Letter from the chairman

Dear Shareholder,

Economic growth in the U.S. was mixed during the six-month reporting period ended November 30, 2008. Looking back, during the fourth quarter of 2007, U.S. gross domestic product (GDP) declined 0.2%. This weakness was triggered by problems in the housing market, an ongoing credit crunch and soaring oil and food prices. The economy then expanded 0.9% and 2.8% during the first and second quarters of 2008, respectively. This rebound was due, in part, to rising exports that were buoyed by a weakening U.S. dollar and solid consumer spending, which was aided by the government's tax rebate program. The dollar's rally and the end of the rebate program, combined with other strains on the economy, then caused GDP to take a step backward in the third quarter of 2008. According to the U.S. Department of Commerce, third quarter 2008 GDP declined 0.5%.

In early December 2008, after the reporting period ended, the National Bureau of Economic Research (NBER) announced that a recession had begun in December 2007. While one definition of a recession is based on having two consecutive quarters of negative growth (which has not yet occurred), the NBER determined that a recession had already started using its definition, which is based on a significant decline in economic activity spread across the economy, lasting more than a few months, normally visible in production, employment, real income and other indicators.

Regardless of how one defines a recession, it certainly has felt like we are in the midst of an economic contraction. Consumer spending, which represents approximately two-thirds of GDP, has fallen sharply. During November 2008, sales at U.S. retailers experienced their largest monthly decline in nearly 40 years. In terms of the job market, the U.S. Department of Labor reported that payroll employment declined in each of the 12 months of 2008. During 2008 as a whole, 2.6 million jobs were lost, the largest annual decline since World War II ended in 1945. In addition, at the end of 2008, the unemployment rate had risen to 7.2%, its highest level since January 1993.

Letter from the chairman *continued*

Ongoing issues related to the housing and subprime mortgage markets and seizing credit markets prompted the Federal Reserve Board (Fed)ⁱⁱ to take aggressive and, in some cases, unprecedented actions. Beginning in September 2007, the Fed reduced the federal funds rateⁱⁱⁱ from 5.25% to 4.75%. This marked the first such reduction since June 2003. The Fed then reduced the federal funds rate on six additional occasions through April 2008, bringing the federal funds rate to 2.00%. The Fed then shifted gears in the face of mounting inflationary prices and a weakening U.S. dollar. At its meetings in June, August and September 2008, the Fed held rates steady. Then, on October 8, 2008, in a global coordination effort with six central banks around the world, interest rates were cut in an attempt to reduce the strains in the global financial markets. At that time, the Fed lowered the federal funds rate from 2.00% to 1.50%. The Fed again cut rates from 1.50% to 1.00% at its regularly scheduled meeting on October 29, 2008. On December 16, 2008, after the reporting period ended, the Fed cut rates to a range of zero to 0.25%, the lowest level since the Fed started publishing the federal funds rate in 1990. In conjunction with its December meeting, the Fed stated that it will employ all available tools to promote the resumption of sustainable economic growth and to preserve price stability. In particular, the Committee anticipates that weak economic conditions are likely to warrant exceptionally low levels of the federal funds rate for some time.

In addition to the interest rate cuts, the Fed took several actions to improve liquidity in the credit markets. In March 2008, the Fed established a new lending program allowing certain brokerage firms, known as primary dealers, to also borrow from its discount window. Also in March, the Fed played a major role in facilitating the purchase of Bear Stearns by JPMorgan Chase. In mid-September 2008, it announced an \$85 billion rescue plan for ailing AIG and pumped \$70 billion into the financial system as Lehman Brothers' bankruptcy and mounting troubles at other financial firms roiled the markets.

The U.S. Department of the Treasury has also taken an active role in attempting to stabilize the financial system, as it orchestrated the government's takeover of mortgage giants Fannie Mae and Freddie Mac in September 2008. In addition, on October 3, 2008, the Treasury's \$700 billion Troubled Asset Relief Program (TARP) was approved by Congress and signed into law by President Bush. As part of TARP, the Treasury had planned to purchase bad loans and other troubled financial assets. However, in November 2008, Treasury Secretary Paulson said, "Our assessment at this time is that this is not the most effective way to use TARP funds, but we will continue to examine whether targeted forms of asset purchase can play a useful role, relative to other potential uses of TARP resources, in helping to strengthen our financial system and support lending."

II Western Asset Managed Municipals Fund Inc.

During the six-month reporting period ended November 30, 2008, both short- and long-term Treasury yields experienced periods of extreme volatility. Earlier in the year, investors were focused on the subprime segment of the mortgage-backed market. These concerns broadened, however, to include a wide range of financial institutions and markets. As a result, other fixed-income instruments also experienced increased price volatility. This unrest triggered several flights to quality, at which times Treasury yields moved lower (and their prices higher), while riskier segments of the market saw their yields move higher (and their prices lower). This was particularly true toward the end of the reporting period, as the turmoil in the financial markets and sharply falling stock prices caused investors to flee securities that were perceived to be risky, even high-quality corporate bonds and high-grade municipal bonds. On several occasions, the yield available from short-term Treasuries fell to nearly zero, as investors were essentially willing to forgo any return potential in order to access the relative safety of government-backed securities. During the six months ended November 30, 2008, two-year Treasury yields fell from 2.66% to 1.00%. Over the same time frame, 10-year Treasury yields moved from 4.06% to 2.93%.

The municipal bond market underperformed its taxable bond counterpart over the six months ended November 30, 2008. Over that period, the Barclays Capital Municipal Bond Index^{iv} and the Barclays Capital U.S. Aggregate Index^v returned -4.98% and 0.24%, respectively. Even though municipal securities typically hold up fairly well during periods of market volatility, the aforementioned flight to quality into Treasuries negatively impacted the tax-free bond market.

Performance review

For the six months ended November 30, 2008, Western Asset Managed Municipals Fund Inc. returned -14.62% based on its net asset value (NAV)^{vi} and -9.90% based on its New York Stock Exchange (NYSE) market price per share. The Fund's unmanaged benchmark, the Barclays Capital Municipal Bond Index, returned -4.98% over the same time frame. The Lipper General Municipal Debt (Leveraged) Closed-End Funds Category Average^{vii} returned -19.82% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

During the six-month period, the Fund made distributions to shareholders totaling \$0.27 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of November 30, 2008. **Past performance is no guarantee of future results.**

Letter from the chairman *continued*

Certain investors may be subject to the federal alternative minimum tax, and state and local taxes will apply. Capital gains, if any, are fully taxable. Please consult your personal tax or legal adviser.

PERFORMANCE SNAPSHOT as of November 30, 2008 (unaudited)

	6-MONTH
	TOTAL RETURN*
PRICE PER SHARE	(not annualized)
\$10.04 (NAV)	-14.62%
\$9.77 (Market Price)	-9.90%

All figures represent past performance and are not a guarantee of future results.

* **Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.**

A special note regarding increased market volatility

In recent months, we have experienced a series of events that have impacted the financial markets and created concerns among both novice and seasoned investors alike. In particular, we have witnessed the failure and consolidation of several storied financial institutions, periods of heightened market volatility, and aggressive actions by the U.S. federal government to steady the financial markets and restore investor confidence. While we hope that the worst is over in terms of the issues surrounding the credit and housing crises, it is likely that the fallout will continue to impact the financial markets and the U.S. economy well into 2009.

Like all asset management firms, Legg Mason has not been immune to these difficult and, in some ways, unprecedented times. However, today's challenges have only strengthened our resolve to do everything we can to help you reach your financial goals. Now, as always, we remain committed to providing you with excellent service and a full spectrum of investment choices. And rest assured, we will continue to work hard to ensure that our investment managers make every effort to deliver strong long-term results.

We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our enhanced website, www.leggmason.com/cef. Here you can gain immediate access to many special features to help guide you through difficult times, including:

- Fund prices and performance,

- Market insights and commentaries from our portfolio managers, and

- A host of educational resources.

IV Western Asset Managed Municipals Fund Inc.

During periods of market unrest, it is especially important to work closely with your financial advisor and remember that reaching one's investment goals unfolds over time and through multiple market cycles. Time and again, history has shown that, over the long run, the markets have eventually recovered and grown.

Information about your fund

Important information with regard to recent regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

Looking for additional information?

The Fund is traded under the symbol **MMU** and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol **XMMUX** on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as www.leggmason.com/cef.

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 6:00 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

January 9, 2009

Letter from the chairman *continued*

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

RISKS: Fixed-income investments are subject to interest rate risk. As interest rates rise, the price of fixed-income investments declines. Lower-rated, higher-yielding bonds are subject to greater credit risk than higher-rated investment grade securities. Derivatives are subject to a number of risks such as liquidity risk, interest rate risk, credit risk, leveraging risk, management risk, and may disproportionately increase losses and could have a potentially large impact on Fund performance.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- i Gross domestic product (GDP) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- iv The Barclays Capital (formerly Lehman Brothers) Municipal Bond Index is a market value weighted index of investment grade municipal bonds with maturities of one year or more.
- v The Barclays Capital (formerly Lehman Brothers) U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- vi Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.
- vii Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended November 30, 2008, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 60 funds in the Fund's Lipper category.

(a) Pre-Refunded bonds are escrowed with U.S. government obligations and/or U.S. government agency securities and are considered by the investment manager to be triple-A rated even if issuer has not applied for new ratings.

(b) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax (AMT).

(c) Bonds are escrowed to maturity by government securities and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.

(d) Variable rate security. Interest rate disclosed is that which is in effect at November 30, 2008.

(e) All or a portion of this security is held at the broker as collateral for open futures contracts.

(f) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.

Aggregate cost for federal income tax purposes is substantially the same.

Bond ratings (unaudited)

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service (Standard & Poor's) Ratings from AA to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standings within the major rating categories.

AAA	Bonds rated AAA have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.
A	Bonds rated A have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
BB, B, CCC, CC and C	Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents the lowest degree of speculation and C the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
D	Bonds rated D are in default and payment of interest and/or repayment of principal is in arrears.

Moody's Investors Service (Moody's) Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aaa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa	Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge". Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes can be visualized as most unlikely to impair the fundamentally strong position of such issues.
Aa	Bonds rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in Aaa securities.
A	Bonds rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
Baa	Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
Ba	Bonds rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

B	Bonds rated B generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
Caa	Bonds rated Caa are of poor standing. These may be in default, or present elements of danger may exist with respect to principal or interest.
Ca	Bonds rated Ca represent obligations which are speculative in a high degree. Such issues are often in default or have other marked short-comings.
C	Bonds rated C are the lowest class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
NR	Indicates that the bond is not rated by Standard & Poor's or Moody's.

Short-term security ratings (unaudited)

SP-1	Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
A-1	Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
VMIG 1	Moody's highest rating for issues having a demand feature VRDO.
MIG1	Moody's highest rating for short-term municipal obligations.
P-1	Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.

1 For the six months ended November 30, 2008 (unaudited).

2 Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

3 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

4 The prior investment manager fully reimbursed the Fund for losses incurred resulting from an investment transaction error. Without this reimbursement, total return would have been 6.02%.

5 Calculated on the basis of average net assets of common stock shareholders. Ratios do not reflect the effect of dividend payments to preferred stockholders.

6 Annualized.

7 Included in the expense ratios are certain non-recurring restructuring (and reorganization, if applicable) fees that were incurred by the Fund during the period. Without these fees, the gross and net expense ratios would both have been 1.05%.

8 Reflects fee waivers and/or expense reimbursements.

9 Excludes accumulated and unpaid distributions.

See Notes to Financial Statements.

Notes to financial statements (unaudited)

1. Organization and significant accounting policies

Western Asset Managed Municipals Fund Inc. (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is to seek as high a level of current income exempt from federal tax as is consistent with preservation of principal.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

(a) Financial futures contracts. The Fund may enter into financial futures contracts typically to hedge a portion of the portfolio. Upon entering into a financial futures contract, the Fund is required to deposit cash or securities as initial margin, equal in value to a certain percentage of the contract amount (initial margin deposit). Additional securities are also segregated up to the current market value of the financial futures contracts. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial instruments. When the financial futures contracts are closed, a realized gain or loss is recognized equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contracts.

The risks associated with entering into financial futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying financial instruments. In addition, investing in financial futures contracts involves the risk that the Fund could lose more than the initial margin deposit and subsequent payments required for a futures transaction. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

(b) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

(c) Distributions to shareholders. Distributions from net investment income for the Fund, if any, are declared quarterly and paid on a monthly basis. The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from federal and certain state income taxes, to retain such tax-exempt status when distributed to the shareholders of the Fund. Distributions

18 Western Asset Managed Municipals Fund Inc. 2008 Semi-Annual Report

of net realized gains, if any, are taxable and are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

In addition, the holders of the Auction Rate Cumulative Preferred Stock shall be entitled to receive dividends out of the funds legally available to shareholders.

(d) Net asset value. The net asset value (NAV) of the Fund's Common Stock is determined no less frequently than the close of business on the Fund's last business day of each week (generally Friday) and on the last business day of the month. It is determined by dividing the value of the net assets available to Common Stock by the total number of shares of Common Stock outstanding. For the purpose of determining the NAV per share of the Common Stock, the value of the Fund's net assets shall be deemed to equal the value of the Fund's assets less (1) the Fund's liabilities, (2) the aggregate liquidation value (i.e., \$25,000 per outstanding share) of the Auction Rate Cumulative Preferred Stock.

(e) Federal and other taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of November 30, 2008, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

(f) Reclassification. GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

2. Investment valuation

Effective June 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

Notes to financial statements (unaudited) continued

Securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various other relationships between securities. Futures contracts are valued daily at the settlement price established by the board of trade or exchange in which they trade. When prices are not readily available, or are determined not to reflect fair value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

	November 30, 2008	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)
Investments in Securities	\$663,848,652		\$663,848,652	
Other Financial Instruments*	(1,034,470)	\$(1,034,470)		
Total	\$662,814,182	\$(1,034,470)	\$663,848,652	

* Other financial instruments includes futures contracts.

3. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC (LMPFA) is the Fund's investment manager and Western Asset Management Company (Western Asset) is the Fund's subadviser. LMPFA and Western Asset are wholly-owned subsidiaries of Legg Mason, Inc. (Legg Mason).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays LMPFA an investment management fee, calculated daily and paid monthly, at an annual rate of 0.55% of the Fund's average daily net assets, plus the aggregate liquidation value of the Fund's preferred stock.

LMPFA has delegated to Western Asset the day-to-day portfolio management of the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

4. Investments

During the six months ended November 30, 2008, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$217,462,890
Sales	220,688,356

At November 30, 2008, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 13,394,531
Gross unrealized depreciation	(65,892,468)
Net unrealized depreciation	\$(52,497,937)

At November 30, 2008, the Fund had the following open futures contracts:

	NUMBER OF CONTRACTS	EXPIRATION DATE	BASIS VALUE	MARKET VALUE	UNREALIZED LOSS
Contracts to Sell:					
U.S. Treasury 30-Year Bonds	662	3/09	\$83,360,186	\$84,394,656	\$(1,034,470)

5. Auction rate cumulative preferred stock

As of November 30, 2008, the Fund had 2,000 outstanding shares of each of Auction Rate Cumulative Preferred Stock (ARCPS) Series M, Series T, Series W, Series Th and Series F. The ARCPS dividends are cumulative at a rate determined at an auction and the dividend period is typically seven days. The dividend rate cannot exceed a certain maximum rate, including in the event of a failed auction, unless the Board of Directors of the Fund authorizes an increased maximum rate. Due to failed auctions experienced by the Fund's ARCPS starting on February 14, 2008, the Fund paid the applicable maximum rate, which was calculated as 110% of the prevailing 30-day AA Financial Composite Commercial Paper Rate. The Fund may pay higher maximum rates if the rating of the Fund's ARCPS were to be lowered by the rating agencies. The dividend rates ranged from 1.564% to 12.565% during the six months ended November 30, 2008. At November 30, 2008, the dividend rates in effect were as follows:

Dividend Rates	Series M 1.608%	Series T 1.564%	Series W 1.597%	Series Th 1.597%	Series F 1.569%
----------------	--------------------	--------------------	--------------------	---------------------	--------------------

The ARCPS are redeemable under certain conditions by the Fund, or subject to mandatory redemption if the Fund is in default of certain coverage requirements, at a redemption price equal to the liquidation preference, which is the sum of \$25,000

Notes to financial statements (unaudited) continued

per share plus accumulated and unpaid dividends. The ARCPS are otherwise not redeemable by holders of shares.

The Fund is required to maintain certain asset coverages with respect to the ARCPS. If the Fund fails to maintain these coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of the ARCPS in order to meet the applicable requirement. Additionally, failure to meet the foregoing asset requirements would restrict the Fund's ability to pay dividends to common stock shareholders.

Citigroup Global Markets Inc. (CGM) currently acts as the broker/dealer in connection with the auction of ARCPS. After each auction, the auction agent will pay to the participating broker/dealer, from monies the Fund provides, a participation fee at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. For the six months ended November 30, 2008, the Fund incurred auction participation fees of \$313,580 for CGM's services as the participating broker/dealer.

6. Distributions subsequent to November 30, 2008

On November 17, 2008, the Board of Directors declared three dividends, each in the amount of \$0.045 per share, payable on December 26, 2008, January 30, 2009 and February 27, 2009 to shareholders of record on December 19, 2008, January 23, 2009 and February 20, 2009, respectively.

7. Capital loss carryforward

As of November 30, 2008, the Fund had a net capital loss carryforward of approximately \$35,422,007, of which \$9,690,049 expires in 2011 and \$25,731,958 expires in 2013. This amount will be available to offset like amounts of any future taxable gains.

8. Recent accounting pronouncement

In March 2008, the Financial Accounting Standards Board issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effect on the Fund's financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statements and related disclosures.

Board approval of management and subadvisory agreements (unaudited)

Background

The Investment Company Act of 1940 (the 1940 Act) requires that the Board of Directors (the Board) of Western Asset Managed Municipals Fund, Inc. (the Fund), including a majority of its members that are not considered to be interested persons under the 1940 Act (the Independent Directors) voting separately, approve the continuation of the investment management contract (the Management Agreement) with the Fund's manager, Legg Mason Partners Fund Advisor, LLC (the Manager) and the sub-advisory agreement (the Sub-Advisory Agreement) with the Manager's affiliate, Western Asset Management Company (the Subadviser), on an annual basis. In response to a request by the Independent Directors, an in-person meeting of the Board was held on October 23, 2008 (the Leadership Meeting) with senior leadership of the Manager, the Subadviser and their corporate parent, Legg Mason, Inc. (Legg Mason) to discuss the investment advisory and other services provided to the Fund and other funds in the same complex under the Board's supervision (the Legg Mason Closed-End Funds). During this Leadership Meeting, information was presented to the Board regarding, among other things, the Subadviser's economic and financial markets outlook and its investment strategies given that outlook. Additionally, the Board received information regarding recent organizational changes and the continuing financial and other resources available to the Legg Mason organization to support its activities in respect of the Legg Mason Closed-End Funds. At a meeting (the Contract Renewal Meeting) held in-person on November 12 and 13, 2008, the Board, including the Independent Directors, considered and approved continuation of each of the Management and Sub-Advisory Agreements for an additional one-year term. To assist in its consideration of the renewals of the Management and Sub-Advisory Agreements, the Board received and considered a variety of information about the Manager and Subadviser, as well as the management and sub-advisory arrangements for the Fund and other funds overseen by the Board (together with the information provided at the Leadership and Contract Renewal Meetings, the Contract Renewal Information), certain portions of which are discussed below. A presentation made by the Manager and Subadviser to the Board at the Contract Renewal Meeting in connection with its evaluations of the Management and Sub-Advisory Agreements encompassed the Fund and all the funds for which the Board has responsibility. In addition to the Contract Renewal Information, the Board received performance and other information throughout the year related to the respective services rendered by the Manager and the Subadviser to the Fund. The Board's evaluation took into account the information received throughout the year and also reflected the knowledge and familiarity gained as members of the Board of the Fund and the other Legg Mason Closed-End Funds with respect to the services provided to the Fund by each of the Manager and Subadviser.

The discussion below covers both advisory and administrative functions being rendered by the Manager, each such function being encompassed by the Management Agreement, and the investment advisory function being rendered by the Subadviser.

Board approval of management and subadvisory agreements (unaudited) *continued*

Board approval of management agreement and sub-advisory agreement

In its deliberations regarding renewal of the Management Agreement and Sub-Advisory Agreement, the Fund's Board, including the Independent Directors, considered the factors below.

Nature, extent and quality of the services under the management agreement and sub-advisory agreement

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Fund by the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreement, respectively, during the past year. The Board also reviewed Contract Renewal Information regarding the Fund's compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered, based on its knowledge of the Manager and its affiliates, the Contract Renewal Information and the Board's discussions with the Manager at the Contract Renewal Meeting, the financial resources available to the Legg Mason organization.

The Board considered the responsibilities of the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreement, respectively, including the Manager's coordination and oversight of services provided to the Fund by the Subadviser and others.

The Board concluded that, overall, the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Management Agreement and the Sub-Advisory Agreement have been satisfactory under the circumstances.

Fund performance

The Board received and considered performance information and analyses (the Lipper Performance Information) for the Fund, as well as for a group of funds (the Performance Universe) selected by Lipper, Inc. (Lipper), an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Performance Universe consisted of all funds (including the Fund) classified by Lipper as leveraged closed-end general municipal debt funds regardless of asset size. The Board noted that it had received and discussed with management information throughout the year at periodic intervals comparing the Fund's performance against its benchmark(s) and its peer funds as selected by Lipper.

24 Western Asset Managed Municipals Fund Inc.

The Lipper Performance Information comparing the Fund's performance to that of its Performance Universe showed, among other things, that the Fund's performance for the 1- and 3- year periods ended June 30, 2008 was in each case ranked first among the 55 funds in the Performance Universe for those periods; that its performance for the 5-year period ended June 30, 2008 was ranked ninth among the 53 funds in the Performance Universe for that period; and that its performance for the 10-year period ended June 30, 2008 was ranked nineteenth among the 38 funds in the Performance Universe for that period and was equal to the Performance Universe median. In considering the Lipper Performance Information, the Board further noted Management's prior advice that the Fund did not utilize leverage until July 2002, making 10-year comparisons with funds included in the Performance Universe that did utilize leverage during that period difficult. The Board also considered the volatile market conditions during the past year and the Fund's performance in relation to its benchmarks and in absolute terms.

Based on its review, which included consideration of all of the factors noted above, the Board concluded that the Fund's performance supported continuation of the Management and Sub-Advisory Agreements.

Management fees and expense ratios

The Board reviewed and considered the management fee (the Management Fee) payable by the Fund to the Manager in light of the nature, extent and quality of the management and sub-advisory services provided by the Manager and the Subadviser. The Board noted that the compensation paid to the Subadviser is paid by the Manager, not the Fund, and, accordingly, that the retention of the Subadviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders.

Additionally, the Board received and considered information and analyses prepared by Lipper (the Lipper Expense Information) comparing the Management Fee and the Fund's overall expenses with those of funds in both a relevant expense group (the Expense Group) and a broader group of funds, each selected and provided by Lipper for the 1-year period ended June 30, 2008. The Expense Group consisted of the Fund and ten other leveraged closed-end general municipal debt funds, as classified by Lipper. The Expense Group funds had common assets ranging from \$240.4 million to \$610.9 million. Four funds in the Expense Group were larger than the Fund and six funds were smaller.

The Lipper Expense Information, comparing the Management Fee as well as the Fund's actual total expenses to the Fund's Expense Group showed that the Management Fee, whether on a contractual basis or an actual basis (i.e., giving effect to any voluntary fee waivers implemented by the Manager with respect to the Fund and by the managers of the other funds in the Expense Group), was at the median for the Expense Group based only upon common assets, but the actual management fees on the basis of common and leveraged assets was ranked eighth among the 11 funds in the Expense Group and was above the

Board approval of management and subadvisory agreements (unaudited) *continued*

Expense Group median. The Board noted that the Fund's actual total expenses were below the median for the Expense Group on both a common assets only basis and on a common and leveraged assets basis, ranking second and third, respectively, among the 11 funds in the Expense Group.

The Board also reviewed Contract Renewal Information regarding fees charged by the Manager to other U.S. clients investing primarily in an asset class similar to that of the Fund, including, where applicable, separate accounts. The Board was advised that the fees paid by such other clients generally are lower, and may be significantly lower, than the Management Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Fund and to these other clients, noting that the Fund is provided with administrative services, office facilities, Fund officers (including the Fund's chief executive, chief financial and chief compliance officers), and that the Manager coordinates and oversees the provision of services to the Fund by other Fund service providers. The Board considered the fee comparisons in light of the differences required to manage these different types of accounts. The Contract Renewal Information included an analysis of complex-wide management fees provided by the Manager, which, among other things, set out a proposed framework of fees based on asset classes.

Taking all of the above into consideration, the Board determined that the Management Fee and the Sub-Advisory fee were reasonable in light of the nature, extent and quality of all of the services provided to the Fund under the Management Agreement and the Sub-Advisory Agreement.

Manager profitability

The Board, as part of the Contract Renewal Information, received a profitability analysis of the Manager and its affiliates in providing services to the Fund. The Board also received profitability information with respect to the Legg Mason funds complex as a whole. In addition, the Board received information with respect to the Manager's revenue and cost allocation methodologies used in preparing such profitability data. In 2007, the Board received a report from an outside consultant that had reviewed the Manager's methodologies and was assured by the Manager at the Contract Renewal Meeting that there had been no significant changes in those methodologies since the report was rendered. The profitability to the Subadviser was not considered to be a material factor in the Board's considerations since the Subadviser's fee is paid by the Manager, not the Fund. The profitability analysis presented to the Board as part of the Contract Renewal Information indicated that profitability to the Manager in providing services to the Fund had decreased by 1% over the period covered by the analysis. Under the circumstances, the Manager's profitability was considered not excessive by the Board in light of the nature, extent and quality of the services provided to the Fund.

Economies of scale

The Board received and discussed Contract Renewal Information concerning whether the Manager realizes economies of scale if the Fund's assets grow. The Board noted that because the Fund is a closed-end fund with no current plans to seek additional assets beyond maintaining its dividend reinvestment plan, any significant growth in its assets generally will occur through appreciation in the value of the Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board noted that, according to the Lipper Expense Information, the actual Management Fee is at the median of management fees paid by the other funds in the Expense Group. The Board determined that the management fee structure was appropriate under present circumstances.

Other benefits to the manager and the subadviser

The Board considered other benefits received by the Manager, the Subadviser and its affiliates as a result of their relationship with the Fund, including the opportunity to obtain research services from brokers who effect Fund portfolio transactions.

* * *

In light of all of the foregoing, the Board determined that, under the circumstances, continuation of the Management and Sub-Advisory Agreements would be consistent with the interests of the Fund and its shareholders and unanimously voted to continue each Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of the Management and Sub-Advisory Agreements, and each Board member attributed different weights to the various factors. The Independent Directors were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum discussing its responsibilities in connection with the proposed continuation of the Management and Sub-Advisory Agreements and the Independent Directors separately received a memorandum discussing such responsibilities from their independent counsel. Prior to voting, the Independent Directors also discussed the proposed continuation of the Management Agreement and the Sub-Advisory Agreement in private sessions with their independent legal counsel at which no representatives of the Manager were present.

Additional shareholder information (unaudited)

Results of annual meeting of shareholders

The Annual Meeting of Shareholders of the Fund was held on September 25, 2008, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the Meeting:

Election of directors

	COMMON SHARES VOTED FOR ELECTION	COMMON SHARES WITHHELD	PREFERRED SHARES VOTED FOR ELECTION	PREFERRED SHARES WITHHELD
NOMINEES				
Leslie H. Gelb	37,750,973	1,016,998	9,099	253
William R. Hutchinson	37,833,896	934,075	9,099	253
Riordan Roett	37,745,535	1,022,436	9,099	253

At November 30, 2008, in addition to Leslie H. Gelb, William R. Hutchinson and Riordan Roett the other Directors of the Fund were as follows:

Carol L. Colman

Daniel P. Cronin

Paolo M. Cucchi

R. Jay Gerken

Jeswald W. Salacuse

Dividend reinvestment plan (unaudited)

Under the Fund's Dividend Reinvestment Plan (Plan), a shareholder whose shares of common stock are registered in his own name will have all distributions from the Fund reinvested automatically by American Stock Transfer & Trust Company (AST), as purchasing agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in street name) will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of AST as dividend paying agent.

The number of shares of common stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. When the market price of the common stock is equal to or exceeds 98% of the net asset value per share of the common stock on the determination date (generally, the record date for the distribution), Plan participants will be issued shares of common stock by the Fund at a price equal to the greater of 98% of net asset value or 95% of the market price of the common stock.

If the market price of the common stock is less than 98% of the net asset value of the common stock at the time of valuation (which is the close of business on the determination date), AST will buy common stock in the open market, on the NYSE or elsewhere, for the participants accounts. If following the commencement of the purchases and before AST has completed its purchases, the market price exceeds the net asset value of the common stock as of the valuation time, AST will attempt to terminate purchases in the open market and cause the Fund to issue the remaining portion of the dividend or distribution in shares at a price equal to the greater of (a) 98% of net asset value as of the valuation time or (b) 95% of the then current market price. In this case, the number of shares received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. To the extent AST is unable to stop open market purchases and cause the Fund to issue the remaining shares, the average per share purchase price paid by AST may exceed the net asset value of the common stock as of the valuation time, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in common stock issued by the Fund at such net asset value. AST will begin to purchase common stock on the open market as soon as practicable after the determination date for the dividend or capital gains distribution, but in no event shall such purchases continue later than 30 days after the payment date for such dividend or distribution, or the record date for a succeeding dividend or distribution, except when necessary to comply with applicable provisions of the federal securities laws.

AST maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in each account, including information needed by a shareholder for personal and tax records. The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. Common stock in the account of each Plan participant will be held by AST in uncertificated form in the name of the Plan participant.

Plan participants are subject to no charge for reinvesting dividends and capital gains distributions under the Plan. AST's fees for handling the reinvestment of dividends and capital gains distributions will be paid by the Fund. No brokerage charges apply with respect to shares of common stock issued directly by the Fund under the Plan. Each Plan participant will, however, bear a proportionate share of any brokerage commissions actually incurred with respect to any open market purchases made under the Plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the dividend or capital gains distribution. The Plan also may be amended or terminated by AST, with the Fund's prior written consent, on at least 30 days' written notice to Plan participants. All correspondence concerning the plan should be directed by mail to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, New York 10038 or by telephone at 1 (877) 366-6441.
