VoiceStream Wireless Announces First Quarter Subscriber Additions
- 484,700 Net Additions During the 1st Quarter -

BELLEVUE, WA (April 23, 2001) -- VoiceStream Wireless Corporation, a leading provider of personal communications services, announced today that it added 484,700 subscribers during the quarter ended March 31, 2001. This brings its total customer base to 4.4 million at March 31, 2001.

Edgar Filing: VOICESTREAM WIRELESS CORP /DE - Form 8-K

"VoiceStream had another strong quarter of customer additions," said John Stanton, Chairman and Chief Executive Officer of VoiceStream Wireless. "The attractiveness of pricing and usage in our offering combined with the feature set we are able to offer continues to be compelling to customers."

VoiceStream will announce its full first quarter 2001 financial results on May 7. During the quarter VoiceStream added 409,100 post-pay subscribers from internal growth to reach a total of 3,343,500 and added 75,600 pre-paid customers to reach a total of 1,046,600. The quarter end totals also include 26,400 post-pay subscribers added through acquisitions closed during the first quarter.

VoiceStream also currently anticipates consolidated service revenues for 2001 to increase by 120 to 125% over the full year 2000 consolidated service revenues and for cash flow (operating income less non-cash expenses) losses to be less than \$300 million for the full year, with the majority of the losses coming in the first quarter of the year. Based on current economic conditions, VoiceStream also expects comparable subscriber growth in future quarters this year. These expectations also assume a closing of the merger with Powertel to occur during the second quarter of the year and do not reflect any non-recurring costs recognized as a result of the merger with Deutsche Telekom. Based on the current regulatory process, VoiceStream anticipates the merger will be closed on May 31, 2001.
