Item 11. Executive Compensation.

The Company is a biopharmaceutical company developing products in the growing field of RNA therapeutics. Current applications of the Company's technology platform include clinical trials for genetic diseases (Duchenne muscular dystrophy), and earlier programs in infectious diseases (Ebola and Marburg viruses), H1N1 and other early discovery targets. We operate in a highly complex business environment and believe that a competitive compensation program is an important tool to help attract, retain, recognize and reward the talented employees we need to achieve our mission and deliver value to our shareholders.

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

The Company intends that total compensation and each of its components, including base salary, incentive cash compensation, equity compensation, benefits and perquisites be competitive in the marketplace for suitable talent and in accord with the Company's short and long term goals. We seek to attract, retain, develop and reward employees whose performance helps the Company to achieve such goals and to provide value to our shareholders. While base compensation, benefits and perquisites are primarily a factor of being competitive in the marketplace for employees, incentive compensation is primarily merit based, with actual compensation a function of the achievement of defined and agreed corporate and individual goals. Towards this end:

- We structure our total compensation to consist of both fixed (salary and benefits) and variable compensation (cash incentive, equity compensation and merit based annual adjustments). We believe that the variable compensation elements provide an appropriate percentage of overall compensation to motivate executives to focus on our performance, while the fixed element serves to provide an appropriate and fair compensation level that allows us to remain competitive in the market to obtain and retain the services of our employees while also not encouraging executives and non-executive employees to take unnecessary or excessive risks in the achievement of goals;
- We believe that our compensation program balances short and long-term performance and does not place inappropriate focus on achieving short-term results at the risk of long-term, sustained performance;
- Most incentive plans (including the plans covering our executive officers) include a threshold, target and maximum payment. The threshold ensures that if goal achievement is not at a minimum level, no payments will be made. The maximum ensure that payments do not exceed a certain level, keeping the compensation mix within certain ranges and limiting excessive payments under any one element;
- All incentive plan designs and specific elements are reviewed and approved by the Compensation Committee annually;
- Performance targets for the annual performance plan, which covers all named executives and most employees, are established annually by the Compensation Committee and the Board. We have internal controls over the measurement and calculation of these performance metrics, designed to prevent manipulation of results by any employee, including our executives. Additionally, the Committee and Board monitor the corporate performance metrics formally no less than annually and periodically on a more informal basis during the year;
- The Compensation Committee has the discretion to increase or decrease any plan payment upwards or downwards, allowing the Committee to consider the circumstances surrounding corporate and/or individual performance and adjust payments accordingly;
- There are appropriate internal controls over the processing of payments;
- The Company's existing governance and organizational structure incorporates a substantial risk management component through the review and actions of the Board and its standing committees; and

- The long-term component of compensation consists of restricted stock units and stock option grants. Vesting requirements of typically three years encourage employees to take a long-term perspective on overall corporate performance, which ultimately influences share price appreciation. We believe that long-term equity compensation balances the cash incentives in place to motivate short-term performance.

In mid-2009, the Committee retained the services of a compensation consultant, Frederick W. Cook & Co., Inc. (FW Cook) to assist the Committee in its evaluation of certain aspects of executive compensation for 2009 and 2010 including base compensation, incentive cash compensation and equity compensation. The Compensation Committee has the independent authority to approve the fees and other retention terms with respect to such a compensation consultant. The Compensation Committee also has the authority, as necessary and appropriate, to consult with other outside advisors to assist in its duties to the Company.

Compensation Discussion and Analysis

Introduction

Throughout this section of the proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal year 2009, as well as the other individuals included in the Summary Compensation Table included in this proxy statement, are referred to as the named executive officers.

Overview

In 2008 and 2009, the Company had several significant changes to its management team. One result of these new recruits is that certain elements of the compensation package for certain of the named executive officers were established as a result of arms-length negotiations between the Company and the individuals the Company was recruiting to join the Company at its facility in Bothell, Washington. Thus, in some cases, the base compensation and benefits packages for our named executive officers reflect market forces rather than benchmarking and other tools often used by compensation consultants. In the final analysis, however, there was no material difference between negotiated compensation packages and the benchmarks preferred by the compensation consultant.

Other noteworthy aspects of the Company's compensation program include:

- Base salaries for all named executives have increased 2% - 3% in 2010 compared to 2009;

- The named executive officers, as a group, achieved approximately 63% of the 2009 Company-wide corporate performance goals and, on average 64% of the individual goals set for them in 2009; the bonuses for Mr. Medeiros were determined in accordance with the terms of his employment contract entered into upon the commencement of his employment in 2009;

- The 2009 bonuses, which were paid in 2010 represent in the aggregate approximately 13% of the total compensation paid to the named executive officers;

- The bonus for the Company's Chief Executive officer is 100% dependent on achievement of Company-wide performance goals established by the Board and Compensation Committee and the bonus for the other named executive officers is 70% dependent on such Company-wide goals and 30% dependent on achievement of individual performance goals established by the Chief Executive officer in consultation with the Compensation Committee;

- The Compensation Committee and the Board has established Company-wide performance goals for the named executive officers, including the Chief Executive officer, for 2010 and the Chief Executive officer, in consultation with the Compensation Committee, has established individual performance goals for 2010 for the named executive officers. If achieved at the 100% level, these bonuses would represent in the aggregate approximately 36% of the anticipated total compensation in 2010 for the named executive officers;

- The Compensation Committee and the Board believe that the performance goals for 2010, like those for 2009, provide appropriate incentives to the named executive officers to align their personal financial interests with the short and long term goals of the Company without promoting inappropriate risk-taking behavior; and

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

- The Compensation Committee believes a mixture of base cash compensation, performance- based bonuses, equity incentive compensation in the form of options and restricted shares and a fair package of health care and similar benefits is appropriate for the Company and is in the best interests of the Company's shareholders.

Significant Management Changes in Fiscal Year 2009

In 2009, the Company underwent several senior management changes, including hiring Stephen B. Shrewsbury as the Company's Chief Medical Officer and Senior Vice President of Preclinical, Clinical and Regulatory Affairs, and Paul Medeiros as the Company's Senior Vice President of Business Development and Chief Business Officer.

The Compensation Committee

The Company's executive compensation program is administered by the Company's Compensation Committee. As of December 31, 2009, the Compensation Committee was composed of three directors: K. Michael Forrest, William Goolsbee, and Michael Casey (Chair). During 2009, all members of the Compensation Committee were independent for purposes of applicable securities and regulatory requirements. Although Mr. Forrest acted as the Company's Interim Chief Executive Officer until February 8, 2008, under applicable Nasdaq listing requirements he may be considered independent if the Board of Directors concludes that such former employment and any compensation received would not interfere with his exercise of independent judgment in carrying out his responsibilities as director. The Board of Directors has concluded that Mr. Forrest is independent in accordance with these applicable listing requirements. Additionally, the Board feels that his presence on, and participation in the discussion of, the Committee is in the best interests of the Company due to his prior experience with the management of the Company and experience as a director in public and private companies.

The Compensation Committee is responsible for reviewing, assessing, and approving all elements of compensation for our named executive officers. More specifically, the Compensation Committee is directly responsible for establishing annual Company-wide performance goals and objectives for our named executive officers and for working with the Company's Chief Executive Officer to establish individual performance goals for each of the other named executive officers. This responsibility includes, among other things: (a) evaluating the performance of our Chief Executive Officer and other executives as determined by the Compensation Committee in light of the approved performance goals and objectives; (b) setting the compensation of the Chief Executive Officer and other executives based upon the evaluation of the performance of the Chief Executive Officer and the other executives; (c) making recommendations to the Board of Directors with respect to new cash-based incentive compensation plans and equity-based compensation plans; and (d) preparing an annual report of the Compensation Committee.

The Compensation Committee has independent authority to make compensation decisions for our named executive officers. The Compensation Committee seeks ratification from the Company's Board of Directors of its decisions regarding the compensation of the Chief Executive Officer.

Compensation Philosophy and Objectives

The purpose of the Company's executive compensation program is and has been to attract, motivate, recognize, reward and retain key executive employees in order to promote the success of the Company. The Company seeks, and has sought, to reward and to provide incentives to named executive officers, including the Chief Executive Officer, for their performance and delivery against agreed goals. Over the past few years, the Company has seen significantly increased demand for executives with industry-specific skills and experience and a highly competitive market for such executives. Additionally, given the small size of the Company relative to certain other members of our industry sector and the fact that there was a significant doubt about the Company's ability to secure the funding needed to continue our research and development programs at the time when certain changes in management were made, in 2009 we faced significant challenges in recruiting senior members of our management team. Therefore, in 2009 (and we expect in 2010 and beyond) the attraction and retention of executives was, and will be, one of the key purposes of the Company's executive compensation program.

The Company's executive compensation program also includes a pay-for-performance component. In that respect, the compensation program is designed to reward the named executive officers, including the Chief Executive Officer, for meeting specific goals that are established and reviewed by the Compensation Committee for each named executive officer and for the Company as a whole. In 2009, the Committee, Board and the Chief Executive Officer agreed and set performance goals for each named executive officer and the Company as a whole. Following the completion of such fiscal year, the Chief Executive Officer and the Compensation Committee assessed the degree to which the corporate goals were met and how each named executive officer had performed with respect to these goals. The Compensation Committee made an independent assessment with respect to the Chief Executive Officer's performance. The Compensation Committee has established similar goals for 2010.

The at-risk component of the compensation package for each named executive officer, which includes a targeted cash bonus and stock options/restricted stock, is determined in large part on the basis of how that named executive officer performed in meeting his or her goals and recommendations from the Committee's compensation consultant. Compensation decisions are also based on market factors that require the Company to remain competitive in its compensation package in order to attract and retain qualified individuals.

In addition to the foregoing, the following executive compensation principles guided the Compensation Committee during 2009 in fulfilling its roles and responsibilities:

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

- Compensation levels and opportunities should be sufficiently competitive to facilitate recruitment and retention of experienced executives in the Company's highly competitive talent market;
- Compensation should reinforce the Company's business strategy by integrating and communicating key metrics and operational performance objectives and by emphasizing incentives in the total compensation mix;
- Compensation programs should align executives' long-term financial interests with those of the shareholders by providing equity-based incentives without incentivizing the executives to take inappropriate risks to the Company in order to enhance their individual compensation;
- Compensation programs should be flexible, giving the Compensation Committee and our Board of Directors discretion to make adjustments on an as-needed basis;
- Similarly situated executives should be compensated similarly; and

- Compensation should be transparent and easily understandable to both our executives and our shareholders.

Role of Executive Officers in Compensation Decisions

Our Chief Executive Officer plays a pivotal role in determining executive compensation. No less than annually, the Company's Chief Executive Officer assesses the performance of the named executive officers. He then recommends to the Compensation Committee a base salary, performance-based cash bonus, and a grant of stock options for each named executive officer based on that assessment. The Compensation Committee considers the information provided by the Chief Executive Officer, together with other information available to the Compensation Committee and determines the compensation for each named executive officer other than the Chief Executive Officer. With respect to the compensation of our Chief Executive Officer, the Compensation Committee meets without the Chief Executive Officer to discuss its recommendation and makes a recommendation to the full Board of Directors.

Use of Compensation Consultants and Reports

In establishing compensation for 2010, the Compensation Committee did retain a compensation consultant. In August 2009 FW Cook presented its assessment and recommendations to the Compensation Committee. Based in part on such assessment and recommendations, the Compensation Committee established for the named executive officer and with respect to the Company's Chief Executive Officer recommended to the Board of Directors that each of the Chief Executive Officer and the named executive officers receive an increase in base salary and be granted additional options to acquire shares of the Company's common stock. The bonuses for Mr. Medeiros were established and paid in accordance with the terms of his contract entered into when he was hired in 2009 and the increase in his base compensation for 2010 took effect on January 1, 2010.

Setting Executive Compensation

As a general proposition, in setting compensation for the named executive officers, other than the Chief Executive Officer, and in developing its recommendations to the Board of Directors regarding compensation for the Chief Executive Officer, the Compensation Committee considers a number of factors, including analyses of compensation in similarly-sized companies in the biopharmaceutical industry, analyses of compensation levels in similar companies in the Company's local geographic area, the satisfaction of (or failure to satisfy) previously-developed performance measurements for the named executive officer and the Company, and the total vested and unvested equity grants owned by the executive. The Company competes for executive talent across a broad range of business sectors.

The Compensation Committee believes it is important when making its compensation-related decisions to be informed as to current practices of similarly situated companies in the biotechnology industry. In addition to the report of its compensation consultant, the Compensation Committee has historically taken into account input from other sources, including input from members of the Compensation Committee based on their roles as executive officers and directors of other public companies, as well as other members of the Board of Directors.

The Compensation Committee believes that the total compensation package provided to the Company's named executive officers, combining both short-term and long-term incentives, some of which are at risk based on individual and Company performance, is competitive without being excessive and is at an appropriate level to assure the retention and motivation of this highly skilled and experienced segment of the Company's

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

workforce, and at the same time would be attractive to any additional talent that might be needed in the changing workplace without creating incentives for inappropriate risk-taking by the named executive officers that might be in their own self-interests, but might not necessarily be in the best long and short term interests of the Company's shareholders.

Performance Factors in 2009

The Compensation Committee, together with the Chief Executive Officer and full Board of Directors, establishes performance criteria for the named executive officers (other than Paul Medeiros), both in terms of individual performance and the performance of the Company as a whole, and generally assigns a weight to the performance goals. Mr. Medeiros' bonus was determined in accordance with his employment agreement, which did not establish any performance goals for 2009.

The following corporate goals, along with the weighting assigned to each of the goals, including the weight achieved, drove the Compensation Committee's executive compensation decisions for fiscal year 2009:

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

Goal	Assigned Weight	Achieved Weight
Develop approved operational and other administrative plans and budget for 2009	20%	16.5%
		(included within goal was to manage expense and revenue goals to achieve an overall 2009 cash burn not to exceed \$11.5 million; actual cash burn was \$10.8 million)

Reorganize certain elements of the Company's business	20%	5%
Additional significant value adding accomplishments relating to obtaining additional financing for the Company and to securing the award of certain government contracts to the Company	0%	9%

Dr. Hudson's performance bonus was based entirely on the Company's achievement of the corporate goals outlined above. The performance bonus of each other named executive officer was based on the Company's achievement of the corporate goals (70%), with the remainder of the performance bonus (30%) for such named executive officers based on the achievement of individual goals.

The goals for each individual officer, along with the weighting assigned to each of the goals, were as follows:

J. David Boyle II, Chief Financial Officer

Determining the Total Mix of Compensation

Our compensation-setting process consists of establishing a targeted overall compensation for each executive and then allocating that compensation between base salary and incentive compensation (annual performance-based cash bonuses and equity incentive awards), based appropriately on publicly available industry and salary survey data. The Compensation Committee does not have a pre-established policy for allocating total compensation between cash and non-cash compensation, between long-term and

currently paid-out compensation, or between fixed and variable compensation. Rather, based on the competitive market assessments and benchmarks, as well as the Compensation Committee's review of existing outstanding equity incentives on an individual named executive officer basis, the Compensation Committee determines the appropriate level and mix of total compensation, keeping in mind the Company's compensation philosophy.

The total amount and mix of compensation payable to our named executive officers is premised upon, among other items, the degree to which the executive has a role in determining the strategic direction of the Company, the mix of compensation payable to executives in similar roles by companies of a similar size and in our business sector, geographic location, and industry, as well as the quantity and value of unvested equity awards held by each named executive officer and the vesting date of such awards. As one of the Company's primary priorities is to retain its executives, the Company seeks to ensure its named executive officers receive a base salary reflective of the Company's size and the marketplace in which it competes.

During its evaluation of the appropriate mix of compensation, the Compensation Committee typically determines what portion of each executive's compensation will be at risk, with the at risk portion increasing as the Company gives executives greater levels of responsibility. As the Company believes that many of its named executive officers could command higher salaries in similar roles with larger companies, including with the Company's competitors, the Company's combined cash-based and equity-based bonuses have historically been large relative to base salaries, with the goal of ensuring compensation serves the dual purpose of retention and rewarding exceptional performance.

Analysis of Executive Compensation Components

For the fiscal year ended December 31, 2009, the principal components of compensation for named executive officers were identical to the components in the prior fiscal year, and included:

- Base salary;

- Performance-based cash bonuses;

- Equity Incentive Plan;

- Employee Stock Purchase Plan;

- 401(k) Plan; and

- Other benefits.

Base Salaries. As a general proposition, the base salaries of the Company's executive officers are established as part of an annual compensation adjustment cycle, and we also assess salaries at the time of hire, promotion or other change in responsibilities. In establishing those salaries, the Compensation Committee considers information about base salaries paid by companies of comparable size in the biopharmaceutical industry (including data from the Committee's compensation consultant), individual performance, position and tenure of the executive officer, how the salary compares to the salaries of other executives in the Company, and internal comparability considerations. As noted above, however, in 2009 some of the initial compensation packages for our named executive officers were determined far more as a result of negotiations between the Company and these individuals in connection with their recruitment to the Company rather than abstract compensation data.

As noted previously, the Chief Executive Officer and each of the named executive officer received a 3% (annualized) increase in base compensation for 2010.

Consistent with the philosophy and events discussed above, the base salary levels for fiscal year 2008 and fiscal year 2009 for our named executive officers were as follows:

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

Name	Title	2009 Base Salary	2008 Base Salary	% Change 2008 to 2009 Base Salary
Leslie Hudson, Ph.D.	President and Chief Executive Officer	\$ 480,000	\$ 480,000	0%
J. David Boyle II	Chief Financial Officer and Secretary	\$ 324,000	\$ 324,000	0%
Patrick L. Iversen, Ph.D.	Senior Vice President of Strategic Alliances	\$ 265,000	\$ 265,000	0%
Paul Medeiros	Senior Vice President of Business Development and Chief Business Officer	\$ 315,000	N/A	N/A

Performance-Based Cash Bonuses/Equity Awards. The Company typically grants cash bonuses to executive officers as part of their annual overall compensation. In 2009, the bonuses for executive officers other than the Chief Executive Officer were targeted to be between 0% and 30% of the executive's base compensation. For the Chief Executive Officer, the target was 60% of his base compensation. Such cash bonuses are in recognition of achievement of performance milestones for the individual named executive officers and of milestones achieved by the Company as a whole. The Compensation Committee takes into account the Company's cash resources and the need of the Company to deploy those resources to advance its business plan, and assesses this objective against the need to maintain compensation levels that are competitive within the biotechnology industry.

As noted above, the Compensation Committee and the Board, in consultation with Dr. Hudson, established corporate performance and individual performance goals for the named executive officers in early 2009. In early 2010, the Compensation Committee and the Board determined that 63% of the corporate goals had been obtained and Dr. Hudson determined that the other named executive officers had achieved the percentage of individual goals identified above. In 2009, the Compensation Committee and the Board accepted the offer of the named executive officers, including Dr. Hudson, to have their 2008 bonuses paid in the form of shares of stock issued under the Company's 2002 Equity Incentive Plan rather than cash, taking into account the tax impact of accepting stock rather than cash as payment of such bonuses. The following table shows for each of our named executive officers the aggregate dollar value of the stock awards for fiscal year 2008 granted in February 2009 and the cash bonuses awarded for fiscal year 2009 in February 2010:

Name	Title	2009 Bonus	2008 Bonus	% Change (2008 to 2009)	2009 Bonus as a % of 2009 Base Salary
Leslie Hudson, Ph.D.	President and Chief Executive Officer	\$ 181,440	\$ 196,020(1)	-7%	38%
J. David Boyle II	Chief Financial Officer and Secretary	\$ 62,111	\$ 72,973(2)	-15%	19%
Patrick L. Iversen, Ph.D.	Senior Vice President of Strategic Alliances	\$ 42,135	\$ 49,737(3)	-15%	16%
Paul Medeiros	Senior Vice President of Business Development and Chief Business Officer	\$ 150,000	N/A	N/A	N/A

(2) Represents the aggregate value of 79,318 shares at \$0.92 per share, which was the closing price for the Company's Common Stock on February 10, 2009, the date which such bonus was paid.

(3) Represents the aggregate value of 54,062 shares at \$0.92 per share, which was the closing price for the Company's Common Stock on February 10, 2009, the date which such bonus was paid.

Equity Incentive Plan Compensation. The long-term compensation of named executive officers takes the form of stock option awards under the Company's 2002 Equity Incentive Plan, or 2002 Plan. The 2002 Plan is designed to align a significant portion of the executive compensation program with long-term shareholder interests. The 2002 Plan permits the granting of several different types of stock-based awards. The Compensation Committee believes that equity-based compensation helps ensure that the Company's named executive officers have a continuing stake in the long-term success of the Company, and preserves the Company's

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

cash resources. The 2002 Plan provides incentives to continue in the service of the Company and to create in such executives a more direct interest in the future success of the operations of the Company by relating incentive compensation to the achievement of long-term corporate economic objectives. All options granted by the Company have been granted with an exercise price equal to the closing market price of the Company's Common Stock on the date of grant and, accordingly, will only have value if the Company's stock price increases subsequent to the date of grant. In granting options under the 2002 Plan, the Compensation Committee generally takes into account each named executive officer's responsibilities, relative position in the Company, past grants, the total number of vested and unvested equity incentives held by each named executive officer, and approximate grants to individuals in similar positions for companies of comparable size in the biopharmaceutical industry. The 2002 Plan is administered by the Compensation Committee.

The following table shows the stock options granted to named executive officers in fiscal year 2008 and fiscal year 2009:

Name	Title	FY 2009 Shares Subject to Option Grant	FY 2008 Shares Subject to Option Grant	% Increase / (Decrease) 2008 to 2009
Leslie Hudson, Ph.D.	President and Chief Executive Officer	350,000	667,000	(48)%
J. David Boyle II	Chief Financial Officer and Secretary	150,000	500,000	(70)%
Patrick L. Iversen, Ph.D.	Senior Vice President of Strategic Alliances	100,000	75,000	33%
Paul Medeiros	Senior Vice President of Business Development and Chief Business Officer	400,000	N/A	N/A

Employee Stock Purchase Plan. The purpose of the Employee Stock Purchase Plan, or ESPP, is to attract and retain qualified employees essential to the success of the Company and, like the 2002 Plan, to provide such persons with an incentive to perform in the best interests of the Company. The ESPP is administered by the Compensation Committee, which has the power to make and interpret all rules and regulations it deems necessary to administer the ESPP and has broad authority to amend the ESPP, subject to certain amendments requiring shareholder approval. All employees of the Company and its subsidiaries, including the Company's named executive officers, may participate in the ESPP if they: (i) are employed in a position with regular hours of 20 or more hours a week and (ii) are employed more than five months in any calendar year. Eligible employees may elect to contribute from 1% to 10% of their cash compensation during each pay period. The ESPP provides for two annual six-month offering periods, beginning on May 1 and November 1 each year (the Enrollment Dates). During the offering periods, participants accumulate funds in an account through payroll deduction. At the end of each six-month offering period, the purchase price is determined and the accumulated funds are used to automatically purchase shares of Common Stock from the Company. The purchase price per share is equal to 85% of the lower of the fair market value of the Common Stock (i) on the beginning date of the offering period or (ii) the end of the Offering Period. Unless a participant files a withdrawal notice before the beginning of the next offering period, such participant will automatically be re-enrolled for the next offering period. Beginning on January 1, 2006, the Company began accounting for stock issued under the ESPP in accordance with the requirements of FASB ASC Topic 718.

In 2009, 124,213 shares of Common Stock were purchased under the ESPP, all of which were purchased by persons other than our named executive officers. In November 2009, all shares of common stock available under the ESPP were issued and the Compensation Committee decided not to renew the ESPP.

401(k) Plan. The Company's 401(k) Plan is a defined contribution profit sharing plan with a 401(k) option. The plan year is January 1 to December 31, and was created on November 1, 1992. Employees who are at least twenty-one years of age and who have provided at least thirty

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

days of service are eligible to participate in the 401(k) Plan. Employees who are union employees, non-resident alien employees with no U.S.-source income and non-common law employees are not eligible to participate. Participants may defer up to the maximum allowed by law. At the discretion of the Company, participants may receive a match on the first 4% of compensation that the participant contributes to the 401(k) Plan. As of the fiscal year ended December 31, 2009, the named executive officers received a 401(k) contribution match of up to 4% of their 401(k) Plan contribution subject to the maximum amount permitted by law.

Tax and Accounting Implications of the Executive Compensation Program

A significant portion of the compensation paid to the Company's named executive officers is considered performance-based compensation for purposes of Section 162(m) of the Internal Revenue Code and, therefore, is fully deductible by the Company for federal income tax purposes. In addition, the long-term incentive compensation awarded to the named executive officers is based on a fixed value at grant and therefore is not subject to variable accounting treatment under FASB ASC Topic 718. The Company views preserving tax deductibility as an important objective, but not the sole objective, in establishing executive compensation. In specific instances the Company has and in the future will authorize compensation arrangements that are not fully tax deductible but which promote other important objectives of the Company.

Repricing of Stock Options

The Company did not reprice any stock options in 2009.

Employment Agreements with Named Executive Officers Entered into by the Company in 2009

Stephen B. Shrewsbury Senior Vice President of Preclinical, Clinical and Regulatory Affairs and Chief Medical Officer

On January 26, 2009, the Company hired Stephen Bevan Shrewsbury, M.D., as the Company's Senior Vice President of Preclinical, Clinical and Regulatory Affairs and Chief Medical Officer. In connection with his hiring, the Company and Dr. Shrewsbury entered into an Employment Agreement dated January 26, 2009 providing for Dr. Shrewsbury's at will employment by the Company. Under the terms of the Employment Agreement, Dr. Shrewsbury is entitled to an initial annual salary of \$310,000, which amount is subject to review for potential increase, but not decrease, on an annual basis. In addition to his base salary, Dr. Shrewsbury is eligible for an annual bonus of up to 25% of his base salary, based upon Dr. Shrewsbury's achievement of performance objectives established by mutual agreement among Dr. Shrewsbury, the Company's Chief Executive Officer, and the Compensation Committee.

In connection with his employment as the Company's Senior Vice President of Preclinical, Clinical and Regulatory Affairs and Chief Medical Officer, the Company granted to Dr. Shrewsbury options to purchase 450,000 shares of the Company's common stock under the Company's 2002 Plan, with an exercise price equal to the fair market value of the Company's common stock on January 26, 2009, which was \$1.36 per share. Subject to certain exceptions, the options vest in equal annual installments over a period of three years. In addition, on that same date the Company granted to Dr. Shrewsbury 60,000 restricted shares of the Company's common stock. The shares became fully vested as of July 27, 2009. The Company is also required to reimburse Dr. Shrewsbury for all expenses reasonably incurred by him in discharging his duties for the Company.

In addition to the compensation described above, under the Employment Agreement Dr. Shrewsbury is entitled to receive (i) reimbursement of up to \$100,000 for reasonable expenses incurred in 2008 for reasonable expenses incurred in 2008 to relocate Dr. Shrewsbury to the city of the Company's headquarters, including the reasonable and customary costs associated with purchasing a new residence and moving expenses, (ii) reimbursement of up to \$3,000 for reasonable legal fees incurred by Dr. Shrewsbury in connection with the negotiation of the Employment Agreement, (iii) a monthly living allowance of \$2,500 for a period of up to six months, (iv) four weeks of paid vacation per year, as well as paid holidays generally available to senior executives, and (v) subject to eligibility requirements, participation in benefits and programs generally available to all employees or executives. The Employment Agreement further provides that Dr. Shrewsbury is entitled to receive certain tax gross-up payments.

The Employment Agreement provides that, following Dr. Shrewsbury's termination of employment with the Company, Dr. Shrewsbury may not engage in certain activities in competition with the Company's business activities for a period between one year and two years, depending on the nature of Dr. Shrewsbury's termination. Dr. Shrewsbury is further prohibited for a period of two years following termination of employment with the Company from recruiting, hiring, or assisting a third party in hiring any person then employed by the Company.

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

Dr. Shrewsbury may voluntarily terminate his employment after giving the Company 60 days' notice. The Company may terminate Dr. Shrewsbury's employment without Cause (as defined in the Employment Agreement) upon 30 days' written notice. Dr. Shrewsbury's employment is also terminated upon death, disability, or upon the effective date of a notice sent by the Company to Dr. Shrewsbury terminating him for Cause.

Paul Medeiros Senior Vice President of Business Development and Chief Business Officer

Effective May 19, 2009, the Company hired Paul Medeiros as the Company's Senior Vice President of Business Development and Chief Business Officer. In connection with his hiring, the Company and Mr. Medeiros entered into an Employment Agreement dated May 19, 2009 providing for Mr. Medeiros's at will employment by the Company. Under the terms of his Employment Agreement, Mr. Medeiros is entitled to an initial annual salary of \$315,000 per year, which amount is subject to review for potential increase, but not decrease, on an annual basis. In addition to his base compensation, Mr. Medeiros is eligible for an annual bonus up to 25% of his annual basis compensation amount, subject to achievement and satisfaction of goals and objectives established upon mutual agreement of the Company's Chief Executive Officer, the Company's Compensation Committee and Mr. Medeiros. Mr. Medeiros's Employment Agreement provided for a guaranteed bonus of at least \$50,000 for fiscal year 2009.

In connection with his employment as the Company's Senior Vice President of Business Development and Chief Business Officer, the Company granted to Mr. Medeiros options to purchase 400,000 shares of the Company's common stock under the Company's 2002 Plan, with an exercise price equal to the fair market value of the Company's common stock on May 19, 2009, which was \$1.10 per share. Subject to certain exceptions, the options vest in equal annual installments over a period of three years. In addition, on that same date the Company granted to Mr. Medeiros 100,000 restricted shares of the Company's common stock, which

will vest on a pro rata basis through the first anniversary of Mr. Medeiros' s employment, subject to certain performance-based criteria. As of the date hereof, the performance criterion has not been achieved and the Company believes the achievement thereof is unlikely.

In addition to his base compensation for 2009, the Company agreed to pay Mr. Medeiros a \$100,000 sign-on bonus. In the event that Mr. Medeiros separates from the Company prior to his one-year anniversary with the Company for reasons of (i) termination of Mr. Medeiros by the Company for Cause (as defined in the Employment Agreement) or (ii) voluntary termination by Mr. Medeiros other than for Good Reason (as defined in the Employment Agreement), the sign-on bonus is completely refundable to the Company. The Company is also required to reimburse Mr. Medeiros for all expenses reasonably incurred by him in discharging his duties for the Company.

In addition to the compensation described above, under the Employment Agreement Mr. Medeiros is entitled to receive (i) reimbursement of up to \$120,000 in 2010 for reasonable expenses incurred in 2009 and 2010 to relocate Mr. Medeiros to the location of the Company' s headquarters, including the reasonable and customary costs associated with purchasing a new residence and moving expenses, (ii) reimbursement of up to \$5,000 for reasonable legal fees incurred by Mr. Medeiros in connection with the negotiation of the Employment Agreement, (iii) a monthly living allowance of \$2,500 for a period of up to six months, (iv) four weeks of paid vacation per year, as well as paid holidays generally available to senior executives, and (v) subject to eligibility requirements, participation in benefits and programs generally available to all employees or executives.

The Employment Agreement provides that, following Mr. Medeiros' s termination of employment with the Company, Mr. Medeiros may not engage in certain activities in competition with the Company' s business activities for a period between one year and two years, depending on the nature of Mr. Medeiros' s termination. Mr. Medeiros is further prohibited for a period of two years following termination of employment with the Company from recruiting, hiring, or assisting a third party in hiring any person then employed by the Company.

Mr. Medeiros may voluntarily terminate his employment after giving the Company 60 days' notice. The Company may terminate Mr. Medeiros' s employment without Cause (as defined in the Employment Agreement) upon 30 days' written notice. Mr. Medeiros' s employment is also terminated upon death, disability, or upon the effective date of a notice sent by the Company to Mr. Medeiros terminating him for Cause.

Employment Agreements with Named Executive Officers Entered into by the Company in 2008

Leslie Hudson, Ph.D. Chief Executive Officer

On February 8, 2008, the Board of Directors appointed Leslie Hudson, Ph.D. as the Company' s Chief Executive Officer. In connection with his appointment, the Company and Dr. Hudson entered into an Employment Agreement providing for Dr. Hudson' s at will employment by the Company. Under the terms of the Employment Agreement, Dr. Hudson is entitled to an initial annual salary of \$480,000, which amount is subject to review for potential increase, but not decrease, on an annual basis. In addition to his base salary, Dr. Hudson is entitled to an annual bonus based upon the Company' s and Dr. Hudson' s achievement of performance objectives established by the Company' s Board of Directors, with the target bonus level being equal to 60% of Dr. Hudson' s base salary. Dr. Hudson' s compensation package was extensively negotiated, and Dr. Hudson' s compensation is high relative to the compensation payable to other executive officers of the Company, including the Company' s Interim Chief Executive Officer who served between March 2007 and February 2008. The Radford Survey showed that Dr. Hudson' s base compensation was in excess of the Company' s targeted 60th percentile. In determining Dr. Hudson' s compensation, the Board of Directors took into account, among other things, the fact that Dr. Hudson would be required to relocate from his home in New Jersey, Dr. Hudson' s extensive experience in the Company' s industry, and the salaries and potential bonuses commanded by principal executive officers at other companies in the Company' s industry.

In connection with his employment as the Company's Chief Executive Officer, the Company granted to Dr. Hudson options to purchase 667,000 shares of the Company's common stock under the Company's 2002 Plan, with an exercise price equal to the fair market value of the Company's common stock on February 8, 2008, which was \$1.09 per share. Subject to certain exceptions, the options vest in equal annual installments over a period of four years. In addition, on that same date the Company granted to Dr. Hudson 333,000 restricted shares of the Company's common stock. A portion of the shares of common stock are subject to forfeiture, with 100,000 shares vesting on February 8, 2008 and 233,000 shares vesting in equal annual installments over four years commencing on February 8, 2008. The Company is also required to reimburse Dr. Hudson for all expenses reasonably incurred by him in discharging his duties for the Company.

In addition to the compensation described above, under the Employment Agreement Dr. Hudson is entitled to receive (i) health care benefits for him and his spouse, (ii) reimbursement of up to \$25,000 in legal fees incurred by Dr. Hudson in connection with the negotiation of the Employment Agreement, (iii) a monthly living allowance of up to \$4,500 until October 1, 2010, (iv) a car

allowance of \$1,000 per month and airfare for one round trip per week between his home and the Company's headquarters, (v) reimbursement of actual travel and other business expenses, (v) reimbursement of moving expenses and reasonable and customary costs of selling a residence in Princeton, New Jersey, as well as two round-trip economy fare airplane tickets for relocation purposes for each of Dr. Hudson and his spouse, (vi) during the first year of employment, reimbursement for up to four round trip economy airplane tickets per month for travel actually incurred between Portland, Oregon and his home in Bend, Oregon, (vii) four weeks of paid vacation per year, as well as paid holidays generally available to senior executives, (viii) \$9,500 per year for reasonable expenses incurred in connection with Dr. Hudson's federal and state income tax returns and investment advice, and (ix) subject to eligibility requirements, participation in benefits and programs generally available to all employees or executives. In addition, the Company is required to provide Dr. Hudson with the Company's standard directors and officers insurance policy, and indemnify and hold Dr. Hudson harmless from liability arising out of his services to the fullest extent permitted by Oregon law. The Employment Agreement further provides that Dr. Hudson is entitled to receive certain tax gross-up payments. In 2008-09, in accordance with his Employment Agreement, he received reimbursement of moving expenses and reasonable and customary costs of selling a residence in Princeton, New Jersey, as well as two round-trip economy fare airplane tickets for relocation purposes for each of Dr. Hudson and his spouse and reimbursement of \$25,000 in legal fees incurred by Dr. Hudson in connection with the negotiation of the Employment Agreement.

The Employment Agreement provides that, for a period of two years following Dr. Hudson's termination of employment with the Company, Dr. Hudson may not engage in certain activities in competition with the Company's business activities, to the extent those competitive activities relate to five competitors specified by the Company prior to Dr. Hudson's termination. Dr. Hudson is further prohibited, for a period of two years following termination of employment with the Company, from recruiting, hiring, or assisting a third party in hiring any person then employed by the Company.

After 2009, Dr. Hudson's Employment Agreement provides that Dr. Hudson may voluntarily terminate his employment with the Company, with or without Good Reason (as defined in the Employment Agreement), upon not less than 30 days. The Company may terminate Dr. Hudson's employment without Cause (as defined in the Employment Agreement) and other than in connection with a Change in Control (as defined in the Employment Agreement) upon 30 days' written notice. Dr. Hudson's employment is terminated upon death, disability, or upon the effective date of a notice sent by the Company to Dr. Hudson terminating him for Cause. Effective April 20, 2010, Dr. Hudson resigned at the request of the Board of Directors, which resignation is being treated as a termination without Cause (as defined in the Employment Agreement). See note 12 (Subsequent Events) to the financial statements filed with this Form 10-K/A.

J. David Boyle II Chief Financial Officer

On August 18, 2008, the Company hired J. David Boyle II as the Company's Chief Financial Officer. In connection with his appointment, the Company and Mr. Boyle entered into an Employment Agreement dated July 24, 2008 providing for Mr. Boyle's at will employment by the Company. Under the terms of the Employment Agreement, Mr. Boyle is entitled to an initial annual salary of \$324,000, which amount is subject to review for potential increase, but not decrease, on an annual basis. In addition to his base salary, Mr. Boyle is eligible for an annual bonus of up to 30% of his base salary, based upon Mr. Boyle's achievement of performance objectives established by mutual agreement among Mr. Boyle, the Company's Chief Executive Officer, and the Compensation Committee. As noted above, Mr. Boyle received a bonus of \$62,111 (or approximately 20%) for his total cash compensation in connection with his services in 2009.

In connection with his employment as the Company's Chief Financial Officer, the Company granted to Mr. Boyle options to purchase 350,000 shares of the Company's common stock under the Company's 2002 Plan, with an exercise price equal to the fair market value of the Company's common stock on August 18, 2008, which was \$1.21 per share. Subject to certain exceptions, the options vest in equal annual installments over a period of three years. In addition, on that same date the Company granted to Mr. Boyle options to purchase an additional 150,000 shares of the Company's common stock under the Company's 2002 Plan, with an exercise price equal to the fair market value of the Company's common stock on August 18, 2008, which was \$1.21 per share. The vesting of these 150,000 shares is subject to the Company's achievement of certain milestones, which the Company has not achieved and will not achieve. The Company is also required to reimburse Mr. Boyle for all expenses reasonably incurred by him in discharging his duties for the Company.

In addition to the compensation described above, under the Employment Agreement Mr. Boyle is entitled to receive (i) reimbursement of up to \$100,000 for reasonable expenses incurred in 2008 for reasonable expenses incurred to relocate Mr. Boyle, his spouse and certain members of his family to the city of the Company's headquarters, including the reasonable and customary costs associated with selling his prior residence, moving expenses, and costs associated with purchasing a new residence (ii) reimbursement of up to \$5,000 for reasonable legal fees incurred by Mr. Boyle in connection with the negotiation of the Employment Agreement, (iii) a monthly living allowance of \$2,000 for a period of up to six months, (iv) four weeks of paid vacation per year, as well as paid holidays generally available to senior executives, and (v) subject to eligibility requirements, participation in benefits and programs

generally available to all employees or executives. The Employment Agreement further provides that Mr. Boyle is entitled to receive certain tax gross-up payments.

The Employment Agreement provides that, following Mr. Boyle's termination of employment with the Company, Mr. Boyle may not engage in certain activities in competition with the Company's business activities for a period between one year and two years, depending on the nature of Mr. Boyle's termination. Mr. Boyle is further prohibited for a period of two years following termination of employment with the Company from recruiting, hiring, or assisting a third party in hiring any person then employed by the Company.

Mr. Boyle may voluntarily terminate his employment after giving the Company sixty days' notice, and the Company may terminate Mr. Boyle's employment without Cause (as defined in the Employment Agreement) upon thirty days' written notice. Mr. Boyle's employment is also terminated upon death, disability, or upon the effective date of a notice sent by the Company to Mr. Boyle terminating him for Cause.

Effective April 20, 2010, Mr. Boyle was appointed the Company's Interim Chief Executive Officer and President. As a result of this interim appointment, Mr. Boyle's salary has been increased by \$3,000 per month while serving as the Interim Chief Executive Officer and President, his bonus target percentage for 2010 has been increased to forty percent (40%), and he has been granted a fully vested option on April 20, 2010 to acquire 50,000 shares of the Company's common stock at an exercise price of \$1.24.

Employment Agreements with Other Named Executive Officers in Prior Years

The Company has entered into employment contracts with each of its other named executive officers that provide for a base annual compensation. The employment contracts are cancelable by the employee on sixty days' notice and by the Company on thirty days' notice or for Cause. Cause is defined in the employment agreement as the named executive officer's willful or repeated failure to comply with the Company's policies, standards or regulations, or the named executive officer engages in conduct that is dishonest, fraudulent or detrimental to the Company. The employment agreements provide that the named executive officers may not compete with the Company or solicit the employment of other individuals employed by the Company during their employment and for a period of two years thereafter. Under the employment agreements, the named executive officers may not disclose the Company's confidential information to outsiders during employment and for a period of two years thereafter and must assign inventions conceived by them to the Company. The respective employment agreements provide that each named executive officer is entitled to severance benefits and change in control payments in certain circumstances, as discussed below under *Post-Employment Benefits and Change in Control Arrangements*.

Post-Employment Benefits and Change in Control Arrangements for the Company's Named Executive Officers

The Company does not generally provide special post-employment benefits to its named executive officers, other than those available to its employees generally. 2009 Director Compensation

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board of Directors. In setting director compensation, the Company considers the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill-level required by the Company of directors.

The Company has certain policies pertaining to director compensation. In 2009, compensation for certain directors was adjusted to reflect the fact that they departed or joined the Board during 2009. See discussion below under "Director Compensation for Fiscal 2009" for details regarding individual director compensation.

The following director compensation policies were effective in the fiscal year 2009, and, as noted, have been modified for fiscal year 2010:

- annual compensation of \$30,000 for services as a director, other than the Chairman of the Board of Directors;
- annual compensation of \$75,000 payable to the Chairman of the Board of Directors;
- an additional \$12,000 to the Chairman of the Audit Committee;
- an additional \$8,000 to each member of the Audit Committee;
- an additional \$5,000 to the Chairman of the Compensation Committee;
- an additional \$3,000 to each member of the Compensation Committee;
- an additional \$5,000 to the Chairman of the Nominating and Corporate Governance Committee;
- an additional \$3,000 to each member of the Nominating and Corporate Governance Committee;

Edgar Filing: AVI BIOPHARMA INC - Form 10-K/A

- For fiscal year 2009, at the meeting of the Board of Directors held immediately following the Annual Meeting, each non-employee director other than Dr. Behrens and Dr. Henney received 5,000 shares of Common Stock. These shares vest on the anniversary date of the grant;

- For fiscal year 2009, at the meeting of the Board of Directors held immediately following the Annual Meeting, each non-employee director other than Dr. Behrens and Dr. Henney received a nonqualified option to purchase 20,000 shares of Common Stock with an exercise price equal to the fair market value of the Common Stock on the date of the grant pursuant to AVI's 2002 Equity Incentive Plan. These options vest ratably on each anniversary date of the grant over four years of continued service to the Board of Directors;

- Starting in fiscal year 2010, each year at the meeting of the Board of Directors held immediately following the Annual Meeting, each non-employee director who has served at least six months will receive 5,000 shares of Common Stock. These shares will vest on the earlier of (i) the anniversary date of the grant or (ii) the date of the Annual Meeting in the year following the date of grant; and

- Starting in fiscal year 2010, each year at the meeting of the Board of Directors held immediately following the Annual Meeting, each non-employee director who has served at least six months will receive a nonqualified option to purchase 30,000 shares of Common Stock with an exercise price equal to the fair market value of the Common Stock on the date of the grant pursuant to AVI's 2002 Equity Incentive Plan. These options will vest on the earlier of (i) the anniversary date of the grant or (ii) the date of the Annual Meeting in the year following the date of grant.

In addition to the compensation paid to members of the Company's committees and instead of the compensation paid to non-employee directors at the meeting held immediately following the Annual Meeting, new non-employee directors receive:

- a nonqualified option upon joining the Board of Directors, to purchase 60,000 shares of Common Stock at an exercise price equal to the fair market value of the Common Stock on the date of the grant pursuant to AVI's 2002 Equity Incentive Plan. These options vest ratably over four years of continued service to the Board of Directors, with 1/4 of the total amount shares vesting each year on the earlier of (i) the anniversary date of the grant or (ii) the date of the Annual Meeting in the year following the date of grant.

Dr. Behrens and Dr. Henney joined the Board of Directors in early 2009. As a result, they did not receive the annual non-employee equity awards granted to members of the Board of Directors at the meeting of the Board of Directors held immediately following the 2009 Annual Meeting described above. Instead, in addition to the cash compensation paid for service as a director as described above, Dr. Behrens and Dr. Henney each received a nonqualified option upon joining the Board of Directors to purchase 60,000 shares of Common Stock at an exercise price equal to the fair market value of the Common Stock on the date of the grant pursuant to AVI's 2002 Equity Incentive Plan. These options vest ratably over four years of continued service to the Board of Directors, with 1/4 of the total amount shares vesting each year on the earlier of (i) the anniversary date of the grant or (ii) the date of the Annual Meeting in the year following the date of grant.

(1) The number of securities remaining available for future issuance under equity compensation plans includes shares from the Company's 2002 Equity Incentive Plan (the "2002 Plan"). The number of shares reserved for issuance is increased by an automatic annual share increase pursuant to which the number of shares available for issuance under the 2002 Plan automatically increases on the first trading day of each fiscal year (the "First Trading Day"), beginning with the 2003 fiscal year and continuing through the fiscal year 2011, by an amount equal to two percent (2%) of the total number of shares outstanding on the last trading day of the immediately preceding fiscal year; such increases being subject to the limitation in the next sentence. The 2002 Plan provides that, following any such adjustment, the number of then outstanding options under the Company's stock option plans and stock purchase plans, together with options in the reserve then available for future grants under the Company's stock option plans, will not exceed twenty percent (20%) of the then outstanding voting shares of capital stock of the Company, and all the actually outstanding stock options under the Company's stock option plans, together with all shares in the reserve then available for future grants under the Company's stock option and stock purchase plans. This automatic share increase feature is designed to assure that a sufficient reserve of Common Stock remains available for the duration of the 2002 Plan to attract and retain the services of key individuals essential to the Company's long-term growth and success. This feature is also designed to eliminate the uncertainty inherent in seeking an individual increase to the reserve each year as to what number of shares will be available in the reserve for option grants. Creating a certain rate of growth under the 2002 Plan assists the Company as it makes strategic personnel decisions in an effort to expand its growth, as the Company will know the approximate number of shares that will become available for issuance under the 2002 Plan. At the same time, the Company has attempted to minimize the dilutive effect that the issuance of Common Stock upon the exercise of options can have on stockholders' percentage of ownership in the Company by adopting only a 2% growth rate for the 2002 Plan. This rate, while it provides room for growth in the 2002 Plan, is a rate which the Company believes it can reasonably sustain, minimizing the risk to stockholders that the option reserve grows faster than the Company itself. The twenty percent (20%) limitation discussed above further protects shareholders by capping the size of the 2002 Plan in relation to the Company's other securities.

Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AVI BioPharma, Inc. (a development stage enterprise) as of December 31, 2009 and 2008, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2009 and the information included in the cumulative from inception presentations for the period January 1, 2002 to December 31, 2009 (not separately presented herein), in conformity with U.S. generally accepted accounting principles.
