REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees of the Monsanto Company Savings and Investment Plan

We have audited the accompanying statements of net assets available for benefits of the Monsanto Savings and Investment Plan (the "Plan") as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the financial statements, in 2015, the Plan adopted new accounting guidance in regards to Accounting Standard Updates ("ASU") No. 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) and ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965).

The supplemental schedules of (1) assets (held at end of year) as of December 31, 2015 and (2) assets (acquired and disposed of within year) for the year ended December 31, 2015, have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedules are the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedules reconcile to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DEC. 31, 2015 AND DEC. 31, 2014 AND FOR THE YEAR ENDED DEC. 31, 2015

NOTE 1. INFORMATION REGARDING THE PLAN

GENERAL

The following description of the Monsanto Savings and Investment Plan (the “Plan” or the “SIP”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. The Plan was established as of June 11, 2001, as a successor to a portion of the Pharmacia Corporation Savings and Investment Plan (“Pharmacia Plan”) for the benefit of certain employees and former employees (“Transferred Participants”) of Monsanto Company (“Monsanto” or the “Company”). Effective July 1, 2001, the assets of the Pharmacia Plan that were allocated to the accounts of the Transferred Participants were transferred to the trust established under the Plan. Also effective July 1, 2001, a portion of the unallocated assets and liabilities (primarily debt) of the leveraged employee stock ownership plan (“ESOP”) component of the Pharmacia Plan were transferred to the Plan.

ADMINISTRATION

Monsanto is the sponsor of the Plan. The Monsanto Company Employee Benefits Plans Committee (“Administrative Committee”) is responsible for administering the Plan in accordance with the Employee Retirement Income Security Act of 1974 (“ERISA”) and Plan documents. Fidelity Workplace Investing LLC serves as the record keeper of the Plan. The Monsanto Company Pension and Savings Funds Investment Committee (“Investment Committee”) is responsible for monitoring Plan investments. The trustee of the Plan is The Northern Trust Company (“Northern”).

PARTICIPANT ACCOUNTS

The Plan is a contributory defined contribution profit sharing plan with individual accounts for each participant. U.S. employees classified as “regular employees” and who have attained age 18 generally are eligible to participate in the Plan upon employment. U.S. employees classified as “temporary employees” and who have attained age 18 are eligible to participate in the Plan after 1,000 hours of service. Most costs of Plan administration are borne by Plan participants. Each participant’s account balance reflects the participant’s contributions, Company contributions and the pro-rata share of any Plan investment earnings and is reduced by the pro-rata share of any Plan investment losses, transaction costs and certain administrative and investment management expenses. Participants’ accounts are also reduced by the record keeping administrative expense on a fixed fee basis. Participants’ accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

EMPLOYEE CONTRIBUTIONS

The Plan provides for voluntary employee contributions generally ranging from one to 25 percent of an employee’s eligible pay. Employees have an option to make before-tax contributions, after-tax contributions or Roth contributions. Subject to annual limits on before-tax contributions and Roth contributions, and on the results of required Internal Revenue Service (“IRS”) discrimination testing, contributions may be all before-tax, all after-tax, all Roth or any combination of these three categories. Plan participants other than those also participating in the Company’s ERISA Parity Savings and Investment Plan may change the amounts of their contributions on a daily basis. Generally, participant contributions to the Plan may be invested in one percent increments and can be allocated in any combination to the following investment fund options at the direction of the participant: a stable value fund, a bond index fund, a balanced fund consisting of both fixed income and equity securities, a growth and income equity fund, an international equity fund, a growth equity fund, a U.S. equity index fund, a treasury inflation-protected securities (TIPS) bond fund, a value equity fund, a small cap growth equity fund, a small cap value equity fund, the Monsanto Stock Fund, which invests primarily in Monsanto common stock and four asset allocation funds consisting of varying pre-set mixes of certain of the aforementioned investment funds. The four asset allocation funds allow participants varying degrees of risk and return.

The Plan includes targeted “roundtrip” participant trading restrictions. A roundtrip is defined as an exchange in and then out of a fund in less than a 30-day period. Under these restrictions, participants are limited to one roundtrip transaction per fund within any 90-day rolling period and four roundtrip transactions across all funds over a rolling 12-month period. These targeted restrictions apply to all investment options except the Stable Value Fund. Generally,

participants may transfer their contributions, Company contributions and any earnings thereon among the investment options on a daily basis, subject to the roundtrip trading restrictions described above.

4

---

Tables of Contents

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

The Plan has an automatic enrollment feature with respect to newly hired and re-hired employees. If such an employee becomes eligible to participate in the SIP, he or she will be automatically enrolled in the Plan at a before-tax salary deferral rate (equal to five percent of non-incentive eligible pay). The automatic enrollment will occur 45 days after the employee's date of hire or rehire (or for temporary employees hired on or after July 1, 2007, 45 days after completing 1,000 hours of service) unless, within such 45 day period he or she elects a different percentage salary deferral rate or elects not to participate.

The SIP has an automatic salary deferral rate increase feature applicable to participants who had been automatically enrolled in the Plan for at least six months as of the last day of the prior Plan year and have not made changes to their salary deferral rate. With respect to those participants, on or around January 10th of each Plan year, the before-tax salary deferral rate applicable to his or her non-incentive eligible pay will be increased by one percent, up to a maximum before-tax rate of eight percent, unless the participant (a) elects to opt out of the automatic increase feature, (b) elects a different percentage salary deferral rate or (c) elects to not participate in the Plan.

Participants may be eligible to make a before-tax catch-up contribution if they are at least age 50 on or before the end of the calendar year and either currently contributing at least eight percent of their eligible pay per pay period to the SIP or had reached the IRS annual limit on before-tax and Roth contributions (\$18,000 in 2015). For 2015, eligible participants could have elected a before-tax and/or Roth catch-up contributions of up to \$6,000. The catch-up contributions are not eligible for Company matching contributions and are subject to the same rules as other before-tax and Roth contributions. The annual catch-up contribution limit may increase in future years in accordance with limits prescribed by the IRS.

The before-tax option allows participants to elect to make before-tax contributions from eligible gross pay before most income taxes are deducted. Participants generally cannot withdraw before-tax contributions without income tax penalties until age 59½, disability, death, separation from service after age 55, or for payments that are part of a series of substantially equal periodic payments made for the life of the employee or the joint lives of the employee and a designated beneficiary. After-tax contributions are made from participants' eligible pay after income taxes have been deducted. Withdrawal of after-tax employee contributions can be made with no penalty.

Roth contributions allow participants to contribute amounts from their eligible pay after income taxes have been deducted. If certain requirements are met, a participant can withdraw the amount of his or her Roth contributions together with earnings thereon without incurring any income tax liability. However, a participant will have to treat the withdrawal of earnings on Roth contributions as taxable unless such earnings are withdrawn either (a) after the date on which the participant attains age 59½ and after the participant's account has held Roth contributions for at least five years or (b) after the participant's death or disability. Also, an additional 10 percent tax will be imposed upon the withdrawal of any contributions which the participant has "converted" into Roth contributions under an election mechanism provided for in the Plan and upon the withdrawal of any earnings on Roth contributions unless at the time of the withdrawal, (a) the participant has attained age 59½, (b) the participant had terminated employment from the Company on or after attaining age 55 or (c) the participant had died or become disabled.

**COMPANY CONTRIBUTIONS AND VESTING**

The Company matches 80 percent of employee contributions, up to a maximum of eight percent of eligible pay. Company matching contributions are made as a cash contribution to the Plan and invested pursuant to the participant's current investment elections. In 2015, Company matching contributions of \$55.6 million were applied to the Plan. Participants hired after July 8, 2012 are also eligible for an age-based, Company core non-elective contribution, provided that they are employed on the last day of the Plan year. The amount of the contribution is based upon a participant's attained age and ranges from 3 to 7 percent of eligible pay. The last day requirement is waived in the case of death, disability, involuntary termination without cause and voluntary termination after attainment of age 55 with at least five years of service. Company core non-elective contributions were \$8.2 million in 2015.

Generally, Company contributions vest and become non-forfeitable at the rate of 20 percent per year of service, such that Company contributions are 100 percent vested after five years of service; participants receiving a Qualified

Non-Elective Contribution ("QNEC") are fully vested in those amounts. Company contributions immediately vest upon a change of control of the Company, as defined in the Plan.

An actively employed Plan participant with at least five years of service under the Plan may, at any time, withdraw all or a portion of his or her Plan account attributable to participant after-tax contributions, rollover contributions and vested Company contributions (other than Company core non-elective contribution, QNECs and unvested qualified matching contributions). An actively employed Plan participant with less than five years of service under the Plan may, at any time, withdraw all or a portion of his or her Plan account attributable to participant after-tax contributions, rollover contributions and vested Company contributions (other than those Company contributions made to the account during the immediately preceding 24 months,

Tables of Contents

MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (continued)

Company core non-elective contribution, QNECs and unvested qualified matching contributions). At age 59½, a Plan participant may withdraw any portion of his or her Plan account to the extent vested.

**VOTING RIGHTS**

Participants have the right to instruct the Plan's trustee how to vote the shares of Monsanto common stock represented by units in their accounts. The Trustee will vote the unallocated shares in the same proportion as the allocated shares on which they receive voting instructions from participants.

**PARTICIPANT LOANS**

Most Plan participants can obtain loans from their accounts for up to five years at an interest rate in effect as of the effective date of the loan, as determined by the Administrative Committee. A participant with a Plan account balance in excess of \$2,000 may borrow up to the lesser of (1) 50 percent of the total vested account balance (including employer contributions but excluding any Company core non-elective contributions) reduced by the participant's highest total outstanding loan balances in the twelve months before the loan is made, and (2) \$50,000 reduced by the participant's highest total outstanding loan balances in the twelve months before the loan is made. The minimum loan is \$1,000; generally, the maximum number of outstanding loans at any one time is two. No allowance for credit losses has been recorded as of Dec. 31, 2015, or Dec. 31, 2014. If a participant does not provide payment within the applicable period and fails to bring the delinquent payment current within the applicable period, the unpaid loan balance, plus accrued interest, is deemed distributed to the participant and the participant's Plan account is reduced by the outstanding loan payment, all in accordance with Plan rules and procedures.

**PAYMENT OF BENEFITS**

On termination of service with the Company (including termination of service due to death, disability or retirement), a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a certain number of years. If employment is terminated before age 70½, participants can elect to defer receiving benefits if their vested account balance is greater than \$1,000.

**FORFEITED ACCOUNTS**

At Dec. 31, 2015, and Dec. 31, 2014, the value of forfeited non-vested accounts totaled \$0.7 million and \$2.1million, respectively. As permitted by the terms of the Plan, during the Plan year ended Dec. 31, 2015, the Company determined to apply approximately \$4.2 million of forfeited amounts to fund Company matching contributions.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements and reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

**RISKS AND UNCERTAINTIES**

The Plan is invested in various types of financial assets including common stock, debt securities and investment contracts, the values of which are determined by market factors including but not limited to interest rates, overall market volatility, credit ratings and default rates. The investment values recorded in the financial statements as of Dec. 31, 2015, and Dec. 31, 2014, reflect the market environment, risks and uncertainties at that point in time. It is reasonably possible that subsequent changes in the market environment could result in investment values materially different from those shown in the financial statements.

**NEW ACCOUNTING STANDARDS**

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value

is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type.

Tables of Contents

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after Dec. 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to adopt Parts I and II early for the year ended Dec. 31, 2015. The adoption did not have a material effect on the financial statements. The investments section of the Statements of Net Assets Available for Benefits and the fair value hierarchy table included within Note 4 — Fair Value Measurements for the comparative prior period has been recast to conform to current year presentation as a result of this implementation.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The standard should be applied retrospectively to all periods presented. The Plan has elected to early adopt this ASU for the year ended Dec. 31, 2015, and the financial statements include these changes. The adoption did not have a material effect on the financial statements. The fair value hierarchy table included within Note 4 - Fair Value Measurements for the comparative prior period has been recast to conform to current year presentation as a result of this implementation.

**FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS**

The Stable Value Fund is invested in synthetic guaranteed investment contracts ("Synthetic GICs") and a separate guaranteed investment contract, as described in Note 3 — Stable Value Fund. In accordance with ASU 2015-12, the Statements of Net Assets Available for Benefits present the synthetic guaranteed investment contracts and the separate account investment contract at contract value. Contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

**INVESTMENT VALUATION AND INCOME RECOGNITION**

The Plan's investments are stated at fair value, except for the stable value fund, which is valued at contract value. Common stock is valued at quoted market prices. See Note 4 — Fair Value Measurements — for further details. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net depreciation in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation and depreciation on these investments.

The Plan pays certain outside service provider expenses (e.g. recordkeeping and trustee fees) incurred in the operation of the Plan. All investment manager fees are paid by the Plan and are included in administrative and investment management expenses. Certain other expenses are paid by the Company.

**NOTE 3. STABLE VALUE FUND**

The Stable Value Fund invests in Synthetic GICs and a separate account guaranteed investment contract. The Synthetic GICs consist of an underlying portfolio of fixed income assets which are held by the trustee and owned by the plan and benefit-responsive wrap contracts ("Contracts") issued by financial services companies. The separate account guaranteed investment contract is with an insurance company. The insurance company owns the underlying assets, held in a separate account established for the sole benefit of the Plan's Stable Value Fund participants. The assets in the GIC and separate account guaranteed investment contract represent the Stable Value Fund investment option. Almost all underlying assets are comprised of cash and temporary investments, debt securities and interest rate futures derivatives.

Separate, individual synthetic investment contracts were in place on Dec. 31, 2015, and Dec. 31, 2014, with Transamerica Premier Life Insurance Company (formerly known as Monumental Life Insurance Company), Metropolitan Life Insurance and Prudential Insurance Company. The Contracts provide that participants execute plan transactions at contract value. Contract value represents participant contributions made to the fund, plus earnings, less participant withdrawals.

Certain employer-initiated events such as a Plan merger or termination could limit the ability of the Plan to transact at contract value or could allow for the termination of the contract at less than contract value. The Trust's ability to receive amounts due

Tables of ContentsMONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (continued)

pursuant to the wrapper contracts depends on the issuers ability to meet their financial obligation under the wrapper contracts , which may be affected by future economic and regulatory events. The Company believes that the occurrence of events that would cause the Plan to transact at less than contract value is improbable.

The following summarizes the contract value of the Synthetic GICs and the separate account guaranteed investment contract as of Dec. 31, 2015, and Dec. 31, 2014.

## Guaranteed Investment Contract and Synthetic Guaranteed Investment Contracts

	As of Dec. 31,	
	2015	2014
(Dollars in thousands)		
Metropolitan Life (separate account, guaranteed investment contract)	\$ 134,483	\$ 135,470
Transamerica Premier Life Insurance Company (formerly known as Monumental Life Insurance Company)	239,444	240,606
Prudential Insurance Company	177,941	179,323
Total	\$ 551,868	\$ 555,399

Each of the Contracts provide for the determination of a gross interest crediting rate (“Contract Rate”) which is reset quarterly based on the current yield and duration of the underlying fixed income portfolio and the spread between the market value and contract value of the underlying fixed income portfolio. The quarterly Contract Rate cannot be less than zero percent.

## NOTE 4. FAIR VALUE MEASUREMENTS

The Plan determined the fair market values of its investments based on the fair value hierarchy established in the Fair Value Measurements and Disclosures topic of the ASC, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy contains three levels as follows, with Level 3 representing the lowest level of input:

Level 1 — Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 — Values based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, discounted cash flow models, or other model-based valuation techniques adjusted, as necessary, for credit risk.

Level 3 — Values generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques could include use of option pricing models, discounted cash flow models and similar techniques.

The following tables set forth by level the Plan’s investment assets that were accounted for at fair value on a recurring basis as of Dec. 31, 2015, and Dec. 31, 2014. As required by the Fair Value Measurements and Disclosures topic of the ASC, assets are classified in their entirety based on the lowest level of input that is a significant component of the fair value measurement. The Plan’s assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets within the fair value hierarchy levels.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

For assets that are measured using quoted prices in active markets, the total fair value is the published market price per unit multiplied by the number of units held without consideration of transaction costs, which have been determined to be immaterial. Assets that are measured using significant other observable inputs are primarily valued by reference to quoted prices of markets that are not active. The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

**Cash and temporary investments/Short-term investments:** The carrying value of cash equivalents approximates fair value as maturities are less than three months, and temporary investments (maturities less than 12 months) primarily consist of fixed income deposits and commercial paper which are measured at fair value using observable inputs in an active market. A large portion of the Plan's temporary investments/short-term investments are short-term collective investment funds—these commingled pools are in turn comprised of short-term fixed income assets that trade on a regular basis in active markets. However, because the commingled vehicles lack any formal listing or associated price quotes, they are classified as Level 2. Other temporary investment holdings are fixed income holdings with maturities of less than 12 months. Because these bonds are not traded on listed exchanges, yet do have observable valuation inputs, these are classified as Level 2 assets.

**Debt securities:** Debt securities assets consist of U.S. and foreign corporate credit, U.S. and foreign government issues (including related Agency Debentures and Mortgages), mortgage-backed securities, asset-backed securities and U.S. State and Municipal securities. U.S. treasury and U.S government agency bonds, as well as foreign government issues, are generally priced by institutional bids, which reflect estimated values based on underlying model frameworks at various dealers and vendors. While some corporate issues are formally listed on exchanges, dealers exchange bid and ask offers to arrive at executed transaction prices. Collateralized securities (both mortgage-backed and asset-backed) are valued using models with readily observable market data as inputs. All foreign government and foreign corporate debt securities are denominated in U.S. dollars. All debt securities included in the Plan are classified as Level 2.

**Common and preferred stock and Monsanto Company stock:** The Plan's common stock consists of investments in listed U.S. and foreign company stock, including Monsanto stock. These investments include large-capitalization stocks (companies with market capitalizations greater than \$2 billion) as well as international developed and emerging markets. All such investments that are valued using observable, unadjusted quoted prices from the various public stock exchanges, both domestic and foreign (e.g., NYSE, NASDAQ, LSE), represent active market trades and are classified as Level 1. Some common and preferred stock holdings are valued based on quoted prices for similar instruments in active markets, and thus are classified as Level 2. Some common stock was acquired through private placement and are unlisted securities, and thus there is not significant observable information. These assets were classified as Level 3.

**Collective investment funds:** Some investment options are structured as commingled pools, or funds—this encompasses the International Equity Fund, the Equity Index Fund, the Value Equity Fund, the Small-Cap Growth Equity Fund, the Small-Cap Value Equity Fund, the Large Cap Growth Equity Fund, and the Treasury Inflation-protected Securities Fund (TIPS). As a practical expedient, each commingled fund is valued at its NAV, which is calculated daily. Each fund also has a daily redemption period.

**NOTE 5. INFORMATION REGARDING TAX STATUS**

On Aug. 15, 2013, the IRS issued Monsanto a favorable determination letter with respect to the Plan as amended and restated effective Jan. 1, 2006 stating that the Plan as then designed, was qualified for federal income tax purposes in compliance with section 401(a) of the Internal Revenue Code ("IRC"). Pursuant to IRS procedures, on Jan. 31, 2013, Monsanto filed an application for a new determination letter for the Plan, which was amended and restated effective June 1, 2012. On March 12, 2015, the IRS issued Monsanto a favorable determination letter with respect to Plan amendments and restatements effective June 1, 2012 and November 3, 2014. The Company believes that the Plan is currently designed

in compliance with the applicable requirements of the IRC, and the Administrative Committee believes that the Plan is being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits; however, there are currently no audits for any tax periods in progress. The Administrative Committee believes it is no longer subject to income tax examinations for years prior to 2012.

**NOTE 6. PRIORITIES UPON TERMINATION OF THE PLAN**

If the Plan is terminated, all participants' account balances will be fully vested, and all participants would then be entitled to a full distribution of their account balances in accordance with ERISA and the IRC as more fully described and set forth in the Plan document.

NOTES TO FINANCIAL STATEMENTS (continued)

## NOTE 7. RELATED PARTY/PARTY-IN-INTEREST INVESTMENTS AND TRANSACTIONS

As of Dec. 31, 2015, and Dec. 31, 2014, the Plan holds approximately \$677 million and \$860 million, respectively, of common stock of Monsanto, the Plan sponsor, which approximately represents 22 percent and 26 percent, respectively, of the Plans investments.

Certain Plan investments are units of collective investment funds managed by Northern specifically for employee benefit trusts. Northern is also the Plan trustee as defined by the Plan and, therefore, these collective investment funds qualify as exempt party-in-interest investments. Fees for Northern's investment management services are paid by the Plan as described in Note 2 — Summary of Significant Accounting Policies.

FMR Corp. and its affiliates (individually and collectively, "Fidelity") reported to the SEC owning less than five percent of the Company's outstanding common stock. Fidelity Workplace Investing, LLC, a subsidiary of FMR Corp., currently provides recordkeeping, third party administrative and other plan-related services to or on behalf of the Plan.

## NOTE 8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the Plan's investments at fair value per the financial statements with the investments as reported on the Form 5500 Schedule of Assets as of Dec. 31, 2015, and Dec. 31, 2014.

(Dollars in thousands)	As of Dec. 31,	
	2015	2014
Net assets available for benefits:		
Investments, at fair value per financial statements	\$2,571,552	\$2,759,119
Investments, at contract value per financial statements	551,868	555,399
Loans to participants	33,194	31,337
Total investments per Form 5500 Schedule of Assets (Held at End of Year)	\$3,156,614	\$3,345,855

## NOTE 9. SUBSEQUENT EVENTS

Effective January 1, 2016, the SIP will offer additional investment fund selections consisting of a series of lifecycle funds, the Vanguard Target Retirement funds. The Vanguard Target Retirement funds are currently managed by the Vanguard Equity Investment Group. In general, a target retirement fund is a broadly diversified portfolio that is automatically adjusted to a more conservative asset mix as investors move toward-and possibly enter-retirement. The objective of the Target Retirement funds is to provide capital appreciation and current income consistent with its current asset allocation.

Effective January 1, 2016, an employee who is automatically enrolled in the SIP and makes no specific investment elections will be automatically enrolled in the SIP's default investment, which is the Vanguard Target Retirement fund with a maturity date nearest to the participant's sixty-fifth birthday. This represents a change from the SIP's previous default investment, which was the Moderately Aggressive Portfolio.
