Voting

Election of directors will be decided by a plurality of the votes cast by the holders of shares of Common Stock present in person or represented by proxy at the meeting and entitled to vote. Approval of Items 2 through 4 will require the affirmative vote of the holders of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote. Interpublic's transfer agent tabulates the votes. Abstentions and broker non-votes are each tabulated separately and are counted as shares present for the purpose of determining whether there is a quorum present for the conduct of business at the Annual Meeting. For Items 2 through 4, shares that are the subject of an abstention are included as shares entitled to vote on the matter and, therefore, have the same effect as a vote against the matter, and shares, if any, that are the subject of a broker non-vote with respect to a particular matter are not included as shares entitled to vote on that matter.

Stockholder Proposals To Be Presented At 2006 Annual Meeting

Proposals of stockholders intended to be presented at the Annual Meeting of Stockholders scheduled to be held on May 16, 2006, must be received by Interpublic by December 27, 2005, and must comply with applicable SEC regulations, in order to be considered for inclusion in Interpublic's Proxy Statement and form of proxy relating to that meeting. If notice of a proposal intended to be presented at the Annual Meeting is not received by Interpublic before March 13, 2006, the persons named as proxies in Interpublic's 2006 proxy material will have the discretionary authority to vote on the matter in accordance with their best judgment without disclosure in the proxy statement of such matter or of how the proxy holders intend to exercise their discretionary authority to vote on the matter.

CORPORATE GOVERNANCE PRACTICES AND BOARD MATTERS

Corporate Governance Guidelines

Interpublic has a strong commitment to sustaining sound corporate governance practices. Interpublic's Corporate Governance Guidelines are available free of charge on Interpublic's website at <http://www.interpublic.com> or by writing to The Interpublic Group of Companies, Inc., 1114 Avenue of the Americas, New York, NY 10036, Attention: Secretary.

Board Structure, Committees and Independence

Interpublic has ten directors, three of whom are employees of Interpublic or one of its subsidiaries (those employee directors are referred to in this Proxy Statement as Management Directors) and seven of whom are not employees of Interpublic or its subsidiaries (those non-employee directors are referred to hereinafter in this Proxy Statement as the Non-Management Directors or Outside Directors). The standing committees of the Board consist of the Executive Committee, the Finance Committee, the Compensation Committee, the Corporate Governance Committee and the Audit Committee. The activities of the Compensation Committee, the Corporate Governance Committee and the Audit Committee are each governed by a charter that is available free of charge on Interpublic's website at <http://www.interpublic.com> or by writing to The Interpublic Group of Companies, Inc., 1114 Avenue of the Americas, New York, NY 10036, Attention: Secretary. A description of the responsibilities of each standing Committee of the Board is provided in this Proxy Statement under the heading Principal Committees of the Board of Directors. All of the members of the Compensation Committee, the Corporate Governance Committee and the Audit Committee are Non-Management Directors. Of the seven Non-Management Directors, the Board has determined that Ms. Considine and Messrs. Brack, Goldstein, Greeniaus, Samper and Thomas are each independent under the independence standards set forth in Interpublic's Corporate Governance Guidelines, and under the applicable rules of the SEC and the New York Stock Exchange (NYSE) listing standards (the NYSE Listing Standards). Under the NYSE Listing Standards, Mr. Borelli, Interpublic's Presiding Director as described below, is not deemed to be independent because his son is a principal of Deloitte & Touche, to which Interpublic has outsourced its internal audit function. Mr. Borelli's son is not engaged in providing services to Interpublic.

Presiding Director

Interpublic created the position of Presiding Director of the Board in November 2002. The Presiding Director of the Board helps to coordinate communications between the Board and management of Interpublic. Specifically, the Presiding Director convenes and chairs meetings of the Non-Management Directors, coordinates and develops the agenda for, and chairs executive sessions of, the Non-Management Directors, coordinates feedback to the Chairman and Chief Executive Officer on behalf of the Non-Management Directors regarding business issues and management, and coordinates and develops with the Chairman of the Board and Chief Executive Officer the agendas and presentations for meetings of the Board together with the informational needs associated with those agendas and presentations. The Non-Management Directors have elected Mr. Borelli as Presiding Director for a second term of one year that began in March 2005.

The NYSE Listing Standards require that if the group of Non-Management Directors includes one or more directors that is not independent, then at least once annually, the Non-Management Directors should hold an executive session that includes only independent Directors. At the meeting of the Board in March 2005, the independent Directors met in executive session without Mr. Borelli. Ms. Considine served as the Chairperson of that executive session of the Non-Management Directors.

Communications with the Board of Directors and Non-Management Directors

Interested parties may contact Interpublic's Board of Directors, or the Non-Management Directors as a group, at the following address:

Board of Directors or Non-Management Directors, as applicable

The Interpublic Group of Companies, Inc.

Communications may also be sent to individual directors at the above address. Communications to the Board, the Non-Management Directors or to any individual director that relate to Interpublic's accounting, internal accounting controls or auditing matters will also be referred to the Chairperson of the Audit Committee. Other communications will be referred to the Presiding Director or the appropriate committee chairperson.

Director Selection Process

The Corporate Governance Committee is charged with the responsibilities described in this Proxy Statement under the heading "Principal Committees of the Board of Directors - Corporate Governance Committee".

One of the Committee's responsibilities is to identify and recommend to the Board candidates for election as directors. The Committee considers candidates suggested by its members, other directors, senior management and shareholders as necessary in anticipation of upcoming director elections or due to Board vacancies. The Committee is given broad authorization to retain, at the expense of Interpublic, external legal, accounting or other advisers including the retention of search firms to identify candidates and to perform background reviews of potential candidates. The Committee is expected to provide guidance to search firms it retains about the particular qualifications the Board is then seeking. No search firms or other advisers were retained in the past fiscal year to identify director candidates.

All director candidates, including those recommended by shareholders, are evaluated on the same basis. Candidates are considered in light of the entirety of their credentials, including:

- their business and professional achievements, knowledge, experience and background, particularly in light of the principal current and prospective businesses of Interpublic and the strategic challenges facing Interpublic and its industry as a whole;
- their integrity and independence of judgment;
- their ability and willingness to devote sufficient time to Board duties;
- their qualifications for membership on one or more of the committees of the Board;
- their potential contribution to the diversity and culture of the Board;
- their educational background;
- their independence from management under NYSE Listing Standards and Interpublic's Corporate Governance Guidelines;
- the needs of the Board and Interpublic; and
- the Board's policies regarding the number of boards on which a director may sit, director tenure, retirement and succession as set out in Interpublic's Corporate Governance Guidelines.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES, INC. - Form DEF 14A

In determining the needs of the Board and Interpublic, the Committee considers the qualifications of sitting directors and consults with other members of the Board (including as part of the Board's annual

8

self-evaluation), the CEO and other members of senior management and, where appropriate, external advisers. The Corporate Governance Committee recently has extended the mandatory retirement age of a director from 70 to 74 years old in order to encourage continuity of Board membership at a time when Interpublic and its subsidiaries are engaged in an ambitious turnaround effort. All directors are expected to exemplify the highest standards of personal and professional integrity and to assume the responsibility of challenging management through their active and constructive participation and questioning in meetings of the Board and its various committees, as well as in less formal contacts with management.

Director candidates, other than sitting directors, are interviewed by each of the members of the Committee and by other directors, the CEO and other key management personnel, and the results of those interviews are considered by the Committee in its deliberations. The Committee also reviews sitting directors whose terms are nearing expiration, and who are considered potential candidates for re-election, in light of the above considerations and their past contributions to the Board.

Shareholders wishing to recommend a director candidate to the Committee for its consideration should write to the Committee, in care of its Chairperson, at The Interpublic Group of Companies, Inc., 1114 Avenue of the Americas, New York, NY 10036. Any recommendations will be considered for the next annual election of directors in 2006. A recommendation should include the candidate's name, biographical data and a description of his or her qualifications in light of the above criteria. If Interpublic receives in a timely manner, in accordance with the SEC requirements, any recommendation of a director candidate from a shareholder, or group of shareholders, that beneficially owns more than 5% of Interpublic's Common Stock for at least one year as of the date of recommendation, as determined under SEC rules, Interpublic will disclose in its proxy statement the names of the recommending shareholder(s) and the candidate if the shareholder (or each member of the group) and the candidate consent in writing to that disclosure.

Principal Committees of The Board of Directors

Executive Committee The Executive Committee is authorized, when the Board of Directors is not in session, to exercise all powers of the Board of Directors which, under Delaware law and the By-Laws of Interpublic, may properly be delegated to a committee, except certain powers that have been delegated to other committees of the Board of Directors. Due to the frequency in number of meetings of the Board and other committees of the Board, the Executive Committee did not hold any meetings in 2004.

Finance Committee The Finance Committee is authorized to review the financial affairs of Interpublic and make recommendations with respect thereto to the Board of Directors. It also approves capital budgets, guarantees by Interpublic of obligations of subsidiaries and affiliates and certain capital transactions (including mergers and acquisitions), and is the committee that administers the Interpublic Retirement Account Plan. The Finance Committee held one meeting in 2004.

Compensation Committee The Compensation Committee is responsible for the adoption and periodic review of a remuneration strategy for Interpublic and its subsidiaries which ensures that executive compensation for key senior executives is designed to incentivize and reward long-term growth, profitability and return to stockholders. The Compensation Committee is responsible for approving the compensation paid to senior executives of Interpublic and its subsidiaries. For these purposes, compensation is deemed to include: (1) salary, (2) deferred compensation, (3) bonuses and other extra compensation of all types, including long-term performance incentive awards under Interpublic's 2004 Performance Incentive Plan, (4) insurance paid for by Interpublic or any of its subsidiaries other than group plans, (5) annuities and individual retirement arrangements, (6) Special Deferred Benefit Agreements, (7) Interpublic's Senior Executive Retirement Income Plan (SERIP), and (8) Interpublic's Capital Accumulation Plan. The Compensation Committee also administers the 2004 Performance Incentive Plan (and its predecessors, the 2002 Performance Incentive Plan, the 1997 Performance

Incentive Plan, the Long-Term Performance Incentive Plan, the Management Incentive Compensation Plan, the 1996 Stock Incentive Plan and the 1986 Stock Incentive Plan), the 1986 United Kingdom Stock Option Plan and the Employee Stock Purchase Plan (1995). The Committee approves any newly adopted or major changes made to these plans and makes recommendations to the Board with respect to incentive-compensation plans and equity-based plans. The Committee also reviews initiatives of Interpublic and its subsidiaries to retain and develop key employees on an ongoing basis and coordinates, manages and reports to the Board on the annual performance evaluation of key executives of Interpublic. In addition, the Committee is authorized, if appropriate, to hire experts or other independent advisers or legal counsel to assist the Committee in the discharge of its duties. The Compensation Committee held six meetings in 2004.

Corporate Governance Committee The Corporate Governance Committee is responsible for recommending to the Board of Directors the persons to be nominated for election to the Board of Directors and the membership and chairman of each Board committee. The other responsibilities of the Corporate Governance Committee include the establishment of criteria for membership on the Board and its committees, the review and recommendation to the Board as to the independence of Non-Management Directors under the standards set forth in Interpublic's Corporate Governance Guidelines and the NYSE Listing Standards, the evaluation on an annual basis of the collective performance of the Board and the Board's committees, the recommendation to the Board of compensation and benefits for Non-Management Directors, and the review, the continual assessment and the recommendation to the Board of the best practices in corporate governance matters generally. The Corporate Governance Committee held six meetings in 2004.

The Audit Committee The Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to (i) the annual financial information to be provided to stockholders and the SEC; (ii) the system of internal controls that management has established; and (iii) the internal and external audit processes. In addition, the Audit Committee provides an avenue for communication among internal audit, the independent auditors, financial management and the Board. The Audit Committee also is responsible for the selection and retention of Interpublic's independent auditors and the review of their compensation, subject to approval of the Board of Directors. Specific activities of the Committee are described in the Audit Committee Report below. In light of the importance of the Audit Committee, on the recommendation of the Corporate Governance Committee, each independent Non-Management Director is a member of the Audit Committee. The Board has determined that each member of the Audit Committee qualifies as an audit committee financial expert within the meaning of applicable SEC rules. The Audit Committee held seven meetings in 2004.

AUDIT COMMITTEE REPORT

The primary function of the Audit Committee is to assist the Board of Directors in its oversight of Interpublic's financial reporting process. The Committee operates pursuant to a Charter approved by the Board. A copy of the Charter is included as Appendix A of this Proxy Statement.

Management is responsible for Interpublic's consolidated financial statements and overall reporting process, including the system of internal controls. PricewaterhouseCoopers LLP, the independent auditor of Interpublic, is responsible for conducting annual audits and timely quarterly reviews of Interpublic's consolidated financial statements and expressing an opinion as to the conformity of the annual consolidated financial statements with generally accepted accounting principles. With respect to the year ended December 31, 2004, the Audit Committee has:

- Reviewed and discussed the audited consolidated financial statements with management;
- Reviewed and discussed with PricewaterhouseCoopers the scope, staffing and general extent of the audit;

- Reviewed with management and PricewaterhouseCoopers the selection, application and disclosure of Interpublic's critical accounting policies used in the preparation of Interpublic's annual audited financial statements;
- Evaluated PricewaterhouseCoopers' performance, qualifications and quality control procedures;
- Pre-approved all services, both audit (including all audit engagement fees and terms) and permitted, non-audit services performed by PricewaterhouseCoopers;
- Established clear policies with management for the hiring of current or former employees of PricewaterhouseCoopers who participate in any capacity in Interpublic's audit;
- Overseen compliance with Interpublic's Code of Ethics and procedures for the confidential and anonymous submission by employees of Interpublic and others of complaints about accounting, internal controls or auditing matters;
- Reviewed with management, Interpublic's internal auditors and PricewaterhouseCoopers, Interpublic's significant internal accounting and financial reporting controls and any significant deficiencies or material weaknesses relating to such internal accounting and financial reporting controls;
- Overseen, with the assistance of outside counsel and a forensic accounting firm retained by the Audit Committee, the comprehensive review by management, Interpublic's internal auditors and PricewaterhouseCoopers, of Interpublic's previously reported financial results and the resulting restatement of Interpublic's previously issued financial results;
- Overseen, with the assistance of outside counsel and a forensic accounting firm retained by the Audit Committee, the internal investigations conducted by management and Interpublic's internal auditors of potential employee misconduct and the Remediation Plan developed by management with respect thereto;
- Reviewed and discussed with management, Interpublic's internal auditors and PricewaterhouseCoopers, any disclosures made to the Committee by Interpublic's Chief Executive Officer and Chief Financial Officer in connection with the certifications required by SEC rules to be made by each such officer in Interpublic's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q;
- Discussed with PricewaterhouseCoopers the matters required to be discussed by Statement on Auditing Standards (SAS) No. 61, as amended by SAS 90 (Codification of Statements on Auditing Standards AU Section 380), as may be modified or supplemented; and
- Received the written disclosures and the letter from PricewaterhouseCoopers required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), discussed with PricewaterhouseCoopers matters relating to that firm's independence and considered whether performance by PricewaterhouseCoopers of non-audit services for Interpublic is compatible with maintaining PricewaterhouseCoopers' independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in Interpublic's Annual Report on Form 10-K for the year ended December 31, 2004.

Attendance at Board of Directors and Committee Meetings

The Board of Directors has articulated in its Corporate Governance Guidelines its policy with respect to attendance of each director at Board meetings. Specifically, the Corporate Governance Guidelines provide that each director is expected to prepare for, attend and participate in, at least 75% of all meetings of the Board, absent special circumstances. The Board of Directors of Interpublic held twelve meetings in 2004 and committees of the Board held a total of twenty-one meetings. During 2004, each director attended 75% or more of the total number of meetings of the Board of Directors and committees on which he or she served.

Attendance at Annual Meeting of Stockholders

Interpublic does not have a specific policy for attendance by directors at the Annual Meeting of Stockholders. However, other than Michael I. Roth, who did not attend the 2004 Annual Meeting, each director who is currently a member of the Board and who is standing for re-election attended the 2004 Annual Meeting.

Non-Management Directors' Compensation

Each Non-Management Director receives as cash compensation for services rendered, an annual retainer of \$40,000, an annual retainer of \$2,000 for each committee on which he or she serves, a fee of \$1,500 for each meeting of the Board attended and a fee of \$1,500 for each committee meeting attended. The Chairperson of the Compensation Committee, the Chairperson of the Finance Committee and the Chairperson of the Corporate Governance Committee each receives an additional retainer of \$7,500 per year and the Chairperson of the Audit Committee receives an additional retainer of \$10,000 per year.

As Presiding Director of the Board, Mr. Borelli receives an annual retainer of \$50,000, reduced from \$200,000 effective March 2, 2005.

Each Non-Management Director also receives, as consideration for services rendered as a member of the Board, stock-based compensation under the Interpublic Non-Management Directors' Stock Incentive Plan, which was approved by the stockholders in 2004 (the "Non-Management Directors' Plan") and replaced the Outside Directors Stock Incentive Plan (the "Outside Directors' Plan"). The Non-Management Directors' Plan to provide for an annual grant to each Non-Management Director of (i) 800 shares of Interpublic Common Stock that are not subject to transfer restrictions or forfeiture (the "Freely Tradeable Shares") and (ii) at the election of each Non-Management Director, either (a) 1,600 restricted shares of Interpublic Common Stock ("Restricted Shares") or (b) 1,600 restricted share units ("Share Units"). The Non-Management Directors' Plan provides that the grants would be made each January, commencing with the year 2005, while the Non-Management Directors' Plan remains in effect. With respect to the Restricted Shares, the recipient has all rights of ownership, including the right to vote and to receive dividends, except that, prior to the expiration of a three-year period after the date of grant (the "Restricted Period"), the recipient is prohibited from selling or otherwise transferring the shares.

With respect to the Share Units, and subject to the expiration of Restricted Period, each recipient has the right to receive at the time such recipient's service as a director terminates, a cash payment in an amount equal to the fair market value of the corresponding number of shares of Common Stock. At the discretion of the Corporate Governance Committee the Share Units balance of a Non-Management Director may be credited with additional Share Units corresponding to any dividends that are paid from time on the Common Stock. If, on or after the first anniversary of the grant of the Restricted Shares or the Share Units, as applicable, the recipient's service as a director terminates for any reason (including death) during the Restricted Period, the respective restrictions will lapse immediately in proportion that the number of months that have elapsed since the date of grant bears to the total number of months of the Restricted Period, and the remainder of such Restricted Shares or the remaining value of the Restricted Units, as applicable, will be forfeited. If the recipient's service as a director terminates for any reason (including death) before the first anniversary of the date of grant, all such Restricted Shares and Share Units, as applicable, will be forfeited. The Corporate Governance Committee, which is responsible for the administration of the Non-Management Directors' Plan, may in its discretion direct Interpublic to make cash payments to the recipient of Restricted Shares to assist in satisfying the federal income tax liability with respect to the receipt or vesting of the Restricted Shares.

On March 9, 2004, in accordance with the Outside Directors' Plan, each of Ms. Considine and Messrs. Borelli, Brack, Goldstein, Greeniaus, Roth and Samper received a grant of 800 Freely-Tradeable Shares of Common Stock and a grant of 1,600 Restricted Shares. On January 5, 2005, in accordance with the Non-Management Directors' Plan, each of Ms. Considine and Messrs. Borelli, Brack, Goldstein, Greeniaus, Samper and Thomas received a grant of 800 Freely-Tradeable Shares and 1,600 Restricted Shares.

Mr. Goldstein and Ms. Considine each has an agreement with Interpublic for the deferral of all fees that the individual is entitled to receive as a director or as a member of any committee of the Board of Directors. The amounts deferred earn credits equivalent to interest in accordance with the terms of Interpublic's Plan for Credits Equivalent to Interest on Balances of Deferred Compensation Owing under Employment Agreements. Payments of the amounts deferred, together with accrued interest, will be made to the director, or his or her designated beneficiaries as the case may be, in a lump-sum upon the director's death, disability or retirement from the Board.

Each Non-Management Director who, as of December 31, 1995, had accumulated at least five years of service is entitled to receive an annual retirement benefit under the Interpublic Outside Directors' Pension Plan (the "Outside Directors' Pension Plan"). In general, the benefit becomes payable in the month following the month the director leaves the Board. The benefit is equal to the amount of the annual retainer paid to the director as a Board member in the year in which he or she ceased to serve as a director and will be paid for the same number of years as the director's years of service, up to a maximum of 15 years. In the event of the death of a director with a vested retirement benefit, the then present value of the director's unpaid retirement benefits will be paid to the surviving spouse or the estate of the director. Effective December 31, 1995, the Outside Directors' Pension Plan was terminated, except to the extent benefits were accrued prior to termination. As a result there have been no further accruals for the benefit of existing directors under the Outside Directors' Pension Plan for subsequent years. Any director with fewer than five years of service on the date that the Plan was terminated will not receive any benefits under the Plan. Mr. Samper is the only current director entitled to receive benefits under the Outside Directors Pension Plan.

CODE OF CONDUCT

Interpublic has adopted a code of ethics, known as the Code of Conduct, which applies to all employees of Interpublic and its subsidiaries and affiliates. Interpublic's Corporate Governance Guidelines provide that members of the Board of Directors and officers (which includes Interpublic's Chief Executive

Officer, Chief Financial Officer, Controller and other persons performing similar functions) must comply with the Code of Conduct. In addition, the Corporate Governance Guidelines state that the Board will not waive any provision of the Code of Conduct for any Director or executive officer. The Code of Conduct, including future amendments, is available free of charge on Interpublic's website at <http://www.interpublic.com> or by writing to The Interpublic Group of Companies, Inc., 1114 Avenue of the Americas, New York, NY 10036, Attention: Secretary.

Deferred Benefit Arrangements

Bell Deferred Compensation Arrangement

Mr. Bell is a participant in the True North Communications Inc. Deferred Compensation Plan, which provides that if he dies while he is employed by Interpublic, his beneficiaries will receive \$60,000 annually for 15 years. In addition, upon Mr. Bell s retirement at any age or the termination of his employment Interpublic will pay him (or in the event of his death, his beneficiaries) \$60,000 per year for 15 years.

Special Deferred Benefit Agreements

Each of the following named executive officers has entered into special deferred benefit agreements with Interpublic as described below.

In 2003, Mr. Bell entered into an agreement with Interpublic which provides that if he dies while he is employed by Interpublic \$232,500 per year will be paid to his beneficiaries for 15 years following his death. In addition, if he retires, resigns or is no longer in the employment of Interpublic (other than by reason of his death) on or after his 68th birthday, but before his 69th birthday, he will receive payments of \$204,600 per year for a period of 15 years, and if he retires, resigns or is no longer in the employment of Interpublic (other than by reason of his death) on or after his 69th birthday, he will receive payments of \$232,500 per year for a period of 15 years. If he ceases to be employed by Interpublic prior to his 68th birthday for any reason other than his

death, he will receive a lump sum payment of \$150,000 for each full year (and a pro-rata portion for each partial year) that he was employed by Interpublic beginning from the date he entered into the agreement.

After Mr. Bell's employment terminates, if he were to die before all applicable payments were made under the agreement, Interpublic would make the remaining payments to his beneficiaries.

Mr. Dooner is a party to three agreements which in the aggregate provide that if he dies while he is employed by Interpublic \$2,186,000 per year will be paid to his beneficiaries for 15 years following his death. In addition, if Mr. Dooner's employment is terminated due to him becoming disabled \$2,186,000 per year will be paid to him for 15 years following such termination. Alternatively, if he retires, resigns or is otherwise no longer in the employment of Interpublic (other than by reason of his death) he will receive payments for 15 years ranging from \$930,200 to \$2,186,000 per year, depending upon the year his employment terminates. Mr. Dooner is a party to a fourth agreement that provides that if he dies while he is employed by Interpublic, \$240,000 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, if he retires, resigns or is otherwise no longer in the employment of Interpublic (other than by reason of his death) on or after his 56th birthday he will receive payments for 15 years ranging from \$153,600 to \$240,000 per year, depending upon the year his employment terminates. In the event Mr. Dooner's employment terminates prior to his 56th birthday (other than by reason of death), he will be paid lesser sums but not less than an aggregate of \$700,000. Interpublic also has entered into an agreement with Mr. Dooner which provides that (i) if he dies while he is employed by Interpublic, his beneficiaries will receive \$88,500 annually for 15 years, (ii) if his employment is terminated due to him becoming disabled, \$88,500 per year will be paid to him for 15 years following such termination or (iii) upon his retirement he will receive retirement benefits at the rate of \$88,500 per year for 15 years.

After Mr. Dooner's employment terminates, if he were to die before all applicable payments were made under these agreements, Interpublic would make the remaining payments to his beneficiaries.

Mr. Coughlin is a party to an agreement with Interpublic that provides if he dies while employed by Interpublic, his beneficiaries will be paid \$200,000 per year for 15 years. If he retires from employment with Interpublic on or after his 60th birthday, Interpublic will make payments to him for 15 years of \$200,000 per year, and if he retires, resigns or is terminated from employment with Interpublic on or after his 59th birthday but prior to his 60th birthday, he will receive payments for 15 years of \$176,000 per year. If he ceased to be employed by Interpublic (other than by reason of death) prior to his 59th birthday, he will receive lesser sums but not less than \$75,000. If his employment is terminated prior to June 16, 2005 (other than for cause or voluntary resignation), then in addition to any other payments to which he would be entitled under the agreement he would receive an annuity payment of \$50,000 per year for 15 years commencing on his 60th birthday.

Mr. Coughlin's employment with Interpublic was terminated on December 31, 2004. In accordance with the terms of his agreement with Interpublic described in the previous paragraph, Mr. Coughlin will receive \$168,548 to be paid in 21 equal monthly installments.

Termination and Change in Control Agreements

Christopher Coughlin Separation Agreement

Effective December 31, 2004, Mr. Coughlin resigned from all positions that he held at Interpublic and its subsidiaries. In connection with his resignation, Mr. Coughlin entered into a Confidential Separation Agreement and General Release with Interpublic (the Separation Agreement).

The Separation Agreement provided that Mr. Coughlin would remain eligible for his annual bonus under the Interpublic Annual Management Incentive Plan and to defer amounts under his Special Deferred Benefit Agreement described above under the heading Deferred Benefit Arrangements Special Deferred Benefit Agreements.

In addition, the Separation Agreement accelerated the vesting of 50,000 stock options (25% of the 200,000 stock options granted to Mr. Coughlin upon the commencement of his employment by Interpublic) and allowed the accelerated options to remain exercisable for a 90-day period following December 31, 2004. The balance of these options were forfeited.

Executive Severance Agreements

Interpublic has entered into an agreement with each of the named executive officers, other than Mr. Bell, pursuant to which a cash severance payment would become payable to the executive individual if, within two years after a change of control, (i) the executive's employment is terminated by Interpublic other than for cause or (ii) the executive resigns for good reason.

The agreements provide that a change of control occurs if: (a) any person, other than Interpublic or any of its subsidiaries, becomes the beneficial owner (within the meaning of Rule 13d-3 of the Securities Exchange Act of 1934, as amended) of 30% or more of the combined voting power of Interpublic's then outstanding voting securities; (b) the stockholders approve an agreement to merge or consolidate with another corporation (other than a subsidiary of Interpublic) or an agreement to sell or dispose of all or substantially all of the business or assets of Interpublic; or (c) during any period of two consecutive years, individuals who, at the beginning of such period, constituted the Board of Directors cease for any reason to constitute at least a majority thereof, unless the election or the nomination for election by Interpublic's stockholders of each new director was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of the period.

Under the agreements, Interpublic shall have cause to terminate an executive, following a change of control, if the executive: (a) engages in conduct that constitutes a felony and that results in the personal enrichment of the executive at Interpublic's expense; (b) refuses to substantially perform his responsibilities for Interpublic; or (c) deliberately and materially breaches any agreement between himself and Interpublic and fails to remedy that breach within a 30-day cure period. An executive may resign for good reason following a change in control if, without his consent, in any circumstance other than his disability, his office in Interpublic or the geographical area of his employment should be changed or his compensation should not continue to be paid and increased on the same basis as had been in effect prior to the change of control or the individual should determine in good faith that Interpublic had, without his consent, effected a significant change in his status within, or the nature or scope of his duties or responsibilities with, Interpublic and Interpublic failed to cure such situation within 30 days after written notice from the individual.

The severance payment to which an executive, other than Messrs. Cyprus and Gatfield, would be entitled is equal to three times the individual's average annual compensation during the two calendar years ended prior to the date of a change of control. Messrs. Cyprus and Gatfield are entitled to receive two times such executive's average annual compensation. In addition, each executive is entitled to receive a partial annual bonus based on the most recent bonus paid to such executive within the two years preceding the year such executive is terminated prorated for the elapsed portion of the year in which employment terminated. In general, if no bonus was paid to an executive in such prior years, such executive would be entitled to a pro rata bonus based on the greater of the last bonus actually awarded to such executive and the target bonus award established for such executive. The average compensation used in calculating the severance payment would be the executive's taxable compensation plus any deferred compensation accrued during the two relevant years, but would not include any deferred compensation earned in prior years but paid during the two years and would not include any taxable compensation relating to any stock option or restricted stock plan of Interpublic.

Each agreement also provides that if the executive's employment terminates in circumstances entitling him to a severance payment, he will, for a period of 18 months following the termination of his

employment, neither (a) solicit any employee of Interpublic or any of its subsidiaries to leave such employ to enter into the employ of the individual, or any person or entity with which the individual is associated, nor (b) solicit or handle, on his own behalf or on behalf of any person or entity with which he is associated, the advertising, public relations, sales promotion or market research business of any advertiser which was a client of Interpublic or any of its subsidiaries on the date the individual's employment terminates.

The agreements give the executive an option to limit payment under the agreements to such sum as would avoid subjecting the individual to the excise tax imposed by Section 4999 of the Internal Revenue Code.

Also under the severance agreements, sums previously deferred by the executive pursuant to employment agreements and under the Management Incentive Compensation Plans and amounts payable under Special Deferred Benefit Agreements would become payable within 30 days following a change of control if the individual has elected to receive the distribution prior to the change of control.

In accordance with the terms of the Separation Agreement between Mr. Coughlin and Interpublic, Mr. Coughlin's Executive Severance Agreement was terminated, effective December 31, 2004.

The Interpublic Senior Executive Retirement Income Plan

Effective as of August 1, 2003, Interpublic established a Senior Executive Retirement Income Plan (SERIP) to provide U.S.-based senior executives of Interpublic and its subsidiaries with certain retirement benefits. This new plan is intended to replace Interpublic's prior program of providing Special Deferred Benefit Agreements to key executives selected by the Compensation Committee. In general, under the SERIP, Interpublic will provide an eligible participant with a monthly payment for 15 years beginning upon the termination of the executive's employment at age of 60 and after any non-competition and non-solicitation agreements of the executive have expired. However, a participant who is at least age 55 and who has completed at least five years of participation in the SERIP may elect to receive a reduced benefit. Each participant must execute a Participation Agreement that provides for the amount of the annual benefit to be paid. Generally, at the end of three years of participation in the SERIP, 30% of the annual benefit is vested, with the vested portion increasing by 10% for the next seven years. However, if the executive breaches a non-competition or non-solicitation agreement, the executive's entire vested benefit is subject to forfeiture. Any participant who is a party to a Special Deferred Benefit Agreement at the time the participant begins to participate in the SERIP is deemed to have participated in the SERIP for up to three years. Any portion of a participant's benefit that is not vested will be forfeited upon termination of employment.

An executive who becomes disabled will continue to participate fully in the SERIP until the executive's employment terminates. If an executive dies before his benefit is fully vested, the participant's beneficiaries will be entitled to only the vested portion of the benefit.

Of the named executive officers, only Mr. Gatfield participates in the SERIP. Under his Participation Agreement, Mr. Gatfield will be entitled to receive an annual payment of \$200,000 per year. This benefit will become fully vested on April 14, 2014.

The Interpublic Capital Accumulation Plan

Effective as of August 1, 2003, Interpublic established a Capital Accumulation Plan (CAP) to provide deferred compensation to senior management employees of Interpublic and its subsidiaries selected by the Management Human Resources Committee (the Committee). This new plan is intended to replace Interpublic's prior program of providing Special Deferred Benefit Agreements to key executives. Under the plan, a participant receives an annual credit of a specified dollar amount on December 31 of each year that the participant continues to be employed by Interpublic. The credited

amount accrues interest each year at an applicable interest rate which can be adjusted upward or downward at the discretion of the Committee. This account balance becomes fully vested as to both prior and future dollar and interest credits when the executive has completed three years of participation in the CAP, except that all interest credits are subject to forfeiture if the executive breaches a non-competition or non-solicitation agreement. Any portion of a participant's benefit that is not vested will be forfeited upon termination of employment.

The vested account balance will be distributed following termination of employment with Interpublic and its subsidiaries and the expiration of any non-competition and non-solicitation agreements of the executive at such time as the executive shall elect. Unless otherwise specified by the participant, the vested account balance will be paid by Interpublic in a lump sum payment. Alternatively, a participant whose employment terminates after age 55 and who has completed at least five years of participation in the CAP may elect a distribution in monthly installment over a period of between 10 and 15 years. Each participant must execute a Participation Agreement that specifies for the amount of the annual credit. An executive who becomes disabled will continue to participate fully in the CAP until the executive's employment terminates. An executive who dies before his account balance is vested will forfeit the entire account balance.

Of the named executive officers, only Messrs. Cyprus and Roth participate in the CAP. Under Mr. Cyprus's Participation Agreement, he is entitled to an annual credit of \$80,000 and his account balance will fully vest on May 15, 2007. Under Mr. Roth's Participation Agreement, he is entitled to an annual credit of \$100,000 and his account balance will fully vest on May 15, 2007. During 2004, interest was credited at the rate of 4.25%.

Retirement Plan

As of January 1, 1992, Interpublic adopted the Interpublic Retirement Account Plan to provide benefits under a cash balance formula to employees of Interpublic and most of its domestic subsidiaries who have at least five years of service. Each year a participant's account balance is credited with an amount equal to a percentage of the participant's annual compensation and interest credits. The percentage of annual compensation varies based on the sum of the participant's age and years of service from 1.5% for participants with a sum less than 40 years to 5% for participants with a sum of 80 or more years. Interest credits are based on the 1-year U.S. Treasury bill rate plus 1 percentage point, compounded quarterly, and are guaranteed to be at least 5% per year, compounded quarterly.

Until July 31, 1987, employees of Interpublic and most of its domestic subsidiaries were entitled in general to receive at retirement a monthly retirement benefit pursuant to a defined benefit pension formula computed as a percentage of average monthly compensation during the five consecutive calendar years with highest compensation with certain exclusions. The percentage of average monthly compensation used to calculate the monthly benefit was determined by multiplying the number of years of accredited service (which is defined in the Plan as the period of participation in the Plan) by 1.3%.

Beginning July 31, 1987, the method of calculating the pension benefit was changed to a career average formula based on annual compensation. The percentage of annual compensation used to calculate the benefit was 1% of each year's compensation up to \$15,000 plus 1.3% of any compensation in excess of that amount.

Participants under the defined benefit pension formula on December 31, 1991, had their normal retirement benefit converted on an actuarial basis into an opening cash balance as of January 1, 1992. In addition, participants continued to accrue benefits pursuant to the career average formula and became eligible to receive upon retirement the higher of (1) the participant's benefit under the cash balance formula or (2) the participant's accrued retirement benefit under the career average formula as of December 31, 1991, plus any accrual after that date calculated pursuant to the career average formula.

Employees joining Interpublic after December 31, 1991, were eligible to accrue benefits only under the cash balance formula.

With certain minor exceptions, compensation under the career average formula as well as the cash balance formula includes all compensation subject to federal income tax withholding. Annual compensation for pension accruals since December 31, 1988 has been limited by federal tax law.

As of March 31, 1998, Interpublic froze benefit accruals under the Interpublic Retirement Account Plan and participants whose benefits were not already vested became fully vested as of April 1, 1998. Retirement account balances as of that date will continue to be credited with interest until benefits begin in accordance with the generally applicable Plan provisions, but additional Company allocations have been discontinued as of March 31, 1998.

Effective April 1, 1998, employees with five or more years of Retirement Account Plan participation began to participate in a new Compensation Plan. Under the New Compensation Plan, an account is established for each eligible employee and credited with up to ten annual allocations depending on the employee's years of participation in the Retirement Account Plan. Each annual allocation approximates the discontinued allocations under the Retirement Account Plan. In general, the balance in each employee's account begins to vest gradually after five years of participation in the new Compensation Plan. Payouts generally are made while the employee is still employed by Interpublic or one of its subsidiaries.

Mr. Dooner is the only eligible participant in both the Retirement Account Plan and the New Compensation Plan. The estimated annual retirement benefit that Mr. Dooner would receive at the normal retirement age of 65 years old, payable as a straight life annuity under the Interpublic Retirement Account Plan is \$62,185. Alternatively, Mr. Dooner could take the benefit as a lump sum estimated at \$740,292.

Under the New Compensation Plan, Mr. Dooner will receive, prior to normal retirement age, a total distribution in the amount of \$108,500.

Messrs. Bell, Coughlin, Cyprus Gatfield and Roth each were hired by Interpublic after the Retirement Age Account Plan was frozen and accordingly is not entitled to receive any benefits under the Interpublic Retirement Account Plan or the New Compensation Plan.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

Compensation Governance

As the Compensation Committee, we are responsible for approving compensation awarded to senior corporate and operating executives, including the named executive officers, and authorizing all awards under Interpublic's 2004 Performance Incentive Plan. We operate under a written charter adopted by the Board of Directors and available on Interpublic's web site, and comprise three non-employee directors in accordance with the Committee's Charter. Each Committee member qualifies as an independent director as defined by the New York Stock Exchange listing standards, a non-employee director under Rule 16b-3 under the Securities Exchange Act of 1934 and an outside director under Section 162(m) of the Internal Revenue Code.

As a Committee, we approve policies under which compensation is paid or awarded to Interpublic's executives, and individually review the performance and compensation levels of, and all compensation actions pertaining to, Interpublic's senior executive group, including the Chairman and Chief Executive Officer. Annually, we evaluate and revise, as necessary, the Company's compensation philosophy and approaches, including the fixed and variable elements of total compensation, and the design of incentive compensation programs.

During 2004, we engaged Hewitt Associates to provide independent counsel to the Committee and Board on executive compensation and talent management matters, both generally and specific to our industry. Hewitt Associates' selection was the result of a review of proposals from three highly-regarded firms, and represented a change from prior consulting relationships. We will assess this relationship annually.

Working with the Committee and management, Hewitt Associates provided valuable input to the Committee in the form of latest trends and policies noted in other world-class compensation committees and has provided independent perspectives on a wide variety of talent-related topics. Early in 2005, we completed a self-assessment of the Committee's capabilities and performance and we intend to repeat this process annually.

Policy on Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits to \$1 million the tax deduction for compensation paid to the executive officers listed in the Summary Compensation Table on page 15 (the "named executive officers"). Compensation in excess of \$1 million is deductible only if requirements are met that qualify the compensation as performance-based. Our policy is to comply with the requirements of Section 162(m) except where we determine that compliance is not in the best interests of the Company and its shareowners. The Company's stock option grants currently meet the performance-based requirements under Section 162(m). The Company's 2004 restricted stock grants do not meet the performance-based requirements under Section 162(m).

The February 2005 grant of performance-based restricted shares, discussed below, to Mr. Roth exceeded the individual award limit under the 2004 Performance Incentive Plan, resulting in a portion of this award being non-tax deductible under 162(m). The Committee nevertheless concluded that this award was appropriate in light of Mr. Roth's promotion, the degree of stretch inherent in the related performance objectives, and its preference for using performance-based restricted shares rather than time-vested restricted stock.

Compensation Philosophy

The Company's executive compensation programs have been designed to attract, retain and motivate the executive resources necessary to Interpublic's long-term success and the creation of shareholder value. In evaluating and administering Interpublic's executive compensation program, we are guided by three key principles:

- **Alignment with shareholders:** Compensation should align the interests of executives and shareholders through the use of equity-based compensation and performance-based awards.
- **Performance-based:** Compensation should emphasize pay-for-performance by placing a significant portion of total compensation at risk, the payout of which is tied to the financial performance of the Company and the achievement of other critical objectives.
- **Market-based:** Total compensation levels should be competitive with those at other advertising and marketing service companies, and within other relevant executive labor markets as appropriate.

We find it is more appropriate to compare our compensation programs to those of competitors for talent, rather than limit our focus to the companies that make up the Peer Group used in the Stock Performance Graph on page 35. Important to this consideration is the limited amount of competitive pay data available for Interpublic's direct competitors and the fact that, for some positions, the Company competes for executive talent within a broader labor market.

The Company's overall compensation program comprises three principal elements: base salary, annual incentives, and long-term incentives that include stock options and restricted stock awards. An overview of each of the major compensation program elements follows.

Base Salary

Each year, we determine the base salaries for the Chairman and Chief Executive Officer, senior executive officers reporting to the Chief Executive Officer, and selected other senior executive positions. We consider several quantitative and qualitative factors when determining base salaries, including the executive's individual performance, level of responsibility, tenure, prior experience, and a comparison to base salaries paid for comparable positions within the Company and multiple compensation survey groups comprising comparably-sized advertising, marketing, and general service industry companies with similar client focus and talent strategies. For many of the senior executives, salary is fixed by contract, which Interpublic has the ability to increase, but not decrease.

For 2004, base salaries for Named Executive Officers were not increased.

Annual Incentives

Annual incentive awards to senior executives are made under the shareholder-approved 2004 Performance Incentive Plan (the 2004 PIP). For purposes of bonus awards, the executive officers of Interpublic participate in the Interpublic corporate bonus pool, unless they are affiliated with one of Interpublic's operating units, in which case they participate in that operating subsidiary's bonus pool. The 2004 PIP limits the bonus amount that may be earned by any one individual to \$5 million. For named executive officers, awards are earned under Committee-approved formulas that meet the requirements for tax deductibility under Section 162(m) of the Internal Revenue Code, and we retain the right to exercise negative discretion and reduce the bonus amount based on our further assessment of performance for the previous calendar year.

The size of 2004 bonus pool for corporate and the operating units reflected each unit's specific operating results and progress toward improving future operating performance.

Long-Term Incentives

Long-term incentive awards are made under the 2004 PIP. In 2004, we approved grants of stock options and/or restricted stock to officers and key employees of Interpublic and its subsidiaries. Such awards are designed to focus the recipients on the long-term performance of Interpublic and align their interests with our shareholders.

Beginning in 2004, the Company has significantly shifted the long-term incentive mix away from stock options toward restricted stock and also dramatically reduced the number of stock option recipients. This shift was in response to labor market trends, changes in stock option accounting requirements that take affect in 2005, and our assessment of the appropriateness and effectiveness of the respective types of award for different employee groups. We intend to introduce performance-based stock awards for senior executives in 2005.

Stock options, when granted are on such terms as are approved by our Committee, provided that the term of the option may not exceed ten years and the exercise price may not be less than the fair market price of the Common Stock on the date of grant. The majority of stock options granted in 2004, and all stock options granted to executive officers in 2004, vest in increments of one-third on the second, third and fourth anniversaries of the date of grant. Grants to the named executive officers are shown in the Option Grant Table on page 18.

The sale or transfer of shares granted as restricted stock are typically restricted for a period of three years from date of grant and are generally forfeited if the executive should leave the employment of Interpublic before the restrictions expire, unless we as a Committee determine otherwise.

In determining grants of stock options and restricted stock, we consider each executive's current total compensation, recent performance, expected future contributions and impact on shareholder value, equity grant history, and potential retention risk; competitive need to provide equity-based compensation to a given position; and Interpublic's financial performance. We also review outside survey data that describe the equity grant practices within Interpublic's relevant labor markets.

Other Programs

The Company also provides its officers and key managers with life and medical insurance, retirement savings and compensation deferral programs, perquisites, and other benefits that are competitive with market practices (disclosed on pages 21 through 29 of this proxy statement). As part of our review of senior executive compensation, we assess the appropriateness of these plans and the level of participation annually.

CEO and Chairman Compensation and Evaluation

For 2004, we elected not to adjust Mr. Bell's salary and it remained at \$1,000,000 for the year. After considering the Company's 2004 financial performance, including reviewing performance relative to Earnings per Share (EPS) and revenue objectives, we decided not to grant Mr. Bell an annual incentive award for 2004.

In May 2004, we awarded Mr. Bell 124,466 shares of restricted stock, which vest in full three years after the grant date. In addition, the Committee awarded Mr. Bell 248,933 stock options with an exercise price of \$14.06, based on the average of the high and low market prices of Interpublic Common Stock on the May 18, 2004 grant date. These stock options become exercisable in increments of one-third on the second, third and fourth anniversaries of the date of grant.

As a result of these compensation actions, we believe Mr. Bell's total compensation was appropriate to his role and performance relative to external market practices and the compensation levels for similar positions at other like-sized advertising, marketing and service companies. We also believe these actions ensured that his total compensation would have the appropriate level of performance sensitivity.

Michael I. Roth was named Chairman of Interpublic on July 13, 2004. After considering data and counsel from Hewitt Associates related to appropriate pay levels and form to non-CEO Chairmen in other publicly-held companies, and Mr. Roth's compensation relative to Mr. Bell's as CEO, we approved an employment agreement with Mr. Roth that set his base salary at \$950,000, provided him with a \$100,000 annual contribution to a Capital Accumulation Account, granted him 161,974 stock options with an exercise price equal to the then current fair market price for Interpublic stock and vesting in equal parts on the second, third and fourth anniversaries of their grant, and granted 80,987 shares of restricted stock that vest on the third anniversary of their grant. In addition, after considering the Company's 2004 financial performance, including reviewing performance relative to Earnings per Share (EPS) and revenue objectives, we decided not to grant Mr. Roth an annual incentive award for 2004.

On January 19, 2005, Mr. Roth was promoted to Chairman and Chief Executive Officer of the Company. In conjunction with this promotion, we, with the support of all non-employee directors of the Company, approved several amendments to his employment agreement. These pay-related actions were based on an assessment of competitive data for CEOs of comparable companies, advice from Hewitt Associates, and consideration of the Company's ongoing priorities and desired results and consisted of the following:

- An increase in Mr. Roth's annual base salary from \$950,000 to \$1,100,000, effective January 19, 2005.
- A grant of options (the "Options") to purchase 450,000 shares of Interpublic Common Stock at an exercise price of \$13.645 per share, based on the average of the high and low market prices of Interpublic Common Stock on the February 14, 2005 grant date. The Options will vest and become exercisable in three equal annual installments of 150,000 on the second, third and fourth anniversaries of the grant date, subject to Mr. Roth's continued employment with Interpublic through the applicable vesting date, and will vest automatically on a change of control of Interpublic in accordance with the terms of the 2004 PIP. On any termination of Mr. Roth's employment with Interpublic, any unvested Options will be forfeited.
- A grant of 450,000 performance based restricted shares (the "Restricted Shares") under the 2004 PIP. At grant, the Restricted Shares had an aggregate value of \$6,120,000 and a risk-adjusted value of \$4,500,000. The Restricted Shares will only vest if certain performance conditions are met (subject to accelerated vesting of a portion of the Restricted Shares on a change of control of Interpublic, as described below). In particular:
 - 150,000 of the Restricted Shares will vest on the second anniversary of the grant date, subject to Mr. Roth's continued employment with Interpublic through such date, if: (1) Interpublic attains cumulative constant dollar revenue reflecting average annual growth of 4.5% or better in 2005-2006; (2) in 2006, Interpublic's growth equals or exceeds 5%; and (3) Interpublic's average operating margins during 2005 and 2006 are at 10.5% or higher. In the event these performance targets are not achieved, these restricted shares are forfeited.
 - 300,000 of the Restricted Shares will vest on the fifth anniversary of the grant date, subject to Mr. Roth's continued employment with Interpublic through such date, if: (1) Interpublic's average constant-dollar revenue growth for the 2007-2009 period is 6.3% or higher; (2) during 2009, constant dollar revenue growth is at least 7%; (3) Interpublic's average operating margins during the period from 2007-2009 are at 14.7% or higher; (4) cumulative constant dollar revenue during the period from 2005-2010 is \$35.6 billion or greater; and (5) cumulative operating income during the period from 2005-2010 is \$4.7 billion or greater. In the event these performance targets are not achieved, these restricted shares are forfeited.

The Board of Directors of Interpublic retains discretion to make adjustments to the performance goals in the event of extraordinary corporate events, such as acquisitions or divestitures.

If Mr. Roth's employment terminates for any reason prior to the vesting of the Restricted Shares, the unvested Restricted Shares will be forfeited. A pro rata portion of any unvested portion of the Restricted Shares will vest in the event of a change of control of Interpublic, as such term is defined in Mr. Roth's executive severance agreement described in greater detail on page 26 of this proxy statement. The pro-rata portion will be determined based on a fraction the numerator of which will equal the number of months elapsed since the grant date plus 12 and the denominator equal to 60.

Executive Compensation for 2005

For 2005, we expanded on the three key principles articulated early in this report. These expanded principles provide direction related to the Company's general people-related practices, compensation approaches for the executive and broad employee populations, and talent management, including, but not limited to, succession planning, employee and leadership development.

Following our original three and this expanded set of principles, we have redesigned the Company's senior executive annual incentive program to increase its link to performance against the Company and its units' key financial and strategic objectives by providing individual incentive payouts directly tied to the achievement of pre-established performance goals set at the beginning of the plan year and approved by the Committee. Specifically, annual incentive awards for senior executives will be based on the achievement of pre-defined operating income, operating margin, and other measurable individual performance goals. We believe these goals serve to focus executives on the factors that are critical to the future success and financial health of the Company.

In addition, 2005 long-term incentive awards will be delivered in the form of stock options, restricted stock and/or performance-based stock, the grant of which is contingent on the Company or unit's attainment of pre-established multi-year performance goals. Generally, stock options will vest in increments of one-third on the second, third and fourth anniversaries of the date of grant. Restricted stock grants vest fully on the third anniversary of the date of grant and performance-based stock grants will be tied to the attainment of three-year operating margin and revenue growth goals of the unit and may vary from 0% to 200% of target award levels based on performance.

We approved the revised long-term incentive design to reinforce the achievement of critical performance priorities of the Company, improve the performance-orientation of executive total compensation, better align management and shareholder interests, and facilitate executive stock ownership. Stock option grants and performance-based restricted stock grants made in 2005 and beyond are intended to comply with Section 162(m) consistent with the Committee's policy stated above.

Conclusion

Attracting, motivating and retaining talented employees and managers is central to our mission of increasing long-term shareholder value. Aligning our executives' interests to our shareholders, making certain that compensation is linked to performance, and ensuring that executive compensation is competitive within the source markets for the Company's talent are our objectives and the cornerstones of our methodology. We believe that Interpublic's 2004 executive compensation program met these objectives.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) requires Interpublic's directors and executive officers, and persons who beneficially own more than 10 percent of a registered class of Interpublic's equity securities, to file with the SEC and the NYSE initial reports of beneficial ownership and reports of changes in beneficial ownership of Interpublic's equity securities.

To Interpublic's knowledge, based upon the reports filed or written statements that no such reports were required to be filed, during the fiscal year ended December 31, 2004, none of Interpublic's directors or executive officers failed to file on a timely basis reports required by Section 16(a) of the Exchange Act.

Related Party Transactions

Since January 1, 2004, a brother of Christopher J. Coughlin, who resigned as Chief Financial Officer of Interpublic as of December 31, 2004, was employed by a subsidiary of Interpublic at an annual salary of \$250,000.

2. ADOPTION OF THE INTERPUBLIC GROUP OF COMPANIES EMPLOYEE STOCK PURCHASE PLAN (2006)

At the 1995 Annual Meeting, the stockholders approved the adoption of the Employee Stock Purchase Plan (1995) of the Company (the 1995 Plan). Under the 1995 Plan, employees of the Company and its subsidiaries, including officers and those directors who were employees of the Company have been entitled to purchase shares of Interpublic Common Stock of the Company at a 15% discount from the market price on the date of purchase and without payment of a commission. Subject to stockholder approval, the Company's Board of Directors on October 17, 2005 approved the establishment of an Interpublic Group of Companies Employee Stock Purchase Plan (2006) (the 2006 Plan) to replace the 1995 Plan which by its terms expired on June 30, 2005.

Description of the 2006 Plan

The following description of the 2006 Plan is qualified in its entirety by reference to the text thereof set forth in Appendix B.

Under the Plan, the Company, beginning January 1, 2006, may make offerings of shares of Interpublic Common Stock. Each offering will be approximately three months in duration, and one offering period may not overlap with another offering period under the Plan. An aggregate of 15,000,000 shares will be reserved for issuance under the Plan. An employee may not purchase more than 900 shares under any three-month offering.

An eligible employee may participate in an offering by authorizing payroll deductions of up to 10% of compensation during the offering period. Participants in the 2006 Plan will be offered Common Stock of the Company at a price per share equal to 90% of the lesser of the market price of a share on the offering date or the market price of a share on the last business day of the offering period, and without commission. All employees of the Company and certain of its subsidiaries will be eligible to participate in the 2006 Plan in accordance with such rules as may be prescribed from time to time by the Committee administering the 2006 Plan, which rules may neither permit nor deny participation in the 2006 Plan contrary to the requirements of the Internal Revenue Code or IRS regulations. No employee is entitled to purchase shares under the 2006 Plan if, after giving effect to a purchase right, the employee owns or is entitled to acquire 5% or more of the total combined voting power or value of all classes of stock of the Company and its subsidiaries. No employee is permitted to accrue the right to purchase stock under the 2006 Plan or any other stock purchase plan of the Company or its subsidiaries at a rate exceeding \$25,000 of the fair market value of the stock in any calendar year.

The Board of Directors may at any time, or from time to time, amend the 2006 Plan in any respect, except that without the approval of shareholders, the 2006 Plan may not be amended (i) to increase or decrease the number of shares of Interpublic Common Stock reserved for issuance under the 2006 Plan or (ii) decrease the purchase price per share of the Interpublic Common Stock sold under the 2006 Plan.

The 2006 Plan will terminate on December 31, 2015, or, if earlier, when all of the shares authorized for issuance under the 2006 Plan are sold or the Board of Directors in its discretion determines to terminate the 2006 Plan.

Management estimates that approximately 17,000 employees of the Company and its subsidiaries, including three directors who are employees of the Company or its subsidiaries and other officers of the Company, will be eligible to participate in the 2006 Plan. The benefits to be received from the 2006 Plan will depend on the extent to which employees elect to participate and, therefore, are not determinable.

U.S. Federal Income Tax Consequences

The 2006 Plan is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the Internal Revenue Code. For U.S. federal income tax purposes, an employee does not

realize income when the employee purchases shares under the Plan. If an employee disposes of shares purchased in an offering under the Plan more than two years after the date of the offering and more than one year after the date of purchase (the holding periods), the employee will realize ordinary income in the year of the disposition equal to the lesser of (a) the excess of the amount realized on the disposition over the purchase price or (b) 10% of the value of the shares on the date of the offering. Any additional gain that the employee realizes will be capital gain. If the employee does not dispose of the shares before the holding periods expire, the Company and its subsidiaries will not be entitled to a deduction in connection with the employee's purchase or disposition of the shares. If the employee disposes of the shares before the holding periods expire, the employee will realize ordinary income in the year of the disposition equal to the excess of the fair market value of the shares on the date of purchase over the price that the employee paid for the shares; any additional gain that the employee realizes will be capital gain, and the Company or a subsidiary generally will be entitled to deduct an amount equal to the ordinary income realized by the employee.

The affirmative vote of the majority of the shares of Common Stock present in person or by proxy and entitled to vote at the Annual Meeting is required to approve this proposal.

3. APPOINTMENT OF INDEPENDENT AUDITORS

PricewaterhouseCoopers has been appointed and is acting as independent auditors of Interpublic for 2004. This firm has been Interpublic's independent auditors since 1952. Interpublic is submitting to the vote of shareholders at the annual Meeting a proposal to confirm the appointment of PricewaterhouseCoopers LLP as independent auditors of Interpublic for the year 2005. Interpublic is submitting this proposal to you because the Board of Directors believes that such action follows sound corporate practice. If you do not confirm the appointment of independent auditors, the Board of Directors will consider it a direction to consider selecting other auditors for 2006. However, even if you confirm the appointment, the Board of Directors may still appoint new independent auditors at any time during 2005 if it believes that such a change would be in the best interests of Interpublic and its stockholders.

The text of the stockholder's proposal and supporting statement is as follows:

Text of Shareholder Proposal

Resolved that the shareholders of Interpublic Group of Companies, Inc. urge the Interpublic Group of Companies, Inc. Board of Directors to arrange for the prompt sale of Interpublic Group of Companies, Inc. to the highest bidder.

Supporting Statement

The purpose of the Maximize Value Resolution is to give all Interpublic Group of Companies, Inc. shareholders the opportunity to send a message to the Interpublic Group of Companies, Inc. Board that they support the prompt sale of Interpublic Group of Companies, Inc. to the highest bidder. I believe that a strong and or majority vote by the shareholders would indicate to the board the displeasure felt by the shareholders of the shareholder returns over many years and the drastic action that should be taken. Even if it is approved by the majority of the Interpublic Group of Companies, Inc. shares represented and entitled to vote at the annual meeting, the Maximize Value Resolution will not be binding on the Interpublic Group of Companies, Inc. Board. The proponent however believes that if this resolution receives substantial support from the shareholders, the board may choose to carry out the request set forth in the resolution:

The prompt auction of Interpublic Group of Companies, Inc. should be accomplished by any appropriate process the board chooses to adopt including a sale to the highest bidder whether in cash, stock or a combination of both.

The proponent further believes that if the resolution is adopted, the management and the board will interpret such adoption as a message from the company's stockholders that it is no longer acceptable for the board to continue with its current management plan and strategies.

I URGE YOUR SUPPORT, VOTE FOR THIS RESOLUTION

Interpublic's Statement in Opposition

The Board continuously reviews Interpublic's business to determine how to maximize value for the shareholders. The Board evaluate
