SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Fiscal Year ended December 31, 2005

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from _____ to _____

Commission File Number 001-15831

MCF CORPORATION

(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)
600 California Street, 9th Floor
San Francisco, CA
(Address of Principal Executive Offices)

11-2936371
(I.R.S. Employer
Identification No.)
94108
(Zip Code)

(415) 248-5600

(Registrant's Telephone Number, Including Area Code)

Securities Registered Pursuant to Section 12(b) of the Act:
Common Stock, \$0.0001 per share

Securities Registered Pursuant to Section 12(g) of the Act:
None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Edgar Filing: MCF CORP - Form 10-K

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the 66,890,503 shares of common stock of the Registrant issued and outstanding as of June 30, 2005, the last business day of the registrant's most recently completed second fiscal quarter, excluding 4,418,239 shares of common stock held by affiliates of the Registrant was \$80,937,509. This amount is based on the closing price of the common stock on the American Stock Exchange of \$1.21 per share on June 30, 2005.

The number of shares of Registrant's common stock outstanding as of February 15, 2006 was 71,547,178.

DOCUMENTS INCORPORATED BY REFERENCE

Part III of this Form 10-K incorporates by reference certain portions of the Registrant's proxy statement for its 2006 annual meeting of stockholders to be filed with the Commission not later than 120 days after the end of the fiscal year covered by this report.

This Form 10-K and the information incorporated by reference in this Form 10-K include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Some of the forward-looking statements can be identified by the use of forward-looking words such as believes, expects, may, will, should, seeks, approximately, intends, plans, estimates or anticipates or the negative of those words or other comparable terminology. Forward-looking statements involve risks and uncertainties. You should be aware that a number of important factors could cause our actual results to differ materially from those in the forward-looking statements. We will not necessarily update the information presented or incorporated by reference in this Form 10-K if any of these forward-looking statements turn out to be inaccurate. Risks affecting our business are described throughout this Form 10-K and especially in the section Risk Factors. This entire Form 10-K, including the consolidated financial statements and the notes and any other documents incorporated by reference into this Form 10-K should be read for a complete understanding of our business and the risks associated with that business.

PART I

ITEM 1. BUSINESS

General

MCF Corporation is a financial services holding company that provides investment research, capital markets services, corporate and venture services, investment banking, asset management and wealth management through its operating subsidiaries, Merriman Curhan Ford & Co., MCF Asset Management, LLC and MCF Wealth Management, LLC. We are focused on providing a full range of specialized and integrated services to institutional investors and corporate clients.

Merriman Curhan Ford & Co.

Merriman Curhan Ford & Co. is a securities broker-dealer and investment bank focused on fast growing companies and institutional investors. Our mission is to become a leader in the researching, advising, financing and trading of fast growing companies under \$2 billion in market capitalization. We provide investment research, brokerage and trading services primarily to institutions, as well as advisory and investment banking services to corporate clients. We are focused on providing a full range of specialized and integrated services, including:

- Equity Research
- Sales and Trading
- Specialized Trade Execution
- Market Making
- Equity Capital Markets
- Corporate and Venture Services
- Public Offerings
- Private Placements
- Debt Financing
- Mergers and Acquisitions
- Strategic Advisory Services

Merriman Curhan Ford & Co. is registered with the Securities and Exchange Commission as a broker-dealer and is a member of the National Association of Securities Dealers, Inc. and the Securities Investors Protection Corporation.

By the end of the 1990 s, many of the investment banks that previously served this niche were acquired by large commercial banks and subsequently refocused to serve larger clients and larger transactions. We are gaining market share by originating differentiated research for our institutional investor clients and providing specialized services for our fast-growing corporate clients.

Customer Base

The customer base of our brokerage business is primarily institutional, including mutual funds and hedge funds, as well as smaller, private investment firms and certain high net worth individuals. We believe this group of clients and potential clients to number over 4,000. We grew our business during 2005 by adding new, and increasing the penetration of existing institutional customers that use our equity research and trading services in their investment process. During 2005, we transacted brokerage business with 614 institutional customers, up from 599 in 2004, and the number of active institutional accounts increased sequentially each quarter during the year. During 2005, no single brokerage customer accounted for more than 10% of our revenue. We believe the number of active institutional accounts will continue to grow in 2006 based upon the expansion of our research coverage.

The customer base of our investment banking business consists of both private and publicly traded growth-oriented companies in selected market sectors. We estimate that there are over 5,000 publicly traded companies with market capitalization under \$1 billion. Many of the investment banks that previously served these clients have either been acquired by larger institutions and are focusing primarily on larger clients, or have disappeared altogether. During 2005, no single investment banking customer accounted for more than 10% of our revenue.

Capital Markets

We have derived the majority of our revenue from our capital markets activities. Our capital markets activities include institutional sales and trading, research and investment banking.

Institutional Sales and Trading

Merriman Curhan Ford & Co. focuses on providing research and sales and trading services to institutional investors in the United States. We execute securities transactions for institutional investors such as money managers, mutual funds, hedge funds, insurance companies, and pension and profit-sharing plans. Institutional investors normally purchase and sell securities in large quantities, which require the marketing and trading expertise that we provide.

We provide integrated research and trading solutions to try and help our institutional clients invest profitably, grow their portfolios and ultimately their businesses. We understand the importance of building long-term relationships with our clients who we believe look to us for the professional resources and relevant expertise to provide answers for their specific situations. We believe it is important for us to be involved with public companies early in their corporate life cycles and with private companies as they begin to reach their later stages prior to going public. We strive to provide unique investment opportunities in fast growing companies and to help our clients execute trades rapidly, efficiently and accurately.

Our sales professionals focus on communicating investment ideas to our clients and executing trades in securities of companies in our target growth sectors. By actively trading in these securities, we endeavor to couple the capital market information flow with the fundamental information flow provided by our analysts to get our clients favorable execution of investment strategies. Sales professionals work closely

with our research analysts to provide up-to-date information to our institutional clients. We interface actively with our clients and plan to be involved with our clients over the long term.

Our trading professionals facilitate liquidity discovery in equity securities. We make markets in NASDAQ and other securities, trade listed securities and service the trading desks of institutions in the United States. Our trading professionals have direct access to the major stock exchanges, including the New York Stock Exchange and the American Stock Exchange. We currently make markets in approximately 485 securities and were recently authorized to make markets in 900 over-the-counter securities.

Research

A key part of our strategy is to originate specialized and in-depth research. Our analysts cover a universe of approximately 150 companies in our focus industry sectors. We leverage the ideas generated by our research teams, using them to attract and retain institutional brokerage clients.

Supported by the firm's capital markets and trading capabilities, our analysts deliver timely recommendations to clients on innovative investment opportunities. In an effort to make money for our investor clients, our analysts are driven to find undiscovered opportunities in fast growing companies that are not widely held and that we believe are undervalued. Given the contrarian nature of many of our research ideas, we, as a firm, specialize in serving sophisticated, aggressive institutional investors.

Our research focuses on bottom-up, fundamental analysis of fast growing companies in selected growth sectors. Our analysts' expertise in these categories of companies, along with their intensive industry knowledge and contacts, provides us with the ability to deliver timely, accurate, and value-added information to our clients.

Our objective is to build long lasting relationships with our clients by providing investment recommendations that directly equate to enhanced performance of their portfolios. Further, given our approach and focus on quality service, we believe our research analysts are in a unique position to maintain close, ongoing communication with both our corporate and institutional clients. The industry sectors covered by our research analysts include:

Consumer

- Branded Consumer/Consumer Media
- Gaming
- Restaurants
- Retail and Apparel
- Specialty Retail

Energy and Industrial Technology

- Next-Generation Energy

Health Care

- Biotechnology
- Life Sciences

Technology

- Computer Hardware and Networking
- Cyber and Homeland Security
- Digital Consumer Semiconductors
- Internet Applications and Services
- Semiconductors and Semiconductor Capital Equipment
- Semiconductor Assembly and Test Outsourcing

Telecommunications

- Communications Technology
- Wireless Technology

We believe these sectors represent some of the fastest growing and most dynamically evolving industry and company opportunities in the market. We also believe there will be increasing demand for the products and services we offer and that this in turn will provide diversification opportunities for our business.

After initiating coverage on a company, our analysts seek to effectively communicate new developments to our sales force, trading department and institutional investors. We produce full-length research reports, notes and earnings estimates on the companies we cover. We also produce comprehensive industry sector reports. In addition, our analysts distribute written updates on these issuers both internally and to our clients through the use of daily morning meeting notes, real-time electronic mail and other forms of immediate communication. Our clients can also receive analyst comments through electronic media, and our sales force receives intra-day updates at meetings and through regular announcements of developments. All of the above is also available through a password protected searchable database of our daily and historical research archives, found on our Website at www.merrimanco.com/research.

Investment Banking

Our focus is to provide fast growing companies with the capital necessary to drive them to the next level of growth. This capital is generally used for new product development, sales expansion, strategic acquisitions, or for working capital purposes.

Merriman Curhan Ford & Co. provides a full range of investment banking services. We combine our capital markets expertise with a focus on client service, providing what we believe is sound financial and strategic advice. We are typically focused on fast growing companies, helping to finance and advise them at the appropriate point in their business cycles. Additionally, we draw upon our contacts throughout the financial and corporate world, expanding the options available for our corporate clients.

We offer a variety of financing structures to meet the individual needs of our clients. Our team tailors each transaction to meet the specific needs of our clients at a specific point in their growth cycle. Our commitment to long-term relationships and our ability to meet the needs of a diverse range of clients has made us a reliable source of investment banking and advisory services for small-capitalization companies. We provide the following services to our investment banking clients:

- Public Offerings
- Private Placements

- Leveraged Financing
- Mergers and Acquisitions
- Strategic Advisory

Corporate and Venture Services

Merriman Curhan Ford & Co. offers brokerage services to corporations including corporate cash management, stock repurchase programs, corporate retirement plans, and deferred compensation plans. We also serve the needs of venture capital investors and company executives with restricted stock transactions pursuant to Rules 144, 145 and 701 of the Securities Act of 1933, cashless exercise of options, hedging and diversification strategies, and liquidity strategies.

Institutional Cash Distributors

Institutional Cash Distributors, or ICD, is a broker of money market funds serving the short-term investing needs of corporate finance departments at companies throughout the United States and Europe. Companies using ICD's services receive access to over 40 fund families through ICD's one-stop process that includes one application, one wire and one statement that consolidates reporting regardless of the number of funds utilized. As of December 31, 2005, ICD clients have invested nearly \$8 billion in money market funds from which ICD earns brokerage fees. ICD is a division of Merriman Curhan Ford & Co.

MCF Asset Management, LLC

MCF Asset Management, LLC, or MCFAM, creates investment products for both institutional and high-net worth clients. Through the corporate and professional resources of MCF Corporation, MCFAM has developed an institutional-standard investment management platform.

The 1990's were a decade of broad stock market appreciation. Investors were handsomely rewarded for buying exposure to the stock market by investing in either long only mutual funds, market indices or individual stocks. So far this decade, equity returns have not been as strong or as consistent as throughout the 1990's. As a result, interest in alternative investment strategies, such as long/short equity, market neutral, convertible arbitrage, currency arbitrage and real estate, have grown in popularity. Investing in alternative investment strategies will ideally produce absolute returns that are not correlated with broad stock market indices and represent a diversification of risk for investors.

More importantly, we believe both institutions and wealthy individuals have reached that same conclusion and will continue to shift more of their investment dollars into alternative asset class strategies. It is our intent to help our clients in their investment process by offering access to alternative investment strategies, as well as certain niche based long-only strategies. We plan to establish our own alternative investment products and evaluate opportunities to acquire and partner with managers of alternative asset investments. We are on track to launch our first products in early 2006.

MCF Wealth Management, LLC

We create liquidity for our founders and executives of our corporate clients through open market sales and through the private placement and underwriting of equity securities through our Merriman Curhan Ford & Co. subsidiary. We offer personalized financial planning and wealth management to these clients through our MCF Wealth Management, LLC subsidiary. In February 2005, we acquired Catalyst Financial Planning & Investment Management, Inc., or Catalyst. Catalyst is a Registered Investment Advisor, or RIA, registered with the SEC. Catalyst provides investment advice to clients that have invested approximately \$130 million of assets. Catalyst's clients include individuals, trusts, and charitable

foundations. Catalyst typically charges a flat percentage of assets fee for rendering this advice. Prior to acquisition, Catalyst has operated as an independent firm and plans to continue to grow its client and asset base through its own referral network. We plan to introduce new potential clients to Catalyst from our corporate and venture services group as well as our investment banking department. In addition, we plan to evaluate the acquisition of other independent, fee-based financial planning and RIA firms to offer a broad array of wealth management advisory choices for potential clients.

Accounting, Administration and Operations

Our accounting, administration and operations personnel are responsible for financial controls, internal and external financial reporting, human resources and personnel services, office operations, information technology and telecommunications systems, the processing of securities transactions, and corporate communications. With the exception of payroll processing, which is performed by an outside service bureau, and customer account processing, which is performed by our clearing broker, most data processing functions are performed internally. We believe that future growth will require implementation of new and enhanced communications and information systems and training of our personnel to operate such systems.

Compliance, Legal, Risk Management and Internal Audit

Our compliance, legal and risk management personnel (together with other appropriate personnel) are responsible for our compliance with the legal and regulatory requirements of our investment banking, asset management and wealth management businesses and our exposure to market, credit, operations, liquidity, compliance, legal and reputational risk. In addition, our compliance personnel test and audit for compliance with our internal policies and procedures. Our general counsel also provides legal service throughout our company, including advice on managing legal risk. The supervisory personnel in these areas have direct access to senior management and to the Audit Committee of our Board of Directors to ensure their independence in performing these functions. In addition to our internal compliance, legal, and risk management personnel, we retain outside consultants and attorneys for their particular functional expertise.

Competition

We are engaged in the highly competitive financial services and investment industries. We compete directly with large Wall Street securities firms, securities subsidiaries of major commercial bank holding companies, U.S. subsidiaries of large foreign institutions, major regional firms, smaller niche players, and those offering competitive services via the Internet.

In addition to competing for customers and investments, we compete with other companies in the financial services and investment industries to attract and retain experienced and productive investment professionals. See Management's Discussion and Analysis Risk Factors Our business is dependent on the services of skilled professionals and Our business may suffer if we lose the services...

Many competitors have greater personnel and financial resources than we do. Larger competitors are able to advertise their products and services on a national or regional basis and may have a greater number and variety of distribution outlets for their products, including retail distribution. Discount and Internet brokerage firms market their services through aggressive pricing and promotional efforts. In addition, some competitors have much more extensive investment banking activities than we do and therefore, may possess a relative advantage with regard to access to deal flow and capital.

Recent rapid advancements in computing and communications technology, particularly the Internet, are substantially changing the means by which financial services and information are delivered. These changes are providing consumers with more direct access to a wide variety of financial and investment

services, including market information and on-line trading and account information. Advances in technology also create demand for more sophisticated levels of client services. We are committed to using technological advancements to provide a high level of client service to our target markets. Provision of these services may entail considerable cost without an offsetting source of revenue.

For a further discussion of the competitive factors affecting our business, see Management's Discussion and Analysis Risk Factors. The markets for securities brokerage and investment banking services are highly competitive.

Risk Management

In conducting our business, we are exposed to a range of risks including:

Market risk is the risk to our earnings or capital resulting from adverse changes in the values of assets resulting from movement in equity prices or market interest rates.

Credit risk is the risk of loss due to an individual customer's or institutional counterparty's unwillingness or inability to fulfill its obligations.

Operations risk is the risk of loss resulting from systems failure, inadequate controls, human error, fraud or unforeseen catastrophes.

Liquidity risk is the potential that we would be unable to meet our obligations as they come due because of an inability to liquidate assets or obtain funding. Liquidity risk also includes the risk of having to sell assets at a loss to generate liquid funds, which is a function of the relative liquidity (market depth) of the asset(s) and general market conditions.

Compliance risk is the risk of loss, including fines, penalties and suspension or revocation of licenses by self-regulatory organizations, or from failing to comply with federal, state or local laws pertaining to financial services activities.

Legal risk is the risk that arises from the potential that unenforceable contract disputes, lawsuits, adverse judgments, or adverse governmental or regulatory proceedings that can disrupt or otherwise negatively affect our operations or condition.

Reputational risk is the potential that negative publicity regarding our practices whether factually correct or not will cause a decline in our customer base, costly litigation, or revenue reductions.

We have a risk management program that sets forth various risk management policies, provides for a risk management committee and assigns risk management responsibilities. The program is designed to focus on the following:

- Identifying, assessing and reporting on corporate risk exposures and trends;
- Establishing and revising as necessary policies, procedures and risk limits;
- Monitoring and reporting on adherence with risk policies and limits;
- Developing and applying new measurement methods to the risk process as appropriate; and
- Approving new product developments or business initiatives.

We cannot provide assurance that our risk management program or our internal controls will prevent or mitigate losses attributable to the risks to which we are exposed.

For a further discussion of the risks affecting our business, see Management's Discussion and Analysis Risk Factors.

Regulation

As a result of federal and state registration and self-regulatory organization, or SRO, memberships, we are subject to overlapping layers of regulation that cover all aspects of our securities business. Such regulations cover matters including capital requirements, uses and safe-keeping of clients' funds, conduct of directors, officers and employees, record-keeping and reporting requirements, supervisory and organizational procedures intended to assure compliance with securities laws and to prevent improper trading on material nonpublic information, employee-related matters, including qualification and licensing of supervisory and sales personnel, limitations on extensions of credit in securities transactions, requirements for the registration, underwriting, sale and distribution of securities, and rules of the SROs designed to promote high standards of commercial honor and just and equitable principles of trade. A particular focus of the applicable regulations concerns the relationship between broker-dealers and their customers. As a result, many aspects of the broker-dealer customer relationship are subject to regulation including, in some instances, suitability determinations as to certain customer transactions, limitations on the amounts that may be charged to customers, timing of proprietary trading in relation to customers' trades and disclosures to customers.

As a broker-dealer registered with the Securities and Exchange Commission, or SEC, and as a member firm of the National Association of Securities Dealers, Inc., or NASD, we are subject to the net capital requirements of the SEC and the NASD. These capital requirements specify minimum levels of capital, computed in accordance with regulatory requirements that each firm is required to maintain and also limit the amount of leverage that each firm is able to obtain in its respective business.

Net capital is essentially defined as net worth (assets minus liabilities, as determined under accounting principles generally accepted in the United States), plus qualifying subordinated borrowings, less the value of all of a broker-dealer's assets that are not readily convertible into cash (such as furniture, prepaid expenses and unsecured receivables), and further reduced by certain percentages (commonly called haircuts) of the market value of a broker-dealer's positions in securities and other financial instruments. The amount of net capital in excess of the regulatory minimum is referred to as excess net capital.

The SEC's capital rules also (i) require that broker-dealers notify it, in writing, two business days prior to making withdrawals or other distributions of equity capital or lending money to certain related persons if those withdrawals would exceed, in any 30-day period, 30% of the broker-dealer's excess net capital, and that they provide such notice within two business days after any such withdrawal or loan that would exceed, in any 30-day period, 20% of the broker-dealer's excess net capital, (ii) prohibit a broker-dealer from withdrawing or otherwise distributing equity capital or making related party loans if, after such distribution or loan, the broker-dealer would have net capital of less than \$300,000 or if the aggregate indebtedness of the broker-dealer's consolidated entities would exceed 1,000% of the broker-dealer's net capital in certain other circumstances, and (iii) provide that the SEC may, by order, prohibit withdrawals of capital from a broker-dealer for a period of up to 20 business days, if the withdrawals would exceed, in any 30-day period, 30% of the broker-dealer's excess net capital and if the SEC believes such withdrawals would be detrimental to the financial integrity of the firm or would unduly jeopardize the broker-dealer's ability to pay its customer claims or other liabilities.

Compliance with regulatory net capital requirements could limit those operations that require the intensive use of capital, such as underwriting and trading activities, and also could restrict our ability to withdraw capital from our broker-dealer, which in turn could limit our ability to pay interest, repay debt and redeem or repurchase shares of our outstanding capital stock.

We believe that at all times we have been in compliance with the applicable minimum net capital rules of the SEC and the NASD.

The failure of a U.S. broker-dealer to maintain its minimum required net capital would require it to cease executing customer transactions until it came back into compliance, and could cause it to lose its NASD membership, its registration with the SEC or require its liquidation. Further, the decline in a broker-dealer's net capital below certain early warning levels, even though above minimum net capital requirements, could cause material adverse consequences to the broker-dealer.

We are also subject to Risk Assessment Rules imposed by the SEC which require, among other things, that certain broker-dealers maintain and preserve certain information, describe risk management policies and procedures and report on the financial condition of certain affiliates whose financial and securities activities are reasonably likely to have a material impact on the financial and operational condition of the broker-dealers. Certain Material Associated Persons (as defined in the Risk Assessment Rules) of the broker-dealers and the activities conducted by such Material Associated Persons may also be subject to regulation by the SEC. In addition, the possibility exists that, on the basis of the information it obtains under the Risk Assessment Rules, the SEC could seek authority over our unregulated subsidiary either directly or through its existing authority over our regulated subsidiary.

In the event of non-compliance by us or one of our subsidiaries with an applicable regulation, governmental regulators and one or more of the SROs may institute administrative or judicial proceedings that may result in censure, fine, civil penalties (including treble damages in the case of insider trading violations), the issuance of cease-and-desist orders, the deregistration or suspension of the non-compliant broker-dealer, the suspension or disqualification of officers or employees or other adverse consequences. The imposition of any such penalties or orders on us or our personnel could have a material adverse effect on our operating results and financial condition.

Additional legislation and regulations, including those relating to the activities of our broker-dealer, changes in rules promulgated by the SEC, NASD or other United States, state or foreign governmental regulatory authorities and SROs or changes in the interpretation or enforcement of existing laws and rules may adversely affect our manner of operation and our profitability. Our businesses may be materially affected not only by regulations applicable to us as a financial market intermediary, but also by regulations of general application.

Employees

MCF Corporation and its subsidiaries employed 155 persons as of December 31, 2005.

Geographic Area

MCF Corporation is domiciled in the United States and all of our revenue is attributed to United States and Canadian customers. All of our long-lived assets are located in the United States.

Available Information

Our website address is www.merrimanco.com. You may obtain free electronic copies of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports on the Investor Relations portion of our website, under the heading SEC Filings. These reports are available on our website as soon as reasonably practicable after we electronically file them with the Securities and Exchange Commission. We are providing the address to our Internet site solely for the information of investors. We do not intend the address to be an active link or to otherwise incorporate the contents of the website into this report.

ITEM 1A. RISK FACTORS

Investing in our securities involves a high degree of risk. In addition to the other information contained in this annual report, including reports we incorporate by reference, you should consider the following factors before investing in our securities.

It is difficult to evaluate our business and prospects because we have a limited operating history.

We began actively engaging in providing securities brokerage and investment banking services in January 2002. This was an entirely new business for us, and was a complete break with our previous business, the bandwidth brokerage business. Accordingly, we have a limited operating history on which to base an evaluation of our business and prospects. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by fast growing companies in their early stage of development. We cannot assure you that we will be successful in addressing these risks and our failure to do so could have a material adverse effect on our business and results of operations.

We may not be able to maintain a positive cash flow and profitability.

Our ability to maintain a positive cash flow and profitability depends on our ability to generate and maintain greater revenue while incurring reasonable expenses. This, in turn, depends, among other things, on the development of our securities brokerage and investment banking business, and we may be unable to maintain profitability if we fail to do any of the following:

- establish, maintain and increase our client base;
- manage the quality of our services;
- compete effectively with existing and potential competitors;
- further develop our business activities;
- manage expanding operations; and
- attract and retain qualified personnel.

We cannot be certain that we will be able to sustain or increase a positive cash flow and profitability on a quarterly or annual basis in the future. Our inability to maintain profitability or positive cash flow could result in disappointing financial results, impede implementation of our growth strategy or cause the market price of our common stock to decrease. Accordingly, we cannot assure you that we will be able to generate the cash flow and profits necessary to sustain our business expectations, which makes our ability to successfully implement our business plan uncertain.

Because we are a developing company, the factors upon which we are able to base our estimates as to the gross revenue and the number of participating clients that will be required for us to maintain a positive cash flow and any additional financing that may be needed for this purpose are unpredictable. For these and other reasons, we cannot assure you that we will not require higher gross revenue, and an increased number of clients, securities brokerage and investment banking transactions, and/or more time in order for us to complete the development of our business that we believe we need to be able to cover our operating expenses, or obtain the funds necessary to finance this development. It is more likely than not that our estimates will prove to be inaccurate because actual events more often than not differ from anticipated events. Furthermore, in the event that financing is needed in addition to the amount that is required for this development, we cannot assure you that such financing will be available on acceptable terms, if at all.

The markets for securities brokerage and investment banking services are highly competitive. If we are not able to compete successfully against current and future competitors, our business and results of operations will be adversely affected.

We are engaged in the highly competitive financial services and investment industries. We compete with large Wall Street securities firms, securities subsidiaries of major commercial bank holding companies, U.S. subsidiaries of large foreign institutions, major regional firms, smaller niche players, and those offering competitive services via the Internet. Many competitors have greater personnel and financial resources than we do. Larger competitors are able to advertise their products and services on a national or regional basis and may have a greater number and variety of distribution outlets for their products, including retail distribution. Discount and Internet brokerage firms market their services through aggressive pricing and promotional efforts. In addition, some competitors have much more extensive investment banking activities than we do and therefore, may possess a relative advantage with regard to access to deal flow and capital.

Increased pressure created by any current or future competitors, or by our competitors collectively, could materially and adversely affect our business and results of operations. Increased competition may result in reduced revenue and loss of market share. Further, as a strategic response to changes in the competitive environment, we may from time to time make certain pricing, service or marketing decisions or acquisitions that also could materially and adversely affect our business and results of operations. We cannot assure you that we will be able to compete successfully against current and future competitors. In addition, new technologies and the expansion of existing technologies may increase the competitive pressures on us.

We may experience reduced revenue due to declining market volume, securities prices and liquidity, which can also cause counterparties to fail to perform.

Our revenue may decrease in the event of a decline in the market volume of securities transactions, prices or liquidity. Declines in the volume of securities transactions and in market liquidity generally result in lower revenue from trading activities and commissions. Lower price levels of securities may also result in a reduction in our revenue from corporate finance fees, as well as losses from declines in the market value of securities held by us in trading. Sudden sharp declines in market values of securities can result in illiquid markets and the failure of counterparties to perform their obligations, as well as increases in claims and litigation, including arbitration claims from customers. In such markets, we may incur reduced revenue or losses in our principal trading, market-making, investment banking, and advisory services activities.

We may experience significant losses if the value of our marketable security positions deteriorates.

We conduct securities trading, market-making and investment activities for our own account, which subjects our capital to significant risks. These risks include market, credit, counterparty and liquidity risks, which could result in losses for us. These activities often involve the purchase, sale or short sale of securities as principal in markets that may be characterized as relatively illiquid or that may be particularly susceptible to rapid fluctuations in liquidity and price. Trading losses resulting from such trading could have a material adverse effect on our business and results of operations.

We may experience significant fluctuations in our quarterly operating results due to the nature of our business and therefore may fail to meet profitability expectations.

Our revenue and operating results may fluctuate from quarter to quarter and from year to year due to a combination of factors, including:

- the level of institutional brokerage transactions and the level of commissions we receive from those transactions;

- the valuations of our principal investments;
- the number of capital markets transactions completed by our clients, and the level of fees we receive from those transactions; and
- variations in expenditures for personnel, consulting and legal expenses, and expenses of establishing new business units, including marketing and technology expenses.

We record revenue from a capital markets advisory transaction only when we have rendered the services, the client is contractually obligated to pay and collection is probable; generally, most of the fee is earned only upon the closing of a transaction. Accordingly, the timing of our recognition of revenue from a significant transaction can materially affect our quarterly operating results.

We have registered one of our subsidiaries as a securities broker-dealer and, as such, are subject to substantial regulations. If we fail to comply with these regulations, our business will be adversely affected.

Because we have registered Merriman Curhan Ford & Co. with the Securities and Exchange Commission, or SEC, and the National Association of Securities Dealers, Inc., or NASD, as a securities broker-dealer, we are subject to extensive regulation under federal and state laws, as well as self-regulatory organizations. The principal purpose of regulation and discipline of broker-dealers is the protection of customers and the securities markets rather than protection of creditors and stockholders of broker-dealers. The Securities and Exchange Commission is the federal agency charged with administration of the federal securities laws. Much of the regulation of broker-dealers, however, has been delegated to self-regulatory organizations, such as the NASD and national securities exchanges. The NASD is our primary self-regulatory organization. These self-regulatory organizations adopt rules, which are subject to SEC approval, that govern the industry and conduct periodic examinations of member broker-dealers. Broker-dealers are also subject to regulation by state securities commissions in the states in which they are registered. The regulations to which broker-dealers are subject cover all aspects of the securities business, including net capital requirements, sales methods, trading practices among broker-dealers, capital structure of securities firms, record keeping and the conduct of directors, officers and employees. The SEC and the self-regulatory bodies may conduct administrative proceedings, which can result in censure, fine, suspension or expulsion of a broker-dealer, its officers or employees. If we fail to comply with these rules and regulations, our business may be materially and adversely affected.

The regulatory environment in which we operate is also subject to change. Our business may be adversely affected as a result of new or revised legislation or regulations imposed by the SEC, other United States or foreign governmental regulatory authorities or the NASD. We also may be adversely affected by changes in the interpretation or enforcement of existing laws and rules by these governmental authorities and the NASD.

Our business may suffer if we lose the services of our executive officers or operating personnel.

We depend on the continued services and performance of D. Jonathan Merriman, our Chairman and Chief Executive Officer, for our future success. We currently have an employment agreement with Mr. Merriman, which ends on January 1, 2007, but can be terminated by either party on 60 days' notice. The agreement contains provisions that obligate us to make certain payments to Mr. Merriman and substantially reduce vesting periods of options granted to him if we should terminate him without cause or certain events resulting in a change of control of our Board were to occur.

In addition to Mr. Merriman, we are currently managed by a small number of key management and operating personnel. Our future success depends, in part, on the continued service of our key executive, management and technical personnel, and our ability to attract highly skilled employees. Our business could be harmed if any key officer or employee were unable or unwilling to continue in his or her current

position. From time to time we have experienced, and we expect to continue to experience, difficulty in hiring and retaining highly skilled employees. Competition for employees in our industry is significant. If we are unable to retain our key employees or attract, integrate or retain other highly qualified employees in the future, such failure may have a material adverse effect on our business and results of operations.

Our business is dependent on the services of skilled professionals, and may suffer if we can not recruit or retain such skilled professionals.

During 2005, one sales professional accounted for 12% of our revenue. We have a number of revenue producers employed by our securities brokerage and investment banking subsidiary. We do not have employment contracts with these employees. The loss of one or more of these employees could adversely affect our business and results of operations.

Our compensation structure may negatively impact our financial condition if we are not able to effectively manage our expenses and cash flows.

We are able to recruit and retain investment banking, research and sales and trading professionals, in part because our business model provides that we pay our revenue producing employees a percentage of their earned revenue. Compensation and benefits is our largest expenditure and this variable compensation component represents a significant proportion of this expense. Compensation for our employees is derived as a percentage of our revenue regardless of our profitability. Therefore, we may continue to pay individual revenue producers a significant amount of cash compensation as the overall business experiences negative cash flows and/or net losses. We may not be able to recruit or retain revenue producing employees if we modify or eliminate the variable compensation component from our business model.

We may be dependent on a limited number of customers for a significant portion of our revenue.

During 2005, no single customer accounted for more than 10% of our revenue. However, we have been dependent on one customer, or on a small number of customers, for a large percentage of our revenue at some times in the past and we cannot assure you that we will not become so dependent again in the future. If we do become dependent on a single customer or small group of customers, the loss of one or more large customers could materially adversely affect our business and results of operations.

We may suffer losses through our investments in securities purchased in secondary market transactions or private placements.

Occasionally, our company, its officers and/or employees may make principal investments in securities through secondary market transactions or through direct investment in companies through private placements. In many cases, employees and officers with investment discretion on behalf of our company decide whether to invest in our company's account or their personal account. It is possible that gains from investing will accrue to these individuals because investments were made in their personal accounts, and our company will not realize gains because it did not make an investment. Conversely, it is possible that losses from investing will accrue to our company, while these individuals do not experience losses in their personal accounts because the individuals did not make investments in their personal accounts.

We may be unable to successfully integrate acquired businesses into our existing business and operations.

On February 28, 2005, we acquired Catalyst Financial Planning & Investment Management, Inc., a registered investment advisor with over \$100 million in assets under management at the time of acquisition. We may experience difficulty integrating the operations of Catalyst into our existing business and operations including our accounting, finance, compensation, information technology and management

systems. We may not be able to retain the services of Catalyst employees. These factors could result in higher than anticipated costs associated with the Catalyst acquisition. Additionally, they may cause revenue from the Catalyst acquisition to be lower than forecast. If costs are higher or revenue lower than we expect, our business and results of operations could be materially adversely affected. Although we have no specific plans to do so at this time, we may buy one or more other businesses in the future. If we are unable to successfully integrate such businesses into our existing business and operations in the future, our business and results of operations could be materially adversely affected

We may be unable to effectively manage rapid growth that we may experience, which could place a continuous strain on our resources and, accordingly, adversely affect our business.

We plan to expand our operations. Our growth, if it occurs, will impose significant demands on our management, financial, technical and other resources. We must adapt to changing business conditions and improve existing systems or implement new systems for our financial and management controls, reporting systems and procedures and expand, train and manage a growing employee base in order to manage our future growth. We may not be able to implement improvements to our internal reporting systems in an efficient and timely manner and may discover deficiencies in existing systems and controls. We believe that future growth will require implementation of new and enhanced communications and information systems and training of our personnel to operate such systems. Furthermore, we may acquire existing companies or enter into strategic alliances with third parties, in order to achieve rapid growth. For us to succeed, we must make our existing business and systems work effectively with those of any strategic partners without undue expense, management distraction or other disruptions to our business. We may be unable to implement our business plan if we fail to manage any of the above growth challenges successfully. Our financial results may suffer and we could be materially and adversely affected if that occurs.

Our business and operations would suffer in the event of system failures.

Our success, in particular our ability to successfully facilitate securities brokerage transactions and provide high-quality customer service, largely depends on the efficient and uninterrupted operation of our computer and communications systems. Our systems and operations are vulnerable to damage or interruption from fire, flood, power loss, telecommunication failures, break-ins, earthquake and similar events. Despite the implementation of network security measures, redundant network systems and a disaster recovery plan, our servers are vulnerable to computer viruses, physical or electronic break-ins and similar disruptions, which could lead to interruptions, delays, loss of data or the inability to accept and fulfill customer orders. Additionally, computer viruses may cause our systems to incur delays or other service interruptions, which may cause us to incur additional operating expenses to correct problems we may experience. Any of the foregoing problems could materially adversely affect our business or future results of operations.

We are highly dependent on proprietary and third-party systems; therefore, system failures could significantly disrupt our business.

Our business is highly dependent on communications and information systems, including systems provided by our clearing brokers. Any failure or interruption of our systems, the systems of our clearing broker or third party trading systems could cause delays or other problems in our securities trading activities, which could have a material adverse effect on our operating results.

In addition, our clearing brokers provide our principal disaster recovery system. We cannot assure you that we or our clearing brokers will not suffer any systems failure or interruption, including one caused by an earthquake, fire, other natural disaster, power or telecommunications failure, act of God, act of war or otherwise, or that our or our clearing brokers' back-up procedures and capabilities in the event of any such failure or interruption will be adequate.

Our common stock price may be volatile, which could adversely affect the value of your shares.

The market price of our common stock has in the past been, and may in the future continue to be, volatile. A variety of events may cause the market price of our common stock to fluctuate significantly, including:

- variations in quarterly operating results;
- our announcements of significant contracts, milestones, acquisitions;
- our relationships with other companies;
- our ability to obtain needed capital commitments;
- additions or departures of key personnel;
- sales of common stock, conversion of securities convertible into common stock, exercise of options and warrants to purchase common stock or termination of stock transfer restrictions;
- general economic conditions, including conditions in the securities brokerage and investment banking markets;
- changes in financial estimates by securities analysts; and
- fluctuation in stock market price and volume.

Many of these factors are beyond our control. Any one of the factors noted herein could have an adverse effect on the value of our common stock.

In addition, the stock market in recent years has experienced significant price and volume fluctuations that have particularly affected the market prices of equity securities of many companies and that often have been unrelated to the operating performance of such companies. These market fluctuations have adversely impacted the price of our common stock in the past and may do so in the future.

Our risk management policies and procedures may leave us exposed to unidentified or unanticipated risk.

Our risk management strategies and techniques may not be fully effective in mitigating our risk exposure in all market environments or against all types of risk.

We are exposed to the risk that third parties that owe us money, securities or other assets will not perform their obligations. These parties may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure, breach of contract or other reasons. We are also subject to the risk that our rights against third parties may not be enforceable in all circumstances. As a clearing member firm, we finance our customer positions and could be held responsible for the defaults or misconduct of our customers. Although we regularly review credit exposures to specific clients and counterparties and to specific industries and regions that we believe may present credit concerns, default risk may arise from events or circumstances that are difficult to detect or foresee. In addition, concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions, which in turn could adversely affect us. If any of the variety of instruments, processes and strategies we utilize to manage our exposure to various types of risk are not effective, we may incur losses.

We could be sued in a securities class action lawsuit.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation often has been instituted against that company. Such litigation is expensive and diverts management's attention and resources. We can not assure you that we will not be subject to such litigation.

If we are subject to such litigation, even if we ultimately prevail, our business and financial condition may be adversely affected.

Your ability to sell your shares may be restricted because there is a limited trading market for our common stock.

Although our common stock is currently traded on the American Stock Exchange, an active trading market in our stock has been limited. Accordingly, you may not be able to sell your shares when you want or at the price you want.

Anti-takeover provisions of the Delaware General Corporation Law could discourage a merger or other type of corporate reorganization or a change in control even if it could be favorable to the interests of our stockholders.

The Delaware General Corporation Law contains provisions that may enable our management to retain control and resist our takeover. These provisions generally prevent us from engaging in a broad range of business combinations with an owner of 15% or more of our outstanding voting stock for a period of three years from the date that such person acquires his or her stock. Accordingly, these provisions could discourage or make more difficult a change in control or a merger or other type of corporate reorganization even if it could be favorable to the interests of our stockholders.

Because our Board of Directors can issue common stock without stockholder approval, you could experience substantial dilution.

Our Board of Directors has the authority to issue up to 300,000,000 shares of common stock and to issue options and warrants to purchase shares of our common stock without stockholder approval in certain circumstances. Future issuance of additional shares of our common stock could be at values substantially below the price at which you may purchase our stock and, therefore, could represent substantial dilution. In addition, our Board of Directors could issue large blocks of our common stock to fend off unwanted tender offers or hostile takeovers without further stockholder approval.

Our ability to issue additional preferred stock may adversely affect your rights as a common stockholder and could be used as an anti take-over device.

Our Articles of Incorporation authorize our Board of Directors to issue up to an additional 27,450,000 shares of preferred stock, without approval from our stockholders. If you hold our common stock, this means that our Board of Directors has the right, without your approval as a common stockholder, to fix the relative rights and preferences of the preferred stock. This would affect your rights as a common stockholder regarding, among other things, dividends and liquidation. We could also use the preferred stock to deter or delay a change in control of our company that may be opposed by our management even if the transaction might be favorable to you as a common stockholder.

Our officers and directors exercise significant control over our affairs, which could result in their taking actions of which other stockholders do not approve.

Our executive officers and directors, and entities affiliated with them, currently control approximately 23% of our outstanding common stock including exercise of their options and warrants. These stockholders, if they act together, will be able to exercise substantial influence over all matters requiring approval by our stockholders, including the election of directors and approval of significant corporate transactions. This concentration of ownership may also have the effect of delaying or preventing a change in control of us and might affect the market price of our common stock.

Any exercise of outstanding stock options and warrants will dilute then-existing stockholders' percentage of ownership of our common stock.

We have a significant number of outstanding stock options and warrants. During 2005, shares issuable upon the exercise of these options and warrants, at prices ranging currently from approximately \$0.05 to \$1.24 per share, represent approximately 15% of our total outstanding stock on a fully diluted basis using the treasury stock method.

The exercise of the outstanding options and warrants would dilute the then-existing stockholders' percentage ownership of our common stock. Any sales resulting from the exercise of options and warrants in the public market could adversely affect prevailing market prices for our common stock. Moreover, our ability to obtain additional equity capital could be adversely affected since the holders of outstanding options and warrants may exercise them at a time when we would also wish to enter the market to obtain capital on terms more favorable than those provided by such options and warrants. We lack control over the timing of any exercise or the number of shares issued or sold if exercises occur.

ITEM 1B. UNRESOLVED STAFF COMMENTS

There are no unresolved staff comments as of the date of this filing.

ITEM 2. PROPERTIES

As of December 31, 2005, all of our properties are leased. Our principal executive offices are located in San Francisco, California. We lease four additional offices to support our various investment banking and broker-dealer related activities. These offices are located in New York, Boston, Los Angeles and Portland. We believe the facilities we are now using are adequate and suitable for business requirements.

ITEM 3. LEGAL PROCEEDINGS

Merriman Curhan Ford & Co. v. The Seidler Companies, Inc. NASD Arbitration

During 2004, our broker-dealer subsidiary hired a research analyst. Prior to employment with Merriman Curhan Ford & Co. the analyst was employed by The Seidler Companies, Inc., or Seidler, in a similar capacity. The analyst was employed under an employment contract that included terms which general counsel and outside counsel believe unlawfully restrict the analyst's employment activities.

In March 2004, we acted as co-agent for a small private placement for a client. The client was introduced to one of our investment banking managing directors. At the time of introduction, Seidler had been trying to win the investment banking business, but had failed to obtain a signed engagement letter with the client. We subsequently received a signed engagement letter from the client that named Merriman Curhan Ford & Co. as co-placement agent. The investment banking transaction was completed.

Thereafter, in March 2004 we received a cease and desist letter from attorneys representing Seidler. Seidler claims that our analyst used proprietary information in violation of his employment agreement when introducing Merriman Curhan Ford & Co. to the client. Seidler further claims that we used unfair business tactics to win the business. In response to the claims, Merriman Curhan Ford & Co. and our analyst filed a claim in arbitration with the NASD in June 2004. In September 2005, this matter was settled. We received a release of all claims from Seidler in exchange for a payment in the amount of \$25,000.

Westerman v. Western Capital Financial Group NASD Arbitration

In May 2005, our broker-dealer subsidiary Merriman Curhan Ford & Co. was served with a claim in NASD Arbitration by Ms. Westerman. The claim names Western Capital Financial Group as one of several defendants. Western Capital Financial Group is the predecessor name of

Merriman Curhan Ford & Co., the California corporation. The Western Capital Financial Group name was effective from June 26, 1986 to July 14, 1998.

This claim arises from Ms. Westerman's purchase of a variable annuity product in January 1990 from a predecessor of our broker-dealer subsidiary. MCF Corporation acquired Merriman Curhan Ford & Co. in December 2001. The Claimant alleges that a registered representative improperly recommended that she move her investment to different products on two occasions.

Claimant alleges a theory of predecessor liability against Merriman Curhan Ford & Co. Claimant prays for monetary damages in excess of \$300,000 against the eleven named respondents. We do not believe that Ms. Westerman's claims against Merriman Curhan Ford & Co. are meritorious. We are in the early pleading stages of the matter and a hearing date has been scheduled for September 2006. We believe that we have meritorious defenses and intend to contest these claims vigorously. However, in the event that we did not prevail, based upon the facts as we know them to date, we do not believe that the outcome will have a material effect on our financial position, financial results or cashflows.

In re Odimo Incorporated Securities Litigation.

Merriman Curhan Ford & Co. is a defendant in an alleged class action suit brought in connection with a registered offering involving Odimo Incorporated in which we served as co-manager for the company. The complaint, filed in the 17th Judicial Circuit Court for Broward County in Florida on September 30, 2005, alleges violations of federal securities laws against Odimo and certain of its officers as well as the company's underwriters, including us, based on alleged misstatements and omissions in the registration statement. We believe we have meritorious defenses to the actions and intend to vigorously defend against such claims as they apply to our firm. Based upon the facts as we know them to date, we believe that the likelihood that we not prevail is remote. Further, we are indemnified by the issuer defendant.

Other Matters

Additionally, from time to time, we are involved in ordinary routine litigation incidental to our business.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF STOCKHOLDERS

No matters were submitted to a vote of stockholders during the fourth quarter of 2005.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON STOCK AND RELATED STOCKHOLDER MATTERS**

Our common stock trades on the American Stock Exchange under the symbol MEM. The following table sets forth the range of the high and low sales prices per share of our common stock for the fiscal quarters indicated.

	High	Low
2005		
Fourth Quarter	\$ 1.19	\$ 1.01
Third Quarter	1.26	0.95
Second Quarter	1.53	1.14
First Quarter	1.99	1.33
2004		
Fourth Quarter	\$ 2.05	\$ 1.10
Third Quarter	2.22	1.24
Second Quarter	2.85	1.90
First Quarter	3.10	0.88

The closing sale price for our common stock on February 15, 2006 was \$1.16. The market price of our common stock has fluctuated significantly and may be subject to significant fluctuations in the future. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

According to the records of our transfer agent, we had approximately 304 stockholders of record as of February 15, 2006. Because many shares are held by brokers and other institutions on behalf of stockholders, we are unable to estimate the total number of beneficial stockholders represented by these record holders.

Our policy is to reinvest earnings in order to fund future growth. Therefore, we have not paid and currently do not plan to declare dividends on our common stock.

Recent Sale of Unregistered Securities

On February 28, 2005, we acquired Catalyst Financial Planning & Investment Management, Inc., or Catalyst, a registered investment advisor with over \$100 million in assets under management. The purchase consideration for Catalyst consists of both cash and common stock that will be paid over a three year period. We paid to the sole shareholder of Catalyst, or Catalyst Shareholder, \$330,433 as initial consideration at the closing. We have also agreed to issue to the Catalyst Shareholder up to 925,325 shares of common stock over three years based upon amount of revenue growth for Catalyst. The payment of these shares is subject to specified conditions. In exchange for its cash and shares, we acquired 100% of the voting stock in Catalyst. This transaction was exempt from the registration requirements of the Securities Act of 1933, as amended, pursuant to the exemption provided for in Section 4(2) of such Act.

On May 4, 2005, we entered into a stock purchase agreement with Ascend Services Ltd., or Ascend. We issued 1,078,749 shares of our common stock and Ascend has issued an unsecured promissory note payable to us in the amount of \$1.5 million. The shares are held initially in escrow. Upon Ascend achieving specified milestones, the 1,078,749 shares of common stock will be released from escrow in three installments of 359,583 shares and provided to Ascend. Upon satisfaction of the conditions specified in the escrow agreement and simultaneous with the release of the related stock certificates, the related amount of the promissory note shall become effective and start accruing interest. The promissory note accrues interest at 10% per annum and matures on February 28, 2006. In May 2005, we released the first

installment of 359,583 shares of common stock to Ascend while the related promissory note with a face amount of \$500,000 became effective. We do not expect Ascend will achieve any further milestones and we expect the remaining 719,166 shares of common stock will be returned to the Company from escrow on February 28, 2006. The securities described in this paragraph: (i) were issued to a private investor without the involvement of underwriters; (ii) were issued in reliance on the exemption from registration requirements contained in Section 4(2) of the Securities Act of 1933; and (iii) carried certain registration rights.

ITEM 6. SELECTED CONSOLIDATED FINANCIAL DATA

The following selected consolidated financial data should be read in conjunction with Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and the notes thereto included in Item 8. Financial Statements and Supplementary Data.

	2005	2004	2003	2002	2001
Statement of operations data:					
Revenue	\$ 43,838,720	\$ 38,368,310	\$ 18,306,011	\$ 6,469,494	\$ 205,502
Operating expenses	45,582,232	36,194,924	16,832,676	8,291,735	29,490,451
Operating income (loss)	(1,743,512)	2,173,386	1,473,335	(1,822,241)	(29,284,949)
Gain on retirement of convertible note payable(1)			3,088,230		
Interest income	447,828	120,431	39,483	45,345	324,677
Interest expense(2)	(76,334)	(169,787)	(1,554,901)	(1,364,903)	(339,213)
Income tax expense	(142,425)	(249,744)	(74,884)		
Income (loss) from continuing operations	(1,514,443)	1,874,286	2,971,263	(3,141,799)	(29,299,485)
Loss from discontinued operations				(262,843)	(772,691)
Net income (loss)	\$ (1,514,443)	\$ 1,874,286	\$ 2,971,263	\$ (3,404,642)	\$ (30,072,176)
Diluted net income (loss) per common share	\$ (0.02)	\$ 0.02	\$ 0.06	\$ (0.18)	\$ (1.66)
Financial condition data:					
Cash and cash equivalents	\$ 11,138,923	\$ 17,459,113	\$ 6,142,958	\$ 1,402,627	\$ 4,358,091
Marketable securities owned	8,627,543	2,342,225	608,665	764,421	
Total assets	27,694,413	25,007,824	9,703,946	3,769,127	7,506,781
Capital lease obligations	883,993	452,993	24,401		
Notes payable, net	408,513	1,487,728	1,927,982	8,455,085	8,141,704
Stockholders' equity (deficit)	\$ 18,403,001	\$ 16,733,850	\$ 5,261,210	\$ (5,529,354)	\$ (3,441,733)

(1) In April 2003, we exercised our right to cancel the convertible promissory note held by Forsythe with the principal sum of \$5,949,042. The fair value of the consideration provided to Forsythe was less than the carrying amount of the convertible note payable. The difference between the fair value of the consideration provided to Forsythe and the carrying amount of the note payable, or \$3,088,230, was recorded as a gain in condensed consolidated statements of operations.

(2) Interest expense for 2003 included \$1,291,000 in amortization of discounts and debt issuance costs, while the 2004 amount included \$119,000 for amortization of discounts and debt issuance costs. The higher amortization expense in 2003 was due to the accelerated amortization that occurred as the notes payable were retired or converted to equity instruments during 2003. The total amount of discounts that will be amortized in future periods was \$23,000 as of December 31, 2005.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with Selected Consolidated Financial Data and our consolidated financial statements and notes thereto included elsewhere in the Annual Report on Form 10-K.

Introduction

MCF Corporation is a financial services holding company that provides investment research, capital markets services, corporate and venture services, investment banking, asset management and wealth management through its operating subsidiaries, Merriman Curhan Ford & Co., MCF Asset Management, LLC and MCF Wealth Management, LLC. We are focused on providing a full range of specialized and integrated services to institutional investors and corporate clients.

Merriman Curhan Ford & Co.

Merriman Curhan Ford & Co. is a securities broker-dealer and investment bank focused on fast growing companies and institutional investors. Our mission is to become a leader in the researching, advising, financing and trading of fast growing companies under \$2 billion in market capitalization. We provide investment research, brokerage and trading services primarily to institutions, as well as advisory and investment banking services to corporate clients. We are focused on providing a full range of specialized and integrated services, including:

- Equity Research
- Sales and Trading
- Specialized Trade Execution
- Market Making
- Equity Capital Markets
- Corporate and Venture Services
- Public Offerings
- Private Placements
- Mergers and Acquisitions
- Strategic Advisory Services

By the end of the 1990 s, many of the investment banks that previously served this niche were acquired by large commercial banks and subsequently refocused to serve larger clients and larger transactions. We are gaining market share by originating differentiated research for our institutional investor clients and providing specialized services for our fast-growing corporate clients.

MCF Asset Management, LLC

MCF Asset Management, LLC creates investment products for both institutional and high-net worth clients. Through the corporate and professional resources of MCF Corporation, MCFAM has developed an institutional-standard investment management platform. We are on track to launch our first products in early 2006.

We believe both institutions and wealthy individuals will continue to shift more of their investment dollars into alternative asset class strategies. It is our intent to help our clients in their investment process

by offering access to alternative investment strategies, as well as certain niche based long-only strategies. We plan to establish our own alternative investment products and evaluate opportunities to acquire and partner with managers of alternative asset investments.

MCF Wealth Management, LLC

MCF Wealth Management, LLC continues to evaluate acquisitions of existing wealth management businesses, as well as organically grow assets under management through client referrals and Merriman Curhan Ford & Co.'s client base. In March 2005, Catalyst Financial Planning and Investment Management was the first registered investment advisor to be acquired by MCF Wealth Management. Today, Catalyst counsels more than 70 clients and manages \$130 million in assets. MCF Wealth Management's mission is to provide a tailored, integrated offering of personal financial services to help corporate executives and high-net-worth clients achieve their financial goals through a diverse network of fee-only investment advisory firms like Catalyst.

Executive Overview

Our company has grown since we launched Merriman Curhan Ford & Co., our investment bank and broker-dealer business, at the beginning of 2002. Our revenue, operating expenses and headcount have increased sequentially since 2002. Revenue increased to \$43,839,000 during 2005 which represents 14% growth over 2004 and is a record for us. While we were profitable during 2004 and 2003, we incurred a net loss of \$0.02 per diluted share in 2005. Our profitability was negatively impacted by the decline in growth in our investment banking revenue and increased costs associated with marketing, recruiting and other operating expenses. We continued to invest in recruiting new employees and marketing through our conferences, investor events and business development activities, which resulted in higher operating expenses in 2005. Despite these investments in growth, the Company remains cash flow positive during 2005, as measured by Earnings Before Interest, Taxes, Depreciation and Amortization Expense.

Our plan is to continue to grow the investment banking and broker-dealer business while we extend our position as trusted financial advisor to managing corporate assets and individual wealth. During 2005 we created MCF Wealth Management, LLC and acquired Catalyst, our first registered investment advisor. Our asset management and wealth management activities produce fee-based, recurring revenue streams that have begun to complement the cyclical nature of our existing business. Going forward, we plan to acquire existing asset management and wealth management businesses, partner with high quality asset managers, and grow our proprietary product and service offerings.

Business Environment

The business environment during 2005 was somewhat volatile due to a combination of factors including an expanding U.S. economy, increasing commodity costs, continued low interest rates and low inflation. Favorable job reports and an active housing market provided ongoing support to economic activity. The unemployment rate dropped to its lowest level since August 2001. Oil prices, however, soared during the year raising concerns about the effect on overall economic activity. The Federal Reserve Board continued its measured pace of interest rate increases, raising the federal funds rate to 4.25% by year-end 2005. The small-cap growth equity indices applicable to the companies that we serve were mostly flat during 2005.

Our securities broker-dealer and investment banking activities are linked to the capital markets. In addition, our business activities are focused in the technology, consumer, energy and industrial technology, health care and telecommunications sectors. By their nature, our business activities are highly competitive and are not only subject to general market conditions, volatile trading markets and fluctuations in the

volume of market activity, but also to the conditions affecting the companies and markets in our areas of focus.

Fluctuations in revenue also occur due to the overall level of market activity, which, among other things, affects the flow of investment dollars and the size, number and timing of investment banking transactions. In addition, a downturn in the level of market activity can lead to a decrease in brokerage commissions. Therefore, revenue in any particular period may vary significantly from year to year.

The financial services industry continues to be affected by an intensifying competitive environment. There has been an increase in the number and size of companies competing for a similar customer base; some of such competitors have greater capital resources and additional associated services with which to pursue these activities.

Results of Operations

The following table sets forth a summary of financial highlights for the three years ended December 31, 2005:

	2005	2004	2003
Total revenue	\$ 43,838,720	\$ 38,368,310	\$ 18,306,011
Total operating expenses	45,582,232	36,194,924	16,832,676
Operating income (loss)	(1,743,512)	2,173,386	1,473,335
Net income (loss)	(1,514,443)	1,874,286	2,971,263
EBITDA	743,855	3,677,264	2,048,863
Add:			
Gain on retirement of convertible note payable			3,088,230
Interest income	447,828	120,431	39,483
Less:			
Interest expense	(65,997)	(50,654)	(263,156)
Income tax expense	(142,425)	(249,744)	(74,884)
Depreciation and amortization	(528,038)	(162,318)	(77,918)
Common stock issued for services		(215,800)	(121,449)
Amortization of stock-based compensation	(1,959,329)	(1,125,760)	(376,161)
Amortization of discounts on convertible notes payable	(10,337)	(95,793)	(702,412)
Amortization of debt issuance costs		(23,340)	(589,333)
Net income (loss)	\$ (1,514,443)	\$ 1,874,286	\$ 2,971,263

Earnings before interest, taxes, depreciation and amortization, or EBITDA, is a key metric we use in evaluating our financial performance. EBITDA is considered a non-GAAP financial measure as defined by Regulation G promulgated by the SEC pursuant to the Securities Act of 1933, as amended. We consider EBITDA an important measure of our ability to generate cash flows to service debt, fund capital expenditures and fund other corporate investing and financing activities. EBITDA eliminates the non-cash effect of tangible asset depreciation and amortization of intangible assets and stock-based compensation. EBITDA should be considered in addition to, rather than as a substitute for, pre-tax income, net income and cash flows from operating activities.

Our revenue during 2005 increased \$5,470,000 or 14%, from 2004 reflecting the continued growth of our sales and trading activities. We incurred a net loss of \$1,514,000 during 2005 as compared to net income of \$1,874,000 during 2004. Our EBITDA was \$744,000 in 2005 and \$3,677,000 in 2004. The decline in profitability during 2005 as compared to 2004 resulted from the drop in our investment banking revenue

which produces higher operating margins compared to commissions revenue, and higher marketing, recruiting and other operating expenses. Additionally, we recorded a non-cash expense for the \$500,000 note receivable from Ascend that we deemed to be uncollectible as of December 31, 2005.

Commissions and Principal Transactions Revenue

Our broker-dealer activity includes the following:

- **Commissions** Commissions include revenue resulting from executing stock trades for exchange-listed securities, over-the-counter securities and other transactions as agent.
- **Principal Transactions** Principal transactions consist of a portion of dealer spreads attributed to our securities trading activities as principal in NASDAQ-listed and other securities, and include transactions derived from our activities as a market-maker. Additionally, principal transactions include gains and losses resulting from market price fluctuations that occur while holding positions in our trading security inventory.

The following table sets forth our revenue and several operating metrics which we utilize in measuring and evaluating performance and the results of our trading activity operations:

	2005	2004	2003
Revenue:			
Commissions	\$ 26,992,427	\$ 21,826,628	\$ 9,547,061
Principal transactions:			
Customer principal transactions, proprietary trading and market making	\$ 308,764	\$ 1,758,119	\$ 1,173,813
Investment portfolio	1,058,174	1,030,001	177,073
Total principal transactions revenue	\$ 1,366,938	\$ 2,788,120	\$ 1,350,886
Transaction Volumes:			
Number of shares traded	983,755,070	919,112,079	370,845,147
Number of active clients	614	599	367

Commissions amounted to \$26,992,000, or 62%, of our revenue during 2005, representing a 24% increase over \$21,827,000 recognized during 2004. The higher commissions were primarily attributed to the hiring of additional sales and research professionals and an increase in the penetration of active client accounts during 2005 as compared to 2004. During 2005 and 2003, no single brokerage customer accounted for more than 10% of our revenue, while one brokerage customer accounted for 10% of our revenue during 2004.

Principal transactions revenue, including market making and proprietary trading for our own account, amounted to \$1,367,000, or 3%, of our revenue during 2005, representing a 51% decrease compared to \$2,788,000 recognized during 2004. Returns from market making and proprietary trading activities tend to be more volatile than acting as agent or principal for customers. We increased our market making activity during 2005 and 2004 and intend to continue to expand the number of stocks in which we make markets. Additionally, the number of securities held in our investment portfolio, which primarily consists of stock warrants and restricted common stock, increased in 2004 and 2005. The value of this portfolio has increased in each of the three years ended December 31, 2005.

During 2005, we refined our estimation process for valuing the securities owned that are not readily marketable. The most significant change impacted the carrying value of our stock warrant portfolio. Beginning in the fourth quarter of 2005, we carry stock warrants at a discount to fair value as determined by using the Black-Scholes Option Pricing model. Previously, the stock warrants were carried at a discount

to intrinsic value, if any. This change in estimate resulted in an unrealized gain of \$424,000 and a decrease in our net loss of \$229,000 during the fourth quarter of 2005.

Investment Banking Revenue

Our investment banking activity includes the following:

- **Capital Raising** Capital raising includes private placements of equity and debt instruments and underwritten public offerings.
- **Financial Advisory** Financial advisory includes advisory assignments with respect to mergers and acquisitions, divestitures, restructurings and spin-offs.

The following table sets forth our revenue and transaction volumes from our investment banking activities during the three years ended December 31, 2005:

	2005	2004	2003
Revenue:			
Capital raising	\$ 13,396,781	\$ 11,845,148	\$ 6,657,836
Financial advisory	1,420,033	1,883,408	720,972
Total investment banking revenue	\$ 14,816,814	\$ 13,728,556	\$ 7,378,808
Transaction Volumes:			
Public offerings:			
Capital underwritten	\$ 343,223,000	\$ 507,952,000	\$ 152,168,000
Number of transactions	8	10	1
Private placements:			
Capital raised	\$ 253,939,000	\$ 176,822,000	\$ 96,082,000
Number of transactions	14	13	12
Financial advisory:			
Transaction amounts	\$ 21,321,000	\$ 32,800,000	\$ 4,750,000
Number of transactions	1	2	1

Our investment banking revenue amounted to \$14,817,000, or 34% of our revenue during 2005, representing a 8% increase compared to \$13,729,000 recognized in 2004. The increase in our investment banking revenue during 2005 can be primarily attributed to the increased awareness of our brand in the market place and an accommodative business environment during 2005. We believe that the increase in revenue was partially offset by a senior management transition in the investment banking department. This transition was completed at the beginning of the third quarter 2005 with the hiring of a new head of investment banking. During the three years ended December 31, 2005, no single investment banking customer accounted for more than 10% of our revenue.

Compensation and Benefits Expenses

Compensation and benefits expense represents the majority of our operating expenses and includes incentive compensation paid to sales, trading and investment banking professionals, as well as discretionary bonuses, salaries and wages, and stock-based compensation. Incentive compensation varies primarily based on revenue production. Discretionary bonuses paid to research analysts also vary with commissions revenue production but includes other qualitative factors as well. Salaries, payroll taxes and employee benefits are relatively fixed in nature.

Edgar Filing: MCF CORP - Form 10-K

The following table sets forth the major components of our compensation and benefits for the three years ended December 31, 2005:

	2005	2004	2003	
Incentive compensation and discretionary bonuses	\$ 18,001,940	\$ 17,694,420	\$ 7,316,958	
Salaries and wages	9,397,509	5,801,390	2,728,519	
Stock-based compensation	1,959,329	1,115,909	362,280	
Payroll taxes, benefits and other	2,763,430	2,153,546	1,275,110	
Total compensation and benefits	\$ 32,122,208	\$ 26,765,265	\$ 11,682,867	
Total compensation and benefits as a percentage of revenue	73	% 70	% 64	%
Cash compensation and benefits as a percentage of revenue	69	% 67	% 62	%

The increase in compensation and benefits expense of \$5,357,000, or 20%, from 2004 to 2005 and \$15,082,000, or 129%, from 2003 to 2004 was due primarily to higher incentive compensation which is directly correlated to revenue production.

Cash compensation and benefits expense as a percentage of revenue increased to 69% during 2005 as compared to 67% in 2004. This increase is due in part to higher salaries and wages resulting from increased headcount in anticipation of our revenue growth. We have grown our headcount at a measured pace during 2004 and 2005. Our headcount has increased from 80 at December 31, 2003 to 116 at December 31, 2004 to 155 as of December 31, 2005. The increase in stock-based compensation during 2005 and 2004 reflects our decision to grant restricted stock to new and existing employees beginning in the second half of 2003. Prior to 2003, we only granted stock options to employees which are accounted for under the intrinsic value method, in accordance with APB No. 25. During the three years ended December 31, 2005, one sales professional accounted for 12%, 15% and 13% of our revenue, respectively.

The amount of compensation and benefits expense that we incur during a given period is largely dependent upon the level of revenue recognized during that period, since most of our employees are paid based on a percentage of the revenue attributed to their efforts. We anticipate compensation and benefits expense for 2006 will increase sequentially over 2005 due to our forecast for higher revenue in 2006. Additionally, we will begin to expense stock options granted to employees in 2006. We expect, however, cash compensation and benefits expense as a percentage of revenue to decrease in 2006 relative to 2005 due to modifications that we have made to incentive compensation arrangements at the beginning of 2006.

Other Operating Expenses

Brokerage and clearing fees include trade processing expenses that we pay to our clearing broker and execution fees that we pay to floor brokers and electronic communication networks. Merriman Curhan Ford & Co. is a fully-disclosed broker-dealer, which has engaged a third party clearing broker to perform all of the clearance functions. The clearing broker-dealer processes and settles the customer transactions for Merriman Curhan Ford & Co. and maintains the detailed customer records. Additionally, security trades are executed by third-party broker-dealers and electronic trading systems. These expenses are almost entirely variable with commissions revenue and the volume of brokerage transactions. The decrease in brokerage and clearing fees of \$71,000, or 3% from 2004 to 2005 while increasing the corresponding commissions revenue during the same period reflects the cost savings that we achieved by negotiating lower fees with our new clearing broker during the fourth quarter 2004. We anticipate brokerage and

clearing fees for 2006 will increase sequentially over 2005 as we are forecasting a higher level of commissions revenue for 2006.

Professional services expense includes legal fees, accounting fees, expenses related to investment banking transactions and various consulting fees. Many of these expenses, such as legal and accounting fees, are to a large extent fixed in nature. The increase of \$698,000 or 54%, from 2004 to 2005 primarily reflected higher legal costs related to various corporate and investment banking activities. The increase of \$613,000 or 89%, from 2003 to 2004 was primarily attributed to increased accounting and audit costs, legal expense in connection with pending litigation involving our company, and consulting fees in connection with our compliance with Section 404 of the Sarbanes-Oxley Act of 2002. We anticipate professional services expense for 2006 will increase sequentially as compared to 2005.

Occupancy and equipment includes rental costs for our facilities and equipment, as well as equipment, software and leasehold improvement expenses. These expenses are largely fixed in nature and tend to increase as we hire additional employees. The increase of \$625,000, or 65%, from 2004 to 2005 and \$577,000, or 151%, from 2003 to 2004 resulted mostly from expansion of our offices and computer equipment purchases resulting from the hiring of additional sales, trading and investment banking professionals. During 2004, we moved into larger office spaces in San Francisco, New York, Boston, Los Angeles and Portland. We anticipate occupancy and equipment expense for 2006 will increase sequentially over 2005.

Communications and technology expense includes voice, data and Internet service fees, and data processing costs. Historically, these costs have increased as we hire additional employees. The increase of \$525,000, or 37%, from 2004 to 2005 and \$576,000, or 70%, from 2003 to 2004 was due to higher telephone and data service fees incurred in our sales and trading operations. The higher telephone and data service charges are the result of increased headcount and the expansion of our offices, as well as higher costs to upgrade our information technology infrastructure. We anticipate communications and technology expense for 2006 will increase sequentially over 2005.

Depreciation and amortization expense primarily relate to the depreciation of our computer equipment and leasehold improvements. Depreciation and amortization is mostly fixed in nature. The increase of \$366,000, or 225%, from 2004 to 2005 and \$84,000, or 108%, from 2003 to 2004 was due to increased capital expenditures, including leasehold improvements to our San Francisco and New York offices during 2004, to facilitate our growth and expansion. We anticipate depreciation and amortization expense for 2006 will increase sequentially over 2005.

Other operating expense includes professional liability and property insurance, recruiting, investor conferences, travel and entertainment, printing and copying, business licenses and taxes, office supplies and other miscellaneous office expenses. The increase of approximately \$1,887,000, or 59%, from 2004 to 2005 was attributed to higher costs associated with our annual investor conference, recruiting costs, higher travel expenses, and various business taxes. The 2005 expense also includes the write-off of the \$500,000 note receivable from Ascend. The increase of approximately \$1,647,000, or 105%, from 2003 to 2004 was attributed to expenses associated with our first investor conference, higher travel expenses, business development costs, and recruiting expenses. We anticipate other operating expense for 2006 will increase sequentially over 2005.

Gain on Retirement of Convertible Note Payable

In April 2003, we exercised our right to cancel the convertible promissory note held by Forsythe with the principal sum of \$5,949,042. The fair value of the consideration provided to Forsythe was less than the carrying amount of the convertible note payable. The difference between the fair value of the consideration provided to Forsythe and the carrying amount of the note payable was recorded as a gain in condensed consolidated statements of operations.

Interest Income

Interest income represents interest earned on our cash balances maintained at financial institutions. The increase of approximately \$327,000, or 272%, from 2004 to 2005 and \$81,000, or 205% from 2003 to 2004 was due to higher average interest earning assets and higher average interest rates during these periods.

Interest Expense

Interest expense for 2005 included \$66,000 for interest expense and \$10,000 for amortization of discounts and debt issuance costs, while the 2004 amount included \$51,000 for interest expense and \$119,000 for amortization of discounts and debt issuance costs. The slight increase in interest expense in 2005 resulted from capital leases which have grown during 2004 and 2005. The lower amortization of discounts and debt issuance costs in 2005 was due to the accelerated amortization that occurred as the notes payable were retired or converted to equity instruments during 2004. No accelerated amortization occurred during 2005.

Income Tax Expense

Income tax expense reflected taxes calculated for federal and state tax purposes. Realization of our deferred tax assets depends upon us generating sufficient taxable income in future years from the reversal of temporary differences and from net operating loss carryforwards. Due to the uncertainty of the timing and amount of such realization, we concluded that a full valuation allowance of \$30,987,000 was required as of December 31, 2005.

Critical Accounting Policies and Estimates

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to the valuation of securities owned and deferred tax assets. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Valuation of Securities Owned

Securities owned and Securities sold, but not yet purchased in our consolidated statements of financial condition consist of financial instruments carried at fair value or amounts that approximate fair value, with related unrealized gains or losses recognized in our results of operations. The use of fair value to measure these financial instruments, with related unrealized gains and losses recognized immediately in our results of operations, is fundamental to our financial statements and is one of our most critical accounting policies. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fair values of our financial instruments are generally obtained from quoted market prices in active markets, broker or dealer price quotations, or alternative pricing sources with reasonable levels of price transparency. To the extent certain financial instruments trade infrequently or are non-marketable securities and, therefore, have little or no price transparency, we value these instruments based on management's estimates. The fair value of these securities is subject to a high degree of volatility and may

be susceptible to significant fluctuation in the near term. Securities that contain restrictions are stated at a discount to the value of readily marketable securities.

During 2005, we refined our estimation process for valuing the securities owned that are not readily marketable. The most significant change impacted the carrying value of our stock warrant portfolio. Beginning in the fourth quarter of 2005, we carry stock warrants at a discount to fair value as determined by using the Black-Scholes Option Pricing model. Previously, the stock warrants were carried at a discount to intrinsic value, if any. This change in estimate resulted in an unrealized gain of \$424,000 and a decrease in our net loss of \$229,000 during the fourth quarter of 2005.

Revenue Recognition

Commissions revenue and related clearing expenses are recorded on a trade-date basis as security transactions occur. Principal transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of our company are recorded on a trade-date basis.

Investment banking revenue includes underwriting and private placement agency fees earned through our participation in public offerings and private placements of equity and convertible debt securities and fees earned as financial advisor in mergers and acquisitions and similar transactions. Underwriting revenue is earned in securities offerings in which we act as an underwriter and includes management fees, selling concessions and underwriting fees. Management fees are recorded on the offering date, selling concessions on settlement date, and underwriting fees at the time the underwriting is completed and the related income is reasonably determinable. Syndicate expenses related to securities offerings in which the Company acts as underwriter or agent are deferred until the related revenue is recognized. Merger and acquisition fees and other advisory service revenue are generally earned and recognized only upon successful completion of the engagement. Underwriting revenue is presented net of related expenses. Unreimbursed expenses associated with private placement and advisory transactions are recorded as expenses as incurred.

As co-manager for registered equity underwriting transactions, management must estimate our share of transaction related expenses incurred by the lead manager in order to recognize revenue. Transaction related expenses are deducted from the underwriting fee and therefore reduces the revenue that is recognized as co-manager. Such amounts are adjusted to reflect actual expenses in the period in which we receive the final settlement, typically 90 days following the closing of the transaction.

Stock-Based Compensation

We use stock-based compensation as part of our compensation of employees, including stock options, restricted stock and other stock-based awards. Compensation related to restricted stock and other stock-based awards is amortized over the vesting period of the award, which is generally three to four years, and is included in our results of operations as compensation and benefits expense. We use the intrinsic value-based method in accordance with Accounting Principles Board, or APB, Opinion No. 25, *Accounting for Stock Issued to Employees*, to account for employee stock-based compensation. Accordingly, compensation cost is recorded on the date of grant to the extent the fair value of the underlying share of common stock exceeds the exercise price for a stock option or the purchase price for a share of common stock. Such compensation cost is amortized on a straight-line basis over the vesting period of the individual award. Pursuant to Statement of Financial Accounting Standards, or SFAS, No. 123, *Accounting for Stock-Based Compensation*, we disclose the pro forma effect of using the fair value method of accounting for employee stock-based compensation. In determining the estimated fair value of stock options, we use the Black-Scholes option-pricing model, which requires judgment regarding certain assumptions, including the expected life of the options granted, dividend yields and stock volatility.

Deferred Tax Valuation Allowance

We account for income taxes in accordance with the provision of SFAS No. 109, *Accounting for Income Taxes*, which requires the recognition of deferred tax assets and liabilities at tax rates expected to be in effect when these temporary differences reverse. Future tax benefits attributable to temporary differences are recognized to the extent that the realization of such benefits is more likely than not. We have not concluded that it is more likely than not that our deferred tax assets as of December 31, 2005 and 2004 will be realized based on the scheduling of temporary differences and projected taxable income. The amount of the deferred tax assets actually realized, however, could vary if there are differences in the timing or amount of future reversals of existing deferred tax liabilities or changes in the actual amounts of future taxable income. Should we determine that we will be able to realize all or part of the deferred tax asset in the future, an adjustment to the deferred tax asset will be recorded in the period such determination is made.

Liquidity and Capital Resources

Historically, we have satisfied our liquidity and regulatory capital needs through the issuance of equity and debt securities. As of December 31, 2005, liquid assets consisted primarily of cash and cash equivalents of \$11,139,000 and marketable securities of \$8,628,000, for a total of \$19,767,000. Liquid assets were nearly unchanged from December 31, 2004 when they amounted to \$19,801,000. In addition, we fully repaid the \$1 million note payable to Forsythe during the fourth quarter of 2005.

Merriman Curhan Ford & Co., as a broker-dealer, is subject to Rule 15c3-1 of the Securities Exchange Act of 1934, which specifies uniform minimum net capital requirements, as defined, for their registrants. As of December 31, 2005, Merriman Curhan Ford & Co. had regulatory net capital, as defined, of \$7,660,000, which exceeded the amount required by \$6,995,000.

Cash and cash equivalents decreased by \$6,320,000 during 2005. Cash used in our operating activities for 2005 was \$5,194,000 which primarily represents the increase in our marketable securities. Cash used in investing activities amounted to \$558,000 during 2005 which included our acquisition of Catalyst and our purchase of equipment and fixtures. Cash used in our financing activities was \$569,000. Our financing activities included our repayment of the \$1 million note payable to Forsythe, partially offset by the issuance of common stock in connection with our Employee Stock Purchase Plan.

We believe that our existing cash balances and investments will be sufficient to meet our liquidity and capital spending requirements, both for the next twelve months as well as for the long-term. However, we may require additional capital investment to fund our working capital if we incur future operating losses. We cannot be certain that additional debt or equity financing will be available when required or, if available, that we can secure it on terms satisfactory to us.

Edgar Filing: MCF CORP - Form 10-K

The following is a table summarizing our significant commitments as of December 31, 2005, consisting of debt payments related to convertible non-convertible notes payable and capital leases and future minimum lease payments under all non-cancelable operating leases with initial or remaining terms in excess of one year.

	Notes Payable	Operating Leases	Capital Leases
2006	\$ 106,775	\$ 1,478,839	\$ 427,962

Off-Balance Sheet Arrangements

We were not a party to any off-balance sheet arrangements during the three years ended December 31, 2005. In particular, we do not have any interest in so-called limited purpose entities, which include special purpose entities and structured finance entities.

Newly Issued Accounting Standards

In December 2004, the FASB issued SFAS No. 123-R, *Share-Based Payment*, a revision to SFAS No. 123, *Accounting for Stock-Based Compensation*. SFAS No. 123-R focuses primarily on transactions in which an entity exchanges its equity instruments for employee services and generally establishes standards for the accounting for transactions in which an entity obtains goods or services in share-based payment transactions. Generally, SFAS No. 123-R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of operations based on their fair values. Pro forma disclosure is no longer an alternative upon adopting SFAS No. 123-R. We must adopt SFAS No. 123-R by no later than January 1, 2006. We intend to use the modified prospective transition method for implementing SFAS 123R. Based on a high level analysis, we expect that the adoption of SFAS 123R will increase compensation and benefits expense beginning in the first quarter of 2006. However, the specific amount of this increase cannot be predicted at this time because it will depend on the level of share-based payments granted in the future.

In June 2005, the Emerging Issues Task Force, or EITF, reached a consensus on EITF 04-5, *Determining whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights*. This consensus applies to entities not within the scope of FIN 46R, in which the investor is the general partner in a limited partnership. The consensus requires the general partner to consolidate the limited partnership unless it overcomes the presumption of control. The general partner may overcome this presumption and not consolidate the limited partnership if the limited partners have: (a) the ability to liquidate the limited partnership or otherwise remove the general partner through substantive *kick-out rights* that can be exercised without having to demonstrate cause; or (b) substantive participating rights in managing the partnership. This consensus became effective on June 29, 2005 for all newly formed limited partnerships and for existing limited partnerships for which the partnership agreements have been modified. For all other general partnerships, the consensus is effective no later than the beginning of the first reporting period beginning after December 15, 2005. Our asset management subsidiary is forming a number of private equity limited partnerships as general partners. We are currently evaluating the requirements under EITF 04-5 and believe that the adoption will

not have a material impact on our results of operations and cash flows. It could, however, increase our consolidated assets and liabilities.

Quarterly Financial Data

The table below sets forth the operating results represented by certain items in our statements of operations for each of the eight quarters in the period ended December 31, 2005. This information is unaudited, but in our opinion reflects all adjustments (consisting only of normal recurring adjustments) that we consider necessary for a fair presentation of such information in accordance with generally accepted accounting principles. The results for any quarter are not necessarily indicative of results for any future period.

	2005

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following discussion about market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. We may be exposed to market risks related to changes in equity prices, interest rates and foreign currency exchange rates. We do not use derivative financial instruments for speculative, trading or any other purpose.

Equity Price Risk

The potential for changes in the market value of our trading positions is referred to as market risk. Our trading positions result from proprietary trading activities. These trading positions in individual equities and equity indices may be either long or short at any given time. Equity price risks result from exposures to changes in prices and volatilities of individual equities and equity indices. We seek to manage this risk exposure through diversification and limiting the size of individual positions within the portfolio. The effect on earnings and cash flows of an immediate 10% increase or decrease in equity prices generally is not ascertainable and could be positive or negative, depending on the positions we hold at the time. We do not establish hedges in related securities or derivatives. From time to time, we also hold equity securities received as compensation for our services in investment banking transactions. These equity

positions are always long. However, as the prices of individual equity securities do not necessarily move in tandem with the direction of the general equity market, the effect on earnings and cash flows of an immediate 10% increase or decrease in equity prices generally is not ascertainable.

Interest Rate Risk

Our exposure to market risk resulting from changes in interest rates relates primarily to our investment portfolio and long term debt obligations. Our interest income and cash flows may be impacted by changes in the general level of U.S. interest rates. We do not hedge this exposure because we believe that we are not subject to any material market risk exposure due to the short-term nature of our investments. We would not expect an immediate 10% increase or decrease in current interest rates to have a material effect on the fair market value of our investment portfolio.

Our long term debt obligations bear interest at a fixed rate. Accordingly, an immediate 10% increase or decrease in current interest rates would not have an impact on our interest expense or cash flows. The fair market value of our long term fixed interest rate debt is subject to interest rate risk. Generally, the fair market value of fixed interest rate debt will increase as interest rates fall and decrease as interest rates rise. We would not expect an immediate 10% increase or decrease in current interest rates to have a material impact on the fair market value of our long term debt obligations.

Foreign Currency Risk

We do not have any foreign currency denominated assets or liabilities or purchase commitments and have not entered into any foreign currency contracts. Accordingly, we are not exposed to fluctuations in foreign currency exchange rates.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The following financial statements are included in this report:

- Report of Independent Registered Public Accounting Firm
- Consolidated Statements of Operations
- Consolidated Statements of Financial Condition
- Consolidated Statements of Stockholders' Equity
- Consolidated Statements of Cash Flows
- Notes to Consolidated Financial Statements

Schedules other than those listed above are omitted because of the absence of conditions under which they are required or because the required information is presented in the financial statements or notes thereto.

34

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
MCF Corporation and subsidiaries

We have audited the accompanying consolidated statements of financial condition of MCF Corporation and subsidiaries (the Company) as of December 31, 2005 and 2004, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial condition of MCF Corporation and subsidiaries at December 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 15, 2006, expressed an unqualified opinion thereon.

/s/ ERNST & YOUNG LLP

San Francisco, California

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

MCF Corporation is a financial services holding company that provides capital markets services, including institutional sales and trading, research and investment banking, as well as asset management, wealth management and corporate and venture services through its operating subsidiaries, Merriman Curhan Ford & Co., MCF Asset Management, LLC and MCF Wealth Management, LLC. Merriman Curhan Ford & Co. is a securities broker-dealer and investment bank focused on fast growing companies and growth-oriented institutional investors. MCF Asset Management, LLC and MCF Wealth Management, LLC are two recently formed businesses that produce fee based, recurring revenue streams to complement the cyclical nature of the investment banking and institutional sales and trading revenue businesses. Merriman Curhan Ford & Co. is registered with the Securities and Exchange Commission as a broker-dealer and is a member of the National Association of Securities Dealers, Inc. and Securities Investor Protection Corporation.

MCF Corporation, also referred to as the Company, formerly Ratemax Corporation, NetAmerica.com Corporation and Venture World, Ltd., is a Delaware corporation organized on May 6, 1987. In July 2000, the Company's common stock was listed on the American Stock Exchange and currently trades under the symbol MEM. The Company's corporate office is located in San Francisco, California.

Prior to 2002, the Company was engaged in the creation of liquid marketplaces for bandwidth and other telecommunications products, as well as providing trading strategies in the futures and derivatives markets. This prior business experienced significant net losses that resulted in an accumulated deficit of \$87,731,000 as of December 31, 2001.

In December 2001, the Company acquired Instream Securities, Inc. and later changed the name of the entity to RTX Securities Corporation, then to Merriman Curhan Ford & Co. The Company formed MCF Asset Management, LLC in January 2004 and MCF Wealth Management, LLC in January 2005 as wholly owned subsidiaries.

2. Summary of Significant Accounting Policies

Principles of Consolidation

As of December 31, 2005, MCF Corporation had four wholly owned U.S. subsidiaries that have been consolidated in the accompanying financial statements. The subsidiaries include Merriman Curhan Ford & Co., MCF Asset Management, LLC, MCF Wealth Management, LLC and Ratemax 1, Inc. All significant inter-company accounts and transactions have been eliminated.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of ninety days or less to be cash equivalents.

Securities Owned

Securities owned and Securities sold, but not yet purchased in the consolidated statements of financial condition consist of financial instruments carried at fair value or amounts that approximate fair value, with related unrealized gains or losses recognized in the results of operations. The fair value of a

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fair values of the financial instruments are generally obtained from quoted market prices in active markets, broker or dealer price quotations, or alternative pricing sources with reasonable levels of price transparency. To the extent certain financial instruments trade infrequently or are non-marketable securities and, therefore, have little or no price transparency, the Company values these instruments based on management's estimates. The fair value of these securities is subject to a high degree of volatility and may be susceptible to significant fluctuation in the near term. Securities that contain restrictions are stated at a discount to the value of readily marketable securities.

During 2005, the Company refined its estimation process for valuing the securities owned that are not readily marketable. The most significant change impacted the carrying value of the Company's stock warrant portfolio. Beginning in the fourth quarter of 2005, the Company carries stock warrants at a discount to fair value as determined by using the Black-Scholes Option Pricing model. Previously, the stock warrants were carried at a discount to intrinsic value, if any.

Equipment and Fixtures

Equipment and fixtures are reported at historical cost, net of accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over useful lives of three to five years. Leasehold improvements are amortized using the straight-line method over the lesser of the life of the lease or the service lives of the improvements.

Long-Lived Assets

The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. When assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

Commissions and Principal Transactions Revenue

Commissions revenue includes revenue resulting from executing stock exchange-listed securities, over-the counter securities and other transactions as agent for the Company's clients. Principal transactions consist of a portion of dealer spreads attributed to the Company's securities trading activities as principal in NASDAQ-listed and other securities, and include transactions derived from activities as a market-maker. Additionally, principal transactions include gains and losses resulting from market price fluctuations that occur while holding positions in trading security inventory.

Commissions revenue and related clearing expenses are recorded on a trade-date basis as security transactions occur. Principal transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade-date basis.

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Investment Banking Revenue

Investment banking revenue include underwriting and private placement agency fees earned through the Company's participation in public offerings and private placements of equity and convertible debt securities and fees earned as financial advisor in mergers and acquisitions and similar transactions. Underwriting revenue is earned in securities offerings in which the Company acts as an underwriter and includes management fees, selling concessions and underwriting fees. Management fees are recorded on the offering date, selling concessions on settlement date, and underwriting fees at the time the underwriting is completed and the related income is reasonably determinable. Syndicate expenses related to securities offerings in which the Company acts as underwriter or agent are deferred until the related revenue is recognized. Merger and acquisition fees and other advisory service revenue are generally earned and recognized only upon successful completion of the engagement. Underwriting revenue is presented net of related expenses. Unreimbursed expenses associated with private placement and advisory transactions are recorded as expenses as incurred.

As co-manager for registered equity underwriting transactions, management must estimate the Company's share of transaction related expenses incurred by the lead manager in order to recognize revenue. Transaction related expenses are deducted from the underwriting fee and therefore reduces the revenue that is recognized as co-manager. Such amounts are adjusted to reflect actual expenses in the period in which the Company receives the final settlement, typically 90 days following the closing of the transaction.

Stock-Based Compensation

The Company uses the intrinsic value-based method in accordance with Accounting Principles Board, or APB, Opinion No. 25, *Accounting for Stock Issued to Employees*, to account for employee stock-based compensation. Accordingly, compensation cost is recorded on the date of grant to the extent the fair value of the underlying share of common stock exceeds the exercise price for a stock option or the purchase price for a share of common stock. Such compensation cost is amortized on a straight-line basis over the vesting period of the individual award. Pursuant to Statement of Financial Accounting Standards, or SFAS, No. 123, *Accounting for Stock-Based Compensation*, the Company discloses the pro forma effect of using the fair value method of accounting for employee stock-based compensation. Stock-based awards granted to nonemployees are accounted for pursuant to the fair value method in SFAS No. 123 and Issue No. 96-18 of the Emerging Issues Task Force. The associated expense is measured and recognized by the Company over the service period.

In December 2002, the Financial Accounting Standards Board, or FASB, issued SFAS No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure*. SFAS 148 amends SFAS 123 to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company adopted SFAS No. 148 during 2002.

The Company has elected to continue to account for its stock-based compensation in accordance with the provisions of APB 25 and present the pro forma disclosures required by SFAS 123 as amended by SFAS 148. Stock-based employee compensation for the three years ended December 31, 2005 was

MCF CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

accounted for under the intrinsic value method and, therefore, no compensation expense was recognized for those stock options that had no intrinsic value at the date of grant.

If the Company was to recognize compensation expense over the relevant service period under the fair value method with respect to stock options granted for the three years ended December 31, 2005 and all prior periods, net income (loss) would have changed, resulting in pro forma net income (loss) and pro forma net income (loss) per share as presented below:

	2005	2004	2003
Net income (loss), as reported	\$ (1,514,443)	\$ 1,874,286	\$ 2,971,263
Add: Stock-based employee compensation expense included in the reported net income (loss)	74,812	93,078	139,000
Less: Stock-based employee compensation expense determined under fair value method for all awards	(1,604,418)	(1,838,982)	(3,426,880)
Pro forma net income (loss)	\$ (3,044,049)	\$ 128,382	\$ (316,617)
Net income (loss) per share, as reported:			
Basic	\$ (0.02)	\$ 0.03	\$ 0.07
Diluted	\$ (0.02)	\$ 0.02	\$ 0.06
Net income (loss) per share, pro forma:			
Basic	\$ (0.05)	\$ 0.00	\$ (0.03)
Diluted	\$ (0.05)	\$ 0.00	\$ (0.03)

The above pro forma disclosures are not necessarily representative of the effects on reported net income or loss for future years.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is recorded to reduce deferred tax assets to an amount whose realization is more likely than not. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the consolidated statements of operations in the period that includes the enactment date.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss), less dividends on preferred stock, by the weighted average number of common shares outstanding. Diluted earnings per share is calculated for the years ended December 31, 2004 and 2003 by dividing net income less dividends on preferred stock, by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming exercise or conversion of all potentially dilutive common shares outstanding. Diluted loss per share is unchanged from basic loss per

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

share for the year ended December 31, 2005, because the addition of common shares that would be issued assuming exercise or conversion would be anti-dilutive.

Concentrations

Substantially all of the Company's cash and cash equivalents are held at three major U.S. financial institutions. The majority of the Company's cash equivalents consist of short-term marketable securities. Deposits held with banks may exceed the amount of insurance provided on such deposits. Generally these deposits may be redeemed upon demand.

During 2005, 2004 and 2003, one sales professional accounted for 12%, 15% and 13% of revenue, respectively. During 2005 and 2003, no single customer accounted for more than 10% of revenue while one customer accounted for 10% of revenue during 2004.

Fair Value of Financial Instruments

The carrying amounts of the Company's financial instruments, which include securities owned, cash deposited with the Company's clearing organization, receivables, accounts payable, and other accrued expenses, approximate their fair values due to their short maturities. The fair value of the Company's long-term notes payable is estimated based on the current rates offered to the Company for debt of the same remaining maturities.

Segment Reporting

The Company has adopted the provisions of SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. SFAS No. 131 establishes annual and interim reporting standards for operating segments of a company. It also requires entity-wide disclosures about the products and services an entity provides, the material countries in which it holds assets and reports revenue, and its major customers. During 2005, the Company reorganized its operations into three operating segments for the purpose of making operating decisions or assessing performance. These operating segments are organized along operating subsidiaries, Merriman Curhan Ford & Co., MCF Asset Management, LLC and MCF Wealth Management, LLC. Accordingly, the Company operates in three reportable operating segments in the United States. However, only Merriman Curhan Ford & Co. produced financial results that were material to the Company during 2005. Prior to 2005, the Company was not organized into multiple operating segments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results could differ from those estimates.

Newly Issued Accounting Standards

In December 2004, the FASB issued SFAS No. 123-R, *Share-Based Payment*, a revision to SFAS No. 123, *Accounting for Stock-Based Compensation*. SFAS No. 123-R focuses primarily on transactions in which an entity exchanges its equity instruments for employee services and generally establishes standards for the accounting for transactions in which an entity obtains goods or services in share-based

MCF CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

payment transactions. Generally, SFAS No. 123-R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of operations based on their fair values. Pro forma disclosure is no longer an alternative upon adopting SFAS No. 123-R. SFAS No. 123-R must be adopted by the Company no later than January 1, 2006. The Company intends to use the modified prospective transition method for implementing SFAS 123R. Based on a high level analysis, the Company expects that the adoption of SFAS 123R will increase compensation and benefits expense beginning in the first quarter of 2006. However, the specific amount of this increase cannot be predicted at this time because it will depend on the level of share-based payments granted in the future.

In June 2005, the Emerging Issues Task Force, or EITF, reached a consensus on EITF 04-5, *Determining whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights*. This consensus applies to entities not within the scope of FIN 46R, in which the investor is the general partner in a limited partnership. The consensus requires the general partner to consolidate the limited partnership unless it overcomes the presumption of control. The general partner may overcome this presumption and not consolidate the limited partnership if the limited partners have: (a) the ability to liquidate the limited partnership or otherwise remove the general partner through substantive kick-out rights that can be exercised without having to demonstrate cause; or (b) substantive participating rights in managing the partnership. This consensus became effective on June 29, 2005 for all newly formed limited partnerships and for existing limited partnerships for which the partnership agreements have been modified. For all other general partnerships, the consensus is effective no later than the beginning of the first reporting period beginning after December 15, 2005. The Company's asset management subsidiary is forming a number of private equity limited partnerships as general partner. The Company is currently evaluating the requirements under EITF 04-5 and believes that the adoption will not have a material impact on its results of operations and cash flows. It could, however, increase the Company's consolidated assets and liabilities.

3. Securities Owned

The Company trades equity and debt securities for clients in a broker or dealer capacity. While trading activities are primarily generated by client order flow, the Company also takes selective proprietary positions based on expectations of future market movements and conditions. As of December 31, 2005 and 2004, fair value of marketable equity securities owned by the Company was approximately \$8,628,000 and \$2,342,000, respectively.

Securities owned that are not readily marketable consisted of notes receivable, convertible notes receivable, unregistered common stock and stock warrants. As of December 31, 2005 and 2004, the discounted fair value of the securities owned that are not readily marketable was approximately \$1,066,000 and \$259,000, respectively, based on management estimates. Effective for the fourth quarter of 2005, the Company refined its estimation process for valuing the securities owned that are not readily marketable. The most significant change impacted the carrying value of the Company's stock warrant portfolio. As of December 31, 2005, the Company carries stock warrants at a discount to fair value as determined by using the Black-Scholes Option Pricing model. Previously, the stock warrants were carried at a discount to intrinsic value, if any. This change in accounting estimate resulted in an unrealized gain of \$424,000 and a decrease in the Company's net loss of \$229,000 during the fourth quarter of 2005.

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. Equipment and Fixtures

Equipment and fixtures consisted of the following:

	December 31,	
	2005	2004
Computer equipment	\$ 597,470	\$ 409,135
Furniture and equipment	729,675	277,680
Software	151,821	85,579
Leasehold improvements	621,270	488,733
	2,100,236	1,261,127
Less accumulated depreciation	(722,001)	(228,330)
	\$ 1,378,235	\$ 1,032,797

Equipment and fixtures purchased with capital lease financing during 2005 and 2004 were \$625,000 and \$488,000, respectively.

5. Notes Payable and Convertible Notes Payable

Notes payable and convertible notes payable outstanding at December 31, 2005 and 2004 consisted of the following amounts, presented net of certain discounts:

	December 31,	
	2005	2004
Convertible notes payable issues in 2003	\$ 176,741	\$ 166,404
Notes payable:		
Notes issued to Forsythe	\$	\$ 1,000,000
Notes issued to Donald Sledge	231,772	321,324
	\$ 231,772	\$ 1,321,324

Convertible Notes Payable Issued in 2003

In April 2003, the Company completed a private placement financing that included convertible notes payable with aggregate principal of \$1,000,000, due April 2008. The notes bear interest at 3% per annum payable quarterly on January 1, April 1, July 1 and October 1 beginning July 1, 2003. The notes can be converted to common stock at a rate of \$0.20 per share. In connection with the private placement, the Company issued warrants to purchase 1,250,000 shares of common stock with an exercise price of \$0.30 per share and a five-year term. The convertible notes were recorded in the statements of financial condition net of discounts resulting from the relative fair value of the stock warrants and beneficial conversion feature totaling \$258,000. The discount is being amortized over the five-year term. In October 2003, notes payable with a face amount of \$500,000 were converted under their original terms into 2,500,000 shares of common stock resulting in the accelerated amortization of discounts in the amount of \$118,000. In December 2004, notes payable with a face amount of \$300,000 were converted under their original terms into 1,500,000 shares of common stock resulting in the accelerated amortization of discounts in the amount of \$50,000. Amortization of discounts during 2005 was approximately \$10,000. The remaining unamortized discount as of December 31, 2005 was \$23,000.

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Convertible Notes Payable Issued in 2001

In November and December 2001, the Company completed private offerings of convertible notes, in an aggregate principal amount of \$3.5 million, due December 31, 2011. The notes bear interest at 12% per annum payable quarterly on January 1, April 1, July 1 and October 1 beginning April 1, 2002. The notes may be converted into shares of the Company's common stock at the election of the holder anytime before their maturity or their prior redemption or repurchase by the Company. The conversion rate is 2,703 shares of the Company's common stock per each \$1,000 principal amount of notes. The Company has the option to redeem all or a portion of the notes that have not been previously converted subsequent to (i) the registration under the Securities Act of 1933 of the common stock underlying the notes and (ii) the common stock achieving a closing price at or above \$1.59 for 20 consecutive trading days.

In June 2003, the stockholders of the Company approved the offer to exchange the current convertible notes for Series C convertible preferred stock. During 2003, investors elected to exchange their notes with a principal amount of \$2.7 million for 10,800,000 shares of Series C preferred stock. The Series C convertible preferred stock is convertible on demand of the holder into common stock at a ratio of 1:1. The holders of the Series C preferred stock receive an annual dividend at the rate of 3.0% per annum, paid in cash and registration rights for the underlying common stock. During 2003, certain investors with a principal amount of \$650,000 that did not exchange their convertible notes for preferred stock converted their notes into common stock. During 2004, investors with the remaining principal amount of \$150,000 that did not exchange their convertible notes for preferred stock converted their notes into 405,406 shares of common stock. As of December 31, 2005 and 2004, the convertible notes are no longer outstanding.

In connection with the initial financing transaction, the Company granted to the convertible note investors warrants to purchase a total of 1,000,000 shares of common stock at \$0.37 per share. The convertible notes were recorded in the statements of financial condition net of discounts resulting from the relative fair value of the stock warrants and beneficial conversion feature in the amount of \$242,000 and \$333,000, respectively. The discounts were being amortized over the ten-year term using the effective interest method. Amortization of discounts during 2004 and 2003 was approximately \$20,000 and \$494,000, respectively. The discounts were fully amortized by December 31, 2004. Debt issuance costs amounting to \$664,000, includes the fair value of warrants issued to the placement agent to purchase a combination of the Company's convertible notes or common stock, plus stock warrants. The debt issuance costs were being amortized over a ten-year term using the straight-line method. Amortization of debt issuance costs during 2004 and 2003 was approximately \$23,000 and \$589,000, respectively. Debt issuance costs were fully amortized as of December 31, 2004.

Note Payable Held by Forsythe

In September 2001, Forsythe McArthur & Associates, or Forsythe, agreed to forego all amounts owed by the Company under a lease obligation in exchange for a convertible note payable and stock warrants. The convertible note payable issued for \$5.9 million accrued interest at 9% per annum and was due August 31, 2006. The interest was payable in cash, the Company's common stock or a combination of both at the discretion of the Company. The note was convertible into shares of common stock on election of Forsythe at August 31, 2006 with a conversion price equal to 80% of the closing market price of the common stock.

In connection with the convertible note, the Company granted to Forsythe a warrant to purchase 520,833 shares of common stock at \$0.48 per share. The convertible note was presented in the statements

MCF CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

of financial condition net of discounts resulting from the relative fair value of the stock warrant and beneficial conversion feature. The discounts were being amortized over the five-year term using the effective interest method. Amortization of discounts during 2003 was approximately \$60,000.

In November 2002, the Company acquired from Forsythe the right to retire the convertible promissory note payable at a significant discount. The Company purchased a call option from Forsythe in exchange for 500,000 shares of the Company's common stock. In April 2003, the Company exercised its right to cancel the convertible promissory note held by Forsythe.

Forsythe received the following restructured consideration in full and complete satisfaction of all obligations owed to it by the Company:

- a. \$500,000 in cash;
- b. 2,000,000 shares of the Company's common stock, including demand registration rights; and
- c. a new promissory note of principal sum equal to \$1,000,000 bearing interest at 3.5% per annum payable quarterly in cash, maturing on December 31, 2005.

The fair value of the 2,000,000 shares of common stock issued was \$400,000. The new promissory note was recorded at face value while the sum of gross future contractual interest payments amounting to \$105,000 was recorded as interest payable. The total value of the consideration provided to Forsythe to retire the convertible note was \$2,005,000. The carrying value of the convertible note at the time of retirement, net of certain discounts, was \$5,093,000. The Company recorded a gain in the amount of \$3,088,000 as a result this transaction.

The Company repaid the \$1 million note payable to Forsythe in December 2005.

Note Payable Held By Donald Sledge

During 2001, the Company renegotiated the severance terms included in its employment agreement with Donald Sledge, the former Chairman and CEO of the Company. Upon his leaving the Company in May 2001, the Company issued to Mr. Sledge a 7% convertible note, in an aggregate principal amount of \$400,000, due May 2003. Interest was payable at the maturity of the two-year term. In May 2003, the Company and Mr. Sledge agreed to convert the principal and interest due at maturity into a fully amortizing note payable over five years using an effective interest rate of 4.0%. As of December 31, 2005 and 2004, the remaining principal amount of the note payable was \$232,000 and \$321,000, respectively. Mr. Sledge is a member of the Company's Board of Directors.

Interest payable in connection with the notes described above is included with accrued liabilities balance in the statements of financial condition. As of December 31, 2005 and 2004, interest payable amounted to \$2,000 and \$35,000, respectively.

6. Stockholders' Equity

Convertible Preferred Stock, Series A

In April 2001, the Company issued 2,000,000 shares of Series A convertible preferred stock at a price of \$2.19 per share in connection with the purchase of Xpit.com, Inc. The preferred stock was convertible by the holders at a ratio of 1:1 into the Company's common stock. The holders of the Series A preferred stock receive preferred stock dividends at a rate of 6% per annum. The holders of the Series A preferred

MCF CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

stock had a liquidation preference of \$2.75 per share, plus all declared but unpaid dividends. During 2002, holders of the Series A preferred stock converted 1,500,001 shares into common stock. During 2003, the Company issued a stock dividend totaling 157,202 shares of Series A preferred stock. During 2004, the Company issued a preferred stock dividend totaling 35,135 shares of Series A preferred stock. The Company offered to certain of the holders of the Series A preferred stock an additional 26,863 shares of common stock to induce the conversion of the remaining shares of Series A preferred stock to common stock. During 2004, holders of the Series A preferred stock converted the remaining 692,336 shares into 719,199 shares of common stock. Additionally during 2004, the Company issued 138,001 shares of its common stock to certain former holders of the Series A convertible preferred stock pursuant to anti-dilution provisions in the Certificate of Designation of the Series A preferred stock.

Convertible Preferred Stock, Series B

In April 2003, the Company completed a private placement financing that included the issuance of 8,750,000 shares of Series B convertible preferred stock at a purchase price of \$0.20 per share. The preferred stock was convertible by the holders at a ratio of 1:1 into the Company's common stock. The holders of the Series B preferred stock received cash dividends at the rate of 3.0% per annum and registration rights for the underlying common stock. In connection with the private placement, the Company also issued warrants to purchase 2,188,000 shares of common stock with an exercise price of \$0.30 per share and a three-year term. The transaction included officers of MCF Corporation, institutions and accredited investors.

The Series B convertible preferred stock included a term that allowed the Company to induce conversion into common stock subsequent to the Company's stock price closing at or above \$0.60 for ten consecutive days. The stock price milestone was achieved during September 2003. In October 2003, the 8,750,000 shares of Series B preferred stock were converted into common stock. Additionally, the Series B stock warrants included a term requiring investors to exercise the stock warrants within 30 days of the Company's stock price closing at or above \$0.90 for ten consecutive days. The stock price milestone was achieved during September 2003 and stock warrants to purchase 1,562,500 shares issued with the Series B preferred stock were exercised during the fourth quarter of 2003.

Convertible Preferred Stock, Series C

In April 2003, the Company completed a private placement financing that included the issuance of 1,000,000 shares of Series C convertible preferred stock at a purchase price of \$0.25 per share. The preferred stock was convertible by the holders at a ratio of 1:1 into the Company's common stock. The holders of the Series C preferred stock receive cash dividends at the rate of 3.0% per annum and registration rights for the underlying common stock. In connection with the private placement, the Company also issued warrants to purchase 250,000 shares of common stock with an exercise price of \$0.30 per share and a three-year term.

In June 2003, the stockholders of the Company approved the offer to exchange the convertible notes payable with an aggregate principal amount of \$3.5 million issued in 2001 for Series C convertible preferred stock. Certain investors elected to exchange their notes with a principal amount of \$2.7 million for 10,800,000 shares of Series C preferred stock. Other investors, with a principal amount of \$650,000 that did not exchange their convertible notes for Series C preferred stock, converted their notes into common stock. As of December 31, 2003, the remaining convertible notes with an aggregate principal amount of \$150,000 were outstanding.

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Series C convertible preferred stock included a term that allowed the Company to induce conversion into common stock subsequent to the Company's stock price closing at or above \$0.75 for ten consecutive days.

The stock price milestone was achieved during September 2003. In October 2003, the 11,800,000 shares of Series C preferred stock were converted into common stock. Additionally, the 250,000 warrants issued in connection with the Series C convertible preferred stock included a term requiring investors to exercise the stock warrants within 30 days of the Company's stock price closing at or above \$0.90 for ten consecutive days. The stock price milestone was achieved during September 2003 and the stock warrants were exercised during the fourth quarter of 2003.

Common Stock

In May 2005, MCF Corporation entered into a stock purchase agreement with Ascend Services Ltd., or Ascend. The Company issued 1,078,749 shares of its common stock and Ascend has issued an unsecured promissory note payable to the Company in the amount of \$1.5 million. The shares are initially being held in escrow. Upon Ascend achieving specified milestones related to its credit standing, the 1,078,749 shares of common stock would be released from escrow in three installments of 359,583 shares each and provided to Ascend. Upon satisfaction of the conditions specified in the escrow agreement and simultaneous with the release of the related stock certificates, the related amount of the promissory note shall become effective and start accruing interest. The promissory note accrues interest at 10% per annum and matures on February 28, 2006.

Ascend is attempting to raise capital financing in order to enter the reinsurance business. In May 2005, the Company released the first installment of 359,583 shares of common stock to Ascend while the related promissory note with a face value of \$500,000 became effective. In December 2005, the Company learned that Ascend has not been able to execute on their business plan and will not have the financial resources to repay the Company's \$500,000 note receivable at maturity. As a result, the Company recorded a charge to other operating expense in 2005 to write-off the \$500,000 note receivable balance. The remaining 719,166 shares of common stock will be returned to the Company from escrow on February 28, 2006.

In August 2004, London Merchant Securities plc, or LMS, made a private investment of \$6,000,000 in MCF Corporation. The Company issued 4,615,385 shares of common stock to LMS at \$1.30 per share. The \$1.30 value attributed to the 4,615,385 shares of common stock issued to LMS was based upon a negotiated discount to the fair market value of MCF Corporation's quoted stock price over a specified time period. The discount was allowed in order to induce LMS to purchase the unregistered shares in view of their lack of liquidity. LMS was also issued warrants to purchase an additional 1,384,616 shares of common stock at a price of \$1.48 per share. The value attributed to the stock warrant was \$1,212,399. The stock warrants are immediately exercisable from the issue date and have a four year exercise period. The Company registered these shares with the Securities and Exchange Commission in October 2004.

During 2004, investors of the Company's convertible notes payable issued in 2001 and 2003 converted notes payable into 405,406 and 1,500,000 shares of common stock, respectively (see Note 5). Investors also converted shares of Series A preferred stock into 719,199 shares of common stock. Additionally, the Company issued 138,001 shares of its common stock to certain former holders of the Series A convertible preferred stock pursuant to anti-dilution provisions in the Certificate of Designation of the Series A preferred stock. Common stock issued in connection with the exercise of stock options and stock warrants

MCF CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

during 2004 amounted to 3,300,941. Finally, the Company issued 1,406,100 shares of restricted common stock to employees and members of the Company's Board of Directors, 50,000 shares to settle the Glen, Lukrich, Reichard v. MCF Corporation lawsuit and 561,910 shares in connection with the Company's Employee Stock Purchase Plan.

As of December 31, 2003, the Company held 80,000 shares of treasury stock with a basis of \$363,661. During 2004, the 80,000 shares were issued out of treasury in connection with the settlement of the Glen, Lukrich, Reichard v. MCF Corporation lawsuit. The Company recorded a charge to accumulated deficit in the amount of \$231,000 for the difference between the fair value of the 80,000 shares on the date of issuance and the basis in the treasury stock.

During 2003, investors converted notes payable, Series B preferred stock and Series C preferred stock into 4,257,000, 8,750,000 and 11,800,000 shares of common stock, respectively. Common stock issued in connection with the exercise of stock options and stock warrants during 2003 amounted to 2,685,000. Additionally, the Company issued 2,512,000 shares of restricted common stock to employees, 2,000,000 shares to Forsythe, 251,000 shares to various consultants for services rendered and 96,000 shares in connection with the Company's Employee Stock Purchase Plan.

7. Acquisition of Catalyst

In February 2005, the Company acquired Catalyst Financial Planning & Investment Management, Inc., or Catalyst, a registered investment advisor with over \$100 million in assets under management at the time of acquisition. This is the Company's first acquisition of a registered investment advisor. The Company plans to introduce new potential clients to Catalyst from the corporate and venture services group as well as the investment banking group.

The purchase consideration for Catalyst consists of both cash and common stock that will be paid over a three year period. The Company paid to the sole shareholder of Catalyst, or Catalyst Shareholder, \$330,000 as initial consideration at the closing. The Company has also agreed to issue to the Catalyst Shareholder up to 925,325 shares of common stock over three years based upon the amount of revenue growth for Catalyst. The payment of these shares is subject to specified conditions. Such additional amounts will be recorded as compensation expense, if any, when such amounts become due because they are contingent upon the continued employment of the Catalyst Shareholder. The Company acquired 100% of the voting stock in Catalyst. The results of operations for Catalyst are included in the Company's consolidated financial statements beginning March 1, 2005.

The Company considered many factors in determining the purchase price for Catalyst, including estimated future cash flows that could potentially be generated by the assets over their estimated remaining lives and the current market value for registered investment advisors. The value of the purchase price paid for Catalyst relative to the net assets acquired reflects existing customer relationships and the Catalyst trade name. The Company believes that it can build a wealth management business from these assets.

The intangible assets acquired consisted of customer relationships and a trade name. The total amount of the purchase consideration to be allocated to the intangible net assets acquired is \$413,000. This consists of the cash consideration of \$330,000, \$24,000 in legal and deal related costs and net liabilities assumed of \$59,000. The Company allocated the purchase consideration among the purchased intangible assets based on an appraisal provided by a third party valuation consultant. As of the purchase date, there was no amount allocated to goodwill.

MCF CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The customer relationships of the existing wealth management business are being accounted for as amortized intangible assets that are being amortized on a straight-line basis over 96 months, while the trade name is accounted for as an unamortized intangible asset. The gross carrying amount of the customer relationships and trade name is \$330,000 and \$99,000 respectively. Accumulated amortization of the customer relationships as of December 31, 2005 is \$34,000. Amortization of the customer relationships intangible asset over the next five years is projected to be \$41,000 per year.

An impairment loss will be recognized if the carrying amount of the intangible assets is not recoverable and exceeds their fair value. The carrying amount of the intangible assets is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the existing customer relationships and trade name. An impairment loss will be measured as the amount by which the carrying amount of the intangible assets exceeds their fair value.

8. Stock-Based Compensation*Stock Options*

The 1999 Stock Option Plan, 2000 Stock Option and Incentive Plan, 2001 Stock Option and Incentive Plan, 2003 Stock Option and Incentive Plan and 2004 Non-Qualified Stock Option and Inducement Plan, collectively the Option Plans, permit the Company to grant employees, outside directors, and consultants incentive stock options, nonqualified stock options or stock purchase rights to purchase shares of the Company's common stock. The Option Plans do not permit the exercise of non-vested stock options, and therefore as of December 31, 2005 and 2004 there were no shares subject to repurchase.

As of December 31, 2005, there were 32,600,000 shares authorized for issuance under the Option Plans, and 4,290,000 shares authorized for issuance outside of the Option Plans. As of December 31, 2005, 2,735,443 shares were available for future option grants under the Option Plans. There were no shares available for future option grants outside of the Options Plans.

The Company uses the intrinsic-value method in accounting for its stock-based compensation arrangements for employees, whereby compensation cost is measured to the extent that the fair value of the underlying common stock exceeds the exercise price of the stock options at the date of grant. During 2005, 2004 and 2003, the Company granted to employees stock options to purchase 0, 825,000 and 525,000 shares with intrinsic value, respectively. These amounts are being amortized on a straight-line basis over the vesting period, generally four years. Compensation expense resulting from option grants with intrinsic value amounted to \$75,000, \$93,000 and \$139,000 in 2005, 2004 and 2003, respectively. As of December 31, 2005, the unamortized expense attributed to option grants with intrinsic value was \$134,000.

A summary of stock option activity is as follows:

	2005		2004		2003	
	Shares	Wtd-Avg Exercise Price	Shares	Wtd-Avg Exercise Price	Shares	Wtd-Avg Exercise Price
Outstanding at beginning of year	21,545,762	\$ 0.89	21,946,262	\$ 0.88	12,662,889	\$ 2.04
Granted	3,223,500	1.25	1,857,500	1.66	12,515,000	0.44
Exercised	(237,555)	0.40	(859,662)	0.52	(462,149)	0.35
Canceled	(1,261,661)	1.94	(1,398,338)	1.91	(2,769,478)	4.32
Outstanding at end of year	23,270,046	\$ 0.89	21,545,762	\$ 0.89	21,946,262	\$ 0.88
Exercisable at end of year	18,745,626	\$ 0.86	17,192,706	\$ 0.88	14,063,894	\$ 0.99

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Restricted Stock Grants

During 2005, 2004 and 2003, the Company granted 1,272,201, 1,406,110 and 2,511,833 shares of restricted stock, respectively. At the date of grant, the recipient has most of the rights of a stockholder other than voting rights, subject to certain restrictions on transferability and a risk of forfeiture. Restricted shares typically vest over a three to four year period beginning on the date of grant. The Company records unearned compensation in stockholders' equity equal to the market value of the restricted shares on the date of grant and charges the unearned compensation to expense over the vesting period. Amortization expense for restricted stock during 2005, 2004 and 2003 was \$1,885,000, \$1,023,000 and \$223,000, respectively. As of December 31, 2005, the amount of deferred compensation resulting from restricted stock granted to employees that will be expensed as non-cash stock-based compensation in future periods was \$3,013,000. The weighted average fair value of restricted stock granted in 2005, 2004 and 2003 was \$1.47, \$1.79 and \$0.53, respectively.

Stock Warrants

From time to time, the Company issues stock warrants to third-party service providers and in connection with capital financing transactions. Stock-based awards granted to nonemployees are accounted for pursuant to the fair value method in SFAS No. 123 and EITF Issue No. 96-18. The associated expense is measured and recognized by the Company over the period the services are performed by the nonemployee. During 2005, 2004 and 2003, the expense resulting from the issuance of these stock warrants was \$0, \$10,000 and \$14,000, respectively.

As discussed in Note 5 and Note 6, the Company also issued stock warrants to investors in connection with the issuance of convertible notes payable and convertible preferred stock. Such amounts were charged to expense as described in Note 5 and Note 6.

A summary of stock warrant activity is as follows:

	2005		2004		2003	
	Shares	Wtd-Avg Exercise Price	Shares	Wtd-Avg Exercise Price	Shares	Wtd-Avg Exercise Price
Outstanding at beginning of year	6,548,986	\$ 3.16	7,554,203	\$ 2.82	7,770,626	\$ 5.82
Granted			1,419,616	1.47	3,904,250	0.29
Exercised	(204,250)	0.38	(1,839,833)	0.57	(2,222,500)	0.31
Canceled	(2,770,120)	6.30	(585,000)	2.77	(1,898,173)	12.86
Outstanding at end of year	3,574,616	\$ 0.88	6,548,986	\$ 3.16	7,554,203	\$ 2.82
Exercisable at end of year	3,574,616	\$ 0.88	6,548,986	\$ 3.16	6,054,203	\$ 2.24

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Stock Options and Warrants Outstanding

Summary of the outstanding stock options and warrants issued to employees and non-employees as of December 31, 2005 were as follows:

Range of exercise prices	Outstanding		Weighted Average Remaining Contractual Life (years)	Exercisable Warrants/ Options	Weighted Average Exercise Price
	Warrants/ Options	Weighted Average Exercise Price			
Employees					
\$0.05-\$0.50	14,504,358	\$ 0.42	7.1	13,607,201	\$ 0.43
\$0.51-\$1.00	1,992,020	\$ 0.55	6.3	1,746,289	\$ 0.55
\$1.01-\$2.00	4,288,915	\$ 1.32	8.8	962,071	\$ 1.52
\$2.01-\$4.00	1,799,753	\$ 3.15	4.8	1,799,753	\$ 3.15
\$4.01-\$7.00	300,000	\$ 7.00	3.8	300,000	\$ 7.00
Employees	22,885,046			18,415,314	
Non-employees					
\$0.05-\$0.50	2,375,000	\$ 0.28	2.4	2,320,312	\$ 0.28
\$0.51-\$1.00	10,000	\$ 0.75	1.1	10,000	\$ 0.75
\$1.01-\$2.00	1,394,616	\$ 1.48	2.6	1,394,616	\$ 1.48
\$2.01-\$4.00	180,000	\$ 2.83	0.1	180,000	\$ 2.83
Non-employees	3,959,616			3,904,928	
Total	26,844,662			22,320,242	

The weighted average fair value of stock options granted in 2005 was \$0.79. The weighted average fair value of stock options and warrants granted in 2004 was \$0.94 and \$1.10, respectively. The weighted average fair value of stock options and warrants granted in 2003 was \$0.28 and \$0.13, respectively.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions for 2005, 2004 and 2003:

	2005	2004	2003
Risk-free interest rate	3.85 %	2.40 %	1.64 %
Dividend yield			
Volatility	94 %	100 %	100 %
Average expected term (years)	3.7	2.0	2.0

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. In addition, option pricing models require the input of highly subjective assumptions including the expected stock price volatility. The Company uses projected volatility rates, which are based upon historical volatility rates trended into future years. The Company's employee stock options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value estimates.

MCF CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****9. Employee Benefit Plans**

The Company has a 401(k) defined contribution plan. The 401(k) plan allows eligible employees to contribute up to 15% of their compensation, subject to a statutory prescribed annual limit. Employee contributions and earnings thereon vest immediately. Although the Company may make discretionary contributions to the 401(k) plan, none were made during 2005, 2004 and 2003.

The Company offers an Employee Stock Purchase Plan, or ESPP, to its employees. Eligible employees may purchase a limited number of shares of the Company's stock at 85% of the market value at certain plan-defined dates. During 2005, 2004 and 2003, there were 778,750, 561,910 and 96,000 shares of common stock issued under the ESPP, respectively. As of December 31, 2005, there are 2,113,464 additional shares of common stock that have been reserved for issuance under the ESPP.

10. Income Taxes

Income tax expense consisted of the following for the three years ended December 31, 2005:

	2005	2004	2003
Current:			
Federal	\$	\$ 213,165	\$ 13,816
State	142,425	36,579	61,068
Total	\$ 142,425	\$ 249,744	\$ 74,884

The following table reconciles the federal statutory rate to the effective tax rate of the provision for income taxes for the three years ended December 31, 2005:

	2005	2004	2003
Federal statutory income tax rate (benefit)	(34)%	34 %	34 %
State income taxes	3	2	2
Gain on retirement of convertible note payable			(34)
Permanent differences	10	6	8
Losses for which no benefit has been recognized	31	(30)	(8)
Effective tax rate	10 %	12 %	2 %

The tax effect of temporary differences that give rise to significant portions of the deferred tax assets as of December 31, 2005 and 2004 are presented as follows:

	December 31, 2005	2004
Deferred tax assets:		
Net operating loss carryforwards	\$ 19,266,395	\$ 20,154,588
Stock options and warrants for services	11,741,067	11,333,120
Other	(20,759)	(193,005)
Total deferred tax assets	30,986,703	31,294,703
Valuation allowance	(30,986,703)	(31,294,703)
Net deferred tax assets	\$	\$

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The net change in the valuation allowance for the year ended December 31, 2005 was a decrease of \$308,000. The Company has established a valuation allowance against that portion of deferred tax assets where management was not able to determine that it is more likely than not that the asset will be realized.

As of December 31, 2005, the Company had federal and state operating loss carryforwards of approximately \$53,935,000 and \$15,913,000, respectively. If not earlier utilized, the federal net operating loss carryforward will expire between 2019 and 2022 and the state loss carryforward will expire between 2006 and 2013.

Utilization of the net operating loss carry-forwards and credits is subject to an annual limitation due to the ownership change limitations provided by the Internal Revenue Code of 1986, as amended, and similar state provisions. The annual limitation will result in the expiration of a portion of net operating loss carryforwards before utilization.

11. Earnings (Loss) per Share

The following is a reconciliation of the basic and diluted net income (loss) available to common stockholders and the number of shares used in the basic and diluted net income (loss) per common share computations for the periods presented:

	2005	2004	2003
Net income (loss)	\$ (1,514,443)	\$ 1,874,286	\$ 2,971,263
Deemed dividend for issuance of preferred stock			(537,602)
Preferred stock dividends		(92,757)	(115,200)
Net income (loss) available to common stockholders basic	(1,514,443)	1,781,529	2,318,461
Interest and dividends on dilutive common shares			234,377
Net income (loss) available to common stockholders diluted	\$ (1,514,443)	\$ 1,781,529	\$ 2,552,838
Weighted-average number of common shares basic	66,505,233	58,578,048	32,501,831
Assumed exercise or conversion of all potentially dilutive common shares outstanding		19,597,073	12,928,561
Weighted-average number of common shares diluted	66,505,233	78,175,121	45,430,392
Basic net income (loss) per share	\$ (0.02)	\$ 0.03	\$ 0.07
Diluted net income (loss) per share	\$ (0.02)	\$ 0.02	\$ 0.06

During 2003, the investors in the Company's Series B and Series C convertible preferred stock received detachable stock warrants. Deemed dividend for issuance of preferred stock represents the relative fair value assigned to the stock warrants together with the relative fair value of the beneficial conversion feature inherent with the convertible preferred stock. These amounts were charged to accumulated deficit during 2003. All preferred stock dividends, including the deemed dividend described above, are deducted from net income (loss) to arrive at net income (loss) available to common stockholders.

MCF CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Basic earnings (loss) per share is computed by dividing net income (loss), less dividends on preferred stock, by the weighted average number of common shares outstanding, excluding unvested restricted stock. Diluted earnings per share is calculated for 2004 and 2003 by dividing net income, less dividends on preferred stock, by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming exercise or conversion of all potentially dilutive common shares outstanding, including unvested restricted stock. Diluted loss per share is unchanged from basic loss per share for 2005 because the addition of common shares that would be issued assuming exercise or conversion would be anti-dilutive.

Shares used in the diluted net income (loss) per share computation in the above table include the dilutive impact of the Company's stock options and warrants. The impact of the Company's stock options and warrants on shares used for the diluted earnings per share computation is calculated based on the average share price of the Company's common stock for each period using the treasury stock method. Under the treasury stock method, the tax-effected proceeds that would be hypothetically received from the exercise of all stock options and warrants with exercise prices below the average share price of the Company's common stock are assumed to be used to repurchase shares of the Company's common stock. The dilutive impact of the Company's stock options was calculated using an average price of the Company's common stock of \$1.24, \$1.82 and \$0.55 per share for 2005, 2004 and 2003, respectively.

The Company excludes all potentially dilutive securities from its diluted net income (loss) per share computation when their effect would be anti-dilutive. The following common stock equivalents were excluded from the earnings per share computation, as their inclusion would have been anti-dilutive:

	2005	2004	2003
Stock options and warrants excluded due to the exercise price exceeding the average fair value of the Company's common stock during the period	8,051,667	5,385,455	7,690,997
Weighted average restricted stock, stock options and stock warrants, calculated using the treasury stock method, that were excluded due to the Company reporting a net loss during the period	17,154,107		
Weighted average shares issuable upon conversion of the convertible notes payable	1,000,000	2,523,999	5,679,056
Weighted average shares issuable upon conversion of the convertible preferred stock		179,074	4,959,040
Weighted average shares contingently issuable	954,626		
Total common stock equivalents excluded from diluted net income (loss) per share	27,160,400	8,088,528	18,329,093

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

12. Commitments and Contingencies

The following is a table summarizing significant commitments as of December 31, 2005, consisting of debt service payments related to convertible and non-convertible notes payable and future minimum lease payments under all non-cancelable operating leases with initial or remaining terms in excess of one year.

	Notes Payable	Operating Leases	Capital Leases
2006	\$ 106,775	\$ 1,478,839	\$ 427,962
2007	106,775	1,164,157	349,129
2008	243,990	769,476	194,346
2009		552,409	
2010		586,380	
Thereafter		537,515	
Total commitments	\$ 457,540	\$ 5,088,776	\$ 971,437

The Company leases its San Francisco corporate office under a noncancelable operating lease which expires in August 2011. Future annual minimum lease payments related to its various operating leases are included in the table above. Rent expense was approximately \$1,046,000, \$753,000 and \$253,000 in 2005, 2004 and 2003, respectively.

Legal Proceedings

Merriman Curhan Ford & Co. v. The Seidler Companies, Inc. NASD Arbitration

During 2004, the Company's broker-dealer subsidiary hired a research analyst. Prior to employment with Merriman Curhan Ford & Co. the analyst was employed by The Seidler Companies, Inc., or Seidler, in a similar capacity. The analyst was employed under an employment contract that included terms which general counsel and outside counsel believe unlawfully restrict the analyst's employment activities.

In March 2004, we acted as co-agent for a small private placement for a client. The client was introduced to one of our investment banking managing directors. At the time of introduction, Seidler had been trying to win the investment banking business, but had failed to obtain a signed engagement letter with the client. We subsequently received a signed engagement letter from the client that named Merriman Curhan Ford & Co. as co-placement agent. The investment banking transaction was completed.

Thereafter, in March 2004 we received a cease and desist letter from attorneys representing Seidler. Seidler claims that our analyst used proprietary information in violation of his employment agreement when introducing Merriman Curhan Ford & Co. to the client. Seidler further claims that we used unfair business tactics to win the business. In response to the claims, Merriman Curhan Ford & Co. and our analyst filed a claim in arbitration with the NASD in June 2004. In September 2005, this matter was settled. We received a release of all claims from Seidler in exchange for a payment in the amount of \$25,000.

Westerman v. Western Capital Financial Group NASD Arbitration

In May 2005, Merriman Curhan Ford & Co. was served with a claim in NASD Arbitration by Ms. Westerman. The claim names Western Capital Financial Group as one of several defendants. Western Capital Financial Group is the predecessor name of Merriman Curhan Ford & Co., the California corporation. The Western Capital Financial Group name was effective from June 26, 1986 to July 14, 1998.

MCF CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

This claim arises from Ms. Westerman's purchase of a variable annuity product in January 1990 from a predecessor of the Company's dealer subsidiary. MCF Corporation acquired Merriman Curhan Ford & Co. in December 2001. The Claimant alleges that a registered representative improperly recommended that she move her investment to different products on two occasions.

Claimant alleges a theory of predecessor liability against Merriman Curhan Ford & Co. Claimant prays for monetary damages in excess of \$300,000 against the eleven named respondents. We do not believe that Ms. Westerman's claims against Merriman Curhan Ford & Co. are meritorious. We are in the early pleading stages of the matter and a hearing date has been scheduled for September 2006. The Company has meritorious defenses and intends to contest these claims vigorously. However, in the event that we did not prevail, based upon the facts as we know them to date, we do not believe that the outcome will have a material effect on the Company's financial condition, financial results or cashflows.

In re Odimo Incorporated Securities Litigation.

Merriman Curhan Ford & Co. is a defendant in an alleged class action suit brought in connection with a registered offering involving Odimo Incorporated in which we served as co-manager for the company. The complaint, filed in the 17th Judicial Circuit Court for Broward County in Florida on September 30, 2005, alleges violations of federal securities laws against Odimo and certain of its officers as well as the company's underwriters, including us, based on alleged misstatements and omissions in the registration statement. We believe we have meritorious defenses to the actions and intend to vigorously defend against such claims as they apply to the Company. Based upon the facts as we know them to date, we believe that the likelihood that we not prevail is remote. Further, we are indemnified by the issuer defendant.

Other Matters

Additionally, from time to time, the Company is involved as a defendant or plaintiff in various actions that arise in the ordinary course of business. The Company believes that the ultimate disposition of these matters will not have a material adverse effect on the Company's business, financial condition or results of operations.

13. Financial Instruments, Off-Balance Sheet Arrangements and Credit Risk

Financial Instruments

The Company's broker-dealer entity trades securities that are primarily traded in United States markets. As of December 31, 2005 and 2004, the Company had not entered into any transactions involving financial instruments, such as financial futures, forward contracts, options, swaps or derivatives that would expose the Company to significant related off-balance-sheet risk.

In addition, the Company, from time to time, has sold securities it does not currently own in anticipation of a decline in the fair value of that security (securities sold, not yet purchased). Securities sold, not yet purchased represent obligations of the Company to deliver the specified security at the contracted price and thereby create a liability to purchase the security in the market at prevailing prices. These transactions result in off-balance sheet risk as the Company's ultimate obligation to purchase such securities may exceed the amount recognized in the consolidated statements of financial condition.

Market risk is primarily caused by movements in market prices of the Company's trading and investment account securities. The Company's trading securities and investments are also subject to interest rate volatility and possible illiquidity in markets in which the Company trades or invests. The

MCF CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Company seeks to control market risk through monitoring procedures. The Company's principal transactions are primarily long and short equity transactions.

Off-Balance Sheet Arrangements

The Company was not a party to any off-balance sheet arrangements during the three years ended December 31, 2005. In particular, the Company does not have any interest in so-called limited purpose entities, which include special purpose entities and structured finance entities.

Credit Risk

The Company's broker-dealer subsidiary functions as a introducing broker that places and executes customer orders. The orders are then settled by an unrelated clearing organization that maintains custody of customers' securities and provides financing to customers. Through indemnification provisions in agreements with clearing organizations, customer activities may expose the Company to off-balance-sheet credit risk. Financial instruments may have to be purchased or sold at prevailing market prices in the event a customer fails to settle a trade on its original terms or in the event cash and securities in customer margin accounts are not sufficient to fully cover customer obligations. The Company seeks to control the risks associated with customer activities through customer screening and selection procedures as well as through requirements on customers to maintain margin collateral in compliance with various regulations and clearing organization policies.

The Company is also exposed to credit risk as it relates to the collection of receivables from third parties, including lead managers in underwriting transactions and the Company's corporate clients related to private placements of securities and financial advisory services.

14. Regulatory Requirements

Merriman Curhan Ford & Co. is a broker-dealer subject to Rule 15c3-1 of the Securities and Exchange Commission, which specifies uniform minimum net capital requirements, as defined, for their registrants. As of December 31, 2005, Merriman Curhan Ford & Co. had regulatory net capital, as defined, of \$7,660,000, which exceeded the amount required by \$6,995,000. Merriman Curhan Ford & Co. is exempt from Rules 15c3-3 and 17a-13 under the Securities Exchange Act of 1934 because it does not carry customer accounts, nor does it hold customer securities or cash.

15. Related Party Transactions

As described in Note 5, the Company issued a \$400,000 convertible note payable during 2001 to the former Chairman and CEO of the Company in connection with severance terms included in his employment agreement. In May 2003, the Company and Mr. Sledge agreed to convert the principal and interest due at maturity into a five year fully amortizing note payable. As of December 31, 2005, the remaining principal amount of the note payable was \$232,000. Mr. Sledge currently serves as a member of the Company's Board of Directors.

From time to time, officers, directors, employees and/or certain large stockholders of the Company may invest in private placements which the Company arranges and for which the Company charges investment banking fees.

In April 2003, officers, directors and employees of the Company participated as investors in the Series B preferred stock private placement financing.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

The financial statements included in this report have been audited by Ernst & Young LLP, independent auditors, as stated in their audit report appearing herein.

During the year ended December 31, 2005 and through the date of this Annual Report on Form 10-K, there were no disagreements with Ernst & Young LLP on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure which, if not resolved to Ernst & Young LLP's satisfaction, would have caused them to make reference to the subject matter in connection with their report on our consolidated financial statements; and there were no reportable events as set forth in applicable SEC regulations.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures We have established disclosure controls and procedures to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the officers who certify the Company's financial reports and to other members of senior management and the Board of Directors.

Based on their evaluation as of December 31, 2005, the principal executive officer and principal financial officer of the Company have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective.

Management's Report on Internal Control Over Financial Reporting Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control - Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2005. Our management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2005 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Changes in internal controls No change in the Company's internal control over financial reporting (as defined in Rules 13a-15(d) and 15d-15(d) of the Exchange Act) occurred during the quarter ended December 31, 2005, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Not applicable.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
MCF Corporation and subsidiaries

We have audited management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting, that MCF Corporation and subsidiaries (the Company) maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements of financial condition of the Company as of December 31, 2005 and 2004, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2005 of the Company and our report dated February 15, 2006 expressed an unqualified opinion thereon.

/s/ ERNST & YOUNG LLP

San Francisco, California
February 15, 2006

PART III**ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT**

The table below sets forth certain information concerning each of the Directors and executive officers of MCF Corporation:

Name	Age	Position
D. Jonathan Merriman	45	Chairman of the Board of Directors and Chief Executive Officer
Gregory S. Curhan	44	Executive Vice President
Robert E. Ford	45	President and Chief Operating Officer
John D. Hiestand	37	Chief Financial Officer
Christopher L. Aguilar	43	General Counsel
Patrick H. Arbor	69	Director
Anthony B. Helfet		Director
Raymond J. Minehan	64	Director
Scott Potter	37	Director
Dennis G. Schmal	58	Director
Donald H. Sledge	65	Director
Ronald E. Spears	57	Director
Steven W. Town	45	Director

D. Jonathan Merriman has served as our Chairman and Chief Executive Officer from February 2002. Prior to that period, Mr. Merriman was President and CEO of Ralexchange Corporation, the predecessor company to MCF Corporation. Mr. Merriman and his team engineered the transition of Ralexchange, a software trading platform company, into a full-service institutional investment bank, MCF Corporation. From June 1998 to October 2000, Mr. Merriman was Managing Director and Head of the Equity Capital Markets Group and member of the Board of Directors at First Security Van Kasper. In this capacity, he oversaw the Research, Institutional Sales, Equity Trading, Syndicate and Derivatives Trading departments. From June 1997 to June 1998, Mr. Merriman served as Managing Director and Head of Capital Markets at The Seidler Companies in Los Angeles, where he also served on the firm's Board of Directors. Before Seidler, Mr. Merriman was Director of Equities for Dabney/Resnick/Imperial, LLC. In 1989, Mr. Merriman co-founded the hedge fund company Curhan, Merriman Capital Management, Inc., which managed money for high net worth individuals and corporations. Before Curhan, Merriman Capital Management, Inc., he worked in the Risk Arbitrage Department at Bear Stearns & Co. as a trader. Prior to Bear Stearns, Mr. Merriman worked at Merrill Lynch as a financial analyst and as an institutional equity salesman. Mr. Merriman received his Bachelor of Arts in Psychology from Dartmouth College and completed coursework at New York University's Graduate School of Business. Mr. Merriman has served on the Boards of several organizations, including Ralexchange (the predecessor of MCF Corporation) Leading Brands, Inc., Fiberstars Inc. and The San Francisco Art Institute.

Gregory S. Curhan has served as our Executive Vice President from January 2002 to present and served as Chief Financial Officer from January 2002 to January 2004. Previously, he served as Chief Financial Officer of WorldRes.com from May 1999 through June 2001. Prior to joining WorldRes.com, Mr. Curhan served as Director of Global Technology Research Marketing and Managing Director Specialty Technology Institutional Equity Sales at Merrill Lynch & Co. from May 1998 to May 1999. Prior to joining Merrill Lynch, Mr. Curhan was a partner in the investment banking firm of Volpe Brown Whelan & Co., serving in various capacities including Internet research analyst and Director of Equities from May 1993 to May 1998. Mr. Curhan was a founder and principal of the investment advisor Curhan, Merriman Capital Management from July 1988 through December 1992. Prior to founding Curhan, Merriman, Mr. Curhan was a Vice President institutional equity sales for Montgomery Securities from June 1985 through June 1988. From August 1983 to May 1985, Mr. Curhan was a financial analyst in the

investment banking group at Merrill Lynch. Mr. Curhan earned his Bachelor of Arts degree from Dartmouth College.

Robert E. Ford had served as President and Chief Operating Officer for MCF Corporation since February 2001. He brings 20 years of executive and operations experience to the Company. Prior to joining MCF Corporation from February 2000 to February 2001, Mr. Ford was a co-Founder and CEO of Metacat, Inc., a content management ASP that specialized in enabling supplier catalogs for Global 2000 private exchanges and eMarketplaces. From June 1996 to December 1999, he was President/COO and on the founding team of JobDirect.com, a leading resume and job matching service for university students, which was acquired by Korn Ferry International. Previously, Mr. Ford co-founded and managed an education content company from September 1994 to 1996. Prior to that, from May 1992 to August 1994, he headed up a turnaround and merger as General Manager of a 65 year-old manufacturing and distribution company. Mr. Ford started his career as VP of Business Development at Lazar Enterprises, a technology-consulting firm he helped operate from June 1989 to February 1992. He earned his Masters in International Business and Law from the Fletcher School of Law and Diplomacy in 1989 at Tufts University and a BA with high distinction from Dartmouth College in 1982.

John D. Hiestand joined MCF Corporation as the Controller in January 2002 and became Chief Financial Officer in January 2004. From December 2000 to November 2001, he served as the Controller of the Metro-Switching Division at CIENA Corporation. Mr. Hiestand had come to CIENA through the merger with Cyrus Systems, Inc., where he served as the Controller from March 2000 to December 2000. Prior to joining Cyrus Systems, Inc., Mr. Hiestand served as a Senior Manager in the audit practice at KPMG LLP in San Francisco. Mr. Hiestand received a Bachelor of Arts in Business from California Polytechnic State University at San Luis Obispo in 1991, and holds the Certified Public Accountant (CPA) and Chartered Financial Analyst (CFA) designations.

Christopher L. Aguilar has served as General Counsel of MCF Corporation from March 2000 to present and serves as General Counsel and Chief Compliance Officer of Merriman Curhan Ford & Co. He brings 15 years of legal and regulatory experience to the Company. From August 1995 to March 2000, Mr. Aguilar was a partner at Bradley, Curley & Asiano, a San Francisco law firm, where he represented the interests of public and private corporations, small businesses and individuals in commercial litigation. Mr. Aguilar has also worked for the San Francisco City Attorney and Alameda County District Attorney's offices. Mr. Aguilar received his juris doctorate degree from the University of California, Hastings College of the Law. He also attended Oxford University as an undergraduate and received his Bachelor of Arts degree from the Integral Program at St. Mary's College of California where he was included in Who's Who among American Colleges and Universities. Mr. Aguilar is presently an adjunct professor at University of California, Hastings College of the Law.

Patrick H. Arbor has served as a member of our Board of Director since February 2001 and has served as a member of the audit committee since April 2001. Mr. Arbor is currently Chairman of United Financial Holdings Inc., a bank holding company, and is a principal of the trading firm of Shatkin-Arbor & Co. He is a longtime member of the Chicago Board of Trade (CBOT), the world's oldest derivatives exchange, serving as the organization's Chairman from 1993 to 1999. During that period, Mr. Arbor also served on the Board of Directors of the National Futures Association. Prior to that, he served as Vice Chairman of the CBOT for three years and ten years as a Director. Mr. Arbor's other exchange memberships include the Chicago Board Options Exchange, the Mid-America Commodity Exchange and the Chicago Stock Exchange. Mr. Arbor received his undergraduate degree in business and economics from Loyola University.

Anthony B. Helfet, a retired investment banker, has been a director since February 2004. Mr. Helfet was a Special Advisor to UBS Warburg from September 2001 through December 2001. From 1991 to August 31, 2001, Mr. Helfet was a Managing Director of Dillon, Read & Co. Inc. and its successor

organization, UBS Warburg. Mr. Helfet was also a Managing Director of the Northwest Region of Merrill Lynch Capital Markets from 1979 to 1989. Mr. Helfet received his A.B. degree from Columbia College in 1966 and his M.B.A. from the graduate school of business at Columbia University in 1972. From 1967 until 1970, Mr. Helfet served as an infantry officer in the United States Marine Corps and served in Vietnam in 1968 and 1969. Mr. Helfet serves on the Board of Directors of Layne Christensen Company and Alliance Imaging Inc.

Raymond J. Minehan has served as a member of our Board of Directors and as a member of our audit committee and compensation committee since August 2003. From February 2001 to February 2002, Mr. Minehan served as the Chief Financial Officer at Memestreams, Inc., a startup company that was developing information management software. From January 1997 to August 2000, he served as the Chief Administrative Officer at Sutro & Co. where he was responsible for all administrative functions including finance, management information systems, telecommunications, operations, human resources and facilities. From 1989 to 1997, he served as chief financial officer at Hambrecht & Quist, Inc. From 1972 to 1989, Mr. Minehan served as a partner with Arthur Andersen LLP. Mr. Minehan served in the United States Air Force as a navigator assigned to the Strategic Air Command as B-52 navigator/electronic warfare officer. He attained the rank of Captain. Mr. Minehan received his Bachelor of Arts degree in Finance from Golden Gate University.

Scott Potter became a Director of MCF Corporation in August 2004. He currently serves as a Managing General Partner of San Francisco Equity Partners (SFEP), a private equity firm focused on expansion stage companies within the information technology, media, consumer, and service industries. Prior to founding SFEP, Mr. Potter served as Director of LMS Capital, the venture capital arm of London Merchant Securities plc (LON:LMSO), where Mr. Potter oversaw LMS North American Private Equity portfolio. Prior to joining LMS, Mr. Potter held the position of Senior Vice President, Field Operations at Inktomi Corporation where he had responsibility for Inktomi's sales force, business development, consulting services, and field offices. From 1999-2002, Mr. Potter served as President and CEO of Quiver, Inc., an enterprise software company funded by some of the world's leading Venture Capital firms. Under Mr. Potter's leadership, Quiver became a leading company in the Information Management space, and ultimately was acquired by Inktomi in August of 2002. Prior to his tenure at Quiver, Mr. Potter was Executive Vice President in charge of business development and corporate development at Worldres, Inc., an online travel technology company. Mr. Potter's career began as an attorney for one of Silicon Valley's leading law firms, Venture Law Group. A frequent speaker at technology industry conferences and investor forums, Mr. Potter holds a BA in Industrial Psychology from the University of California at Berkeley and a JD Degree from UC Berkeley's Boalt Hall School of Law. Mr. Potter currently serves as Chairman of The Guild, Inc. and serves on the board of directors of Method Products, Modviz, Penguin Computing, and Rave Motion Pictures.

Dennis G. Schmal has served as a member of our Board of Directors and as a member of our audit committee since August 2003. From February 1972 to April 1999, Mr. Schmal served as a partner in the audit practice at Arthur Andersen LLP. Mr. Schmal now performs a variety of consulting services for a number of companies. As a senior business advisor with special focus in finance, he has extensive knowledge of financial reporting and holds the CPA designation. Besides serving on the boards of two private companies, Mr. Schmal also serves on the Board of Directors for Varian Semiconductor Equipment Associates, Inc. (VSEA), a public company. Mr. Schmal attended California State University, Fresno where he received a Bachelor of Science in Business Administration- Finance and Accounting Option.

Donald H. Sledge has served as a member of our Board of Directors from September 1999 to present and Chairman of our Board of Directors from February 2000 to June 2001. He has served as a member of the compensation committee from April 2001 to present. He also served as Chief Executive Officer from February 2000 to October 2000. From September 1999 to February of 2000 he served as President, Chief

Executive Officer and Chairman of our subsidiary Ratexchange I, Inc. From October 2000 to October 2003, Mr. Sledge was a general partner in Fremont Communications, a venture capital fund, based in San Francisco. From January 1996 to September 1999, Mr. Sledge was Vice Chairman and Chief Executive Officer of TeleHub Communications Corporation, a next generation ATM-based telecommunications company. From 1994 to 1995, Mr. Sledge served as President and Chief Operating Officer of WCT, a \$160-million long distance telephone company that was one of Fortune Magazine's 25 fastest growing public companies before it was acquired by Frontier Corporation. From 1993 to 1994, Mr. Sledge was head of operations for New T&T, a Hong Kong-based start-up. He was Chairman and Chief Executive Officer of New Zealand Telecom International from 1991 to 1993 and a member of the executive board of TCNZ, Mr.. Sledge held various other senior positions with Telecom New Zealand from 1988 until 1993 as was instrumental in leading the IPO of the company. Mr. Sledge also served four years as president and Chief Executive Officer of Pacific Telesis International. Mr. Sledge is also an owner and Board Member of DataProse, a company providing direct mail and billing statement solutions. In addition, Mr.. Sledge serves on the Board of MobilePro (OTCBB:MOBL) and the Board of CasaByte, a private company providing quality of service testing for cellular networks. Mr. Sledge holds a Masters of Business Administration and Bachelor of Arts degree in industrial management from Texas Technological University.

Ronald E. Spears has served as a member of our Board of Directors from March 2000 to present and served as a member of the Audit Committee from April 2001 to August 2003. Since March 2002, Mr. Spears has served as President of AT&T's Signature Client Group, the sales organization that serves AT&T's largest 325 Global accounts. From October 1990 until joining AT&T in 2002, Mr. Spears served in a number of early stage ventures primarily involved in the development and sale of technology solutions to large corporate enterprises. During this time, he served as Chief Operating Officer of e.Spire Communications, an East Coast CLEC; Chief Executive Officer of CMGI Solutions, an Internet Professional Services firm; and Chief Executive Officer of Vaultus, a wireless software company. In these roles, he led several successful equity and debt offerings for these ventures. Mr. Spears also served in various capacities at MCI Communications from 1979 to 1990; his last position was President of MCI's Midwest Division from 1984 to 1990. A pioneer of the competitive long distance industry, Mr. Spears began his career in telecommunications as a manager at AT&T Long Lines in 1978, following eight years as an officer in the United States Army. He is a graduate of the United States Military Academy at West Point, and also holds a Master's Degree in Public Service from Western Kentucky University.

Steven W. Town has served as a member of our Board of Directors from October 2000 to present and has served as a member of the compensation committee since April 2001. Mr. Town has served as Co-Chief Executive Officer of the Amerex Natural Gas, Amerex Power and Amerex Bandwidth, Ltd. Mr. Town began his commodities career in 1987 in the retail futures industry prior to joining the Amerex Group of Companies. He began the Amerex futures and forwards brokerage group in natural gas in 1990, in Washington D.C., and moved this unit of Amerex to Houston in 1992. During Mr. Town's tenure as Co-Chief Executive Officer, the Amerex companies have become the leading brokerage organizations in their respective industries. Amerex currently provides energy, power and bandwidth brokerage services to many of the energy companies. Mr. Town is a graduate of Oklahoma State University.

The Company has a standing audit committee whose members are Dennis G. Schmal, Raymond J. Minehan and Patrick H. Arbor.

There is no family relationship among any of the foregoing officers or between any of the foregoing executive officers and any Director of the Company.

The information set forth under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" is incorporated by reference to the Company's definitive 2006 Proxy Statement.

Audit Committee Financial Expert

The board of directors has determined that Dennis G. Schmal and Raymond J. Minehan are audit committee financial experts and independent as defined under applicable SEC and American Stock Exchange rules. The board's affirmative determination for Dennis G. Schmal was based, among other things, upon his 27 years at Arthur Andersen LLP, most of those years as a partner in the audit practice. The board's affirmative determination for Raymond J. Minehan was based, among other things, upon his extensive experience as chief administrative officer of Sutro & Co. and, prior to that, as chief financial officer of Hambrecht & Quist, Inc. and, prior to that, as audit partner of Arthur Andersen LLP.

Financial Code of Ethics

The Company has adopted its Finance Code of Professional Conduct, a code of ethics that applies to our Chief Executive Officer, Chief Financial Officer and other finance organization employees. The finance code of ethics is publicly available on our website at www.merrimanco.com. If we make any substantive amendments to the finance code of ethics or grant any waiver, including any implicit waiver, from a provision of the code to our Chief Executive Officer or Chief Financial Officer, we will disclose the nature of such amendment or waiver on that website or in a report on Form 8-K.
