Interim Report for Q3 and January-September 2018

INTERIM REPORT

October 25, 2018

Nokia Corporation

Interim report October 25, 2018 at 08:00 (CET +1)

#### Nokia Corporation Financial Report for Q3 and January-September 2018

#### Full year 2018 guidance reiterated following solid Q3 results

This is a summary of the Nokia Corporation financial report for Q3 and January-September 2018 published today. The complete financial report for Q3 and January-September 2018 with tables is available at www.nokia.com/financials. Investors should not rely on summaries of our financial reports only, but should review the complete financial reports with tables.

#### **RAJEEV SURI, PRESIDENT AND CEO, ON Q3 2018 RESULTS**

Nokia s third-quarter results validate our earlier view that conditions would improve in the second half of 2018. This was particularly evident in our excellent momentum in orders, growth across all five of our Networks business groups, and improved profitability compared to the first half of the year. Despite some risks related to short-term delays in project timing and product deliveries, we remain on track to deliver on our full-year guidance.

We are executing well on our strategy with particularly good progress in Nokia Software and expansion to select enterprise vertical markets. Separately today, we announced steps to accelerate that progress as well as sharpen our customer focus and maintain cost leadership. These are important steps that give us added confidence in our ability to deliver on our 2020 financial commitments.

# Q3 and January-September 2018 reported and non-IFRS results. Refer to note 1, Basis of Preparation , note 2, Non-IFRS to reported reconciliation and note 15, Performance measures , in the Financial statement information section for details.

				Constant currency				Constant currency
			YoY	YoY	Q1-	Q1-	YoY	YoY

EPS, diluted	(0.02)	(0.03)		<b>(0.13)</b> (0.19)
Operating profit/(loss) (non-IFRS)	487	668	(27)%	<b>1060</b> 1 583 (33)%
Operating margin % (non-IFRS)	8.9%	12.1%	(320)bps	<b>6.7%</b> 9.6% (290)bps
EPS, diluted (non-IFRS)	0.06	0.09	(33)%	<b>0.10</b> 0.20 (50)%
Net cash and current financial investments	1 876	2 731	(31)%	<b>1 876</b> 2 731 (31)%

• Reported net sales in Q3 2018 were EUR 5.5bn, compared to EUR 5.5bn in Q3 2017. On a constant currency basis, reported net sales grew by 1% year on year.

• Reported net sales in Q3 2018, excluding non-recurring catch-up licensing net sales which benefitted the year-ago period, grew by 3% year-on-year (4% on a constant currency basis). In Q3 2018, we achieved year-on-year growth across all five of our Networks business groups, as well as in Nokia Technologies.

• Reported diluted EPS in Q3 2018 was negative EUR 0.02, compared to negative EUR 0.03 in Q3 2017, primarily driven by lower restructuring and impairment charges, partially offset by the absence of non-recurring catch-up licensing net sales, which benefitted the year-ago period, our gross profit performance and income taxes.

• Non-IFRS diluted EPS in Q3 2018 was EUR 0.06, compared to EUR 0.09 in Q3 2017. Non-IFRS diluted EPS, excluding non-recurring catch-up licensing net sales, declined by EUR 0.01 year-on-year, as we were able to partially offset our gross profit performance with continued operating expense reductions, in line with our cost savings program.

• Net cash and current financial investments decreased by approximately EUR 270mn sequentially. In Q3 2018, we generated cash profits, which were more than offset by changes in net working capital, capital expenditures, payment of dividend withholding tax and restructuring and associated cash outflows. We expect to end 2018 with a strong financial position, based on strong seasonality in Q4.

• We reiterate 2018 non-IFRS diluted EPS guidance and remain on target to deliver EUR 1.2bn of recurring annual cost savings in full year 2018.

### OUTLOOK

	Metric	Guidance	Commentary
Nokia	Non-IFRS operating margin Non-IFRS diluted earnings per share	9-11% for full year 2018 and 12-16% for full year 2020 EUR 0.23 - 0.27 in full year 2018 and EUR 0.37 - 0.42 in full year 2020	<ul> <li>Nokia s guidance for significant improvement between full year 2018 and full year 2020 is primarily due to expectations for:</li> <li>a) Improved results in Nokia s Networks business, which are detailed below;</li> </ul>
			b) Improved results in Nokia Technologies, which are detailed below; and
			c) Benefits from our EUR 700 million cost reduction program announced on October 25, 2018, which are detailed in the Cost savings program discussion in the Financial results section. ( <u>updated</u> <u>commentary</u> )
			( <u>This is an update to earlier commentary</u> for lower Nokia support function costs within Nokia s Networks business and Group Common and Other.)
	Dividend	Approximately 40% to 70% of non-IFRS diluted EPS on a long-term basis	Nokia s Board of Directors is committed to proposing a growing dividend, including for 2018.

		Recurring free cash flow Recurring annual cost savings for Nokia, excluding Nokia Technologies	Slightly positive in full year 2018 and clearly positive in full year 2020 Approximately EUR 1.2 billion of recurring annual cost savings in full year 2018, of which approximately EUR 800 million are expected from operating expenses(1)	Recurring free cash flow is expected to improve over the longer-term, due to lower cash outflows related to restructuring and network equipment swaps(1) and improved operational results over time. The reference period is full year 2015, in which the combined operating expenses of Nokia and Alcatel-Lucent, excluding Nokia Technologies, were approximately EUR 7.3 billion. As a result of active efforts to drive 5G adoption, and in the interest of our long-term strategy given the acceleration of 5G, in 2018 we expect to incur approximately EUR 100 to 200 million of temporary incremental expenses related to 5G
		Network equipment swaps	Approximately EUR 1.3 billion of charges and cash outflows in total(1) (update)	customer trials that will partially reduce the positive impact from the recurring annual cost savings. The charges related to network equipment swaps are being recorded as non-IFRS exclusions, and therefore do not affect Nokia s non-IFRS operating profit.
		Non-IFRS financial income and expenses	Expense of approximately EUR 350 million in full year 2018 and approximately EUR 300 million over the longer-term	<ul> <li>(<u>This is an update</u> to earlier guidance for approximately EUR 1.4 billion of charges and cash outflows in total.)</li> <li>Nokia s outlook for non-IFRS financial income and expenses in full year 2018 and over the longer-term is expected to be influenced by factors including:</li> <li>Net interest expenses related to</li> </ul>
				interest-bearing liabilities and defined benefit pension and other post-employment benefit plans;
				• Foreign exchange fluctuations and hedging costs; and
		Non-IFRS tax rate	Approximately 30% for full year 2018 and 25% over the longer-term	• Expenses related to the sale of receivables. Nokia s outlook for non-IFRS tax rate for full year 2018 and over the longer-term is expected to be influenced by factors including the absolute level of profits, regional profit mix and any further changes to our operating model. Nokia expects cash outflows related to taxes to be approximately EUR 400 million in full year 2018 and approximately EUR 450 million over the longer-term until Nokia s US or Finnish deferred tax assets are fully utilized.
		Capital expenditures	Approximately EUR 700 million in full year 2018 and approximately EUR 600 million over the longer-term	Primarily attributable to Nokia s Networks business, and consistent with the depreciation of property, plant and equipment over the longer-term.
]	Nokia s Networks business	Net sales	Outperform its primary addressable market in 2018 and over the longer-term	For Nokia s Networks business, Nokia expects net sales to outperform its primary addressable market and operating margin to expand between full year 2018 and full year 2020.
	Jusiness	Operating margin	6-9% for full year 2018 and 9-12% for full year 2020	Nokia s outlook for net sales and operating margin for Nokia s Networks business in 2018 and 2020 is expected to be influenced by factors including:
				• An approximately 1 to 3 percent decline in the primary addressable market for Nokia s Networks business in full year 2018, compared to 2017, on a constant currency basis;

• Customer demand for 5G, with commercial 5G network deployments expected to begin near the end of 2018;

• Improving market conditions in the second half of 2018, with particular acceleration in the fourth quarter in North America, following weakness in the first half of 2018;

• Growth in the primary addressable market for Nokia s Networks business in 2019 and 2020, on a constant currency basis;

• Our ability to scale our supply chain operations and to procure certain standard components to meet increasing demand. (<u>This is an update to earlier commentary</u> for our ability to scale our supply chain operations to meet increasing demand);

• Recovery actions to address increased price pressure, including the ability to offset price erosion through cost reductions;

• The timing of completions and acceptances of certain projects, particularly related to 5G;

• Focus on targeted growth opportunities in attractive adjacent markets;

• Building a strong standalone software business;

• Improved R&D productivity resulting from new ways of working and the reduction of legacy platforms over time;

• Lower support function costs, including IT and site costs;

• Uncertainty related to potential mergers or acquisitions by our customers;

- Product and regional mix; and
  - Competitive and other industry dynamics.

Nokia	Recurring net sales	Grow at a compound annual growth rate	Due to risks and uncertainties in determining the timing and
Licensing	c	(CAGR) of approximately 10% over the	value of significant patent, brand and technology licensing
within Nokia		3-year period ending 2020	agreements, Nokia believes it is not appropriate to provide
Technologies			annual outlook ranges for Nokia Licensing within Nokia
			Technologies. Although annual results are difficult to forecast,
			Nokia expects net sales growth and operating margin expansion
			over the 3-year period ending 2020.
	Operating margin	Expand to approximately 85% for full	In full year 2017, licensing net sales were approximately EUR
		year 2020	1.6 billion, of which approximately EUR 300 million were
			non-recurring in nature and related to catch-up net sales for
			prior years.

Nokia s outlook for net sales and operating margin for Nokia Licensing within Nokia Technologies is expected to be influenced by factors including:

• The timing and value of new patent licensing agreements with smartphone vendors, automotive companies and consumer electronics companies;

• Renegotiation of expiring patent licensing agreements;

• Increases or decreases in net sales related to existing patent licensees;

- Results in brand and technology licensing;
- Costs to protect and enforce our intellectual property rights; and
- The regulatory landscape.

(1)For further details related to the cost savings and network equipment swaps guidance, please refer to the Cost savings program discussion in the Financial results section.

Results are as reported and relate to continuing operations unless otherwise specified. The financial information in this report is unaudited. Non-IFRS results exclude costs related to the acquisition of Alcatel-Lucent and related integration, goodwill impairment charges, intangible asset amortization and other purchase price fair value adjustments, restructuring and associated charges and certain other items that may not be indicative of Nokia s underlying business performance. For details, please refer to note 2, Non-IFRS to reported reconciliation , in the notes to the Financial statement information in this report. Change in net sales at constant currency excludes the effect of changes in exchange rates in comparison to euro, our reporting currency. For more information on currency exposures, please refer to note 1, Basis of Preparation , in the Financial statement information section in this report.

#### Nokia, Q3 2018 compared to Q3 2017

Nokia non-IFRS and reported net sales were both down approximately 1% year-on-year. On a constant currency basis, Nokia non-IFRS net sales were approximately flat year-on-year and Nokia reported net sales grew approximately 1% year-on-year.

Reported net sales in Q3 2018, excluding approximately EUR 180 million of non-recurring catch-up licensing net sales which benefitted the year-ago period, grew by approximately 3% year on year, with growth across all 5 of our Networks business groups, as well as in Nokia Technologies.

In our Networks business, our order backlog was strong at the end of Q3 2018, and we continue to expect commercial 5G network deployments to begin near the end of 2018. We continued to build momentum in our end-to-end strategy, with approximately 43% of our sales pipeline now comprised of cross-business group deals. We also continued to make progress with our strategy to diversify and grow by targeting attractive adjacent markets, with continued year-on-year growth in net sales to large enterprise vertical and webscale customers.

In Nokia Technologies, we maintained our strong track record, with 19% year-on-year growth in recurring licensing net sales. The decrease in net sales on a year-on-year basis was primarily due to the absence of approximately EUR 180 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period. We continued to make good progress on licensing agreements. Subsequent to the end of Q3 2018, we extended our patent licensing agreement with Samsung and reiterated our financial guidance for Nokia Technologies.

Nokia non-IFRS diluted EPS amounted to EUR 0.06, compared to EUR 0.09 in the year-ago period. Non-IFRS diluted EPS, excluding non-recurring catch-up licensing net sales which benefitted the year-ago period, declined by EUR 0.01 year-on-year. Adjusted for the non-recurring item, the decline in non-IFRS diluted EPS was primarily driven by lower gross profit across all three reportable segments of our Networks business, partially offset by improved recurring gross profit performance in our Technologies business, as well as lower operating expenses in both Networks and Technologies.

Nokia reported diluted EPS amounted to negative EUR 0.02, compared to negative EUR 0.03 in the year-ago period, primarily driven by lower restructuring and associated charges, lower impairment of assets and improved recurring gross profit performance in our Technologies business, partially offset by the absence of approximately EUR 180 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period, lower gross profit across all three reportable segments in our Networks business and income taxes.

#### Nokia, January-September 2018 compared to January-September 2017

Nokia reported net sales decreased 5% year-on-year. On a constant currency basis, Nokia reported net sales were flat year-on-year.

In our Networks business, our order backlog was strong at the end of Q3 2018, and we continue to expect commercial 5G network deployments to begin near the end of 2018. We continued to build momentum in our end-to-end strategy, with approximately 43% of our sales pipeline now comprised of cross-business group deals. We also continued to make progress with our strategy to diversify and grow by targeting attractive adjacent markets, with continued year-on-year growth in net sales to large enterprise vertical and webscale customers.

In Nokia Technologies, we maintained our strong track record, with 18% year-on-year growth in recurring licensing net sales. The decrease in net sales on a year-on-year basis was primarily due to the absence of approximately EUR 170 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period. We continued to make good progress on licensing agreements. Subsequent to the end of Q3 2018, we extended our patent licensing agreement with Samsung and reiterated our financial guidance for Nokia Technologies.

Nokia reported operating loss amounted to EUR 611 million, compared to EUR 403 million in the year-ago period. This was primarily driven by lower gross profit across all three reportable segments in our Networks business and the absence of approximately EUR 170 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period, partially offset by lower restructuring and associated charges and lower impairment of assets.

Nokia reported diluted EPS amounted to negative EUR 0.13, compared to negative EUR 0.19 in the year-ago period. This was primarily driven by the absence of expenses related to the early redemption of debt, lower restructuring and associated charges and income taxes, partially offset by lower gross profit across all three reportable segments in our Networks business and the absence of approximately EUR 170 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period.

#### CASH AND CASH FLOW IN Q3 2018

			QoQ		YTD
EUR million, at end of period	Q3 18	Q2 18	change	Q4 17	change
Total cash and current financial investments(1)	5 612	5 861	(4)%	8 280	(32)%
Net cash and current financial investments(1)	1 876	2 144	(13)%	4 514	(58)%

(1) For details, please refer to note 9, Net cash and current financial investments, and note 15, Performance measures, in the Financial statement information section in this report.

During the third quarter 2018, Nokia s total cash and current financial investments decreased by EUR 249 million and Nokia s net cash and current financial investments ( net cash ) decreased by EUR 268 million.

In the third quarter 2018, net cash used in operating activities was EUR 82 million:

• Nokia s adjusted profit before changes in net working capital was EUR 354 million in the third quarter 2018.

• In the third quarter 2018, Nokia experienced a decrease in net cash related to net working capital of approximately EUR 340 million, of which approximately EUR 110 million related to restructuring and associated cash outflows, and approximately EUR 230 million related to an

increase in inventories and an increase in receivables, partially offset by an increase in liabilities.

• The increase in receivables was approximately EUR 80 million.

• The increase in inventories was approximately EUR 270 million, primarily due to our decision to ensure sufficient flexibility to deliver higher levels of equipment sales.

• The increase in liabilities was approximately EUR 130 million, primarily due to an increase in accounts payable, partially offset by a decrease in contract liabilities.

In the third quarter 2018, net cash used in investing activities primarily related to capital expenditures of approximately EUR 140 million.

In the third quarter 2018, net cash used in financing activities primarily related to the payment of withholding tax of approximately EUR 130 million, associated with the dividend paid in the second quarter 2018.

#### COST SAVINGS PROGRAM

The following table summarizes the financial information related to our cost savings program, as of the end of the third quarter 2018. Balances related to previous Nokia and Alcatel-Lucent restructuring and cost savings programs have been included as part of this overall cost savings program as of the second quarter 2016.

In EUR million, approximately	Q3 18
Opening balance of restructuring and associated liabilities	750
+ Charges in the quarter	70
- Cash outflows in the quarter	110
= Ending balance of restructuring and associated liabilities	710
of which restructuring provisions	580
of which other associated liabilities	130
Total expected restructuring and associated charges	1 750
- Cumulative recorded	1 560
= Charges remaining to be recorded	190
Total expected restructuring and associated cash outflows	2 100
- Cumulative recorded	1 300
= Cash outflows remaining to be recorded	800

The following table summarizes our full year 2016 and 2017 results and future expectations related to our cost savings program and network equipment swaps.

			Actual			Expected amo	ounts for		
In EUR million,			Cumulative			FY 2019	and		
approximately			through	FY 2	2018	beyon	d	Tot	al
rounded to the nearest EUR	Actual	Actual	the end of	as of the	e end of	as of the e	nd of	as of the	end of
Recurring annual cost savings	550	250	800	400	400	0	0	1 200	1 200
- operating expenses	350	150	500	300	300	0	0	800	800
- cost of sales	200	100	300	100	100	0	0	400	400
Restructuring and associated charges	750	550	1 300	600	450	0	0	1 900	1 750
Restructuring and associated cash									
outflows	400	550	950	650	600	650	550	2 2 5 0	2 100
Charges related to network equipment									
swaps	150	450	600	650	600	150	100	1 400	1 300
Cash outflows related to network									
equipment swaps	150	450	600	650	600	150	100	1 400	1 300

We now expect restructuring and associated charges to total EUR 1 750 million and the related cash outflows to total EUR 2 100 million, both of which are EUR 150 million below our previous expectations. In addition, we now expect the charges and cash outflows related to network equipment swaps to total EUR 1 300 million, which is EUR 100 million below our previous expectations.

Note that the above expectations do not reflect the changes resulting from the cost reduction program announced on October 25, 2018. We expect the program to result in a EUR 700 million reduction of non-IFRS annualized operating expenses and production overheads by the end of 2020 compared to the end of 2018, of which EUR 500 million is expected from operating expenses. The restructuring charges and cash outflows are both expected to be EUR 900 million.

Under the cost reduction program announced on October 25, 2018, Nokia is targeting savings from a wide range of areas, including investments in digitalization to drive more automation and productivity; further process and tool simplification; significant reductions in central support functions to reach best-in-class cost levels; prioritization of R&D programs to best create long-term value; a sharp reduction of R&D in legacy products; driving efficiency from further application of our best-in-class common software foundation and innovative software development techniques; the consolidation of selected cross-company activities; and further reductions in real estate and other overhead costs.

#### **OPERATIONAL HIGHLIGHTS**

Nokia delivered another solid quarter on its strategic commitments and its 5G leadership position across business groups and geographies.

#### In the first pillar of our strategy, leading in high-performance, end-to-end networks with communication service providers:

Nokia announced a \$3.5 billion, multi-year 5G network deal with T-Mobile to accelerate the deployment of a nationwide 5G network in the US.

In September, AT&T named Nokia as one of its 5G suppliers with the US operator s announcement to introduce mobile 5G in parts of five additional cities Houston, Jacksonville, Louisville, New Orleans, and San Antonio this year.

Also in September, Nokia and Sprint gave the first live demonstration in the US of a 5G New Radio connection over a dual mode-capable Massive MIMO radio.

Earlier in the quarter, Verizon and Nokia completed the first transmission of a 3GPP New Radio 5G signal to a receiver situated in a moving vehicle. The test followed the companies successful completion of a series of outdoor data sessions over the 5G New Radio standard.

Nokia announced plans to sell the majority of its IP Video business to Volaris Group of Canada. The transaction is expected to close in Q4 2018.

Idea Cellular in Delhi started to deploy Nokia s cloud-native core technology as part of the operator s digitalization effort to meet increasing data and mobile broadband demand.

Ooredoo Myanmar selected Nokia to secure its telecom and ICT networks against cyber threats. Nokia analysed Ooredoo s systems using Nokia s Security Risk Index. The Managed Security Service then implemented performance improvements to ensure that critical information assets are adequately protected against known and unknown threats.

Early in the quarter, the consulting and research firm Analysys Mason rated Nokia s AVA cognitive services platform as the leading Telco AI Ecosystem (TAE) offering in the market. The firm highlighted the AVA platform s ability, ahead of the competition, to give vendors a single TAE in all their applications and intelligence across multiple systems and enable the optimization of end-to-end processes.

Nokia WING (Worldwide IoT Network Grid) momentum continued with Tele2 IoT launching a new global IoT platform, EnCore, making it the first operator to offer commercial IoT services to enterprises using Nokia WING. In September, WING won the global corporate award in the Smart Emerging Technologies category at ITU Telecom World.

#### In the second pillar of our strategy, expanding network sales to select vertical markets needing high-performing, secure networks:

Nokia and Tencent signed an agreement to accelerate 5G webscale research and applications to benefit millions of Internet users in China.

#### In the third pillar of our strategy, developing a strong, standalone software business at scale:

Telia Company chose Nokia s NetGuard Identity Access Manager to enhance security across the operator s networks in Sweden and Finland.

Also in the quarter, the Nokia Intelligent Care Assistant solution was introduced into the Salesforce AppExchange. The Nokia Intelligent Care Assistant integrates the Salesforce Service Cloud with Nokia s Autonomous Customer Care software, equipping agents with insights to improve customer satisfaction and enrich and monetize digital experiences.

In the quarter, Nokia Software demonstrated the strength of its portfolio, as well as orders and net sales momentum, by winning major accounts including British Telecom, Telenor One Europe, STC, Telefonica UK and Sky.

#### In the fourth pillar of our strategy, which is now focused exclusively on licensing:

Nokia announced that it expects the licensing rate for the Nokia 5G standard essential patent (SEP) portfolio to be capped at EUR 3 per mobile phone. Nokia said its licensing practices for licensing 5G SEPs for mobile phones will be consistent with its licensing undertakings made to relevant standard setting organizations.

Nokia s brand licensee, HMD Global, continued the refresh of its smartphone portfolio with the launch of the Nokia 6.1 Plus and Nokia 5.1 Plus. HMD also announced plans to double its manufacturing capacity in India to satisfy demand.

In the quarter, Nokia expanded choice for licensees in the automotive sector by joining the Avanci licensing platform.

Also, subsequent to the end of Q3 2018, Nokia extended its patent licensing agreement with Samsung. Nokia will follow its existing practices for disclosing patent licensing revenue in its quarterly announcements and expects that revenues for the extended agreement will start to be recognized in the first quarter of 2019.

#### **RISKS AND FORWARD-LOOKING STATEMENTS**

It should be noted that Nokia and its businesses are exposed to various risks and uncertainties and certain statements herein that are not historical facts are forward-looking statements. These forward-looking statements reflect Nokia s current expectations and views of future developments and include statements regarding: A) expectations, plans or benefits related to our strategies and growth management; B) expectations, plans or benefits related to future performance of our businesses; C)

expectations and targets regarding financial performance, results, operating expenses, taxes, currency exchange rates, hedging, cost savings and competitiveness, as well as results of operations including targeted synergies and those related to market share, prices, net sales, income and margins; D) expectations, plans or benefits related to changes in organizational and operational structure; E) expectations regarding market developments, general economic conditions and structural changes; F) our ability to integrate acquired businesses into our operations and achieve the targeted business plans and benefits, including targeted benefits, synergies, cost savings and efficiencies; G) expectations, plans or benefits related to any future collaboration or to business collaboration agreements or patent license agreements or arbitration awards, including income to be received under any collaboration or partnership, agreement or award; H) timing of the deliveries of our products and services, including our expectations around the rollout of 5G services; I) expectations and targets regarding collaboration and partnering arrangements, joint ventures or the creation of joint ventures, and the related administrative, legal, regulatory and other conditions, as well as our expected customer reach; J) outcome of pending and threatened litigation, arbitration, disputes, regulatory proceedings or investigations by authorities; K) expectations regarding restructurings, investments, capital structure optimization efforts, uses of proceeds from transactions, acquisitions and divestments and our ability to achieve the financial and operational targets set in connection with any such restructurings, investments, capital structure optimization efforts, divestments, and acquisitions; and L) statements preceded by or including believe , expect , expect , should , is to , w

These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from such statements. These statements are based on management s best assumptions and beliefs in light of the information currently available to it. These forward-looking statements are only predictions based upon our current expectations and views of future events and developments and are subject to risks and uncertainties that are difficult to predict because they relate to events and depend on circumstances that will occur in the future. Factors, including risks and uncertainties that could cause these differences include, but are not limited to: 1) our strategy is subject to various risks and uncertainties and we may be unable to successfully implement our strategic plans, sustain or improve the operational and financial performance of our business groups, correctly identify or successfully pursue business opportunities or otherwise grow our business; 2) general economic and market conditions and other developments in the economies where we operate, including the timeline for the deployment of 5G and our ability to successfully capitalize on that deployment; 3) competition and our ability to effectively and profitably invest in new competitive high-quality products, services, upgrades and technologies and bring them to market in a timely manner; 4) our dependence on the development of the industries in which we operate, including the cyclicality and variability of the information technology and telecommunications industries and our own R&D capabilities and investments; 5) our dependence on a limited number of customers and large multi-year agreements; 6) our ability to maintain our existing sources of intellectual property-related revenue through our intellectual property, including through licensing, establish new sources of revenue and protect our intellectual property from infringement; 7) our ability to manage and improve our fin

operating performance, cost savings, competitiveness and synergies generally and our ability to implement changes to our organizational and operational structure efficiently; 8) our global business and exposure to regulatory, political or other developments in various countries or regions, including emerging markets and the associated risks in relation to tax matters and exchange controls, among others; 9) our ability to achieve the anticipated benefits, synergies, cost savings and efficiencies of acquisitions, including the acquisition of Alcatel-Lucent; 10) exchange rate fluctuations, as well as hedging activities; 11) our ability to successfully realize the expectations, plans or benefits related to any future collaboration or business collaboration agreements and patent license agreements or arbitration awards, including income to be received under any collaboration, partnership, agreement or arbitration award; 12) Nokia Technologies ability to protect its IPR and to maintain and establish new sources of patent, brand and technology licensing income and IPR-related revenues, particularly in the smartphone market, which may not materialize as planned, 13) our dependence on IPR technologies, including those that we have developed and those that are licensed to us, and the risk of associated IPR-related legal claims, licensing costs and restrictions on use; 14) our exposure to direct and indirect regulation, including economic or trade policies, and the reliability of our governance, internal controls and compliance processes to prevent regulatory penalties in our business or in our joint ventures; 15) our reliance on third-party solutions for data storage and service distribution, which expose us to risks relating to security, regulation and cybersecurity breaches; 16) inefficiencies, breaches, malfunctions or disruptions of information technology systems; 17) our exposure to various legal frameworks regulating corruption, fraud, trade policies, and other risk areas, and the possibility of proceedings or investigations that result in fines, penalties or sanctions; 18) adverse developments with respect to customer financing or extended payment terms we provide to customers; 19) the potential complex tax issues, tax disputes and tax obligations we may face in various jurisdictions, including the risk of obligations to pay additional taxes; 20) our actual or anticipated performance, among other factors, which could reduce our ability to utilize deferred tax assets; 21) our ability to retain, motivate, develop and recruit appropriately skilled employees; 22) disruptions to our manufacturing, service creation, delivery, logistics and supply chain processes, and the risks related to our geographically-concentrated production sites; 23) the impact of litigation, arbitration, agreement-related disputes or product liability allegations associated with our business; 24) our ability to re-establish investment grade rating or maintain our credit ratings; 25) our ability to achieve targeted benefits from, or successfully implement planned transactions, as well as the liabilities related thereto; 26) our involvement in joint ventures and jointly-managed companies; 27) the carrying amount of our goodwill may not be recoverable; 28) uncertainty related to the amount of dividends and equity return we are able to distribute to shareholders for each financial period; 29) pension costs, employee fund-related costs, and healthcare costs; and 30) risks related to undersea infrastructure, as well as the risk factors specified on pages 71 to 89 of our 2017 annual report on Form 20-F published on March 22, 2018 under Operating and financial review and prospects-Risk factors and in our other filings or documents furnished with the U.S. Securities and Exchange Commission. Other unknown or unpredictable factors or underlying assumptions subsequently proven to be incorrect could cause actual results to differ materially from those in the forward-looking statements. We do not undertake any obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent legally required.

The financial report was authorized for issue by management on October 24, 2018.

• Nokia plans to publish its fourth quarter and full year 2018 results on January 31, 2019.

#### **About Nokia**

We create the technology to connect the world. Powered by the research and innovation of Nokia Bell Labs, we serve communications service providers, governments, large enterprises and consumers, with the industry s most complete, end-to-end portfolio of products, services and licensing.

We adhere to the highest ethical business standards as we create technology with social purpose, quality and integrity. Nokia is enabling the infrastructure for 5G and the Internet of Things to transform the human experience www.nokia.com

Interim Report for Q3 and January-September 2018

Full year 2018 guidance reiterated following solid Q3 results

Rajeev Suri, President and CEO, on Q3 2018 results

Nokia s third-quarter results validate our earlier view that conditions would improve in the second half of 2018. This was particularly evident in our excellent momentum in orders, growth across all five of our Networks business groups, and improved profitability compared to the first half of the year. Despite some risks related to short-term delays in project timing and product deliveries, we remain on track to deliver on our full-year guidance.

We are executing well on our strategy with particularly good progress in Nokia Software and expansion to select enterprise vertical markets. Separately today, we announced steps to accelerate that progress as well as sharpen our customer focus and maintain cost leadership. These are important steps that give us added confidence in our ability to deliver on our 2020 financial commitments.

# Q3 and January-September 2018 reported and non-IFRS results. Refer to note 1, Basis of Preparation , note 2, Non-IFRS to reported reconciliation and note 15, Performance measures , in the Financial statement information section for details.

EUR million (except for EPS in EUR)	Q3 18	Q3 17	YoY change	Constant currency YoY change	Q1- Q3 18	Q1- Q3 17	YoY change	Constant currency YoY change
Net sales	5 458	5 500	(1)%	1%	15 695	16 496	(5)%	0%
Operating profit/(loss)	(54)	(230)			(611)	(403)		
Operating margin %	(1.0)%	(4.2)%	320bps		(3.9)%	(2.4)%	(150)bps	
EPS, diluted	(0.02)	(0.03)			(0.13)	(0.19)		
Operating profit/(loss) (non-IFRS)	487	668	(27)%		1 060	1 583	(33)%	
Operating margin % (non-IFRS)	8.9%	12.1%	(320)bps		6.7%	9.6%	(290)bps	
EPS, diluted (non-IFRS)	0.06	0.09	(33)%		0.10	0.20	(50)%	
Net cash and current financial investments	1 876	2 731	(31)%		1 876	2 731	(31)%	

• Reported net sales in Q3 2018 were EUR 5.5bn, compared to EUR 5.5bn in Q3 2017. On a constant currency basis, reported net sales grew by 1% year on year.

• Reported net sales in Q3 2018, excluding non-recurring catch-up licensing net sales which benefitted the year-ago period, grew by 3% year-on-year (4% on a constant currency basis). In Q3 2018, we achieved year-on-year

growth across all five of our Networks business groups, as well as in Nokia Technologies.

• Reported diluted EPS in Q3 2018 was negative EUR 0.02, compared to negative EUR 0.03 in Q3 2017, primarily driven by lower restructuring and impairment charges, partially offset by the absence of non-recurring catch-up licensing net sales, which benefitted the year-ago period, our gross profit performance and income taxes.

• Non-IFRS diluted EPS in Q3 2018 was EUR 0.06, compared to EUR 0.09 in Q3 2017. Non-IFRS diluted EPS, excluding non-recurring catch-up licensing net sales, declined by EUR 0.01 year-on-year, as we were able to partially offset our gross profit performance with continued operating expense reductions, in line with our cost savings program.

• Net cash and current financial investments decreased by approximately EUR 270mn sequentially. In Q3 2018, we generated cash profits, which were more than offset by changes in net working capital, capital expenditures, payment of dividend withholding tax and restructuring and associated cash outflows. We expect to end 2018 with a strong financial position, based on strong seasonality in Q4.

• We reiterate 2018 non-IFRS diluted EPS guidance and remain on target to deliver EUR 1.2bn of recurring annual cost savings in full year 2018.

October 25, 2018

#### Outlook

	Metric	Guidance	Commentary
Nokia	Non-IFRS	9-11% for full year 2018	Nokia s guidance for significant improvement between full year 2018 and full
	operating	and	year 2020 is primarily due to expectations for:
	margin	12-16% for full year 2020	
			a) Improved results in Nokia s Networks business, which a
			detailed below;
	Non-IFRS	EUR 0.23 - 0.27 in full	b) Improved results in Nokia Technologies, which are
	diluted	year 2018 and	detailed below; and
	earnings per	EUR 0.37 - 0.42 in full	
	share	year 2020	c) Benefits from our EUR 700 million cost reduction
			program announced on October 25, 2018, which are detailed in
			the Cost savings program discussion in the Financial results
			section. ( <u>updated commentary</u> )
			(This is an update to earlier commentary for lower Nokia support function cost
			within Nokia s Networks business and Group Common and Other.)

			1
	Non-IFRS tax	Approximately 30% for	Nokia s outlook for non-IFRS tax rate for full year 2018 and over the
	Non-IFRS tax rate	Approximately 30% for full year 2018 and 25%	Nokia s outlook for non-IFRS tax rate for full year 2018 and over the longer-term is expected to be influenced by factors including the absolute level
	Non-IFRS tax rate	Approximately 30% for full year 2018 and 25% over the longer-term	Nokia s outlook for non-IFRS tax rate for full year 2018 and over the longer-term is expected to be influenced by factors including the absolute level of profits, regional profit mix and any further changes to our operating model.

	Capital expenditures	Approximately EUR 700 million in full year 2018 and approximately EUR 600 million over the longer-term	Nokia expects cash outflows related to taxes to be approximately EUR 400 million in full year 2018 and approximately EUR 450 million over the longer-term until Nokia s US or Finnish deferred tax assets are fully utilized. Primarily attributable to Nokia s Networks business, and consistent with the depreciation of property, plant and equipment over the longer-term.
Nokia s Networks business	Net sales	Outperform its primary addressable market in 2018 and over the longer-term	For Nokia s Networks business, Nokia expects net sales to outperform its primary addressable market and operating margin to expand between full year 2018 and full year 2020.
	Operating margin	6-9% for full year 2018 and 9-12% for full year 2020	Nokia s outlook for net sales and operating margin for Nokia s Networks business in 2018 and 2020 is expected to be influenced by factors including:
			• An approximately 1 to 3 percent decline in the primary addressable market for Nokia s Networks business in full year 2018, compared to 2017, on a constant currency basis;

•

Customer demand for 5G, with commercial 5G

network deployments expected to begin near the end of 2018;

			• Improving market conditions in the second half of 2018, with particular acceleration in the fourth quarter in North America, following weakness in the first half of 2018;
			• Growth in the primary addressable market for Nokia s Networks business in 2019 and 2020, on a constant currency basis;
			• Our ability to scale our supply chain operations and to procure certain standard components to meet increasing demand. (This is an update to earlier commentary for our ability to scale our supply chain operations to meet increasing demand);
			• Recovery actions to address increased price pressure, including the ability to offset price erosion through cost reductions;
			• The timing of completions and acceptances of certain projects, particularly related to 5G;
			• Focus on targeted growth opportunities in attractive adjacent markets;
			• Building a strong standalone software business;
			• Improved R&D productivity resulting from new ways of working and the reduction of legacy platforms over time;
			• Lower support function costs, including IT and site costs;
			• Uncertainty related to potential mergers or acquisitions by our customers;
			• Product and regional mix; and
			• Competitive and other industry dynamics.
Nokia Licensing within Nokia Technologies	Recurring net sales	Grow at a compound annual growth rate (CAGR) of approximately 10% over the 3-year period ending 2020	Due to risks and uncertainties in determining the timing and value of significant patent, brand and technology licensing agreements, Nokia believes it is not appropriate to provide annual outlook ranges for Nokia Licensing within Nokia Technologies. Although annual results are difficult to forecast, Nokia expects net sales growth and operating margin expansion over the 3-year period ending 2020.
	Operating margin	Expand to approximately 85% for full year 2020	In full year 2017, licensing net sales were approximately EUR 1.6 billion, of which approximately EUR 300 million were non-recurring in nature and related to catch-up net sales for prior years.

Nokia s outlook for net sales and operating margin for Nokia Licensing within Nokia Technologies is expected to be influenced by factors including:
The timing and value of new patent licensing agreements with smartphone vendors, automotive companies and consumer electronics companies;
Renegotiation of expiring patent licensing agreements;
Increases or decreases in net sales related to existing patent licensees;
Results in brand and technology licensing;
Costs to protect and enforce our intellectual property rights; and
The regulatory landscape.

<sup>(1)</sup>For further details related to the cost savings and network equipment swaps guidance, please refer to the Cost savings program discussion in the Financial results section.

Non-IFRS results exclude costs related to the acquisition of Alcatel-Lucent and related integration, goodwill impairment charges, intangible asset amortization and other purchase price fair value adjustments, restructuring and associated charges and certain other items that may not be indicative of Nokia s underlying business performance. For details, please refer to note 2, Non-IFRS to reported reconciliation , in the notes to the Financial statement information in this report. Change in net sales at constant currency excludes the effect of changes in exchange rates in comparison to euro, our reporting currency. For more information on currency exposures, please refer to note 1, Basis of Preparation , in the Financial statement information section in this report.

#### Nokia, Q3 2018 compared to Q3 2017

	Net	%	Gross			Other income and	Operating	Change in operating	Financial income and	Income	
EUR million	sales	change	profit	(R&D)	(SG&A)	(expenses)	profit/(loss)	margin %	expenses	taxes	Profit/(loss)
Networks business	65	1%	(106)	41	17	(40)	(88)	(190)bps			
Nokia Technologies	(132)	(27)%	(123)	30	(5)	(1)	(100)	190bps			
Group Common and											
Other	(16)	(6)%	5	(7)	(1)	12	7	140bps			
Eliminations	6		0	0	0	0	0				
Nokia non-IFRS	(76)	(1)%	(224)	63	11	(30)	(181)	(320)bps	15	(43)	) (207)
Non-IFRS exclusions	34	(89)%	59	25	(21)	293	357		(12)	(74	) 270
Nokia reported	(42)	(1)%	(166)	89	(10)	263	176	320bps	3	(117	) 63

Nokia non-IFRS and reported net sales were both down approximately 1% year-on-year. On a constant currency basis, Nokia non-IFRS net sales were approximately flat year-on-year and Nokia reported net sales grew approximately 1% year-on-year.

Reported net sales in Q3 2018, excluding approximately EUR 180 million of non-recurring catch-up licensing net sales which benefitted the year-ago period, grew by approximately 3% year on year, with growth across all 5 of our Networks business groups, as well as in Nokia Technologies.

In our Networks business, our order backlog was strong at the end of Q3 2018, and we continue to expect commercial 5G network deployments to begin near the end of 2018. We continued to build momentum in our end-to-end strategy, with approximately 43% of our sales pipeline now comprised of cross-business group deals. We also continued to make progress with our strategy to diversify and grow by targeting attractive adjacent markets, with continued year-on-year growth in net sales to large enterprise vertical and webscale customers.

In Nokia Technologies, we maintained our strong track record, with 19% year-on-year growth in recurring licensing net sales. The decrease in net sales on a year-on-year basis was primarily due to the absence of approximately EUR 180 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period. We continued to make good progress on licensing agreements. Subsequent to the end of Q3 2018, we extended our patent licensing agreement with Samsung and reiterated our financial guidance for Nokia Technologies.

Nokia non-IFRS diluted EPS amounted to EUR 0.06, compared to EUR 0.09 in the year-ago period. Non-IFRS diluted EPS, excluding non-recurring catch-up licensing net sales which benefitted the year-ago period, declined by EUR 0.01 year-on-year. Adjusted for the non-recurring item, the decline in non-IFRS diluted EPS was primarily driven by lower gross profit across all three reportable segments of our Networks business, partially offset by improved recurring gross profit performance in our Technologies business, as well as lower operating expenses in both Networks and Technologies.

Nokia reported diluted EPS amounted to negative EUR 0.02, compared to negative EUR 0.03 in the year-ago period, primarily driven by lower restructuring and associated charges, lower impairment of assets and improved recurring gross profit performance in our Technologies business, partially offset by the absence of approximately EUR 180 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period, lower gross profit across all three reportable segments in our Networks business and income taxes.

Nokia, January-September 2018 compared to January-September 2017

						Other			Financial		
						income		Change in	income		
	Net	%	Gross			and	Operating	operating	and	Income

Non-IFRS exclusions	46	(78)%	(70)	78	35	272	315		312	307	933
Nokia reported	(801)	(5)%	(862)	235	155	263	(208)	(150)bps	272	243	306

Nokia reported net sales decreased 5% year-on-year. On a constant currency basis, Nokia reported net sales were flat year-on-year.

In our Networks business, our order backlog was strong at the end of Q3 2018, and we continue to expect commercial 5G network deployments to begin near the end of 2018. We continued to build momentum in our end-to-end strategy, with approximately 43% of our sales pipeline now comprised of cross-business group deals. We also continued to make progress with our strategy to diversify and grow by targeting attractive adjacent markets, with continued year-on-year growth in net sales to large enterprise vertical and webscale customers.

In Nokia Technologies, we maintained our strong track record, with 18% year-on-year growth in recurring licensing net sales. The decrease in net sales on a year-on-year basis was primarily due to the absence of approximately EUR 170 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period. We continued to make good progress on licensing agreements. Subsequent to the end of Q3 2018, we extended our patent licensing agreement with Samsung and reiterated our financial guidance for Nokia Technologies.

Nokia reported operating loss amounted to EUR 611 million, compared to EUR 403 million in the year-ago period. This was primarily driven by lower gross profit across all three reportable segments in our Networks business and the absence of approximately EUR 170 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period, partially offset by lower restructuring and associated charges and lower impairment of assets.

Nokia reported diluted EPS amounted to negative EUR 0.13, compared to negative EUR 0.19 in the year-ago period. This was primarily driven by the absence of expenses related to the early redemption of debt, lower restructuring and associated charges and income taxes, partially offset by lower gross profit across all three reportable segments in our Networks business and the absence of approximately EUR 170 million of non-recurring catch-up licensing net sales, which benefitted the year-ago period.

#### Cash and cash flow in Q3 2018

EUR million, at end of period	Q3 18	Q2 18	QoQ change	Q4 17	YTD change
Total cash and current financial investments(1)	5 612	5 861	(4)%	8 280	(32)%
Net cash and current financial investments(1)	1 876	2 144	(13)%	4 514	(58)%

(1) For details, please refer to note 9, Net cash and current financial investments, and note 15, Performance measures, in the Financial statement information section in this report.

#### **EUR** billion

During the third quarter 2018, Nokia s total cash and current financial investments decreased by EUR 249 million and Nokia s net cash and current financial investments ( net cash ) decreased by EUR 268 million.

In the third quarter 2018, net cash used in operating activities was EUR 82 million:

• Nokia s adjusted profit before changes in net working capital was EUR 354 million in the third quarter 2018.

• In the third quarter 2018, Nokia experienced a decrease in net cash related to net working capital of approximately EUR 340 million, of which approximately EUR 110 million related to restructuring and associated cash outflows, and approximately EUR 230 million related to an increase in inventories and an increase in receivables, partially offset by an increase in liabilities.

• The increase in receivables was approximately EUR 80 million.

• The increase in inventories was approximately EUR 270 million, primarily due to our decision to ensure sufficient flexibility to deliver higher levels of equipment sales.

• The increase in liabilities was approximately EUR 130 million, primarily due to an increase in accounts payable, partially offset by a decrease in contract liabilities.

In the third quarter 2018, net cash used in investing activities primarily related to capital expenditures of approximately EUR 140 million.

In the third quarter 2018, net cash used in financing activities primarily related to the payment of withholding tax of approximately EUR 130 million, associated with the dividend paid in the second quarter 2018.

### Cost savings program

The following table summarizes the financial information related to our cost savings program, as of the end of the third quarter 2018. Balances related to previous Nokia and Alcatel-Lucent restructuring and cost savings programs have been included as part of this overall cost savings program as of the second quarter 2016.

In EUR million, approximately	Q3 18
Opening balance of restructuring and associated liabilities	750
+ Charges in the quarter	70
- Cash outflows in the quarter	110
= Ending balance of restructuring and associated liabilities	710
of which restructuring provisions	580
of which other associated liabilities	130
Total expected restructuring and associated charges	1 750
- Cumulative recorded	1 560
= Charges remaining to be recorded	190
Total expected restructuring and associated cash outflows	2 100
- Cumulative recorded	1 300
= Cash outflows remaining to be recorded	800

The following table summarizes our full year 2016 and 2017 results and future expectations related to our cost savings program and network equipment swaps.

In EUR million, approximately rounded to the nearest EUR 50	Actual	Actual	Actual Cumulative through the end of	FY 2 as of the		Expected an FY 2019 beyon as of the	) and nd	Tot as of the	
million	2016	2017	2017	Q2 18	Q3 18	Q2 18	Q3 18	Q2 18	Q3 18
Recurring annual cost savings	550	250	800	400	400	0	0	1 200	1 200
- operating expenses	350	150	500	300	300	0	0	800	800
- cost of sales	200	100	300	100	100	0	0	400	400
Restructuring and associated									
charges	750	550	1 300	600	450	0	0	1 900	1 750
Restructuring and associated									
cash outflows	400	550	950	650	600	650	550	2 250	2 100
Charges related to network									
equipment swaps	150	450	600	650	600	150	100	1 400	1 300
Cash outflows related to									
network equipment swaps	150	450	600	650	600	150	100	1 400	1 300

We now expect restructuring and associated charges to total EUR 1 750 million and the related cash outflows to total EUR 2 100 million, both of which are EUR 150 million below our previous expectations. In addition, we now expect the charges and cash outflows related to network equipment swaps to total EUR 1 300 million, which is EUR 100 million below our previous expectations.

Note that the above expectations do not reflect the changes resulting from the cost reduction program announced on October 25, 2018. We expect the program to result in a EUR 700 million reduction of non-IFRS annualized operating expenses and production overheads by the end of 2020 compared to the end of 2018, of which EUR 500 million is expected from operating expenses. The restructuring charges and cash outflows are both expected to be EUR 900 million.

Under the cost reduction program announced on October 25, 2018, Nokia is targeting savings from a wide range of areas, including investments in digitalization to drive more automation and productivity; further process and tool simplification; significant reductions in central support functions to reach best-in-class cost levels; prioritization of R&D programs to best create long-term value; a sharp reduction of R&D in legacy products; driving efficiency from further application of our best-in-class common software foundation and innovative software development techniques; the consolidation of selected cross-company activities; and further reductions in real estate and other overhead costs.

Operational highlights

Nokia delivered another solid quarter on its strategic commitments and its 5G leadership position across business groups and geographies.

#### In the first pillar of our strategy, leading in high-performance, end-to-end networks with communication service providers:

Nokia announced a \$3.5 billion, multi-year 5G network deal with T-Mobile to accelerate the deployment of a nationwide 5G network in the US.

In September, AT&T named Nokia as one of its 5G suppliers with the US operator s announcement to introduce mobile 5G in parts of five additional cities Houston, Jacksonville, Louisville, New Orleans, and San Antonio this year.

Also in September, Nokia and Sprint gave the first live demonstration in the US of a 5G New Radio connection over a dual mode-capable Massive MIMO radio.

Earlier in the quarter, Verizon and Nokia completed the first transmission of a 3GPP New Radio 5G signal to a receiver situated in a moving vehicle. The test followed the companies successful completion of a series of outdoor data sessions over the 5G New Radio standard.

Nokia announced plans to sell the majority of its IP Video business to Volaris Group of Canada. The transaction is expected to close in Q4 2018.

Idea Cellular in Delhi started to deploy Nokia s cloud-native core technology as part of the operator s digitalization effort to meet increasing data and mobile broadband demand.

Ooredoo Myanmar selected Nokia to secure its telecom and ICT networks against cyber threats. Nokia analysed Ooredoo s systems using Nokia s Security Risk Index. The Managed Security Service then implemented performance improvements to ensure that critical information assets are adequately protected against known and unknown threats.

Early in the quarter, the consulting and research firm Analysys Mason rated Nokia s AVA cognitive services platform as the leading Telco AI Ecosystem (TAE) offering in the market. The firm highlighted the AVA platform s ability, ahead of the competition, to give vendors a single TAE in all their applications and intelligence across multiple systems and enable the optimization of end-to-end processes.

Nokia WING (Worldwide IoT Network Grid) momentum continued with Tele2 IoT launching a new global IoT platform, EnCore, making it the first operator to offer commercial IoT services to enterprises using Nokia WING. In September, WING won the global corporate award in the Smart Emerging Technologies category at ITU Telecom World.

### In the second pillar of our strategy, expanding network sales to select vertical markets needing high-performing, secure networks:

Nokia and Tencent signed an agreement to accelerate 5G webscale research and applications to benefit millions of Internet users in China.

#### In the third pillar of our strategy, developing a strong, standalone software business at scale:

Telia Company chose Nokia s NetGuard Identity Access Manager to enhance security across the operator s networks in Sweden and Finland.

Also in the quarter, the Nokia Intelligent Care Assistant solution was introduced into the Salesforce AppExchange. The Nokia Intelligent Care Assistant integrates the Salesforce Service Cloud with Nokia s Autonomous Customer Care software, equipping agents with insights to improve customer satisfaction and enrich and monetize digital experiences.

In the quarter, Nokia Software demonstrated the strength of its portfolio, as well as orders and net sales momentum, by winning major accounts including British Telecom, Telenor One Europe, STC, Telefonica UK and Sky.

#### In the fourth pillar of our strategy, which is now focused exclusively on licensing:

Nokia announced that it expects the licensing rate for the Nokia 5G standard essential patent (SEP) portfolio to be capped at EUR 3 per mobile phone. Nokia said its licensing practices for licensing 5G SEPs for mobile phones will be consistent with its licensing undertakings made to relevant standard setting organizations.

Nokia s brand licensee, HMD Global, continued the refresh of its smartphone portfolio with the launch of the Nokia 6.1 Plus and Nokia 5.1 Plus. HMD also announced plans to double its manufacturing capacity in India to satisfy demand.

In the quarter, Nokia expanded choice for licensees in the automotive sector by joining the Avanci licensing platform.

Also, subsequent to the end of Q3 2018, Nokia extended its patent licensing agreement with Samsung. Nokia will follow its existing practices for disclosing patent licensing revenue in its quarterly announcements and expects that revenues for the extended agreement will start to be recognized in the first quarter of 2019.

Nokia s Networks business, Q3 2018 compared to Q3 2017

<b>Operating profit/(loss)</b>	75	78	(4)%		209	514	(59)%	
Operating margin %	3.5%	3.7%	(20)bps		3.5%	7.9%	(440)bps	

Ultra Broadband Networks net sales increased 1% year-on-year, primarily due to Mobile Networks, which benefitted from growth in small cells. On a constant currency basis, Ultra Broadband Networks net sales increased 2%.

The decrease in Ultra Broadband Networks gross profit was primarily due to lower gross margin in Mobile Networks, partially offset by higher net sales in Mobile Networks. Our gross margin performance in Mobile Networks was driven by price erosion exceeding cost erosion in Asia-Pacific, North America, Greater China and Middle East & Africa, partially offset by favorable regional mix, with a larger proportion of net sales in North America.

The decrease in Ultra Broadband Networks R&D expenses was primarily due to Mobile Networks, primarily due to progress related to Nokia s cost savings program and lower incentive accruals.

The decrease in Ultra Broadband Networks SG&A expenses was primarily due to Mobile Networks, primarily due to progress related to Nokia s cost savings program, partially offset by higher costs related to 5G customer trials.

The net negative fluctuation in other income and expenses was primarily due to foreign exchange hedging.

Global Services, Q3 2018 compared to Q3 2017

			YoY	Constant currency YoY	Q1-	Q1-	YoY	Constant currency YoY
EUR million	Q3 18	Q3 17	change	change	Q3 18	Q3 17	change	change
Net sales	1 380	1 359	2%	5%	3 945	4 168	(5)%	1%

<b>Operating profit/(loss)</b>	58	110	(47)%		62	289	(79)%	
Operating margin %	4.2%	8.1%	(390)bps		1.6%	6.9%	(530)bps	

Global Services net sales increased 2% year-on-year, primarily due to managed services and network planning and optimization, partially offset by care. On a constant currency basis, Global Services net sales increased 5%.

The decrease in Global Services gross profit was primarily due to lower gross margin in network implementation and managed services, partially offset by lower incentive accruals.

IP Networks and Applications, Q3 2018 compared to Q3 2017

EUR million	Q3 18	Q3 17	YoY change	Constant currency YoY change	Q1- Q3 18	Q1- Q3 17	YoY change	Constant currency YoY change
Net sales	1 383	1 365	1%	3%	3 924	4 028	(3)%	3%
IP/Optical Networks	1 021	1 011	1%	3%	2 889	2 949	(2)%	4%
IP Routing	609	682	(11)%	(9)%	1 751	1 957	(11)%	(5)%
Optical Networks	412	329	25%	29%	1 1 3 9	992	15%	22%
Nokia Software	363	354	3%	4%	1 034	1 079	(4)%	1%
Gross profit	611	652	(6)%		1 642	1 812	(9)%	
Gross margin %	44.2%	47.8%	(360)bps		41.8%	45.0%	(320)bps	
R&D	(294)	(316)	(7)%		(921)	(969)	(5)%	
SG&A	(207)	(201)	3%		(628)	(604)	4%	
Other income and expenses	3	11			(6)	21		
Operating profit/(loss)	113	146	(23)%		87	260	(67)%	
Operating margin %	8.2%	10.7%	(250)bps		2.2%	6.5%	(430)bps	

IP Networks and Applications net sales increased 1% year-on-year. On a constant currency basis, IP Networks and Applications net sales increased 3%.

The increase in IP/Optical Networks net sales was due to optical networks driven by our strong portfolio. This was partially offset by IP routing, which was adversely affected by component shortages in our supply chain.

The increase in Nokia Software net sales was primarily due to emerging products and digital networks, partially offset by digital intelligence. The net sales performance of Nokia Software continued to benefit from the investments to build a dedicated software sales force with specialized go-to-market capabilities, supported by continued strong demand for our market leading software portfolio based on a cloud-native Common Software Foundation.

The decrease in IP Networks and Applications gross profit was primarily due to IP/Optical Networks, driven by IP routing, partially offset by optical networks. The overall decrease in gross profit was primarily due to lower gross margin, partially offset by higher net sales. Our gross margin performance in IP/Optical Networks was driven by price erosion exceeding cost erosion primarily in IP routing, as well as product mix, with a higher proportion of optical networks net sales.

The decrease in IP Networks and Applications R&D expenses was due to both IP/Optical Networks and Nokia Software. The decrease in IP/Optical networks was primarily due to net positive foreign exchange fluctuations. On a constant currency basis, IP/Optical Networks R&D was approximately flat. The decrease in Nokia Software R&D expenses was primarily due to improved productivity, following the ongoing implementation of a common software foundation.

Nokia Technologies, Q3 2018 compared to Q3 2017

EUR million	Q3 18	Q3 17	YoY change	Constant currency YoY change	Q1- Q3 18	Q1- Q3 17	YoY change	Constant currency YoY change
Net sales	351	483	(27)%	(27)%	1 077	1 099	(2)%	(2)%
Gross profit	350	473	(26)%		1 058	1 059	0%	
Gross margin %	<i>99.7%</i>	97.9%	180bps		98.2%	96.4%	180bps	
R&D	(28)	(58)	(52)%		(107)	(178)	(40)%	
SG&A	(30)	(25)	20%		(94)	(133)	(29)%	
Other income and expenses	(1)	0			(2)	(12)		
<b>Operating profit/(loss)</b>	290	390	(26)%		856	736	16%	
Operating margin %	82.6%	80.7%	190bps		79.5%	67.0%	1 250bps	

Nokia Technologies net sales decreased 27% year-on-year, on both a reported and constant currency basis.

The entire EUR 351 million of net sales in the third quarter 2018 related to patent and brand licensing. Of the EUR 483 million of net sales in the third quarter 2017, EUR 474 million related to patent and brand licensing and EUR 9 million related to digital health and digital media.

The decrease in Nokia Technologies net sales was primarily due to the absence of approximately EUR 180 million of non-recurring catch-up licensing net sales, which benefitted the third quarter 2017. This was partially offset by higher recurring licensing net sales and higher brand licensing net sales. Nokia Technologies non-recurring catch-up licensing net sales in the third quarter 2018 amounted to approximately zero. In the third quarter 2017, non-recurring catch-up licensing net sales were approximately EUR 180 million.

The decrease in Nokia Technologies gross profit was due to lower net sales.

The decrease in Nokia Technologies R&D expenses was primarily due to reduced investments in digital media, lower patent portfolio costs and lower costs related to digital health following the sale of our digital health business on May 31, 2018.

The increase in Nokia Technologies SG&A expenses was primarily due to the absence of a reimbursement related to the settled arbitration, which benefitted the third quarter 2017. Excluding this, SG&A expenses would have decreased year-on-year, primarily due to lower costs related to digital health following the sale of our digital health business on May 31, 2018.

Group Common and Other, Q3 2018 compared to Q3 2017

EUR million	Q3 18	Q3 17	YoY change	Constant currency YoY change	Q1- Q3 18	Q1- Q3 17	YoY change	Constant currency YoY change
Net sales	235	251	(6)%	(4)%	-	812	(6)%	(2)%
Gross profit	37	32	16%		126	113	12%	
Gross margin %	15.7%	12.7%	300bps		16.5%	13.9%	260bps	
R&D	(66)	(59)	12%		(207)	(201)	3%	
SG&A	(51)	(50)	2%		(149)	(158)	(6)%	
Other income and expenses	32	20			76	29		
<b>Operating profit/(loss)</b>	(49)	(56)			(153)	(217)		
Operating margin %	(20.9)%	(22.3)%	140bps		(20.0)%	(26.7)%	670bps	

Group Common and Other net sales decreased 6% year-on-year. On a constant currency basis, Group Common and Other net sales decreased 4%.

The decrease in Group Common and Other net sales was primarily due to Alcatel Submarine Networks, partially offset by Radio Frequency Systems. The decrease in Alcatel Submarine Networks was primarily due to the completion of a large project, which benefitted the third quarter 2017.

The net positive fluctuation in other income and expenses was primarily due to gains in Nokia s venture fund investments, partially offset by the absence of the unwinding of a reinsurance contract, which benefitted the third quarter 2017.

1	6
T	U

Shares

The total number of Nokia shares on September 30, 2018, equaled 5 635 550 659. On September 30, 2018, Nokia and its subsidiary companies owned 43 937 039 Nokia shares, representing approximately 0.8% of the total number of Nokia shares and voting rights.

(1)Related to the adoption of IFRS 9, Financial Instruments on January 1, 2018, financial instruments previously presented within Available for sale investments are now presented within Non-current financial investments, and financial instruments previously presented within Available for sale investments, liquid assets and Investments at fair value through profit and loss, liquid assets are now presented within Current financial investments. Despite the changes in the presentation of comparatives, IFRS 9 has not been adopted retrospectively.

(2)Comparatives for September 30, 2017, have been revised to reflect an adjustment of EUR 105 million made in the fourth quarter 2017 to other long-term liabilities in relation to the NSB financial liability with an offsetting impact to retained earnings.

(3)Comparatives for September 30, 2017, have been revised to reflect the change in presentation of interest and penalties related to income taxes from current income tax liabilities to provisions.

Consolidated statement of cash flows combines cash flows from both the continuing and the discontinued operations. The figures in the consolidated statement of cash flows cannot be directly traced from the statement of financial position without additional information as a result of acquisitions and disposals of subsidiaries and net foreign exchange differences arising on consolidation.

The above condensed consolidated statement of cash flows should be read in conjunction with accompanying notes.

Consolidated statement of changes in shareholders equity (condensed, unaudited)

The above condensed consolidated statement of changes in shareholders equity should be read in conjunction with accompanying notes.

Notes to Financial statements

### 1. BASIS OF PREPARATION

This unaudited, consolidated, condensed financial statement information of Nokia has been prepared in accordance with IAS 34, Interim Financial Reporting. This consolidated, condensed financial statement information should be read in conjunction with the financial statements for 2017, which have been prepared in accordance with IFRS as published by the IASB and adopted by the EU. The same accounting policies, methods of computation and applications of judgment are followed in this financial statement information as was followed in the financial statements for 2017 with the exception of changes resulting from adoption of IFRS 9, Financial Instruments and IFRS 15, Revenue from Contracts with Customers as described in note 14, New accounting standards .

This financial report was authorized for issue by management on October 24, 2018.

Nokia presents financial information on reported, non-IFRS and constant currency basis. Non-IFRS measures presented in this document exclude costs related to the acquisition of Alcatel-Lucent and related integration, goodwill impairment charges, intangible asset amortization and other purchase price fair value adjustments, restructuring and associated charges and certain other items that may not be indicative of Nokia s underlying business performance. In order to allow full visibility on determining non-IFRS results, information on non-IFRS exclusions is presented separately for each of the components of profit or loss.

Constant currency reporting provides additional information on change in financial measures on a constant currency basis in order to better reflect the underlying business performance. Therefore, change in financial measures at constant currency excludes the impact of changes in exchange rates in comparison to euro, our reporting currency.

Non-IFRS or constant currency financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with IFRS, and either of these financial measures as used by Nokia may not be comparable to similarly titled measures used by other companies or persons.

On July 3, 2017, Nokia and China Huaxin Post & Telecommunication Economy Development Center (China Huaxin) commenced operations of the new joint venture Nokia Shanghai Bell (NSB). As part of the NSB definitive agreements, China Huaxin obtained the right to fully transfer its ownership interest in NSB to Nokia in exchange for a future cash settlement. To reflect its conditional obligation to China Huaxin, Nokia recorded the present value of the expected future cash settlement as a financial liability of EUR 737 million within other long-term liabilities and derecognised its non-controlling interest balance of EUR 772 million related to NSB with the difference recorded within retained earnings. The recognition of the present value discount on the financial liability is recorded as interest expense and any changes in the estimated future cash settlement are recorded within financial income and expense. In the third quarter 2018, Nokia reclassified the financial liability from non-current liabilities which is in line with the option exercise period.

Percentages and figures presented herein may include rounding differences and therefore may not add up precisely to the totals presented and may vary from previously published financial information.

New and amended standards and interpretations adopted

On January 1, 2018, Nokia adopted IFRS 9, Financial Instruments and IFRS 15, Revenue from Contracts with Customers. The nature of new standards, impact of adoption on Nokia s consolidated financial statements and changes to Nokia s accounting policies resulting from the adoption are described in detail in note 14, New accounting standards . Other amendments and interpretations that became effective on January 1, 2018, did not have a material impact on Nokia s consolidated financial statements.

Standards issued but not yet effective

IFRS 16, Leases, issued in January 2016, sets out the requirements for the recognition, measurement, presentation and disclosure of leases. IFRS 16 provides a single lessee accounting model, requiring lessees to recognize right-of-use assets and lease liabilities for substantially all leases in the consolidated statement of financial position. Nokia will adopt IFRS 16 on the effective date of January 1, 2019 using the cumulative catch-up transition method, whereby the cumulative effect of initially applying IFRS 16 will be recognized as an adjustment to the opening balance of retained earnings on January 1, 2019 and comparative information will not be restated. Nokia is currently assessing the full impact of IFRS 16 but the initial expectation is that the main impact from adoption relates to the recognition and disclosure of Nokia s real estate related operating leases. In the consolidated financial statements for the quarter ended September 30, 2018, Nokia disclosed non-cancellable operating lease commitments of EUR 1 022 million, of which the majority relates to real estate operating lease commitments. Nokia expects that the non-cancellable operating lease commitments calculated in accordance with current lease accounting requirements will differ from the right of use assets and related lease liabilities recorded as part of the adoption of IFRS 16.

Other revisions, amendments and interpretations to existing standards issued by the IASB that are not yet effective are not expected to have a material impact on Nokia s consolidated financial statements when adopted.

### Currency exposures, approximately (unaudited)

	Q3 1	8	Q3	17	Q2 18		
	Net sales	Total costs	Net sales	Total costs	Net sales	Total costs

USD	~45%	~45%	~45%	~45%	~45%	~45%	
CNY	~10%	~10%	~10%	~10%	~10%	~10%	
Other	~20%	~15%	~20%	~15%	~20%	~15%	
Total	100%	100%	100%	100%	100%	100%	

End of Q3 18 balance sheet rate 1 EUR = 1.16 USD, end of Q3 17 balance sheet rate 1 EUR = 1.18 USD and end of Q2 18 balance sheet rate 1 EUR = 1.17 USD

#### Exchange rates

Nokia is a company with global operations and net sales derived from various countries and invoiced in various currencies. Therefore, our business and results from operations are exposed to changes in exchange rates between the euro, our reporting currency, and other currencies, such as the US dollar and the Chinese yuan. To mitigate the impact of changes in exchange rates on our results, we hedge operative forecasted net foreign exchange exposures, typically within a 12-month horizon, and apply hedge accounting in the majority of cases.

#### 2. NON-IFRS TO REPORTED RECONCILIATION (unaudited)

In addition to information on our reported IFRS results, Nokia provides certain information on a non-IFRS, or underlying business performance, basis. Non-IFRS measures presented in this document exclude costs related to the Acquisition of Alcatel-Lucent and related integration, goodwill impairment charges, intangible asset amortization and other purchase price fair value adjustments, restructuring and associated charges and certain other items that may not be indicative of Nokia s underlying business performance. Nokia believes that the non-IFRS results provide meaningful supplemental information to both management and investors regarding Nokia s underlying business performance by excluding the above-described items. These non-IFRS financial measures should not be viewed in isolation or as substitutes to the equivalent IFRS measure(s), but should be used in conjunction with the most directly comparable IFRS measure(s) in the reported results.

#### 3. SEGMENT INFORMATION (unaudited)

Nokia has two businesses: Nokia s Networks business and Nokia Technologies, and four reportable segments for financial reporting purposes: (1) Ultra Broadband Networks, (2) Global Services and (3) IP Networks and Applications within Nokia s Networks business; and (4) Nokia Technologies. Segment-level information for Group Common and Other is also presented.

Nokia has aggregated Mobile Networks and Fixed Networks operating segments to one reportable segment, Ultra Broadband Networks; and IP/Optical Networks and Nokia Software(1) operating segments to one reportable segment, IP Networks and Applications. The aggregated operating segments have similar economic characteristics, such as long-term margins; have similar products, production processes, distribution methods and customers; and operate in a similar regulatory environment.

The President and CEO is the chief operating decision maker and monitors the operating results of operating and reportable segments for the purpose of making decisions about resource allocation and performance assessment. Key financial performance measures of the segments include primarily net sales and operating profit. The evaluation of segment performance and allocation of resources is based on non-IFRS operating profit.

Accounting policies of the segments are the same as those described in note 2, Significant accounting policies of our Annual Report for 2017. Inter-segment revenues and transfers are accounted for as if the revenues were to third parties, that is, at current market prices. Non-IFRS exclusions are not allocated to the segments.

### Ultra Broadband Networks Ultra Broadband Networks comprises Mobile Networks and Fixed Networks operating segments.

The Mobile Networks operating segment offers an industry-leading portfolio of end-to-end mobile networking solutions comprising hardware and software for communications service providers, enterprises and related markets/verticals, such as public safety and Internet of Things ( IoT ).

The Fixed Networks operating segment provides copper and fiber access products, solutions and services. The portfolio allows for a customized combination of technologies that brings fiber to the most economical point for the customer.

#### **Global Services**

Global Services operating segment provides a wide range of professional services with multi-vendor capabilities, covering network planning and optimization, systems integration as well as company-wide managed services. It also provides network implementation and care services for mobile networks, using the strength of its global service delivery for quality, speed and efficiency.

### **IP** Networks and Applications

IP Networks and Applications comprises IP/Optical Networks and Nokia Software operating segments.

The IP/Optical Networks operating segment provides the key IP routing and optical transport systems, software and services to build high capacity network infrastructure for the internet and global connectivity.

The Nokia Software operating segment offers software solutions spanning customer experience management, network operations and management, communications and collaboration, policy and charging, as well as Cloud, IoT, security, and analytics platforms that enable digital services providers and enterprises to accelerate innovation, monetize services, and optimize their customer experience.

### Nokia Technologies

The Nokia Technologies operating segment, building on decades of innovation and R&D leadership in technologies used in virtually all mobile devices used today, is expanding Nokia patent licensing business, reintroducing the Nokia brand to smartphones through brand licensing, and establishing a technology licensing business. The majority of net sales and related costs and expenses attributable to licensing and patenting the separate patent portfolios of Nokia Technologies, Nokia s Networks business, and Nokia Bell Labs are recorded in Nokia Technologies. Each reportable segment continues to separately record its own research and development expenses.

### **Group Common and Other**

Group Common and Other includes Alcatel-Lucent Submarine Networks and Radio Frequency Systems, both of which are being managed as separate entities. In addition, Group Common and Other includes Nokia Bell Labs operating expenses, as well as certain corporate-level and centrally managed operating expenses.

<sup>(1)</sup> Applications & Analytics operating segment was renamed as Nokia Software on February 1, 2018.
