SUMMARY

The following summary highlights information contained elsewhere in this prospectus. It does not contain all of the information you should consider before investing in our stock. You should read the entire prospectus carefully, including the sections entitled "RISK FACTORS" and "FINANCIAL STATEMENTS."

As used in this prospectus, unless the context requires otherwise, the terms "Gold Resource," "we," "our" or "us" refer to Gold Resource Corporation and where the context requires, our consolidated subsidiaries.

Our Company

We are an exploration stage company organized in Colorado on August 24, 1998 to search for gold and silver. We currently have an interest in four properties located in Mexico. Our exploration efforts are primarily focused at the site we refer to as the *El Aguila* project, which is comprised of parcels we refer to as the *El Aguila* property and the *Las Margaritas* property. We also have an interest in a prospect known as the *El Rey* property and we recently acquired an interest in a prospect known as the *Solaga* property.

In October 2002, we leased a 100% interest in mineral claims covering approximately 1,896 hectares (4,685 acres)¹ and located in the historic *San Jose de Gracia* mining district in the State of Oaxaca which comprises the *El Aguila* project. Since acquiring that interest, we have drilled approximately 10,400 meters (34,120 feet) of test holes in one section of the property and have encountered gold and silver mineralized material. We are continuing our exploration efforts on this property and recently commenced additional drilling on a section of the property.

In 2005, we obtained some additional mineral claims in the Mexican State of Oaxaca by filing mineral concessions with the Mexican government for a prospect which we call the *El Rey* property. In February 2007, we leased a 100% interest in a property we refer to as the *Solaga* property. We have conducted very limited exploration of this property to date.

As an exploration stage mining company, our activities include, at various times and to various degrees, exploration, land acquisition, geological evaluation and feasibility studies of properties, and where warranted, efforts to develop and construct mining and processing facilities and to mine and process gold, silver and other metals and by-products.

¹ Please see the Glossary appearing at the end of the section titled "BUSINESS AND PROPERTIES" for a description of certain terms used in this prospectus, including conversion of metric units.

Our operations in Mexico are conducted through our wholly-owned Mexican subsidiaries, Don David Gold, S.A. de C.V. and Golden Trump S.A. de C.V. All references to us or our company in this prospectus include our subsidiaries.

Our principal executive offices are located at 222 Milwaukee Street, Suite 301, Denver, Colorado 80206, and our telephone number is (303) 320-7708.

Recent Events

On August 17, 2006, we closed our initial public offering (“IPO”), from which we received net proceeds of \$4,351,200. These proceeds enabled us to begin the third stage of our exploration program at the *El Aguila* project. In October 2006, we signed a contract for a minimum of 3,333 meters (10,935 feet) of additional core drilling which commenced in November 2006, and expect to contract for additional drilling up to a total of 10,000 meters (32,808 feet). In September 2006, our stock began trading on the over the counter Bulletin Board under the symbol “GORO.”

On December 7, 2006, we completed a private placement of 4,322,000 shares of our common stock for \$1.20 per share (“Private Placement”), from which we received \$4,928,700 in net proceeds. In connection with the Private Placement, we paid cash of \$257,700 and issued 257,700 shares as finders’ fees. See “MANAGEMENT’S DISCUSSION AND ANALYSIS” for additional information regarding this offering.

On February 2, 2007, the Securities and Exchange Commission declared effective a registration statement on Form SB-2 which was filed by us to register for resale the Private Placement shares, as well as shares held by consultants of our company and our Chairman, President and Chief Executive Officer. There are currently 5,859,700 shares of common stock available for resale by the selling shareholders named in a prospectus which forms a part of that registration statement.

RISK FACTORS

Investment in our common stock involves a high degree of risk and could result in a loss of your entire investment. Prior to making an investment decision, you should carefully consider all of the information in this prospectus and, in particular, you should evaluate the risk factors set forth below. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also impair our business operations. If we are unable to prevent events that have a negative effect from occurring, then our business may suffer.

Risks Relating to Our Company

Since we are a new business with no operating history, investors have no basis to evaluate our ability to operate profitably. We were organized in 1998 but have had no revenue from operations since our inception. Our activities to date have been limited to organizational efforts, raising financing, acquiring mining properties and conducting limited exploration. We face all of the risks commonly encountered by other new businesses, including the lack of an established operating history, need for additional capital and personnel, and intense competition. There is no assurance that our business plan will be successful.

We have no proved or probable reserves and the probability of an individual prospect having reserves is extremely remote. Therefore, in all likelihood, our properties do not contain any reserves, and any funds spent by us on exploration will probably be lost. In order to demonstrate the existence of proved or probable reserves, it will first be necessary for us to continue exploration to demonstrate the existence of sufficient mineralized material followed by a positive feasibility study. Exploration is inherently risky, with few properties ultimately proving economically successful. A “reserve,” as defined by regulation of the Securities and Exchange Commission (“SEC”), is that part of a mineral deposit which could be economically and legally extracted or produced at the time of the reserve determination.

A reserve requires a feasibility study demonstrating with reasonable certainty that the deposit can be economically extracted and produced. We have not carried out any feasibility study with regard to all or a portion of any of our properties. Statistically, most mineral prospects do not contain reserves which can be economically extracted. For this reason, it is unlikely that our properties contain any reserves. The funds we have spent on exploration, as well as funds which we might spend in the future, will probably be lost.

We have incurred substantial losses since our inception in 1998 and may never be profitable. Since our inception in 1998, we have not been profitable. As of December 31, 2006, our accumulated deficit was approximately \$(6,597,000). To become profitable, we must identify mineralization and establish reserves at our mining property, and then either develop our property or locate and enter into agreements with third party operators. It could be years before we receive any revenues from gold production, if ever. We may suffer significant additional losses in the future and may never be profitable. We do not expect to receive revenue from operations in the foreseeable future, if at all. Even if we do achieve profitability, we may not be able to sustain or increase profitability on a quarterly or annual basis.

We are dependent upon receipt of additional working capital to fund our business plan. We may require additional capital for exploration of one or both of our existing properties, or acquisition of additional properties. If our exploration program proves successful, we will require significant additional capital to fund development of the *El Aguila* project and to construct a mill in order to place it into production. In addition, we will require additional working capital to fund operations pending sale of any gold or other precious metals.

At the present time, we are totally dependent upon production of gold or other precious metals from two properties, raising the risk if either or both of those properties should prove unproductive. Since we have never produced gold or other precious metals from either of our properties, and since we have no proved or probable reserves, there is no assurance that gold or other precious metals can be economically produced under existing and future costs and expenses. If we are unable to economically produce gold from either or both of these properties, we would be forced to identify and invest substantial sums in one or more additional properties, and there is no assurance that such properties would be available on terms favorable to us.

Our properties are located in Mexico and are subject to changes in political conditions and regulations in that country. Our existing properties are located in Mexico. In the past, Mexico has been subject to political instability, changes and uncertainties which may cause changes to existing government regulations affecting mineral exploration and mining activities. Civil or political unrest could disrupt our operations at any time. Our mineral exploration and mining activities in Mexico may be adversely affected in varying degrees by changing governmental regulations relating to the mining industry or shifts in political conditions that increase the costs related to our activities or maintaining our properties. Finally, Mexico's status as a developing country may make it more difficult for us to obtain required financing for our project.

Our ability to continue exploration and extract any minerals that we discover is subject to payment of concession fees and if we fail to make these payments, we may lose our interest in the properties. Mining concessions in Mexico are subject to payment of concession fees to the federal government or lease payments to the owner of the concessions. The payments are based on the size of the property we are exploring. Our failure or inability to pay the concession fees to the government may cause us to lose our interest in one or both of our properties.

Our primary exploration target is subject to a lease in favor of a third party which provides for royalties on production. We lease our *El Aguila* property from a third party. Our lease for the *El Aguila* project is subject to a net smelter return royalty of 4% where production is sold in the form of gold/silver dore and 5% where production is sold in concentrate form. The requirement to pay royalties to the owner of the lease at our *El Aguila* property will reduce our profitability if we commence commercial production of gold or other precious metals.

Our ability to develop our property, even if warranted by exploration results, is subject to the rights of the Ejido (local inhabitants) to surface use for agricultural purposes. If we are successful in discovering sufficient amounts of mineralized material to warrant production, our ability to mine minerals is subject to making satisfactory arrangements with the *Ejido* for access and surface disturbances. *Ejidos* are groups of local inhabitants who were granted rights to conduct agricultural activities on the property. We must negotiate a satisfactory arrangement with these inhabitants in order to disturb or discontinue their rights to farm. Our inability to successfully negotiate such agreements could impair or impede our ability to successfully mine the properties.

The volatility of the price of gold could adversely affect our future operations and, if warranted, our ability to develop our properties. The commercial feasibility of our properties and our ability to raise funding to conduct continued exploration and development if warranted, is dependent on the price of gold and other precious metals. The price of gold may also have a significant influence on the market price of our common stock and the value of our properties. Our decision to put a mine into production and to commit the funds necessary for that purpose must be made long before the first revenue from production would be received. A decrease in the price of gold may prevent our property from being economically mined or result in the write-off of assets whose value is impaired as a result of lower gold prices. The price of gold is affected by numerous factors beyond our control, including inflation, fluctuation of the United States Dollar and foreign currencies, global and regional demand, the sale of gold by central banks, and the political and economic conditions of major gold producing countries throughout the world. During the last five years, the average annual market price of gold has fluctuated between \$310 per ounce and \$604 per ounce, as shown in the table below. Although it is possible for us to protect some price fluctuations by hedging in certain circumstances, the volatility of mineral prices represents a substantial risk, which no amount of planning or technical expertise can eliminate.

2002	2003	2004	2005	2006
\$310	\$364	\$406	\$445	\$ 604

Competition in the mining industry is intense, and we have limited financial and personnel resources with which to compete. Competition in the mining industry for desirable properties, investment capital and personnel is intense. Numerous companies headquartered in the United States, Canada and elsewhere throughout the world compete for properties on a global basis. We are an insignificant participant in the gold mining industry due to our limited financial and personnel resources. We may be unable to attract the necessary investment capital to fully explore and if warranted, develop our properties and unable to acquire other desirable properties.

An adequate supply of water may not be available to complete desired development of our property. If we make a discovery sufficient to warrant putting our property into production, we will require additional amounts of water for our operations. We would be required to pump water from the Totolapan River to any facility we may construct on our property. Water rights are owned by the Mexican nation and are administered by a Mexican government agency. This agency has granted water concessions to private parties throughout the area defined as the Oaxaca Hydrologic Basin, however there is no assurance that we will be granted such concessions. Accordingly, we may not have access to the amount of water needed to operate a mine at the property.

Since most of our expenses are paid in Mexican pesos, and we anticipate selling any production from our properties in United States dollars, we are subject to adverse changes in currency values that will be difficult to prevent. Our operations in the future could be affected by changes in the value of the Mexican peso against the United States dollar. At the present time, since we have no production, we have no plans or policies to utilize forward sales contracts or currency options to minimize this exposure. If and when these measures are implemented, there is no assurance they will be cost effective or be able to fully offset the effect of any currency fluctuations.

Our activities in Mexico are subject to significant environmental regulations, which could raise the cost of doing business. Mining operations are subject to environmental regulation by SEMARNAT, the environmental protection agency of Mexico. Regulations require that an environmental impact statement, known in Mexico as a *Manifiestacion de Impacto Ambiental*, be prepared by a third party contractor for submission to SEMARNAT. Studies required to support this impact statement include a detailed analysis of many subject areas, including soil, water, vegetation, wildlife, cultural resources and socio-economic impacts. We may also be required to submit proof of local community support for a project to obtain final approval. Significant environmental legislation exists in Mexico, including fines and penalties for spills, release of emissions into the air, seepage and other environmental damage.

The nature of mineral exploration and production activities involves a high degree of risk and the possibility of uninsured losses. Exploration for minerals is highly speculative and involves greater risk than many other businesses. Our operations are subject to all of the operating hazards and risks normally incident to exploring for mineral properties, such as, but not limited to:

- encountering unusual or unexpected formations;
- environmental pollution;
- personal injury, flooding and landslides;
- variations in grades of ore;
- \$

- (1) Total debt consists of our senior secured credit facilities, senior unsecured subordinated notes for periods prior to 2011, revolving line of credit facility and bank loans payable.
- (2) See Management's Discussion and Analysis of Financial Condition and Results of Operations - How We Evaluate Growth in our Annual Report on Form 10-K for the year ended December 31, 2011 and our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2012 for explanations of why we present Adjusted EBITDA, Adjusted Earnings and Adjusted Earnings per share and a description of the limitation of these non-GAAP measures, as well as reconciliations to net income and net income per share, as applicable.
- (3) Gross margin is calculated as net revenues less production expenses. Production expenses consist of the following expense categories from our consolidated statements of operations: (i) commissions and advisory fees and (ii) brokerage, clearing and exchange. All other expense categories, including depreciation and amortization, are considered general and administrative in nature. Because our gross margin amounts do not include any depreciation and amortization expense, we consider our gross margin amounts to be non-GAAP measures which may not be comparable to those of others in our industry. Additionally in 2010, upon closing our initial public offering in the fourth quarter, the restriction on approximately 7.4 million shares of common stock issued to our advisors under the Fifth Amended and Restated 2000 Stock Bonus Plan was released. Accordingly, we recorded a share-based compensation charge of \$222.0 million in the fourth quarter of 2010, representing the offering price of \$30.00 per share multiplied by 7.4 million shares. This charge has been classified as adjusted production expense in 2010. Therefore gross margin and gross margin as a percentage of net revenue, as calculated for 2010 above, do not include this charge for comparability purposes with previous years shown.
- (4) Number of advisors is defined as those investment professionals who are licensed to do business with our broker-dealer subsidiaries. In 2011, we consolidated the operations of UVEST with LPL Financial which resulted, as expected, in attrition of 146 advisors. Excluding attrition from the integration of the UVEST platform, we added 549 net new advisors during the year ended December 31, 2011. In 2009, we attracted record levels of new advisors due to the dislocation in the marketplace that impacted many of our competitors. This record recruitment was offset by attrition related to the consolidation of the operations of Mutual Service Corporation, Associated Financial Group, Inc. Associated Securities Corp., Associated Planners Investment Advisory, Inc. and Waterstone Financial Group, Inc, which resulted, as expected, in attrition of 720 advisors. Excluding this attrition, we added 750 net new advisors during the year ended December 31, 2009.
- (5) Advisory and brokerage assets are comprised of assets that are custodied, networked and non-networked and reflect market movement in addition to new assets, inclusive of new business development and net of attrition. Such totals do not include the market value of client assets held in retirement plans administered by us and trust assets supported by Concord Wealth Management.
- (6) Advisory assets under management, insured cash account balances and money market balances are components of advisory and brokerage assets.

The declaration of regular cash dividends, as well as the amount of any such dividend, will remain subject in each instance to approval by our board based on a number of factors, including our future financial performance, the availability of cash resources, our requirements for alternative uses of cash and other factors that our board of directors may deem relevant.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS**

The following table sets forth certain information with respect to the beneficial ownership of our common stock at April 20, 2012 for:

each person whom we know beneficially owns more than 5% of our common stock;

all of our directors and executive officers as a group.

The number of shares beneficially owned by each stockholder is determined under rules issued by the SEC and includes voting or investment power with respect to securities. Under these rules, beneficial ownership includes any shares as to which the individual or entity has sole or shared voting power or investment power. Each of the stockholders listed has sole voting and investment power with respect to the shares beneficially owned by the stockholder unless noted otherwise, subject to community property laws where applicable. The selling stockholders have affiliations with broker-dealers, including our subsidiary LPL Financial, but received the shares in the ordinary course of business and, at the time of receipt, had no agreements or understandings, directly or indirectly, with any person to distribute the shares.

The percentage of common stock beneficially owned by each person before the offering is based on 110,429,780 shares of common stock. Shares of common stock that may be acquired within 60 days following April 20, 2012 pursuant to the exercise of options are deemed to be outstanding for the purpose of computing the percentage ownership of such holder but are not deemed to be outstanding for computing the percentage ownership of any other person shown in the table. Beneficial ownership representing less than 1% is denoted with an asterisk.

Unless otherwise indicated, the address for each of the stockholders in the table below is c/o LPL Investment Holdings Inc., One Beacon Street, Boston, Massachusetts 02108.

**MATERIAL U.S. FEDERAL TAX CONSIDERATIONS FOR
NON-U.S. HOLDERS OF SHARES OF COMMON STOCK**

The following is a summary of certain material U.S. federal income and estate tax considerations relating to the purchase, ownership and disposition of shares of our common stock by Non-U.S. Holders (defined below). This summary does not purport to be a complete analysis of all the potential tax considerations relevant to Non-U.S. Holders of shares of our common stock. This summary is based upon the Internal Revenue Code of 1986, as amended (the Internal Revenue Code), the Treasury regulations promulgated or proposed thereunder and administrative and judicial interpretations thereof, all as of the date hereof and all of which are subject to change at any time, possibly on a retroactive basis.

This summary assumes that shares of our common stock are held as capital assets within the meaning of Section 1221 of the Internal Revenue Code. This summary does not purport to deal with all aspects of U.S. federal income and estate taxation that might be relevant to particular Non-U.S. Holders in light of their particular investment circumstances or status, nor does it address specific tax considerations that may be relevant to particular persons (including, for example, financial institutions, broker-dealers, insurance companies, partnerships or other pass-through entities, certain U.S. expatriates, tax-exempt organizations, pension plans, controlled foreign corporations, passive foreign investment companies, corporations that accumulate earnings to avoid U.S. federal income tax, persons in special situations, such as those who have elected to mark securities to market or those who hold shares of our common stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment, persons that have a functional currency other than the U.S. dollar, or holders subject to the alternative minimum tax). In addition, except as explicitly addressed herein with respect to estate tax, this summary does not address certain estate and any gift tax considerations or considerations under the tax laws of any state, local or non-U.S. jurisdiction.

For purposes of this summary, a Non-U.S. Holder means a beneficial owner of shares of our common stock that, for U.S. federal income tax purposes, is an individual, corporation, estate or trust other than:

an individual who is a citizen or resident of the United States;

a corporation, or any other organization taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is included in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (1) a U.S. court is able to exercise primary supervision over the trust's administration and one or more United States persons (as defined in the Internal Revenue Code) have the authority to control all of the trust's substantial decisions or (2) the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

A modified definition of Non-U.S. Holder applies for U.S. federal estate tax purposes (as discussed below).

If an entity that is classified as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of persons treated as its partners for U.S. federal income tax purposes will generally depend upon the status of the partner and the activities of the partnership. Partnerships and other entities that are classified as partnerships for U.S. federal income tax purposes and persons holding shares of our common stock through a partnership or other entity classified as a partnership for U.S. federal income tax purposes are urged to consult their own tax advisors.

There can be no assurance that the Internal Revenue Service (IRS) will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the IRS or an opinion of counsel with respect to the U.S. federal income or estate tax consequences to a Non-U.S. Holder of the purchase, ownership or disposition of shares of our common stock.

Table of Contents

THIS SUMMARY IS FOR GENERAL INFORMATION ONLY AND IS NOT INTENDED TO BE TAX ADVICE. PROSPECTIVE INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME AND ESTATE TAXATION, STATE, LOCAL AND NON-U.S. TAXATION AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SHARES OF OUR COMMON STOCK, AS WELL AS THE APPLICATION OF STATE, LOCAL AND NON-U.S. INCOME AND OTHER TAX LAWS.

Distributions on Shares of Our Common Stock

As discussed under *Dividend Policy* above, on March 30, 2012, our board of directors declared a one-time special cash dividend of \$2.00 per share, payable on May 25, 2012 to all common stockholders of record as of the close of business on May 15, 2012. In addition to the special dividend, we also plan to pay regular quarterly cash dividends, initially up to \$0.12 (\$0.48 annually) in the future, and plan to begin paying such dividends in the second half of 2012, subject in each instance to board approval. In the event that we do make a distribution of cash or property with respect to shares of our common stock (or, in the case of the special dividend, when we make such distribution), any such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles and will be subject to withholding as described in the next paragraph below. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a tax-free return of the Non-U.S. Holder's investment, up to such holder's adjusted tax basis in its shares of our common stock. Any remaining excess will be treated as capital gain, subject to the tax treatment described below in *Gain on Sale, Exchange or Other Taxable Disposition of Our Common Stock*. Any distribution described in this paragraph would also be subject to the discussion below in *Additional Withholding and Information Reporting Requirements for Shares of Our Common Stock Held By or Through Non-U.S. Entities*.

Any dividends paid to a Non-U.S. Holder with respect to shares of our common stock generally will be subject to a 30% U.S. federal withholding tax unless such Non-U.S. Holder provides us or our agent, as the case may be, with the appropriate IRS Form W-8 prior to the payment of dividends, such as:

IRS Form W-8BEN (or successor form) certifying, under penalties of perjury, that such Non-U.S. Holder is entitled to a reduction in withholding under an applicable income tax treaty, or

IRS Form W-8ECI (or successor form) certifying, under penalties of perjury, that a dividend paid on shares of our common stock is not subject to withholding tax because it is effectively connected with the conduct of a trade or business in the United States of the Non-U.S. Holder (in which case such dividend generally will be subject to regular graduated U.S. federal income tax rates on a net income basis as described below).

The certification requirement described above also may require a Non-U.S. Holder that provides an IRS form or that claims treaty benefits to provide its U.S. taxpayer identification number.

Each Non-U.S. Holder is urged to consult its own tax advisor about the specific methods for satisfying these requirements. A claim for exemption will not be valid if the person receiving the applicable form has actual knowledge or reason to know that the statements on the form are false.

If dividends are effectively connected with the conduct of a trade or business in the United States of the Non-U.S. Holder (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base maintained by such Non-U.S. Holder in the United States), the Non-U.S. Holder, although exempt from the withholding tax described above (provided that the certifications described above are satisfied), will generally be subject to U.S. federal income tax on such dividends on a net income basis in the same manner as if it were a resident of the United States. In addition, if such Non-U.S. Holder is taxable as a corporation for U.S. federal income tax purposes, such Non-U.S. Holder may be subject to an additional branch profits tax equal to 30% of its effectively connected earnings and profits for the taxable year, unless an applicable income tax treaty provides otherwise.

Table of Contents

If a Non-U.S. Holder is eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty, such holder may obtain a refund or credit of any excess amount withheld by timely filing an appropriate claim for refund with the IRS.

Gain on Sale, Exchange or Other Taxable Disposition of Shares of Our Common Stock

Subject to the discussion below under **Additional Withholding and Information Reporting Requirements for Shares of Our Common Stock Held By or Through Non-U.S. Entities**, in general, a Non-U.S. Holder will not be subject to U.S. federal income tax or withholding tax on any gain realized upon such holder's sale, exchange or other taxable disposition of shares of our common stock unless (i) such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition, and certain other conditions are met, (ii) we are or have been a United States real property holding corporation, as defined in the Internal Revenue Code (a USRPHC), at any time within the shorter of the five-year period preceding the disposition and the Non-U.S. Holder's holding period with respect to the applicable shares of our common stock (the relevant period), or (iii) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by such Non-U.S. Holder in the United States).

If the first exception applies, the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% (unless an applicable income tax treaty provides otherwise) on the amount by which such Non-U.S. Holder's capital gains allocable to U.S. sources exceed capital losses allocable to U.S. sources during the taxable year of the disposition.

With respect to the second exception above, although there can be no assurance, we believe that we are not, and do not anticipate becoming, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property relative to the fair market value of other business assets, there can be no assurance that we will not become a USRPHC in the future. Generally, a corporation is a USRPHC only if the fair market value of its United States real property interests (as defined in the Internal Revenue Code) equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. Even if we are or become a USRPHC, a Non-U.S. Holder would not be subject to U.S. federal income tax on a sale, exchange or other taxable disposition of our common stock so long as (i) our common stock continues to be regularly traded on an established securities market (within the meaning of Internal Revenue Code Section 897(c)(3)) during the calendar year in which such sale, exchange or other taxable disposition of our common stock occurs and (ii) such Non-U.S. Holder does not own and is not deemed to own (directly, indirectly or constructively) more than 5% of our common stock at any time during the relevant period. If we are a USRPHC and the requirements of (i) or (ii) are not met, gain on the disposition of shares of our common stock generally will be taxed in the same manner as gain that is effectively connected with the conduct of a U.S. trade or business, except that the branch profits tax will not apply.

If the third exception applies, the Non-U.S. Holder generally will be subject to U.S. federal income tax on a net income basis with respect to such gain in the same manner as if such holder were a resident of the United States, unless otherwise provided in an applicable income tax treaty, and a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes may also be subject to a branch profits tax with respect to such gain at a rate of 30%, unless an applicable income tax treaty provides otherwise.

Additional Withholding and Information Reporting Requirements for Shares of Our Common Stock Held By or Through Non-U.S. Entities

Legislation enacted in March 2010 (commonly referred to as FATCA) generally will impose a U.S. federal withholding tax of 30% on payments to certain non-U.S. entities (including certain intermediaries), including dividends on and the gross proceeds from a sale or other disposition of our common stock, unless such

Table of Contents

persons comply with a complicated U.S. information reporting, due diligence, disclosure and certification regime. This new regime and its requirements are different from, and in addition to, the certification requirements described elsewhere in this discussion. As currently proposed, the FATCA withholding rules would apply to certain payments, including dividend payments on our common stock, if any, paid after December 31, 2013, and to payments of gross proceeds from the sale or other dispositions of our common stock paid after December 31, 2014. Although administrative guidance and proposed regulations have been issued, regulations implementing the new FATCA regime have not been finalized and the exact scope of these rules remains unclear and potentially subject to material changes. Prospective investors should consult their own tax advisors regarding the possible impact of these rules on their investment in our common stock, including any investment in our common stock made through another entity.

Backup Withholding and Information Reporting

We must report annually to the IRS and to each Non-U.S. Holder the gross amount of the distributions on shares of our common stock paid to such holder and the tax withheld, if any, with respect to such distributions. These information reporting requirements apply even if withholding was not required. Subject to the discussion above under **Additional Withholding and Information Reporting Requirements for Shares of Our Common Stock Held By or Through Non-U.S. Entities**, a Non-U.S. Holder may have to comply with specific certification procedures to establish that the holder is not a United States person (as defined in the Internal Revenue Code) or otherwise establish an exemption in order to avoid backup withholding at the applicable rate, currently 28% and scheduled to increase to 31% for taxable years 2013 and thereafter, with respect to dividends on our common stock. Dividends paid to Non-U.S. Holders subject to the U.S. federal withholding tax, as described above in **Distributions on Shares of Our Common Stock**, generally will be exempt from U.S. backup withholding.

Information reporting and backup withholding will generally apply to the payment of the proceeds of a disposition of shares of our common stock by a Non-U.S. Holder effected by or through the U.S. office of any broker, U.S. or non-U.S., unless the holder certifies that it is not a United States person (as defined in the Internal Revenue Code) and satisfies certain other requirements, or otherwise establishes an exemption. For information reporting purposes, dispositions effected through a non-U.S. office of a broker with substantial U.S. ownership or operations generally will be treated in a manner similar to dispositions effected through a U.S. office of a broker, and dispositions otherwise effected through a non-U.S. office generally will not be subject to information reporting. Generally, backup withholding will not apply to a payment of disposition proceeds to a Non-U.S. Holder where the transaction is effected through a non-U.S. office of a U.S. broker or non-U.S. office of a non-U.S. broker. Prospective investors are urged to consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

Copies of information returns may be made available to the tax authorities of the country in which the Non-U.S. Holder resides or is incorporated under the provisions of a specific treaty or agreement.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment made to a Non-U.S. Holder can be refunded or credited against such Non-U.S. Holder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

Federal Estate Tax

Shares of our common stock held (or treated as held) by an individual who is not a United States citizen or resident (as specifically determined for U.S. federal estate tax purposes) at the time of such individual's death will be included in such individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise. Generally, amounts included in the taxable estate of decedents on or before December 31, 2012 are subject to U.S. federal estate tax at a maximum rate of 35%. However, the maximum U.S. federal estate tax rate is scheduled to increase to 55% with respect to the taxable estate of decedents dying after December 31, 2012.

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to take and pay for all of the shares being offered, if any of those shares are taken (other than the shares covered by the option described below, unless this option is exercised). If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

The selling stockholders have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to 1,450,000 additional shares of common stock at the public offering price listed on the cover page of this prospectus supplement, less underwriting discounts and commissions, provided that the purchase price paid by the underwriters for such additional shares will be reduced by an amount per share equal to any dividend or distributions declared by the company and payable on the other shares initially purchased by the underwriters in this offering but not payable on such additional shares. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase approximately the same percentage of the additional shares of common stock as the number of shares listed next to the underwriter's name in the preceding table bears to the total number of shares of common stock listed next to the names of all underwriters in the preceding table.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of an officer's certificate and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The company will not receive any proceeds from this offering.

Table of Contents

The following table shows the per share and total public offering price, underwriting discounts and commissions, and proceeds before expenses to the selling stockholders. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to an additional 1,450,000 shares of common stock at the public offering price less underwriting discounts and commissions.

	Per Share	No Exercise	Total Full Exercise

Underwriting discounts and commissions to be paid by the selling stockholders	\$	\$	\$
Proceeds, before expenses, to selling stockholders	\$	\$	\$

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ per share from the public offering price. If all the shares are not sold at the offering price, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The company and its officers and directors and the Sponsors, have agreed, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 90 days after the date of the final prospectus supplement. The restrictions described in the above paragraph do not apply to:

the exercise of options to purchase shares of common stock granted prior to the date of this prospectus supplement under a stock incentive plan or stock purchase plan, or the disposition to the company of shares of restricted stock granted pursuant to the terms of such plan prior to the date of this prospectus supplement; provided that no filing under Section 16(a) of the Exchange Act during the restricted period shall be required or shall be voluntarily made in connection therewith;

In addition to the exceptions listed above, the underwriters have agreed to include a carve-out in the lock-up agreement with one of the company's executive officers, William E. Dwyer, to allow the cashless exercise of his options to purchase 651,220 shares of common stock, which were granted by the company prior to the date of this prospectus supplement. Such exercise will require a filing by Mr. Dwyer with the SEC under Section 16(a) of the Exchange Act.

The company's common stock is currently listed on The NASDAQ Global Select Market under the symbol LPLA.

In order to facilitate the offering of the common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option to purchase additional shares. The underwriters can close out a covered short sale by exercising the option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option to purchase additional shares. The underwriters may also sell shares in excess of the option to purchase additional shares, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), no offer of shares may be made to the public in that Relevant Member State other than:

- A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or

- C. in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall require the Company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors as defined in the Prospectus Directive, or in circumstances in which the prior consent of the representatives has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

The company, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus supplement or the accompanying prospectus may only do so in circumstances in which no obligation arises for the company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the company nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

DESCRIPTION OF COMMON STOCK

References to the Company, us, we or our in this section mean LPL Investment Holdings, Inc. and do not include the subsidiaries of LPL Investment Holdings, Inc. Also, in this section, references to holders mean those who own common stock registered in their own names, on the books that we maintain for this purpose.

The following summary of the terms of our common stock does not purport to be complete. You should refer to our certificate of incorporation and bylaws, both of which are on file with the SEC as exhibits to previous filings. The summary below is also qualified by provisions of applicable law.

General

Under our certificate of incorporation, we have authority to issue up to 600,000,000 shares of common stock, par value \$0.001 per share. As of April 18, 2011, we had 108,859,632 shares of common stock outstanding, held by 1,172 record holders.

Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. An election of directors by our stockholders shall be determined by a plurality of the votes cast by the stockholders entitled to vote on the election. Holders of common stock are entitled to receive proportionately any dividends as may be declared by our board of directors, subject to any preferential dividend rights of any series of preferred stock that is outstanding at the time of the dividend.

In the event of our liquidation or dissolution, the holders of common stock are entitled to receive proportionately our net assets available for distribution to stockholders after payment of all debts and other liabilities and subject to the prior rights of any outstanding preferred stock.

All shares of common stock will, when issued, be duly authorized, fully paid and nonassessable. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of shares of any series of preferred stock that the company may designate and issue in the future.

Anti-takeover Effects of the Delaware General Corporation Law and Our Certificate of Incorporation and Bylaws

Our certificate of incorporation and our bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us, some of which may only become effective when TPG Capital, L.P. and Hellman & Friedman LLC (collectively, the Majority Holders) collectively cease to beneficially own at least 40% or more of our outstanding shares of common stock (such time referred to in this section as the triggering event). We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with the board of directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they may also discourage acquisitions that some stockholders may favor. This offering will not constitute a triggering event.

Table of Contents

Board of Directors

Our board of directors currently has nine members. Our certificate of incorporation provides that until the occurrence of the triggering event (as defined above), the number of directors shall not be increased without, in addition to any other vote otherwise required by law, the affirmative vote or written consent of at least 60% of the outstanding shares of common stock. In addition, our stockholders' agreement provides that the board of directors will not have more than nine members for so long as either Hellman & Friedman LLC and its affiliates or TPG Capital, L.P. and its affiliates are entitled to appoint two directors under the stockholders' agreement.

Potential Staggered Board

Our certificate of incorporation provides that at the first annual meeting after the triggering event, our board of directors shall be divided into three classes with staggered three-year terms. The classification of our board could make it more difficult for a third party to acquire, or discourage a third party from seeking to acquire, control of our company.

Action by Written Consent

The Delaware General Corporation Law (DGCL) provides that, unless otherwise stated in a corporation's certificate of incorporation, the stockholders may act by written consent without a meeting. Our certificate of incorporation provides that following the triggering event, any action required or permitted to be taken by our stockholders at an annual meeting or special meeting of the stockholders may only be taken at such annual or special meeting, and not by written consent without a meeting, if it is properly brought before such annual or special meeting.

Special Meeting of Stockholders and Advance Notice Requirements for Stockholder Proposals

Our certificate of incorporation and bylaws provide that, except as otherwise required by law, special meetings of the stockholders can only be called by (a) our chairman or vice chairman of the board, (b) our president, (c) a majority of the board of directors through a special resolution, or (d) prior to the triggering event, the holders of at least 40% of the outstanding shares of common stock.

In addition, following the occurrence of the triggering event described above, our bylaws will require advance notice procedures for stockholder proposals to be brought before an annual meeting of the stockholders, including the nomination of directors. Stockholders at an annual meeting may only consider the proposals specified in the notice of meeting or brought before the meeting by or at the direction of the board of directors, or by a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has delivered a timely written notice in proper form to our secretary, of the stockholder's intention to bring such business before the meeting.

These provisions could have the effect of delaying until the next stockholder meeting any stockholder actions that are favored by the holders of a majority of our outstanding voting securities.

Requirements for Removal and Interim Election of Directors

At such time as our board of directors has been divided into three classes, our certificate of incorporation provides that the directors may only be removed for cause and only by the affirmative vote of the holders of at least two-thirds of the voting power of our outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class. Our certificate of incorporation and bylaws provide that prior to the triggering event, directors may be removed, with or without cause, by the holders of a majority of the shares entitled to vote on the election of directors, voting together as a single class.

Vacancies and newly-created directorships may be filled only by a vote of a majority of the directors then in office, even though less than a quorum, and not by the stockholders, except that, prior to a triggering event, such vacancies may be filled by, in addition to any other vote otherwise required by law, the affirmative vote of

Table of Contents

holders of a majority of the outstanding shares of common stock. In addition, the certificate of incorporation provides that any vacancy created by the removal of a director by the stockholders shall only be filled by, in addition to any other vote otherwise required by law, the affirmative vote of a majority of the outstanding shares of common stock. Our bylaws allow the presiding officer at a meeting of the stockholders to adopt rules and regulations for the conduct of meetings which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed.

These provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of our company.

Amendment to Certificate of Incorporation and Bylaws

The DGCL provides generally that the affirmative vote of a majority of the outstanding stock entitled to vote on amendments to a corporation's certificate of incorporation or bylaws is required to approve such amendment, unless a corporation's certificate of incorporation or bylaws, as the case may be, requires a greater percentage. Following the first time when the Majority Holders collectively cease to own more than 50% of our outstanding shares of common stock, our bylaws may be amended or repealed by a majority vote of our board of directors or, in addition to any other vote otherwise required by law, the affirmative vote of at least two-thirds of the voting power of our outstanding shares of common stock. Additionally, following the first time when the Majority Holders collectively cease to own more than 50% of our outstanding shares of common stock, the affirmative vote of at least two-thirds of the voting power of the outstanding shares of capital stock entitled to vote on the adoption, alteration, amendment or repeal of our certificate of incorporation, voting as a single class is required to amend or repeal or to adopt any provision inconsistent with the Board of Directors, No Action by Written Consent, Special Meetings of Stockholders, Amendments to the Amended and Restated Certificate of Incorporation and Bylaws and Business Combinations provisions described in our certificate of incorporation. These provisions may have the effect of deferring, delaying or discouraging the removal of any anti-takeover defenses provided for in our certificate of incorporation and our bylaws.

Exclusive Jurisdiction of Certain Actions

Our certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in the name of the company, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware. Although we believe this provision benefits the company by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

Authorized but Unissued Shares

The authorized but unissued shares of common stock and preferred stock are available for future issuance without stockholder approval, subject to any limitations imposed by the listing standards of The NASDAQ Global Select Market. These additional shares may be used for a variety of corporate finance transactions, acquisitions and employee benefit plans. The existence of authorized but unissued common stock and preferred stock could make more difficult, or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger, or otherwise.

Business Combinations

We have elected to not be subject to Section 203 of the DGCL, which regulates business combinations with interested stockholders.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is BNY Mellon Shareowner Services.

Listing

Our common stock is listed on The NASDAQ Global Select Market under the symbol LPLA.

PLAN OF DISTRIBUTION

We and the selling stockholders may sell securities in any of the ways described below or in any combination:

to or through underwriters or dealers;

through one or more agents; or

directly to purchasers or to a single purchaser.

The distribution of the securities by us or the selling stockholders may be effected from time to time in one or more transactions:

at a fixed price, or prices, which may be changed from time to time;

at market prices prevailing at the time of sale;

at prices related to such prevailing market prices; or

at negotiated prices.

Each prospectus supplement will describe the method of distribution of the securities and any applicable restrictions.

The prospectus supplement will describe the terms of the offering of the securities, including the following:

the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them;

the public offering price of the securities and the proceeds to us and any discounts, commissions or concessions allowed or reallocated or paid to dealers.

if the securities are sold by the selling stockholders, information about the selling stockholders, including the relationship between the selling stockholders and us.

Any offering price and any discounts or concessions allowed or reallocated or paid to dealers will be specified in the applicable prospectus supplement and may be changed from time to time.

Only the agents or underwriters named in each prospectus supplement are agents or underwriters in connection with the securities being offered thereby.

We and the selling stockholders may authorize underwriters, dealers or other persons acting as our agents to solicit offers by certain institutions to purchase securities from us or the selling stockholders pursuant to delayed delivery contracts providing for payment and delivery on the date stated in each applicable prospectus supplement. Each contract will be for an amount not less than, and the aggregate amount of securities sold pursuant to such contracts shall not be less nor more than, the respective amounts stated in each applicable prospectus supplement. with whom the contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but shall in all cases be subject to our approval. Delayed delivery contracts will be subject only to those conditions set forth in each applicable prospectus supplement, and each prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Agents, underwriters and other third parties described above may be entitled to indemnification by us and the selling stockholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution from us and the selling stockholders with respect to payments which the agents, underwriters or third parties may be required to make in respect thereof. Agents, underwriters and such other third parties may be

customers of, engage in transactions with, or perform services for us or the selling stockholders in the ordinary course of business. We and the selling stockholders may also use underwriters or such other third parties with whom we or such selling stockholders have a material relationship. We and the selling stockholders will describe the nature of any such relationship in the applicable prospectus supplement.

Certain underwriters may use this prospectus and any accompanying prospectus supplement for offers and sales related to market-making transactions in the securities. These underwriters may act as principal or agent in these transactions, and the sales will be made at prices related to prevailing market prices at the time of sale. Any underwriters involved in the sale of the securities may qualify as underwriters within the meaning of Section 2(a)(11) of the Securities Act. In addition, the underwriters' commissions, discounts or concessions may qualify as underwriters' compensation under the Securities Act and the rules of the Financial Industry Regulatory Authority.

Our common stock is listed on The NASDAQ Global Select Market. Underwriters may make a market in our common stock, but will not be obligated to do so and may discontinue any market making at any time without notice. We can make no assurance as to the development, maintenance or liquidity of any trading market for the securities.

Certain persons participating in an offering may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with rules and regulations under the Securities Exchange Act of 1934, as amended (the Exchange Act). Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.
