**SELECTED RISK CONSIDERATIONS**

- **Suitability of Note for Investment** - A person should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the Pricing Supplement. Neither the Issuer nor any dealer participating in the offering makes any recommendation as to the suitability of the Notes for investment.
- **Not Principal Protected** - The Notes are not principal protected. If the Final Share Price is less than the Initial Share Price, there will be no principal protection on the Notes and the Cash Settlement Value you will receive will be less than the initial offering price in proportion to the percentage decline in the Reference Share. In that case, you will receive less, and possibly significantly less, than your initial investment in the Notes.
- **Maximum return of [38.00]%** — You will not receive more than the maximum return of [38.00]% at maturity. Because the maximum return on the Notes is [38.00]%, the maximum Cash Settlement Value is \$[1,380.00]. Therefore, the Cash Settlement Value will not reflect the increase in the value of the Notes if the Initial Share Price increases by more than [19.00]%.
- **Secondary Market** - Because the Notes will not be listed on any securities exchange, a secondary trading market is not expected to develop, and, if such a market were to develop, it may not be liquid. Bear, Stearns & Co. Inc. intends under ordinary market conditions to indicate prices for the Notes on request. However, there can be no guarantee that bids for outstanding Notes will be made in the future; nor can the prices of those bids be predicted.
- **No interest, dividend or other payments** — You will not receive any interest, dividend payments or other distributions on the Reference Share, nor will such payments be included in the calculation of the Cash Settlement Value you will receive at maturity.
- **Taxes** - The U.S. federal income tax consequences of an investment in the Notes are complex and uncertain. We intend to treat the Notes for all tax purposes as pre-paid cash-settled forward contracts linked to the price of the Reference Share and, where required, to file information returns with the Internal Revenue Service in accordance with such treatment. Prospective investors are urged to consult their tax advisors regarding the U.S. federal income tax consequences of an investment in the Notes. Assuming the Notes are treated as pre-paid cash-settled forward contracts, you should be required to recognize capital gain or loss to the extent that the cash you receive on the Maturity Date or upon a sale or exchange of the Notes prior to the Maturity Date differs from your tax basis on the Notes (which will generally be the amount you paid for the Notes).
