*The financial results presented below for the three and six month periods ended June 30, 2009 reflect preliminary estimates of the accounting for the items for which work is ongoing, as described in this Form 12b-25. These preliminary results may be subject to change upon completion of the Registrant's financial statement close and reporting process.*

*License Fees and Milestone Payments.* The Registrant anticipates revenue from license fees and milestone payments to be \$2.3 million and \$2.5 million for the three and six months ended June 30, 2009, respectively, as compared to \$204,000 and \$397,000 for the three and six months ended June 30, 2008, respectively. The Registrant believes that the anticipated increase in revenue under license fees and milestone payments for the three and six month periods ended June 30, 2009, as compared to the comparable periods in 2008, will be mainly due to the acceleration of \$2.2 million of deferred revenues recognized as a result of the cancellation of the Wyeth collaboration and licensing agreement in July 2009.

*General and Administrative Expenses.* The Registrant anticipates that general and administrative expenses, which include business development expenses and the amortization of intangible assets, for the three and six months ended June 30, 2009, will be \$4.3 million and \$7.2 million, respectively, as compared to \$3.1 million and \$5.5 million for the three and six months ended June 30, 2008, respectively. The Registrant believes that the anticipated increase in general and administrative expenses for the three and six months ended June 30, 2009, as compared to the comparable periods in 2008, will be primarily due to extraordinary legal and related fees associated with the acquisition of VGX Pharmaceuticals, Inc. (the Merger) and other corporate matters. The Registrant expects these fees to decrease to a significant extent in future quarters.

*Stock-based Compensation.* Stock-based compensation cost is measured at the grant date, based on the fair value of the award reduced by estimated forfeitures, and is recognized as expense over the employee's requisite service period. The Registrant expects that total compensation cost under SFAS No. 123(R) for its stock plans for the three and six months ended June 30, 2009 will be \$695,000 and \$850,000, respectively. From these amounts, the Registrant anticipates that \$120,000 and \$575,000 will be included in research and development expenses and \$152,000 and \$698,000 will be included in general and administrative expenses, respectively. Total compensation cost under SFAS No. 123(R) for the Registrant's stock plans for the three and six months ended June 30, 2008 was \$201,000 and \$528,000, respectively. From these amounts, \$56,000 and \$147,000 was included in research and development expenses and \$145,000 and \$381,000 was included in general and administrative expenses, respectively. The Registrant believes that the anticipated increase in stock-based compensation cost for the three and six months ended June 30, 2009 as compared to the comparable periods in 2008, will be due to the accelerated vesting of Inovio employee stock options as a result of the Merger.
