PRESS RELEASE

Source: Westsphere Asset Corporation, Inc. (Westsphere)

Calgary Alberta, Canada **Westsphere Asset Corporation, Inc. today** announces that the Board of Directors has approved the transfer of 100% of its interest in the issued and outstanding shares held in its majority controlled subsidiary TRAC P.O.S. Processing Inc. (TRAC) to Westsphere wholly owned subsidiary Westsphere Systems Inc. (WSI).

WSI was incorporated in January 2002 to provide Westsphere and/or its joint venture relationships particularly its Card Management System held by its wholly owned subsidiary, E-Debit, in-house proprietary software and hardware development space and business support for system growth, enhancement, integration and/or expansion related to its business within the non-conventional banking business.

On March 15, 2007 WSI received approval by the Canadian Interac Association to participate as an acquirer in the Associations Shared Cash Dispensing Service (SCD Service) and as an Acquirer in the Associations Interac Direct Payment Service (IDP Service). The approval placed WSI as an Interac Indirect Connector and allowed for its development as a financial processing Switch.

The Development of WSI switch will provide connectivity between the Canadian Banking System, ATM and POS devices and E-Debit s card management system. The WSI switch is currently the point of entry for ATM and POS (debit and credit) transactions for users within white label market and with WSI's partnership selection of BASE24@ operated in an ACI "On Demand™" hosted services environment the Switch also enables major banking institutions the ability to process their customer's transactions directly in a best of class processing environment.

This is the third stage of our restructuring in order to meet the new economic reality we are experiencing. Financial, administrative and operational consolidation of our business operations is required to maximize our opportunities. More is to come. said Doug Mac Donald, President and CEO of Westsphere Asset Corporation.
