February 21, 2014

# UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

## FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the fiscal year ended December 31, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: 000-26408

## WAYSIDE TECHNOLOGY GROUP, INC.

(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of incorporation)

13-3136104  
(IRS Employer Identification Number)

1157 Shrewsbury Avenue, Shrewsbury, New Jersey

07702

Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (732) 389-8950

Securities registered pursuant to section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, par value \$0.01 per share	The NASDAQ Global Market

Securities registered pursuant to section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or other information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

The aggregate market value of the Common Stock held by non-affiliates of the Registrant computed by reference to the closing sale price for the Registrant's Common Stock as of June 28, 2013, which was the last business day of the Registrant's most recently completed second fiscal quarter, as reported on The NASDAQ Global Market, was approximately \$42,371,625 (In determining the market value of the Common Stock held by any non-affiliates, shares of Common Stock of the Registrant beneficially owned by directors, officers and holders of more than 10% of the outstanding shares of Common Stock of the Registrant have been excluded. This determination of affiliate status is not necessarily a conclusive determination for other purposes).

The number of shares outstanding of the Registrant's Common Stock as of February 18, 2014 was 4,727,780 shares.

Documents Incorporated by Reference: Portions of the Registrant's definitive Proxy Statement for its 2014 Annual Meeting of Stockholders to be filed on or before April 30, 2014 are incorporated by reference into Part III of this Report.

---

## PART I

### Item 1 Business

#### General

Wayside Technology Group, Inc. and Subsidiaries (the Company, us, we, or our ) is an information technology ( IT ) channel company. We distribute software developed by others through resellers indirectly to customers worldwide. We also resell computer software and hardware developed by others and provide technical services directly to customers in the United States of America ( USA ) and Canada. We offer an extensive line of products from leading publishers of software and tools for virtualization/cloud computing, security, networking, storage & infrastructure management, application lifecycle management and other technically sophisticated domains as well as computer hardware.

Wayside Technology Group, Inc. was incorporated in Delaware in 1982. Our Common Stock is listed on The NASDAQ Global Market under the symbol WSTG . Our main web site address is [www.waysidetechnology.com](http://www.waysidetechnology.com), and the other web sites maintained by our business include [www.lifeboatdistribution.com](http://www.lifeboatdistribution.com), and [www.techxtend.com](http://www.techxtend.com). Reference to these uniform resource locators or URLs is made as an inactive textual reference for informational purposes only. Information on our web sites should not be considered filed with the Securities and Exchange Commission, and is not, and should not be deemed to be, a part of this report.

The Company operates through two reportable operating segments. The Lifeboat Distribution segment distributes technical software to corporate resellers, value added resellers (VARs), consultants and systems integrators worldwide. The TechXtend segment is a value-added reseller of software, hardware and services for corporations, government organizations and academic institutions in the USA and Canada. For each of our segments, sales from unaffiliated customers, income and total assets, among other financial information, is presented in Note 11 in the Notes to our Consolidated Financial Statements.

#### Competition

The software market is highly competitive. Pricing is very aggressive in both software distribution and reselling. The Company expects pricing pressure to continue. The Company faces competition from a wide variety of sources. In the Lifeboat Distribution segment, we compete against much larger broad-line distributors, as well as specialty distributors and, in some cases, the direct sales teams of the vendors we represent also sell directly to the end-customers. In the TechXtend segment, we also compete against vendors who sell directly to customers, as well as software resellers, superstores, e-commerce vendors, and other direct marketers of software and hardware products. In both segments, some of our competitors are significantly larger and have substantially greater resources than the Company. Many of our competitors compete principally on the basis of price, product availability, customer service and technical support.

There can be no assurance that the Company can compete effectively against existing competitors or new competitors that may enter the market or that it can generate profit margins which represent a fair return to the Company. In addition, price is an important competitive factor in the personal computer software market and there can be no assurance that the Company will not be subject to increased price competition. An increase in the amount of competition faced by the Company, or its failure to compete effectively against its competitors, could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company competes to attract prospective buyers and in sourcing new products from software developers and publishers, as well as in marketing its current product line to its customers. The Company believes that its ability to offer software developers and IT professionals easy access to a wide selection of the right IT products at reasonable prices with prompt delivery and high customer service levels, along with its good relationships with vendors and suppliers, allows it to compete effectively in acquiring prospective buyers and marketing its current product line to its customers. The Company competes to gain distribution rights for new products primarily on the basis of its reputation and its relationships with software publishers.

The market for the software products we sell is characterized by rapid changes in technology, user requirements, and customer specifications. The manner in which software products are distributed and sold is changing, and new methods of distribution and sale may emerge or expand. Software developers and publishers have sold, and may intensify their efforts to sell, their products directly to end-users. The continuing evolution of the Internet as a platform in which to conduct e-commerce business transactions has both lowered the barriers for competition and broadened customer access to products and information, increasing competition and reducing prices. From time to time, certain software developers and publishers have instituted programs for the direct sale of large order quantities of software to certain major corporate accounts. These types of programs may continue to be developed and used by various developers and publishers. While software developers and publishers currently sell new releases or upgrades directly to end users, they have not, however, attempted to completely bypass the distribution and reseller channels. There can be no assurances, that software developers and publishers will continue using distributors and resellers to the same extent they currently do. Future efforts by software developers and publishers to bypass third- party sales channels could materially and adversely affect the Company's business operations and financial conditions.

In addition, resellers and publishers may attempt to increase the volume of software products distributed electronically through ESD (Electronic Software Distribution) technology, through subscription services, and through on-line shopping services. Any of these competitive programs, if successful, could have a material adverse effect on the Company's business, results of operations and financial condition. For a description of additional risks relating to competition in our industry, please refer to Item 1.A. Risk Factors : We rely on our suppliers for product availability, marketing funds, purchasing incentives and competitive products to sell , and The IT products and services industry is intensely competitive and actions of competitors, including manufacturers of products we sell, can negatively affect our business .

## **Products**

An essential part of our ongoing operations and growth plans is the continued recruitment of software publishers for which we can sell their products. The Company offers a wide variety of technology products from a broad range of publishers and manufacturers, such as Acronis, Bluebeam Software, CA Technologies, DataCore, Datawatch, Dell/Dell Software, Flexera Software, Hewlett Packard, Infragistics, Intel Software, Lenovo, Microsoft, Mindjet, Samsung, SAP/Sybase, SmartBear, SolarWinds, Sophos, StorageCraft Technology, TechSmith, Telerik, Unitrends, Veeam Software and VMware. On a continuous basis, we screen new products for inclusion in our direct sales portfolio, catalogs and web sites based on their features, quality, price, profit margins and warranties, as well as on current sales trends. Since the Company predominantly sells software, sales of hardware and peripherals represented only 6% of our overall net sales in 2013 and 4% of net sales in 2012 and 2011.

## **Marketing and Distribution**

We market products through creative marketing communications, including our web sites, local and on-line seminars, print and electronic catalogs. We also use direct e-mail and printed material to introduce new products and upgrades, to cross-sell products to current customers, and to educate and inform existing and potential customers. We believe that our blend of electronic and traditional marketing and selling programs are important marketing vehicles for software publishers and manufacturers. These programs provide a cost-effective and service-oriented means to market and sell and fulfill software products and meet the needs of users.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

The Company had three customers that accounted for more than 10% of total sales for 2013. For the year ended December 31, 2013, Software House International Corporation ( SHI ), CDW Corporation ( CDW ) and Insight Enterprises, Inc. ( Insight ) accounted for 14.9%, 13.8% and 12.2%, respectively, of consolidated net sales and, as of December 31, 2013, 12.7%, 12.3%, and 9.5%, respectively, of total net accounts receivable. For the year ended December 31, 2012, SHI, CDW, and

Insight accounted for 13.4%, 12.4% and 11.1%, respectively, of consolidated net sales. For the year ended December 31, 2011, CDW, Insight and SHI accounted for 14.0%, 11.0% and 10.5%, respectively, of consolidated net sales. Our top five customers accounted for 48%, 44%, and 42% of consolidated net sales in 2013, 2012 and 2011, respectively. The Company generally ships products within 48 hours of confirming a customer's order. This allows for minimum backlog in the business.

Sales to customers in Canada represented 7% of our consolidated revenues in each of 2013, 2012 and 2011. For geographic financial information, please refer to Note 11 in the Notes to our Consolidated Financial Statements.

### **Customer Support**

We believe that providing a high level of customer service is necessary to compete effectively and is essential to continued sales and revenue growth. Our account representatives assist our customers with all aspects of purchasing decisions, process products ordered and respond to customer inquiries on order status, product pricing and availability. The account representatives are trained to answer all basic questions about the features and functionality of products. To deal with technical issues, we maintain an in-house technical support staff.

### **Purchasing and Fulfillment**

The Company's success is dependent, in part, upon the ability of its suppliers to develop and market products that meet the changing requirements of the marketplace. The Company believes it enjoys good relationships with its vendors. The Company and its principal vendors have cooperated frequently in product introductions and in other marketing programs. As is customary in the industry, the Company has no long-term supply contracts with any of its suppliers. Substantially all of the Company's contracts with its vendors are terminable upon 30 days notice or less. Moreover, the manner in which software products are distributed and sold is changing, and new methods of distribution and sale may emerge or expand. Software publishers have sold, and may intensify their efforts to sell, their products directly to end-users. The Company's business and results of operations may be adversely affected if the terms and conditions of the Company's authorizations with its vendors were to be significantly modified or if certain products become unavailable to the Company.

We believe that effective purchasing from a diverse vendor base is a key element of our business strategy. For the year ended December 31, 2013 Dell/Quest Software was the only individual vendor from whom our purchases exceeded 10% of our total purchases and accounted for 10.2% of our total purchases. For the year ended December 31, 2012 Dell/Quest Software was the only individual vendor from whom our purchases exceeded 10% of our total purchases and accounted for 13.4% of our total purchases. For the year ended December 31, 2011, Veeam and Quest accounted for 12.6% and 11.2%, respectively, of our total purchases. The loss of a key vendor or group of vendors could disrupt our product availability and otherwise have an adverse effect on the Company.

In 2013, the Company purchased approximately 93% of its products directly from manufacturers and publishers and the balance from multiple distributors, as compared to 91% and 90% in 2012 and 2011, respectively. Most suppliers or distributors will drop ship products directly to the customers, which reduces physical handling by the Company. Inventory management techniques, such as drop shipping allow the Company to

offer a greater range of products without increased inventory requirements or associated risk.

Inventory levels may vary from period to period, due in part to increases or decreases in sales levels, the Company's practice of making large-volume purchases when it deems the terms of such purchases to be attractive, and the addition of new suppliers and products. Moreover, the Company's order fulfillment and inventory control systems allow the Company to order certain products just in time for next day shipping.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

The Company promotes the use of electronic data interchange ( EDI ) with its suppliers, which helps reduce overhead and the use of paper in the ordering process. Although brand names and individual products are important to our business, we believe that competitive sources of supply are available for substantially all of the product categories we carry.

The Company operates distribution facilities in Shrewsbury, New Jersey and Mississauga, Canada.

### **Management Information Systems**

The Company operates management information systems on Windows 2003 and Windows 2008 platforms that allow for centralized management of key functions, including inventory, accounts receivable, purchasing, sales and distribution. We are dependent on the accuracy and proper utilization of our information technology systems, including our telephone, web sites, e-mail and fax systems.

The management information systems allow the Company to monitor sales trends, provide real-time product availability and order status information, track direct marketing campaign performance and to make marketing event driven purchasing decisions. In addition to the main system, the Company has systems of networked personal computers, as well as microcomputer-based desktop publishing systems, which facilitate data sharing and provide an automated office environment.

The Company recognizes the need to continually upgrade its management information systems to most effectively manage its operations and customer database. In that regard, the Company anticipates that it will, from time to time, require software and hardware upgrades for its present management information systems.

### **Trademarks**

The Company conducts its business under the various trademarks and service marks including Lifeboat Distribution and TechXtend. The Company protects these trademarks and service marks and believes that they have significant value to us and are important factors in our marketing programs.

### **Employees**

As of December 31, 2013, Wayside Technology Group, Inc. and its subsidiaries had 121 full-time employees and 2 part-time employees. The Company is not a party to any collective bargaining agreements with its employees, has experienced no work stoppages and considers its relationships with its employees to be satisfactory.

### **Executive Officers of the Company**

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

Set forth below are the name, age, present title, principal occupation and certain biographical information for our executive officers as of February 1, 2014, all of whom have been appointed by and serve at the discretion of the Board of Directors of the Company (the Board of Directors ).

<b>Name</b>	<b>Age</b>	<b>Position</b>
Simon F. Nynens	42	Chairman, President and Chief Executive Officer
Thomas J. Flaherty	46	Vice President and Chief Financial Officer
Vito Legrottaglie	49	VP of Operations and Information Systems
Daniel T. Jamieson	56	VP and General Manager Lifeboat Distribution
Richard J. Bevis	64	Vice President of Marketing
Shawn J. Giordano	44	Vice President of Sales-TechXtend

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

**Simon F. Nynens** was appointed President and Chief Executive Officer in January 2006. Mr. Nynens also serves on the Board of Directors and was named Chairman in June 2006. He previously held the position of Executive Vice President and Chief Financial Officer (June 2004 - January 2006) and Vice President and Chief Financial Officer (January 2002 - June 2004). Prior to January 2002, Mr. Nynens served as the Vice President and Chief Operating Officer of the Company's European operations.

**Thomas J. Flaherty** was appointed as Vice President and Chief Financial Officer in August 2012. In October 2012, Mr. Flaherty was appointed as Corporate Secretary and as a member of Wayside Technology Group (Canada), Inc. board of directors. He most recently served as Vice President of Finance of StemCyte, Inc. from 2008 to 2012. Before that, from 2004 to 2008, Mr. Flaherty served as Corporate Controller & US Division Controller at VPIsystems, Inc., an international enterprise class software company. Prior to joining VPIsystems, Inc., from 1997 to 2004, he served as Chief Financial Officer and founder of Bike-Time, LLC and GeeWhiz Toys, LLC. Mr. Flaherty also was employed by Centennial Communications Corp. and Ernst & Young, LLP. In addition, Mr. Flaherty is a Certified Public Accountant.

**Vito Legrottaglie** was appointed to the position of Vice President of Operations and Information Systems in April 2007. He previously held the position of Vice President of Information Systems since June 2003. Mr. Legrottaglie had previously served as Vice President of Information Systems from 1999 to 2000 and had been with the Company since 1996. Mr. Legrottaglie has also held the positions of Chief Technology Officer at Swell Commerce Incorporated, Vice President of Operations for The Wine Enthusiast Companies and Director of Information Systems at Barnes & Noble.

**Daniel T. Jamieson** was appointed Vice President and General Manager of Lifeboat Distribution in April 2003. Prior to that, and since 1992, Mr. Jamieson held various sales and marketing management positions within the Company.

**Richard J. Bevis** was appointed Vice President Marketing in July 2007. Prior to joining Wayside Technology Group, Inc., Mr. Bevis worked for Covance Inc., a drug development service company, as Senior Director Marketing Communication from 2003 to 2007. He also held the position of Vice President of Corporate Communications for Eyretel, PLC. from 2002 to 2003.

**Shawn J. Giordano** was appointed Vice President of Sales - TechXtend in August 2008. Mr. Giordano joined Wayside Technology Group, Inc. in November 2007 as Senior Director of Sales for TechXtend. Prior to joining Wayside Technology Group, Inc., he worked for CA, Inc. (Computer Associates), a business consulting and software development company, from 2000 to 2007, most recently as Director of Channel Sales. Mr. Giordano began his career at Microwarehouse, Inc., and in over eight years with that company, progressed through positions of increasing responsibility in sales, marketing, and management.

### Available Information

Under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company is required to file annual, quarterly and current reports, proxy and information statements and other information with the SEC. You may read and copy any document we file with the SEC at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information about the public reference room. The SEC maintains a web site at <http://www.sec.gov> that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The Company files electronically with the SEC. The Company makes available, free of charge, through its internet web site, its reports on Forms 10-K, 10-Q and 8-K, and amendments to those reports, as soon as reasonably practicable after they are filed with the SEC. The following address for the Company's web site includes a hyperlink to those reports under "Financials/SEC Filings": <http://www.waysidetechology.com>.

In January 2004, we adopted a Code of Ethical Conduct. The full text of the Code of Ethical Conduct, which applies to all employees, officers and directors of the Company, including our Chief Executive Officer and Chief Financial Officer, is available at our web site, <http://www.waysidetechnology.com>, under Corporate Governance. The Company intends to disclose any amendment to, or waiver from, a provision of the Code of Ethical Conduct that applies to its Chief Executive Officer or Chief Financial Officer on its web site under Investor Information.

Reference to the uniform resource locators or URLs contained in this section is made as an inactive textual reference for informational purposes only. Information on our web sites should not be considered filed with the Securities and Exchange Commission, and is not, and should not be deemed to be part of this report.

#### **Item 1A. Risk Factors**

*Investors should carefully consider the risk factors set forth below as well as the other information contained in this report. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. Additional risks and uncertainties not currently known to us or those currently viewed by us to be immaterial may also materially and adversely affect our business, financial condition or results of operations.*

##### ***Changes in the information technology industry and/or economic environment may reduce demand for the products and services we sell.***

Our results of operations are influenced by a variety of factors, including the condition of the IT industry, general economic conditions, shifts in demand for, or availability of, computer products and software and IT services and industry introductions of new products, upgrades or methods of distribution. The information technology products industry is characterized by abrupt changes in technology, rapid changes in customer preferences, short product life cycles and evolving industry standards. Net sales can be dependent on demand for specific product categories, and any change in demand for or supply of such products could have a material adverse effect on our net sales, and/or cause us to record write-downs of obsolete inventory, if we fail to react in a timely manner to such changes.

***We rely on our suppliers for product availability, marketing funds, purchasing incentives and competitive products to sell.*** We acquire products for resale both directly from manufacturers and indirectly from distributors. The loss of a supplier could cause a disruption in the availability of products. Additionally, there is no assurance that as manufacturers continue to or increasingly sell directly to end users and through the distribution channel, that they will not limit or curtail the availability of their products to distributors/resellers like us. For example, resellers and publishers may attempt to increase the volume of software products distributed electronically through ESD (Electronic Software Distribution) technology, through subscription services, and through on-line shopping services, and correspondingly, decrease the volume of products sold through us. Our inability to obtain a sufficient quantity of products, or an allocation of products from a manufacturer in a way that favors one of our competitors, or competing distribution channels, relative to us, could cause us to be unable to fill clients' orders in a timely manner, or at all, which could have a material adverse effect on our business, results of operations and financial condition. We also rely on our suppliers to provide funds for us to market their products, including through our catalogs and on-line marketing efforts, and to provide purchasing incentives to us. If any of the suppliers that have historically provided these benefits to us decides to reduce such benefits, our expenses would increase, adversely affecting our results of operations.

**General economic weakness may reduce our revenues and profits.** The ongoing effects of the general economic downturn, especially outside of the USA, continues to cause some of our current and potential customers to delay or reduce technology purchases, resulting in longer sales cycles, slower adoption of new technologies and increased price competition. We may, therefore, experience a greater decline in demand for the products we sell, resulting in increased competition and pressure to reduce the cost of operations. Any benefits from cost reductions may take longer to realize and may not fully mitigate the impact of the reduced demand. In addition, weak financial and credit markets heighten the risk of customer bankruptcies and create a corresponding delay in collecting receivables from those customers and may also affect our vendors' ability to supply products, which could disrupt our operations. The realization of any or all of these risks could have a material adverse effect on our business, results of operations and financial condition.

**We Depend on Having Creditworthy Customers to Avoid an Adverse Impact to Our Operating Results and Financial Condition.** We require sufficient amounts of debt and equity capital to fund our transactions as we provide larger extended payment terms to certain of our customers. If the credit quality of our customer base materially decreases, or if we experience a material increase in our credit losses, we may find it difficult to continue to obtain the required capital for our business, and our operating results and financial condition may be harmed. In addition to the impact on our ability to attract capital, a material increase in our delinquency and default experience would itself have a material adverse effect on our business, operating results and financial condition. Furthermore, if any of our customers to whom we provide larger extended payment terms go elsewhere for financing, such loss of financing revenue could have a material adverse effect on our business, operating results and financial condition.

**The IT products and services industry is intensely competitive and actions of competitors, including manufacturers of products we sell, can negatively affect our business.** Competition has been based primarily on price, product availability, speed of delivery, credit availability and quality and breadth of product lines and, increasingly, also is based on the ability to tailor specific solutions to client needs. We compete with manufacturers, including manufacturers of products we sell, as well as a large number and wide variety of marketers and resellers of IT products and services. In addition, manufacturers are increasing the volume of software products they distribute electronically directly to end-users and in the future will likely pay lower referral fees for sales of certain software licensing agreements sold by us. Generally, pricing is very aggressive in the industry, and we expect pricing pressures to continue. There can be no assurance that we will be able to negotiate prices as favorable as those negotiated by our competitors or that we will be able to offset the effects of price reductions with an increase in the number of clients, higher net sales, cost reductions, or greater sales of services, which service sales typically at higher gross margins, or otherwise. Price reductions by our competitors that we either cannot or choose not to match could result in an erosion of our market share and/or reduced sales or, to the extent we match such reductions, could result in reduced operating margins, any of which could have a material adverse effect on our business, results of operations and financial condition.

**Disruptions in our information technology and voice and data networks could affect our ability to service our clients and cause us to incur additional expenses.** We believe that our success to date has been, and future results of operations likely will be, dependent in large part upon our ability to provide prompt and efficient service to clients. Our ability to provide such services is dependent largely on the accuracy, quality and utilization of the information generated by our IT systems, which affect our ability to manage our sales, client service, distribution, inventories and accounting systems and the reliability of our voice and data networks.

**Failure to adequately maintain the security of our electronic and other confidential information could materially adversely affect our financial condition and results of operations.** We are dependent upon automated information technology processes. Privacy, security, and compliance concerns have continued to increase as technology has evolved to facilitate commerce and as cross-border commerce increases. As part of our normal business activities, we collect and store certain confidential information, including personal information of employees and information about partners and clients which may be entitled to protection under a number of regulatory regimes. In the course of normal and customary business practice, we may share some of this information with vendors who assist us with certain aspects of our business.

Moreover, the success of our operations depends upon the secure transmission of confidential and personal data over public networks, including the use of cashless payments. Any failure on the part of us or our vendors to maintain the security of data we are required to protect, including via the penetration of our network security and the misappropriation of confidential and personal information, could result in business disruption, damage to our reputation, financial obligations to third parties, fines, penalties, regulatory proceedings and private litigation with potentially large costs, and also result in deterioration in our employees', partners' and clients' confidence in us and other competitive disadvantages, and thus could have a material adverse impact on our business, financial condition and results of operations. During 2013 and 2012 we did not have any cybersecurity breaches.

***We depend on certain key personnel.*** Our future success will be largely dependent on the efforts of key management personnel for strategic and operational guidance as well as relationships with our key vendors and customers. We also believe that our future success will be largely dependent on our continued ability to attract and retain highly qualified management, sales, service, finance and technical personnel. We cannot assure you that we will be able to attract and retain such personnel. Further, we make a significant investment in the training of our sales account executives. Our inability to retain such personnel or to train them either rapidly enough to meet our expanding needs or in an effective manner for quickly changing market conditions could cause a decrease in the overall quality and efficiency of our sales staff, which could have a material adverse effect on our business, results of operations and financial condition.

***Risks Related to Our Common Stock.*** The exercise of outstanding options or any other issuance of shares by us may dilute your ownership of our Common Stock. Our Common Stock is thinly traded, which may be exacerbated by our repurchases of our Common Stock. As a result of the thin trading market for our stock, its market price may fluctuate significantly more than the stock market as a whole or of the stock prices of similar companies. Without a larger float, our common stock will be less liquid than the stock of companies with broader public ownership, and, as a result, the trading prices for our Common Stock may be more volatile. Among other things, trading of a relatively small volume of our Common Stock may have a greater impact on the trading price of our stock than would be the case if our public float were larger.

Our common stock is listed on The NASDAQ Global Market, and we therefore are subject to continued listing requirements, including requirements with respect to the market value and number of publicly-held shares, number of stockholders, minimum bid price, number of market makers and either (i) stockholders' equity or (ii) total market value of stock, total assets and total revenues. If we fail to satisfy one or more of the requirements, we may be delisted from The NASDAQ Global Market. If we do not qualify for listing on The NASDAQ Capital Market, and if we are not able to list our common stock on another exchange, our common stock could be quoted on the OTC Bulletin Board or on the pink sheets. As a result, we could face significant adverse consequences including, among others, a limited availability of market quotations for our securities and a decreased ability to issue additional securities or obtain additional financing in the future.

#### **Item 1B. Unresolved Staff Comments**

Not applicable.

#### **Item 2. Properties**

The Company leases 18,000 square feet of space in Shrewsbury, New Jersey for its corporate headquarters and warehouse under a lease expiring in February 2016. Total annual rent expense for these premises is approximately \$225,000. Additionally, the Company leases approximately 3,700 square feet of office and warehouse space in Mississauga, Canada, under a lease which expires November 30, 2016. Total annual rent expense for these premises is approximately \$30,000. The Company also leases approximately 150 square feet of office space in Almere,

Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

Netherlands under a lease which expires October 31, 2014, at an annual rent of approximately \$12,000. We believe that each of the properties is in good operating condition and such properties are adequate for the operation of the Company's business as currently conducted.

**Item 3. Legal Proceedings**

There are no material legal proceedings to which the Company or any of its subsidiaries is a party or of which any of their property is the subject.

**Item 4. Mine Safety Disclosures**

Not applicable.

**PART II**

**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

Shares of our Common Stock, par value \$0.01, trade on The NASDAQ Global Market under the symbol WSTG. Following is the range of low and high sales prices for our Common Stock as reported on The NASDAQ Global Market.

	High	Low
<b>2013:</b>		
First Quarter	\$ 13.05	\$ 11.25
Second Quarter	\$ 12.18	\$ 11.13
Third Quarter	\$ 12.95	\$ 11.40
Fourth Quarter	\$ 13.93	\$ 12.74
<b>2012:</b>		
First Quarter	\$ 14.40	\$ 11.70
Second Quarter	\$ 17.00	\$ 12.05
Third Quarter	\$ 12.97	\$ 12.15
Fourth Quarter	\$ 12.90	\$ 10.81

In each of 2013 and 2012, we declared quarterly dividends totaling \$0.65 and \$0.64 per share, respectively, on our Common Stock. Our dividend declared and paid in the fourth quarter of 2013 was increased from \$0.16 per share (declared and paid in the first, second and third quarter of 2013) to \$0.17 per share. There can be no assurance that we will continue to pay comparable cash dividends in the future.

During 2013, the Company granted a total of 56,500 shares of Restricted Stock to officers and employees. Included in these grants were 40,000 Restricted Shares granted to the Company's CEO in accordance with the satisfaction of certain performance criteria included in his compensation plan. These 40,000 Restricted Shares vest over 16 equal quarterly installments. The remaining grants of Restricted Stock vest over 20 equal quarterly installments. A total of 775 shares of Restricted Stock were forfeited as a result of employees terminating employment with the Company.

During 2012, the Company granted a total of 92,000 shares of Restricted Stock to officers, directors and employees. These shares of Restricted Stock vest over 20 equal quarterly installments. A total of 3,525 shares of Restricted Stock were forfeited as a result of employees terminating employment with the Company.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

The share issuances in all of the above transactions were not registered under the Securities Act of 1933, as amended (the Securities Act). The issuances were exempt from registration pursuant to Section 4(2) of the Securities Act and/or Regulation D thereunder, as they were transactions by the issuer that did not involve public offerings of securities and/or involved issuances to accredited investors.

As of January 30, 2014 there were approximately 30 record holders of our Common Stock. This figure does not include an estimate of the number of beneficial holders whose shares are held of record by brokerage firms and clearing agencies.

During the fourth quarter of 2013, we repurchased shares of our Common Stock as follows:

Period	Total Number of Shares Purchased	Average Price Paid Per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Average Price Paid Per Share (3)	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs (4)(5)
October 1- October 31, 2013	7,000	\$ 12.92	7,000	\$ 12.92	218,947
November 1- November 30, 2013 (1)	10,304	\$ 13.42	500	\$ 13.02	218,447
December 1 - December 31, 2013	3,500	\$ 12.95	3,500	\$ 12.95	214,947
Total	20,804	\$ 13.17	11,000	\$ 12.93	214,947

(1) Includes 9,804 shares surrendered to the Company by employees to satisfy individual tax withholding obligations upon vesting of previously issued shares of Restricted Stock. These shares are not included in the Common Stock repurchase program referred to in footnote (4) below.

(2) Average price paid per share reflects the closing price of the Company's Common Stock on the business date the shares were surrendered by the employee stockholder to satisfy individual tax withholding obligations upon vesting of Restricted Stock or the price of the Common Stock paid on the open market purchase, as applicable.

(3) Average price paid per share reflects the price of the Company's Common Stock purchased on the open market.

(4) On July 31, 2008, the Company approved the increase of its Common Stock repurchase program by 500,000 shares. The Company expects to purchase shares of its Common Stock from time to time in the market or otherwise subject to market conditions. The Common Stock repurchase program does not have an expiration date.

(5) On October 23, 2012, the Board of Directors approved, and on October 29, 2012, the Company entered into a written purchase plan intended to comply with the requirements of Rule 10b5-1 under the Exchange Act, as amended (the Plan). Purchases involving shares of the Company's Common Stock under the Plan commenced October 29, 2012, and the Plan is intended to be in effect until October 29, 2014. Pursuant to the Plan, the Company's broker shall effect purchases of up to an aggregate of 350,000 shares of Common Stock.

**STOCK PRICE PERFORMANCE GRAPH**

Set forth below is a line graph comparing the yearly percentage change in the cumulative total shareholder return on the Company's Common Stock with the cumulative total return of the S&P Midcap 400 Index and the S&P 500 Computer and Electronics Retail Index for the period commencing December 31, 2008 and ending December 31, 2013, assuming \$100 was invested on December 31, 2008 and the reinvestment of dividends.

Company / Index	Base Period Dec08	INDEXED RETURNS				
		Dec09	Dec10	Years Ending Dec11	Dec12	Dec13
Wayside Technology Group, Inc.	100	123.10	185.86	211.29	202.17	259.69

## Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following management's discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the Company's Consolidated Financial Statements and the Notes thereto. This discussion and analysis contains, in addition to historical information, forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain risks and uncertainties, including those set forth under the heading "Risk Factors" and elsewhere in this report.*

### Overview

The Company is organized into two reportable operating segments. The Lifeboat Distribution segment distributes technical software to corporate resellers, value added resellers (VARs), consultants and systems integrators worldwide. The TechXtend segment is a value-added reseller of software, hardware and services for corporations, government organizations and academic institutions in the USA and Canada.

We offer an extensive line of products from leading publishers of software and tools for virtualization/cloud computing, security, networking, storage & infrastructure management, application lifecycle management and other technically sophisticated domains as well as computer hardware. We market these products through direct sales, the Internet, our catalogs, direct mail programs, advertisements in trade magazines and e-mail promotions.

### Forward-looking Statements

This report includes forward-looking statements within the meaning of Section 21E of the Exchange Act. Statements in this report regarding future events or conditions, including but not limited to statements regarding industry prospects and the Company's expected financial position, business and financing plans, are forward-looking statements.

Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. We strongly urge current and prospective investors to carefully consider the cautionary statements and risks contained in this report, particularly the risks described under Item 1A. Risk Factors above. Such risks include, but are not limited to, the continued acceptance of the Company's distribution channel by vendors and customers, the timely availability and acceptance of new products, contribution of key vendor relationships and support programs, as well as factors that affect the software industry generally.

The Company operates in a rapidly changing business, and new risk factors emerge from time to time. Management cannot predict every risk factor, nor can it assess the impact, if any, of all such risk factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements.

Accordingly, forward-looking statements should not be relied upon as a prediction of actual results and readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. The Company undertakes no obligation to publicly update or

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The statements concerning future sales, future gross profit margin and future selling and administrative expenses are forward looking statements involving certain risks and uncertainties such as availability of products, product mix, pricing pressures, market conditions and other factors, which could result in a fluctuation of sales below recent experience.

*Stock Volatility.* The technology sector of the United States stock markets has experienced substantial volatility in recent periods. Numerous conditions which impact the technology sector or the stock market in general or the Company in particular, whether or not such events relate to or reflect upon the Company's operating performance, could adversely affect the market price of the Company's Common Stock. Furthermore, fluctuations in the Company's operating results, announcements regarding litigation, the loss of a significant vendor or customer, increased competition, reduced vendor incentives and trade credit, higher postage and operating expenses, and other developments, could have a significant impact on the market price of the Company's Common Stock.

## Financial Overview

Net sales totaled \$300.4 million in 2013 as compared to \$297.1 million in 2012, representing a 1% increase. Gross profit increased by \$0.5 million or 2% in 2013 as compared to 2012. Selling, general and administrative (SG&A) expenses increased by \$0.1 million in 2013 as compared to 2012. Income from operations amounted to \$8.9 million in 2013 as compared to \$8.5 million in 2012, representing an increase of \$0.4 million or 4% as compared to 2012. This increase resulted from the increase in total sales and total gross margin (Lifeboat Distribution segment increased offset by a decrease in TechXtend segment) offset by a slight increase in SG&A expenses. Our income before provision for income taxes increased by \$0.3 million to \$9.4 million in 2013 compared to \$9.1 million in 2012. We reported a net income of \$6.4 million for 2013 compared to \$5.5 million in 2012.

The Company's sales, gross profit and results of operations have fluctuated and are expected to continue to fluctuate on a quarterly basis as a result of a number of factors, including but not limited to: the condition of the software industry in general, shifts in demand for software products, pricing, level of extended payment terms sales transactions, industry shipments of new software products or upgrades, the timing of new merchandise and catalog offerings, fluctuations in response rates, fluctuations in merchandise returns, adverse weather conditions that affect response, distribution or shipping, shifts in the timing of holidays and changes in the Company's product offerings. The Company's operating expenditures are based on sales forecasts. If sales do not meet expectations in any given quarter, operating results may be materially adversely affected.

## Results of Operations

The following table sets forth for the years indicated the percentage of net sales represented by selected items reflected in the Company's Consolidated Statements of Earnings. The year-to-year comparison of financial results is not necessarily indicative of future results:

	Years ended December 31,		
	2013	2012	2011
Net sales	100.0%	100.0%	100.0%
Cost of sales	91.9	92.0	90.7
Gross profit	8.1	8.0	9.3
Selling, general and administrative expenses	5.2	5.1	5.9
Income from operations	2.9	2.9	3.4
Other income	0.2	0.2	0.2
Income before income taxes	3.1	3.1	3.6
Income tax provision	1.0	1.2	1.4
Net income	2.1%	1.9%	2.2%

**Year Ended December 31, 2013 Compared to Year Ended December 31, 2012**

**Net Sales**

Net sales for 2013 increased 1%, or \$3.3 million to \$300.4 million in 2013 compared to \$297.1 million in 2012. Total sales for our Lifeboat Distribution segment in 2013 were \$237.7 million compared to \$217.3 million in 2012, representing a 9% increase. Total sales for the TechXtend segment in 2013 amounted to \$62.8 million, compared to \$79.7 million in 2012, representing a 21% decrease.

The increase in net sales for our Lifeboat Distribution segment was mainly a result of the strengthening of our account penetration, our continued focus on the expanding virtual infrastructure-centric business and the addition of several key product lines; primarily on sales generated out of the USA sales office. The 21% decrease in sales in the TechXtend segment was primarily due to a decrease in large single sales transactions and a decrease in extended payment terms sales transactions in the first three quarters of 2013 as compared to exceptionally strong levels of large single sales transactions and extended payment terms sales transactions in 2012.

**Gross Profit**

Gross Profit for 2013 was \$24.4 million compared to \$23.9 million in 2012, a 2% increase. Total gross profit for our Lifeboat Distribution segment in 2013 was \$17.4 million compared to \$15.8 million in 2012, representing a 10% increase. The increase in gross profit for the Lifeboat Distribution segment was due to increased sales volume as gross profit margin remained relatively stable. Total gross profit for our TechXtend segment in 2013 was \$6.9 million compared to \$8.1 million in 2012, representing a 14% decrease. The decrease in gross profit for the TechXtend segment was the result primarily of decreased software sales volume, including a decrease in large single sale transactions and extended payment terms sales transactions, offset in part by a higher gross margin in 2013 as compared to 2012 primarily on software sales. Vendor rebates and discounts for 2013 improved and amounted to \$1.7 million compared to \$1.5 million for 2012, representing a 13% increase. The increase in vendor rebates and discounts as a percentage of net sales was experienced mainly at the TechXtend segment.

Gross profit margin (gross profit as a percentage of net sales) for 2013 was 8.1% compared to 8.0% in 2012. Gross profit margin for our Lifeboat Distribution segment was consistent at 7.3% in 2013 and 2012. Gross profit margin for our TechXtend segment in 2013 was 11.0% compared to 10.1% in 2012. This increase is due to increased pricing and vendor rebates in 2013 as compared to 2012.

The increase in gross profit dollars and the increase in gross profit margins were primarily caused by the sales growth within our Lifeboat Distribution segment and increase in pricing and an increase in rebates earned at our TechXtend segment.

The Company monitors gross profits and gross profit margins carefully. Price competition in our market persisted in 2013. Although our total gross profit margins improved slightly in 2013, we anticipate that margins, as well as discounts and rebates, will continue to be under pressure in the near future.

**Selling, General and Administrative Expenses**

Total selling, general and administrative ( SG&A ) expenses for 2013 were \$15.5 million compared to \$15.4 million in 2012, representing an increase of \$0.1 million or 0.8%. This increase is primarily the result of an increase in sales commissions and bonus for our Lifeboat segment due to our growth in this segment, increase in operations bonus, the addition of employees in TechXtend government sales, finance and operations to support business growth offset by a decrease in TechXtend sales commissions and bonus due to decrease in this segment and a decrease in legal and consulting fees. SG&A expenses as a percentage of net sales were 5.2% in each of 2013 and 2012.

Direct selling costs (a component of SG&A) for 2013 were \$8.0 million compared to \$8.1 million in 2012. Total direct selling costs for our Lifeboat Distribution segment for 2013 were \$4.7 million compared to \$4.5 million in 2012, mainly due to increased commission and bonus expense compared to the prior year on higher segment gross profit and income. Total direct selling costs for our TechXtend segment for 2013 were \$3.3 million compared to \$3.6 million in 2012. The decrease in the TechXtend segment was due to lower commission and bonus expense resulting from lower segment gross profit and segment income which are the bases for calculating commission and bonus expense offset by an increase in government sales salaries.

The Company expects that its SG&A expenses, as a percentage of net sales, may vary depending on changes in sales volume, as well as the levels of continuing investments in key growth initiatives. We plan to continue to expand our investment in information technology and marketing, while monitoring our sales and general and administrative expenses closely.

### **Income Taxes**

For the year ended December 31, 2013, the Company recorded a provision for income taxes of \$3.0 million which consists of a provision of \$2.9 million for U.S. federal income taxes, as well as a \$0.1 million provision for foreign taxes, and a deferred tax expense of \$0.1 million.

The current year effective tax rate was 32.1% compared to 39.6% in 2012. The decrease in the effective tax rate was primarily the result of a change in the state of New Jersey's apportionment rules which lowered our state rate compared with the prior year.

As of December 31, 2013, the Company had a U.S. deferred tax asset of approximately \$0.4 million.

For the year ended December 31, 2012, the Company recorded a provision for income taxes of \$3.6 million which consists of a provision of \$2.8 million for U.S. federal income taxes, as well as a \$0.5 million provision for state and local taxes, a \$0.2 million provision for foreign taxes, and a deferred tax expense of \$0.1 million.

As of December 31, 2012, the Company had a U.S. deferred tax asset of approximately \$0.5 million.

### **Year Ended December 31, 2012 Compared to Year Ended December 31, 2011**

#### **Net Sales**

Net sales for 2012 increased 19%, or \$46.9 million to \$297.1 million in 2012 compared to \$250.2 million in 2011. Total sales for our Lifeboat Distribution segment in 2012 were \$217.3 million compared to \$192.7 million in 2011, representing a 13% increase. Total sales for the TechXtend segment in 2012 amounted to \$79.7 million, compared to \$57.4 million in 2011, representing a 39% increase.

The increase in net sales for our Lifeboat Distribution segment was mainly a result of the strengthening of our account penetration, our continued focus on the expanding virtual infrastructure-centric business and the addition of several key product lines. The 39% increase in sales in the TechXtend segment was primarily due to an increase in larger extended payment term transactions, solution focus selling and higher average order sizes in 2012.

### **Gross Profit**

Gross Profit for 2012 was \$23.9 million compared to \$23.2 million in 2011, a 3% increase. Total gross profit for our Lifeboat Distribution segment was \$15.8 million compared to \$16.8 million in 2011, representing a 6% decrease. The decrease in gross profit for the Lifeboat Distribution segment was due to lower vendor rebate attainment and competitive pricing pressure within this segment. Total gross profit for our TechXtend segment was \$8.1 million compared to \$6.4 million in 2011, representing a 25% increase.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

The increase in gross profit for the TechXtend segment was the result of increased sales volume offset in part by a lower gross margin in 2012 as compared to 2011 and lower vendor rebates. Vendor rebates and discounts for 2012 amounted to \$1.8 million compared to \$2.9 million for 2011. Vendor rebates are dependent on reaching certain targets set by our vendors. Vendors have been periodically substantially increasing their target revenues for rebate eligibility. Therefore, despite our increasing revenue, vendor rebates have declined.

Gross profit margin (gross profit as a percentage of net sales) for 2012 was 8.0% compared to 9.3% in 2011. Gross profit margin for our Lifeboat Distribution segment in 2012 was 7.3% compared to 8.7% in 2011. Gross profit margin for our TechXtend segment in 2012 was 10.1% compared to 11.2% in 2011.

The increase in gross profit dollars and the decrease in gross profit margins were primarily caused by the sales growth within our Lifeboat Distribution and TechXtend segments, offset in part, by continued pressure on discounts and rebates earned and competitive pricing pressure in both segments, and, in part, by our having won several large bids, including transactions on extended payment terms, based on aggressive pricing.

The Company monitors gross profits and gross profit margins carefully. Price competition in our market intensified further in 2012, with competitors lowering their prices significantly and the Company responding immediately. Although our sales volume increased substantially as a result, gross margins, as well as the rebates and discounts that are material elements of the Company's overall profitability, were negatively impacted during the year ended December 31, 2012.

### **Selling, General and Administrative Expenses**

Total selling, general and administrative ( SG&A ) expenses for 2012 were \$15.4 million compared to \$14.6 million in 2011, representing an increase of \$0.8 million. This increase is primarily the result of an increase in sales commissions for our TechXtend segment due to our growth in this segment, the addition of employees in sales, finance and operations to support business growth and higher professional fees. As a result of the increase in net sales, SG&A expenses declined as a percentage of net sales to 5.2% in 2012, compared to 5.9% in 2011.

Direct selling costs (a component of SG&A) for 2012 were \$8.1 million compared to \$7.8 million in 2011. Total direct selling costs for our Lifeboat Distribution segment for 2012 were \$4.5 million compared to \$4.7 million in 2011, mainly due to lower commission and bonus expense compared to the prior year. Total direct selling costs for our TechXtend segment for 2012 were \$3.6 million compared to \$3.1 million in 2011. The increase in the TechXtend segment was due to higher commission, salaries and bonus expense resulting from growth in the segment.

The Company expects that its SG&A expenses, as a percentage of net sales, may vary depending on changes in sales volume, as well as the levels of continuing investments in key growth initiatives.

### **Income Taxes**

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

For the year ended December 31, 2012, the Company recorded a provision for income taxes of \$3.6 million which consists of a provision of \$2.8 million for U.S. federal income taxes, as well as a \$0.5 million provision for state and local taxes, a \$0.2 million provision for foreign taxes, and a deferred tax expense of \$0.1 million. As of December 31, 2012, the Company had a U.S. deferred tax asset of approximately \$0.5 million.

For the year ended December 31, 2011, the Company recorded a provision for income taxes of \$3.4 million which consists of a provision of \$2.4 million for U.S. federal income taxes, as well as a \$0.5 million provision for state and local taxes, a \$0.3 million provision for foreign taxes, and a deferred tax expense of \$0.3 million. As of December 31, 2011, the Company had a U.S. deferred tax asset of approximately \$0.6 million.

### Recently Adopted Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2013-02 Reporting of Amounts Reclassified out of Accumulated Other Comprehensive Income . This update requires companies to present the effects on the line items of net income of significant reclassifications out of accumulated other comprehensive income if the amount being reclassified is required under U.S. generally accepted accounting principles ( US GAAP ) to be reclassified in its entirety to net income in the same reporting period. ASU 2013-02 is effective prospectively for the Company for fiscal years, and interim periods within those years, beginning after December 15, 2012. The adoption of the amended guidance did not have a significant impact on our consolidated financial statements.

### Liquidity and Capital Resources

Our cash and cash equivalents increased by \$9.8 million to \$19.6 million at December 31, 2013 from \$9.8 million at December 31, 2012. Net cash provided by operating activities amounted to \$10.3 million, net cash provided by investing activities amounted to \$4.2 million, and net cash used in financing activities amounted to \$4.8 million.

Net cash provided by operating activities in 2013 was \$10.3 million. In 2013, cash was mainly provided by \$8.1 million from net income net of non-cash charges, a \$2.0 million decrease in accounts receivable, a \$0.4 million decrease in inventory, and a \$0.8 million increase in accounts payable, offset in part by an increase in prepaid and other current assets of \$0.8 million.

In 2013, cash provided by investing activities was \$4.2 million. This resulted primarily from \$4.4 million net redemptions of available-for-sale marketable securities. These securities are highly rated and highly liquid. These securities are classified as available-for-sale securities in accordance with ASC Topic 320 Investments in Debt and Equity Securities , and as a result, unrealized gains and losses are reported as part of accumulated other comprehensive income. This was partially offset by \$0.2 million for the purchase of equipment and leasehold improvements.

Net cash used in financing activities in 2013 of \$4.8 million consisted of \$3.0 million of dividend payments on our Common Stock and \$2.1 million for the purchases of treasury shares of our Common Stock offset by the tax benefit from share based compensation of \$0.2 million and the exercise of stock options of \$0.2 million.

In 2008, the Board of Directors authorized the purchase of 500,000 shares of our Common Stock. In 2002, the Board of Directors authorized the purchase of 1,490,000 shares of our Common Stock. In October 1999, the Company was authorized by the Board of Directors to buy back 521,013 shares of our Common Stock in both open market and private transactions, as conditions warrant. A total of 2,296,066 shares of the Company's stock had been bought back as of December 31, 2013 leaving a balance of 214,947 shares of Common Stock that the Company is authorized to buy back in the future.

On October 23, 2012, the Board of Directors approved, and on October 29, 2012, the Company entered into a written purchase plan intended to comply with the requirements of Rule 10b5-1 under the Exchange Act, as amended (the Plan ). Purchases involving shares of the Company's Common Stock under the Plan commenced October 29, 2012, and the Plan is intended to be in effect until October 29, 2014. Pursuant to the Plan, the Company's broker shall effect purchases of up to an aggregate of 350,000 shares of Common Stock.

We intend to hold the repurchased shares in treasury for general corporate purposes, including issuances under various stock plans. As of December 31, 2013, we held 631,207 shares of our Common Stock in treasury at an average cost of \$11.12 per share. As of December 31, 2012, we held 543,627 shares of our Common Stock in treasury at an average cost of \$9.88 per share.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

The Company's current and anticipated use of its cash and cash equivalents is, and will continue to be, to fund working capital, operational expenditures, the stock repurchase program and dividends, if any, declared by the Board of Directors.

On January 4, 2013, the Company entered into a \$10,000,000 revolving credit facility (the "Credit Facility") with Citibank, N.A. pursuant to a Business Loan Agreement, Promissory Note, Commercial Security Agreements and Commercial Pledge Agreement. The Credit Facility, which will be used for business and working capital purposes, including financing of larger extended payment terms sales transactions which may become a more significant portion of the Company's net sales. The Credit Facility matures on January 4, 2016. (see Note 7 Credit Facility in the Notes to our Consolidated Financial Statements). As of December 31, 2013 there were no borrowings outstanding on the Credit Facility.

The Company believes that the cash flows from operations and funds held in cash and cash equivalents as well as available borrowing on the Credit Facility will be sufficient to fund the Company's working capital and cash requirements for at least the next 12 months.

The Company had cash and cash equivalents of \$19.6 million as of December 31, 2013, of which \$3.7 million was held outside the United States. Our current intention is to reinvest the majority of our earnings from foreign operations. Our current plans do not anticipate a need to repatriate cash to fund our domestic operations. In the event cash from foreign operations is needed to fund operations in the U.S., we would be subject to additional income taxes in the U.S. reduced by any foreign taxes paid on these earnings.

### Contractual Obligations as of December 31, 2013

(Amounts in thousands)

#### Payment due by Period

	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Long-term debt obligations					
Capital Lease obligations					
Operating Leases obligations (1)	\$ 620	\$ 280	\$ 340		
Purchase Obligations					
Other Long term Obligations reflected on the Company's Balance Sheet under GAAP					
<b>Total Contractual Obligations</b>	<b>\$ 620</b>	<b>\$ 280</b>	<b>\$ 340</b>		

(1) Operating leases relate primarily to the lease of the space used for our operations in Shrewsbury, New Jersey, Mississauga, Canada and Almere, Netherlands. The commitments for operating leases include the minimum rent payments.

As of December 31, 2013, the Company is not committed by lines of credit or standby letters of credit, and has no standby repurchase obligations or other commercial commitments (see Note 7 Credit Facility in the Notes to our Consolidated Financial Statements).

**Foreign Exchange**

The Company's Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors. We are subject to fluctuations primarily in the Canadian Dollar-to-U.S. Dollar exchange rate.

### **Off-Balance Sheet Arrangements**

As of December 31, 2013, we did not have any off-balance sheet arrangements, as defined in Item 303 (a)(4)(ii) of SEC Regulation S-K.

### **Critical Accounting Policies and Estimates**

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements that have been prepared in accordance with US GAAP. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company recognizes revenue from the sale of software and hardware for microcomputers, servers and networks on a gross revenue recognition basis upon shipment or upon electronic delivery of the product.

On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, stock-based compensation, contingencies and litigation.

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The Company believes the following critical accounting policies used in the preparation of its consolidated financial statements affect its more significant judgments and estimates.

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

The Company writes down its inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-offs may be required.

The Company has considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance related to deferred tax assets. In the event the Company were to determine that it would not be able to realize all or part of its net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to income in the period such determination was made.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

Under the fair value recognition provision, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period, which is the vesting period. We make certain assumptions in order to value and expense our various share-based payment awards. In connection with valuing stock options, we use the Black-Scholes model, which requires us to estimate certain subjective assumptions. The key assumptions we make are: the expected volatility of our stock; the expected term of the award; and the expected forfeiture rate. In connection with our restricted stock programs we make assumptions principally related to the forfeiture rate. We review our valuation assumptions periodically and, as a result, we may change our valuation assumptions used to value stock based awards granted in future periods. Such changes may lead to a significant change in the expense we recognize in connection with share-based payments.

**Item 7A. Quantitative and Qualitative Disclosures about Market Risk**

In addition to its activities in the USA, 7% of the Company's 2013 sales were generated in Canada. We are subject to general risks attendant to the conduct of business in Canada, including economic uncertainties and foreign government regulations. In addition, the Company's Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors.

The Company's cash and cash equivalents, at times, may exceed federally insured limits. The Company maintains its cash accounts primarily in financial institutions with global operations. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

The Company's \$4.4 million investments in marketable securities at December 31, 2012 were invested in insured certificates of deposit at banks located in the USA. At December 31, 2013 the Company had no investments in marketable securities.

**Item 8. Financial Statements and Supplementary Data**

See Index to Consolidated Financial Statements at Item 15(a).

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

None.

**Item 9A. Controls and Procedures**

*Evaluation of Disclosure Controls and Procedures.* As required by Rule 13a-15(b) under the Exchange Act, our management carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of our management, including our Company's President, Chairman of the Board and Chief Executive Officer (principal executive officer) and Vice President and Chief Financial Officer (principal financial officer). Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

## Edgar Filing: Wayside Technology Group, Inc. - Form 10-K

*Management Report on Internal Control Over Financial Reporting.* Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer, and effected by the Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Internal control over financial reporting includes maintaining records in reasonable detail that accurately and fairly reflect our transactions and disposition of assets; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements in accordance with GAAP; providing reasonable assurance that receipts and expenditures of the Company, are made in accordance of with authorizations of management and directors of the Company; and providing reasonable assurance that unauthorized acquisition, use or disposition of Company assets that could have a material effect on our financial statements would be prevented or detected on a timely basis.

Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that, owing to changes in conditions, controls may become inadequate, or that the degree of compliance with policies or procedures may deteriorate.

Management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company’s internal control over financial reporting was effective as of December 31, 2013. There were no changes in our internal control over financial reporting during the quarter ended December 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

This annual report does not include an attestation report of the Company’s registered public accounting firm regarding internal control over financial reporting. Management’s report was not subject to attestation by the Company’s registered public accounting firm.

**Item 9B. Other Information**

None.

**PART III**

**Item 10. Directors, Executive Officers and Corporate Governance**

The information required hereunder, with the exception of the information relating to the executive officers of the Registrant that is presented in Part I under the heading Executive Officers of the Company, and the information relating to the Company’s Code of Ethical Conduct that is presented in Part I under the heading Available Information, is incorporated by reference herein from our Definitive Proxy Statement for the 2014 Annual Meeting of Stockholders, to be filed pursuant to Regulation 14A not later than April 30, 2014 (the Definitive Proxy Statement ) under the sections captioned Election of Directors, Corporate Governance and Section 16 (a) Beneficial Ownership Reporting Compliance.

**Item 11. Executive Compensation**

The information required hereunder is incorporated by reference herein from the Definitive Proxy Statement under the sections captioned Executives and Executive Compensation and Corporate Governance.

**Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**

The information required hereunder is incorporated by reference herein from the Definitive Proxy Statement under the sections captioned "Equity Compensation Plan Information," "Securities Authorized for Issuance under Equity Compensation Plans," and "Security Ownership of Certain Beneficial Owners and Management."

**Item 13. Certain Relationships and Related Party Transactions, and Director Independence**

The information required hereunder is incorporated by reference herein from the Definitive Proxy Statement under the sections captioned Executives and Executive Compensation, Corporate Governance and Transactions with Related Persons.

**Item 14. Principal Accounting Fees and Services**

The information required hereunder is incorporated by reference herein from the Definitive Proxy Statement under the section captioned Ratification of Appointment of Independent Registered Public Accounting Firm .

**PART IV**

**Item 15. Exhibits, Financial Statement Schedules**

(a) The following documents are filed as part of this Report:

1. **Consolidated Financial Statements** (See Index to Consolidated Financial Statements on page F-1 of this report);
2. **Financial Statement Schedule:**

Schedule II Valuation and Qualifying Accounts

All other schedules are omitted since the required information is not present or is not present in amounts sufficient to require submission of the schedule, or because the information required is included in the consolidated financial statements or notes thereto.

3. **Exhibits Required by Regulation S-K, Item 601:**

**Exhibit No.**
