E-DEBIT GLOBAL CORPORATION
Notes to the Condensed Financial Statements
March 31, 2011 and 2010
(Unaudited)

Note 1 – Basis of Presentation and Nature of Operations

The accompanying consolidated balance sheet as of December 31, 2010 has been derived from audited financial statements and the accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the interim reporting requirements of Regulation S-X. The accompanying consolidated financial statements included herein have been prepared by E-Debit Global Corporation (the “Company”) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. In management's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Certain information and footnote disclosure normally included in the financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted as allowed by such rules and regulations, and E-Debit Global Corporation believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these financial statements be read in conjunction with the December 31, 2010 audited financial statements and the accompanying notes thereto contained in the Annual Report on Form 10-K filed with the Securities and Exchange Commission. While management believes the procedures followed in preparing these financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by E-Debit Global Corporation later in the year. The results of operations for the interim periods are not necessarily indicative of the results of operations for the full year. In management’s opinion all adjustments necessary for a fair presentation of the Company’s financial statements are reflected in the interim periods included.

Westspere Asset Corporation, Inc. (Company) was incorporated in Colorado on July 21, 1998 as Newlink Networks TDS, Inc. and changed its name to Westspere Asset Corporation Inc. on April 29, 1999. On April 2, 2010, the Company officially changed its name to E-Debit Global Corporation.

The Company’s primary business is the sale and operation of cash vending (ATM) and point of sale (POS) machines in Canada.

Summary of ATM’s and POS’s sold and related gross profits during the years ended December 31, 2010 and for the three months ended March 31, 2011:

	# of sale	Gross Profit
December 31, 2010		
ATMs	8	\$ 3,067
POS	-	\$ -
March 31, 2011		
ATMs	3	\$ 1
POS	-	\$ -

ATM sales were low mainly due to E-Debit’s subsidiary Vencash Capital Corporation/Westspere Systems Inc. (VCC/WSI) focusing on the placement and finance/lease program offered by an ATM supplier in year 2006. This

finance/lease program provided VCC/WSI an opportunity to place more ATMs in the marketplace at a lower cost. However, the finance/lease program offered by the ATM supplier ended in 2008. After the program ended, E-Debit did not work to facilitate growth opportunities in the ATM and POS business due to the condition of the financial market.

On October 26, 2010, the Company has amended its articles of incorporation to increase its authorized capital to Five Hundred Million (500,000,000) shares of no par value common stock and Seventy Five Million (75,000,000) of no par value preferred stock.

Note 2 – Recent Accounting Pronouncements

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements. ASU 2010-06 amends ASC 820 to require a number of additional disclosures regarding (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Company does not expect that the adoption of ASU 2010-06 will have a material impact on its consolidated financial statements.

In April 2010, the FASB issued Update No. 2010-17, or ASU 2010-17, Revenue Recognition—Milestone Method, which updates the guidance currently included under topic 605, Revenue Recognition. ASU 2010-17 provides guidance on defining the milestone and determining when the use of the milestone method of revenue recognition for research or development transactions is appropriate. It provides criteria for evaluating if the milestone is substantive and clarifies that a vendor can recognize consideration that is contingent upon achievement of a milestone as revenue in the period in which the milestone is achieved, if the milestone meets all the criteria to be considered substantive. ASU 2010-17 is effective for milestones achieved in fiscal years, and interim periods within those years, beginning after June 15, 2010 and should be applied prospectively. Early adoption is permitted. The Company is currently evaluating the potential impact, if any, of the new accounting guidance on its consolidated financial statements.

In April 2010, the FASB issued an authoritative pronouncement on effect of denominating the exercise price of a share-based payment award in the currency of the market in which the underlying equity securities trades and that currency is different from (1) entity's functional currency, (2) functional currency of the foreign operation for which the employee provides services, and (3) payroll currency of the employee. The pronouncement clarifies that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition, and therefore should be considered an equity award assuming all other criteria for equity classification are met. The pronouncement is for interim and annual periods beginning on or after December 15, 2010, and will be applied prospectively. Affected companies will be required to record a cumulative catch-up adjustment for all awards outstanding as of the beginning of the annual period in which the guidance is adopted. This amendment is not expected to have a material impact on the Company's financial statements.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would be material to our consolidated financial statements.

Note 3 - Accounts Receivable

Accounts receivable consist of amounts due from customers. The nature of the receivables consists of equipment sale, parts and accessories, and service provided. The Company considers accounts more than 180 days old to be past due. This is so the Company can withhold the transactions revenue owed to the customers should their receivables become past due. The account is deemed uncollectible and written off when the site locations are out of business and or in receivership. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance.

All components of property and equipment are being depreciated or amortized. Depreciation and amortization expense for the three months ended March 31, 2011 and March 31, 2010 totaled \$19,563 and \$18,538, respectively.

Property and equipment, idle consists of the following elements:

	Cost

	\$ 550,033
March 31, 2011 -	
Computer hardware and software	\$ 565,710
	\$ 565,710

The property and equipment, idle was related to the purchase of computer hardware and software for the card management systems in June 2010. The software and computer hardware was purchased as a turnkey operating system which focused on a loyalty based platform. As of March 31, 2011, the system is being expanded from its loyalty based platform to cash based platform. The Company is expecting the expansion of the systems to be completed by the third quarter of 2011.

Note 6 – Deferred Costs/Intangible Assets

On the 9th of November 2007, E-Debit contracted with ACI Worldwide through its wholly owned subsidiary Westsphere Systems Inc. (WSI) to provide its ACI ‘Base 24 On Demand’ (AOD) hosted solution for ATM and POS transaction acquiring where WSI shares responsibilities with ACI as the transaction processor. ACI hosts the processing environment which is set up to specific requirements as set out by WSI, which supports WSI ATM and POS devices, debit and credit transaction processing and card management requirement that is unique and scalable to WSI’s current and future requirements and not shared with other ACI customers. ACI supplies software acquisition, operation and maintenance, facilities, operations and environment development and maintenance and disaster recovery infrastructure and services; whereby WSI supports, authorizes and distributes all settlements and revenues distributions through its account maintenance software developed by WSI and specific to ACI On Demand processing platform.

As a result Westsphere Systems Inc. will process all transactions through its association with ACI hosted transaction processing solution eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the WSI role within the processing environment, or switch, will also enable E-Debit’s direct entry into new and emerging markets such as card management and processing.

The Company determined that it would be more appropriate to capitalizing the development costs instead of expensing them as incurred. The Company’s decision was based on the criteria that ACI has established the technological feasibility for the software to provide a solution for ATM and POS transaction acquiring which is called ACI ‘Base 24 On Demand’ (AOD) and where all research and development activities for the other components of the product or process have been completed by them. E-Debit was working with ACI to setup specific requirements as set out by WSI which will supports WSI ATM and POS devices, debit and credit transactions processing and card management requirement that is unique and scalable to WSI’s current and future requirements and not shared with other ACI customers.

The development costs commenced in 2007 and were capitalized as deferred costs. The Company decided to defer amortizing these costs until all the specific requirements as set out by WSI with ACI were completed. This was due to the matching principle where the Company had not been generating revenue from processing transactions through its association with ACI to offset against it related expenses in the same period.

E-Debit officially launched its switch in January 2009 and commenced rollover of ATMs to process all transactions through its association with ACI. The deferred costs were reclassified as intangible assets upon the completion of all the specific requirements including coding and testing in year 2009. The reclassification occurred when E-Debit commenced generation of revenue by processing transactions through its association with ACI and distributed all settlements and revenue distributions through its account maintenance software.

The Company assessed the useful life of the intangible asset in relation to its five-year contract with ACI. The Company also determined the technology may be outdated at the end of the term of the contract and an enhancement of the software may be required at that time.

Depreciation is calculated using a declining balance method.

10

Intangible assets consist of the following elements:

	Cost	Accumulated Depreciation/ Amortization	Net Book Value	Depreciation Rate and Method
December 31, 2010 -

Depreciation and amortization have been provided in amounts sufficient to recover asset costs over their estimated useful lives. Depreciation and amortization expense for the three months ended March 31, 2011 and March 31, 2010 totaled \$6,330 and \$6,507, respectively. This depreciation and amortization expense was part of the totaled which are reflected in the accompanying consolidated statements of operations as Depreciation and amortization.

Expected future depreciation and amortization of the intangible assets are as follows:

Year	Amount
2012	\$ 20,269
2013	\$ 72,027
2014	\$ 1,810
2015	\$ 1,448

Note 7 – Notes Receivable

The note receivable total of \$164,570 (\$160,000 CDN), carries no interest rate, and requires no monthly payments due from a contractor. The purpose of this note receivable is to supply vault cash to E-Debit's wholly owned subsidiary Westsphere Systems Inc. (WSI)'s customer-owned ATM equipment and site locations. Revenue from this note is generated from surcharge transactions at a rate of \$0.51 (\$0.50 CDN) per transaction.

WSI supplies vault cash to these site locations because its customers do not have sufficient vault cash for these site locations. WSI has subcontracted an armored car service to delivery vault cash to these site locations. The armored car company is accountable for the rotation of the cash. The Company is secured with a note receivable where the Company can demand funds be returned at anytime.

This note receivable is reflected in the accompanying consolidated balance sheet as note receivable.

Note 8– Loans Payable

In September 2007, WSI entered into a loan agreement with an initial term of twelve months totaling \$102,856 (\$100,000 CDN) with an external arms-length investor, bearing interest at 12% per annum, with blended monthly payments of interest only of \$1,014 (\$1,000 CDN). The initial term may be automatically extended for further six (6) month terms (a “renewal period”) after the end of the initial term or terminated subject to mutual termination

agreements. The investor must give a written notice not less than 90 days before the end of the initial term or renewal period, whichever the case may be, to not renew the loan agreement. WSI must notify the investor not less than 60 days before the end of the initial term or renewal period, its intention to terminate the loan. Currently, no written notice has been received from the investor to WSI or vice versa. The purpose of the loan is to supply vault cash to WSI's customer-owned ATM equipment and site locations. WSI supplies vault cash to these site locations because its customers do not have sufficient vault cash for these site locations.

As of May 6, 2011, the purchase agreement had not yet finalized. The Company is expecting the due diligence process to be completed by the second quarter 2011. Note 15 – Going Concern

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has incurred net losses for the three months ended March 31, 2011 and 2010, and as of March 31, 2011, had a working capital deficit of \$1,429,007 and an accumulated deficit of \$400,956. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital. Furthermore, the management is in the process of restructuring, reorganization and consolidation of all its operations as a whole in order to save costs. In addition, there is no demand for payment on the indebtedness to related parties of \$576,769 and shareholder loans of \$300,322 as these liabilities are owed to internal officers and directors. Further, even if the Company raises additional capital, there can be no assurance that the Company will achieve profitability or positive cash flow. If management is unable to raise additional capital and expected significant revenues do not result in positive cash flow, the Company will not be able to meet its obligations and may have to cease operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Current Corporate Structure – March 31, 2011

16

Results of Operations

During the three (3) month period of operations ended March 31, 2011, E-Debit and its subsidiaries generated a net loss from operations of \$229,051, while a net loss from operations of \$186,391 was realized for the same period from the previous year. The increase in net loss of \$42,660 over the same period from the previous year was caused by a decrease in gross profit of \$37,000, an increase in salaries and benefits of \$10,546, and an increase in interest expenses of \$13,398. The increase in net loss is partially offset against a decrease in legal and accounting fees of \$18,558 over the same period from the previous year.

The decrease in gross profit was primarily caused by a decrease in residual and interchange income of \$146,252. The decrease is partially offset against a decrease in residual and interchange costs of \$94,380, and a decrease in other cost of sales of \$17,528.

The decrease in residual and interchange income was caused by a decrease in processing of ABM transactions over the same period from the previous year.

The decrease in other cost of sales was mainly related to a decrease in vehicle expense.

The increase in salaries and benefits of \$10,546 was primarily due to the rise in the Canadian dollars over US dollars since March 31, 2010 where the average currency exchange for the three months ended March 31, 2011 and March 31, 2010 was 1 USD = 0.98610 CDN and 1 USD = 1.04145 CDN, respectively. The salaries and benefits in Canadian dollars for the three months ended March 31, 2011 and March 31, 2010 totaled \$153,562 and \$151,199, respectively.

The increase in interest expense was due to interest charge for the late payment to vendors during the year.

The decrease in legal and accounting fees was mainly due to the timing difference in recording the year-end audit fee. The Company recorded the audit fees for the year ended December 31, 2009 in the first quarter of 2010 where the audit fees for the year ended December 31, 2010 was recorded in the second quarter of 2011 totaled \$19,309.

To this date, 510 ATM are being processed between three switches. There was no change in operations during the year 2011 as compared to prior year.

In March 2011, the Company entered into negotiations for an Agreement of Purchase and Transfer of Shares and Debt with ebackup Inc. The Company is to acquire ten (10%) interest of ebackup Inc. by exchanging 1,750,000 common shares of E-Debit Global Corporation. The agreement will solidify the Company's commitment to our "end-to-end" payment delivery and processing solution. ebackup Inc. supplies PCI compliant data centre, technical support and data protection services. As of May 6, 2011, the purchase agreement had not yet finalized. The Company is expecting the due diligence process to be completed by the second quarter 2011. The Company has not yet issued the 1,750,000 shares.

In May 2011, E-Debit decided to sell 90 common shares (90%) of the issued and outstanding shares held in its wholly owned subsidiary, Cash Direct Financial Services Ltd. ("Cash Direct") at \$1.00 per share. The common shares were sold to a number company that is controlled by the Company's president. The purchaser agrees that the current outstanding advances made to the company by E-Debit will remain outstanding and owed by the Company to E-Debit. As a result of the sale transaction, E-Debit remains a 10% shareholder in Cash Direct. The sale transaction will save administration and audit costs to E-Debit. E-Debit did not restate its financial statements to deconsolidate the Cash Direct subsidiary, as Cash Direct's balances are immaterial to E-Debit's consolidated financial statements. Cash Direct has had no active business activities for the last two years. Cash Direct had total assets and an accumulated deficit of \$39,027 and \$15,557, respectively, at March 31, 2011.

E-Debit and its subsidiaries currently did not generate sufficient revenues to meet overhead needs. This is due to E-Debit switch operations which was launched in January 2009 and commence rollover of ATMs to process all transactions. The switch operations currently did not generate sufficient revenue to cover its expenses. In addition, E-Debit continues experiencing a steady decrease in gross profit. Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital.

17

E-Debit believes that the continued investment from related parties and outside investors will continue to produce sufficient ongoing funding to meet its current and future financial requirements.

In order to meet its growth plan, E-Debit will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. E-Debit believes that it will continue as a going concern with the present revenues from its subsidiary Westsphere Systems Inc. and loan advanced by the related parties but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Westsphere Systems Inc.

Changes in Financial Position

During the Three (3) month period ended March 31, 2011, total assets decreased from \$1,681,150 to \$1,672,060 primarily due to a decrease in prepaid expense and deposit of \$13,169.

The initial term may be automatically extended for further six (6) month terms (a "renewal period") after the end of the initial term or terminated subject to mutual termination agreements. The investor must give a written notice not less than 90 days before the end of the initial term or renewal period, whichever the case may be, to not renew the loan agreement. Vencash must notify the investor not less than 60 days before the end of the initial term or renewal period, its intention to terminate the loan. Liquidity

E-Debit and its subsidiaries currently did not generate sufficient revenues to meet overhead needs. This is due to E-Debit switch operations which was launched in January 2009 and commence rollover of ATMs to process all transactions. The switch operations currently did not generate sufficient revenue to cover its expenses. The shortages of funds raise substantial doubt as to the Company's ability to continue as a going concern.

Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital.

Furthermore, there is no demand for payment on the indebtedness to related parties of \$576,769 and shareholders' loan of \$300,322 as these liabilities are owed to internal officers and directors. E-Debit believes that the investment from related parties, outside investors, and private offering memorandum will continue to produce sufficient ongoing funding to meet its current and future financial requirements.

E-Debit did not raise funds this year to facilitate Westsphere Systems growth opportunities due to the condition of Corporations' financial market.

In order to meet its growth plan, E-Debit will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. E-Debit believes that it will continue as a going concern with the present revenues from its subsidiary Westsphere Systems Inc., but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Westsphere Systems Inc.

Capital Resources

The primary capital resources of E-Debit are its consolidated business operations as well as equity funds raised, joint venture arrangements and/or loan proceeds.
