Report on the review of quarterly information - ITR

(A free translation of the original report in Portuguese, as filed with the Brazilian Securities and Exchange Commission (CVM), prepared in accordance with the accounting practices adopted in Brazil, rules of the CVM and of the International Financial Reporting Standards - IFRS)

То

The Board of Directors and Stockholders of

Vale S.A.

Rio de Janeiro - RJ

#### Introduction

1. We have reviewed the interim accounting information of Vale S.A. ( the Company ), individual and consolidated, included in the quarterly information form - ITR for the quarter ended March 31, 2016, which comprises the balance sheet as of March 31, 2016 and the respective statements of income and comprehensive income, statements of changes in stockholders equity and statement of cash flows for the three-month period a then ended, including the explanatory notes.

2. The Company's Management is responsible for the preparation of the interim accounting information in accordance with the Accounting Pronouncement CPC 21(R1) *Demonstração Intermediária* and the international

accounting rule IAS 34 - Interim Financial Reporting, issued by the IASB, as well as the presentation of these information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of quarterly information - ITR. Our responsibility is to express our conclusion on this interim accounting information based on our review.

#### Scope of the review

3. We conducted our review in accordance with Brazilian and International Interim Information Review Standards (*NBC TR 2410 - Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity), respectively. A review of interim information consists of making inquiries primarily of the management responsible for financial and accounting matters and applying analytical procedures and other review procedures. The scope of a review is significantly less than an audit conducted in accordance with auditing standards and, accordingly, it did not enable us to obtain assurance that we were aware of all the material matters that would have been identified in an audit. Therefore, we do not express an audit opinion.

#### Conclusion on the interim accounting information

4. Based on our review, we are not aware of any fact that might lead us to believe that the individual and consolidated interim accounting information included in the aforementioned quarterly information was not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, applicable to the preparation of the quarterly review - ITR, and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

#### Other matters

#### Statements of added value

5. We have also reviewed the individual and consolidated interim information of added value for the three-month period ended March 31, 2016, prepared under the responsibility of the Company's Management, for which presentation is required in the interim information in accordance with the standards issued by the CVM applicable to the preparation of quarterly information - ITR, and considered as supplementary information by IFRS, which does not require the presentation of the statements of added value. These statements were submitted to the same review procedures described previously and, based on our review, we are not aware of any fact that might lead us to believe that they were not prepared, in all material respects, in accordance with the individual and consolidated interim accounting information, taken as a whole.

The accompanying notes are an integral part of these interim financial statements.

#### Selected Notes to the Interim Financial Statements

Expressed in millions of Brazilian Reais, unless otherwise stated

#### 1. Corporate information

Vale S.A. (the Parent Company ) is a public company headquartered at 700, Avenida das Américas, Rio de Janeiro, Brazil with securities traded on the stock exchanges of São Paulo - BM&F BOVESPA (Vale3 and Vale5), New York - NYSE (VALE and VALE.P), Paris - NYSE Euronext (Vale3 and Vale5) and Hong Kong - HKEx (codes 6210 and 6230).

Vale and its direct and indirect subsidiaries (Vale, Group or Company) are producers of iron ore and iron ore pellets, key raw materials for steelmaking, and producers of nickel, which is used to produce stainless steel and metal alloys employed in the production of several products. The Group also produces copper, metallurgical and thermal coal, potash, phosphates and other fertilizer nutrients, manganese ore, ferroalloys, platinum group metals, gold, silver and cobalt. The information by segment is presented in note 3.

#### 2. Basis for preparation of the interim financial statements

#### a) Statement of compliance

The condensed consolidated and individual interim financial statements of the Company ( interim financial statements ) have been prepared in accordance with the International Financial Reporting Standards ( IFRS ) as implemented in Brazil by the Brazilian Accountant Pronouncements Committee ( CPC ), approved by the Brazilian Securities Exchange Commission ( CVM ) and by the Brazilian Federal Accounting Council ( CFC ). All relevant information from its own financial statements, and only this information, are being presented and correspond to those used by the Company s Management.

The consolidated financial statements present the accounts of the Group.

The individual financial statements present the accounts of the Parent Company and are presented in a summarized form in note 26.

#### b) Basis of presentation

The interim financial statements have been prepared under the historical cost convention as adjusted to reflect: (i) the fair value of financial instruments measured at fair value through income statement or available-for-sale financial instruments measured at fair value through the statement of comprehensive income; and (ii) impairment of assets.

The accounting practices, accounting estimates and judgments, risk management and measurement methods are the same as those adopted when preparing the financial statements for the year ended December 31, 2015. These interim financial statements were prepared to update users about relevant information presented in the period and should be read in conjunction with the financial statements for the year ended December 31, 2015.

The interim financial statements of the Group and its associates and joint ventures are measured using the currency of the primary economic environment in which each entity operates (functional currency). In the case of the Parent Company the functional currency is the Brazilian real (BRL or R). For presentation purposes, these interim financial statements are presented in R.

The exchange rates used by the Group for major currencies to translate its operations into R\$ are as follows:

	Closing	g rate	Average rate for the three-month period ended			
	March 31, 2016	December 31, 2015	March 31, 2016	March 31, 2015		
US dollar (US\$)	3.5589	3.9048	3.9022	2.8702		
Canadian dollar ( CAD )	2.7446	2.8171	2.8421	2.3120		
Australian dollar ( AUD )	2.7322	2.8532	2.8165	2.2543		
Euro (EUR or )	4.0539	4.2504	4.3008	3.2212		

Subsequent events were evaluated through April 27, 2016, which is the date the interim financial statements were approved by the Board of Directors.

#### c) Accounting standards issued but not yet effective

The standards and interpretations issued by IASB relevant to the Company but not yet effective are the same as those adopted when preparing the financial statements for the year ended December 31, 2015.

## 3. Information by business segment and by geographic area

The information presented to the Executive Board on the performance of each segment is derived from the accounting records, adjusted for reallocations between segments.

## a) Operating income and adjusted EBITDA

Adjusted EBITDA is used by management to support the decision making process for segments. The definition of adjusted EBITDA for the Company is the operating income or loss adding dividends received from associates and joint ventures, and excluding the depreciation, depletion and amortization, impairment, onerous contracts and results on measurement or sales of non-current assets.

4.

#### Relevant event Dam failure at Samarco Mineração S.A. (Samarco)

On November 5, 2015, Samarco experienced the failure of an iron ore tailings dam (Fundão) in the state of Minas Gerais - Brazil, which affected communities and ecosystems, including the Rio Doce river.

Following the dam failure, the state government of Minas Gerais ordered the suspension of Samarco s operations.

Samarco and its shareholders, Vale and BHP Billiton Brasil Ltda. (BHPB), entered into a settlement agreement on March 2, 2016 with the federal Attorney General of Brazil, the two Brazilian states affected by the failure (Espírito Santo and Minas Gerais) and certain other parties. The settlement agreement, which includes no admission of civil, criminal or administrative liability for the Fundão dam failure, is expected to resolve the lawsuit brought in Brazilian courts by several Brazilian governmental authorities. The settlement agreement is already effective, though the resolution of claims pursuant to the agreement remains subject to judicial approval. There is no assurance as to whether and when the court will approve the resolution of claims. The term of the agreement is 15 years, renewable for successive one-year periods until all obligations under the agreement have been performed.

Under the settlement agreement, Samarco, Vale and BHPB will establish a foundation to develop and implement remediation programs to restore the environment, local communities and the social condition of the affected areas, as well as compensation programs.

Samarco has agreed to provide funding to the foundation in the amount of R\$2.0 billion in 2016, R\$1.2 billion in 2017 and R\$1.2 billion in 2018. Amounts that Samarco has already spent on remediation and compensation will be applied towards its funding obligations. From 2019 to 2021, Samarco has agreed to provide funding based on the amounts needed to complete remaining remediation and compensation projects, subject to an annual minimum of R\$800 and an annual maximum of R\$1.6 billion. The foundation will allocate an annual amount of R\$240 over 15 years to the implementation of compensation programs, and these annual amounts are included in the annual contributions described above for the first six years. Through the end of 2018, the foundation will also set aside R\$500 for basic sanitation in the affected areas.

To comply with the settlement agreement, Samarco will continue to conduct and fund the humanitarian and environmental recovery and compensation works until the foundation is operational, which is likely to occur before the end of 2016.

Samarco is currently unable to conduct ordinary mining and processing. Samarco s management is working on a plan that would permit it to resume operations, but the feasibility, timing and scope of restarting remain uncertain.

To the extent of Samarco does not meet its funding obligations in the foundation, each of Vale and BHPB is liable, under the terms of the agreement, to provide funds to the foundation in proportion to its 50% interest in Samarco.

Samarco and its shareholders expect that Samarco will be able to generate all or a substantial part of the funding required under the arrangement. Therefore, Samarco s future cash flow projections require the use of critical estimates and assumptions in their preparation, including but not limited to: (i) judicial approval of the agreement; (ii) the release of certain escrow accounts in connection with judicial proceedings in progress; (iii) the resumption of operations within a reasonable period of time; and (iv) the management of debt held by Samarco with financial institutions and bond holders.

Until new facts and circumstances are available and the referred uncertainties are reduced, it is not possible to estimate or reliably measure whether Vale will be required to provide the contributions to Samarco to comply with the agreement or to provide guarantees of its other obligations. Therefore, no provision was recognized in the Company's interim financial statements as of March 31, 2016.

In addition, Samarco and its shareholders are named as a defendant in several other lawsuits brought by individuals, corporations and governmental entities seeking damages for personal injury, wrongful death, commercial or economic injury, breach of contract and violations of statutes. Because these pending lawsuits are at the very early stages, it is not possible to determine a range of outcomes or reliable estimates of the potential exposure at this time. Therefore, no provision has been recognized and no contingent liability has been quantified.

The Company will reassess each reporting period the key assumptions used in Samarco's cash flow and any impact identified and related to this matter will be reflect in its financial statements.

#### 5. Assets held for sale

#### a) Coal - Nacala logistic corridor ( Nacala )

As at March 31, 2016 and December 31, 2015, assets held for sale refers to Nacala logistic corridor ( Nacala ).

In December 2014, the Company signed an agreement with Mitsui & Co., Ltd. (Mitsui) to sell 50% of its stake of 70% in the Nacala corridor. Nacala is a combination of railroad and port concessions under construction located in Mozambique and Malawi. After completion of the transaction, Vale will share control of Nacala with Mitsui and therefore will not consolidate the assets, liabilities and results of those entities. The assets and liabilities were classified as assets held for sale with no impact in the income statement. As at March 2016, completion of the transaction remains dependent upon certain conditions. The Company remains committed to its plan to sell its 50% interest.

	March 31, 2016	December 31, 2015
Assets held for sale		
Accounts receivable	30	13
Other current assets	431	522
Property, plant and equipments and Intangible, net	14,099	15,257
Total assets	14,560	15,792
Liabilities associated with assets held for sale		
Suppliers and contractors	295	365
Other current liabilities	41	51
Total liabilities	336	416
Net assets held for sale	14,224	15,376

### 6. Acquisitions and divestitures

#### 2016

Minas da Serra Geral S.A. (MSG) In March 2016, the Company completed the purchase option on additional 50% participation at MSG which was owned by JFE Steel Corporation (JFE) in the amount of R65. Vale now holds 100% of MSG s total stockholder s equity.

### 2015

**Energy generation assets -** In December 2013, the Company signed agreements with CEMIG Geração e Transmissão S.A. (CEMIG GT) to incorporate two joint ventures, Aliança Norte Participações S.A. and Aliança Geração de Energia S.A and exchange of assets and shares. The transaction was completed in the first quarter of 2015, in which Vale received cash proceeds of R\$306 and recognized a gain of R\$55 as result on sale or disposal of investments in associates and joint ventures and a gain of R\$546 as results on measurement or sales of non-current assets.

## 7. Cash and cash equivalents

	Consolidat	Consolidated	
	March 31, 2016	December 31, 2015	
Cash and bank deposits	9,332	7,881	
Short-term investments	4,129	6,141	
	13,461	14,022	

Cash and cash equivalents includes cash, immediately redeemable deposits and short-term investments with an insignificant risk of change in value. They are readily convertible to cash, part in R\$, indexed to the Brazilian Interbank Interest rate ( DI Rate or CDI ) and part denominated in US\$, mainly time deposits.

## 8. Accounts receivable

	Consolidated	
	March 31, 2016	December 31, 2015
	0.202	<b>5</b> 000
Trade receivables	9,302	5,988

	9,088	5,763
		, , , , , , , , , , , , , , , , , , ,
Trade receivables related to the steel sector - %	76.25%	75.32%

	Consolidated Three-month period ended March 31	
	2016	2015
Provision for doubtful debts recorded in the income statement		
Trade receivables write-offs recorded in the income statement	(1)	

Trade receivables by segments are presented in note 3(b). No individual customer represents over 10% of receivables or revenues.

## 9. Inventories

	Consolidated March 31, 2016	l December 31, 2015
Product inventory	9,871	9,968
Consumable inventory	3,656	3,807
Total	13,527	13,775

Product inventory is stated net of provisions, as follows:

	Consolidated	
	March 31, 2016	December 31, 2015
Product inventory, gross amount	11,445	11,991
Iron ore	(72)	(72)
Coal	(1,262)	(1,652)
Manganese	(17)	(16)

Nickel	(193)	(275)
Phosphate	(30)	(8)
Total	9,871	9,968

Product inventories by segments are presented in note 3(b).

## 10. Investments in associates and joint ventures

Changes in investments in associates and joint ventures are as follows:

	Consolidate Three-month period end		
	2016	2015	
Balance at beginning of the period	11,481	10,978	
Acquisitions (i)		1,819	
Additions	334	30	
Translation adjustment	(159)	326	
Equity results on income statement	589	(825)	
Equity results on statement of comprehensive income		(7)	
Dividends declared	(108)	(76)	
Transfer to held for sale		(15)	
Others	(46)		
Balance at end of the period	12,091	12,230	

(i) Refers to Aliança Geração transaction, see note 6.

In April 2016 (subsequent events), the Company announced the sale of its 26.87% interest at Thyssenkrupp Companhia Siderúrgica do Atlântico Ltd for a symbolic amount. The transaction will result in R\$339 loss on recycling the Cumulative translation adjustments .

The Company indirectly holds a 4.6% interest in Norte Energia S.A. (through Aliança Norte Energia Participações S.A.), and the Company s investment and equity results as of March 31, 2016, are respectively R\$390 and R\$(6). The independent auditor s opinion on the Norte Energia financial statements for the year ended December 31, 2015, was qualified due to an investigation related to possible breaches of law and regulation that had not been completed when the mentioned the opinion was issued. Vale believes that the auditor s qualification has no quantitative or qualitative impact on its interim financial information as of March 31, 2016.

11. Intangibles

Changes in intangibles are as follows:

	Consolidated						
	Goodwill (i)	Concessions (ii)	Right of use (ii)	Software (ii)	Total

	11,584	9,788	100,413	102,878		

The future flows of debt payments (principal and interest) per nature of funding are as follows:

			Consolidated		
	Bank loans (i)	Capital markets (i)	Development agencies (i)	Debt principal (i)	Estimated future payments of interest(ii)
2016	2,214		1,274	3,488	5,538
2017	3,395	4,313	3,861	11,569	5,627
2018	3,566	3,039	10,890	17,495	5,089
2019	4,196	3,559	2,484	10,239	4,377
2020	2,794	4,659	12,221	19,674	3,861
2021	2,701	299	1,413	4,413	3,274
Between 2022 and 2025	3,370	11,865	3,879	19,114	8,499

2026 onwards	488	23,083	303	23,874	20,667
	22,724	50,817	36,325	109,866	56,932

(i) Does not include accrued charges.

(ii) Consists of estimated future payments of interest, calculated based on interest rate curves and foreign exchange rates applicable as at March 31, 2016 and considering that all amortization payments and payments at maturity on loans and borrowings will be made on their contracted payments dates. The amount includes the estimated values of future interest payments (not yet accrued), in addition to interest already recognized in the financial statements.

At March 31, 2016, the average annual interest rates by currency are as follows:

	Consolidated	
Loans and borrowings in	Average interest rate (i)	Total debt
US\$	4.20%	83,523
R\$ (ii)	9.96%	21,662
EUR (iii)	4.06%	6,114
Other currencies	6.14%	698
		111,997

(i) In order to determine the average interest rate for debt contracts with floating rates, the Company used the last renegotiated rate at March 31, 2016.

(ii) R\$ denominated debt that bears interest at IPCA, CDI, TR or TJLP, plus spread. For a total of R\$15,036, the Company entered into derivative transactions to mitigate the exposure to the cash flow variations of the floating rate debt denominated in R\$, resulting in an average cost of 2.21% per year in US\$.

(iii) Eurobonds, for which the Company entered into derivatives to mitigate the exposure to the cash flow variations of the debt denominated in EUR, resulting in an average cost of 4.29% per year in US\$.

## b) Credit and financing lines

Туре	Contractual currency	Date of agreement	Period of the agreement	Total amount	Available amount March 31, 2016
Credit lines					
Revolving credit facilities	US\$	May 2015	5 years	10,677	4,271
Revolving credit facilities	US\$	July 2013	5 years	7,118	2,847
Financing lines					
BNDES (i)	R\$	April 2008	10 years	7,300	1,751
BNDES - CLN 150	R\$	September 2012	10 years	3,883	21
BNDES - S11D e S11D Logística	R\$	May 2014	10 years	6,163	2,847

(i) Memorandum of understanding signature date, however term is considered from the signature date of each contract amendment. This credit line supported or supports the Usina VIII, Onça Puma, Salobo I and II and capital expenditure of Itabira projects.

## c) Funding

In January 2016, the Company drew down on R\$12,065 (US\$3,000) of its revolving credit facilities. The amount of R\$7,239 (US\$1,800) was drew down on by Vale International S.A. and R\$4,826 (US\$1,200) by the Parent Company.

#### d) Guarantees

As at March 31, 2016 and December 31, 2015, loans and borrowings are secured by property, plant and equipment and receivables in the amount of R\$1,804 and R\$1,937, respectively.

The securities issued through Vale s 100%-owned finance subsidiary Vale Overseas Limited are fully and unconditionally guaranteed by Vale.

## e) Covenants

Some of the Company s debt agreements with lenders contain financial covenants. The main covenants in those agreements require maintaining certain ratios, such as debt to EBITDA (Earnings before Interest Taxes, Depreciation and Amortization) and interest coverage. The Company has not identified any instances of noncompliance as at March 31, 2016 and December 31, 2015.

## 14. Litigation

## a) **Provision for litigation**

Vale is party to labor, civil, tax and other ongoing lawsuits, at administrative and court levels. Provisions for losses resulting from lawsuits are estimated and updated by the Company, based on analysis from the Company s legal consultants. Changes in provision for litigation are as follows:

			Consolidated		
	Tax litigation	Civil litigation	Labor litigation	Environmental litigation	Total of litigation provision
Balance at December 31,					
2015	1,052	309	1,771	78	3,210
Additions	12	47	175	7	241
Reversals	(30)	(15)	(66)	(8)	(119)
Payments	(268)	(70)	(89)		(427)
Indexation and interest	23	94	13	4	134
Translation adjustment	(13)		2	1	(10)
Balance at March 31,					
2016	776	365	1,806	82	3,029

			Consolidated		
	Tax litigation	Civil litigation	Labor litigation	Environmental litigation	Total of litigation provision
Balance at December 31,					
2014	1,088	311	1,876	130	3,405
Additions	402	47	101		550
Reversals	(496)	(33)	(74)		(603)
Payments	(9)	7	(13)	(35)	(50)
Indexation and interest	(56)	34	20	(7)	(9)
Translation adjustment	51	1		141	193
Balance at March 31, 2015	980	367	1,910	229	3,486

#### b) Contingent liabilities

Contingent liabilities consist of administrative and judicial claims, which expectation of loss is classified as possible, and for which the recognition of a provision is not considered necessary by the Company, based on legal support.

	Consolidated		
	March 31, 2016	December 31, 2015	
Tax litigation	22,768	20,796	
Civil litigation	5,689	5,214	
Labor litigation	6,434	7,288	
Environmental litigation	5,682	5,393	
Total	40,573	38,691	

i - Tax litigation - The most significant claims relate to pending challenges by the Brazilian federal tax authority concerning the deductibility of Brazilian social contribution payments for income tax purposes and demands by Brazilian state tax authorities for additional payments of the value-added tax on services and circulation of goods
 ( ICMS ) in relation to the use of ICMS credits from sales and energy transmission. The change in the period is basically a new tax enforcement on services and circulation of goods ( ICMS ) and Tax on services of any nature ( ISS).

**ii** - Civil litigation - Most of these claim have been filed by suppliers for indemnification under construction contracts, primarily relating to certain alleged damages, payments and contractual penalties. A number of other claims involve disputed contractual terms for inflation indexation.

**iii** - Labor litigation - These line represent a very large number of individual claims by (i) employees and service providers, primarily involving demands for additional compensation for overtime work, time spent commuting or health and safety conditions; and (ii) the Brazilian federal social security administration (INSS) regarding contributions on compensation programs based on profits.

**iv** - Environmental litigation - The most significant claims concern alleged procedural deficiencies in licensing processes, non-compliance with existing environmental licenses or damage to the environment.

## c) Judicial deposits

In addition to the provisions and contingent liabilities, the Company is required by law to make judicial deposits to secure a potential adverse outcome of certain lawsuits. These court-ordered deposits are monetarily adjusted and reported as non-current assets until a judicial decision to draw the deposit occurs.

	Consolidated		
	March 31, 2016	December 31, 2015	
Tax litigation	854	822	
Civil litigation	354	399	
Labor litigation	2,230	2,163	
Environmental litigation	64	61	
Total	3,502	3,445	

#### d) Others

**i** - Samarco Vale S.A. and certain of its officers have been named as defendants in putative securities class action suits in federal court in New York brought by holders of Vale s securities under U.S. federal securities laws. The lawsuits allege that Vale made false and misleading statements or omitted to make disclosures concerning the risks and dangers of the operations of Samarco s Fundão dam and the adequacy of related programs and security procedures. The plaintiffs have not specified an amount of alleged damages in these actions. Vale intends to vigorously defend these actions and mount a full defense against the allegations, considering they do not represent true facts and therefore lack legal foundation. The litigation is at a very early stage. On March 7, 2016, the judge overseeing the putative securities class actions issued an order consolidating these actions and designating lead plaintiffs and counsel. The judge has given lead plaintiffs until April 29, 2016 to file a consolidated amended complaint that will serve as the operative complaint in the litigation. As a consequence of the preliminary nature of these suits, it is not possible to determine a range of outcomes or reliable estimates of the potential exposure at this time, and no provision has been recognized.

**ii** - **Compulsory deposits** - In the third quarter of 2015, the Company filed an enforceable action in the amount of R\$524 referring to the final court decision in favor of the Company of the accrued interest of compulsory deposits from 1987 to 1993. Currently it is not possible to estimate the economic benefit inflow as the counterparty can appeal on the calculation. Consequently, the asset was not recognized in the financial statements.

15. Income taxes

## a) Deferred income tax

Changes in deferred tax are as follows:

	A 4	Consolidated	T-4-1
Deleves at December 21 2015	Assets	Liabilities	Total
Balance at December 31, 2015	30,867	6,520	24,347
Effect in income statement	(2,288)	(177)	(2,111)
Translation adjustment	(1,092)	(154)	(938)
Transfers between asset and liabilities	350	350	
Other comprehensive income	(520)	(72)	(448)
Balance at March 31, 2016	27,317	6,467	20,850

	Consolidated		
	Assets	Liabilities	Total
Balance at December 31, 2014	10,560	8,874	1,686
Effect in income statement	2,828	(22)	2,850
Translation adjustment	676	1,244	(568)
Acquisition of subsidiary	(31)		(31)
Other comprehensive income	3	(154)	157
Balance at March 31, 2015	14,036	9,942	4,094

## b) Income tax reconciliation

The total amount presented as income taxes in the income statement is reconciled to the rate established by law, as follows:

	Consolidat Three-month period en	
	2016	2015
Net income (loss) before income taxes	9,731	(12,341)
Income taxes at statutory rates - 34%	(3,309)	4,196
Adjustments that affect the basis of taxes:		
Income tax benefit from interest on stockholders equity		545

Equity results	214	(281)
Additions of tax loss carry forward	209	
Unrecognized tax losses of the period	(723)	(1,191)
Others	206	(619)
Income taxes	(3,403)	2,650

## c) Income taxes - Settlement program ( REFIS )

In 2013, the Company elected to participate in the REFIS, a federal tax settlement program, to settle most of the claims related to the collection of income tax and social contribution on equity gains of foreign subsidiaries and affiliates from 2003 to 2012.

At March 31, 2016, the balance of R\$17,406 (R\$1,383 as current and R\$16,023 as non-current) is due in 151 remaining monthly installments, bearing interest at the SELIC rate.

Related to the effects of derivatives in the Income statements, the Company recognized as costs of goods sold and financial results the amounts of R\$343 and R\$4,048, respectively, for the 1st quarter of 2015. In 2016, all derivatives impacts were charged to financial results.

The maturities dates of the derivative financial instruments are as follows:

	Maturity dates
Currencies and interest rates	July 2023
Bunker oil	December 2016
Nickel	June 2018
Others	December 2027

#### Additional information about derivatives financial instruments

The risk of the derivatives portfolio is measured using the delta-Normal parametric approach, and considers that the future distribution of the risk factors and its correlations tends to present the same statistic properties verified in the historical data. The value at risk estimate considers a 95% confidence level for a one-business day time horizon.

There was no cash amount deposited as margin call regarding derivative positions on March 31, 2016. The derivative positions described in this document did not have initial costs associated.

The following tables detail the derivatives positions for Vale and its controlled companies as of March 31, 2016, with the following information: notional amount, fair value including credit risk, gains or losses in the period, value at risk and the fair value breakdown by year of maturity.

### a) Foreign exchange and interest rates derivative positions

#### (i) Protection programs for the R\$ denominated debt instruments

In order to reduce cash flow volatility, swap transactions were implemented to convert into US\$ the cash flows from certain debt instruments denominated in R\$ with interest rates linked mainly to CDI, TJLP and IPCA. In those swaps, Vale pays fixed or floating rates in US\$ and receives payments in R\$ linked to the interest rates of the protected debt instruments.

The swap transactions were negotiated over-the-counter and the protected items are the cash flows from debt instruments linked to R\$. These programs transform into US\$ the obligations linked to R\$ to achieve a currency offset in the Company s cash flows, by matching its receivables - mainly linked to US\$ - with its payables.

## (ii) Protection program for EUR denominated debt instruments

In order to reduce the cash flow volatility, swap and forward transactions were implemented to convert into US\$ the cash flows from certain debt instruments issued in Euros by Vale. In those swaps, Vale receives fixed rates in EUR and pays fixed rates in US\$. And in those forwards only the principal amount of the debt is converted from EUR to US\$.

The swap and forward transactions were negotiated over-the-counter and the protected items are the cash flows from debt instruments linked to EUR. The financial settlement inflows/outflows are offset by the protected items losses/gains due to EUR/US\$ exchange rate.

## (iii) Foreign exchange hedging program for disbursements in CAD

In order to reduce the cash flow volatility, forward transactions were implemented to mitigate the foreign exchange exposure that arises from the currency mismatch between revenues denominated in US\$ and disbursements denominated in CAD.

The forward transactions were negotiated over-the-counter and the protected item is part of the CAD denominated disbursements. The financial settlement inflows/outflows are offset by the protected items losses/gains due to CAD/US\$ exchange rate. This program is classified under the hedge accounting requirements, and it was settled in this quarter.

Flow	Notional March 31, 2016 December 31, 2015	0	Average rate (CAD / USD)		Financial settlement Inflows (Outflows) March 31, 2016	Value at Risk March 31, 2016	Fair value by year 2016
Forward	CAD 10	В	1.028	(10)			

#### b) Commodities derivative positions

#### (i) Bunker Oil purchase cash flows protection program

In order to reduce the impact of bunker oil price fluctuation on maritime freight hiring/supply and, consequently, reducing the company s cash flow volatility, bunker oil derivatives were implemented. These transactions are usually executed through forward purchases and zero cost-collars.

The derivative transactions were negotiated over-the-counter and the protected item is part of the Vale s costs linked to bunker oil prices. The financial settlement inflows/outflows are offset by the protected items losses/gains due to bunker oil prices changes.

As at March 31, 2016 and December 31, 2015, excludes R\$400 and R\$397, respectively, of transactions in which the financial settlement occurs subsequently of the closing month.

### (ii) Protection programs for base metals raw materials and products

In the operational protection program for nickel sales at fixed prices, derivatives transactions were implemented to convert into floating prices the contracts with clients that required a fixed price, in order to keep nickel revenues exposed to nickel price fluctuations. Those operations are usually implemented through the purchase of nickel forwards, which are unwound before the original maturity in order to match the settlement dates of the commercial contracts in which the prices were fixed.

In the operational protection program for the purchase of raw materials and products, derivatives transactions were implemented, usually through the sale of nickel and copper forward or futures, in order to reduce the mismatch between the pricing period of purchases (concentrate, cathode, sinter, scrap and others) and the pricing period of the final product sales to the clients.

The derivative transactions are negotiated at London Metal Exchange or over-the-counter and the protected item is part of Vale s revenues and costs linked to nickel and copper prices. The financial settlement inflows/outflows are offset by the protected items losses/gains due to nickel and copper prices changes.

#### Silver Wheaton Corp. warrants

c)

The company owns warrants of Silver Wheaton Corp. (SLW), a Canadian company with stocks negotiated in Toronto Stock Exchange and New York Stock Exchange. Such warrants configure American call options and were received as part of the payment regarding the sale of part of gold payable flows produced as a sub product from Salobo copper mine and some nickel mines in Sudbury.

## d) Options related to Minerações Brasileiras Reunidas S.A. (MBR) shares

The Company entered into a contract that has options related to MBR shares. Under certain restrict and contingent conditions, which are beyond the buyer s control, the contract has a clause that gives the buyer the right to sell back its stake to the Company. It this case, the Company could settle through cash or shares. On the other hand, the Company has the right to buy back this non-controlling interest in the subsidiary.

## f) Sensitivity analysis of derivative financial instruments

The following tables present the potential value of the instruments given hypothetical stress scenarios for the main market risk factors that impact the derivatives positions. The scenarios were defined as follows:

- Scenario I: fair value calculation considering market prices as of March 31, 2016
- Scenario II: fair value estimated considering a 25% deterioration in the associated risk variables
- Scenario III: fair value estimated considering a 50% deterioration in the associated risk variables

## g) Financial counterparties ratings

The transactions of derivative instruments, cash and cash equivalents as well as investments are held with financial institutions whose exposure limits are periodically reviewed and approved by the delegated authority. The financial institutions credit risk is performed through a methodology that considers, among other information, ratings provided by international rating agencies.

The table below presents the ratings in foreign currency published by agencies Moody s and S&P regarding the main financial institutions that we had outstanding positions as of March 31, 2016.

## 23. Deferred revenue - Gold stream

In 2013 and 2015, the Company entered into gold stream transactions with Silver Wheaton Corp. (SLW) to sell part of the gold extracted during the life of the mine as a by-product of Salobo copper mine and Sudbury nickel mines. The Company received up-front cash proceeds, which were initially recognized as deferred revenue. This transaction was bifurcated into two identifiable components: (i) the sale of the mineral rights and, (ii) the services for gold extraction on the portion in which Vale operates as an agent for SLW gold extraction.

In 2015, the result of the sale of the mineral rights of R\$722 was recognized in the income statement of 2015 as other operating expenses, net and the portion related to the provision of future services for gold extraction was recorded as deferred revenue (liability) in the amount of R\$1,670. During the three-month period ended March 31, 2016 and 2015, the Company recognized in income statement R\$135 and R\$44, respectively, related to rendered services of the gold extraction.

#### 24. Commitments

#### a) Base metals operations

In March 2016, Vale Canada Limited purchased the equity interest held by Sumic Nickel Netherland B.V. in Vale Nouvelle-Calédonie S.A.S. for R\$ 480 (US\$135).

There have been no other material changes to the commitments of the base metals operations disclosed in the financial statements as at December 31, 2015, except for letters of credit and guarantees in the amount of R\$ 3,666 (US\$1,030) (R\$ 3,870 (US\$991) at December 31, 2015) associated with items such as environment reclamation, asset retirement obligation commitments, insurance, electricity commitments, post-retirement benefits, community service commitments and import and export duties.

## b) Participative stockholders debentures

The Company paid as semiannual remuneration the amount of R\$124 for the three-month period ended March 31, 2015. At April 1st, 2016 (subsequently event), the company has paid the semiannual remuneration to stockholders debentures the amount of R\$128.

## c) Operating lease and purchase obligations

The future payment commitments for operating lease and purchase obligations are as follows:

2016	179
2017	196
2018	206
2019	177
2020 and thereafter	186
Total minimum payments required	944

#### d) Guarantees provided

At March 31, 2016, corporate guarantees provided by Vale (within the limit of its direct or indirect interest) for the companies Norte Energia S.A. and Companhia Siderúrgica do Pecém S.A. totaled R\$1,100 and R\$4,445, respectively. Due to the conclusion of the energy generation assets transaction (note 6), the guarantee of Norte Energia S.A. is shared with Cemig GT.

### 25. Related parties

Transactions with related parties are made by the Company at arm's-length, observing the price and usual market conditions and therefore do not generate any undue benefit to their counterparties or loss to the Company.

In the normal course of operations, Vale enters into contracts with related parties (subsidiaries, associates, joint ventures and stockholders), related to the sale and purchase of products and services, loans, leasing of assets, sale of raw material and railway transportation services.

The balances of these related party transactions and their effects on the financial statements are as follows:
