ORGANIZATIONAL HISTORY

Edgar Filing: DIGICORP - Form 8-K

Digicorp was incorporated on July 19, 1983 under the laws of the State of Utah for the purpose of developing and marketing computer software programs. From 1983 to 1995, the Company's sales and investments were attributable to the sale of computer software and investments related to oil, gas and mining.

On June 30, 1995, the Company became a development stage enterprise when the Company sold its assets and changed its business plan. Since June 30, 1995, the Company has been in the developmental stage and until September 19, 2005 has had no operations other than issuing shares of common stock for financing the preparation of financial statements and for preparing filings for the SEC. In August 2001, the Company elected to file a Form 10-SB registration statement with the SEC on a voluntary basis in order to become a reporting company under the Exchange Act.

5

Acquisition of iCodemedia Assets

On September 19, 2005, the Company entered into an asset purchase agreement with Philip Gatch, the Company's Chief Technology Officer, and thereby completed the purchase of certain assets from Mr. Gatch consisting of the iCodemedia suite of websites and internet properties and all related intellectual property (the "iCodemedia Assets"). The iCodemedia suite of websites consists of the websites www.icodemedia.com, www.iplaylist.com, www.tunecast.com, www.tunebucks.com, www.podpresskit.com and www.tunespromo.com. Since completing the Acquisition, the Company may sell the iCodemedia Assets or use the websites to provide applications and services to enable content creators to publish and deliver content to existing and next generation devices such as the Apple iPod and the Sony PSP. As consideration for the iCodemedia Assets, the Company issued Mr. Gatch 1,000,000 shares of common stock. The issuance of shares of common stock to Mr. Gatch was exempt from registration requirements pursuant to Section 4(2) of the Securities Act of 1933, as amended.

Acquisition of Rebel Crew Films

As further described on page 1 of this report, on December 29, 2005, the Company acquired all of the issued and outstanding capital stock of Rebel Crew Films in consideration for the issuance of 21,207,080 shares of common stock to the shareholders of Rebel Crew Films. The Acquisition was exempt from registration requirements pursuant to Section 4(2) of the Securities Act and Rule 506 promulgated thereunder. Rebel Crew Films was organized under the laws of the State of California on August 7, 2002 to distribute Latino home entertainment products. Rebel Crew Films currently maintains more than 200 Spanish language films and plans to serve the nation's largest wholesale, retail, catalog, and e-commerce accounts.

Except as specifically stated otherwise, in the remainder of this report references to "the Company" refer to Digicorp together with its wholly owned subsidiary Rebel Crew Films, Inc.

OVERVIEW

The Company currently maintains more than 200 Spanish language films and serves some of the nation's largest wholesale, retail, catalog, and e-commerce accounts. The Company's titles can be found at Wal-Mart, Best Buy, Blockbuster, K-Mart, and hundreds of independent video outlets across the United States of America and Canada. The Company's diverse programming includes: New Releases, Classic Mexican Cinema, animation, cult, sports, martial arts, family entertainment, and more.

The Company generates revenue through either licensing agreements with

Edgar Filing: DIGICORP - Form 8-K

third parties that distribute the Company's licensed content or through direct sales. The Company's typical licensing agreements consist of a three to five-year contract that carries a 15% - 50% royalty on gross sales of licensed product. The Company is currently expanding its sales force to focus on direct sales of its licensed content.

The Company is organized in a single operating segment. All of the Company's revenues are generated in the United States, and the Company has no long-lived assets outside the United States.

CUSTOMERS

For direct sales, the Company's sales associates focus on small retail stores across the country. Currently, the sales force manages over 1,100 active retail store customers. For other licensing activities, there are two companies, BCI Eclipse LLC, which has licensed 20 titles, and VAS Entertainment/Rise Above Entertainment ("VAS/RA") which has licensed 17 titles from the Company. They function as manufacturers for the Company's DVD inventory for those titles, as well as a distributor to large retailers like Wal-Mart. The agreements with these companies consist of a term of three to five years granting the companies the right to manufacture, promote, and distribute the licensed movies for a 15% - 50% royalty on gross sales, depending on title.

6

Besides its direct selling effort through telemarketing, the Company markets its products by placing print ads in a variety of Latino trade magazines as well as through its website. The Company has a dedicated 1-800 toll free number for sales inquiries.

SUPPLIERS

The Company has three categories of suppliers - movie licensors, DVD manufacturers, and finished goods suppliers. Movie licensors consist of Spanish language movie license holders primarily from Mexico who enter licensing agreements with the Company to manufacture and distribute their movies. The Company is currently in contract with eight different licensors of content. From these agreements, the Company has manufactured ten titles. Agreements with these companies consist of either a fixed license fee or a 40-60% royalty on net revenues for the right to manufacture, promote and distribute the films for four to five years, depending on title.

For the manufacture of DVD's, the Company's principal supplier is a company called Reptek. The Company does not have a written agreement with this supplier. There is no dependency on this supplier as the supply of DVD manufacturing companies is broad and there are many potential firms that can be employed to supply the Company's products.

For DVD titles not owned or licensed by the Company, a number of finished goods vendors are utilized. Among them are Ventura Distribution Inc., Cozumel Films, Venevision International, and Universal (UMVD). Ventura Distribution currently supplies the Company with 21 movies distributed by Unicine, a division of Univision. Venevision International has the highest number of titles, providing the Company with 51 films. Universal (UMVD) currently supplies the Company with 36 films and Cozumel Films provides the Company with three films. There are no written agreements with any of these companies to supply the Company with films.

The Company is currently expanding its sales force to focus on direct sales of its licensed content. The Company is shifting its efforts on direct selling due to two primary reasons: (1) poor reliability of third party

Edgar Filing: DIGICORP - Form 8-K

distributors generally to pay royalties on time; and (2) to eliminate dependence on third party distributors to distribute the Company's product as one of many other products they also sell.

COMPETITION

Although accurate numbers are difficult to obtain due to the hesitation of privately owned distribution companies to divulge sales figures, it is generally estimated by an independent study by Estrenos magazine (a Latin Entertainment Trade Journal) that the Latino home video distribution market for the first six months of 2005 sold over three million units in the U.S. According to Estrenos magazine, of that number three distributors accounted for approximately 80% of those sales - Laguna Films (43%), Ventura/Studio Latino (26%), and Xenon/Televisa (13%) (data provided by each distributor or source). Other players include Image Entertainment (7%), Latin Vision (5%), Brentwood Home Video (3%), Pro-Active Entertainment (2%), and Vanguard Latino (1%) (Source: Estros magazine, September/October 2005). Based on these sales performance figures, the Company's monthly sales average currently represents approximately 1.25% of the monthly average of DVD sales volume in the Latino video entertainment industry

Major U.S. movie studios have ventured into servicing the Latino home video market as well, selling approximately 1.5 million units in the first half of 2005. Of that amount, approximately 60% of sales were dominated by three studios - MGM Home Entertainment (26%), Columbia Tri-Star (18%) and Lions Gate Films (16%). Other such competitors include UMVD/Visual Entertainment (12%), BVHE/Disney (8%), Warner Home Video (8%), and Fox Home Entertainment (3%). (Source: Estros magazine, September/October 2005)

The Company also competes with retail music and video stores, including online stores, dominated by large companies such as Netflix, Blockbuster, Trans World Entertainment, and Movie Gallery Inc.

The Company competes in the Latino home video market primarily by offering competitive prices on a wide variety of quality titles through its direct selling efforts targeted at retail stores across the entire United States.

7

GOVERNMENT REGULATION

The Company is not aware of any existing or probable governmental regulations that may have a material effect on the normal operations of the Company's business. There also are no relevant environmental laws that require compliance by the Company that may have a material effect on the normal operations of the business.

EMPLOYEES

As of January 4, 2006, the Company employed eight full time employees and three part time employees. None of the Company's employees are covered by a collective bargaining agreement. The Company believes that relations with its employees are good.

DESCRIPTION OF PROPERTY

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

Critical Accounting Policies

A discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Note 2 to our audited financial statements included as an exhibit to this Form 8-K describes the significant accounting policies and methods used in the preparation of the financial statements. On an ongoing basis, management evaluates its estimates, the most critical are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex, or subjective judgments.

Accounting Developments

In December 2004, Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment," which addresses the accounting for employee stock options, was issued. SFAS 123(R) revises the disclosure provisions of SFAS 123, "Accounting for Stock Based Compensation" and supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees." SFAS 123(R) requires that the cost of all employee stock options, as well as other equity-based compensation arrangements, be reflected in the financial statements based on the estimated fair value of the awards. This statement is effective for us as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. The impact on our operating results or financial position based on the adoption of SFAS No. 123(R) has not yet been determined.

Liquidity and Capital Resources

Our total assets were \$519,442 at September 30, 2005 versus \$195,981 at December 31, 2004. The change in total assets is primarily attributable to an increase in our intangible assets and inventory of \$240,175 and \$36,243, respectively. The increases in intangible assets and inventory were primarily financed through monies loaned from related parties in the amount of \$552,321.

Edgar Filing: DIGICORP - Form 8-K

At September 30, 2005 and December 30, 2004, we had \$3,404 and \$7,856 in cash and cash equivalents, respectively. During the nine months ended September 30, 2005, we borrowed \$519,321 from Rebel Holdings, LLC, a California limited liability company ("Rebel Holdings"), an entity that during 2005 acquired approximately 90% of the outstanding shares of the our common stock. In September 2005, we borrowed an additional \$33,000 from the sole member of Rebel Holdings. At September 30, 2005 and December 31, 2004, the Company had a combined liability of \$601,307 and \$48,986, respectively, due to either Rebel Holdings or the sole member of Rebel Holdings. On December 29, 2005, we issued a promissory note in the amount of \$73,000 to the sole member (the "Promissory Note") of Rebel Holdings. The Promissory Note represented the outstanding amount borrowed at September 30, 2005 as well as additional funds borrowed during the fourth quarter of 2005. The Promissory Note has a term of approximately six months and bears 5.0% simple interest. On December 29, 2005, in connection with the closing of the Acquisition we also issued a convertible note in the amount of \$556,307 to Rebel Holdings (the "Note"). The Note has a term of five years from December 29, 2005, bears 4.5% simple interest and is convertible into shares of our common stock at a conversion price of \$1.112614 per share.

We have primarily relied upon loans from related parties to fund our operations and, to a lesser extent, revenues generated from licensing our film content, on a non-exclusive basis, to other distributors of Latino home entertainment content. We believe that future revenues combined with either loans or direct equity investments into the Company will be sufficient to fund our operations for the 12 months subsequent to September 30, 2005. We expect to undertake additional debt or equity financings to better enable us to grow and meet our future operating and capital requirements, however, there is no assurance that we will be successful in obtaining such financing.

Operating activities provided \$336,762 of cash for the nine months ended September 30, 2005, compared to providing \$161,856 and \$62,765 for the years ended December 31, 2004 and 2003, respectively.

Cash used in investing activities for the nine months ended September 30, 2004 and the years ended December 31, 2004 and 2003, of \$341,214, \$154,000, and \$72,000, respectively, resulted almost exclusively from the purchases of licensed Spanish language film content that was capitalized.

Results of Operations

Revenues

We recognized revenues of \$140,333 and \$27,963 for the nine months ended September 30, 2005 and the year ended December 31, 2004, respectively. During 2004 all of our revenues were generated through licensing agreements. The licensing agreements provide for us to receive advance payments as consideration for rights granted to third parties that distribute our licensed content. The advance payments are initially recorded as deferred revenue and subsequently recognized in income as royalties are earned upon shipment of licensed content to customers by the sub-licensor. Deferred revenue balances of \$75,411 and \$162,971 at September 30, 2005 and December 31, 2004, respectively, represent advance royalty payments that are expected to be earned over the subsequent twelve month periods.

During the nine months ended September 30, 2005, licensing revenue of \$85,205 accounted for approximately 61% of our total revenue. The remaining revenue of \$55,128 represents revenue generated through the direct sales of our licensed content. We expect that direct sales, as a percentage of total revenue, will significantly increase over the next year as we focus our efforts on expanding our existing sales force. Further, we anticipate that licensing revenues will significantly be reduced or eliminated in future years as we shift our focus away from licensing agreements with third parties

Expenses

Operating expenses were \$247,854 and \$80,889 in the nine months ended September 30, 2005 and 2004, respectively and \$144,434 and \$112,364 in the fiscal years ended December 31, 2004 and 2003, respectively. Operating expenses in all periods primarily consisted of professional fees, rent expense, amortization expense and general and administrative expenses.

Professional fees were approximately \$40,000 higher in the nine months ended September 30, 2005 compared to the nine months ended September 30, 2004 due to significant increases in amounts paid to consultants as well as legal and accounting fees. Amounts paid to various consultants increased by approximately \$24,000 and related to services to locate Spanish language content for acquisition, technical assistance in preparing the content for production, and sales and marketing of the titles. Legal fees increased by approximately \$12,000 due to the preparation and review of an increased amount of license agreements. Accounting fees, which increased by approximately \$4,000, relate to costs incurred to update our accounting system to facilitate a larger volume of transactions.

Professional fees were approximately \$36,000 higher in the year ended December 31, 2004 compared to the year ended December 31, 2003 due to significant increases in amounts paid to consultants as well as legal fees. Amounts paid to various consultants during 2003 related solely for services to locate Spanish language content for acquisition whereas during 2004 we incurred expenses related not only for services to locate Spanish language content, but also technical assistance in preparing the content for production, and sales and marketing of the titles. Legal fees increased by approximately \$8,000 due to the preparation and review of an increased amount of license agreements.

Rent expense increased by approximately \$15,000 in the nine months ended September 30, 2005 compared to the nine months ended September 30, 2004 due in part to our relocation into commercial office space in August 2005, with base rent of \$5,890 per month combined with periods of low rates of rent during the nine months ended September 30, 2004.

Rent expense increased by approximately \$4,000 in the year ended December 31, 2004 compared to the year ended December 31, 2003 and is attributed to periods of low rates of rent during 2003.

Amortization expense increased by approximately \$56,000 in the nine months ended September 30, 2005 compared to the nine months ended September 30, 2004 due to an increased number of license agreements.

Amortization expense increased by approximately \$26,000 in the year ended December 31, 2004 compared to the year ended December 31, 2003 due to an increased number of license agreements.

General and administrative expense increased by approximately \$50,000 in the nine months ended September 30, 2005 compared to the nine months ended September 30, 2004 and is attributed to the overall expansion of the business during the nine months ended September 30, 2005 combined with the financial constraints placed on us as a result of limited amounts of available working capital in the nine months ended September 30, 2004.

General and administrative expense decreased by approximately \$15,000 in the year ended December 31, 2004 compared to the year ended December 31, 2003 due to financial constraints placed on us as a result of limited amounts of

Edgar Filing: DIGICORP - Form 8-K

available working capital in the year ended December 31, 2004. During the year ended December 31, 2003, as reflected by our deferred revenue balance of approximately \$40,000 and licensing revenues of approximately \$116,000, we received a large amount of advance payments from our licensing agreements with third parties. These advance payments exceeded the cost of our licensed content in 2003, thus, providing an adequate amount of working capital for general and administrative purposes. During 2004 the amount of advance payments approximated the cost of our licensed content thus eliminating a source of funds for general and administrative expenses.

Taxes

We are taxed under Title 26, Chapter 1, Subchapter C of the Internal Revenue Code of 1986, as amended, and therefore subject to federal income tax on the portion of our taxable income.

At December 31, 2004, we had a net operating loss carryforward of approximately \$27,000 to offset future taxable income for federal income tax purposes. The utilization of the loss carryforward to reduce any future income taxes will depend on our ability to generate sufficient taxable income prior to the expiration of the net operating loss carryforwards. The carryforward expires beginning in 2024.

A change in the ownership of a majority of the fair market value of our common stock can delay or limit the utilization of existing net operating loss carryforwards pursuant to Internal Revenue Code Section 382. We believe that such a change occurred during the year ended December 31, 2005 and are evaluating the amount that our net operating loss carryforward utilization will be limited to.

- (1) The value shown was calculated utilizing the Black-Scholes option pricing model and are presented solely for the purpose of comparative disclosure in accordance with certain regulations of the Securities and Exchange Commission. This model is a mathematical formula used to value traded stock price volatility. The actual value that an executive officer may realize, if any, is dependent on the amount by which the stock price at the time of exercise exceeds the exercise price. There is no assurance that the value realized by an executive officer will be at or near the value estimated by the Black-Scholes model. In calculating the grant date present values, the Company used the following assumptions: (a) expected volatility of approximately 155%; (b) risk-free rate of return of approximately 3.75%; (c) no dividends payable during the relevant period; and (d) exercise at the end of a 10 year period from the date of grant.
- (2) On July 20, 2005, as consideration for service as Chief Executive Officer, the Company granted Milton "Todd" Ault, III options to purchase 2,000,000 shares of common stock with an exercise price of \$0.25 per share. The remaining options to purchase 1,525,000 shares of the Company's common stock were cancelled.

Horne options to purchase 500,000 shares of common stock with an exercise price of \$0.25 per share. REBEL CREW FILMS, INC.
NOTES TO FINANCIAL STATEMENTS - UNAUDITED
SEPTEMBER 30, 2005
1. DESCRIPTION OF BUSINESS

Rebel Crew Films, Inc. ("the Company") was organized under the laws of the State of California on August 7, 2002 to distribute Latino home entertainment products. The Company currently maintains more than 200 Spanish language films and serves wholesale, retail, catalog, and e-commerce accounts. The Company's titles can be found at major retail outlets and independent video outlets across the United States of America and Canada.

During the nine months ended September 30, 2004 and 2005, the Company generated revenue through the direct sales of licensed content and licensing agreements with third parties that distributed the Company's licensed content. The Company is expanding its sales force to focus on direct sales of its licensed content and intends to significantly reduce or eliminate future licensing agreements with third parties.

The Company is organized in a single operating segment. All of the Company's revenues are generated in the United States, and the Company has no long-lived assets outside the United States.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying condensed financial statements do not include all the information and disclosures required by accounting principles generally accepted in the United States of America. The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The actual results may differ from management's estimates.

The interim condensed financial information is unaudited, but reflects all normal adjustments that are, in the opinion of management, necessary to provide a fair statement of results for the interim periods presented. The condensed interim financial statements should be read in connection with the Company's audited financial statements for the year ended December 31, 2004.

LIQUIDITY

The accompanying financial statements are prepared assuming the Company is a going concern which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has a working capital deficiency of \$618,599 at September 30, 2005, which includes deferred revenue of \$75,411 and amounts due to related parties of \$601,307, as discussed below. During the nine months ended September 30, 2005, the Company primarily relied upon loans from a related party to fund its operations and, to a lesser extent, revenues generated from licensing its film content, on a non-exclusive basis, to other distributors of Latino home entertainment content. Management believes that future revenues combined with either loans or direct equity investments into the Company will be sufficient to fund the Company's operations for the 12 months subsequent to September 30, 2005.

Edgar Filing: DIGICORP - Form 8-K

REVENUE RECOGNITION

The Company generates revenue through either the direct sales of licensed content or through licensing agreements whereby the Company receives advance payments as consideration for rights granted to third parties that distribute the Company's licensed content. The Company may be entitled to receive additional royalty payments under the licensing agreements, but only to the extent that royalties calculated under the terms of the licensing agreements exceed the amount of the advance payments. Advance payments are initially recorded as deferred revenue. The Company recognizes revenue under its licensing agreements as royalties are earned upon shipment of licensed content to customers by the sub-licensor. Deferred revenue balances of \$75,411 and \$162,971 at September 30, 2005 and December 31, 2004, respectively, represent advance royalty payments that are expected to be earned over the subsequent twelve month periods. Revenues from direct sales are recorded upon shipment.

REBEL CREW FILMS, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

ACCOUNTS RECEIVABLES

Accounts receivables are recorded at the invoice amount and do not bear interest. Accounts receivable at September 30, 2005 are presented net of an allowance for doubtful accounts of \$5,000. The allowance for doubtful accounts is the Company's estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company determines the allowance based on historical write-off experience. The Company reviews its allowance for doubtful accounts monthly. Past due balances are reviewed individually for collectibility. Account balances are charged off against the allowance after all means of collection have been exhausted and potential for recovery is considered remote. The Company does not have any off-balance-sheet exposure related to its customers.

INVENTORY

Inventories, consisting primarily of Spanish language DVD titles, are stated at the lower of cost (first-in, first-out basis) or market.

PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost and depreciated using the straight-line method over the useful lives of the assets, generally from five to seven years. Property and equipment at September 30, 2005 are presented net of accumulated depreciation of \$577. Depreciation expense for the nine months ended September 30, 2005 was \$577.

3. INTANGIBLE ASSETS

Intangible assets consist of capitalized license fees for licensed content the Company acquired from owners including producers, studios and distributors. Licensed content acquired is capitalized at the time of purchase. The term of the licensed content agreements usually vary between one to five years (the "TITLE Term"). At the end of the Title Term, the Company generally has the option of discontinuing distribution of the title or extending the Title Term.

The Company amortizes the capitalized license fees, on a straight line basis over the Title Term. During the nine months ended September 30, 2005 and 2004, amortization expense related to the licensed content was \$86,825 and \$31,250, respectively.

Edgar Filing: DIGICORP - Form 8-K

Licensed content and accumulated amortization at September 30, 2005 and December 31, 2004, consisted of the following:

	SEPTEMBER 30, 2005	DECEMBER 31, 2004
Licensed content	\$ 581,000	\$ 254,000
Less: accumulated amortization	(152,700)	(65,875)
	-----	-----
Licensed content, net	\$ 428,300	\$ 188,125

4. INCOME (LOSS) PER COMMON SHARE

Income (loss) per common share is based on the weighted average number of common shares outstanding. The Company complies with SFAS No. 128, "Earnings Per Share," which requires dual presentation of basic and diluted earnings per share on the face of the statements of operations. Basic per share earnings or loss excludes dilution and is computed by dividing income (loss) available to common stockholders by the weighted-average common shares outstanding for the period. Diluted per share earnings or loss reflects the potential dilution that could occur if convertible preferred stock or debentures, options and warrants were to be exercised or converted or otherwise resulted in the issuance of common stock that then shared in the earnings of the entity. For the nine months ended September 30, 2005 and 2004, there were no potentially dilutive shares outstanding

Upon closing the Acquisition, Digicorp would issue approximately 21 million shares of its common stock to the shareholders of the Company as compensation for the issued and outstanding capital stock of the Company. NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004

1. DESCRIPTION OF BUSINESS

Rebel Crew Films, Inc. ("the Company") was organized under the laws of the State of California on August 7, 2002 to distribute Latino home entertainment products. The Company currently maintains more than 200 Spanish language films and serves wholesale, retail, catalog, and e-commerce accounts. The Company's titles can be found at major retail outlets and independent video outlets across the United States of America and Canada.

During 2003 and 2004, the Company generated revenue through licensing agreements

Edgar Filing: DIGICORP - Form 8-K

with third parties that distributed the Company's licensed content. The Company is expanding its sales force to focus on direct sales of its licensed content and intends to significantly reduce or eliminate future licensing agreements with third parties.

The Company is organized in a single operating segment. All of the Company's revenues are generated in the United States, and the Company has no long-lived assets outside the United States.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

LIQUIDITY

The accompanying financial statements are prepared assuming the Company is a going concern which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has a working capital deficiency of \$213,801 at December 31, 2004, which includes deferred revenue balance of \$162,971, as discussed below. During the year ended December 31, 2004, the Company primarily relied upon revenues generated from licensing its film content, on a non-exclusive basis, to other distributors of Latino home entertainment content and, to a lesser extent, from loans by a related party to fund its operations. Management believes that future revenues combined with either loans or direct equity investments into the Company will be sufficient to fund the Company's operations for the 12 months subsequent to December 31, 2004.

USE OF ESTIMATES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates are based on knowledge of current events and anticipated future events and accordingly, actual results may differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers only highly liquid investments such as money market funds and commercial paper with maturities of 90 days or less at the date of their acquisition as cash and cash equivalents.

The Company maintains cash in bank and deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

INTANGIBLE ASSETS

Licensed content acquired from owners including producers, studios or distributors is capitalized and amortized on a straight-line basis over the term of the license agreement, which generally ranges between one and five years. The carrying values of intangible assets are periodically reviewed and impairments, if any, are recognized when the expected future benefit to be derived from an intangible asset is less than its carrying value.

F-14

REBEL CREW FILMS, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

STOCK BASED COMPENSATION

Edgar Filing: DIGICORP - Form 8-K

As of December 31, 2004, no stock options or other equity instruments had been granted to employees. For future stock-based compensation awards, the Company intends to adopt the provisions of Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 123(R), Share-Based Payment, that requires corporations to account for awards of stock options or other equity instruments to employees using the fair value method.

REVENUE RECOGNITION

The Company generates revenue through licensing agreements whereby the Company receives advance payments as consideration for rights granted to third parties that distribute the Company's licensed content. The Company may be entitled to receive additional royalty payments under the licensing agreements, but only to the extent that royalties calculated under the terms of the licensing agreements exceed the amount of the advance payments. Advance payments are initially recorded as deferred revenue. The Company recognizes revenue under its licensing agreements as royalties are earned upon shipment of licensed content to customers by the sub-licensor. Deferred revenue balances of \$162,971 and \$40,433 at December 31, 2004 and 2003, respectively, represent advance royalty payments that are expected to be earned over the subsequent twelve month periods.

INCOME TAXES

Deferred income taxes are provided in amounts sufficient to give effect to temporary differences between financial and tax reporting, principally related to net operating loss carryforwards. Valuation allowances are provided to the extent realization of recorded tax assets is not considered likely.

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2004, the Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue 04-08 The Effect of Contingently Convertible Instruments on Diluted Earnings per Share, which requires the inclusion of shares related to contingently convertible debt instruments for computing diluted earnings per share using the if-converted method, regardless of whether the market price contingency has been met. EITF 04-08 will be effective for all periods ending after December 15, 2004 and includes retroactive adjustment to historically reported diluted earnings per share. The adoption of EITF Issue No. 04-08 does not currently have an impact on the Company's operating results or financial position.

In November 2004, the FASB issued SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4. SFAS 151 clarifies that abnormal inventory costs such as costs of idle facilities, excess freight and handling costs, and wasted materials (spoilage) are required to be recognized as current period charges. The provisions of SFAS 151 are effective for fiscal years beginning after June 15, 2005. The adoption of SFAS 151 is not expected to have a significant impact on the Company's operating results or financial position.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets, which eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. SFAS No. 153 will be effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The adoption of SFAS No. 153 is not expected to have an impact on the Company's operating results or financial position.

In December 2004, the FASB issued SFAS No. 123(R), Share-Based Payment, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard replaces SFAS No. 123 and supercedes APB Opinion No. 25, Accounting for Stock-based compensation. This

Edgar Filing: DIGICORP - Form 8-K

Standard requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. SFAS No. 123(R) will be effective for interim or annual reporting periods beginning on or after December 15, 2005. The impact on the Company's operating results or financial position based on the adoption of SFAS No. 123(R) has not yet been determined.

3. INTANGIBLE ASSETS

Intangible assets consist of capitalized license fees for licensed content the Company acquired from owners including producers, studios and distributors. Licensed content acquired is capitalized at the time of purchase. The term of the licensed content agreements usually vary between one to five years (the "TITLE TERM"). At the end of the Title Term, the Company generally has the option of discontinuing distribution of the title or extending the Title Term.

The Company amortizes the capitalized license fees, on a straight line basis over the Title Term. During the years ended December 31, 2004 and 2003, amortization expense related to the licensed content was \$45,875 and \$20,000, respectively.

Licensed content and accumulated amortization consisted of the following:

	YEARS ENDED

Less: accumulated amortization	(65,875)	(20,000)

In connection with these agreements, the Company expects to record the following amortization expense over the next five years:

4. INCOME TAXES

REBEL CREW FILMS, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The ultimate realization of deferred tax assets depends upon the generation of future taxable income during the periods in which those temporary differences become deductible. Based upon our loss for the year ended December 31, 2004 we have provided a valuation allowance in the amount of \$16,703, an increase of \$15,706. The amount of deferred tax asset considered realizable could change in the near term if projected future taxable income is realized. Included in deferred tax assets is federal and state net operating loss carry forwards of approximately \$27,000 and \$25,000 respectively. Utilization of operating loss carryforwards may be limited if a cumulative change in ownership of more than 50% occurs within a three year period. The net operating losses will begin to expire in 2024 and 2014, respectively.

At December 31, 2004 and 2003, the Company's tax provision consists of:

5. INCOME (LOSS) PER COMMON SHARE

Income (loss) per common share is based on the weighted average number of common shares outstanding. The Company complies with SFAS No. 128, "Earnings Per Share," which requires dual presentation of basic and diluted earnings per share on the face of the statements of operations. Basic per share earnings or loss excludes dilution and is computed by dividing income (loss) available to common stockholders by the weighted-average common shares outstanding for the period. Diluted per share earnings or loss reflects the potential dilution that could occur if convertible preferred stock or debentures, options and warrants were to be exercised or converted or otherwise resulted in the issuance of common stock that then shared in the earnings of the entity. For the years ended December 31, 2004 and 2003, there were no potentially dilutive shares outstanding
