming the satisfaction of any conditions to exercisability including, without limitation, the passage of time, but without taking into account potential antidilution adjustments) of such options or rights to purchase or subscribe for Common Stock shall be deemed to have been issued at the time such options or rights were issued and for a

6

consideration equal to the consideration, if any, received by the Company upon the issuance of such options or rights plus the exercise price provided in such options or rights (without taking into account potential antidilution adjustments) for the Common Stock covered thereby.

- (B) The aggregate maximum number of shares of Common Stock deliverable upon conversion of or in exchange (assuming the satisfaction of any conditions to convertibility or exchangeability, including, without limitation, the passage of time, but without taking into account potential antidilution adjustments) for any such convertible or exchangeable securities, or options or rights to purchase or subscribe therefore, shall be deemed to have been issued at the time such securities were issued or such options or rights were issued and for consideration equal to the consideration, if any, received by the Company for any such securities and related options or rights (excluding any cash received on account of accrued interest or accrued dividends), plus the additional consideration, if any, to be received by the Company (without taking into account potential antidilution adjustments) upon the conversion or exchange of such securities or the exercise of any related options or rights.
- (C) In the event of any change in the number of shares of Common Stock deliverable or in the consideration payable to the Company upon exercise of such options or rights or upon conversion of or in exchange for such convertible or exchangeable securities, including, but not limited to, a change resulting from the antidilution provisions thereof, the Exercise Price, to the extent previously adjusted upon the issuance of such options, rights or securities, shall be readjusted to reflect such change, but no further adjustment shall be made for the actual issuance of Common Stock or any payment of such consideration upon the exercise of any such options or rights or the conversion or exchange of such securities.
- (D) Upon the expiration of any such options or rights, the termination of any such rights to convert or exchange or the expiration of any options or rights related to such convertible or exchangeable securities, the Exercise Price, to the extent previously adjusted upon the issuance of such options, rights or securities or options or rights related to such securities, shall be readjusted to reflect the issuance of only the number

7

of shares of Common Stock (and convertible or exchangeable securities which remain in effect) actually issued upon the exercise of such options or rights, upon the conversion or exchange of such securities or upon the exercise of the options or rights related to such securities.

- (E) The number of shares of Common Stock deemed issued and the consideration deemed paid therefore pursuant to Subsections 6.3(c)(iv)(A) and (B) shall be appropriately adjusted to reflect any change, termination or expiration of the type described in either Subsection 6.3(c)(iv)(C) or (D).
- (F) Notwithstanding the foregoing provisions of this Subsection 6.3(c)(iv), the adjustments required by this

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

Subsection 6.3 with respect to the issuance of options under employee benefit plans of the Company shall be made, in the aggregate, only after the Warrantholder has notified the Company that it intends to exercise this Warrant, in whole or in part, at which time the required adjustments shall be made with respect to all such options that shall have been issued on or prior to the date of such notice and remain outstanding (it being understood that if any such options are actually exercised prior thereto, the appropriate adjustments, if any, shall be made pursuant to the applicable provision of this subsection 6.3(c) at the time of exercise).

- (v) "Additional Shares" shall mean any shares of Common Stock issued (or deemed to have been issued as contemplated by Subsection 6.3(c)(iv)) by the Company on or after the date of this Warrant other than (i) the Common Stock issued upon exercise of the Warrants, (ii) the issuance and sale of, or the grant of options to purchase up to 100,000 shares (subject to adjustment in accordance with Section 6.3(a) or (b)) of Common Stock, after the date of this Warrant, to employees, directors or officers of, or bona fide by the Company's Board of Directors, and (iii) Common Stock issued pursuant to the exercise of any stock option, warrant or other right to purchase Common Stock outstanding on the date of this Warrant.
- (vi) "Warrants" shall mean the warrants to purchase shares of Common Stock issued by the Company pursuant to the Securities Purchase Agreement (as defined below).

8

7.7. FRACTIONAL SHARES. No fractional shares or scrip representing fractional shares shall be issued upon the exercise of this Warrant. With respect to any fraction of a share called for upon any exercise hereof, the Company shall pay to the Warrantholder an amount in cash equal to such fraction multiplied by the Fair Market Value of a share of Common Stock as of the date of such exercise.

7.8. GOVERNING LAW; CONSENT TO JURISDICTION. This Warrant shall be governed by, and construed in accordance with, the laws of the State of New York (without giving effect to any choice or conflict of law provisions). Each of the parties hereby irrevocably and unconditionally submits to the jurisdiction of the courts of the State of New York and of the federal courts sitting in the State of New York in all actions or proceedings arising out of or relating to this Warrant. Each of the parties agrees that all actions or proceedings arising out of or relating to this Warrant must be litigated exclusively in any state or federal court in the City of New York, and accordingly, each party irrevocably waives any objection which it may now or hereafter have to the laying of the venue of any such litigation in any such court. Each of the parties hereby irrevocably and unconditionally waives its right to a jury trial in any action arising out of or relating to this Warrant.

7.9. **EQUITABLE RELIEF.** The Company recognizes that, in the event the Company fails to perform, observe or discharge any of its obligations or liabilities under this Warrant, any remedy of law may prove to be inadequate relief to the Warrantholder or any other holder, and therefore, the Company agrees that the Warrantholder or any other holder, if it so requests, shall be entitled to temporary and permanent injunctive relief in any such case without the necessity of proving actual damages, in addition to any other remedies that may be available to it at law or in equity.

7.10. **EXPENSES AND ATTORNEYS' FEES.** If, at any time or times, whether prior or subsequent to the date hereof, the Warrantholder employs counsel for advice or other representation or incurs reasonable legal and/or other costs and expenses in connection with:

10

- (a) the amendment, waiver or modification of any provision of this Warrant;
- (b) any litigation, contest, dispute, suite, proceeding or action (whether instituted by the Warrantholder, the Company or any other person) in any way relating to this Warrant, unless a court of competent jurisdiction finds in favor of the Company as the prevailing party, and awards court costs and attorneys' fees to the Company as such prevailing party; or
- (c) any attempt to enforce any rights of the Warrantholder against the Company or any other person that may be obligated to the Warrantholder by virtue of this Warrant in accordance with the terms of this Warrant;

then, in any such event, the reasonable attorneys' fees arising from such services and all reasonable expenses, costs, charges, and fees of counsel or of the Warrantholder in any way or respect arising in connection with or relating to any of the events or actions described in this subsection shall be payable on demand by the Company, to the Warrantholder.

7.11. **COUNTERPARTS.** This Warrant may be separately executed in counterparts and by the different parties hereto in separate counterparts, each of which when so executed shall be deemed to constitute one and the same Warrant.

CUMULATIVE PREFERRED STOCK, SERIES A

Pursuant to Section 151 of the
General Corporation Law of the State of Delaware

The following resolution has been duly adopted by the Board of Directors (such Board, including any committee thereof duly authorized to act on behalf of such Board, herein referred to as the "Board") of Gulfport Energy Corporation, a Delaware corporation (the "Corporation"), pursuant to the provisions of Section 151 of the General Corporation Law of the State of Delaware, which resolution remains in full force and effect as of the date hereof:

RESOLVED that, pursuant to the authority expressly granted to and vested in the Board by the provisions of the Certificate of Incorporation of the Corporation, as amended (collectively, the "Certificate of Incorporation") to fix by resolution or resolutions the designation, number and voting powers, if any, of each series of Preferred Stock, par value \$0.01 per share (the "Preferred Stock") of the Corporation and the preferences and relative, participating, optional and other special rights and qualifications, limitations and restrictions thereof, the Board hereby authorizes and creates a series of Preferred Stock on the terms and with the provisions (in addition to those set forth in the Certificate of Incorporation of the Corporation that are applicable

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

to all Preferred Stock) as follows:

SECTION 1. Designation, Number of Shares and Liquidation Preference. The series of Preferred Stock created by this resolution shall be designated the "Cumulative Preferred Stock, Series A" (the "Series A Preferred Stock"). The number of authorized shares of Series A Preferred Stock shall be 15,000. The liquidation preference of each share of Series A Preferred Stock (the "Liquidation Preference") shall be \$1,000.00.

SECTION 2. Rank. The Series A Preferred Stock shall, as to the payment of dividends and the distribution of assets upon the liquidation, dissolution or winding up of the Corporation, rank (i) prior to the Common Stock, par value \$.01 per share (the "Common Stock"), and any other capital stock, of the

Corporation (other than any other class or series of a class of capital stock of the Corporation the terms of which expressly provide that the shares thereof rank senior or on a parity as to the payment of dividends and the distribution of assets upon the liquidation, dissolution or winding up of the Corporation with the shares of the Series A Preferred Stock) (such securities, other than those described in the immediately preceding parenthetical clause, collectively referred to herein as the "Junior Securities") and (ii) on a parity with any other class or series of a class of capital stock of the Corporation the terms of which expressly provide that the shares thereof rank on a parity as to the payment of dividends and the distribution of assets upon liquidation, dissolution or winding up of the Corporation with the shares of the Series A Preferred Stock (the "Parity Securities").

SECTION 3. Dividends. (a) (i) The holders of outstanding shares of Series A Preferred Stock shall be entitled to receive, in preference to the holders of shares of Junior Securities, out of funds of the Corporation legally available for the payment of dividends, a cumulative dividend at the rate per annum of \$120 per share of Series A Preferred Stock, subject to the provisions of Subsection (ii) below (the "Series A Preferred Dividend"). Dividends shall accrue and be payable quarterly, in arrears on each June 30, September 30, December 31, and March 31 (each a "Dividend Payment Date"), commencing on June 30, 2002. Each quarter, to the extent the Corporation has funds legally available, the Board of Directors of the Corporation shall declare and the Corporation shall pay the Series A Preferred Dividend to the holders of the Series A Preferred Stock. Each such quarterly dividend shall be cumulative and shall accumulate, whether or not earned or declared and whether or not there are funds of the Corporation legally available for payment of dividends, for the period (each, a "Dividend Period") commencing on and including the most recent Dividend Payment Date to which dividends have been paid or accumulated to but excluding the next succeeding Dividend Payment Date, except (x) that the Dividend Period terminating on June 30, 2002 (the "Initial Dividend Period") shall commence on and include the date of original issuance of the Series A Preferred Stock and (y) as otherwise provided in Sections 4 and 6 with respect to shares of Series A Preferred Stock that are redeemed or with respect to which distributions are made upon a Liquidation Transaction (as defined in Section 6).

(ii) Dividends shall be payable, net of any amounts required to be withheld for or with respect to taxes, to holders of record as they appear on the stock books of the Corporation at the close of business on such record dates, not more than 60 days nor less than 10 days prior to the respective Dividend Payment Date, as shall be fixed by the Board. If any Dividend Payment Date is not a Business Day (as defined below), the quarterly dividend to be paid on such Dividend Payment Date shall be paid on the next following Business Day. A "Business Day" means any day that is not a Saturday, Sunday or other day on which commercial banks in New York City are required or authorized by law to be closed. Dividends shall be payable in cash; provided, however, the Board may, at its option, with respect to any Dividend Period ending on or prior to March

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

31, 2004, in lieu of declaring a cash dividend for such Dividend Period, declare a dividend payable in whole or in part in shares of Series A Preferred Stock, provided, further, that if the Board elects to pay such a dividend, the sum of (1) the aggregate Liquidation Preference of the shares of Series A Preferred

2

Stock declared as a dividend, and (2) any cash so paid as a dividend shall equal 125% of the cash dividend accruing for such Dividend Period without regard to this and the preceding proviso. Accumulated and unpaid dividends for any past Dividend Periods shall be declared and paid at such time as the Corporation has funds legally available therefor, without reference to any Dividend Payment Date, to holders of record on such date, not exceeding 45 days preceding the payment date thereof, as may be fixed by the Board.

(iii) Payments of dividends in cash shall be made in coin or currency of the United States that as of the date of payment shall be legal tender for payment of public and private debts by mailing a check to each holder of shares of Series A Preferred Stock at the address of such holder as shown on the stock books of the Corporation.

(iv) Payments of dividends in Series A Preferred Stock shall be made by mailing within five (5) days of the relevant Dividend Payment Date to each holder of shares of Series A Preferred Stock at the address of such holder as shown on the stock books of the Corporation (a) a certificate or certificates representing the shares of Series A Preferred Stock to which such holder is entitled and (b) a check made payable for an amount corresponding to any fractional interest in a share of Series A Preferred Stock as provided in this clause (iv). All shares of Series A Preferred Stock issued and delivered pursuant to Subsection 3(a)(ii) will upon issuance by the Corporation and delivery be duly and validly issued, fully paid and nonassessable. If any shares of Series A Preferred Stock are listed on any national securities exchange, the Corporation shall, if permitted by the rules of such exchange, list the shares of Series A Preferred Stock to be delivered pursuant to Subsection 3(a)(ii), prior to such payment, on such exchange. The Corporation shall have the option of issuing fractional shares of Series A Preferred Stock or scrip representing fractional shares of Series A Preferred Stock upon payment of dividends or, in lieu thereof, paying a cash adjustment in respect of such fractional interest in an amount equal to that fraction of the Liquidation Preference. The Corporation shall pay all documentary, stamp, transfer or other transactional taxes attributable to the issuance or delivery of shares of Common Stock pursuant to this Section 3; provided that the Corporation shall not be required to pay any taxes payable in respect of any transfer involved in the issuance or delivery of any certificates representing such shares of Series A Preferred Stock in a name other than that of the holder of the shares of Series A Preferred Stock in respect of which such certificates are being issued and no such issuance or delivery shall be made unless and until the holder requesting such issuance has paid to the Corporation the amount of any such tax or has established to the reasonable satisfaction of the Corporation that such tax is not required to be paid.

(b) Subject to the provisions of Subsection 3(a)(ii) above, the amount of dividends payable for each full Dividend Period for the Series A Preferred Stock shall be computed by dividing the annual cash dividend rate by four. The amount of dividends payable for the Initial Dividend Period, or any other period shorter or longer than a full Dividend Period, on the Series A Preferred Stock shall be computed on the basis of a 360-day year consisting of twelve 30-day months. Holders of shares of Series A Preferred Stock shall not be entitled to any dividends, whether payable in cash, property or stock, in excess of cumulative dividends, as herein provided, on the Series A Preferred Stock.

(c) All dividends paid with respect to shares of Series A Preferred Stock

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

shall be paid pro rata to the holders entitled thereto.

3

(d) When dividends are not paid in full upon the Series A Preferred Stock, any dividends declared or paid upon shares of Series A Preferred Stock and any Parity Securities shall be declared or paid, as the case may be, pro rata so that the amounts of dividends declared or paid, as the case may be, per share on the Series A Preferred and such other Parity Securities in all cases bear to each other the same ratio that accumulated and unpaid dividends per share on the shares of Series A Preferred Stock and such other Parity Securities bear to each other. No interest, or sum of money in lieu of interest, shall be payable in respect of any dividend payment or payments on the Series A Preferred Stock, or any Parity Security, which may be in arrears.

(e) Unless full cumulative dividends on the Series A Preferred Stock have been or contemporaneously are declared by the Board and paid or declared and an amount of cash or, to the extent permitted under Subsection 3(a)(ii), shares of Series A Preferred Stock, as the case may be, sufficient for the payment thereof set apart by the Corporation for all Dividend Periods terminating on or prior to the date of payment of dividends on any Junior Securities, no dividends shall be declared or paid or any sum set apart for such payment or any other distribution made on or with respect to such Junior Securities for any period, other than dividends payable or distributions made in shares of Junior Securities.

(f) Unless full cumulative dividends on the Series A Preferred Stock have been or contemporaneously are declared by the board and paid or declared and an amount of cash or, to the extent permitted under Subsection 3(a)(ii), shares of Series A Preferred Stock, as the case may be, sufficient for the payment thereof set apart by the Corporation for all Dividend Periods terminating on or prior to the date of any event described in clause (x) or (y) of this Subsection 3(f), the Corporation shall not, and shall not permit its Subsidiaries to (x) redeem, purchase, retire or otherwise acquire for any consideration any shares of Series A Preferred Stock, unless (A) all shares of Series A Preferred Stock outstanding shall be redeemed or (B) the shares of Series A Preferred Stock are redeemed, purchased, retired or otherwise acquired pro rata from among the holders of the shares then outstanding or (y) redeem, purchase, retire or otherwise acquire for any consideration, or make any payment on account of a sinking fund or other similar fund for redemption, purchase, retirement or acquisition of, any Junior Securities or any Parity Securities, or any warrant, right or option to purchase any thereof, or make any distribution in respect thereof, directly or indirectly, whether in cash, obligations or securities of the Corporation or other property, except (i) in the case of Junior Securities, redemptions, purchases, retirements, acquisitions or distributions made in shares of Junior Securities or redemptions, purchases or acquisitions of shares of Common Stock for purposes of any employee benefit plan or program of the Corporation or any Subsidiary and (ii) in the case of Parity Securities, redemptions, purchases, retirements, acquisitions or distributions made pro rata so that the amounts redeemed, purchased, retired or otherwise acquired or paid or distributed in respect thereof, as the case may be, per share on the Series A Preferred Stock and such other Parity Securities in all cases bear to each other the same ratio that accumulated and unpaid dividends on the Series A Preferred Stock and such other Parity Securities bear to each other. A "Subsidiary" means any corporation, association or other business entity more than 50% of the shares of stock of any class or classes (or equivalent interests) of which is at the time owned by the Corporation or by one or more Subsidiaries of the Corporation or by the Corporation and one or more Subsidiaries of the Corporation, if the holders of the stock of such class or classes (or equivalent interests) are ordinarily,

4

in the absence of contingencies, entitled to vote for the election of a majority

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

of the directors (or Persons performing similar functions) of such business entity. A "Person" means any individual, corporation, limited liability company, partnership, firm, joint venture, association, joint stock company, trust, unincorporated organization, governmental or regulatory authority or other entity.

SECTION 4. Redemption. (a) (i) To the extent the Corporation shall have funds legally available therefor, the Series A Preferred Stock shall be subject to redemption in cash, at the option of the Corporation, at any time, in part from time to time or in whole, at a price per share (the "Optional Redemption Price") equal to (x) 100% of the Liquidation Preference per share plus (y) an amount per share equal to all accrued and unpaid cash dividends thereon, whether or not declared or payable, to the date fixed by the Corporation for such redemption (an "Optional Redemption Date").

(ii) On March 29, 2007 (the "Mandatory Redemption Date"), the Corporation shall redeem out of the assets of the Corporation legally available therefor, all of the shares of Series A Preferred Stock then outstanding at a price per share (the "Mandatory Redemption Price") payable in cash equal to (x) 100% of the Liquidation Preference per share plus (y) an amount per share equal to all accrued and unpaid dividends thereon, whether or not declared or payable, to the Mandatory Redemption Date.

(b) (i) Notice of any redemption pursuant to Subsection 4(a) shall be given not less than 30 nor more than 60 days prior to the Optional Redemption Date or Mandatory Redemption Date, as the case may be, to each holder of record of the shares to be redeemed, by first class mail, postage prepaid, at such holder's address as the same appears on the stock records of the Corporation. Neither the failure to mail any such notice, nor any defect therein or in the mailing thereof, to any particular holder, shall affect the sufficiency of the notice or the validity of the proceedings for redemption with respect to the other holders. Any notice mailed in the manner herein provided shall be conclusively presumed to have been duly given on the date mailed, whether or not the holder receives the notice. Each such notice shall state, in addition to any information the Corporation deems appropriate: (i) the Optional Redemption Date or Mandatory Redemption Date, as the case may be; (ii) the number of shares of Series A Preferred Stock of such holder to be redeemed; (iii) the applicable redemption price; and (iv) the place or places where certificates for shares of Series A Preferred Stock are to be surrendered for redemption.

(ii) In order to facilitate the redemption of the Series A Preferred Stock, the Board may cause the transfer books of the Corporation for the Series A Preferred Stock to be closed, not more than 60 days or less than 30 days prior to the Optional Redemption Date or Mandatory Redemption Date, as the case may be.

(c) (i) From and after the Optional Redemption Date or Mandatory Redemption Date, as the case may be (unless the Corporation shall fail to set apart the cash necessary to effect such redemption), (x) except as otherwise provided herein, dividends on the shares of the Series A Preferred Stock so

5

called for redemption shall cease to accrue, (y) such shares of Series A Preferred Stock shall no longer be deemed to be outstanding and (z) all rights of the holders thereof as holders of Series A Preferred Stock shall cease except as provided in clause (iii) of this Subsection 4(c).

(ii) The Corporation's obligation to pay the Optional Redemption Price or the Mandatory Redemption Price in accordance with clause (i) of this Subsection 4(c) shall be deemed fulfilled if, on or before the Optional Redemption Date or Mandatory Redemption Date, as the case may be, the Corporation shall deposit

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

with a bank or trust company that has an office in the borough of Manhattan, City of New York, and that has a capital and surplus of at least \$50,000,000, cash in the amount of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, in trust, with irrevocable instructions that such cash be applied to the redemption of the shares of Series A Preferred Stock called for redemption.

(iii) Unless the Corporation defaults in the payment of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, the shares of Series A Preferred Stock to be redeemed shall from and after the close of business on the Optional Redemption Date or the Mandatory Redemption Date, as the case may be, cease to accumulate dividends and the only right of the holders of such shares shall be to receive payment of the Optional Redemption Price or the Mandatory Redemption Price, as the case may be. No interest shall accrue for the benefit of the holders of Series A Preferred Stock to be redeemed on any sum set aside by the Corporation in connection with a redemption pursuant to this Section 4. Subject to applicable escheat laws, any cash unclaimed at the end of two years from the Optional Redemption Date or the Mandatory Redemption Date, as the case may be, shall revert to the general funds of the Corporation and, upon demand, such bank or trust company shall pay over to the Corporation such unclaimed cash, and thereupon such bank or trust company shall be relieved of all responsibility in respect thereof and any holder of Series A Preferred Stock shall look only to the general funds of the Corporation for the payment of such cash. Any interest accrued on cash deposited pursuant to this Subsection 4(c) shall be paid from time to time to the Corporation for its own account.

(iv) As promptly as possible after the surrender of the certificates for any shares of Series A Preferred Stock redeemed pursuant to this Section 4 (with appropriate endorsements and any transfer documents reasonably requested by the corporation or any transfer agent designated by the Corporation), such certificates shall be exchanged for the Optional Redemption Price or Mandatory Redemption Price, as the case may be, for such shares.

(d) In the event that the Corporation shall default in the payment of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, the shares of Series A Preferred Stock so called for redemption shall thereafter be deemed to be outstanding and the holders thereof shall have all of the rights of a holder of Series A Preferred Stock; provided, however, that the Corporation shall pay such Optional Redemption Price or Mandatory Redemption Price, in whole or in part, as soon as it has funds legally available therefor.

(e) Any fraction of a share of Series A Preferred Stock may be redeemed in the same manner in which a whole share of Series A Preferred Stock may be

6

redeemed pursuant to this Section 4, provided that the cash payable upon the redemption of such fractional interest shall be determined by multiplying the cash payment upon the redemption of one share of Series A Preferred Stock by that fraction.

(f) Upon any redemption of Series A Preferred Stock, the Corporation shall pay all accumulated and unpaid dividends (whether or not earned or declared) to but excluding the Optional Redemption Date or the Mandatory Redemption Date, as the case may be. If the Optional Redemption Date or the Mandatory Redemption Date, as the case may be, falls after a dividend payment record date and prior to the corresponding Dividend Payment Date, then each holder of Series A Preferred Stock at the close of business on such dividend payment record date shall be entitled to the dividend payable on such shares on the corresponding Dividend Payment Date (but without duplication of any amounts payable pursuant to the preceding sentence in respect of accumulated and unpaid dividends), notwithstanding the redemption of such shares before such Dividend Payment Date.

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

(g) Payment of the Optional Redemption Price or the Mandatory Redemption Price, as the case may be, to a holder of shares of Series A Preferred Stock shall be made in coin or currency of the United States that as of the date of payment shall be legal tender for payment of public and private debts by mailing a check to such holder at the address of such holder as shown on the stock books of the Corporation.

SECTION 5. Shares to be Retired. All shares of Series A Preferred Stock purchased or redeemed by the Corporation shall be retired and cancelled and shall be restored to the status of authorized but unissued shares of Preferred Stock, without designation as to series.

SECTION 6. Liquidation. (a) The shares of Series A Preferred Stock shall rank prior to the shares of Junior Securities upon liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary (a "Liquidation Transaction"), so that in the event of any Liquidation Transaction, the holders of shares of Series A Preferred Stock then outstanding shall be entitled to receive out of the assets or surplus funds of the Corporation available for distribution to its stockholders, or proceeds thereof, whether from capital, surplus or earnings, before any distribution is made to holders of any Junior Securities, a liquidation preference in an amount per share of Series A Preferred Stock equal to the Liquidation Preference, plus an amount equal to all dividends (whether or not earned or declared) accumulated and unpaid on the shares of Series A Preferred Stock to the date of final distribution.

(b) If, upon any Liquidation Transaction, the assets or surplus funds of the Corporation, or proceeds thereof, whether from capital, surplus or earnings, distributable among the holders of shares of Series A Preferred Stock and any Parity Securities then outstanding are insufficient to pay in full the preferential liquidation payments due to such holders, such assets, surplus funds or proceeds shall be distributable among such holders ratably in accordance with the amounts that would be payable on such shares of Series A Preferred Stock and Parity Securities if all amounts payable thereon were payable in full.

7

(c) Neither the consolidation, merger or other business combination of the Corporation with or into any other Person or Persons nor the sale or transfer of all or substantially all the assets of the Corporation shall be deemed to be a Liquidation Transaction.

SECTION 7. Voting Rights. (a) The holders of shares of Series A Preferred Stock shall not be entitled to any voting rights except as provided in this Section 7, the Certificate of Incorporation of the Corporation or as otherwise required by law.

(b) So long as any shares of Series A Preferred Stock are outstanding, unless the vote or consent of the holders of a greater number of shares shall be required by law or by the Certificate of Incorporation, the affirmative vote of at least 66 2/3% of the votes entitled to be cast by the holders of the shares of Series A Preferred Stock given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, shall be necessary for effecting or validating:

(i) Any amendment, alteration or repeal of any of the provisions of the Certificate of Incorporation that adversely affects the voting powers, rights or preferences of the holders of the Series A Preferred Stock; provided, that the amendment of the provisions of the Certificate of Incorporation so as to authorize or create, or to increase the authorized amount of, any shares of any Junior Securities or any shares of any class

Edgar Filing: GULFPORT ENERGY CORP - Form 10-Q

of Parity Securities shall not be deemed to have a material adverse effect on the voting powers, rights or preferences of the holders of Series A Preferred Stock; or

(ii) the authorization or creation of, or the increase in the authorized amount of, any shares of (x) any class or series of a class of capital stock of the Corporation the terms of which expressly provide that the shares thereof rank senior as to the payment of dividends or the distribution of assets upon the liquidation, dissolution or winding up of the Corporation to the shares of the Series A Preferred Stock (the "Senior Securities") or (y) any security convertible into, or exchangeable or exercisable for, shares of any Senior Securities;

provided, however, that no such vote of the holders of Series A Preferred Stock shall be required if the time when such amendment, alteration or repeal is to take effect, or when the issuance of any such Senior Securities or security convertible into, or exchangeable or exercisable for, Senior Securities is to be made, as the case may be, is after the Mandatory Redemption Date or an Optional Redemption Date for all outstanding shares of Series A Preferred Stock and the Mandatory Redemption Price or Optional Redemption Price of the Series A Preferred Stock, as the case may be, shall have been irrevocably deposited as provided in clause (ii) of Subsection 4(c).

For purposes of the foregoing provisions of this Section 7, each share of Series A Preferred Stock shall have one vote per share. Except as otherwise required by applicable law or as set forth herein, the shares of Series A Preferred Stock shall not have any relative, participating, optional or other special voting rights and powers and the consent of the holders thereof shall not be required for the taking of any corporate action.
