**Cohen & Steers Quality Income Realty Fund, Inc.**

**NOTES TO FINANCIAL STATEMENTS (Unaudited)**

**Note 1. Portfolio Valuation:** Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day or, if no asked price is available, at the bid price. Exchange traded options are valued at their last sale price as of the close of options trading on applicable exchanges. In the absence of a last sale, options are valued at the average of the quoted bid and asked prices as of the close of business. Over-the-counter options quotations are provided by the respective counterparty when such prices are believed by the Board of Directors to reflect the fair market value.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined as reflected on the tape at the close of the exchange representing the principal market for such securities. If after the close of a foreign market, but prior to the close of business on the day the securities are being valued, market conditions change significantly, certain foreign securities may be fair valued pursuant to procedures established by the Board of Directors.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be over-the-counter, are valued at the official closing prices as reported by sources as the Board of Directors deem appropriate to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day, or if no asked price is available, at the bid price. However, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the Board of Directors to reflect the fair market value of such securities.

Securities for which market prices are unavailable, or securities for which the investment manager determines that the bid and/or asked price or a counterparty valuation does not reflect market value, will be valued at fair value pursuant to procedures approved by the Fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the Fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include, but are not limited to, recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The Fund's use of fair value pricing may cause the net asset value of Fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be

## Cohen &amp; Steers Quality Income Realty Fund, Inc.

## NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

materially different than the value that could be realized upon the sale of that security.

Short-term debt securities with a maturity date of 60 days or less are valued at amortized cost, which approximates value. Investments in open-end mutual funds are valued at their closing net asset value.

Fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. The hierarchy of inputs that are used in determining the fair value of the Fund's investments is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of March 31, 2011 in valuing the Fund's investments carried at value:

			Quoted Prices In Active Market for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)
		Total					
Common Stock	Bank	\$ 2,386,000	\$	\$		\$	2,386,000
Common Stock	Other Industries	1,234,204,291					1,234,204,291
Preferred Securities	\$25 Par Value	257,221,052					257,221,052
Preferred Securities	Capital Securities	35,996,540					35,996,540
Corporate Bonds		26,884,391					26,884,391
Money Market Funds		4,902,826					4,902,826
<b>Total Investments</b>		<b>\$ 1,561,595,100</b>	<b>\$</b>	<b>\$ 1,491,425,343</b>	<b>\$</b>	<b>\$ 67,783,757</b>	<b>\$ 2,386,000</b>
Other Financial Instruments*		\$ (11,432,072)				\$ (11,432,072)	

## Cohen &amp; Steers Quality Income Realty Fund, Inc.

## NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

\* Other financial instruments are interest rate swap contracts.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Total Investments in Securities	Common Stock - Bank	Corporate Bonds Real Estate Office
Balance as of December 31, 2010	\$ 9,848,500	\$ 2,386,000	\$ 7,462,500
Change in unrealized appreciation (depreciation)	(9,375)		(9,375)
Transfers in and/or out of Level 3	(7,453,125)		(7,453,125)
Balance as of March 31, 2011	\$ 2,386,000	\$ 2,386,000	\$

Investments classified as Level 3 infrequently trade and have significant unobservable inputs. The Level 3 securities have been fair valued utilizing inputs and assumptions which include book value, recent comparables in similar securities, as well as liquidity and market risk factors.

**Note 2. Derivative Instruments:** The following is a summary of the market valuations of the Fund's derivative instruments as of March 31, 2011:

Interest rate contracts	\$ (11,432,072)
-------------------------	-----------------

*Interest Rate Swaps:* The Fund uses interest rate swaps in connection with borrowing under its credit agreement. The interest rate swaps are intended to reduce the risk that an increase in short-term interest rates could have on the performance of the Fund's common shares as a result of the floating rate structure of the credit agreement. In these interest rate swaps, the Fund agrees to pay the other party to the interest rate swap (which is known as the counterparty) a fixed rate payment in exchange for the counterparty agreeing to pay the Fund a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on the credit agreement. The payment obligation is based on the notional amount of the swap. Depending on the state of interest rates in general, the use of interest rate swaps could enhance or harm the overall performance of the common shares. The market value of interest rate swaps is based on pricing models that consider the time value of money, volatility, the current market and contractual prices of the underlying financial instrument. Unrealized appreciation is reported as an asset and unrealized depreciation is reported as a liability on the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized appreciation or depreciation in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements. Swap agreements involve, to varying degrees, elements of market and counterparty risk, and exposure to loss in excess of the related amounts reflected in the Statement of Assets and Liabilities. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to

be received from the counterparty over the contract's remaining life, to the extent that such amount is positive.

**Note 3. Income Tax Information**

As of March 31, 2011, the federal tax cost and net unrealized appreciation on securities were as follows:

Gross unrealized appreciation	\$	321,871,023
Gross unrealized depreciation		(6,769,776)
Net unrealized appreciation	\$	315,101,247
Cost for federal income tax purposes	\$	1,246,493,853

**Item 2. Controls and Procedures**

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are effective based on their evaluation of these disclosure controls and procedures required by Rule 30a-3(b) under the Investment Company Act of 1940 and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act as of a date within 90 days of the filing of this report.

(b) During the last fiscal quarter, there were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 3. Exhibits.**

(a) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.

---

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
