Item 5. Other Information.

On September 11, 2001, the two main towers as well as related
structures of the World Trade Center in New York City were destroyed when two

aircraft crashed into the towers. The registrant's headquarters at the World Financial Center is adjacent to the World Trade Center area and cannot be occupied for at least the present time by the registrant due to the damage caused by the collapse of the World Trade Center towers and related structures. The registrant is implementing previously designed business continuity plans and is in the process of relocating its employees based at the World Financial Center (which represent less than 8 percent of its total employees) to other buildings in the New York City area. The World Trade Center explosion and certain other related events have resulted in, among other things, the closing of U.S. airports and stock exchanges. Notwithstanding the inability to use the headquarters building and some office space in the World Trade Center, the registrant's business operations and customer service continue to function normally around the world and senior management is meeting on a regular basis. The registrant continues to assess the impact on its business of the foregoing events.
