ATM Business in Canada

Background of the ATM Business

In the latter part of 1997, the Canadian Banking and Financial sectors of Canadian industry commenced a government deregulation program in which under deregulation of the Canada Bank Act, allowed for the release of certain segments of proprietary control involving banking institutions. One of the preliminary results of the deregulation was the allowance of the private operation of ATMs not associated with Canadian Banking financial institutions. This private ownership and operation of ATM equipment has been described within the industry as the white label ATM market.

Canadian Banking Institutions have been participating in the development of new technology, particularly in regard to online computer banking. Advances originating from the introduction of credit card and debit card services evolved into the installation of commercial POS management systems across the country and the development of the Canadian INTERAC system which provided complete online banking services and 24-hour customer banking between the various existing banking institutions. It also provided for full-bank service availability from remote site locations throughout Canada.

Evolving online financial technology being pursued by the institutional banking financial sectors has been confronted by growth of computer-based commerce. The Internet and the expansion of computer generated online commerce shifted a significant amount of consumer financial services from conventional banking and financial institutions to non-traditional and new and innovative virtual-based methods of conducting financial transactions. This on-line or INTERAC connecting of the conventional banking institutions was a significant factor for profits produced by Canadian conventional banking and financial institutions during the last five (5) years.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

In late 1997, non-conventional banking participation and private ownership of ATMs was authorized through the deregulation process within the Canada Bank Act that allowed for private participation within the Canadian INTERAC system. The implications of private ownership and participation within this technologically based commerce have been significant.

Many Canadian companies pursued participation in the field of marketing, distribution, selling, and leasing cash dispensing equipment recognized in the market place as ATMs, ABMs (automated banking machines), white label machines (a privately owned and operated cash dispensing machine).

A switch as used herein means a computer system that receives requests for financial transactions from ATM terminals, POS or electronic transfer terminals in retail businesses which routes transaction requests to and from ATM devices and financial institutions for final transaction processing and/or authorization. In Canada, the Canadian INTERAC network coordinates this activity. Under recent deregulation, non-financial institutions that are members of INTERAC are allowed to be indirect connectors. These non-financial institutions provide switching services for shared cash dispensing, data processing, and other associated services in connection with the network. Pursuant to the rules and regulations set out by INTERAC and current switch technology, a switch can process up to ten thousand (10,000) transactions at any given time.

The Entry of Vencash into the ATM Business

Vencash Capital identified opportunities resulting from the privatization of the ATM business. During December 1997, the first privately owned ATMs were placed in Western Canada and in July 1998, Vencash Capital entered the white label ATM marketplace. Vencash Capital contracted with TNS Smart Network Inc. an Etobicoke, Ontario Corporation, which provides switching services to the industry, and became the 7th Canadian Channel authorized to participate within the white label ATM business.

By March 1999, Vencash Capital had ninety (90) ATMs under its management across Canada, primarily in the Provinces of Ontario, British Columbia and Alberta. We reached an agreement with Vencash Capital to fund, by way of lease and loan agreements, the expansion of Vencash Capital's placement of ATMs. By the 1999 year-end and with our financial assistance, Vencash Capital was able to expand its management and ownership of ATMs across Canada, increasing its network to the Maritime Provinces by establishing (2) two new distributorships, one in Prince Edward Island and one in New Brunswick.

By December 2005, Vencash Capital had sites located nationally across Canada and managed nine hundred thirty-two (932) ATMs. As of March 31, 2006, Vencash Capital held nine hundred twenty-five (925) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. As of March 31, 2007, Vencash Capital held nine hundred seventy-seven (977) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. As of March 31, 2008, Vencash Capital held nine hundred and twenty (920) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes.

Vencash Capital is one of several nation-wide companies involved in the private ATM market in Canada and presently has one (1) distributors in the Maritime region of Canada, three (3) independent distributors in the Metro Toronto area of Ontario, Canada, one (1) distributor in the Province of Saskatchewan, one (1) distributor in Kamloops, British Columbia and one (1) distributor in the Greater Vancouver, British Columbia area.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

At present, Vencash Capital acts as a channel which contracts its financial electronic transfer responsibilities with two (2) switches (Data West Solutions and Calypso Canada Ltd.). It is our intention to develop our own self sufficient switch associated directly with the Canadian INTERAC network.

The switch supplies the financial information to the channel in relationship to the processing of all surcharge fees that are associated with the customer use of the ATM. The opportunity for Vencash Capital to have an ownership interest in a switch is, of foremost importance to our management and we continue to give this project high priority.

Current Stage of Corporate Development

Historically, Vencash Capital has provided a large percentage of the cash flow which fuelled its and our other expansion. Our management believes that Vencash Capital will continue to generate positive revenues and returns. We plan to focus on supplying the required funding for the growth of our placement and ownership of equipment to Vencash Capital customers through our relationship with equipment suppliers and our contracted Switching Network to allow for the growth of the Vencash Capital distribution network as well as capitalization of its own switch development.

Growth Strategy and Market Niche

Vencash Capital is an integrated ATM provider offering a complete suite of ATM management services ranging from ATM deployment, maintenance reporting and settlement. Vencash Capital has focused on organic growth over the past three (3) years and its management's plan is to continue to its growth within the ATM market place into the future as follows:

- i. In 2007, Vencash Capital plans to evaluate the management of its ATMs in the Canadian marketplace and focus on maximizing its returns from its existing financial footprint.
- ii. Vencash Capital plans to continue to grow its regional ATM distribution network in both sales and servicing of ATMs and to expand its POS presence across the distribution network.
- iii. Vencash Capital plans to establish a corporate based and managed national sales force to augment and enhance its ATM distribution network across Canada.

The Canadian ATM Market

In late 1997, non-conventional banking participation and private ownership of ATMs was authorized allowing for participation within the Canadian INTERAC system. The Canadian Interac Association as used herein is a national organization linking enterprises that have proprietary networks to enable them to communicate with each other for purposes of exchanging electronic financial transactions. Five (5) Canadian Banking and Financial Institutions founded the association in 1984. As of March 2006, there were eighty-eight (88) member organizations. INTERAC is the organization responsible for the development of a national network of shared electronic financial services: INTERAC Shared Cash Dispensing Service (SCD) at ATMs and INTERAC Direct Payment Services (IDP), Canada's national debit service. IDP is Canada's national debit card service, available at more than 365,616 merchants across the country.

The business opportunities originating for private ownership and operation of ATMs within the INTERAC system resulting from the Canada Bank Act deregulation in 1998 has matured over the past several years. With the maturity of this aspect of the business, acceptance of the white label ATM placement has become routine, however, saturation is not yet comparable to the United States market experience.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

Vencash Capital believes that the Canadian market, enhanced by national access to all regions within Canada through the INTERAC System, provides it with an opportunity to continue its growth through sales and distribution networks.

Competitors

- i. DirectCash Income Trust Canada's largest ATM company in operation. It has offices and distribution centers in all of the major cities across Canada.
- ii. Frisco Bay A large ATM corporation with integrated business operations which supplies security systems to major financial corporations and the banking industry.
- iii. Laser Cash (Threshold) A large ATM operator in service. This corporation also has distribution capabilities across Canada with head offices located in Mississauga, Ontario.
- iv. Cash-Line A Victoria, B.C. based corporation with ATM machines in service primarily across Western Canada.
- v. Ezee Cash-An Ontario and Quebec centered ATM company that has a national presence.
- vi. Several Regional and National Companies These companies compete on a regional basis with Vencash Capital's regional distributor network and nationally with Vencash Capital corporately.

Competitive Advantages

Focusing on customer site and consumer service, Vencash Capital has focussed on long-term contractual relationships which provide recurring transactional and fixed revenue streams with a national presence and a diverse customer base, including primarily small and medium retail site locations as well as a secondary presence in national or regional chain accounts.

Vencash Capital's management continues to utilize selective placement and monitoring of ATMs, to obtain maximum value for placement and a higher percentage return per terminal. Service and information dissemination will continue to be a priority for the management team, employees, distributors and strategic partners. Information processing and communications systems will integrate all components of Vencash Capital's internal and external operations.

From its inception to date, Vencash Capital's brand recognition has been positively reinforcing site customer and ATM consumer confidence. The Canadian marketplace has demonstrated that ATM site owners are receptive to positive and dependable customer service. Vencash Capital has increased its marketing and distribution network development with its administrative, operational and service mechanisms and plans to continue its expansion in established and new areas. Vencash Capital's management plans to expand the business operations of Vencash Capital by continuing to support its partnership program with its current distribution network. To add and enhance its network of regional distributors, Vencash Capital intends to establish a corporate based and managed national sales force to augment and enhance its ATM distribution network across Canada.

Vencash Capital's management believes there will be a continued consolidation in the white-label ATM marketplace in 2007. This will likely result in several large national organizations vying for marketplace dominance. The sourcing of acquisitions and business consolidation has been quite active in Canada and remains an option that continues to be reviewed by us.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

On June 08, 1998, Vencash Capital signed a supply agreement with Triton Systems, Inc., an ATM manufacturer and supplier. The agreement contains pricing schedules based upon Vencash Capital's volume purchase requirements.

Vencash Capital has processing agreements with the following vendors:

- i. Open Solutions formerly known as Data West and TCS (Canada) Ltd, executed June 24, 1999.
- ii. Calypso Canada Ltd. originally executed on August 1999 and later renegotiated in December 2003.

We have a large customer base and a large geographical area in which to market our products. Vencash Capital presently has nine (11) distributors of its equipment, products and services under contract across Canada, two (2) contracted sales persons in Vancouver, B.C. and five (5) contracted sales persons in the Province of Alberta, Canada. Vencash Capital is one of several nation-wide companies involved in the private ATM market in Canada. Our management believes that the expansion of the present operations of Vencash Capital will allow for vertical integration of other opportunities for us to supply financial services and packages, which can be marketed in conjunction with the ATM placement network

Risk Assessment

The private white label ATM business is highly competitive. We face competition from large numbers of companies engaged in the selling and servicing of ATM products in all areas in which we may attempt to operate. Many of the programs and companies so engaged possess greater financial and personnel resources than us and therefore have greater leverage to use in developing technologies, establishing markets, acquiring prospects, hiring personnel and marketing. Accordingly, a high degree of competition in these areas is expected to continue. The major banks in Canada could aggressively enter the white label market and we could not overcome or compete with them due to their financial and corporate strength.

We and our subsidiaries are subject to the terms and conditions applicable to channels as set forth by the INTERAC network system.

b. Business of Westsphere Financial Group Ltd.

Upon Management's 2004 review and reorganization and consolidation of our business operations, we suspended all distribution, software injection and key coding related to point of sale placement on the switch. The sale and distribution systems remain ongoing through our controlled subsidiary, TRAC POS Processing Inc., and the corporate shell was sold in May 2005 to an arm's length third party after being inactive for a period of six (6) months.

c. Business of Vencash POS Services Inc.

On May 09, 2003, we incorporated Westsphere POS Services Ltd. (Westsphere POS) under the laws of the Province of Alberta for the purpose of providing sales and servicing in the POS market. POS as used herein means an electronic terminal that accepts bank debit cards and credit cards to pay by way of direct settlement to the retailers account from the customers banking or credit card provider on a daily basis for a purchase of goods or services. On January 04, 2006, Westsphere POS changed its name to Vencash POS Services Inc. (Vencash POS) with the intent that Vencash POS would consolidate all of our POS related business activity to date, the consolidation process is ongoing and until such time as the consolidation is completed, there will be limited business activity.

d. Business of Kan-Can Resorts Ltd.

Kan-Can acquired three hundred thirty-two (332) acres of recreational land located on a Province Government Head lease located near the City of Canmore in the Province of Alberta, Canada. The annual cost of the lease was approximately \$5,300 with lease expiry and renewal scheduled for October 31, 2004.

Alpine Resort Haven Ltd. (Alpine) was formed as a limited partnership with Kan-Can owning a seventy-four percent (74%) interest and acting as the general partner. Alpine constructed and operated a timeshare resort on the leased land, but was petitioned into bankruptcy in April 2000. On October 19, 2001, we purchased an additional fifty-seven percent (57%) interest in Kan-Can from 347830 Alberta Ltd. Westsphere we thereby became acquired a sixty-seven percent (67%) majority owner of 67% interest after the acquisition. Westsphere Our interest in Alpine later increased to then became a ninety-nine percent (99%) owner of Kan Can through as a result of a settlement reached with a corporation established by some of Alpine s Resort s timeshare owners.

On November 26, 2001, Kan-Can sold the head lease to the property for \$465,087 (\$740,000 CDN) along with Kan-Can common stock equaling thirty-two percent (32%) of the outstanding shares before the transaction. A mortgage bearing an interest rate of four-and-a-half percent (4.5%) with monthly payments (principal and interest) of \$5,720 (\$8,982 CDN), is accounted for by us as a debt investment being held to maturity. The shares received were returned to the treasury and cancelled. As a result of this transaction, our ownership percentage of Kan-Can increased to ninety-nine percent (99%) and we accordingly adjusted our equity in the subsidiary by \$1,630. Kan-Can continues to have no business activities other than collecting the monthly mortgage payments resulting from the sale of the head lease on November 26, 2001. In 2004, we were notified by the mortgagee, and subsequently confirmed in documentary form, that the government head lease had been renewed for an additional twenty-five (25) years thereby entitling Kan-Can to the continued receipt of mortgage proceeds. Final payment of our mortgage financing arrangements mature with the last mortgage payment scheduled for August 3, 2007. It is anticipated that the business of Kan-Can will be wound down upon completion of the financial arrangements. On April 1, 2007, Banff Gate Mountain Resort Ltd. exercised their option to pay the mortgage in full.

With no further business operations and all outstanding receivables have been paid and received including the expiration forward benefits of any loss carried, Kan-Can will be either sold or wound down by Westsphere at the end of the first quarter of 2008 based on a best case formulation related to the divestiture of Kan Can from Westsphere s business operations.

- ii. Providing internal security for intellectual property and technical development.
- iii. Providing premium in-house web-hosting services to us and other selected customers.

- f. *Business of E-Debit International Inc.*

E-Debit initial development stages focused on meeting the payment system needs of current and potential online shoppers. E-Debit's business model was based on an anonymous payment system to protect the identity of the purchaser while allowing for guaranteed payment to the merchant. E-Debit intended to accomplish this system by developing and marketing a secure, anonymous online payment system that could be used by online consumers and merchants.

The events of September 11, 2001 caused our management to seriously evaluate the anonymity factor of the E-debit process, particularly because the E-debit process allowed for the anonymous transfer of currency. The anonymity extended to E-Debit as the E-debit account holder's identity would not be available to E-Debit once the account numbers had been changed by the individual account holder, thereby allowing currency transfers without any ability to track or trace the account holder.

On February 11, 2004, we entered into a purchase agreement to acquire an additional ten percent (10%) interest in E-Debit from a non-affiliated third party E-Debit shareholder. With this purchase, E-Debit became one of our wholly owned subsidiaries. The function of E-Debit has been expanding in conjunction with the original functionality of the E-debit process. The business model has been amended in order to incorporate and integrate the E-debit process into the aspects of our ATM, POS and Westsphere Systems Inc. business operations. This project is now pending until determination of its appropriate applications. E-Debit has had no new business activity to date.

g. *Business of Cash Direct Financial Services Inc.*

Cash Direct was formed to expand our non-conventional banking operations branded Personal Financial Solutions.

The first Personal Financial Solutions storefront commenced business operations on November 1, 2004 supplying short-term cash advance loan agreements under the brand name CashDirect Advance, cheque cashing services, corporate registry and filing and other related services.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

Cash Direct generated revenues from its investment in Personal Financial Solutions and through its first beta site which grew on a monthly basis during the first full year of operations. It was apparent that the beta test supported the acceptance, convenience, versatility and reliability of the Cash Direct proprietary hardware and related software and although two (2) additional Personal Financial Solutions arms length privately held distributorships one in Edmonton, Alberta and another in Calgary, Alberta

With the start up of the second Calgary Personal Financial Solutions independent business centre on March 15, 2006, the Calgary beta test store was wound down and its client base was transferred to the Calgary, Alberta distributor which continued to operate into 2007. The Calgary, Alberta based distributor wound down its business operations in mid 2007 while the Edmonton, Alberta based distributor suspended his business operations in order to renovate the building which housed his distributorship.

The Corporation has determined that the operation of cheque cashing services, corporate registry and filing services was not in the core business model as the fee per transaction based business operations of its ATM, POS and card management businesses. As a result we have been meeting with the Edmonton based distributor to determine whether we wind this business down or sell off the business concept to the remaining distributor. This determination should be concluded by the end of the 2nd quarter of 2008.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND CHANGES IN FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Westsphere and its subsidiaries generated a net loss of \$314,427 from operations for the twelve month period ending December 31, 2007. During the period of operations ending December 31, 2006, Westsphere and its subsidiaries generated a net income of \$139,794. The decrease in year 2007's net income of \$454,221 over the previous year was primarily due to a significant increase in legal and accounting fees of \$106,798, an increase in salaries and benefits of \$112,021, an increase in travel, delivery and vehicle expenses of \$43,924, an increase in other expenses of \$87,668, an increase in interest expense of \$15,790, a significant decrease in currency exchange gain of \$95,413, and a decrease in interest income of \$48,032.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

An increase in legal and accounting fees was primarily due to an increase in a number of minor lawsuits from Westsphere's subsidiary Vencash. However, these lawsuits have no significant material impact to the business. The audit and filing fees also increased was caused by the transition process to a new auditor as required by the professional accounting standards for an auditor to rotate every five years term.

An increase in salaries and benefits from the previous year 2006 of \$724,448 to \$836,469 which was primarily due to an additional three new positions to the organization; a sales manager, a service technician, and a junior accountant.

An increase in travel, delivery and vehicle expenses was caused by an increase in number of placement of ATMs in the marketplace, and Westsphere's subsidiary, Vencash, leased four additional vehicles for the Sales and Service departments.

An increase in other expenses was primarily caused by an increase in office lease and staff accommodation totaling \$44,756, an impairment loss totaling \$23,719 on the purchase of additional 26% interest in Trac Pos Processing Inc., and the remainder of \$19,193 was related to various general and administrative expenses.

An increase in interest expense was due to Westsphere entered into two new loan agreements during year 2007 totaling \$235,234 (\$231,000 CDN), bearing interest at 12% per annum, blended monthly payments of interest only of \$2,352 (\$2,310 CDN). The purpose of these loan are to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers ATM equipment and site locations. In addition, Westsphere also committed to pay \$1,527 (\$1,500 CDN) interest per month to an investor whose vault cash Westsphere's subsidiary Vencash customer ATM equipment and site locations. Revenue from these funds will be generated from surcharge transactions.

The decrease in gain on currency exchange of \$95,413 was caused by Westsphere's subsidiary Vencash no longer experiencing the fluctuation of currency exchange gain of 15% as the same period from previous year which is used between the time the payable is recorded and the time the payable is paid to an ATM supplier.

A significant decrease in interest income of \$48,032 was primarily caused by the sale of the sales-type lease contract in November 2006 and the mortgage receivable was paid in full on April 1, 2007. Therefore, no interest income was earned.

Also contributing to the decrease in year 2007's net income was a decrease of \$230,694 in gross revenue. The decrease is primarily caused by a decrease in equipment and supplies sales of \$96,163, a decrease in residual and interchange income of \$101,805, and a decrease in other revenue of \$32,726.

The significant decrease in net of equipment and supplies sales was due to Westsphere's subsidiary Vencash Capital Corporation mainly focusing on the placement, and finance/lease program offered by an ATM supplier in year 2006. The finance/lease program provides Vencash Capital an opportunity to place more ATMs in the marketplace at a lower cost. However, due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 are presently in dispute.

The decrease in residual and interchange income gross of \$101,805 from the previous year: in 2006 the gross of residual and interchange income totaled \$4,162,286, whereas in 2007, the gross of residual and interchange income totaled \$4,060,481. This decrease was mainly caused by a decrease in the number of placements of ATMs in year 2007. In addition, according to Canadian Interac data, the number of transactions using an ATM other than the cardholder's institution has dropped from 375 million in 2001 to 285 million in 2006 and the number of shared ATMs increased by 4% but the number of shared cash dispensing decreased by 6.5%.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

In January 2007, Westsphere issued 31,058 common shares at a fair market value at \$1.38 (\$1.62 CDN) per share. We executed a share exchange agreement with unaffiliated TRAC shareholders to exchange a total of 24,142 shares of our common stock at \$1.38 (\$1.62 CDN) per share for a nineteen percent (19%) interest plus \$19,092 (\$22,500 CDN) shareholders loan in TRAC. Concurrently, we entered into share exchange agreements with affiliated TRAC shareholders, Jack Thomson and Brett Border, to exchange a total of 6,916 shares of our common stock at \$1.38 (\$1.62 CDN) per share for a twelve percent (7%) interest in TRAC. Mr. Thomson is a member of our Board of Directors and Mr. Border is the President of Vencash Capital and TRAC. This share exchange resulted in increasing our holdings in TRAC to eighty-two percent (82%).

In March 2007, Westsphere received \$7,017 from an executive officer who exercised a portion of his 2002 options to purchase 10,025 shares of common stock.

In May 2007, Westsphere's subsidiary Vencash entered into a loan agreement with its major ATM supplier requiring blended monthly payments of principal and interest of \$885 (\$869 CDN) to May 2012; with a final payment of \$90 in May 2012.

In June 2007, Westsphere's subsidiary Vencash entered into a loan agreement with its major ATM supplier, requiring blended monthly payments of principal and interest of \$885 (\$869 CDN) to June 2012; with a final payment of \$90 in June 2012.

In September 2007, Westsphere's subsidiary Vencash entered into a loan agreement totaling \$101,833 (\$100,000 CDN) with an external arms-length investor, blended monthly payments of interest only of \$1,018 (\$1,000 CDN) to September 2008 with an automatic extension for a further 6 month term. The principle is to be repaid in a maximum of 18 months. The purpose of the loan is to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers' ATM equipment and site locations.

In October 2007, Vencash Capital Corporation commenced an agreement with Trans Armored Canada Ltd. a Halifax, Nova Scotia, Canada based corporation providing armored transport/ATM technical services for the delivery of currency and maintenance of cash dispensing machines. The terms of the agreement allows an option for Vencash to acquire a twenty percent share position within TAC and the allocation of the right to appoint fifty percent of the board of Directors of TAC. Financially Vencash will participate equally with TAC in the distribution of revenues both profit and loss. To date Vencash has not acquired any TAC ownership nor has Vencash appointed any Directors to TAC.

On October 21, 2007, Westsphere Asset Corporation, Inc. through its subsidiary companies Vencash Capital Corporation and Westsphere Systems Inc. have commenced an agreement with ACI Worldwide Inc. for the enablement of Westsphere Systems Inc to become a new ATM/POS acquirer (Switch) in the Canadian marketplace and in association with Canadian electronic payment network, Interac whereby Westsphere Systems Inc. is an indirect connect member.

In order to fund Westsphere's business growth in TAC and in its development of its electronic payment Switch as per its agreements with TAC and ACI, Westsphere is dependent upon private placements, loans and/or joint venture arrangements along with Westsphere's subsidiary cash flows to meet its financial needs.

On November 5, 2007, Westsphere's subsidiary Westsphere Systems Inc. raised \$133,401 (\$131,000 CDN) through a loan agreement with an external arm-length investor, blended monthly payments of interest only of \$1,334 (\$1,310 CDN) to October 2009, with an automatic extension for a further 12 month term. The purpose of the loan is to funds the start up costs for the switch development.

In order to grow Westsphere's businesses in ATM machines, in Finance/Lease and in POS machines, Westsphere is dependent upon private placements, loans and/or joint venture arrangements. The profits are expected to be generated by the interchange and surcharges collected from ATM and POS machines, the sale of ATM and POS machines, and from Financing and leasing charges.

Changes in Financial Position

During fiscal year 2006, total assets decreased to \$1,303,752 primarily due to a decrease in inventory of ATM machines and POS machines of \$96,284, a decrease in prepaid expenses and deposit of \$33,871, and a repayment in mortgage receivables of \$85,898. The decrease in inventory was caused by Westsphere's subsidiary Vencash Capital mainly focusing on the finance/lease program offered by an ATM supplier for the placement of ATMs, therefore, the Company intended to maintain lower levels of inventory for resale/lease for ATMs on hand at year end.

As of December 31, 2006, Westsphere's current liabilities consisted of accounts payable of \$576,621 and accounts payable to related parties of \$122,463. Accounts payable includes a payable of \$12,506 to suppliers for the purchase of ATM machines and POS machines, \$174,740 is payable for the return of surcharge and interchange, long term lease payable to ATM suppliers in the amount of \$197,475, legal and accounting fees of \$32,894, and \$159,006 due for consulting services, office expenses and various other general fees and charges.

Accounts payable to related parties consists of Officers' and Directors' bonuses payable carried forward from year 2002 in the amount of \$64,624, a loan advanced from Westsphere's President in the amount of \$32,102, and a cash advance from Westsphere's Vice President in the amount of \$25,737 which was repaid in January 2007.

Long term liabilities as at December 31, 2006 consisted of a bank loan totaling \$14,125 for funds to pay down accounts payable to a major supplier, and \$223,771 for outstanding accounts due to shareholders of Westsphere. Westsphere's shareholder loans related to TRAC of \$155,183 has an interest rate of 18% per annum. This is a demand loan. The remaining balance of shareholder loans total \$68,588 with no specific terms of repayment.

Shareholders' equity as of December 31, 2006 was \$366,772, inclusive of an accumulated loss from operations of \$1,635,374, as compared to shareholders equity of \$105,557 as of the same date from the previous year. The increase in shareholders' equity of \$261,215 was primarily due to a restatement of year 2004 intangible assets of TRAC POS remainder impairment loss of \$285,631. At December 31, 2004, Westsphere's management evaluated the estimated future cash flows associated with the intangible assets of TRAC POS, and recorded an impairment loss of \$491,205. After further analysis, Westsphere's management determined that the impairment should have included an additional loss of \$285,631 for the fiscal year ending 2004. Retained earnings and the Statement of Stockholders' Equity have been restated for this amount.

Total issued and outstanding share capital as of the year ending December 31, 2005 was 621,939 common shares and 1,215,721 preferred shares as compared to a total of 551,702 common shares and 1,416,143 preferred shares as of December 31, 2006. The conversion from common to preferred shares during the year is a result of the shareholder's resolution, approved at the Annual Meeting of Shareholders held on December 7, 2002.

In December 2006, Westsphere issued 130,185 preferred shares: 4,767 preferred shares issued to a former employee who exercised his option, and 125,418 preferred shares issued to four convertible debentures related parties who exercised their options to convert into preferred stock at \$1 per share. The outstanding debentures are payable to persons who are shareholders of the Company.

During fiscal year 2007, total assets increased to \$1,546,748 primarily due to an increase in accounts receivable of \$190,120, an increase in accounts receivable related parties of \$28,093, an increase in inventory of \$45,593, an increase in prepaid expense and deposit of \$45,737, an increase in property and equipment, net of depreciation of \$100,533, and an increase in intellectual property of \$36,939. The increased is partially offset against a decrease in mortgage receivable of \$61,291 and a decrease in cash of \$201,688.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

The increase in accounts receivable of \$190,120 is primarily consist of \$239,308 (\$235,000 CDN) notes receivable bearing interest at 0% per annum, requiring no monthly payments. The Company can demand funds be returned at anytime. The purpose of these notes receivable are to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers ATM equipments and site locations. Revenue from these notes is generated from surcharge transactions. The increase in notes receivable is partially offset against a decreased in operating receivable of \$49,188.

The increase in accounts receivable related parties was caused by the sale of ATM and ATM parts to an officer 100% owned company. These transactions are in the normal course of operations and on terms and conditions that are similar to those of transactions with unrelated parties.

The increase in inventory is caused by the purchase of inventory for resale/lease and upgrade kits for ATMs to maintain adequate levels of inventory on hand at year end.

The increase in prepaid expense and deposit was primarily caused by a prepayment to ACI Worldwide Inc. of \$45,000 (\$41,085 CDN). In October 2007, Westsphere Asset Corporation, Inc. through its subsidiary companies Vencash Capital Corporation and Westsphere Systems Inc. have commenced an agreement with ACI Worldwide Inc. for the enablement of Westsphere Systems Inc to become a new ATM/POS acquirer (Switch) in the Canadian marketplace and in association with Canadian electronic payment network, Interac which Westsphere Systems Inc. is an indirect connect member.

The increase in property and equipment, net of depreciation, was caused by the purchase of used ATMs from investors at below market costs and an exercised early buyout on the leased ATMs.

The increase in intellectual property was caused by the switch development project with ACI Worldwide Inc. The project is expecting to complete by May 2008.

The increase is partially offset against a decrease in cash of \$201,688; a decrease in current portion of mortgage receivable of \$48,361; and a decrease in mortgage receivable of \$12,930. Banff Gate Mountain Resort Ltd., the mortgagee, has exercised their option to pay the mortgage in full on April 1, 2007.

As of December 31, 2007, Westsphere's current liabilities consisted of accounts payable of \$504,886, current portion of loans of \$113,034, and accounts payable to related parties of \$178,350. Accounts payable to related parties consists of Officers' and Directors' bonuses payable carried forward from year 2002 in the amount of \$68,348, a loan advanced from Westsphere's President in the amount of \$46,317, a loan advanced from Vencash's President in the amount of \$12,769, and a cash advance from Westsphere's Vice President in the amount of \$50,916 which was repaid in January 2008.

Long term liabilities as at December 31, 2007 consisted of a shareholder loans totaling \$264,310, and loans payable, less current portion of \$324,633. On November 5, 2007, WestspHERE's subsidiary WestspHERE Systems Inc. raised \$133,401 (\$131,000 CDN) through a loan agreement with an external arms-length investor, bearing interest at 12% per annum, blended monthly payments of interest only of \$1,334 (\$1,310 CDN) to October 2009, with an automatic extension for a further 12 month term. As of December 31, 2007, the balance is \$133,404 (\$131,000 CDN). This loan is reflected in the accompanying consolidated balance sheet as loans payable, less current portion.

Shareholders' equity as of December 31, 2007 was \$161,535, inclusive of an accumulated loss from operations of \$1,949,801, as compared to shareholders' equity of \$366,772 as of the same date from the previous year. The decrease in shareholders' equity of \$205,237 was primarily due to the current year deficit of \$314,427 and partially offset against an increase in common stock issued of \$49,699.

In January 2007, the Corporation executed a share exchange agreement with non-affiliated third party TRAC shareholders to exchange a total of 24,142 shares at \$1.62 CDN per share of the Corporation's common stock in exchange for a nineteen (19%) percent interest in TRAC POS and affiliated TRAC shareholders, Jack Thomson and Brett Border to exchange a total of 6,916 shares at \$1.62 CDN per share of the Corporation's common stock in exchange for a twelve (7%) percent interest in TRAC POS Processing Inc. Mr. Thomson is a member of WestspHERE's Board of Directors and Mr. Border is the President of Vencash Capital Corporation and Trac POS Processing Inc. This share exchange resulted in WestspHERE holding an 82% majority shareholder position in TRAC. (See *-Business of TRAC POS Processing Inc. below.*)

On March 8, 2007, 10,025 common shares issued to WestspHERE's Vice President, Robert L. Robins who exercised a portion of his 2002 options at \$0.70 per common share.

Total issued and outstanding share capital as of the year ending December 31, 2006 was 551,702 common shares and 1,416,143 preferred shares as compared to a total of 592,785 common shares and 1,416,143 preferred shares as of December 31, 2007.

Liquidity

WestspHERE was able to raise \$235,234 (\$231,000 CDN) from the collection of loans payable in the latter part of year 2007. The cash is used for circulation in Vencash's owned ATMs of \$101,833 (\$100,000 CDN) and \$133,401 (\$131,000 CDN) is used for the switch development. WestspHERE did not raise funds last year to facilitate Vencash Capital growth opportunities due to the condition of Corporations' financial market.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

WestspHERE expects that its need for liquidity will increase in 2008 in anticipation of expending funds to develop its growth and upgrade plan. The need is due to the finance/lease requirements to replace an aged estate of ATM equipment which is under VenCash management and/or ownership. Due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 are presently in dispute. This has resulting in a requirement to find additional financial recourses related to growth in its ATM business and to determine whether or not Vencash's current ATM equipment supplier can meet the upgrade requirements as set forth in regards to meet ongoing regulatory compliance.

Short Term

On a short term basis, WestspHERE's subsidiary Vencash Capital will generate sufficient revenues to meet overhead needs. In order to meet its growth plan, WestspHERE will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. WestspHERE believes that it will continue as a going concern with the present revenues from its subsidiary Vencash Capital Corporation but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Vencash.

WestspHERE's current assets of \$1,062,166 are higher than its current liabilities of \$847,186 as at the year ending December 31, 2007. The current liabilities include the accounts payable to related parties of \$178,350 which consist of the bonuses to Officers and Directors payable carried forward from year 2002 in the amount of \$68,348, a loan advanced from WestspHERE's President in the amount of \$46,317, a loan advanced from Vencash's President in the amount of \$12,769, and a cash advance from WestspHERE's Vice President in the amount of \$50,916 which was repaid in January 2008.

In March 2008, the Company has entered into an agreement to sell all inactive companies to external arms-length investors and expecting to complete the sale by the second quarter of year 2008. The purpose of the sale is to save costs and reduce the audit and legal fees, since these companies do not have business activities or are outside of the Corporations fee per transaction revenue model.

Long Term

As mentioned above, WestspHERE believes that its subsidiary, Vencash Capital, generates sufficient ongoing revenue to ensure that WestspHERE is a going concern.

In order for WestspHERE's subsidiaries to remain competitive in the marketplace, WestspHERE, through its subsidiary WestspHERE Systems Inc. has successfully gained membership into the Canadian Interac Association as an Acquirer. This will enable the direct processing of ATM, POS and other transactions for its other subsidiaries, Vencash and Trac POS. WestspHERE has sourced out an industry leader, ACI Worldwide, and invested in the development and ongoing support required to facilitate the processing of transactions. WestspHERE Systems Inc. will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the processor, or switch, will also enable WestspHERE's direct entry into new and emerging markets such as card management and processing. To fund the switch development project, WestspHERE will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds.

Capital Resources

The primary capital resource of WestspHERE is the operations of Vencash Capital, its wholly owned subsidiary.

WESTSPHERE ASSET CORPORATION, INC.
Notes to the Consolidated Financial Statements
For the Years Ended December 31, 2007 and 2006

Note 1 Organization and Principles of Consolidation

Westsphere Asset Corporation, Inc. (Company) was incorporated in Colorado on July 21, 1998 as Newslink Networks TDS, Inc. and changed its name to Westsphere Asset Corporation Inc. on April 29, 1999.

The Company's primary business is the sale and operation of cash vending (ATM) and point of sale (POS) machines in Canada.

On December 12, 1998, the Company acquired 41% of Vencash Capital Corporation (Vencash), a Canadian Corporation, and then on December 17, 1999 acquired the remaining 59% of the outstanding stock of Vencash. The Vencash stock was acquired by exchanging the Company's common stock with shareholders of Vencash. Vencash is in the business of selling and installing cash vending machines (ATM machines) throughout Canada. Because certain shareholders were shareholders of both corporations, the Company accounted for its acquisition of Vencash as a reverse acquisition, which is a capital transaction and not a business combination.

On September 23, 1998, Vencash Capital Corporation incorporated Vencash Financial Corporation (Financial) in Alberta. Vencash Financial has had no business activity.

During the period from June 1999 through October 2001 the Company acquired 99% of Kan-Can Resorts Ltd. (Kan-Can), an Alberta company, by exchanging stock.

On May 16, 2000, Vencash ATM/POS Services Inc. (formerly VC/POS/ATM Services Inc.) and Westsphere Systems Inc. (formerly 880487 Alberta Ltd.) were incorporated as wholly owned Alberta subsidiaries of the Company.

During 2000 and 2001, the Company acquired a 90% interest in E-Debit International Inc. (E-Debit), a company engaged in the development of online payment systems, and which has no other operations. On June 1, 2004, the Company acquired the remaining 10% interest in E-Debit International Inc., which increased the ownership to 100%.

During the period from May 2000 to July 2004, the Company acquired a 56% interest in Trac Pos Processing Inc. (Trac); Trac is a distributor and financial processor of point-of-sale (POS) terminals. On January 26, 2007, the Company acquired an additional 26% interest in Trac Pos Processing Inc., which increased the ownership to 82%.

On January 4, 2005, the Company incorporated a wholly owned Alberta subsidiary, Westsphere Capital Group Ltd. to supply operational, financial, and administrative support to the Westsphere Group of companies.

During 2005, the Company formed a wholly owned Alberta subsidiary, Cash Direct Financial Services Ltd (Cash Direct), as a holding company for a 51% interest in 1105725 Alberta Ltd DBA Personal Financial Solutions, an Alberta Corporation, to pursue opportunities in check cashing, payday loans, and similar businesses.

Note 2 Summary of Significant Accounting Policies

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and are stated in United States dollars.

Use of Estimates in the Preparation of Financial Statements

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and to report amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

Estimated Fair Value of Financial Instruments

The carrying value of accounts receivable, accounts payable and accrued expenses, and loans payable to related parties reflected in the financial statement approximate fair value due to the short-term maturity of the instruments.

Inventory

Inventory consists primarily of cash vending and POS machines, which are valued at the lesser of cost (on a first-in, first-out method) or net realizable value.

Property, Equipment and Depreciation

Property and equipment are stated at cost less accumulated depreciation. Depreciation is calculated using a declining balance method over the estimated useful lives of the property and equipment.

Earnings (Loss) per Share

Basic earnings (loss) per share are computed by dividing the net (loss) by the weighted average number of shares outstanding during the years ended December 31, 2007 and 2006. Diluted earnings (loss) per common share is calculated by dividing the applicable net earnings (loss) by the sum of the weighted-average number of common shares outstanding and all additional common shares that would have been outstanding if potentially dilutive Westphere Asset Corporation, Inc. common shares had been issued during the years ended December 31, 2007 and 2006.

Valuation of Long-Lived Assets

The Company periodically analyzes its long-lived assets for potential impairment, assessing the appropriateness of lives and recoverability of unamortized balances through measurement of undiscounted operation cash flows on a basis consistent with accounting principles generally accepted in the United States of America.

WESTSPHERE ASSET CORPORATION, INC.
Notes to the Consolidated Financial Statements
For the Years Ended December 31, 2007 and 2006

Revenue Recognition

Revenues are recognized in accordance with SEC Staff Accounting Bulletin (SAB) No. 101, Revenue Recognition in Financial Statements. Under SAB 101, product revenues (or service revenues) are recognized when persuasive evidence of an arrangement exists, delivery has occurred (or service has been performed), the sales price is fixed and determinable and collection is reasonably assured.

Revenues from sales, leasing and servicing of individual cash vending machines are recognized when substantially all significant events to be provided by the Company have been performed. Interchange and residual revenues from the operation of vending and point-of-sale machines are recognized when the transaction is processed and due to the company.

The Company rents ATM machines to customers on a month-to-month basis. The carrying value of property rented to customers as of December 31, 2007 is \$57,852. Because all rental agreements are on a month-to-month basis, there are no minimum future rentals.

The Company offers no warranties or right of return beyond manufacturers' warranties.

Foreign Currency

The functional currency of the Company and its subsidiaries is the Canadian dollar. The Company translates amounts into United States dollars using the current rate method. Under this method, assets and liabilities are translated to United States dollars at current exchange rates; revenues and expenses are translated at the average exchange rate during the period, and equity accounts are translated at the historical rate. Related translation adjustments are reported as other comprehensive income, a component of stockholders' equity.

Income Taxes

The Company records deferred taxes in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. The statement requires recognition of deferred tax assets and liabilities for temporary differences between the tax bases of assets and liabilities and the amounts at which they are carried in the financial statements, based upon the enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All inter-company accounts have been eliminated in the consolidation.

Minority interests in the income and equity of consolidated subsidiaries that are less than wholly-owned are recorded except when the subsidiary has a deficit and there are no agreements for the minority shareholders to contribute additional capital. As of December 31, 2007 all minority-owned subsidiaries had deficits and therefore no minority interest is recorded.

Advertising expenses

The Company expenses advertising costs as incurred and the total amounts for 2007 and 2006 were nominal.

Reclassifications

Certain comparative figures for the prior period have been reclassified to conform to the current year presentation.

Dividends

The Company paid no dividends during the years presented.

Recent Accounting Pronouncements

In February 2007, the FASB issued Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits companies to choose to measure many financial instruments and certain other items at fair value. We are still evaluating the potential impact of adopting this pronouncement but expect, based on currently available guidance, that the adoption of this pronouncement will not have a material impact on our consolidated financial condition, results of operation or liquidity.

The Company has considered all other recently issued accounting pronouncements and does not believe the adoption of such pronouncements will have a material impact on the consolidated financial statements.
