PRESIDENT'S LETTER TO SHAREHOLDERS

To our Shareholders:

While the past year has proven to be the most challenging and difficult year for the financial services industry since the Great Depression, we are gratified to report a year of solid earnings and strong loan growth at Home Federal. More importantly, we believe fiscal 2009 represents a turning point in our 85-year history as we have taken significant steps to implement our strategic plan to transition Home Federal from a traditional savings institution to a full service community bank.

In February 2009, we were pleased to announce the appointment of James R. Barlow as Home Federal Bank's new President and Chief Operating Officer and the addition of a new commercial lending team. Jim and his lending team bring to Home Federal a significant amount of commercial and corporate lending expertise and experience in the local market area. These new officers and additional personnel are providing us with the opportunity to attract small to mid-size business customers. Shortly after adding our new lending team, we introduced a combination of commercial loan and deposit products to our existing and new customers that led to an increase in our loan portfolio and contributed to improved interest rate margins by year end. While our new executives and lending team hit the ground running, our new products and services have only been available for a few months and so we believe the true benefits will best be measured over the next two to three years.

We are making significant investments in the future of Home Federal. After the close of the fiscal year, we began offering full-service investment services through a national financial service company which provides our customers with access to securities brokerage, investment planning, as well as wealth and asset management services. We are upgrading our technology infrastructure and will convert to a full service commercial banking platform in 2010, which will enable us to provide the products and services that sophisticated retail and commercial customers in our market have come to expect from their financial institution. We will continue our marketing efforts to highlight the changes customers can expect at Home Federal. We are remodeling our Youree Drive branch to feature the new design for Home Federal and demonstrate that we are moving in a new direction to bring our customers A Better Way of banking.

As noted above, our Board of Directors is committed to a business strategy of transitioning Home Federal to a full service community bank with a wide array of products and services. Initially, we sought to achieve this objective through our second step conversion and acquisition of a local commercial bank. We announced these transactions in December 2007, when market conditions for bank stocks were relatively good. Regrettably, by the time we commenced our offering, the dramatic decline in the value of banking stocks made the proposed offering and acquisition imprudent, resulting in a decision to terminate the offering and merger. At the time of termination, we took a significant charge related to these transactions which had a material adverse effect on earnings in 2008. Once the merger was terminated, our Board decided to build out our management team in order to expand our products and services to position the Company for organic growth. Over the next several years we believe we are well positioned to grow our loan portfolio and depositor base, especially in light of the difficulties experienced by so many regional banks within our market area. In the future, we hope to expand our footprint in the Shreveport/Bossier area by adding additional full service offices.

Throughout this period of transition, Home Federal will stay true to its guiding principles of prudent capital and risk management. Our focus will remain on providing quality services to our growing customer base. We will emphasize maintaining our superior asset quality and managing our interest rate risk.

Edgar Filing: HOME FEDERAL BANCORP, INC. OF LOUISIANA - Form ARS

On behalf of our Board of Directors, officers and associates at Home Federal, we thank you for the trust you have placed in us and your continued support.

Daniel R. Herndon
President and Chief Executive Officer

Home Federal Bancorp, Inc. of Louisiana

SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA

The following selected consolidated financial and other data does not purport to be complete and is qualified in its entirety by the more detailed financial information contained elsewhere herein. You should read the consolidated financial statements and related notes contained in this Annual Report.

	At or For the Year Ended June 30,	
(Dollars in Thousands, except per share data)	2009	2008
Selected Financial and Other Data:		
Total assets	\$ 154,766	\$ 137,715
Cash and cash equivalents	10,007	7,363
Securities available-for-sale	92,647	96,324

Selected Operating Data:		
Total interest income	\$ 7,596	\$ 7,004
Total interest expense	3,838	3,968
Net interest income	3,758	3,036
Provision for loan losses	240	--
Net interest income after provision for loan losses	3,518	3,036
Total non-interest income	363	198
Total non-interest expense	(3,113)	(3,359)
Income (loss) before income taxes	768	(125)
Income tax expense (benefit)	253	(43)
Net income (loss)	\$ 515	\$ (82)
Selected Operating Ratios(1):		
Average yield on interest-earning assets	5.21 %	5.39 %
Average rate on interest-bearing liabilities	3.32	4.00
Average interest rate spread(2)	1.89	1.39
Net interest margin(2)	2.58	2.33
Average interest-earning assets to average interest-bearing liabilities	126.37	131.06
Net interest income after provision for loan losses to non-interest expense	113.01	90.38
Total non-interest expense to average assets	2.09	2.52
Efficiency ratio(3)	80.21	103.87
Return on average assets	.35	(.06)
Return on average equity	1.70	(.25)
Average equity to average assets	20.35	24.83

Asset Quality Ratios(4):

Non-performing loans as a percent of total loans receivable(5)	.72	%	--	%
Non-performing assets as a percent of total assets(5)	.23		.04	
Allowance for loan losses as a percent of total loans receivable	.97		.82	
Net charge-offs to average loans receivable	.03		--	

Association Capital Ratios(4):

Tangible capital ratio	18.93	%	20.21	%
Core capital ratio	18.93		20.21	
Total capital ratio	54.77		73.08	

(1) With the exception of end of period ratios, all ratios are based on average monthly balances during the indicated periods.

(2) Average interest rate spread represents the difference between the average yield on interest-earning assets and the average rate paid on interest-bearing liabilities, and net interest margin represents net interest income as a percentage of average interest-earning assets.

(3) The efficiency ratio represents the ratio of non-interest expense divided by the sum of net interest income and non-interest income.

(4) Asset quality ratios and capital ratios are end of period ratios, except for net charge-offs to average loans receivable.

(5) Non-performing assets consist of non-performing loans at June 30, 2009 and 2008. Non-performing loans consist of non-accruing loans plus accruing loans 90 days or more past due. Home Federal Bank did not have any troubled debt restructurings at June 30, 2009 or 2008. Real estate owned at June 30, 2009 and 2008 amounted to \$-0- and \$52,000, respectively.

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

General

Our profitability depends primarily on our net interest income, which is the difference between interest and dividend income on interest-earning assets, principally loans, investment securities and interest-earning deposits in other institutions, and interest expense on interest-bearing deposits and borrowings from the Federal Home Loan Bank of Dallas. Net interest income is dependent upon the level of interest rates and the extent to which such rates are changing. Our profitability also depends, to a lesser extent, on non-interest income, provision for loan losses, non-interest expenses and federal income taxes. Home Federal Bancorp, Inc. of Louisiana had net income of \$515,000 in fiscal 2009 and a net loss of \$82,000 in fiscal 2008.

Historically, our business has consisted primarily of originating single-family real estate loans secured by property in our market area. Typically, single-family loans involve a lower degree of risk and carry a lower yield than commercial real estate, construction, commercial business and consumer loans. During fiscal 2009, we hired three commercial loan officers and have begun to offer commercial real estate loans, commercial business loans and real estate secured lines of credit. Our loans are primarily funded by certificates of deposit, which typically have a higher interest rate than passbook accounts. The combination of these factors has resulted in low interest rate spreads and returns on equity. Due to the low interest rate environment, a significant amount of our loans have been refinanced in recent years. Rather than reinvest the proceeds from these refinancings in long-term, low yielding loans, we have invested in marketable securities in order to position ourselves more favorably for a rising interest rate environment. Because of a decrease in our cost of funds and the volume increase of interest earning assets, our net interest margin increased during fiscal 2009 and our net interest income increased to \$3.8 million for fiscal 2009 as compared to \$3.0 million for fiscal 2008. Although we may attempt to diversify into greater consumer and commercial lending in the future in order to improve the yield on our portfolio, we presently anticipate that our lending business will continue to consist primarily of originating single-family mortgages funded through deposits.

During fiscal 2008, Home Federal Bancorp entered into an Agreement and Plan of Merger with First Louisiana Bancshares, Inc., pursuant to which Home Federal Bancorp would acquire First Louisiana Bancshares and its wholly-owned subsidiary, First Louisiana Bank. Simultaneously with the adoption of the Agreement and Plan of Merger, Home Federal Mutual Holding Company adopted a Plan of Conversion and Reorganization whereby Home Federal Mutual Holding Company would convert from the mutual holding company form of organization to the fully public stock holding company form of organization and offer shares of a new holding company to its members and the general public in a subscription and community offering. At the close of the offering period in August 2008, the orders received were not sufficient to reach the required minimum of the offering range. As a result, Home Federal Bancorp's second-step conversion and offering terminated and, as of August 14, 2008, Home Federal Bancorp and First Louisiana Bancshares mutually agreed to terminate the Agreement and Plan of Merger. Completion of the merger was contingent on completion of the second-step conversion. During fiscal 2009 and 2008, Home Federal Bancorp incurred related merger and stock issuance expenses of \$133,000 and \$883,000, respectively.

Home Federal Bancorp's operations and profitability are subject to changes in interest rates, applicable statutes and regulations and general economic conditions, as well as other factors beyond our control.

Forward-Looking Statements Are Subject to Change

We make certain statements in this document as to what we expect may happen in the future. These statements usually contain the words "believe," "estimate," "project," "expect," "anticipate," "intend" or similar expressions. Because these statements look to the future, they are based on our current expectations and beliefs. Actual results or events may differ materially from those reflected in the forward-looking statements. You should be aware that our current expectations and beliefs as to future events are subject to change at any time, and we can give you no assurances that the future events will actually occur.

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Critical Accounting Policies

In reviewing and understanding financial information for Home Federal Bancorp, you are encouraged to read and understand the significant accounting policies used in preparing our consolidated financial statements. These policies are described in Note 1 of the notes to our consolidated financial statements included in this Annual Report. Our accounting and financial reporting policies conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry. Accordingly, the consolidated financial statements require certain estimates, judgments, and assumptions, which are believed to be reasonable, based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the periods presented. The following accounting policies comprise those that management believes are the most critical to aid in fully understanding and evaluating our reported financial results. These policies require numerous estimates or economic assumptions that may prove inaccurate or may be subject to variations which may significantly affect our reported results and financial condition for the period or in future periods.

Allowance for Loan Losses. We have identified the evaluation of the allowance for loan losses as a critical accounting policy where amounts are sensitive to material variation. The allowance for loan losses represents management's estimate for probable losses that are inherent in our loan portfolio but which have not yet been realized as of the date of our consolidated balance sheet. It is established through a provision for loan losses charged to earnings. Loans are charged against the allowance for loan losses when management believes that the collectability of the principal is unlikely. Subsequent recoveries are added to the allowance. The allowance is an amount that management believes will cover known and inherent losses in the loan portfolio, based on evaluations of the collectability of loans. The evaluations take into consideration such factors as changes in the types and amount of loans in the loan portfolio, historical loss experience, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, estimated losses relating to specifically identified loans, and current economic conditions. This evaluation is inherently subjective as it requires material estimates including, among others, exposure at default, the amount and timing of expected future cash flows on impacted loans, value of collateral, estimated losses on our commercial and residential loan portfolios and general amounts for historical loss experience. All of these estimates may be susceptible to significant changes as more information becomes available.

While management uses the best information available to make loan loss allowance evaluations, adjustments to the allowance may be necessary based on changes in economic and other conditions or changes in accounting guidance. Historically, our estimates of the allowance for loan loss have not required significant adjustments from management's initial estimates. In addition, the Office of Thrift Supervision, as an integral part of their examination processes, periodically reviews our allowance for loan losses. The Office of Thrift Supervision may require the recognition of adjustments to the allowance for loan losses based on their judgment of information available to them at the time of their examinations. To the extent that actual outcomes differ from management's estimates, additional provisions to the allowance for loan losses may be required that would adversely impact earnings in future periods.

Income Taxes. Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various assets and liabilities and gives current recognition to changes in tax rates and laws. Realizing our deferred tax assets principally depends upon our achieving projected future taxable income. We may change our judgments regarding future profitability due to future market

conditions and other factors. We may adjust our deferred tax asset balances if our judgments change.

Changes in Financial Condition

Home Federal Bancorp's total assets increased \$17.1 million, or 12.4%, to \$154.8 million at June 30, 2009 compared to \$137.7 million at June 30, 2008. This increase was primarily due to an increase in loans receivable and loans held-for-sale of \$19.1 million, a decrease in available-for-sale securities of \$3.7 million, and an increase in cash and cash equivalents of \$2.6 million, compared to the prior year period.

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Loans receivable, net increased \$18.7 million, or 66.1%, from \$28.3 million at June 30, 2008 to \$46.9 million at June 30, 2009. The increase in loans receivable, net was attributable primarily to commercial real estate and commercial business loans which totaled \$14.8 million at June 30, 2009 compared to none at June 30, 2008. One-to-four family residential loans increased \$1.6 million, and home equity and second mortgage loans increased \$1.1 million at June 30, 2009 compared to the prior year period. At June 30, 2009, the balance of purchased loans approximated \$9.5 million, which consisted solely of one-to-four family residential loans, including \$9.3 million of loans from the mortgage originator in Arkansas.

As part of implementing our business strategy, during the second half of fiscal 2009 we diversified the loan products we offer and increased our efforts to originate higher yielding commercial real estate loans and lines of credit and commercial business loans. In February 2009, we hired three commercial loan officers, including Home Federal Bank's President and Chief Operating Officer, Mr. Barlow, with over 12 years of commercial banking experience, particularly in the local Shreveport market. Commercial real estate loans and lines of credit and commercial business loans were deemed attractive due to their generally higher yields and shorter anticipated lives compared to single-family residential mortgage loans. As of June 30, 2009, Home Federal Bank had \$8.2 million of commercial real estate loans and \$6.6 million of commercial business loans compared to none at June 30, 2008. Although commercial loans are generally considered to have greater credit risk than other certain types of loans, management expects to mitigate such risk by originating such loans in our market area to known borrowers.

Securities available-for-sale decreased \$3.7 million, or 3.8%, from \$96.3 million at June 30, 2008 to \$92.6 million at June 30, 2009. This decrease resulted primarily from the reduction of new investment acquisitions offset by market value increases in the portfolio. During the past two years, we have experienced significant loan prepayments due to the heavy volume of loan refinancing. However, when interest rates were at their cyclical lows, management was reluctant to invest in long-term, fixed rate mortgage loans for the portfolio and instead sold the majority of the long-term, fixed rate mortgage loan production. We have attempted to strengthen our interest-rate risk position and favorably structure our balance sheet to take advantage of a rising rate environment by purchasing investment securities classified as available-for-sale.

Cash and cash equivalents increased \$2.6 million, or 35.9%, from \$7.4 million at June 30, 2008 to \$10.0 million at June 30, 2009. The increase in cash and cash equivalents was attributable primarily to the growth in our deposits and funding through advances from the Federal Home Loan Bank. These inflows of cash and cash equivalents were partially offset by the acquisition of investment securities and the funding of our loan growth.

Total liabilities increased \$13.6 million, or 12.4%, from \$109.8 million at June 30, 2008 to \$123.5 million at June 30, 2009 due primarily to an increase of \$9.1 million, or 33.9%, in FHLB advances, offset by a decrease in escrow deposits of \$3.6 million representing funds received in the proposed stock issuance, which was subsequently terminated. Deposits increased \$7.8 million during the year ended June 30, 2009. The increase in deposits was attributable primarily to increases in our Passbook Savings Accounts as well as increases in money market accounts and certificates of deposit. Money market accounts increased \$5.9 million as the result of a significant yield increase to depositors. Certificates of deposit increased \$700,000, or 1.1%, from \$62.1 million at June 30, 2008 to \$62.8 million at June 30, 2009.

Stockholders' equity increased \$3.4 million, or 12.3%, to \$31.3 million at June 30, 2009 from \$27.9 million at June 30, 2008, due primarily to a change of \$3.1 million in the Company's accumulated other comprehensive income,

and net income of \$515,000 for the year ended June 30, 2009, less dividends of \$298,000 paid during the year ended June 30, 2009. The change in accumulated other comprehensive income was primarily due to the change in net unrealized loss on securities available for sale due to recent declines in interest rates. The net unrealized loss on securities available-for-sale is affected by interest rate fluctuations. Generally, an increase in interest rates will have an adverse impact while a decrease in interest rates will have a positive impact.

CONDITION AND RESULTS OF OPERATIONS (Continued)

Average Balances, Net Interest Income, Yields Earned and Rates Paid. The following table shows for the periods indicated the total dollar amount of interest from average interest-earning assets and the resulting yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates, and the net interest margin. Tax-exempt income and yields have not been adjusted to a tax-equivalent basis. All average balances are based on monthly balances. Management does not believe that the monthly averages differ significantly from what the daily averages would be.

(3) Net interest margin is net interest income divided by net average interest-earning assets.

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Rate/Volume Analysis. The following table describes the extent to which changes in interest rates and changes in volume of interest-related assets and liabilities have affected Home Federal Bancorp's interest income and interest expense during the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (i) changes in volume (change in volume multiplied by prior year rate), (ii) changes in rate (change in rate multiplied by current year volume), and (iii) total change in rate and volume. The combined effect of changes in both rate and volume has been allocated proportionately to the change due to rate and the change due to volume.

Comparison of Operating Results for the Years Ended June 30, 2009 and 2008

General. Net income amounted to \$515,000 for the year ended June 30, 2009, reflecting a change of \$597,000 compared to a net loss of \$82,000 for the year ended June 30, 2008. This change was due to an increase of \$647,000 in non-interest income and net interest income after provision for loan losses and a decrease of \$246,000 in non-interest expense resulting from a decrease in the charge-off of conversion and merger expenses of \$750,000, offset by an increase of \$296,000 in the provision for income taxes.

Net Interest Income. Net interest income amounted to \$3.8 million for fiscal year 2009 compared to \$3.0 million for fiscal year 2008. The increase was due primarily to an increase of \$592,000 in total interest income, and a \$130,000 decrease in interest expense.

The average interest rate spread increased from 1.39% for fiscal 2008 to 1.89% for fiscal 2009 while the average balance of net interest-earning assets decreased from \$30.8 million to \$30.4 million during the same periods. The

percentage of average interest-earning assets to average interest-bearing liabilities decreased to 126.4% for fiscal 2009 compared to 131.1% for fiscal 2008. The increase in the average interest rate spread reflects the lower interest rates paid on interest bearing liabilities and management's decision to temporarily invest in lower rate securities available for sale rather than long-term, fixed rate residential mortgage loans. Additionally, Home Federal Bancorp's average cost of funds decreased 68 basis points in fiscal 2009 compared to fiscal 2008 as the Federal Reserve was reducing short-term rates. Lower certificate of deposit interest rates in our market area led us to decrease the average rates paid on certificates of deposit 82 basis points in fiscal 2009 compared to fiscal 2008. Net interest margin increased to 2.58% in fiscal 2009 compared to 2.33% for fiscal 2008.

Interest income increased \$592,000, or 8.5%, to \$7.6 million for fiscal 2009 compared to fiscal 2008. Such increase was primarily due to an increase in the average balance of all interest earning assets. The decrease in average yields on interest earning assets reflects falling interest rates in general during fiscal 2009. The increase in the average balance of investment securities was due to the investment of proceeds from Federal Home Loan Bank

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

borrowings in investment securities classified as available-for-sale. The increase in the average balance of loans receivable was primarily due to new loans originated by our new commercial lending activities.

Interest expense decreased \$130,000, or 3.3%, to \$3.8 million for fiscal 2009 compared to fiscal 2008 primarily as a result of decreases in the average rates paid on interest-bearing liabilities, partially offset by increases in the average balance of interest-bearing deposits and Federal Home Loans Bank borrowings.

Provision for Loan Losses. The allowance for loan losses is established through a provision for loan losses charged to earnings as losses are estimated to have occurred in our loan portfolio. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectability of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of the underlying collateral and prevailing economic conditions. The evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

A loan is considered impaired when, based on current information or events, it is probable that we will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. When a loan is impaired, the measurement of such impairment is based upon the fair value of the collateral of the loan. If the fair value of the collateral is less than the recorded investment in the loan, we will recognize the impairment by creating a valuation allowance with a corresponding charge against earnings.

An allowance is also established for uncollectible interest on loans classified as substandard. Substandard loans are those loans which are in excess of ninety days delinquent. The allowance is established by a charge to interest income equal to all interest previously accrued and income is subsequently recognized only to the extent that cash payments are received. When, in management's judgment, the borrower's ability to make interest and principal payments is back to normal, the loan is returned to accrual status.

A provision of \$240,000 was made to the allowance in the last quarter of fiscal 2009, primarily in response to the increase in commercial lending during the period. We held one residential mortgage loan at June 30, 2009 classified as substandard compared to none at June 30, 2008. No provision was made to the allowance in fiscal 2008 because the allowance was maintained at a level believed, to the best of management's knowledge, to cover all known and inherent losses in the loan portfolio, both probable and reasonable.

Non-Interest Income. Non-interest income amounted to \$363,000 for the year ended June 30, 2009, an increase of \$165,000, or 83.3%, compared to non-interest income of \$198,000 for the year ended June 30, 2008. Such increase was due to a \$176,000 increase in gain on sale of securities, offset by a \$7,000 decrease in other non-interest income, and a \$4,000 decrease in gain on sale of loans.

Non-Interest Expense. Non-interest expense decreased \$246,000, or 7.3%, due primarily to \$883,000 of conversion and merger expense incurred in fiscal 2008 compared to \$133,000 incurred in fiscal 2009. Such decrease was partially offset by increases in compensation, benefits and other expenses of \$211,000 as well as a special assessment

by the Federal Deposit Insurance Corporation which was accrued in the last quarter of fiscal 2009.

Provision for Income Tax Expense. The provision for income taxes amounted to \$253,000 for the fiscal year ended June 30, 2009. For the fiscal year ended June 30, 2008, the Company realized a net deferred tax benefit of \$43,000. The Company's effective tax rate was 32.75% for fiscal 2009 and 33.93% for fiscal 2008.

Exposure to Changes in Interest Rates

The Company's ability to maintain net interest income depends upon our ability to earn a higher yield on interest-earning assets than the rates we pay on deposits and borrowings. The Company's interest-earning assets

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

consist primarily of securities available-for-sale and long-term residential and commercial mortgage loans which have fixed rates of interest. Consequently, our ability to maintain a positive spread between the interest earned on assets and the interest paid on deposits and borrowings can be adversely affected when market rates of interest rise.

Although long-term, fixed-rate mortgage loans made up a significant portion of our interest-earning assets at June 30, 2009, we sold a substantial amount of our loans and maintained a significant portfolio of securities available-for-sale during the past few years in order to better position Home Federal Bancorp for a rising rate environment. At June 30, 2009 and 2008, securities available-for-sale amounted to \$92.6 million and \$96.3 million, respectively, or 59.9% and 69.9%, respectively, of total assets at such dates. Although this asset/liability management strategy has adversely impacted short-term net income, it provides us with greater flexibility to reinvest such assets in higher-yielding single-family, consumer and commercial business loans in a rising interest rate environment.

Quantitative Analysis. The Office of Thrift Supervision provides a quarterly report on the potential impact of interest rate changes upon the market value of portfolio equity. Management reviews the quarterly reports from the Office of Thrift Supervision which show the impact of changing interest rates on net portfolio value. Net portfolio value is the difference between incoming and outgoing discounted cash flows from assets, liabilities, and off-balance sheet contracts.

Net Portfolio Value. Our interest rate sensitivity is monitored by management through the use of a model which internally generates estimates of the change in our net portfolio value ("NPV") over a range of interest rate scenarios. NPV is the present value of expected cash flows from assets, liabilities, and off-balance sheet contracts. The NPV ratio, under any interest rate scenario, is defined as the NPV in that scenario divided by the market value of assets in the same scenario. The following table sets forth our NPV as of June 30, 2009:

Change in Interest Rates in Basis Points (Rate Shock)	Net Portfolio Value			NPV as % of Portfolio Value of Assets	
	Amount	\$	% Change	NPV Ratio	Change
	(Dollars in Thousands)				
300	\$ 23,789	\$ (8,674)	(27.67)%	16.35%	(3.93)%
200	26,950	(5,513)	(16.98)	17.90	(2.37)
100	29,988	(2,475)	(7.62)	19.28	(1.00)
Static	32,463	-	-	20.27	-
(50)	33,304	841	2.59	20.55	.27
(100)	33,577	1,114	3.43	20.55	.27

Qualitative Analysis. Our ability to maintain a positive "spread" between the interest earned on assets and the interest paid on deposits and borrowings is affected by changes in interest rates. Our fixed-rate loans generally are profitable if interest rates are stable or declining since these loans have yields that exceed our cost of funds. If interest rates increase, however, we would have to pay more on our deposits and new borrowings, which would adversely affect our interest rate spread. In order to counter the potential effects of dramatic increases in market rates of interest, we have underwritten our mortgage loans to allow for their sale in the secondary market. Total loan originations amounted to

\$50.7 million for fiscal 2009 and \$18.5 million for fiscal 2008, while loans sold amounted to \$16.2 million and \$13.6 million during the same respective periods. More significantly, we have invested excess funds from loan payments and prepayments and loan sales in investment securities classified as available-for-sale. As a result, Home Federal Bancorp is not as susceptible to rising interest rates as it would be if its interest-earning assets were primarily comprised of long-term fixed rate mortgage loans. With respect to its floating or adjustable rate loans, Home Federal Bancorp writes interest rate floors and caps into such loan documents. Interest rate floors limit our interest rate risk by limiting potential decreases in the interest yield on an adjustable rate loan to a certain level. As a result, we receive a minimum yield even if rates decline farther and the interest rate on the particular loan would otherwise adjust to a lower amount. Conversely, interest rate ceilings limit the amount by which the yield on an adjustable rate loan may increase to no more than six percentage points over the rate at the time of origination. Finally, we intend to place a greater emphasis on shorter-term consumer loans and commercial business loans in the future.

Home Federal Bancorp, Inc. of Louisiana

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Liquidity and Capital Resources

Home Federal Bancorp maintains levels of liquid assets deemed adequate by management. Our liquidity ratio averaged 87.9% for the quarter ended June 30, 2009. We adjust our liquidity levels to fund deposit outflows, repay our borrowings and to fund loan commitments. We also adjust liquidity as appropriate to meet asset and liability management objectives.

Our primary sources of funds are deposits, amortization and prepayment of loans and mortgage-backed securities, maturities of investment securities and other short-term investments, loan sales and earnings and funds provided from operations. While scheduled principal repayments on loans and mortgage-backed securities are a relatively predictable source of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions and competition. We set the interest rates on our deposits to maintain a desired level of total deposits. In addition, we invest excess funds in short-term interest-earning accounts and other assets, which provide liquidity to meet lending requirements. Our deposit accounts with the Federal Home Loan Bank of Dallas amounted to \$3.8 million and \$2.1 million at June 30, 2009 and 2008, respectively.

A significant portion of our liquidity consists of securities classified as available-for-sale and cash and cash equivalents. Our primary sources of cash are net income, principal repayments on loans and mortgage-backed securities and increases in deposit accounts. If we require funds beyond our ability to generate them internally, we have borrowing agreements with the Federal Home Loan Bank of Dallas which provide an additional source of funds. At June 30, 2009, we had \$36.0 million in advances from the Federal Home Loan Bank of Dallas and had \$68.3 million in additional borrowing capacity.

At June 30, 2009, the Company had outstanding loan commitments of \$6.9 million to originate loans. At June 30, 2009, certificates of deposit scheduled to mature in less than one year, totaled \$43.4 million. Based on prior experience, management believes that a significant portion of such deposits will remain with us, although there can be no assurance that this will be the case. In addition, the cost of such deposits could be significantly higher upon renewal, in a rising interest rate environment. We intend to utilize our high levels of liquidity to fund our lending activities. If additional funds are required to fund lending activities, we intend to sell our securities classified as available-for-sale as needed.

Home Federal Bank is required to maintain regulatory capital sufficient to meet tangible, core and risk-based capital ratios of at least 1.5%, 3.0% and 8.0%, respectively. At June 30, 2009, Home Federal Bank exceeded each of its capital requirements with ratios of 18.93%, 18.93% and 54.77%, respectively.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, as defined by Securities and Exchange Commission rules, and have not had any such arrangements during the two years ended June 30, 2009. See Notes 8 and 15 to the Notes to Consolidated Financial Statements contained in this Annual Report.

Impact of Inflation and Changing Prices

The consolidated financial statements and related financial data presented herein regarding Home Federal Bancorp have been prepared in accordance with accounting principles generally accepted in the United States of America which generally require the measurement of financial position and operating results in terms of historical dollars, without considering changes in relative purchasing power over time due to inflation. Unlike most industrial companies, virtually all of our assets and liabilities are monetary in nature. As a result, interest rates generally have a more significant impact on Home Federal Bancorp's performance than does the effect of inflation. Interest rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services, since such prices are affected by inflation to a larger extent than interest rates.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Home Federal Bancorp, Inc.
of Louisiana and Subsidiary
Shreveport, Louisiana

We have audited the accompanying consolidated balance sheets of Home Federal Bancorp, Inc. of Louisiana (the Company) and its wholly-owned subsidiary as of June 30, 2009 and 2008, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Home Federal Bancorp, Inc. of Louisiana and its wholly-owned subsidiary, Home Federal Bank, as of June 30, 2009 and 2008, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Nature of Operations

On January 18, 2005, Home Federal Bank (the Bank), formerly known as Home Federal Savings and Loan Association, completed its reorganization to the mutual holding company form of organization and formed Home Federal Bancorp, Inc. of Louisiana (the Company) to serve as the stock holding company for the Bank. In connection with the reorganization, the Company sold 1,423,583 shares of its common stock in a subscription and community offering at a price of \$10.00 per share. The Company also issued 60% of its outstanding common stock in the reorganization to Home Federal Mutual Holding Company of Louisiana, or 2,135,375 shares.

The Bank is a federally chartered, stock savings and loan association and is subject to federal regulation by the Federal Deposit Insurance Corporation and the Office of Thrift Supervision. The Bank provides financial services to individuals, corporate entities and other organizations through the origination of loans and the acceptance of deposits in the form of passbook savings, certificates of deposit, and demand deposit accounts. Services are provided by four offices, all of which are located in Shreveport, Louisiana.

The Bank is subject to competition from other financial institutions, and is also subject to the regulations of certain Federal and State agencies and undergoes periodic examinations by those regulatory authorities.

Basis of Presentation and Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Home Federal Bank. All significant intercompany balances and transactions have been eliminated.

Use of Estimates

In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated balance sheets and reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the allowance for loan losses and deferred taxes.

Significant Group Concentrations of Credit Risk

Most of the Company's activities are provided to customers of the Bank by four offices, all of which are located in the city of Shreveport, Louisiana. The area served by the Bank is primarily the Shreveport-Bossier City metropolitan area; however, loan and deposit customers are found dispersed in a wider geographical area covering much of northwest Louisiana.

Cash and Cash Equivalents

For purposes of the Consolidated Statements of Cash Flows, cash and cash equivalents include cash on hand, balances due from banks, and federal funds sold, all of which mature within ninety days.

At June 30, 2009 and 2008, cash and cash equivalents consisted of the following:

Edgar Filing: HOME FEDERAL BANCORP, INC. OF LOUISIANA - Form ARS

	2009 (In Thousands)	2008

Total	\$ 10,007	\$ 7,363

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 1. Summary of Significant Accounting Policies (Continued)

Securities

Investments in debt securities and certain equity securities with readily determinable fair values are accounted for under SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities. SFAS 115 requires investments to be classified within one of three categories, trading, held to maturity, or available for sale, based on the type of security and management's intent with regards to selling the security.

Investments in non-marketable equity securities and debt securities, in which the Company has the positive intent and ability to hold to maturity, are classified as held-to-maturity and carried at cost, adjusted for amortization of the related premiums and accretion of discounts, using the interest method. Investments in debt securities that are not classified as held-to-maturity and marketable equity securities that have readily determinable fair values are classified as either trading or available-for-sale securities.

Securities that are acquired and held principally for the purpose of selling in the near term are classified as trading securities. Investments in securities not classified as trading or held-to-maturity are classified as available-for-sale.

Trading account and available-for-sale securities are carried at fair value. Unrealized holding gains and losses on trading securities are included in earnings while net unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income. Purchase premiums and discounts are recognized in interest income using the interest method over the term of the securities. Declines in the fair value of held-to-maturity and available-for-sale securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Loans Held-for-Sale

Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income.

Loans

Loans receivable are stated at unpaid principal balances, less allowances for loan losses and unamortized deferred loan fees. Net non-refundable fees (loan origination fees, commitment fees, discount points) and costs associated with lending activities are being deferred and subsequently amortized into income as an adjustment of yield on the related interest earning assets using the interest method. Interest income on contractual loans receivable is recognized on the accrual method. Unearned discounts are deferred and amortized on the interest method over the life of the loan.

Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the

uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of the underlying collateral and prevailing economic conditions. The evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 1. Summary of Significant Accounting Policies (Continued)

Allowance for Loan Losses (Continued)

A loan is considered impaired when, based on current information or events, it is probable that the Bank will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. When a loan is impaired, the measurement of such impairment is based upon the fair value of the collateral of the loan. If the fair value of the collateral is less than the recorded investment in the loan, the Bank will recognize the impairment by creating a valuation allowance with a corresponding charge against earnings.

An allowance is also established for uncollectible interest on loans classified as substandard. Substandard loans are those which are in excess of ninety days delinquent. The allowance is established by a charge to interest income equal to all interest previously accrued and income is subsequently recognized only to the extent that cash payments are received. When, in management's judgment, the borrower's ability to make periodic interest and principal payments is back to normal, the loan is returned to accrual status.

It should be understood that estimates of future loan losses involve an exercise of judgment. While it is possible that in particular periods, the Company may sustain losses, which are substantial relative to the allowance for loan losses, it is the judgment of management that the allowance for loan losses reflected in the accompanying statements of condition is adequate to absorb possible losses in the existing loan portfolio.

Off-Balance Sheet Credit Related Financial Instruments

In the ordinary course of business, the Bank has entered into commitments to extend credit. Such financial instruments are recorded when they are funded.

Foreclosed Assets

Assets acquired through, or in lieu of, loan foreclosure are held-for-sale and are carried at the lower of cost or current fair value minus estimated cost to sell as of the date of foreclosure. Cost is defined as the lower of the fair value of the property or the recorded investment in the loan. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less cost to sell.

Premises and Equipment

Land is carried at cost. Buildings and equipment are carried at cost less accumulated depreciation computed on the straight-line method over the estimated useful lives of the assets. Estimated useful lives are as follows:

Buildings and Improvements	10 - 40 Years
Furniture and Equipment	3 - 10 Years

Income Taxes

The Company and its wholly-owned subsidiary file a consolidated Federal income tax return on a fiscal year basis. Each entity will pay its pro-rata share of income taxes in accordance with a written tax-sharing agreement.

The Company accounts for income taxes on the asset and liability method. Deferred tax assets and liabilities are recorded based on the difference between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the expected amount most likely to be realized. Realization of deferred tax assets is dependent upon the generation of a sufficient level of future taxable income and recoverable taxes paid in prior years. Although realization is not assured, management believes it is more likely than not that all of the deferred tax assets will be realized. Current taxes are measured by applying the provisions of enacted tax laws to taxable income to determine the amount of taxes receivable or payable.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 1. Summary of Significant Accounting Policies (Continued)

Income Taxes (Continued)

In June 2006, the FASB issued FASB Interpretation 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement 109, (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company’s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 was adopted by the Company on July 1, 2008.

While the Bank is exempt from Louisiana income tax, it is subject to the Louisiana Ad Valorem Tax, commonly referred to as the Louisiana Shares Tax, which is based on stockholders’ equity and net income.

Earnings per Share

Earnings per share are computed based upon the weighted average number of common shares outstanding during the year.

Non-Direct Response Advertising

The Company expenses all advertising costs, except for direct-response advertising, as incurred. In the event the Company incurs expense for material direct-response advertising, it will be amortized over the estimated benefit period. Direct-response advertising consists of advertising whose primary purpose is to elicit sales to customers who could be shown to have responded specifically to the advertising and results in probable future benefits. For the years ended June 30, 2009 and 2008, the Company did not incur any amount of direct-response advertising.

Stock-Based Compensation

The Company utilizes SFAS No. 123R, Accounting for Stock-Based Compensation, to account for its stock-based compensation. SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized as expense in the statement of operations based on their fair values. The amount of compensation is measured at the fair value of the options when granted, and this cost is expensed over the required service period, which is normally the vesting period of the options. SFAS No. 123R applies to awards granted or modified after January 1, 2006, or any unvested awards outstanding prior to that date.

Comprehensive Income

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, are reported as a separate component of the equity section of the Consolidated Balance Sheets, such items, along with net income, are components of comprehensive income.

The components of other comprehensive income and related tax effects are as follows:

2009	2008

		(2,634)

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. During 2008, FASB deferred the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008, and interim periods within the fiscal year. Adoption of this pronouncement did not have a monetary effect on the financial position and results of operations of the Company, but resulted in expanded disclosures (Note 21).

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (as amended). This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to provide entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Statement is expected to expand the use of fair value measurement. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company did not make an early adoption election nor has it chosen to measure the financial instruments identified under SFAS No. 159 at fair value.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations. SFAS No. 141 (R) will impact how entities apply the acquisition method to business combinations. Significant changes to how the Company accounts for business combinations under this Statement include 1) the acquisition date will be the date the acquirer obtains control, 2) all identifiable assets acquired, liabilities assumed, and non-controlling interests in the acquiree will be stated at fair value on the acquisition date, 3) assets or liabilities arising from non-contractual contingencies will be measured at their acquisition date fair value only if it is more likely than not that they meet the definition of an asset or liability on the acquisition date, 4) adjustments subsequently made to the provisional amounts recorded on the acquisition date will be made retroactively during a measurement period not to exceed one year, 5) acquisition-related

restructuring costs that do not meet the criteria in SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities, will be expensed as incurred, 6) transaction costs will be expensed as incurred, 7) reversals of deferred income tax valuation allowances and income tax contingencies will be recognized in earnings subsequent to the measurement period, and 8) the allowance for loan losses of an acquiree will not be permitted to be recognized by the acquirer. Additionally, SFAS No. 141(R) will require additional disclosures regarding subsequent changes to acquisition-related contingencies, contingent consideration, non-controlling interests, acquisition-related transaction costs, fair values and cash flows not expected to be collected for acquired loans, and goodwill valuation.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 1. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements (Continued)

The Company will be required to apply SFAS No. 141(R) prospectively to all business combinations completed on or after July 1, 2009. Early adoption is not permitted. For business combinations with an acquisition date before the effective date, the provisions of SFAS No. 141(R) will apply to the subsequent accounting for deferred income tax valuation allowances and income tax contingencies and will require any changes in those amounts to be recorded in earnings.

In December 2007, the FASB issued SFAS No. 160, Non-controlling Interests in Consolidated Financial Statements (an amendment of ARB No. 51). This Statement was issued to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements. This Statement is effective for fiscal years, and interim periods with those fiscal years, beginning on or after December 31, 2008.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities (an amendment of FASB Statement No. 133). This Statement requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. This Statement encourages, but does not require, comparative disclosures for earlier periods at initial adoption.

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles. This Statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States (the GAAP hierarchy). This Statement is effective 60 days following the SEC's approval of the PCAOB amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles.

In June 2009, the FASB issued SFAS No. 166, Accounting for Transfers of Financial Assets. This statement revises SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, and will require entities to provide more information about sales of securitized financial assets and similar transactions, particularly if the seller retains some risk to the assets. The Statement eliminates the concept of a qualifying special-purpose entity, changes the requirements for the derecognition of financial assets, and calls upon sellers of the assets to make additional disclosures about them. The Statement will be effective at the start of the first fiscal year beginning after November 15, 2009.

In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46R. This statement amends FASB Interpretation (FIN) No. 46(R), Consolidation of Variable Interest Entities, (FASB ASC 810-10) by altering how a company determines when an entity that is insufficiently capitalized or not controlled through voting should be consolidated. A company has to determine whether it should provide consolidated reporting of an entity based upon the entity's purpose and design and the parent company's ability to direct the entity's actions. The statement will require

a company to disclose its involvement with variable interest entities and any significant changes in risk due to the involvement. The Company will have to disclose how its involvement with a variable interest entity affects its financial statements. The standard will be effective at the start of the first fiscal year beginning after November 15, 2009.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 1. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements (Continued)

In February 2008, FASB issued FSP FAS 140-3, Accounting for Transfers of Financial Assets and Repurchase Financing Transactions, which provides guidance on accounting for a transfer of a financial asset and a repurchase financing. The FSP presumes that an initial transfer of a financial asset and a repurchase financing are considered part of the same arrangement under FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. However, if certain criteria are met, the initial transfer and repurchase shall not be evaluated as a linked transaction and therefore evaluated separately under FASB No. 140. The FSP is effective for repurchase financing in which the initial transfer is entered in fiscal years beginning after November 15, 2008. The Company does not anticipate a material impact on its consolidated financial statements as a result of this statement.

In April 2008, FASB issued FSP 142-3 which amends the list of factors an entity should consider in developing renewal of extension assumptions used in determining the useful life of recognized intangible assets under SFAS No. 142, Goodwill and Other Intangibles. The new guidance applies to intangible assets that are acquired individually or with a group of other assets and to intangible assets acquired in both business combinations and asset acquisitions. The FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008 and interim periods within those fiscal years. The guidance must be applied prospectively only to intangible assets acquired after the FSP's effective date.

The above pronouncements are not expected to have a significant impact on the consolidated financial statements of the Company.

	\$	1,336	\$ 31,202	\$ 2,679	\$ 61,248

The Company's investment in equity securities consists primarily of shares of an adjustable rate mortgage loan mutual fund. The unrealized losses associated with this fund were primarily caused by the investment downgrade of certain non-agency private label mortgage-backed securities held by the fund and uncertainty in spreads in the bond market for mortgage-related securities along with the performance of a small number of the bonds within the fund. Based on management's assessment of the financial condition of the Company, the Company has the ability and intent to hold these securities until a recovery of fair value occurs, and accordingly, the Company does not consider this investment to be other-than-temporarily impaired at June 30, 2009.

The unrealized losses on the Company's investment in mortgage-backed securities were caused by interest rate changes. The contractual cash flows of these investments are guaranteed by agencies of the U.S. government. Accordingly, it is expected that these securities would not be settled at a price less than the amortized cost of the Company's investment. Because the decline in market value is attributable to changes in interest rates and not credit quality and because the Company has the ability and intent to hold these investments until a recovery of fair value, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired at June 30, 2009.

At June 30, 2009, securities with a carrying value of \$4.2 million were pledged to secure public deposits, and securities with a carrying value of \$17.7 million were pledged to secure FHLB advances.

Premises and Equipment

A summary of the cost and accumulated depreciation of premises and equipment follows:

	2009	2008
	(In Thousands)	
Land	\$ 727	\$ 727
Buildings	1,183	1,134
Equipment	725	601
	2,635	2,462
Accumulated Depreciation	(1,653)	(1,582)
Total	\$ 982	\$ 880

Depreciation expense charged against operations for the years ended June 30, 2009 and 2008, was \$71,000 and \$55,000, respectively.

The Bank leases property for two branch facilities. The Youree Branch lease, which expires November 30, 2018, requires monthly rental payments of \$2,171. This lease has three ten-year option periods remaining with rental adjustment provisions. The Bellmead Branch lease has a term of five years ending on April 30, 2014, however, the Bank has a one-time option to terminate this lease after thirty-six months. Monthly rental payments during the initial thirty-six months are \$3,443. Total rent expense paid under the terms of these two leases for the years ended June 30, 2009 and 2008, amounted to \$34,000 and \$20,000, respectively. Future minimum rental payments resulting from the non-cancelable term of these leases are as follows:

Year Ended June 30,	Amount
2010	\$ 67,756
2011	67,756
2012	60,869
2013	26,436
2014	26,436
Thereafter	116,759
Total Minimum Future	\$ 366,012

Rental Payments

2013	2,022	3.22	4.7%
2014	2,631	4.19	3.6%
Total	\$ 62,801	100%	

Interest expense on deposits for the years ended June 30, 2009 and 2008, was as follows:

	2009	2008
	(In Thousands)	
NOW and Money Market	\$ 59	\$ 28
Passbook Savings	26	22
Certificates of Deposit	2,378	2,985
Total	\$ 2,463	\$ 3,035

At June 30, 2008, deposits in excess of \$100,000 were generally not federally insured. As the result of recent changes in federal law, deposits at June 30, 2009 are generally insured up to \$250,000. At June 30, 2009, there were twelve deposit accounts with balances in excess of \$250,000 with an aggregate value of \$5.2 million, of which \$2.2 million would potentially be uninsured.

Note 7. Advances from Federal Home Loan Bank of Dallas

Pursuant to collateral agreements with the Federal Home Loan Bank of Dallas (FHLB), advances are secured by a blanket floating lien on first mortgage loans. Total interest expense recognized amounted to \$1.4 million and \$933,000, for fiscal years 2009 and 2008, respectively.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 7. Advances from Federal Home Loan Bank of Dallas (Continued)

Advances at June 30, 2009 and 2008, consisted of the following:

	2009	Advance Total (In Thousands)	2008
1.00% to 1.99%	\$	\$	-
		2,000	
2.00% to 2.99%		5,462	6,876
3.00% to 3.99%		12,468	2,245
4.00% to 4.99%		9,654	7,179
5.00% to 5.99%		6,413	10,576
Total	\$	\$	26,876
		35,997	

Maturities of advances at June 30, 2009 are as follows for the year ended June 30th (In Thousands):

Year Ended June 30,	Amount
2010	\$ 9,990
2011	8,116
2012	7,422
2013	5,907
2014	1,915
Thereafter	2,647
Total	\$ 35,997

Note 8. Commitments

Lease Commitments

As described in Note 5, the Bank leases property for two branch facilities. In addition to this lease, the Bank has an agreement with a third-party to provide on-line data processing services. The agreement, which expires January 31, 2010, contains a minimum monthly service charge of \$4,000. At the end of this term, the agreement will automatically continue for successive periods of five years unless terminated upon written notice given at least twelve

months prior to the end of the present term. The future minimum commitments for the on-line processing services amount to \$28,000 for the year ended June 30, 2010.

Employment Contracts

The Company and the Bank have employment contracts with certain key employees. These contracts provide for compensation and termination benefits.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9.

Federal Income Taxes

The Company and its subsidiary file consolidated federal income tax returns. The current provision for federal and state income taxes is calculated on pretax accounting income adjusted by items considered to be permanent differences between book and taxable income. Income tax expense for the year ending June 30, 2009 and 2008, is summarized as follows:

	2009		2008	
	(In Thousands)			
Federal				
Current	\$	50	\$	278
Deferred (Benefit)		203		(321)
State				
Current		-		-
Total	\$	253	\$	(43)

The effective federal income tax rate for the years ended June 30, 2009 and 2008 was 32.75% and 33.93%, respectively. Reconciliations of income tax expense (benefit) at the statutory rate to the Company's effective rates are as follows:

	2009		2008	
	(In Thousands)			
Computed at Expected Statutory Rate	\$	261	\$	(42)
Other	(8)			(1)
Provision for Income Tax Expense (Benefit)	\$	253	\$	(43)

At June 30, 2009 and 2008, temporary differences between the financial statement carrying amount and tax bases of assets that gave rise to deferred tax recognition were related to the effect of loan bad debt deduction differences for tax and book purposes and deferred stock option compensation. The deferred tax expense or benefit related to securities available-for-sale has no effect on the Bank's income tax provision since it is charged or credited to the Bank's other comprehensive income or loss equity component.

The net deferred income tax (liability) asset consisted of the following components at June 30, 2009 and 2008:

	2009		2008	
	(In Thousands)			
Deferred Tax Asset or Liability				
Stock Option Compensation	\$	80	\$	61
Loans Receivable - Bad Debt Loss Allowances		52		(27)
Securities Available-for-Sale Unrealized Gain or Loss	(226)		1,357	
Conversion and Merger Expense		-		300
Total Deferred Tax (Liability) Asset	\$	(94)	\$	1,691

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9. Federal Income Taxes (Continued)

In computing federal taxes on income under provisions of the Internal Revenue Code in years past, earnings appropriated by savings and loan associations to general reserves were deductible in arriving at taxable income if certain conditions were met. Bank retained earnings appropriated to the federal insurance reserve at June 30, 2009 and 2008, amounted to \$4.0 million. Included were appropriations of net income of prior years of \$3.3 million, for which no provision for federal income taxes has been made. If this portion of the reserve is used for any purpose other than to absorb losses, a tax liability will be imposed upon the Bank at the then current federal income tax rate.

At June 30, 2009 and 2008, the Company did not have any tax positions which resulted in unrecognized tax benefits. In addition, the Company had no amount of interest and penalties recognized in the consolidated statements of operations for the years ended June 30, 2009 and 2008, respectively, nor any amount of interest and penalties recognized in the consolidated balance sheets as of June 30, 2009 and 2008, respectively.

Note 10. Other Non-Interest Income and Expense

Other non-interest income and expense amounts at June 30, 2009 and 2008, are summarized below:

	2009	2008
	(In Thousands)	
Other Non-Interest Income		
Commissions and Other	\$ 18	\$ 16
Services Fees on NOW Accounts	14	22
Late Charges	4	5
Total Other Non-Interest Income	\$ 36	\$ 43

Total Other Non-Interest Expenses	\$ 409	\$ 322
-----------------------------------	--------	--------

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 11. Retirement Plans

Effective November 15, 2004, the Bank adopted the Home Federal Savings and Loan Association Employees' Savings and Profit Sharing Plan and Trust administered by the Pentegra Group. This plan complies with the requirements of Section 401(k) of the Internal Revenue Code. Those eligible for this defined contribution plan must have completed twelve months of full time service and attained age 21. Participating employees may make elective salary reduction contributions of up to \$16,500 for 2009, of their eligible compensation. The Bank will contribute a basic "safe harbor" contribution of 3% of participant plan salary and will match 50% of the first 6% of plan salary elective deferrals. The Bank is also permitted to make discretionary contributions to be allocated to participant accounts. Pension costs, including administrative fees, attributable to the Bank's 401(k) safe harbor plan for the years ended June 30, 2009 and 2008, were \$54,000 and \$66,000, respectively.

Note 12. Employee Stock Ownership Plan

During fiscal 2005, the Company instituted an employee stock ownership plan. The Home Federal Savings and Loan Association Employee Stock Ownership Plan (ESOP) enables all eligible employees of the Bank to share in the growth of the Company through the acquisition of stock. Employees are generally eligible to participate in the ESOP after completion of one year of service and attaining the age of 21.

The ESOP purchased the statutory limit of eight percent of the shares sold in the initial public offering of the Company, excluding shares issued to Home Federal Mutual Holding Company of Louisiana (113,887 shares). This purchase was facilitated by a loan from the Company to the ESOP in the amount of \$1.1 million. The loan is secured by a pledge of the ESOP shares. The shares pledged as collateral are reported as unearned ESOP shares in the Consolidated Balance Sheets. The corresponding note is being repaid in 80 quarterly debt service payments of \$23,000 on the last business day of each quarter, beginning March 31, 2005, at the rate of 5.25%.

The Company may contribute to the ESOP, in the form of debt service, at the discretion of its board of directors. Cash dividends on the Company's stock shall be used to either repay the loan, be distributed to the participants in the ESOP, or retained in the ESOP and reinvested in Company stock. Shares are released for allocation to ESOP participants based on principal and interest payments of the note. Compensation expense is recognized based on the number of shares allocated to ESOP participants each year and the average market price of the stock for the current year. Released ESOP shares become outstanding for earnings per share computations.

As compensation expense is incurred, the Unearned ESOP Shares account is reduced based on the original cost of the stock. The difference between the cost and the average market price of shares released for allocation is applied to Additional Paid-In Capital. ESOP compensation expense for the years ended June 30, 2009 and 2008, was \$41,000 and \$53,000, respectively.

The ESOP shares as of June 30, 2009, are as follows:

Allocated Shares	19,930
------------------	--------

Edgar Filing: HOME FEDERAL BANCORP, INC. OF LOUISIANA - Form ARS

Shares Released for Allocation		2,847
Unreleased Shares		91,110
Total ESOP Shares		113,887
Fair Value of Unreleased Shares (In Thousands)	\$	615
Stock Price at June 30, 2009	\$	6.75

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 13. Recognition and Retention Plan (Continued)

On August 10, 2005, the shareholders of the Company approved the establishment of the Home Federal Bancorp, Inc. of Louisiana 2005 Recognition and Retention Plan and Trust Agreement (the Recognition Plan) as an incentive to retain personnel of experience and ability in key positions. The aggregate number of shares of the Company's common stock subject to award under the Recognition Plan totaled 69,756. As shares were acquired for the Recognition Plan, the purchase price of these shares was recorded as a contra equity account. As the shares are distributed, the contra equity account is reduced.

Recognition Plan shares are earned by recipients at a rate of 20% of the aggregate number of shares covered by the Recognition Plan award over five years. If the employment of an employee or service as a non-employee director is terminated prior to the fifth anniversary of the date of grant of Recognition Plan share award for any reason other than the recipient's death, disability, or following a change in control of the Company, the recipient shall forfeit the right to any shares subject to the award that have not been earned.

The cost associated with the Recognition Plan is based on a share price of \$9.85, which represents the market price of the Company's stock on the date on which the Recognition Plan shares were granted. The cost is being recognized over five years. Compensation expense pertaining to the Recognition Plan was \$125,000 and \$150,000, for the years ended June 30, 2009 and 2008, respectively.

A summary of the changes in restricted stock follows:

	Unawarded Shares		Awarded Shares	
	2009	2008	2009	2008
Balance - Beginning of Year	1,952	1,490	38,333	54,605

Granted	-	-	-	-
Forfeited	338	462	(338)	(462)
Earned and Issued	-	-	(12,781)	(15,810)
Balance - End of Year	2,290	1,952	25,214	38,333

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 14. Stock Option Plan

On August 10, 2005, the shareholders of the Company approved the establishment of the Home Federal Bancorp, Inc. of Louisiana 2005 Stock Option Plan (the Option Plan) for the benefit of directors, officers, and other employees. The aggregate number of shares of common stock reserved for issuance under the Option Plan totaled 174,389. Both incentive stock options and non-qualified stock options may be granted under the plan.

On August 18, 2005, the Company granted 174,389 options to directors and employees. Under the Option Plan, the exercise price of each option cannot be less than the fair market value of the underlying common stock as of the date of the option grant, which was \$9.85, and the maximum term is ten years. Incentive stock options and non-qualified stock options granted under the Option Plan become vested and exercisable at a rate of 20% per year over five years, commencing one year from the date of the grant, with an additional 20% vesting on each successive anniversary of the date the option was granted. The exercise price of the options is equal to the market price of the Company's stock on the date of grant.

Following is a summary of the status of the Option Plan during the fiscal years ended June 30, 2009 and 2008:

	Number of Shares	Weighted Average Exercise Price
Outstanding at July 1, 2008	169,762	\$ 9.85
Granted	-	
Exercised	-	
Forfeited	(11,628)	
Outstanding at June 30, 2009	158,134	\$ 9.85
Options Exercisable at June 30, 2009	105,858	\$ 9.85
Outstanding at July 1, 2007	170,857	\$ 9.85
Granted	-	
Exercised	-	
Forfeited	(1,095)	
Outstanding at June 30, 2008	169,762	\$ 9.85
Options Exercisable at June 30, 2008	73,688	\$ 9.85

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 14. Stock Option Plan (Continued)

The fair value of each option granted is estimated on the grant date using the Black-Scholes model. The following assumptions were made in estimating fair value:

Dividend Yield	2.0%
Expected Term	10 Years
Risk-Free Interest Rate	4.13%
Expected Life	10 Years
Expected Volatility	8.59%

Compensation cost charged to operations was \$57,000 and \$62,000 in 2009 and 2008, respectively. The income tax benefit realized from the Option Plan was \$19,000 in 2009 and \$21,000 in 2008.

Following is a summary of the status of options outstanding at June 30, 2009 under the Option Plan:

Exercise Price Range	Options Outstanding			Options Exercisable		
	Number	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number	Weighted Average Exercise Price	Weighted Average Exercise Price
\$ 9.85	167,753	5.26 Years	\$ 9.85	105,858	\$ 9.85	\$ 9.85

Note 15. Off-Balance Sheet Activities

Credit Related Financial Instruments

The Bank is a party to credit related financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments consist primarily of commitments to extend credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the Consolidated Balance Sheets.

The Bank's exposure to credit loss in the event of non-performance by the other party to loan commitments is represented by the contractual amount of the commitment. The Bank follows the same credit policies in making commitments as it does for on-balance sheet instruments.

At June 30, 2009 and 2008, the following financial instruments were outstanding whose contract amounts represent credit risk:

Contract Amount	2009	2008
-----------------	------	------

(In Thousands)

Commitments to Grant Loans	\$	6,935	\$	104
Unfunded Commitments Under Lines of Credit		3,672		847

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require a payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 15. Off-Balance Sheet Activities (Continued)

future cash requirements. The amount and type of collateral obtained, if deemed necessary by the Bank upon extension of credit, varies and is based on management's credit evaluation of the counterparty.

Cash Deposits

The Company periodically maintains cash balances in financial institutions that are in excess of insured amounts. The Company has not experienced any losses and does not believe that significant credit risk exists as a result of this practice.

Regional Credit Concentration

A substantial portion of the Bank's lending activity is with customers located within a 100 mile radius of the Shreveport, Louisiana metropolitan area, which includes areas of northwest Louisiana, northeast Texas and southwest Arkansas. Although concentrated within the region, the Bank has a diversified loan portfolio, which should preclude the Bank from being dependent upon the well being of any particular economic sector to ensure collectibility of any significant portion of its debtors' loan contracts.

Other Credit Concentrations

The Bank has purchased, with recourse, a significant number of loans from third-party mortgage originators. These loans are serviced by these entities. At June 30, 2009 and 2008, the balance of the loans outstanding being serviced by these entities was \$9.5 million and \$10.5 million, respectively.

Interest Rate Floors and Caps

The Bank writes interest rate floors and caps into its variable rate mortgage loan contracts and loan servicing agreements in an attempt to manage its interest rate exposure. Such floors and caps enable customers to transfer, modify, or reduce their interest rate risk, which, in turn, creates an off-balance sheet market risk to the Bank. At June 30, 2009, the Bank's loan portfolio contained approximately \$9.4 million of loans in which the loan contracts or servicing agreements possessed interest rate floors and caps. Of this amount, \$9.3 million consisted of purchased loans, which were originated by third-party mortgage originators.

Note Related Party Events

16.

In the ordinary course of business, the Bank makes loans to its directors and officers. These loans are made on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other customers, and do not involve more than normal credit risk or present other unfavorable features.

An analysis of the activity in loans made to such borrowers (both direct and indirect), including lines of credit, is summarized as follows for the years ended June 30th:

2009	2008
(In Thousands)	

Edgar Filing: HOME FEDERAL BANCORP, INC. OF LOUISIANA - Form ARS

Balance - Beginning of Year	\$	430	\$	
				266
Additions		1,329		195
Principal payments		(138)		(31)
Balance - End of Year	\$	1,621	\$	
				430

Deposits from related parties held by the Bank at June 30, 2009 and 2008, amounted to \$1.8 and \$1.3 million, respectively.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 17. Merger and Stock Issuance Costs

On December 31, 2007, the Company entered into an Agreement and Plan of Merger (the Agreement) with First Louisiana Bancshares, Inc. (First Louisiana) which provided for the merger of First Louisiana with and into the Company. In connection with the merger, the Company's current mutual holding company, Home Federal Mutual Holding Company of Louisiana, which owns approximately 63.1% of the Company's outstanding shares, was to be merged into the Company in order to consummate the conversion of the Company to a full stock form organization.

In order to facilitate the merger and conversion, the Company offered up to 1,840,000 shares of its common stock to the public. The costs associated with the stock issuance and conversion were capitalized with the intent to net these costs against the gross proceeds generated from the stock offering. In addition, certain direct costs associated with the acquisition of First Louisiana were capitalized with the intent that these direct costs would be included in the total cost of the acquisition. The Company was not able to sell the minimum number of shares required under the offering, and elected to terminate the offering. As a result, those costs that were capitalized pertaining to the stock issuance and conversion, and with the planned merger with First Louisiana were written off and charged to expense in the consolidated statement of operations. The amount of merger, conversion and stock issuance costs recognized in the consolidated statement of operations for the years ended June 30, 2009 and 2008 totaled \$133,000 and \$883,000, respectively.

Note 18. Regulatory Matters

The Bank is subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly other discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital requirements that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

The Bank is required to maintain minimum capital ratios under OTS regulatory guidelines in order to ensure capital adequacy. Management believes, as of June 30, 2009 and 2008, that the Bank met all OTS capital adequacy requirements to which it is subject.

As of June 30, 2009, the most recent notification from the OTS categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum capital ratios, which are different than those required to meet OTS capital adequacy requirements.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 18. Regulatory Matters (Continued)

There are no conditions or events since that notification that management believes may have changed the Bank's category. The Bank was also classified as well capitalized at June 30, 2008.

The Bank's actual and required capital amounts and ratios for OTS regulatory capital adequacy purposes are presented below as of June 30, 2009 and 2008.

		Actual Amount (Dollars in Thousands)	Ratio	Required for Capital Adequacy Purposes Amount	Ratio
June 30, 2009					
Core Capital	(1)	\$ 29,163	18.93%	\$ 4,623	3.00%

Note 19.

Restrictions on Dividends

Federal and state banking regulations place certain restrictions on dividends paid by the Bank to the Company. The total amount of dividends which may be paid at any date is generally limited to the retained earnings of the Bank.

Note 20.

Fair Value of Financial Instruments

The Company has adopted SFAS No. 107 issued by the Financial Accounting Standards Board which requires disclosure of the fair value of all financial instruments for which it is practical to estimate fair value.

The following methods and assumptions were used by the Bank in estimating fair values of financial instruments:

Cash and Cash Equivalents

The carrying amount approximates the fair value of cash and cash equivalents.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 20. Fair Value of Financial Instruments (Continued)

Securities to be Held-to-Maturity and Available-for-Sale

Fair values for investment securities, including mortgage-backed securities, are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments. The carrying values of restricted or non-marketable equity securities approximate their fair values. The carrying amount of accrued investment income approximates its fair value.

Mortgage Loans Held-for-Sale

Because these loans are normally disposed of within ninety days of origination, their carrying value closely approximates the fair value of such loans.

Loans Receivable

For variable-rate loans that re-price frequently and with no significant changes in credit risk, fair value approximates the carrying value. Fair values for other loans are estimated using the discounted value of expected future cash flows. Interest rates used are those being offered for loans with similar terms to borrowers of similar credit quality. The carrying amount of accrued interest receivable approximates its fair value.

Deposit Liabilities

The fair values for demand deposit accounts are, by definition, equal to the amount payable on demand at the reporting date, that is, their carrying amounts. Fair values for other deposit accounts are estimated using the discounted value of expected future cash flows. The discount rate is estimated using the rates currently offered for deposits of similar maturities.

Advances from Federal Home Loan Bank

The carrying amount of short-term borrowings approximates their fair value. The fair value of long-term debt is estimated using discounted cash flow analyses based on current incremental borrowing rates for similar borrowing arrangements.

Accrued Interest Payable

The carrying amount of accrued interest payable on deposits and borrowings approximates the fair value.

Off-Balance Sheet Credit-Related Instruments

Fair values for outstanding mortgage loan commitments to lend are based on fees currently charged to enter into similar agreements, taking into account the remaining term of the agreements, customer credit quality, and changes in lending rates. The fair value of interest rate floors and caps contained in some loan servicing agreements and variable rate mortgage loan contracts are considered immaterial within the context of fair value disclosure requirements. Accordingly, no fair value estimate is provided for these instruments.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 20. Fair Value of Financial Instruments (Continued)

At June 30, 2009 and 2008, the carrying amount and estimated fair values of the Bank's financial instruments were as follows:

	2009		2008	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
	(In Thousands)		(In Thousands)	
Financial Assets				
Cash and Cash Equivalents	\$ 10,007	\$ 10,007	\$ 7,363	\$ 7,363
Securities Available-for-Sale	92,647	92,647	96,324	96,324
Securities to be Held-to-Maturity	2,184	2,195	1,688	1,703
Loans Held-for-Sale	1,277	1,277	852	852
Loans Receivable	46,948	50,461	28,263	29,576
Accrued Interest Receivable	543	543	550	550
Financial Liabilities				
Deposits	86,146	88,314	78,359	79,667
Accrued Interest Payable	157	157	144	144
Advances from Borrowers	137	137	177	177
Advances from FHLB	35,997	37,088	26,876	26,753
Off-Balance Sheet Liabilities				
Mortgage Loan Commitments	-	69	-	1

The estimated fair values presented above could be materially different than net realizable value and are only indicative of the individual financial instrument's fair value. Accordingly, these estimates should not be considered an indication of the fair value of the Bank taken as a whole.

Note 21. Fair Value Accounting

On July 1, 2008, the Company adopted SFAS No. 157, Fair Value Measurement. SFAS No. 157 establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 was issued to establish a uniform definition of fair value. The definition of fair value under SFAS No. 157 is market-based as opposed to company-specific, and includes the following:

§ Defines fair value as the price that would be received to sell an asset or paid to transfer a liability, in either case, through an orderly transaction between market participants at a measurement date and establishes a framework for measuring fair value;

- § Establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date;
- § Nullifies the guidance in EITF 02-3, which required the deferral of profit at inception of a transaction involving a derivative financial instrument in the absence of observable data supporting the valuation technique;
- § Eliminates large position discounts for financial instruments quoted in active markets and requires consideration of the company's creditworthiness when valuing liabilities; and
 - § Expands disclosures about instrument that are measured at fair value.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 21. Fair Value Accounting (Continued)

SFAS No. 157 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy favors the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- § Level 1 – Fair value is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets in which the Company can participate.
- § Level 2 – Fair value is based upon (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly; (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- § Level 3 – Fair value is based upon inputs that are unobservable for the asset or liability. These inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available in the circumstances, which include the Company's own data. The Company's own data used to develop unobservable inputs are adjusted if information indicates that market participants would use different assumptions.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Home Federal Bancorp, Inc. of Louisiana and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 21. Fair Value Accounting (Continued)

Fair values of assets and liabilities measured on a recurring basis at June 30, 2009 and 2008 are as follows:

	Fair Value Measurements Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
June 30, 2009			
Available-for-Sale			
Debt Securities	\$ -	\$ 90,920	\$ 90,920
Equity Securities	1,727	-	1,727
Total	\$ 1,727	\$ 90,920	\$ 92,647

	Fair Value Measurements Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
June 30, 2008			
Available-for-Sale			
Debt Securities	\$ -	\$ 94,161	\$ 94,161
Equity Securities	2,163	-	2,163
Total	\$ 2,163	\$ 94,161	\$ 96,324

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 22. Earnings Per Common Share

The following table presents the components of average outstanding common shares for the years ended June 30, 2009 and 2008:

	2009	2008
Average Common Shares Issued	3,558,958	3,558,958
Average Treasury Shares Held	(181,874)	(175,168)
Average Unearned ESOP Shares	(91,110)	(96,804)
Average Unearned RRP Shares	(29,220)	(42,872)
Weighted Average Number of Common Shares Used in Basic EPS	3,256,754	3,244,114
Effect of Dilutive Securities		
Stock Options	-	-
Weighted Average Number of Common Shares and Dilutive Potential Common Shares Used in Dilutive EPS	3,256,754	3,244,114

Earnings per share are computed using the weighted average number of shares outstanding as prescribed in SFAS No. 128. For the years ended June 30, 2009 and 2008, there were outstanding options to purchase 167,753 and 169,762 shares, respectively, at \$9.85 per share. For fiscal 2009 and 2008, the options were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market value price of the common shares during the period.

Note 23. Subsequent Events

In accordance with SFAS No. 165, Subsequent Events, management has evaluated subsequent events through the date that the financial statements were issued, September 15, 2009, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
