(1) EBITDA is defined as net income (loss) attributable to Rockwood Holdings, Inc. plus interest expense, net, income tax provision (benefit) and depreciation and amortization. EBITDA is not a recognized term under U.S. GAAP and does not purport to be an alternative to net income (loss) as an indicator of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements.

The amounts shown for EBITDA differ from the amounts calculated under the definition of consolidated EBITDA used in our debt agreements. The definition of EBITDA used in our debt agreements permits further adjustments for certain cash and non-cash charges and gains; the indenture governing the 2014 Notes and the facility agreement governing the Titanium Dioxide Pigments venture exclude certain adjustments permitted under the senior secured credit agreement. Consolidated EBITDA as adjusted (Adjusted EBITDA) is used in our debt agreements to

determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain payments. In addition to covenant compliance, our management also uses Adjusted EBITDA to assess our operating performance and to calculate performance-based cash bonuses and determine whether certain performance-based stock options vest, as both

such bonuses and options are tied to Adjusted EBITDA targets. For a discussion of the adjustments, uses and the limitations on the use of Adjusted EBITDA, see Management's Discussion and Analysis of Financial Condition and Results of Operations Factors Which Affect Our Results of Operations Special Note Regarding Non-GAAP Financial Measures in our annual report on Form 10-K for the year ended December 31, 2010, which is incorporated by reference herein.
