2.

Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements contained herein have been prepared in accordance with generally accepted accounting principles for interim financial statements, the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, these financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. In addition, certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all the adjustments necessary (consisting only of normal recurring accruals) to fairly present the financial position of the Company at May 31, 2005, and its results of operations and cash flows for the three and six months ended May 31, 2004 and May 31, 2005. Operating results for the three and six months ended May 31, 2005, are not necessarily indicative of the results that may be expected for the fiscal year ending November 30, 2005.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated.

Customer Base & Credit Concentration

The Company has over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, that include national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. This expansion has been achieved through the acquisition of CMJ, Lil Fan, Choice, and their respective customer base, the introduction of additional major product lines and distribution channels, such as the Motor Sports Division, which sells to a national auto dealer market consisting of approximately 9,000 potential customers, as well as expansion of its traditional national retail merchant customer base. As a result of the expansion, the Company has reduced its dependence on any one large customer or distribution channel. During the six months ended May 31, 2005, the Company's sales to four customers made up 54.8% of total sales. The Company's management believes that the Company's credit risk exposure is limited based on current information available with respect to the financial strength of its customers and previously recorded reserves. Such estimates could change in the future.

New Pronouncements

Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections," SFAS No. 141, "Business Combinations," SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," SFAS No. 148, "Accounting for Stock Based Compensation," FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," FASB Interpretation No. 46, "Consolidation for Variable Interest Entities" all became effective for the Company during 2002. The provisions and interpretations of these pronouncements that are applicable to the Company had no material effect on the Company's financial statements.

SFAS No. 142, "Goodwill and Other Intangible Assets" became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

FASB statement No. 123R, "Share Based Payment" becomes effective at the beginning of the quarter ending February 28, 2006 and will require all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allow pro forma disclosure as an alternative to financial statement recognition.

Inventories

Inventory is valued at the lower of cost or market. Cost is determined by the first-in, first-out method, and market represents the lower of replacement cost or net realizable value. Inventories as of May 31, 2005, consisted of the following:

Raw materials	\$ 6,096,274
Finished goods	3,315,256
	\$ 9,411,530

4.**Deferred and Income Taxes**

Income taxes have been computed in accordance with SFAS No. 109, Accounting for Income Taxes. This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences that give rise to significant portions of the deferred tax asset and liabilities at May 31, 2005, are as follows:

Current asset:	
Accounts receivable allowance	\$ 8,813
Net operating loss carryforwards	571,173
Current deferred tax asset	\$ 579,986

Edgar Filing: NEXT INC/TN - Form 10QSB

Non-current liability:

Property, plant and equipment \$ 256,026

Goodwill and other intangibles 124,396

Long-term deferred tax liability \$ 380,422

5.

Short-Term and Long-Term Debt

On February 24, 2005, the Company entered into a credit agreement with First Federal Savings Bank of Wabash to finance the purchase of a warehouse in the amount of \$365,000. The Company has renovated and consolidated all offsite inventories into this building which will reduce rental cost by \$11,500 per month. On February 11, 2005, the Company entered into a credit agreement for \$250,500 with First Federal Savings Bank of Wabash for certain production equipment purchased in 2005. The Company will make principal and interest payments over a 5 year term at 6.75% interest.

The Company may draw up to the sum of 85% of eligible accounts receivable and 60% of eligible raw materials and finished goods inventory. On May 26, 2005, the credit agreement was amended to increase the line to \$9,000,000 and extend the term until April 1, 2007. The amendment to the line of credit allows the Company to reduce the limitation on advances based on eligible

inventory. The agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (6.0% was the published rate at May 31, 2005) and the Company must comply with certain financial and other covenants. In addition, the Company has issued a warrant to purchase 115,000 shares of common stock to Dougherty & Company, LLC Investment Bankers for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price of the Company's common stock must be equal to at least \$2.10 for ten consecutive trading days to exercise a purchase. The total offering price was \$2,990,000 in cash, less fees of \$299,000, for a net cash infusion of \$2,691,000.

On January 21, 2005, The William B. and Cindy S. Hensley Family Limited Partnership (the Partnership) cancelled 80,000 shares of common stock and returned these shares to the Company for the purchase of a note issued to a former salesman. Basic and diluted EPS for the three months ended May 31, 2005 and May 31, 2004 would have been calculated on the basis of the weighted average number of common shares outstanding. However, during the respective three month periods there was a loss; therefore no loss per share data is calculated.

8.

Acquisition of Choice International, Inc.

Pursuant to the terms of an Asset Purchase Agreement (the Agreement), dated as of October 31, 2004, by and among Choice Acquisition Company, a Delaware corporation and wholly owned subsidiary of the Company, Choice International, Inc., a Delaware corporation, Mark Scyphers and Bill Steele, the Company, through its subsidiary Choice Acquisition Company, acquired certain assets of Choice International, Inc., including a customer list and direct purchasing capabilities and distribution rights for Asian sportswear from a Chinese source. No liabilities of Choice International, Inc. were assumed in the transaction. Choice International, Inc. is in the private label sportswear business.

Consideration for the acquisition was: \$200,000 in cash, 100,000 shares of the Company s common stock and up to an additional 450,000 shares of common stock on a deferred basis (November 30, 2005, 2006, 2007) pursuant to a performance based earn-out arrangement. The financial terms of the transaction were determined by negotiation between representatives of the Company and Choice International, Inc. The cash portion of the purchase price was funded from the Company s line of credit with National City Bank. The Company intends to continue to operate the business of Choice International, Inc. after the acquisition through a new remote sales office.

The Choice International acquisition was made to expand the Company s distribution and customer base and acquire the purchasing capability directly with a Chinese source. Goodwill was acquired since management believes that the future value of the combined profit margins will be enhanced. The results of operations of Choice International are included in the consolidated financial statement of the Company commencing October 31, 2004. The Company did not acquire any asset other than goodwill, or assume any liabilities since Choice International had no significant assets or liabilities and did not have any operations prior to October 31, 2004.

Introduction

As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls "supply chain excellence" a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional products. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management may enter into negotiations with sources of equity in an effort to furnish additional capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer bases regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through international purchases of raw materials. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by day's sales outstanding, all in an effort to improve profitability and cash flow.

Overview

Operations and Expansion

The Company is one of the significant companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of The Total Solution Company to meet its customers key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. The Company has, over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops.

The Company is actively engaged in discussions with various potential acquisition targets and plans to grow through strategic acquisitions of complementary businesses. The Company has embarked on an aggressive acquisition program that targets companies servicing other segments of the promotional products and imprinted sportswear industry not currently serviced by the Company. It is anticipated that such strategic acquisition targets will enable the Company to more effectively utilize its marketing and sales expertise, acquire the ability to cross-distribute its branded products and licenses throughout a wider distribution base, lessen its dependency on the seasonality of retail customers and reduce overall operating costs by consolidating its services and distribution facilities, to the extent feasible.

The Company has expanded its business to include e-commerce web sites through which some of the Company's most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are www.campustraditionsusa.com™; www.rpmsportswearusa.com™; www.americanwildlifeusa.com™; and www.americanbiker.com™. The Company plans to establish additional e-commerce web sites as other product lines are established. Another recent addition includes a corporate website, www.nextinc.net, which gives information to the general public about the Company.

Net Sales

Net sales increased 20.0% to \$4,695,583 for the three months ended May 31, 2005, from \$3,916,114 for the three months ended May 31, 2004. The growth in sales related to Choice was \$975,009, which was not in the prior three months ending May 31, 2004, offset by a decline in base sales of \$195,540. Net sales increased 21.9% to \$9,413,595 for the six months ended May 31, 2005 from \$7,721,535 for the six months ended May 31, 2004. The increase in sales is twofold: 15.6% from sales related to Choice and 6.3% related to base sales. The increase in base sales is in four existing national retail customers that purchased increased amounts of automotive licensed products; partially offset by a reduction in one major national customer. Management believes that future sales growth will continue primarily through the diversification and expansion of the Company's customer base and its expanded product offerings.

Cost of Sales

Cost of sales was 73.9% for the three months ended May 31, 2005, compared to 70.1% of the Company's sales for the three months ended May 31, 2004. This increase in cost as a percentage of sales relates to the lower margin private label business related to Choice which are blank (non-decorated) goods. Cost of sales was 71.4% for the six months ended May 31, 2005, compared to 68.3% of the Company's sales for the six months ended May 31, 2004. This increase in cost as a percentage of sales resulted primarily from the higher mix of Choice International sales in the second quarter, and increased domestic purchasing and reduced imports due to difficulties our primary vendors incurred with customs during the first quarter of 2005.

Expenses included in cost of sales were primarily raw materials, labor, shipping supplies, and the depreciation of both the Company's principal manufacturing facility in Indiana and its equipment.

Operating and Other Expenses

General and administrative expenses were \$611,563 (13.0 % of sales) for the three months ended May 31, 2005, compared to \$490,288 (12.5 % of sales) for the three months ended May 31, 2004. The primary increase in expenses is related to the addition of the Choice office, which the Company did not have in the three months ended May 31, 2004 or \$80,977 (1.7 % of sales) for the quarter ended May 31, 2005. General and administrative expenses were \$1,267,523 (13.5% of sales) for the six months ended May 31, 2005, compared to \$1,009,000 (13.1% of sales) for the six months ended May 31, 2004. The primary increase in expenses, \$180,635 (1.9% of sales) relates to the addition of the Choice office, the remaining \$77,888 (0.8% of sales) increase in cost is primarily related to catalogs and printing cost.

Royalty and commission expenses were \$391,221 (8.3% of sales) for the three months ended May 31, 2005, compared to \$467,627 (11.9% of sales) for the three months ended May 31, 2004. The decrease in expense was directly related to a lower volume of licensed products, and more in-house related sales. Royalty and commission expenses were \$887,088 (9.4% of sales) for the six months ended May 31, 2005, compared to \$884,875 (11.5% of sales) for the six months ended May 31, 2004. The decrease again is related to a lower volume of licensed products coupled with higher in-house related sales.

Corporate expenses were \$184,729 for the three months ended May 31, 2005, compared to \$236,441 for the three

months ended May 31, 2004. The decrease in corporate expenses was a result of lower banking fees due to change in primary banks from previous year, and reduced professional fees related to outside consultants. Corporate expenses were \$448,132 for the six months ended May 31, 2005, compared to \$516,854 for the six months ended May 31, 2004. The expense reduction relates to lower banking fees and lower professional fees related to outside consultants.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$137,987 for the three months ended May 31, 2005, compared to \$113,764 for the three months ended May 31, 2004. The increase in interest expense is related to higher rates than previous year and increased debt. Interest expense was \$255,222 for the six months ended May 31, 2005, compared to \$231,335 for the six months ended May 31, 2004. The increase in interest relates to higher interest rates and increased debt.

Other income was \$13,894 for the three months period ending May 31, 2005, as compared to a net expense of \$625,784 for the three months ended May 31, 2004. The Company had a one time write off in the second quarter of 2004 related to fees and expenses of its former bank in the amount of \$501,000 and legal fees of \$138,000. Other income was \$36,555 for the six months ended May 31, 2005, compared to a net expense of \$612,250 for the six months ended May 31, 2004. The change between the periods relates to the one-time write off of \$639,000 for fees and expenses related to the Company's former bank and additional legal cost.

The benefit for income taxes for the three months ended May 31, 2005, was \$30,947, which is attributable to the Company's quarterly operating loss adjusted by book and income tax recognition of temporary differences. The benefit for income taxes for the three-month period ended May 31, 2004, was \$361,579, which was higher related to the pre-tax loss and recognition of book and tax temporary differences. The benefit for income taxes for the six months ended May 31, 2005 was \$44,076, compared to \$379,847 for the six months ended May 31, 2004. The reduced benefit for income taxes is attributable to the reduced loss adjusted by book and income tax recognition of temporary differences.

Financial Position, Capital Resources, and Liquidity May 31, 2005 and November 30, 2004

At May 31, 2005, working capital was \$7,733,613 representing a decrease of \$1,867,066 from working capital at November 30, 2004 of \$9,600,679. The decrease in working capital was primarily due to an increase in short term debt of \$2,743,967 from long term debt associated with the due date of the note on the plant, building, and equipment. The Company is subject to seasonality in its sales cycle due to the amount of college-licensed products. The seasonality of sales results in the majority of the Company's revenues being generated in the third and fourth quarters.

Liquidity and Capital Resources

The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank of Indiana and promissory notes issued by First Federal Savings Bank of Wabash. The credit facility has a maximum limit of \$9,000,000 of which the Company has drawn \$5,938,479 as of May 31, 2005. This credit facility matures on April 1, 2007, and is governed by various financial covenants. The First Federal Savings Bank Promissory Notes consist of one principal loan in the amount of \$2,743,967 payable in monthly installments of \$26,000 of principal and interest and with a balloon payment of \$2,625,334 due January 16, 2006. The Company has entered into two credit agreements in 2005 to purchase a warehouse and certain production equipment; the debt instruments are \$365,000 (15 years at 7%) and \$250,500 (5 years at 6.75%) when fully drawn.

The Company's principal use of cash is for operating activities and working capital. Cash used in operations in the six months ended May 31, 2005, was \$665,225 as compared to \$456,536 of cash used in operations for the six months ended May 31, 2004. The increase in cash provided stemmed primarily from inventory purchases which relate to third quarter planned sales.

The proceeds of common stock issued in the six month period ended May 31, 2005 of \$2,691,000 was applied against the Company's revolving credit facility as required by the loan agreement. The net change in cash provided between the six months ending May 31, 2005, and May 31, 2004 relate to the cash received from issuance of common stock in the six months ending May 31, 2005, and the issuance of preferred stock in the six months ending May 31, 2004.

On May 26, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to increase the line of credit to \$9,000,000 and extend the term thereof until April 1, 2007. The amendment to the line of credit allows the Company to reduce the limitation on advances based on eligible inventory. The agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (6.0% was the published rate at May 31, 2005) and the Company must comply with certain financial and other covenants. Accounts receivable, inventory, and certain personal assets and personal guarantees of the Company's Chief Executive Officer and Chief Financial Officer collateralize borrowings under the facility.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the "Agreement") with Bonanza Master Fund, Ltd. ("Bonanza"), MidSouth Investor Fund, L.P.
