DAKOTA TERRITORY RESOURCES CORP

(Formerly Mustang Geothermal Corp)

(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013

(UNAUDITED)

Note 1 Basis of Presentation

The accompanying unaudited interim financial statements of Dakota Territory Resource Corp. (we , us , our , the Company , the Corporation) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (SEC), and should be read in conjunction with the audited financial statements and notes thereto contained in our annual report on Form 10-K, for the year ended March 31, 2013 as filed with the SEC. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent fiscal year ended March 31, 2013 as reported in our annual report on Form 10-K, have been omitted.

The Company s absence of revenues, recurring losses from operations, and its need for significant additional financing in order to fund its projected loss in 2014 raise substantial doubt about its ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 2 Related Party Transactions

Effective October 1, 2005, we began paying a management consulting fee to Minera Teles Pires Inc., a company controlled by the President and director of the Company. The agreement provides a fixed fee of \$10,000 per month of which \$5,000 is paid and the other \$5,000 deferred until financing is obtained by us. Additionally, the agreement provides for a payment of \$1,500 per month for office rent and expenses. On March 27, 2013, Minera Teles Pires, Inc. agreed to a re-structure of the amounts due under the agreement and agreed to forgive a total of \$522,579. This amount was recorded to additional paid in capital. During the nine months ended December 31, 2013, we incurred approximately \$103,500 in management fees and rent from Minera Teles Pires Inc. As of December 31, 2013, we owed Minera Teles Pires approximately \$188,000 for management fees and out of pocket expenses.

Effective February 24, 2012, we began paying consulting fees to Jerikodie, Inc., a company controlled by our Vice President and a director of the Company. The agreement provides a fixed fee of \$9,000 per month plus approved expenses. During the nine months ended December 31, 2013, we incurred approximately \$81,000 in consulting fees from Jerikodie, Inc. As of December 31, 2013, we owed Jerikodie, Inc. approximately \$135,000 for consulting fees and out of pocket expenses.

On October 3, 2012 we entered into a consulting agreement with, and issued 500,000 shares to, our Director, Gerry Berg, at a price of \$0.02 per share for a total of \$10,000. The Company has also agreed to issue up to an additional 200,000 shares, at a price of \$0.02 per share for a total of \$4,000, subject to a vesting schedule which begins January 2, 2013 and ends December 31, 2013, based on the amount of time served. For the nine months ended December 31, 2013, we issued 150,000 shares to Mr. Berg as stock based compensation valued at \$3,000.

Note 3

Mineral Properties

On September 26, 2012, we re-organized with North Homestake Mining Company. With this re-organization, we acquired 84 unpatented lode mining claims covering approximately 1,600 acres known as the Blind Gold Property located in the Black Hills of South Dakota.

On December 28, 2012 we acquired 57 unpatented lode mining claims covering approximately 835 acres known as the West False Bottom Creek and Paradise Gulch Claim Group, the City Creek Claims Group, and the Homestake Paleoplacer Claims Group, all located in the Black Hills of South Dakota. The purchase price was 1,000,000 restricted common shares valued at \$0.15 per share or \$150,000.

We plan to commence an exploratory program on these mineral properties as soon as financing can be arranged.

	December 31,		March 31,

Note 4

Notes Payable

The following notes payable are unsecured and bear interest at 5% per annum. They are due on demand:

Date	Maturity	Interest rate	Principal	Interest	Total
Nov 15, 2005	On demand	5% per annum	\$ 82,775	\$ 33,654	\$ 116,429
Dec 01, 2005	On demand	5% per annum	\$ 18,800	\$ 7,602	\$ 26,402
Jan 06, 2006	On demand	5% per annum	\$ 100,000	\$ 39,945	\$ 139,945
Jul 14, 2006	On demand	5% per annum	\$ 103,975	\$ 38,841	\$ 142,816
Total			\$ 305,550	\$ 120,042	\$ 425,592

Note Payable to Related Party

We had 11 notes payable to our President pursuant to advances which had historically been made by the President. The notes were dated between March 2011 and August 2012, were unsecured, ranged in amount from \$10,000 to \$50,000, and bore interest at 12% per annum. These notes were re-structured and combined on March 27, 2013 into a single promissory note payable (the New Note). In conjunction with this restructuring, the President forgave accrued interest totalling \$57,817 (recorded as an equity transaction). The New Note is unsecured, has a principal amount of \$265,000, and bears interest at 4% per annum. We will apply 10% of the gross proceeds from any equity financing in an amount exceeding \$0.5 million (whether one or more transactions) from and after the date hereof to prepay principal and accrued interest. All remaining unpaid principal and interest is due March 27, 2016.

As of December 31, 2013, the balance of the promissory note payable amounted to \$265,000.

Note 5

Convertible Note Payable

On August 14, 2008, we executed a 5% convertible note of \$100,000 that was due August 13, 2010. The note is now in default. The note may be converted from time to time, all or any part of the principal plus any unpaid accrued interest (\$27,264 as of December 31, 2013) thereof into common stock of the Company at a conversion price per share equal to the greater of i) the closing market price per share of the common stock on the trading day immediately preceding the date of conversion as quoted on the OTC-BB or such other exchange upon which the Company's shares are then listed or traded, or ii) \$200 per share (\$20.00 per share after adjustment due to 1 for 200 reverse stock split; \$200 per share after a further adjustment due to a 1 for 10 reverse stock split). The conversion price shall be subject to adjustments. The minimum amount to be converted is \$10,000. As of December 31, 2013, this note is outstanding.

Note 6 Line of Credit

We executed a Line of Credit with Wells Fargo Bank in California. The Line of Credit allows us to borrow up to \$35,000. The balance of this Line of Credit at December 31, 2013 was approximately \$29,000.

Note 7

Common Stock

Our authorized capital stock consists of 300,000,000 shares of common stock, with a par value of \$0.001 per share, and 10,000,000 preferred shares with a par value of \$0.001 per share.

On June 4, 2013, we sold and issued 1,000,000 shares of our common stock, at \$0.10 per share, in a private placement for cash totaling \$100,000.

On November 20, 2013, we sold and issued 500,000 shares of our common stock, at \$0.10 per share, in a private placement for cash totaling \$50,000.

On December 5, 2013, we sold and issued 750,000 shares of our common stock, at \$0.10 per share, in a private placement for cash totaling \$75,000.

Note 8 Consulting Agreements

On January 10, 2013, the Company entered into a consulting retainer agreement with a shareholder for professional consulting, strategic planning and business development services for a one year term in exchange for 1,112,500 shares. We issued these shares on May 31, 2013.

On January 10, 2013, the Company entered into a consulting retainer agreement for professional consulting, strategic planning and business development services for a two year term in exchange for 2,250,000 shares, subject to a vesting schedule. We issued these shares on May 31, 2013. This service provider was subsequently appointed to our Board.

On March 19, 2013 the Company entered into an agreement with Wm Chris Mathers to compensate Mr. Mathers as the Company's CFO with 100,000 shares of the Company's stock upon execution of the consulting agreement, and an option to purchase 1,000,000 shares valued at \$0.14 per share under a 5 year term expiring March 19, 2018.

These options vest 25% upon the execution of the agreement and 25% upon each six month anniversary from the date of the agreement, provided Mr. Mathers continues to provide consulting or employment services to the Company on the vesting dates. The Black-Scholes pricing model was used to estimate the fair value of the 1,000,000 options issued during the period, using the assumptions of a risk free interest rate of 1.1%, dividend yield of 0%, volatility of 482%, and an expected life of 5 years. We have determined these options to have an approximate fair value of \$140,000. Since Mr. Mathers award vests over an 18 month period, the Company is expensing a total of approximately \$5,833 monthly, beginning in April 2013, for this award over the 18 month vesting period in accordance with FASB ASC 718. A total of approximately \$52,500 was expensed for the nine months ended December 31, 2013 as stock based compensation.

Additionally, the Company agreed to pay Mr. Mathers cash in the amount of \$1,000 per month increasing to \$2,000 per month on September 1, 2013 and to \$3,000 per month on March 1, 2014. During the nine months ended December 31, 2013, we incurred \$11,000 in compensation to Mr. Mathers, which has yet to be paid.

At December 31, 2013, the total issued and outstanding shares were 47,047,376.

Note 9 Subsequent Events

On February 4, 2014, we announced that we had entered into a consulting agreement with Dr. Michael Terry, a former Homestake Geologic Researcher, to provide guidance to the Company in the execution of its exploration strategies. The consulting agreement is for a period of 1 year from the date of execution. The Company agrees to issue 50,000

restricted shares of common stock upon execution of the agreement and a monthly compensation of \$1,500. In recent years, Dr. Terry and fellow scientists have proposed a Fault Block Concept that provides new insights into the gold metallogenesis of the northern Black Hills of South Dakota.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In this Quarterly Report on Form 10-Q, unless the context requires otherwise, references to Dakota Territory Resource Corp, "the Corporation" we, our or us refer to Dakota Territory Resource Corp. *You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and related notes appearing elsewhere in this quarterly report. This Quarterly Report on Form 10-Q may also contain statistical data and estimates we obtained from industry publications and reports generated by third parties. Although we believe that the publications and reports are reliable, we have not independently verified their data.*

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the exhibits attached hereto contain forward-looking statements. Such forward-looking statements concern our anticipated results and developments in our operations in future periods, planned exploration and development of our properties, plans related to our business and other matters that may occur in the future. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as expects or does not expect, is expected, anticipates or does not anticipate, plans, estimates or intends, or stating that certain actions, events or results could, would, might or will be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements. Forward-looking statements in this Quarterly Report on Form 10-Q, include, but are not limited to:

.
the progress, potential and uncertainties of our 2013-2014 exploration program at our properties located in the Homestake District of the Black Hills of South Dakota (the Project);

.
the success of getting the necessary permits for future drill programs and future project exploration;

.
expectations regarding the ability to raise capital and to continue our exploration plans on our properties; and

.
plans regarding anticipated expenditures at the Project.

Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking statements, including, without limitation:

.

risks associated with lack of defined resources that are not SEC Guide 7 Compliant Reserves, and may never be;

.

risks associated with our history of losses and need for additional financing;

.

risks associated with our limited operating history;

.

risks associated with our properties all being in the exploration stage;

.

risks associated with our lack of history in producing metals from our properties;

.

risks associated with our need for additional financing to develop a producing mine, if warranted;

.

risks associated with our exploration activities not being commercially successful;

.

risks associated with ownership of surface rights at our Project;

.

risks associated with increased costs affecting our financial condition;

.

risks associated with a shortage of equipment and supplies adversely affecting our ability to operate;

.

risks associated with mining and mineral exploration being inherently dangerous;

.

risks associated with mineralization estimates;

.

risks associated with changes in mineralization estimates affecting the economic viability of our properties;

.

risks associated with uninsured risks;

.

risks associated with mineral operations being subject to market forces beyond our control;

.

risks associated with fluctuations in commodity prices;

.

risks associated with permitting, licenses and approval processes;

.

risks associated with the governmental and environmental regulations;

.

risks associated with future legislation regarding the mining industry and climate change;

.

risks associated with potential environmental lawsuits;

.

risks associated with our land reclamation requirements;

.

risks associated with gold mining presenting potential health risks;

.

risks related to title in our properties

.

risks related to competition in the gold mining industries;

.

risks related to economic conditions;

.

risks related to our ability to manage growth;

.

risks related to the potential difficulty of attracting and retaining qualified personnel;

.

risks related to our dependence on key personnel;

.

risks related to our United States Securities and Exchange Commission (the SEC) filing history; and

.

risks related to our securities.

This list is not exhaustive of the factors that may affect our forward-looking statements. Although we have attempted to identify important factors that could cause actual results to differ materially from those described in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, believed, estimated or expected. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Except as required by law, we disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events. **We qualify all the forward-looking statements contained in this Quarterly Report by the foregoing cautionary statements.**

Overview and Organizational History

We are a mining exploration stage company engaged in the business of the acquisition, exploration and development of mineral properties. Dakota Territory maintains 100% ownership of three mineral properties located in the Black Hills of South Dakota, including the Blind Gold, City Creek and Homestake Paleoplacer Properties, all of which are located in the heart of the Homestake District and cover a total of approximately 2,466 acres. We currently have limited operations and have not established that any of our projects or properties contain any proven or probable reserves under SEC Industry Guide 7.

On March 9, 2012 the Company entered into an agreement with North Homestake Mining Company to exchange common stock to affect the acquisition of North Homestake's gold exploration properties located in South Dakota. The Agreement was completed on September 26, 2012 and the Company concurrently effected a 10 for 1 reverse stock split. The merger was recorded as a reverse recapitalization and the issuances of common stock were recorded as a reclassification between paid-in capital and par value of Common Stock. North Homestake Mining Company was incorporated in the State of Nevada on April 12, 2011.

On December 28, 2012, the Company completed an agreement to acquire 57 unpatented lode mining claims covering approximately 853 acres in the Black Hills of South Dakota in exchange for 1,000,000 shares of the Company's common stock, which was valued at \$0.15 per share on the transaction date.

There is substantial doubt about our ability to continue as a going concern as the continuation of our business is dependent upon obtaining further long-term financing, successful exploration and development of our property interests and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Current Plan of Operations

We plan on concentrating all exploration activities on our gold property in South Dakota. During fiscal year 2014, we will require additional new financing of approximately \$2.5 million to carry out our planned exploration, none of which we have secured as of the date hereof.

Our planned exploration program will consist primarily of airborne geophysical surveys, surface sampling and diamond drill programs. Additionally, the budget and any use of proceeds covering any equity based financing would provide for the annual maintenance requirements for the Company's claims, leases, and concessions and our general operating needs.

**Table : Fiscal Year 2014 Proposed
Exploration Expenditures (\$000)**

Salaries & Wages	\$	254
General & administrative	\$	251
Airborne survey	\$	400
Field programs	\$	60
Site preparation	\$	55
Diamond Drilling	\$	790
Assays	\$	93
Geologic & project support	\$	256
Equipment & project operations	\$	75
Permitting & environmental	\$	65
Property costs	\$	20
Project contingency	\$	181
TOTAL	\$	2,500

Our estimated working capital requirements and projected operating expenses for the next twelve-month period total approximately \$2.5 million. Our current working capital will not be sufficient to cover our estimated capital requirements during the next twelve-month period; we will be required to raise additional funds through the issuance of equity securities or through debt financing. There can be no assurance that we will be successful in raising the required capital or that actual cash requirements will not exceed our estimates.

Since we are an exploration stage company and have not generated revenues to date, our cash flow projections are subject to numerous contingencies and risk factors beyond our control, including exploration and development risks, competition from well-funded competitors, and our ability to manage growth. We can offer no assurance that our expenses will not exceed our projections.

Recent Corporate Developments

On June 27, 2013, we furnished a Current Report on Form 8-K and issued a press release concerning the receipt of a technical report prepared to the standard and in the form of National Instrument 43-101 Standards of Disclosure for Mineral Projects ("the Report") titled **Technical Report on the Blind Gold Project, Maitland Mining District, Lawrence County, South Dakota**. Brian Leslie Cole, P. Geo., and Amer Smailbegovic, Ph.D., CPG., each of whom is a Qualified Person under National Instrument 43-101, prepared the report.

Messrs. Cole and Smailbegovic produced the independent review based upon their due diligence investigations of the historical, scientific and technical information pertinent to our Blind Gold Project and Blind Gold Property. Messrs. Cole and Smailbegovic also based their report and opinion upon information gathered as the result of direct observations made during a 6-day visit to our project area.

A copy of the Report is available on our website at www.dakotatrc.com. We are not a reporting issuer in Canada and our Securities are not listed on any Canadian Exchange. The Report was not filed with SEDAR (the System for Electronic Document Analysis and Retrieval), which is the system used for electronically filing most securities related information with the Canadian securities regulatory authorities.

On July 30, 2013, we furnished a Current Report on Form 8-K and issued a press release announcing the appointment of Anthony Kamin to its Board of Directors.

Mr. Kamin serves as the President of Eastwood Investment Management (EIM), which he founded in 2001. EIM is a multi-strategy, multi-asset class investment manager. Mr. Kamin was a Venture Partner with Venture Strategy Partners from 1998 to 2003. Mr. Kamin is an active investor in resource companies and has been a consultant to numerous companies and institutions in the areas of early-stage strategic planning and development. Mr. Kamin was a director of Opexa Therapeutics (OPXA:NasdaqCM) from 2004 to 2006. Mr. Kamin served as Chairman of the

Board of Advisors of DevLab, a center for technology commercialization at Northwestern University. Mr. Kamin received a Masters Degree from Yale University in international relations with a concentration in international law in 1985.

On February 4, 2014, we announced that we had entered into a consulting agreement with Dr. Michael Terry, a former Homestake Geologic Researcher, to provide guidance to the Company in the execution of its exploration strategies. In recent years, Dr. Terry and fellow scientists have proposed a Fault Block Concept that provides new insights into the gold metallogenesis of the northern Black Hills of South Dakota.

Liquidity and Capital Resources

As of December 31, 2013, we had a working capital deficit of approximately \$979,000.

During our fiscal year ending March 31, 2014, we plan to spend approximately \$400,000 for airborne geophysical surveys, \$790,000 for diamond drilling, \$60,000 for surface sampling and \$93,000 for assays, as well as approximately \$324,000 for expenses related to exploration programs. The timing of these expenditures is dependent upon a number of factors, including the availability of drill contractors. We estimate that general and administrative expenses during fiscal year ending March 31, 2014 will be approximately \$750,000 to include payroll, legal and accounting services and other general and other expenses necessary to conduct our operations.

We have no employees. Our management, all of whom are consultants, conduct our operations. We do not expect any material changes in the number of employees over the next twelve-month period. Given the early stage of our development and exploration properties, we intend to continue to outsource our professional and personnel requirements by retaining consultants on an as needed basis. However, if we are successful in our initial and any subsequent drilling programs, we may retain employees.

We currently do not have sufficient funds to complete exploration and development work on our properties, which means that we will be required to raise additional capital, enter into joint venture relationships or find alternative means to finance placing one or more of our properties into commercial production, if warranted. Failure to obtain sufficient financing may result in the delay or indefinite postponement of exploration and development or production on one or more of our properties and any properties we may acquire in the future or even a loss of property interests. We cannot be certain that additional capital or other types of financing will be available when needed or that, if available, the terms of such financing will be favorable or acceptable to us. Our ability to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions as well as our business performance.

On June 4, 2013, we sold and issued 1,000,000 shares of our common stock, at \$0.10 per share, in a private placement for cash totaling \$100,000.

On November 20, 2013, we sold and issued 500,000 shares of our common stock, at \$0.10 per share, in a private placement for cash totaling \$50,000.

On December 5, 2013, we sold and issued 750,000 shares of our common stock, at \$0.10 per share, in a private placement for cash totaling \$75,000.

Results of Operations

Nine months ended December 31, 2013 and 2012

We had no operating revenues for the nine months ended December 31, 2013 and 2012. We are not currently profitable. As a result of ongoing operating losses, we had an accumulated deficit of approximately \$1,051,000 as of December 31, 2013.

Our general and administrative expenses for the nine months ended December 31, 2013 were approximately \$487,000. This amount includes non-cash stock compensation expenses of approximately \$156,000 of stock compensation for consultants and one of our executive officers. The remaining general and administrative expenditures totaling approximately \$331,000 were primarily for legal, accounting & professional fees, investor relations and other general and administrative expenses necessary for our operations. We incurred approximately \$193,000 in general and administrative expenses for the nine months ended December 31, 2012. These expenses were primarily for legal, accounting & professional fees, investor relations and other general and administrative expenses necessary for our operations. During the nine months ended December 31, 2013 we spent approximately \$28,000 in exploration costs for geological reports and mineral claims.

We had losses from operations for the nine months ended December 31, 2013 of approximately \$521,000 and approximately \$194,000 for the nine months ended December 31, 2012. We had net losses for the nine months ended December 31, 2013 of approximately \$544,000 and approximately \$216,000 for the nine months ended December 31, 2012. We accrued interest on notes payable totaling approximately \$23,000 for the nine months ended December 31, 2013 and approximately \$22,000 for the nine months ended December 31, 2012.

Three months ended December 31, 2013 and 2012

We had no operating revenues during the quarters ended December 31, 2013 and 2012.

Our general and administrative expenses for the three months ended December 31, 2013 were approximately \$114,000. This amount includes non-cash stock compensation expenses of approximately \$19,000 of stock compensation for consultants and one of our executive officers. The remaining general and administrative expenditures totaling approximately \$95,000 were primarily for legal, accounting & professional fees, investor relations and other general and administrative expenses necessary for our operations. We incurred approximately \$146,000 in general and administrative expenses for the three months ended December 31, 2012. These expenses were primarily for legal, accounting & professional fees, investor relations and other general and administrative expenses necessary for our operations.

We had losses from operations for the three months ended December 31, 2013 of approximately \$124,000 and approximately \$147,000 for the three months ended December 31, 2012. We had net losses for the three months ended December 31, 2013 of approximately \$132,000 and approximately \$168,000 for the three months ended December 31, 2012. We accrued interest on notes payable totaling approximately \$8,000 for the three months ended December 31, 2013 and approximately \$21,000 for the three months ended December 31, 2012.

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital resources.

Critical Accounting Estimates

Management's discussion and analysis of financial condition and results of operations is based on our financial statements, which have been prepared in accordance with GAAP. Preparation of financial statements requires management to make assumptions, estimates and judgments that affect the reported amounts of assets, liabilities, revenues, costs and expenses, and the related disclosures of contingencies. Management bases its estimates on various assumptions and historical experience, which are believed to be reasonable; however, due to the inherent nature of estimates, actual results may differ significantly due to changed conditions or assumptions. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are fairly presented in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material. Management believes that the following critical accounting estimates and judgments have a significant impact on our financial statements; Valuation of options granted to Directors and Officers using the Black-Scholes model.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

At the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision of and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operations of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based on that evaluation the CEO and CFO have concluded that as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures were not effective in ensuring that: (i) information required to be disclosed by us in our reports that we file or submit to the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and (ii) material information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow for accurate and timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially effect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

There have been no material changes from the risk factors as previously disclosed in our Form 10-K for the year ended March 31, 2013 as filed with the Commission on July 1, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table describes all securities we issued during the period covered by this report without registering the securities under the Securities Act.

Date	Description	Number	Purchaser	Proceeds		Exemption
				(\$)	Consideration	(A)
June 2013	Common Stock	1,000,000	Private Placement Investor	100,000	Cash	4(2)
November 2013	Common Stock	500,000	Private Placement Investor	50,000	Cash	4(2)
December 2013	Common Stock	750,000	Private Placement Investor	75,000	Cash	4(2)

(A)

With respect to sales designated by Sec. 4(2), these shares were issued pursuant to the exemption from registration contained in to Section 4(2) of the Securities Act of 1933 as privately negotiated, isolated, non-recurring transactions not involving any public offer or solicitation. Each purchaser represented that such purchaser's intention to acquire the shares for investment only and not with a view toward distribution. We requested our stock transfer agent to affix appropriate legends to the stock certificate issued to each purchaser and the transfer agent affixed the appropriate legends. Each purchaser was given adequate access to sufficient information about us to make an informed investment decision. Except as otherwise set forth in this Quarterly Report, none of the securities were sold through an underwriter and accordingly, there were no underwriting discounts or commissions involved.

Item 3. Defaults upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosure

Pursuant to Section 1503(a) of the recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act (The Dodd-Frank Act), issuers that are operators, or that have a subsidiary that is an operator, of a coal or other mine in the United States are required to disclose in their periodic reports filed with the SEC information regarding specified health and safety violations, orders and citations, related assessments and legal actions, and mining-related fatalities. During the quarter ended May 31, 2013, our U.S. exploration properties were not subject to regulation by the Federal Mine Safety and Health Administration (MSHA) under the *Federal Mine Safety and Health Act of 1977* (the Mine Act).

Item 5. Other Information

None.

Item 6. Exhibits.
