NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

NOTE 1 - BUSINESS ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for interim reporting. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month period ended July 31, 2008 are not necessarily indicative of the results that may be expected for the year ended January 31, 2009. The information contained in the balance sheet as of January 31, 2008 was derived from the Company's audited financial statements for the year then ended.

Nature of Business

Titan Machinery Inc. (the Company) is engaged in the retail sale, service and rental of agricultural and industrial machinery through stores in North Dakota, South Dakota, Minnesota, Nebraska and Iowa.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Transportation Solutions, LLC. All significant accounts, transactions and profits between the consolidated companies have been eliminated in consolidation.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS 157). This standard defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This standard applies under other accounting pronouncements that require or permit fair value measurements, but does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, which is the year beginning February 1, 2008 for the Company. The Company adopted SFAS 157 effective February 1, 2008. The adoption of SFAS 157 for financial assets and liabilities held by the Company did not have a material effect on the Company s financial statements or notes thereto.

In February 2008, the FASB issued FSP FAS 157-2, Effective Date of FASB Statement No. 157 (FSP FAS 157-2), which permits a one year deferral of the application of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company will adopt SFAS 157 for non-financial assets and non-financial liabilities on February 1, 2009 and does not expect the provisions to have a material effect on its results of operations, financial position or cash flows.

In February 2007, the FASB issued SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose

Table of Contents

different measurement attributes for similar types of assets and liabilities. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company has elected not to apply the fair value option to the specified financial assets and liabilities, and accordingly, the adoption of SFAS No. 159 had no financial statement impact.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (SFAS 141R). SFAS 141R provides additional guidance on improving the relevance, representational faithfulness, and comparability of the financial information that a reporting entity provides in its financial reports about a business combination and its effects. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is in the process of evaluating the effect that the adoption of this standard will have on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements (SFAS 160). SFAS 160 applies to all entities that prepare consolidated financial statements and have an outstanding noncontrolling interest in one or more subsidiaries. SFAS 160 amends Accounting Research Bulletin No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company is in the process of evaluating the effect that the adoption of this standard will have on the Company's financial statements.

On December 21, 2007 the SEC staff issued Staff Accounting Bulletin No. 110 (SAB 110), which, effective January 1, 2008, amends and replaces SAB 107, Share-Based Payment. SAB 110 expresses the views of the SEC staff regarding the use of a simplified method in developing the expected life assumption in accordance with FASB Statement No. 123(R), Share-Based Payment. The use of the simplified method, was scheduled to expire on December 31, 2007. SAB 110 extends the use of the simplified method in certain situations. The SEC staff does not expect the simplified method to be used when sufficient information regarding exercise behavior, such as historical exercise data or exercise information from external sources, becomes available. The Company plans to track and capture employee exercise behavior in the future as a basis for our valuation assumptions. The Company currently uses simplified estimates due to the limited number of options exercised.

Earnings Per Share

Basic earnings per share were computed by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding during the respective periods. Accumulated preferred dividends and amortization of syndication fees were subtracted from net income to arrive at income available to common stockholders. Nonvested restricted stock is excluded from the calculation of basic weighted-average shares outstanding.

Diluted earnings per share were computed by dividing income available to common stockholders plus assumed conversions by the weighted-average common shares outstanding after adjusting for potential dilution related to the conversion of all dilutive securities into common stock. All potentially dilutive securities were included in the computation of diluted earnings per share.

The components of basic earnings per share are as follows:

NOTE 3 - LINE OF CREDIT

The Company entered into a new line of credit agreement with Bremer Bank National Association (Bremer) on August 28, 2008. The agreement provides for available borrowings of \$25,000,000 and carries a variable interest rate of prime minus .25%, and has a maturity date of August 1, 2009. This agreement replaces the previous line of \$12,000,000 which existed on July 31, 2008. Similar to the previous line of credit, the new agreement contains certain financial covenants which impose minimum levels of current ratio, debt service coverage, and inventory turnover ratio and a maximum level of debt to tangible net worth ratio. The line is secured by substantially all assets of the Company. The

NOTE 5 - FLOORPLAN NOTES PAYABLE

Floorplan notes payable with a bank and manufacturers carry various interest rates ranging from 1.35 to 10.35% and are secured by substantially all assets of the Company. Repayment terms vary by individual notes, but generally payments are made from sales proceeds or rental revenue from the related inventories. The Bremer floorplan note payable, with a balance of \$138,849 at July 31, 2008, was secured by the personal guarantee of the Company's Chief Executive Officer. The balance of the Bremer floorplan note payable was paid off in August 2008, and the floorplan component of the loan facility with Bremer Bank, including the personal guarantee, has been terminated.

NOTE 6 - SUBORDINATED DEBENTURES

During the first quarter of the current fiscal year the Company repaid all \$1,300,000 subordinated debentures that were outstanding as of January 31, 2008.

NOTE 7 - STOCK WARRANTS, STOCK OPTIONS AND RESTRICTED STOCK*Common Stock Warrants*

In April 2003, the Company issued stock warrants to Cherry Tree Securities, LLC, whose chairman is a director of the Company, for 11,917 shares of common stock at an exercise price of \$3.00 per share. The warrants terminate on April 7, 2013. In August 2004, the Company issued an additional 6,071 stock warrants to Cherry Tree Securities at an exercise price of \$3.50 per share. These warrants terminate on July 1, 2014.

In addition, the Company issued stock warrants in April 2005 to an outside party for 115,650 shares of common stock at an exercise price of \$3.50 per share. These warrants expire on April 7, 2013.

Table of Contents

The following is a summary of outstanding stock purchase warrants as of July 31, 2008:

Issue Date	Number	Exercise Price	Fair Value Assigned	Purpose of Issuance
April 2003	11,917	\$ 3.00	\$ 11,200	Facilitate preferred stock issuance
August 2004	6,071	\$ 3.50	\$ 6,600	Facilitate preferred stock issuance
April 2005	115,650	\$ 3.50	\$ 126,000	Subordinated debt financing transaction
	133,638			

Outstanding stock warrants are valued using the Black-Scholes option pricing model. Assumptions used to value the warrants are similar to those used in valuing the stock options as described below. Warrants issued in conjunction with a debt offering are valued and classified as Additional Paid-In Capital per Accounting Principles Board No. 14 *Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants*.

Stock Award Plans

The Company implemented the 2005 Equity Incentive Plan, a stock-based compensation plan (the Plan), during the year ended January 31, 2006. In August 2007, the Plan was amended to increase the number of shares available under the Plan from 500,000 to 1,000,000 shares. The purpose of the Plan is to provide incentive compensation to participants for services that have been or will be performed for continuing as employees or members of the Board of Directors of the Company. Under the Plan, the Company may grant incentive stock options, non-qualified stock options and restricted stock for up to 1,000,000 shares of common stock under all forms of awards. The Company accounts for stock options and restricted stock using the fair value method under SFAS 123(R). Shares issued for stock-based awards may be either authorized but unissued shares, or shares of treasury stock acquired in the open market.

Compensation cost charged to operations under the equity incentive plan was \$309,079 for the six months ended July 31, 2008 and \$108,000 for the six months ended July 31, 2007. The income tax benefit recognized from all stock based compensation arrangements was \$123,600 for the six months ended July 31, 2008 and \$42,100 for the six months ended July 31, 2007.

Stock Options

The Company grants stock options as part of its long-term incentive compensation to employees and members of the Board of Directors of the Company. Stock options vest over a period of four to six years for employees and immediately for members of the Board of Directors and have contractual terms of five to ten years.

Table of Contents

The following table summarizes stock option activity for the six months ended July 31, 2008:

	Number of Options	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding at January 31, 2008	483,252	\$ 7.43	
Granted	85,000	21.58	
Exercised	(6,667)	6.00	
Forfeited	(16,665)	7.50	
Outstanding at July 31, 2008	544,920	\$ 9.65	\$ 9,682,641
Options exercisable at July 31, 2008	65,753	\$ 4.89	\$ 1,481,681

The aggregate intrinsic value of stock options exercised was \$151,669 for the six months ended July 31, 2008. There were no options exercised for the six months ended July 31, 2007.

The fair value of each stock option granted is estimated using the Black-Scholes pricing model. The following assumptions were made in estimating fair value:

Assumption	For the Six Months Ended July 31,	
	2008	2007
Dividend Yield	0%	0%
Risk-free interest rate	3.2 - 3.6%	4.9%
Expected life of options	6.75 - 8 years	10 years
Expected volatility	34 - 37%	22%

Prior to the Company's initial public offering the expected volatility was based upon management's best estimate of the value of the shares based upon the Company's internal market. Due to the limited historical stock price data available since our initial public offering, the Company currently estimates its volatility using a blended rate based on quoted market prices of our stock and other similar companies determined by Company management. The expected life of options is estimated consistent with the simplified method identified in SAB 107, the use of which was extended by SAB 110. The simplified method calculates the expected term as the average of the vesting and contractual terms of the award. The risk-free interest rate assumption is based on observed interest rates appropriate for the term of the options. The Company uses historical data to estimate pre-vesting option forfeitures and records share-based compensation expense only for those awards that are expected to vest. The Company recognizes the fair value of stock options as compensation expense ratably over the vesting period of the award.

	544,920	8.2	9.65	65,753	8.0	4.89

As of July 31, 2008, there was \$1,695,000 of unrecognized compensation cost on non-vested stock options that is expected to be recognized over a weighted-average period of 4.4 years.

Restricted Stock

The Company grants restricted shares of common stock in addition to stock options as part of its long-term incentive compensation to employees and members of the Board of Directors of the Company. The fair value of restricted stock awards is determined based on the closing market price of our stock on the business day prior to the date of grant. Restricted stock awards vest over a period of three to six years for employees and over one year for members of the Board of Directors.

The following table summarizes restricted stock activity for the six months ended July 31, 2008:

	Shares	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Term
Outstanding at January 31, 2008	76,506	\$ 7.86	3.22
Granted	10,178	17.53	
Forfeited	(1,132)	9.76	
Issued	(100)	8.50	
Outstanding at July 31, 2008	85,452	8.98	2.50

The Company recognizes compensation expense ratably over the vesting period of the restricted stock. The weighted average grant date fair value of restricted stock granted was \$17.53. There was no restricted stock granted during the six months ended July 31, 2007. As of July 31, 2008, there was \$486,000 of unrecognized compensation cost on non-vested stock options that is expected to be recognized over a weighted-average period of 2.5 years.

NOTE 8 - BUSINESS COMBINATIONS

The Company continued to implement its strategy of consolidating dealerships in desired market areas. Below is a summary of the acquisitions completed for the six months ended July 31, 2008. In certain of its business combination transactions the Company recognizes goodwill. Factors contributing to the recognition of goodwill include an evaluation of enterprise value,

historical financial performance, estimated industry potential within the market and the market territory relationship to other existing and future planned Company locations. Pro forma results are not presented as the acquisitions are not considered material, individually or in aggregate, to the Company. The results of operations of the acquired entities disclosed below have been included in the Company's consolidated results of operations since each of the respective dates of acquisition.

Ceres Equipment

On February 1, 2008, the Company acquired certain assets of Ceres Equipment, Inc. The Dealership is located in Roseau, Minnesota and is contiguous to existing markets. The acquisition increases the Company's market share in the northwest area of Minnesota. The total cash purchase price for the dealership was \$3,940,380. The Company expects the allocation of the purchase price to be finalized during the fiscal year ending January 31, 2009.

Quad County Implement

On May 1, 2008, the Company acquired 100% of the outstanding stock of Quad County Implement, Inc. The Dealership is located in Blairstown, Iowa and is contiguous to existing markets. The acquisition increases the Company's market share in central Iowa. The total cash purchase price for the dealership was \$2,000,000. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date.

Mid-Land Equipment Company

On May 28, 2008, the Company acquired certain assets of Mid-Land Equipment Company, L.C. The acquired entity consisted of six construction equipment stores located in Des Moines, Davenport, Clear Lake and Cedar Rapids, Iowa, and Omaha and Lincoln, Nebraska. These stores are contiguous to existing markets in South Dakota and overlay the existing agricultural locations in Iowa. The total cash purchase price for the dealership was \$14,389,029. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date.

The allocation of the purchase price in the above business combinations is presented in the following table:

Of the total goodwill of \$727,131 recorded in the acquisition transactions during the six months ended July 31, 2008, \$492,254 is expected to be deductible for tax purposes.

NOTE 9 - SUBSEQUENT EVENTS

On September 12, 2008, the Company acquired the assets of Wolf's Farm Equipment for approximately \$0.6 million. The dealership is located in Kintyre, North Dakota. The acquisition expands the Company's presence in central North Dakota.

On September 11, 2008, the Company entered into a Purchase Agreement to acquire the assets of Pioneer Garage, Inc., with three agricultural equipment dealerships. We expect the closing date to be in October 2008. The dealerships are located in Highmore, Pierre, and Miller, South Dakota. The acquisition expands the Company's presence in market areas contiguous to existing dealerships.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our interim consolidated financial statements and related notes included in Item 1 of Part 1 of this Quarterly Report, and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended January 31, 2008.

Critical Accounting Policies

Edgar Filing: Titan Machinery Inc. - Form 10-Q

There have been no material changes in our Critical Accounting Policies, as disclosed in our Annual Report on Form 10-K for the year ended January 31, 2008.

Overview

Edgar Filing: Titan Machinery Inc. - Form 10-Q

We own and operate one of the largest networks of full service agricultural and construction equipment stores in North America. We are the world's largest retail dealer of Case IH Agriculture equipment and a major retail dealer of New Holland Agriculture, Case Construction and New Holland Construction equipment in the U.S. We sell and rent agricultural and construction equipment, sell parts, and service the equipment operating in the areas surrounding our stores.

Our net income was \$3.3 million, or \$0.19 per diluted share, in the quarter ended July 31, 2008, compared to \$1.5 million, or \$0.22 per diluted share, in the quarter ended July 31, 2007. Significant factors impacting the quarter were:

- Strong revenue growth due to acquisitions and same-store sales;

- Increase in gross profits primarily due to increased revenues;

- Increase in operating expenses primarily due to acquisitions and increased revenues; and

- Significantly higher diluted weighted average shares resulting from our two offerings, which negatively impacts earnings per share comparisons to the prior year.

Other, including trucking and rental	\$ 2,665	\$ 1,934	\$ 731	37.8%

The increase in revenue for the three months ended July 31, 2008 was due to acquisitions contributing to current period revenue and same-store sales growth. Acquisitions contributed \$35.4 million in total revenue, or 72.1% of the total revenue increase, while same-store sales growth contributed \$13.7 million, or 27.9% of the increase. Same-store sales increased 15.9% over the same period of the prior year, which is indicative of the strong market for our products, particularly in the area of equipment sales. We believe equipment sales were strong in the three months ended July 31, 2008 due to the growth in global demand for agricultural commodities and the positive impact this commodity demand has had on farm income. We anticipate favorable market conditions will continue for fiscal 2009, assuming normal harvest weather conditions.

Other, including trucking and rental	\$ 1,894	\$ 1,291	\$ 603	46.7%

The increase in cost of revenue for the three months ended July 31, 2008 was primarily due to increased revenue. Acquisitions contributed \$28.6 million in total cost of revenue, or 73.3% of the increase, while same-store sales growth contributed \$10.4 million, or 26.7% of the increase. As a percentage of revenue, cost of revenue was 81.2%, compared to 82.1% for the second quarter of fiscal 2008.

Gross Profit

Edgar Filing: Titan Machinery Inc. - Form 10-Q

	Three months ended July 31, 2008	Three months ended July 31, 2007 (dollars in thousands)	Increase	Percent change
Total gross profit	\$ 25,429	\$ 15,342	\$ 10,087	65.7%

Service	\$ 6,881	\$ 4,977	\$ 1,904	38.3%
Other, including trucking and rental	\$ 771	\$ 643	\$ 128	19.9%

The \$10.1 million increase in gross profit for the three months ended July 31, 2008 was primarily due to increased revenue. Acquisitions contributed \$6.8 million to the gross profit comparison for the three months ending July 31, 2008, which was 67.3% of the increase in total gross profit, while increases in same-store sale gross profits provided the remaining \$3.3 million, or 32.7%, of the gross profit improvement. Gross profit margins were 18.8% for the second quarter of fiscal 2009, compared to 17.9% for the second quarter of fiscal 2008. The current strong market for our products, particularly equipment, has resulted in improved margins compared to the prior year.

Operating Expenses

Edgar Filing: Titan Machinery Inc. - Form 10-Q

	Three months ended July 31, 2008	Three months ended July 31, 2007 (dollars in thousands)	Increase	Percent change
Operating expenses	\$ 19,470	\$ 11,406	\$ 8,064	70.7%

The \$8.1 million increase in operating expenses was primarily due to the additional costs associated with acquisitions such as compensation, rent and depreciation. Other costs contributing to higher operating expenses were increased sales commission expenses (resulting from increased gross profits), and, to a lesser extent, additional costs associated with being a public company, such as increased legal and accounting costs related to regulatory compliance, particularly Sarbanes-Oxley compliance. As a percentage of total revenue, operating expenses increased to 14.4% for the second quarter of fiscal 2009 from 13.3% for the second quarter of fiscal 2008. This increase was partially caused by higher commission expenses, which are paid based on gross profits. Since our current quarter's equipment margins were notably stronger than the prior year, commission expense as a percent of sales increased. Also contributing to the percentage increase is current quarter Sarbanes-Oxley compliance costs.

Interest expense	\$ (230)	\$ (610)	\$ (380)	(62.3)%

Interest and other income increased in the current quarter due to the higher level of cash and cash equivalents in the current three month period compared to the prior year three month period. The decrease in floorplan interest of \$0.4 million was due to lower borrowing rates compared to the prior year quarter. The decrease in interest expense was primarily due to lower debt levels resulting from the retirement of all subordinated debentures as well as the early extinguishment of a portion of our long-term debt. This debt reduction will continue to result in lower interest expense throughout fiscal 2009 compared to that of fiscal year 2008.

Revenue

Edgar Filing: Titan Machinery Inc. - Form 10-Q

	Six months ended July 31, 2008	Six months ended July 31, 2007 (dollars in thousands)	Increase	Percent change
Total revenue	\$ 287,487	\$ 165,639	\$ 121,848	73.6%
Equipment	\$ 218,754	\$ 122,483	\$ 96,271	78.6%
Parts	\$ 45,116	\$ 27,176	\$ 17,940	66.0%
Service	\$ 19,732	\$ 13,041	\$ 6,691	51.3%
Other, including trucking and rental	\$ 3,885	\$ 2,939	\$ 946	32.2%

The increase in revenue for the six months ended July 31, 2008 was due to acquisitions contributing to current period revenue and same-store sales growth. Acquisitions contributed \$80.3 million in total revenue, or 65.9% of the increase, while same-store sales growth contributed \$41.6 million, or 34.1% of the increase. Same-store sales increased 26.5% over the prior year, which is indicative of the strong market for our products, particularly in the area of equipment sales. We believe equipment sales were strong in the six months ended July 31, 2008 due to the growth in global demand for agricultural commodities and the positive impact this commodity demand has had on farm income. We anticipate favorable market conditions will continue for fiscal 2009, assuming normal harvest weather conditions.

Other, including trucking and rental	\$ 2,747	\$ 2,041	\$ 706	34.6%

The increase in cost of revenue for the six months ended July 31, 2008 was primarily due to increased revenue. Acquisitions contributed \$66.0 million in total cost of revenue, or 66.0% of the increase, while same-store sales growth contributed \$34.0 million, or 34.0% of the increase. As a percentage of revenue, cost of revenue was 82.6% for the second quarter of fiscal 2009, compared to 83.0% for the second quarter of fiscal 2008.

Gross Profit

Total gross profit	\$ 50,028	\$ 28,161	\$ 21,867	77.6%

Service	\$ 12,407	\$ 8,153	\$ 4,254	52.2%
Other, including trucking and rental	\$ 1,138	\$ 898	\$ 240	26.7%

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The \$21.9 million increase in gross profit for the six months ended July 31, 2008 was primarily due to increased revenue. Acquisitions contributed \$14.4 million to the gross profit comparison for the six months ending July 31, 2008, which was 66.2% of the total increase in gross profit, while increases in same-store sale gross profits provided the remaining \$7.5 million, or 33.8%, of the gross profit improvement. Gross profit margins were 17.4% for the six months ended July 31, 2008, compared to 17.0% in the prior six month period. The current strong market for our products, particularly equipment, has resulted in improved margins compared to the prior year. The higher equipment margins more than offset the sales mix shift from higher margin revenue (parts and service) to lower margin equipment revenue.

Operating Expenses

Edgar Filing: Titan Machinery Inc. - Form 10-Q

	Six months ended July 31, 2008	Six months ended July 31, 2007 (dollars in thousands)	Increase	Percent change
Operating expenses	\$ 37,652	\$ 21,452	\$ 16,200	75.5%

The increase in operating expenses was primarily due to the additional costs associated with acquisitions such as compensation, rent and depreciation. Other costs contributing to higher operating expenses were increased sales commission expenses (resulting from increased gross profits), and to a lesser extent additional costs associated with being a public company, such as increased legal and accounting costs related to regulatory compliance, particularly Sarbanes-Oxley compliance. As a percentage of total revenue, operating expenses remained relatively constant at 13.1% for the first six months of fiscal 2009 compared to 12.9% for the first six months of fiscal 2008.

Table of Contents*Other Income (Expense)*

	Six months ended July 31, 2008	Six months ended July 31, 2007	Increase/ (Decrease)	Percent change
	(dollars in thousands)			
Interest and other income	\$ 761	\$ 85	\$ 676	795.3%
Floorplan interest	\$ (1,299)	\$ (1,831)	\$ (532)	(29.1)%
Interest expense	\$ (543)	\$ (1,265)	\$ (722)	(57.1)%

Interest and other income increased \$0.7 million for the six months ended July 31, 2008 due to the higher level of cash and cash equivalents in the current six month period compared to the prior year six month period. The decrease in floorplan interest of \$0.5 million was due to lower borrowing rates compared to the prior year six month period. The decrease in interest expense of \$0.7 million was primarily due to lower debt levels resulting from the retirement of all subordinated debentures as well as the early extinguishment of a portion of our long-term debt. This debt reduction will continue to result in lower interest expense throughout fiscal 2009 compared to that of fiscal year 2008.

Provision for Income Taxes

	Six months ended July 31, 2008	Six months ended July 31, 2007	Increase	Percent change
	(dollars in thousands)			
Provision for income taxes	\$ 4,575	\$ 1,468	\$ 3,107	211.6%

The effective tax rate increased to 40.5% for the six months ended July 31, 2008 from 39.7% for the six months ended July 31, 2007. The increase in the effective tax rate from the prior year primarily reflects the changing mix of sales originating in states with higher tax rates. The mix change is primarily impacted by current and prior year acquisitions.

Liquidity and Capital Resources*Cash Flow from Operating Activities*

For the six months ended July 31, 2008, our cash flow provided by operating activities was \$7.4 million. Our cash flows from operations were primarily the result of our reported net income of \$6.7 million, an increase in accounts payable of \$3.5 million, an increase in customer deposits of \$9.6 million and an add-back of non-cash depreciation and amortization of \$1.9 million. This amount was principally offset by an increase in receivables of \$7.7 million and an increase in inventories of \$7.0 million. The large increase in customer deposits and receivables is representative of our growth through acquisitions and strong fiscal 2009 second quarter sales activity.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

For the six months ended July 31, 2007, our cash flow provided by operating activities was \$5.1 million. Our cash flows from operations were primarily the result of our reported net income of \$2.2 million, an increase in customer deposits of \$1.7 million, an increase in accounts payable of \$1.0 million and an add back of non-cash depreciation and amortization of \$1.1 million. This amount was principally offset by a receivables increase of \$0.4 million and a floorplan notes payable decrease of \$0.7 million.

Cash Flow from Investing Activities

For the six months ended July 31, 2008, cash used for investing activities was \$23.9 million. Our cash used for investing activities primarily consisted of equipment dealership purchases of \$20.3 million and purchases of property and equipment for \$3.7 million. The second quarter \$14.4 million purchase of the assets of Mid-Land Equipment Company was the most significant cash acquisition for the current year. Due to our higher cash levels resulting from our public offering proceeds, the Company has been assuming fewer liabilities in recent acquisitions, which therefore have required higher cash payments at the time of acquisition.

For the six months ended July 31, 2007, cash used for investing activities was \$9.1 million. Our cash used for investing activities related to purchases of equipment dealerships (net of cash purchased) was \$5.1 million and purchases of property and equipment was \$4.1 million.

Table of Contents

Cash Flow from Financing Activities

For the six months ended July 31, 2008, cash provided from financing activities was \$60.7 million. Cash provided by financing activities was primarily the result of \$78.9 million in net proceeds from our second quarter follow-on offering. Partially offsetting these proceeds were principal payments on long-term debt and subordinated debentures of \$16.8 million.

For the six months ended July 31, 2007, cash used for financing activities was primarily the result of a decrease in the net change in non-manufacturer floorplan payables of \$4.6 million, proceeds from long-term debt borrowings and subordinated debentures of \$4.1 million and principal payments on long term debt of \$1.7 million.

Sources of Liquidity

Our primary sources of liquidity are cash reserves, cash flow from operations, proceeds from our public offerings, proceeds from the issuance of debt and borrowings under our credit facilities. We expect that ongoing requirements for debt service and capital expenditures will be funded from these sources.

Adequacy of Capital Resources

Our primary uses of cash have been to fund our strategic acquisitions, finance the purchase of inventory, meet debt service requirements and fund operating activities, working capital, payments due under building space operating leases and manufacturer floorplan payable.

Based on our current operational performance, we believe our cash flow from operations, the proceeds from our public offerings, available cash and available borrowings under the existing credit facilities will adequately provide our liquidity needs for, at a minimum, the next 12 months.

Certain Information Concerning Off-Balance Sheet Arrangements

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. We are, therefore, not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships. In the normal course of our business activities, we lease rental equipment under operating leases.

PRIVATE SECURITIES LITIGATION REFORM ACT

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. Such forward-looking information is included in this Quarterly Report on Form 10-Q, including the MD&A section, as well as in our Annual Report on Form 10-K for the year ended January 31, 2008 that was filed with the Securities and Exchange Commission, and in other materials filed or to be filed by the Company with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Company).

Forward-looking statements include all statements based on future expectations and specifically include, among other things, all statements relating to (i) our beliefs that our market share is growing, (ii) our beliefs with respect to market conditions, including our belief that favorable market conditions will continue for fiscal 2009, and (iii) our expectations and beliefs with respect to the uses and adequacy of our capital resources. Any statements that are not based upon historical facts, including the outcome of events that have not yet occurred and our expectations for future performance, are forward-looking statements. The words potential, believe, estimate, expect, intend, may, could, plan, anticipate, and similar words and expressions are intended to identify forward-looking statements. Such statements are based upon the current beliefs and expectations of our management. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by or on behalf of the Company. These risks and uncertainties include, but are not limited to, adverse market conditions in the agricultural and equipment industries, and those matters identified and discussed in our Annual Report on Form 10-K under the section titled Risk Factors .

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices such as interest rates. For fixed rate debt, interest rate changes affect the fair value of financial instruments but do not impact earnings or cash flows. Conversely, for floating rate debt, interest rate changes generally do not affect the fair market value but do impact future earnings and cash flows, assuming other factors are held constant.

Based upon balances and interest rates as of July 31, 2008, holding other variables constant, a one percentage point increase in interest rates for the next 12-month period would decrease pre-tax earnings and cash flow by approximately \$367,000. Conversely, a one percentage point decrease in interest rates for the next 12-month period would result in an increase to pre-tax earnings and cash flow of approximately \$367,000. At July 31, 2008, we had variable rate floorplan notes payable of \$118.1 million, of which approximately \$35.2 million was interest-bearing, variable notes payable and long-term debt of \$1.5 million, and fixed rate notes payable and long-term debt of \$2.7 million.

Our policy is not to enter into derivatives or other financial instruments for trading or speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* After evaluating the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act) as of the end of the period covered by this quarterly report, our chief executive officer and chief financial officer with the participation of the Company's management, have concluded that the Company's disclosure controls and procedures are effective to ensure that information that is required to be disclosed by the Company in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules of the Securities Exchange Commission. Our chief executive officer and chief financial officer, with the participation of the Company's management, have also concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosures.

Based on evaluations occurring prior to the end of the period covered by this quarterly report, our chief executive officer and chief financial officer concluded that certain internal control deficiencies existed. In light of these deficiencies, management took the actions, as discussed below, prior to and during the first and second quarter to address such deficiencies.

(b) *Changes in internal controls.* There has not been any change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) as promulgated by the Securities and Exchange Commission under the Act) during its most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. During the second quarter of fiscal 2009, the Company continued to implement the actions identified in its Form 10-Q for the Company's third quarter of fiscal 2008 relating to remediating past control deficiencies.

PART II. - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are currently not a party to any material pending legal proceedings.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, including the important information in Private Securities Litigation Reform Act, you should carefully consider the Risk Factors discussed in our Form 10-K for the year ended January 31, 2008 as filed with the United States Securities and Exchange Commission. Those factors, if they were to occur, could cause our actual results to differ materially from those expressed in our forward-looking statements in this report, and materially adversely affect our financial condition or future results. Although we are not aware of any other factors that we currently anticipate will cause our forward-looking statements to differ materially from our future actual results, or materially affect the Company's financial condition or future results, additional risks and uncertainties not currently known to us or that we currently deem to be immaterial might materially adversely affect our actual business, financial condition and/or operating results.

There have been no material changes to the risk factors described in our Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On December 11, 2007, we closed the initial public offering (IPO) of our common stock, pursuant to which we sold 5,442,395 shares of our common stock and selling stockholders sold 1,457,605 shares. We filed a Registration Statement on Form S-1 in connection with the IPO (SEC File No. 333-145526) that was declared effective on December 6, 2007, as well as a Registration Statement on Form S-1 relating to an increase in the proposed maximum aggregate offering price (SEC File No. 333-147859). We received net proceeds, after expenses, from the IPO of approximately \$41.8 million. Offering expenses related to the IPO included an underwriting discount of approximately \$3.2 million and other offering expenses of approximately \$1.2 million. During the six-month period ended July 31, 2008, we used \$1.3 million of the net proceeds from the IPO to repay subordinated debt held by former owners of acquired dealerships, \$5.5 million to repay term debt held primarily by CNH Capital and former owners of acquired dealerships, \$9.4 million to repay fixed rate long-term debt from Bremer Bank, \$3.9 million to acquire certain assets of Ceres Equipment, Inc., \$14.4 million to acquire certain assets of Mid-Land Equipment Company, and \$2.0 million to acquire the outstanding stock of Quad County Implement. We intend to use the remaining proceeds from the IPO to fund potential acquisitions of CNH agricultural and construction equipment dealerships and for general corporate purposes, including working capital needs.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The stockholders of the Company voted on one item, the election of two Class I directors, at the Annual Meeting of Stockholders held on June 3, 2008:

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Proxies for the Annual Meeting were solicited pursuant to Regulation 14A under the Securities Exchange Act of 1934. There was no solicitation in opposition to management's nominees, and the stockholders elected the following persons as directors of the Company to serve until the 2011 Annual Meeting:

Nominee	Votes For	Votes Withheld
Tony Christianson	11,906,252	206,387
James Irwin	11,975,817	136,822

The following individuals will continue to serve as directors of the Company: David Meyer, Peter Christianson, Gordon Paul Anderson, John Bode, and James Williams.

ITEM 5. OTHER INFORMATION

On September 9, 2008, our Compensation Committee approved the Titan Machinery Inc. Executive Bonus Plan. Under the Executive Bonus Plan, our Chief Executive Officer and President-Chief Financial Officer may earn a potential bonus of up to 200% of his or her base salary in a fiscal year and each other executive officer may earn a potential bonus of up to 70% of his or her base salary depending on such person's position. The Plan provides that 40% of the eligible bonus for our named executive officers is based upon achievement of Titan's annual pre-tax net income goal, 20% is based on achievement of Titan's annual total sales goal and 20% is based on Titan's annual return on assets goal. The remaining 20% of the eligible bonus is based upon achievement of personal position-specific goals approved by the Compensation Committee after consultation with the named executive officers. The personal position-specific goals for the named executive officers may relate to share performance, respective department personnel development, execution of strategies related to acquisitions, real estate, financing and investments, internal and external reporting or implementation of unique position-specific projects that may vary annually. The annual bonuses will be paid 100% in cash.

A copy of the Executive Bonus Plan has been filed as Exhibit 10.2 to this Quarterly Report on Form 10-Q.
