Special Value Continuation Fund, LLC (the “Company”) files a schedule of its investment in Special Value Continuation Partners, LP (the “Partnership”) with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. Investments listed in the Consolidated Statement of Investments are held by the Partnership, which also files its complete schedule of portfolio holdings with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. The Forms N-Q of the Company and the Partnership are available on the SEC’s website at <http://www.sec.gov>. The Forms N-Q of the Company and the Partnership may also be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

A free copy of the proxy voting guidelines of the Company and the Partnership and information regarding how the Company and the Partnership voted proxies relating to portfolio investments during the most recent twelve-month period may be obtained without charge on the SEC’s website at <http://www.sec.gov> or by calling the advisor of the Company and the Partnership, Tennenbaum Capital Partners, LLC, at (310) 566-1000. Collect calls for this purpose are accepted.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Performance Summary

Fund Inception (July 31, 2006) through March 31, 2009

Fund Returns v. Merrill Lynch US High Yield and S&P 500 Indices

	Return on Equity (1)				IRR (2)
	2006*	2007	2008	2009**	Inception-to-Date Annualized
Special Value Continuation Fund	8.2%	9.2%	-48.8%	-13.4%	-17.8%
Merrill Lynch US High Yield Index	7.3%	2.2%	-26.2%	5.3%	-5.9%
S&P 500 Total Return Index	12.0%	5.5%	-37.0%	-11.0%	-14.3%

\* Period from inception (July 31, 2006) through December 31, 2006

\*\* Year to date

Past performance of Special Value Continuation Fund, LLC (the "Company") is not a guarantee of future performance. Company returns are net of dividends to preferred shareholders, performance allocations and Company expenses, including financing costs and management fees.

(1) Return on equity (net of dividends to preferred shareholders, performance allocations and Company expenses, including financing costs and management fees) calculated on a monthly geometrically liked, time-weighted basis. Returns are reduced in earlier periods because organizational costs and other expenses are high relative to assets.

(2) Internal rate of return ("IRR") is the imputed annual return over an investment period and, mathematically, is the rate of return at which the discounted cash flows equal the initial outlays. The IRR presented assumes a liquidation of the Company at net asset value as of the period end date.

Statement of Investments (Continued) (Unaudited)

March 31, 2009

Notes to Statement of Investments:

- (1) Investments in bank debt generally are bought and sold among institutional investors in transactions not subject to registration under the Securities Act of 1933. Such transactions are generally subject to contractual restrictions, such as approval of the agent or borrower.
- (2) Affiliated issuer - as defined under the Investment Company Act of 1940 (ownership of 5% or more of the outstanding voting securities of this issuer).
- (3) Non-income producing security.
- (4) Priced by an independent third party pricing service.
- (5) Restricted security.
- (6) Investment is not a controlling position.
- (7) The Company's advisor may demand registration at any time more than 180 days following the first initial public offering of common equity by the issuer.
- (8) Priced by Investment Manager.
- (9) Principal amount denominated in euros. Amortized cost and fair value converted from euros to US dollars.
- (10) Issuer is a controlled company.
- (11) Includes investments with an aggregate market value of \$6,098,881 that have been segregated to collateralize certain unfunded commitments.
- (12) Priced using the closing price per Pink Sheets.
- (13) The Company may demand registration of the shares as part of a majority (by interest) of the holders of the registrable shares of the issuer, or in connection with an initial public offering by the issuer.

Aggregate purchases and aggregate sales of investments, other than Government securities, totaled \$11,081,489 and \$28,592,539 respectively.

Aggregate purchases includes investment assets received as payment in-kind. Aggregate sales includes principal paydowns on debt investments.

The total value of restricted securities and bank debt as of March 31, 2009 was \$280,750,672, or 83.3% of total cash and investments of the Company.

Swaps at March 31, 2009 were as follows:

Instrument	Notional Amount	Fair Value
Euro/US Dollar Cross Currency Basis Swap, Pay Euros/Receive USD, Expires 5/16/14	\$ 12,081,888	\$ (35,925)

See accompanying notes.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited)

March 31, 2009

1. Organization and Nature of Operations

Special Value Continuation Fund, LLC (the “Company”), a Delaware Limited Liability Company, is registered as a nondiversified, closed-end management investment company under the Investment Company Act of 1940 (the “1940 Act”). The Company was established for the purpose of enabling qualified investors to participate indirectly in the investment objectives of Special Value Continuation Partners, LP, a Delaware Limited Partnership (the “Partnership”), of which the Company owns 100% of the common limited partner interests. The Partnership is also registered as a nondiversified, closed-end management investment company under the 1940 Act. The Partnership was formed to acquire a portfolio of investments consisting primarily of bank loans, distressed debt, stressed high yield debt, mezzanine investments and public equities. The stated objective of the Company is to achieve high total returns while minimizing losses.

The Company has elected to be treated as a regulated investment company (“RIC”) for U.S. federal income tax purposes. As a RIC, the Company will not be taxed on its income to the extent that it distributes such income each year and satisfies other applicable income tax requirements. The Partnership has elected to be treated as a partnership for U.S. federal income tax purposes. Investment operations commenced and initial funding was received on July 31, 2006.

These consolidated financial statements include the accounts of the Company and the Partnership. All significant intercompany transactions and balances have been eliminated in the consolidation.

The General Partner of the Partnership is SVOF/MM, LLC (“SVOF/MM”). The managing member of SVOF/MM is Tennenbaum Capital Partners, LLC (“TCP”), which serves as the Investment Manager of both the Company and the Partnership. Babson Capital Management LLC serves as Co-Manager of both the Company and the Partnership. Substantially all of the equity interests in the General Partner are owned directly or indirectly by TCP, Babson Capital Management LLC and employees of TCP. The Company, the Partnership, TCP, SVOF/MM and their members and affiliates may be considered related parties.

Company management consists of the Investment Manager and the Board of Directors. Partnership management consists of the General Partner and the Board of Directors. The Investment Manager and the General Partner direct and execute the day-to-day operations of the Company and the Partnership, respectively, subject to oversight from the respective Board of Directors, which sets the broad policies of the Company and performs certain functions required by the 1940 Act in the case of the Partnership. The Board of Directors of the Partnership has delegated investment management of the Partnership’s assets to the Investment Manager and the Co-Manager. Each Board of

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

1. Organization and Nature of Operations (continued)

Directors consist of three persons, two of whom are independent. If the Company has preferred limited partner interests outstanding, as it currently does, the holders of the preferred limited partner interests voting separately as a class will be entitled to elect two of the Directors. The remaining directors will be subject to election by holders of the common shares and preferred limited interests voting together as a single class.

Company Structure

Total capitalization of the consolidated Company is approximately \$678.8 million, consisting of approximately \$419.0 million of initial contributed common equity, an approximately \$9.8 million initial general partner interest (the "GP Interest") in the Partnership held by SVOF/MM, \$134 million of preferred limited partner interests in the Partnership (the "Series A Preferred"), \$116 million under a senior secured revolving credit facility (the "Senior Facility") held by the Partnership and \$23,500 in Series Z preferred shares of the Company. The GP Interest in the Partnership is shown as a minority interest in these consolidated financial statements. The contributed common equity, GP Interest, preferred limited interests and the amount drawn under the Senior Facility are used to purchase Partnership investments and to pay certain fees and expenses of the Partnership and the Company. Most of these investments are included in the collateral for the Senior Facility.

The Company will liquidate and distribute its assets and will be dissolved on June 30, 2016, subject to up to two one-year extensions if requested by the Investment Manager and approved by the outstanding common shares. The Partnership will liquidate and distribute its assets and will be dissolved on June 30, 2016, subject to up to two one-year extensions if requested by the General Partner and approved by SVCF as the holder of the common limited partner interests in the Partnership. However, the Operating Agreement and Partnership Agreement will prohibit liquidation of the Company and the Partnership, respectively, prior to June 30, 2016 if the Series A Preferred are not redeemed in full prior to such liquidation.

Preferred Equity Facility

At March 31, 2009, the Partnership had 6,700 Series A preferred limited partner interests (the "Series A Preferred") issued and outstanding with a liquidation preference of \$20,000 per interest. The Series A Preferred are redeemable at the option of the Partnership, subject to certain limitations. Additionally, under certain conditions, the Partnership may be required to either redeem certain of the Series A Preferred or repay indebtedness, at the Partnership's option. Such conditions would include a failure by the Partnership to maintain adequate collateral as required by its credit facility agreement or

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

1. Organization and Nature of Operations (continued)

by the Statement of Preferences of the Series A Preferred or a failure by the Partnership to maintain sufficient asset coverage as required by the 1940 Act. As of March 31, 2009, the Partnership was in full compliance with such requirements.

The Series A Preferred accrue dividends at an annual rate equal to LIBOR plus 0.75%, or in the case of any holders of Series A Preferred that are CP Conduits (as defined in the leveraging documents), the higher of (i) LIBOR plus 0.75% or (ii) the CP Conduit's cost of funds rate plus 0.75%, subject to certain limitations and adjustments.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). In the opinion of the Investment Manager, the consolidated financial results of the Company included herein contain all adjustments necessary to present fairly the consolidated financial position of the Company as of March 31, 2009, the consolidated results of its operations and its consolidated cash flows for the three months then ended, and the consolidated changes in net assets for the three months then ended and for the year ended December 31, 2008. The following is a summary of the significant accounting policies of the Company and the Partnership.

Investment Valuation

All of the Company's investments are generally held by the Partnership. Management values investments held by the Partnership at fair value based upon the principles and methods of valuation set forth in policies adopted by the Partnership's Board of Directors and in conformity with procedures set forth in the Senior Facility and Statement of Preferences for the Series A Preferred. Fair value is defined as the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date.

Investments listed on a recognized exchange or market quotation system, whether U.S. or foreign, are valued for financial reporting purposes as of the last business day of the reporting period using the closing price on the date of valuation. Liquid investments not listed on a recognized exchange or market quotation system are valued by an approved nationally recognized pricing service or by using bid prices on the date of valuation as supplied by approved broker-dealers.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

2. Summary of Significant Accounting Policies (continued)

Semi-liquid investments, illiquid investments, and investments for which market quotations are determined to be unreliable are valued using valuations obtained from independent third party pricing or valuation services, or are valued internally by the Investment Manager under guidelines adopted by the Board of Directors and subject to their approval.

Investments valued internally by the Investment Manager are limited to 5% of the Total Capitalization of the Partnership, as defined in the Senior Facility. Generally, to increase objectivity in valuing the Partnership's assets, the Investment Manager will utilize external measures of value, such as public markets or third-party transactions, whenever possible. The Investment Manager's valuation is not based on long-term work-out value, immediate liquidation value, nor incremental value for potential changes that may take place in the future. The values assigned to investments that are valued by the Investment Manager are based on available information and do not necessarily represent amounts that might ultimately be realized, as these amounts depend on future circumstances and cannot reasonably be determined until the individual investments are actually liquidated.

On January 1, 2008, the Company and the Partnership adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), which defines fair value, expands disclosures about fair value measurements, and establishes a hierarchy that prioritizes the inputs used to measure fair value. The adoption of FAS 157 did not have a material impact on the financial statements of the Company or the Partnership. The level category in which an investment falls is based on the lowest level input that is significant to the valuation of the investment in its entirety. At March 31, 2009, the investments of the Partnership were categorized as follows:

Level	Basis for Determining Fair Value	Aggregate Value
1	Quoted prices in active markets for identical assets	\$ 206,138
2	Other observable market inputs*	44,634,113
3	Independent third-party pricing sources that employ significant unobservable inputs	239,082,590
3	Internal valuations with significant unobservable inputs	17,456,798

\* E.g. quoted prices in inactive markets or quotes for comparable instruments

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

2. Summary of Significant Accounting Policies (continued)

Changes in investments categorized as Level 3 during the three months ended March 31, 2009 were as follows:

	Independent Third Party Valuation	Investment Manager Valuation
Beginning balance	\$ 268,078,662	\$ 48,236,979
Net realized and unrealized gains (losses)	(17,175,999)	(6,452,829)
Net acquisitions and dispositions	(14,162,126)	-
Net transfers into (out of) category	2,342,053	(24,327,352)
Ending balance	\$ 239,082,590	\$ 17,456,798
Net change in unrealized gains (losses) during the period on investments still held at period end (included in net realized and unrealized gains/losses, above)	\$ (13,045,727)	\$ (6,452,829)

Investment Transactions

The Partnership records investment transactions on the trade date, except for private transactions that have conditions to closing, which are recorded on the closing date. The cost of investments purchased is based upon the purchase price plus those professional fees which are specifically identifiable to the investment transaction. Realized gains and losses on investments are recorded based on the specific identification method, which typically allocates the highest cost inventory to the basis of investments sold.

Cash and Cash Equivalents

Cash consists of amounts held in accounts with brokerage firms and the custodian bank. Cash equivalents consist of highly liquid investments with an original maturity of three months or less. For purposes of reporting cash flows, cash consists of the cash held with brokerage firms and the custodian bank, and cash equivalents maturing within 90 days.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Partnership's policy that its custodian take possession of the underlying collateral, the fair value of which is required to exceed the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Partnership may be delayed or limited.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

2. Summary of Significant Accounting Policies (continued)

Restricted Investments

The Partnership may invest in instruments that are subject to legal or contractual restrictions on resale. These instruments generally may be resold to institutional investors in transactions exempt from registration or to the public if the securities are registered. Disposal of these investments may involve time-consuming negotiations and additional expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted investments is included at the end of the Statement of Investments. Restricted investments, including any restricted investments in affiliates, are valued in accordance with the investment valuation policies discussed above.

Foreign Investments

The Partnership may invest in instruments traded in foreign countries and denominated in foreign currencies. At March 31, 2009, the Partnership held foreign currency denominated investments with an aggregate fair value of approximately 5.7% of the Partnership's total cash and investments. Such positions were converted at the closing rate in effect at March 31, 2009 and reported in U.S. dollars. Purchases and sales of investments and income and expense items denominated in foreign currencies, when they occur, are translated into U.S. dollars on the respective dates of such transactions. The portion of gains and losses on foreign investments resulting from fluctuations in foreign currencies is included in net realized and unrealized gain or loss from investments.

Investments in foreign companies and securities of foreign governments may involve special additional risks and considerations not typically associated with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transactions clearance and settlement practices and potential future adverse political and economic developments. Moreover, investments in some foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

Derivatives

In order to mitigate certain currency exchange and interest rate risks, the Partnership has entered into several swaps and forward currency transactions. All derivatives are recognized as either assets or liabilities in the statement of assets and liabilities. The transactions entered into are accounted for using the mark-to-market method with the resulting change in fair value recognized in earnings for the current period.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

2. Summary of Significant Accounting Policies (continued)

Gains from swaps during the three months ended March 31, 2009 were included in the Statement of Operations as follows:

Instrument	Location		Gains
Cross currency basis swaps	Net change in net unrealized depreciation on investments	\$	505,805

Valuations of swap transactions at March 31, 2009 were determined as follows:

Level	Basis for Determining Fair Value		Aggregate Value
2	Other observable market inputs	\$	(35,925)

Debt Issuance Costs

Costs of approximately \$3.5 million were incurred in connection with placing the Partnership's Senior Facility. These costs were deferred and are being amortized on a straight-line basis over eight years, the estimated life of the Senior Facility. The impact of utilizing the straight-line amortization method versus the effective-interest method is not expected to be material to the operations of the Company or the Partnership.

Purchase Discounts

The majority of the Partnership's high yield and distressed debt investments are purchased at a considerable discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. GAAP requires that discounts on corporate (investment grade) bonds municipal bonds and treasury bonds be amortized using the effective-interest or constant-yield method. The process of accreting the purchase discount of a debt investment to par over the holding period results in accounting entries that increase the cost basis of the investment and record a noncash income accrual to the statement of operations. The Partnership considers it prudent to follow GAAP guidance that requires the Investment Manager to consider the collectibility of interest when making accruals. AICPA Statement of Position 93-1 discusses financial accounting and reporting for high yield debt investments for which, because of the credit risks associated with high yield and distressed debt investments, income recognition must be carefully considered and constantly evaluated for collectibility.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

2. Summary of Significant Accounting Policies (continued)

Accordingly, when accounting for purchase discounts, management recognizes discount accretion income when it is probable that such amounts will be collected and when such amounts can be estimated. A reclassification entry is recorded at disposition to reflect purchase discounts on all realized investments. For income tax purposes, the economic gain resulting from the sale of debt investments purchased at a discount is allocated between interest income and realized gains.

Income Taxes

The Company intends to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, pertaining to regulated investment companies and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes. Accordingly, no provision for income taxes is required in the consolidated financial statements. The Partnership's income or loss is reported in the partners' income tax returns. As of March 31, 2009, all tax years of the Company and the Partnership since inception remain subject to examination by federal and state tax authorities. No such examinations are currently pending.

Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States. Capital accounts within the financial statements are adjusted at year-end for permanent book and tax differences. Temporary differences are primarily attributable to differing book and tax treatments for the timing of the recognition of gains and losses on certain investment transactions and the timing of the deductibility of certain expenses, and will reverse in subsequent periods.

Cost and unrealized appreciation (depreciation) for U.S. federal income tax purposes of the investments of the Partnership at March 31, 2009 were as follows:

Unrealized appreciation	\$ 25,179,933
Unrealized depreciation	(194,461,990)
Net unrealized depreciation	\$ (169,282,057)
Cost of investments	\$ 470,625,771

Dividends to holders of the Series A Preferred are treated as ordinary income for federal tax purposes.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions to be reasonable, actual results could differ from those estimates.

3. Allocations and Distributions

Common distributions are generally based on the estimated taxable earnings of the Company, and are recorded on the ex-dividend date. Distributions to the common shareholders of the Company are generally based on distributions received from the Partnership, less any Company-level expenses and dividends to Series Z preferred shareholders.

Net income and gains of the Partnership are distributed first to the Company until it has received an 8% annual weighted-average return on its undistributed contributed equity, and then to the General Partner until it has received 20% of all cumulative income and gain distributions. 80% of all remaining net income and gain distributions are allocated to the Company, with the remaining 20% allocated to the General Partner. Net investment income or loss, realized gain or loss on investments, and appreciation or depreciation on investments for the period are allocated to the Company and the General Partner in a manner consistent with that used to determine distributions.

The timing of distributions to the Company is determined by the General Partner, which has provided the Investment Manager with certain criteria for such distributions. The timing and amount to be paid by the Company as a distribution to its shareholders is determined by its Board of Directors, which has provided the Investment Manager with criteria for such distributions. Any net long-term capital gains are distributed at least annually. As of March 31, 2009, the Company had distributed \$108,800,000 to the common shareholders since inception.

The Series Z share dividend rate is fixed at 8% per annum.

Special Value Continuation Fund, LLC  
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

4. Management Fees and Other Expenses

The Investment Manager receives an annual management and advisory fee, payable monthly in arrears, equal to 1.0% of the sum of the maximum amount of the Series A Preferred, the maximum amount available under the Senior Facility, the initial value of the contributed general partnership equity and the initial value of the contributed common equity, subject to reduction by the amount of the Senior Facility commitment when the Senior Facility is no longer outstanding, and by the amount of the Series A Preferred when less than \$1 million in liquidation value of preferred securities is outstanding. For purposes of computing the management fee, total capital during the three months ended March 31, 2009 was approximately \$678.8 million, consisting of contributed common equity of approximately \$419.0 million, contributed general partnership equity of approximately \$9.8 million, \$134 million of Series A Preferred and \$166 million of debt commitments. In addition to the management fee, the General Partner is entitled to a performance allocation as discussed in Note 3, above. As compensation for its services, the Co-Manager receives a portion of the management fees paid to the Investment Manager. The Co-Manager also receives a portion of any allocation paid to the General Partner.

The Company and the Partnership pay all respective expenses incurred in connection with the business of the Company and the Partnership, including fees and expenses of outside contracted services, such as custodian, administrative, legal, audit and tax preparation fees, costs of valuing investments, insurance costs, brokers' and finders' fees relating to investments and any other transaction costs associated with the purchase and sale of investments of the Partnership.

5. Senior Secured Revolving Credit Facility

The Partnership has entered into a credit agreement with certain lenders, which provides for a senior secured revolving credit facility (the "Senior Facility"), pursuant to which amounts may be drawn up to \$116 million. The Senior Facility matures July 31, 2014, subject to extension by the lenders at the request of the Partnership for one 12-month period.

Advances under the Senior Facility bear interest at LIBOR plus 0.375% per annum, except in the case of loans from CP Conduits, which bear interest at the higher of LIBOR plus 0.375% or the CP Conduit's cost of funds plus 0.375%, subject to certain limitations. In addition to amounts due on outstanding debt, the Senior Facility accrues commitment fees of 0.20% per annum on the unused portion of the Senior Facility, or 0.25% per annum when less than \$46,400,000 in borrowings are outstanding.

(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Unaudited) (Continued)

March 31, 2009

6. Commitments, Concentration of Credit Risk and Off-Balance Sheet Risk

The Partnership conducts business with brokers and dealers that are primarily headquartered in New York and Los Angeles and are members of the major securities exchanges. Banking activities are conducted with a firm headquartered in the New York area.

In the normal course of business, the Partnership's investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the Partnership's custodian. These activities may expose the Company and the Partnership to risk in the event such parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from counterparties with whom it conducts business.

Consistent with standard business practice, the Company and the Partnership enter into contracts that contain a variety of indemnifications. The maximum exposure of the Company and the Partnership under these arrangements is unknown. However, the Company and the Partnership expect the risk of loss to be remote.

The Consolidated Statement of Investments includes certain revolving loan facilities held by the Partnership with aggregate unfunded balances of approximately \$2.6 million at March 31, 2009. These instruments are reflected at fair value and may be drawn up to the principal amount shown.

7. Related Parties

From time to time the Partnership advances payments to third parties on behalf of the Company which are reimbursable through deductions from distributions to the Company.

8. Series Z Preferred Capital

In addition to the Series A Preferred of the Partnership described in Note 1, the Company had 47 Series Z preferred shares authorized, issued and outstanding as of March 31, 2009. The Series Z preferred shares have a liquidation preference of \$500 per share plus accumulated but unpaid dividends and pay dividends at an annual rate equal to 8% of liquidation preference. The Series Z preferred shares are redeemable at any time at the option of the Company and may only be transferred with the consent of the Company.

Annualized Inception-to-Date Performance Data as of December 31, 2008:

Return on common shareholder equity (3)	(21.4%)
Return on invested assets (2)	(9.4%)
Internal rate of return to common shareholder equity (8)	(17.8%)

- (1) Not annualized for periods of less than one year.
- (2) Return on invested assets is a time-weighted, geometrically linked rate of return and excludes cash and cash equivalents.
- (3) Returns (net of dividends on the preferred equity facility, allocations to General Partner and fund expenses, including financing costs and management fees) are calculated on a monthly geometrically linked, time-weighted basis.
- (4) Annualized for periods of less than one year.
- (5) Net of income and expense allocation to the minority interestholder.
- (6) These ratios include interest expense but do not reflect the effect of dividends on the preferred equity facility.
- (7) Excludes securities acquired from Special Value Bond Fund II, LLC and Special Value Absolute Return Fund, LLC at the inception of the Company and the Partnership.
- (8) Net of dividends on the preferred equity facility of the Partnership, allocation to General Partner, and fund expenses, including financing costs and management fees. Internal rate of return (“IRR”) is the imputed annual return over an investment period and, mathematically, is the rate of return at which the discounted cash flows equal the initial cash outlays. The internal rate of return presented assumes liquidation of the fund at net asset value as of the balance sheet date, and is reduced by the organizational costs that were expensed at the inception of the Company.
