This analysis should be read in conjunction with Central Fund's financial statements prepared in accordance with Canadian GAAP included in its 2007 Annual Report and the accompanying MD&A.

The change in net assets as reported in U.S. dollars from period to period is primarily a result of the changing market prices of gold and silver and the proportion of each held by the Company. Changes in the value of the U.S. dollar relative to the Canadian dollar will also have an impact on net assets when reported in Canadian dollars.

Net assets increased by \$198.4 million during the six months ended April 30, 2008 as a result of the increases in gold and silver prices and the public offering of Class A shares completed on March 5, 2008. The Company used the net proceeds from this public offering to purchase 25,416 fine ounces of gold at a cost of \$24,319,300 and 1,270,800 ounces of silver at a cost of \$24,501,024, both in physical bar form. The balance of \$5,399,666 was retained by the Company in interest-bearing cash deposits for working capital purposes.

<i>Class A shares</i>	\$ 1.14	0.88	\$ (0.47)	0.21
<i>Common shares</i>	\$ 1.14	0.88	\$ (0.47)	0.21

Net income (inclusive of unrealized appreciation of holdings) for the six months ended April 30, 2008 was \$144.1 million compared to \$96.9 million for the same period in 2007. Virtually all of the net income for the six month period was due to unrealized appreciation of holdings. Certain expenses, such as administration fees which are scaled, have varied in proportion to net asset levels or, in the case of stock exchange fees, with market capitalization based on the number of Class A shares issued. Safekeeping fees and bullion insurance costs increased, reflecting the higher prices of gold and silver bullion and increased bullion holdings. Administration fees increased to \$1,598,563 from \$1,254,330 for the six months based on the increased assets under administration.

Expenses as a percentage of average month-end net assets for the six-month period ended April 30, 2008 were 0.20%, compared to 0.22% for the same six-month period in 2007. For the twelve months ended April 30, 2008, this expense ratio was 0.41% compared to 0.45% for the prior twelve-month period.

Central Fund of Canada Limited operates as a specialized investment holding company which invests primarily in long-term holdings of allocated, segregated and unencumbered gold and silver bullion and does not actively speculate with regard to short-term changes in gold and silver prices. At April 30, 2008, the Class A shares of Central Fund were backed 98% by gold and silver bullion and may be purchased or sold with ease on either the American Stock Exchange (CEF) or The Toronto Stock Exchange (CEF.A in Canadian dollars and CEF.U in U.S. dollars).
