Item 8.01 Other Events.

On December 21, 2012, Cleco Power LLC (“Cleco Power”), a wholly owned subsidiary of Cleco Corporation, filed a settlement agreement in its previously disclosed rate proceeding with the settlement judge of the Federal Energy Regulatory Commission (“FERC”). This settlement agreement was reached between Cleco Power, FERC staff and other interested parties regarding revisions to Cleco Power's Open Access Transmission Tariff (“OATT”). The revisions allow adoption of a formula rate methodology for transmission delivery and ancillary services provided by Cleco Power under the OATT and the existing bilateral Electric System Interconnection Agreements that preceded the OATT. The new formula rates also permit recovery of Cleco Power's FERC-jurisdictional investments in transmission and other assets placed in service since the existing rates were established. The settlement agreement allows for a return on equity of 10.5%, with an equity ratio of 53%. In accordance with the settlement, Cleco Power shall discount the charges produced by the formula rate by 10% until the earlier of December 31, 2014 or the date upon which Cleco commences operations under the Midwest Independent System Operator Tariff. Per FERC regulation, Cleco Power implemented new rates on November 1, 2012, subject to refund. The settlement is subject to approval by the FERC, and Cleco Power anticipates final settlement in the first half of 2013. The settlement documents filed by Cleco Power are available through the FERC's “eLibrary” under Docket Nos. ER12-1378 and ER12-1379 at the following internet address: <http://www.ferc.gov/docs-filing/elibrary.asp>.
