Report of Independent Registered Public Accounting Firm

The Shareholders and Board of Directors of
Special Value Continuation Fund, LLC

We have audited the accompanying consolidated statement of assets and liabilities of Special Value Continuation Fund, LLC (a Delaware Limited Liability Company) (the Company), including the consolidated statement of investments, as of December 31, 2009, and the related consolidated statements of operations and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included verification by examination of securities held by the custodian as of December 31, 2009, and confirmation of securities not held by the custodian by correspondence with others or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the consolidated financial position of Special Value Continuation Fund, LLC at December 31, 2009, the consolidated results of its operations and its cash flows for the year then ended, the consolidated changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated, in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Financial Statements

December 31, 2009

1. Organization and Nature of Operations

Special Value Continuation Fund, LLC (the “Company”), a Delaware Limited Liability Company, is registered as a nondiversified, closed-end management investment company under the Investment Company Act of 1940 (the “1940 Act”). The Company was established for the purpose of enabling qualified investors to participate indirectly in the investment objectives of Special Value Continuation Partners, LP, a Delaware Limited Partnership (the “Partnership”), of which the Company owns 100% of the common limited partner interests. The Partnership is also registered as a nondiversified, closed-end management investment company under the 1940 Act. The Partnership was formed to acquire a portfolio of investments consisting primarily of bank loans, distressed debt, stressed high yield debt, mezzanine investments and public equities. The stated objective of the Company is to achieve high total returns while minimizing losses.

The Company has elected to be treated as a regulated investment company (“RIC”) for U.S. federal income tax purposes. As a RIC, the Company will not be taxed on its income to the extent that it distributes such income each year and satisfies other applicable income tax requirements. The Partnership has elected to be treated as a partnership for U.S. federal income tax purposes. Investment operations commenced and initial funding was received on July 31, 2006.

These consolidated financial statements include the accounts of the Company and the Partnership. All significant intercompany transactions and balances have been eliminated in the consolidation.

The General Partner of the Partnership is SVOF/MM, LLC (“SVOF/MM”). The managing member of SVOF/MM is Tennenbaum Capital Partners, LLC (“TCP”), which serves as the Investment Manager of both the Company and the Partnership. Babson Capital Management LLC serves as Co-Manager of both the Company and the Partnership. Substantially all of the equity interests in the General Partner are owned directly or indirectly by TCP, Babson Capital Management LLC and employees of TCP. The Company, the Partnership, TCP, SVOF/MM and their members and affiliates may be considered related parties.

Company management consists of the Investment Manager and the Board of Directors. Partnership management consists of the General Partner and the Board of Directors. The Investment Manager and the General Partner direct and execute the day-to-day operations of the Company and the Partnership, respectively, subject to oversight from the respective Board of Directors, which sets the broad policies of the Company and performs certain functions required by the 1940 Act in the case of the Partnership. The Board of Directors of the Partnership has delegated investment management of the Partnership’s assets to the Investment Manager and the Co-Manager. Each Board of Directors consists of three persons, two of whom are independent. If the Company or the Partnership has preferred equity interests outstanding, as each currently does, the holders of the preferred interests voting separately as a class will be entitled to elect two of the Directors. The remaining directors will be subject to election by holders of the common shares and preferred interests voting together as a single class.

1. Organization and Nature of Operations (continued)

Company Structure

Total capitalization of the consolidated Company is approximately \$678.8 million, consisting of approximately \$419.0 million of initial contributed common equity, an approximately \$9.8 million initial general partner interest (the “GP Interest”) in the Partnership held by SVOF/MM, \$134 million of preferred limited partner interests in the Partnership (the “Series A Preferred”), \$116 million under a senior secured revolving credit facility issued by the Partnership (the “Senior Facility”) and \$23,500 in Series Z preferred shares of the Company. The GP Interest in the Partnership is shown as a minority interest in these consolidated financial statements. The contributed common equity, GP Interest, preferred limited interests and the amount drawn under the Senior Facility are used to purchase Partnership investments and to pay certain fees and expenses of the Partnership and the Company. Most of the cash and investments of the Partnership are included in the collateral for the Senior Facility.

The Company will liquidate and distribute its assets and will be dissolved on June 30, 2016, subject to up to two one-year extensions if requested by the Investment Manager and approved by the outstanding common shares. The Partnership will liquidate and distribute its assets and will be dissolved on June 30, 2016, subject to up to two one-year extensions if requested by the General Partner and approved by SVCF as the holder of the common limited partner interests in the Partnership. However, the Operating Agreement and Partnership Agreement will prohibit liquidation of the Company and the Partnership, respectively, prior to June 30, 2016 if the Series A Preferred are not redeemed in full prior to such liquidation.

Preferred Equity Facility

At December 31, 2009, the Partnership had 6,700 Series A preferred limited partner interests (the “Series A Preferred”) issued and outstanding with a liquidation preference of \$20,000 per interest. The Series A Preferred are redeemable at the option of the Partnership, subject to certain conditions. Additionally, under certain conditions, the Partnership may be required to either redeem certain of the Series A Preferred or repay indebtedness, at the Partnership’s option. Such conditions would include a failure by the Partnership to maintain adequate collateral as required by its credit facility agreement or by the Statement of Preferences of the Series A Preferred or a failure by the Partnership to maintain sufficient asset coverage as required by the 1940 Act. As of December 31, 2009, the Partnership was in full compliance with such requirements.

1. Organization and Nature of Operations (continued)

The Series A Preferred accrue dividends at an annual rate equal to LIBOR plus 0.75%, or in the case of any holders of Series A Preferred that are CP Conduits (as defined in the leveraging documents), the higher of (i) LIBOR plus 0.75% or (ii) the CP Conduit's cost of funds rate plus 0.75%, subject to certain limitations and adjustments.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). In the opinion of the Investment Manager and the General Partner, the consolidated financial results of the Company included herein contain all adjustments necessary to present fairly the consolidated financial position of the Company as of December 31, 2009, the consolidated results of its operations and its consolidated cash flows for the year then ended, and the consolidated changes in net assets for each of the two years in the period then ended. Subsequent events have been evaluated through March 1, 2010, the date of issuance of the financial statements. The following is a summary of the significant accounting policies of the Company and the Partnership.

Investment Valuation

All of the Company's investments are generally held by the Partnership. Management values investments held by the Partnership at fair value based upon the principles and methods of valuation set forth in policies adopted by the Partnership's Board of Directors and in conformity with procedures set forth in the Senior Facility and Statement of Preferences for the Series A Preferred. Fair value is generally defined as the amount for which an investment could be sold in an orderly transaction between market participants at the measurement date.

Investments listed on a recognized exchange or market quotation system, whether U.S. or foreign, are valued for financial reporting purposes as of the last business day of the reporting period using the closing price on the date of valuation. Liquid investments not listed on a recognized exchange or market quotation system are priced by a nationally recognized pricing service or by using quotations from broker-dealers. Investments not priced by a pricing service or for which market quotations are either not readily available or are determined to be unreliable are valued by one or more independent valuation services or, for investments aggregating less than 5% of the total capitalization of the Partnership, by the Investment Manager.

Special Value Continuation Fund, LLC
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Continued)

December 31, 2009

2. Summary of Significant Accounting Policies (continued)

Fair valuations of investments are determined under guidelines adopted by the Partnership's Board of Directors, and are subject to their approval. Generally, to increase objectivity in valuing the Partnership's investments, the Investment Manager will utilize external measures of value, such as public markets or third-party transactions, whenever possible. The Investment Manager's valuation is not based on long-term work-out value, immediate liquidation value, nor incremental value for potential changes that may take place in the future. The values assigned to investments that are valued by the Investment Manager are based on available information and do not necessarily represent amounts that might ultimately be realized, as these amounts depend on future circumstances and cannot reasonably be determined until the individual investments are actually liquidated. The foregoing policies apply to all investments, including those in companies and groups of affiliated companies aggregating more than 5% of the Company's assets.

Investments of the Partnership may be categorized based on the types of inputs used in valuing such investments. The level in the GAAP valuation hierarchy in which an investment falls is based on the lowest level input that is significant to the valuation of the investment in its entirety. At December 31, 2009, the investments of the Partnership were categorized as follows:

Level	Basis for Determining Fair Value	Bank Debt	Other Corporate Debt	Equity Securities
1	Quoted prices in active markets for identical assets	\$ -	\$ -	\$ 5,640,187
2	Other observable market inputs*	28,886,079	49,230,176	23,103,253

Investment Transactions

The Partnership records investment transactions on the trade date, except for private transactions that have conditions to closing, which are recorded on the closing date. The cost of investments purchased is based upon the purchase price plus those professional fees which are specifically identifiable to the investment transaction. Realized gains and losses on investments are recorded based on the specific identification method, which typically allocates the highest cost inventory to the basis of investments sold.

Special Value Continuation Fund, LLC
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Continued)

December 31, 2009

2. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash consists of amounts held in accounts with brokerage firms and the custodian bank. Cash equivalents consist of highly liquid investments with an original maturity of three months or less. For purposes of reporting cash flows, cash consists of the cash held with brokerage firms and the custodian bank, and cash equivalents maturing within 90 days.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Partnership's policy that its custodian take possession of the underlying collateral, the fair value of which is required to exceed the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Partnership may be delayed or limited.

Restricted Investments

The Partnership may invest without limitation in instruments that are subject to legal or contractual restrictions on resale. These instruments generally may be resold to institutional investors in transactions exempt from registration or to the public if the securities are registered. Disposal of these investments may involve time-consuming negotiations and additional expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted investments is included at the end of the Statement of Investments. Restricted investments, including any restricted investments in affiliates, are valued in accordance with the investment valuation policies discussed above.

Foreign Investments

The Partnership may invest in instruments traded in foreign countries and denominated in foreign currencies. At December 31, 2009, the Partnership held foreign currency denominated investments comprising approximately 6.1% of the Partnership's total investments. Such positions were converted at the closing rate in effect at December 31, 2009 and reported in U.S. dollars. Purchases and sales of investments and income and expense items denominated in foreign currencies, when they occur, are translated into U.S. dollars on the respective dates of such transactions. The portion of gains and losses on foreign investments resulting from fluctuations in foreign currencies is included in net realized and unrealized gain or loss from investments.

Special Value Continuation Fund, LLC
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Continued)

December 31, 2009

2. Summary of Significant Accounting Policies (continued)

Investments in foreign companies and securities of foreign governments may involve special risks and considerations not typically associated with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transactions clearance and settlement practices and potential future adverse political and economic developments. Moreover, investments in foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

Derivatives

In order to mitigate certain currency exchange and interest rate risks, the Partnership has entered into several swap transactions. All derivatives are recognized as either assets or liabilities in the statement of assets and liabilities. The transactions entered into are accounted for using the mark-to-market method with the resulting change in fair value recognized in earnings for the current period. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in interest rates and the value of foreign currency relative to the U.S. dollar.

Gains and losses from derivative transactions during the year ended December 31, 2009 were included in net realized and unrealized gain on investments in the Statement of Operations as follows:

Derivative	Realized	Unrealized
Cross currency basis swaps	\$ (595,612)	\$ 167,330

Valuations of swap transactions at December 31, 2009 were determined as follows:

Level	Basis for Determining Fair Value	Aggregate Value
2	Other observable market inputs	\$ (374,400)

Debt Issuance Costs

Costs of approximately \$3.5 million were incurred in connection with placing the Partnership's Senior Facility. These costs were deferred and are being amortized on a straight-line basis over eight years, the estimated life of the Senior Facility. The impact of utilizing the straight-line amortization method versus the effective-interest method is not expected to be material to the operations of the Company or the Partnership.

Special Value Continuation Fund, LLC
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Continued)

December 31, 2009

2. Summary of Significant Accounting Policies (continued)

Purchase Discounts

The majority of the Partnership's high yield and distressed debt investments are purchased at a considerable discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. GAAP generally requires that discounts on the acquisition of corporate (investment grade) bonds municipal bonds and treasury bonds be amortized using the effective-interest or constant-yield method. However, GAAP also requires the Partnership to consider the collectibility of interest when making accruals.

Accordingly, when accounting for purchase discounts, the Partnership recognizes discount accretion income when it is probable that such amounts will be collected and when such amounts can be estimated.

Income Taxes

The Company intends to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, pertaining to regulated investment companies and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes. Accordingly, no provision for income taxes is required in the consolidated financial statements. The Partnership's income or loss is reported in the partners' income tax returns. As of December 31, 2009, all tax years of the Company and the Partnership since inception remain subject to examination by federal and state tax authorities. No such examinations are currently pending.

Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States. Capital accounts within the financial statements are adjusted at year-end for permanent book and tax differences. At December 31, 2009, the Company reclassified \$18,533 in foreign currency losses from accumulated net realized losses to accumulated net investment income, and certain non-deductible expenses from accumulated net investment income to paid-in capital. Temporary differences are primarily attributable to differing book and tax treatments for the timing of the recognition of gains and losses on certain investment transactions and the timing of the deductibility of certain expenses, and will reverse in subsequent periods.

(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

As of December 31, 2009, the tax basis components of distributable earnings (accumulated deficit) applicable to the common shareholders of the Company and unrealized appreciation (depreciation) and cost of the investments of the Partnership were as follows:

Undistributed ordinary income	\$ 857,959
Capital loss carryforwards	(27,765,974)
Post-October capital loss deferral	(53,992,915)
Post-October currency loss deferral	(17)
Unrealized appreciation	55,822,965
Unrealized depreciation	(106,821,905)
Net unrealized depreciation	(50,998,940)
Cost of investments	393,687,507

The Company's capital loss carryforwards will be used to offset capital gains in succeeding taxable years. \$19,133,625 and \$8,632,349 of the carryforwards will expire after 2016 and 2017, respectively. Distributions and the net change in accumulated distributions to holders of the Series A Preferred are treated as distributions of ordinary income for federal tax purposes.

All distributions to common and Series Z shareholders during the years ended December 31, 2009 and 2008 were treated as distributions of ordinary income. Tax basis distributions to common shareholders during the year ended December 31, 2008 were \$14,090,563, which included a \$6,090,563 non-cash consent dividend.

Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions to be reasonable, actual results could differ from those estimates.

3. Allocations and Distributions

Common distributions are generally based on the estimated taxable earnings of the Company, and are recorded on the ex-dividend date. Distributions to the common shareholders of the Company are generally based on distributions received from the Partnership, less any Company-level expenses and dividends to Series Z preferred shareholders.

Special Value Continuation Fund, LLC
(A Delaware Limited Liability Company)

Notes to Consolidated Financial Statements (Continued)

December 31, 2009

3. Allocations and Distributions (continued)

Net income and gains of the Partnership are distributed first to the Company until it has received an 8% annual weighted-average return on its undistributed contributed equity, and then to the General Partner until it has received 20% of all cumulative income and gain distributions. 80% of all remaining net income and gain distributions are allocated to the Company, with the remaining 20% allocated to the General Partner. Net investment income or loss, realized gain or loss on investments, and appreciation or depreciation on investments for the period are allocated to the Company and the General Partner in a manner consistent with that used to determine distributions.

The timing of distributions to the Company is determined by the General Partner, which has provided the Investment Manager with certain criteria for such distributions. The timing and amount to be paid by the Company as a distribution to its shareholders is determined by its Board of Directors, which has provided the Investment Manager with criteria for such distributions. Any net long-term capital gains are distributed at least annually. As of December 31, 2009, the Company had declared \$124,000,000 in distributions to the common shareholders since inception.

The Company's Series Z share dividend rate is fixed at 8% per annum.

4. Management Fees and Other Expenses

The Investment Manager receives an annual management and advisory fee, payable monthly in arrears, equal to 1.0% of the sum of the maximum amount of the Series A Preferred, the maximum amount available under the Senior Facility, the initial value of the contributed general partnership equity and the initial value of the contributed common equity, subject to reduction by the amount of the Senior Facility commitment when the Senior Facility is no longer outstanding, and by the amount of the Series A Preferred when less than \$1 million in liquidation preference of preferred securities remains outstanding. In addition to the management fee, the General Partner is entitled to a performance allocation as discussed in Note 3, above. As compensation for its services, the Co-Manager receives a portion of the management fees paid to the Investment Manager. The Co-Manager also receives a portion of any performance allocation paid to the General Partner.

The Company and the Partnership pay all respective expenses incurred in connection with the business of the Company and the Partnership, including fees and expenses of outside contracted services, such as custodian, administrative, legal, audit and tax preparation fees, costs of valuing investments, insurance costs, brokers' and finders' fees relating to investments and any other transaction costs associated with the purchase and sale of investments of the Partnership.

5. Senior Secured Revolving Credit Facility

The Partnership has entered into a credit agreement with certain lenders, which provides for a senior secured revolving credit facility (the "Senior Facility"), pursuant to which amounts may be drawn up to \$116 million. The Senior Facility matures July 31, 2014, subject to extension by the lenders at the request of the Partnership for one 12-month period.

Advances under the Senior Facility bear interest at LIBOR plus 0.375% per annum, except in the case of loans from CP Conduits, which bear interest at the higher of LIBOR plus 0.375% or the CP Conduit's cost of funds plus 0.375%, subject to certain limitations. The weighted-average interest rate on outstanding borrowings at December 31, 2009 was 0.61%. In addition to amounts due on outstanding debt, the Senior Facility accrues commitment fees of 0.20% per annum on the unused portion of the Senior Facility, or 0.25% per annum when less than \$46,400,000 in borrowings are outstanding. The Senior Facility may be terminated, and any outstanding amounts thereunder may become due and payable, should the Partnership fail to satisfy certain financial or other covenants. As of December 31, 2009, the Partnership was in full compliance with such covenants.

6. Commitments, Concentration of Credit Risk and Off-Balance Sheet Risk

The Partnership conducts business with brokers and dealers that are primarily headquartered in New York and Los Angeles and are members of the major securities exchanges. Banking activities are conducted with a firm headquartered in the New York area.

In the normal course of business, the Partnership's investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the Partnership's custodian. These activities may expose the Company and the Partnership to risk in the event such parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from counterparties with whom it conducts business.

Consistent with standard business practice, the Company and the Partnership enter into contracts that contain a variety of indemnifications. The maximum exposure of the Company and the Partnership under these arrangements is unknown. However, the Company and the Partnership expect the risk of loss to be remote.

The Consolidated Statement of Investments includes certain revolving loan facilities held by the Partnership with aggregate unfunded balances of approximately \$16.1 million at December 31, 2009. These instruments are reflected at fair value in the Statement of Investments and may be drawn up to the principal amount shown.

7. Related Parties

From time to time the Partnership advances payments to third parties on behalf of the Company which are reimbursable through deductions from distributions to the Company.

8. Series Z Preferred Capital

In addition to the Series A Preferred of the Partnership described in Note 1, the Company had 47 Series Z preferred shares authorized, issued and outstanding as of December 31, 2009. The Series Z preferred shares have a liquidation preference of \$500 per share plus accumulated but unpaid dividends and pay dividends at an annual rate equal to 8% of liquidation preference. The Series Z preferred shares are redeemable at any time at the option of the Company and may only be transferred with the consent of the Company.

9. Financial Highlights (continued)

- (1) Not annualized for periods of less than one year.
- (2) Return on invested assets is a time-weighted, geometrically linked rate of return and excludes cash and cash equivalents.
- (3) Returns (net of dividends on the preferred equity facility, allocations to General Partner and fund expenses, including financing costs and management fees) are calculated on a monthly geometrically linked, time-weighted basis.
- (4) Annualized for periods of less than one year.
- (5) Net of income and expense allocation to the minority interestholder.
- (6) These ratios include interest expense but do not reflect the effect of dividends on the preferred equity facility.
- (7) Excludes securities acquired from Special Value Bond Fund II, LLC and Special Value Absolute Return Fund, LLC at the inception of the Company and the Partnership.
- (8) Net of dividends on the preferred equity facility of the Partnership, allocation to General Partner, and fund expenses, including financing costs and management fees. Internal rate of return ("IRR") is the imputed annual return over an investment period and, mathematically, is the rate of return at which the discounted cash flows equal the initial cash outlays. The internal rate of return presented assumes liquidation of the fund at net asset value as of the balance sheet date, and is reduced by the organizational costs that were expensed at the inception of the Company.

ITEM 2.

CODE OF ETHICS.

As of the end of the period covered by this report, the Registrant has adopted a Code of Ethics that applies to its Chief Executive Officer and Chief Financial Officer. A copy of the Code of Ethics is filed as an exhibit to this Form N-CSR.

ITEM 3.

AUDIT COMMITTEE FINANCIAL EXPERT.

As of the end of the period covered by the report, the Registrant's board of directors has determined that Franklin R. Johnson is qualified to serve as an audit committee financial expert serving on its audit committee and that he is "independent" pursuant to the general instructions on Form N-CSR Item 3.

ITEM 4.

PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Audit Fees. The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the Registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years were: \$24,775 for fiscal year 2009 and \$24,775 for fiscal year 2008.

(b) Audit-Related Fees. Not applicable.

(c) Tax Fees. The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were: \$41,800 in 2009 and \$38,000 in 2008. The services comprising such fees included tax return preparation and related tax advice and planning.

(d) All Other Fees. Not applicable.

(e) (1) Audit Committee's pre-approval policies and procedures, pursuant to Item 4 of N-CSR:

The Audit Committee pre-approves all audit, review and attest engagements required under the securities laws and regulations provided by Ernst & Young, the Registrant's independent auditors. The Audit Committee also approves all non-audit services, including tax services, provided to the Registrant by Ernst & Young and verifies, at the time of pre-approval, that such pre-approved non-audit services would not be prohibited services under securities regulations. The Audit Committee pre-approves all non-audit services provided by Ernst & Young to the Registrant's investment adviser and to affiliates of the investment adviser that provide ongoing services to the Registrant, but only if the non-audit services have a direct impact on the operations or financial reporting of the Registrant.

(e) (2) Not applicable.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the Registrant's accountant for services rendered to the Registrant, and rendered to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the Registrant for each of the last two fiscal years of the Registrant were: \$41,800 for fiscal year 2009 and \$38,000 for fiscal year 2008.

(h) The Registrant's independent auditors did not provide non-audit services to the Registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), nor any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X. Accordingly, the audit committee of the board of directors has not considered whether any such services are compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable.

ITEM 6. INVESTMENTS.

(a) Schedule of Investments. Included in Annual Shareholder Report in Item 1.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

TENNENBAUM CAPITAL PARTNERS, LLC
PROXY VOTING POLICY

This policy has been adopted by Tennenbaum Capital Partners, LLC to facilitate the voting of proxies relating to portfolio securities of clients with respect to which Tennenbaum Capital Partners, LLC or any of its affiliates that are subject to the Investment Advisers Act of 1940 (collectively "Tennenbaum") provide investment advisory services. In connection with these investment advisory services, Tennenbaum exercises voting responsibilities for its clients through its corporate proxy voting process.

Special Value Opportunities Fund, LLC, Special Value Expansion Fund, LLC, Special Value Continuation Fund, LLC, Special Value Continuation Partners, LP, Tennenbaum Opportunities Fund V, LLC, and Tennenbaum Opportunities Partners V, LP have delegated to Tennenbaum the authority to vote proxies relating to their respective portfolio securities in accordance with this policy.

This policy is intended by Tennenbaum (i) to constitute “written policies and procedures” as described in Rule 206(4)-6 under the Investment Advisers Act of 1940 (the “Advisers Act”) and (ii) to constitute proxy voting policies and procedures referred to in Item 18 of Form N-2 adopted under the Investment Company Act of 1940 (the “1940 Act”).

DEFINITIONS

“Client” means any person with whom Tennenbaum has a contract to perform discretionary investment management services and for whom Tennenbaum is authorized by the contract or required by applicable law to vote or consider voting securities held in the Client’s account.

“Compliance Officer” means the Chief Compliance Officer, Tennenbaum Capital Partners, LLC.

“Conflict of Interest” means, as to any Client, any conflict between a pecuniary interest of Tennenbaum or any of its affiliates (other than such Client, if deemed an affiliate) and the duties of Tennenbaum to the Client.

“Investment Committee” means the Investment Committee of Tennenbaum or such committee to which it shall have delegated the functions of the Investment Committee hereunder.

“Portfolio Manager” means, with respect to a Client, the particular Tennenbaum entity providing investment advisory services to such Client and the senior personnel responsible for such entity’s investment decisions.

“Proxy Voting Coordinator” means the individual appointed from time to time by Investment Committee to perform the proxy voting coordination functions described in this policy.

“Registered Fund” means any Client registered as an investment company under the 1940 Act.

“Social Issues” means any issue presented for a vote of holders of any security which is held in an account on behalf of a Client which may reasonably be interpreted as (i) unrelated in any substantial respect to the voting objective of this policy and (ii) intended to promote directly or indirectly the interests of persons who are not holders of the relevant security.

“Tennenbaum” means Tennenbaum Capital Partners, LLC and each of its affiliates that is subject to registration under the Advisers Act or is otherwise subject to the rules and regulations thereunder generally, including, specifically, Rule 206(4)-6.

“Voting Results” means the specific information described under the caption “Accumulating Voting Results.”

OBJECTIVES

This policy defines procedures for voting securities held on behalf of each Client in respect of which Tennenbaum has the discretionary authority to vote, to ensure that such securities are voted for the benefit of and in the best interest of the Client. The primary objective of voting a security in each case under this policy is to seek to enhance the value of the investment which the security represents or to reduce the potential for a decline in the value of the investment which the security represents. In appropriate cases a related objective will be to obtain or maintain influence or control over management of a company.

This policy does not prescribe specific voting requirements. Instead, this policy provides procedures for (i) assembling voting information and applying the informed expertise and judgment of Tennenbaum's personnel on a timely basis in pursuit of the above stated voting objectives and (ii) addressing conflicts of interest.

A further element of this policy is that while voting on all issues presented should be considered, voting on all issues is not required. Some issues presented for a vote of security holders are not relevant to this policy's voting objectives, or it is not reasonably possible to ascertain what effect, if any, a vote on a given issue may have on the value of an investment. Accordingly, Tennenbaum may abstain from voting or decline a vote in those cases where, in Tennenbaum's judgment (i) there is no relationship between the issue and the enhancement or preservation of an investment's value or (ii) the achievement of the Client's investment objectives are not reasonably likely to be a function of the outcome of decisions or issues presented by the vote.

Resolutions of Conflicts of Interest

It is unlikely that conflicts of interest will arise in the context of Tennenbaum's proxy voting, because Tennenbaum does not engage in investment banking, the advising of public companies or, except in cases where it exercises control, the managing of public companies.

In addition, insofar as Tennenbaum refers discretionary votes to its portfolio managers, Tennenbaum's Compliance Department monitors all relationships between portfolio managers and their immediate families, on the one hand, and issuers soliciting proxies from Tennenbaum's Clients, on the other hand. If a portfolio manager conflict is identified with respect to a given proxy vote, the Investment Committee will remove such vote from the conflicted portfolio manager and will instead consider and cast the vote, refer the vote to an independent third party or abstain from voting.

In the event a privately-placed security as to which Tennenbaum or its affiliated adviser entities negotiated more than price related terms is held by a Registered Fund and is the subject of a proxy solicitation or other voting or consent solicitation, and any unregistered fund or separate account managed by Tennenbaum or its affiliated adviser entities also owns securities of the same class as the security held by the Registered Fund that is the subject of the proxy, vote or consent, then Tennenbaum will vote such security in the same manner, at the same time and in amounts proportionate to each such entity's or account's investment in such security; provided that if Tennenbaum or its affiliated adviser entities believes that the foregoing policy is not in the best interests of a particular Client in a particular situation, Tennenbaum or its affiliated adviser entities shall be permitted to deviate from the foregoing policy only if it has (i) submitted a proposal to the boards of directors of each applicable Registered Fund explaining the basis for such deviation and (ii) received the approval of a majority of those directors of the Registered Fund who (a) during the previous two years have had no material business or professional relationship with any of the Registered Fund or any other entity or separate account managed by Tennenbaum or its affiliated adviser entities (other than as a director of the Registered Fund) and (b) have no direct or indirect financial interest in the proxy solicitation, vote or consent other than through an investment in one or more of the Registered Fund or any other entity or separate account managed by Tennenbaum or its affiliated adviser entities.

In the event that a potential material conflict of interest does arise and is not addressed by the foregoing procedures, the primary means by which Tennenbaum avoids a material conflict of interest in the voting of proxies for its clients is by casting such votes solely in the interests of its Clients and in the interests of maximizing the value of their portfolio holdings.

Proxy Voting Coordinator

The Investment Committee shall appoint a Proxy Voting Coordinator. The Proxy Voting Coordinator shall discharge the following functions in effectuating this policy:

- (i) Collecting and assembling proxy statement and other communication pertaining to proxy voting, together with proxies or other means of voting or giving voting instructions, and providing those materials to the appropriate portfolio managers to permit timely voting of proxies;
- (ii) Collecting recommendations, analysis, commentary and other information respecting subjects of proxy votes, from service providers engaged by Tennenbaum and other services specified by portfolio managers, and providing this information to the appropriate portfolio managers to permit evaluation of proxy voting issues;
- (iii) Providing to appropriate portfolio managers any specific voting instructions from Clients that are entitled to provide such instructions under the applicable investment advisory agreement;
- (iv) Collecting proxy votes or instructions from portfolio managers, and transmitting the votes or instructions to the appropriate custodians, brokers, nominees or other persons (which may include proxy voting services or agents engaged by Tennenbaum);
- (v) Accumulating Voting Results as set forth below in this policy and transmitting that information to the Compliance Officer in a timely manner; and
- (vi) Participating in the annual review of the policy function as set forth in this policy.

THE PROXY VOTING COORDINATOR MAY, WITH THE INVESTMENT COMMITTEE'S APPROVAL, DELEGATE ANY PORTION OR ALL OF ANY ONE OR MORE OF THESE FUNCTIONS TO ONE OR MORE OTHER INDIVIDUALS EMPLOYED BY TENNENBAUM. ANY PORTION OR ALL OF ANY ONE OR MORE OF THESE FUNCTIONS MAY BE PERFORMED BY SERVICE PROVIDERS ENGAGED BY TENNENBAUM.

Assembling Voting Information

The Proxy Voting Coordinator shall obtain proxy statements and other communications pertaining to proxy voting, together with proxies or other means of voting or giving voting instructions to custodians, brokers, nominees, tabulators or others in a manner to permit voting on relevant issues in a timely manner. Tennenbaum may engage service providers and other third parties to assemble this information, digest, abstract the information where necessary or desirable, and deliver it to the individuals assigned by Tennenbaum to evaluate proxy voting issues.

Portfolio Managers

The Portfolio Manager responsible for a particular Client is responsible for the timely voting (or determining not to vote in the appropriate cases) of proxies relating to the securities held on behalf of such Client in accordance with this policy. The Portfolio Manager may, to the extent not prohibited by agreement(s) setting forth its contractual obligations to such Client, and consistent with its fiduciary duties, delegate voting responsibilities to one or more other Portfolio Managers or other individuals. Portfolio managers are authorized to consider voting recommendations and other information and analysis provided by service providers (including proxy voting services) engaged by Tennenbaum.

Accumulating Voting Results

The Proxy Voting Coordinator is responsible for reporting the following information respecting the voting of each proxy to the Compliance Officer, as to each matter relating to a portfolio security held for a Client, considered at a shareholder meeting, and with respect to which the Client was entitled to vote:

- (i) The name of the issuer of the portfolio security;
- (ii) The exchange ticker symbol of the portfolio security;
- (iii) The CUSIP number for the portfolio security;
- (iv) The shareholder meeting date;
- (v) A brief identification of the matter voted on;
- (vi) Whether a vote was cast on the matter;
- (vii) How the vote was cast on the matter (e.g., for or against the proposal, or abstain, etc.);

- (viii) Whether a vote was cast for or against management.

The foregoing information must be delivered to the Compliance Officer no later than July 31, for each 12 month period ending on the preceding June 30 commencing July 31, 2004 with respect to the period ending June 30, 2004. Tennenbaum may use third party service providers to record, accumulate and deliver the foregoing information to the Compliance Officer. The Proxy Voting Coordinator may, with the Investment Committee's approval, delegate any portion or all of this function to one or more other individuals employed by Tennenbaum.

Communicating Votes

The Proxy Voting Coordinator shall communicate decisions on proxy votes to the custodian or to other persons who transmit or record votes on portfolio securities held by or for each Client in a timely manner. The Proxy Voting Coordinator may, with the Investment Committee's approval, delegate any portion or all of this function to one or more individuals employed by Tennenbaum. Tennenbaum may engage one or more service providers to facilitate timely communication of proxy votes. Tennenbaum is not responsible for voting proxies that are not forwarded on a timely basis. Tennenbaum does not control the setting of record dates, shareholder meeting dates or the timing of distribution of proxy materials and ballots relating to shareholder votes as a general matter.

Record of Voting Delegation

The Compliance Officer shall maintain a list of all Clients with a specification as to each Client whether or not Tennenbaum is authorized to vote proxies respecting the Client's portfolio securities.

Annual Review of Policy Function

The Compliance Officer shall conduct a periodic review, no less often than annually, which shall comprise the following elements:

- (i) Review samples of the record of voting delegation maintained by the Compliance Officer against Voting Results to determine if Tennenbaum is exercising its authority to vote proxies on portfolio securities held on behalf of the selected Clients;
- (ii) Request and review voting data to determine if timely communication of proxy votes is reasonably accomplished during the relevant period;
- (iii) Meet with the Proxy Voting Coordinator to review the voting of proxies, communication of proxy votes, accumulation of Voting Results and the general functioning of this policy; and
- (iv) Prepare a written report to the Investment Committee respecting the foregoing items and, if requested to do so by the Investment Committee, prepare a written report to the board of any Registered Fund.

Disclosure and Comments on Voting

Tennenbaum will provide a copy of these policies and procedures to Clients upon request. Clients may also obtain information on how portfolio securities held on their behalf were voted by written request and addressed to Tennenbaum, Proxy Voting Coordinator. It is the policy of Tennenbaum not to comment on specific proxy votes with respect to securities held for a Client in response to inquiries from persons who are not specifically or authorized representative of such Client. The Investment Committee may authorize comments in specific cases, in its discretion.

Joining Insurgent or Voting Committees

It is the policy of Tennenbaum, for itself and its Clients, not to join any insurgent or voting committee or similar group unless doing so is consistent with the Client's investment objective. The Investment Committee may, in other circumstances, approve participation in any such committee or group in its discretion, and shall advise the authorized representative of the Client of any such action.

Social Issues

It is the presumption of this policy that proxies shall not be voted on Social Issues, unless the advisory agreement with the Client provides otherwise. The Investment Committee may approve voting of any security held on behalf of a Client on any Social Issue.

Recordkeeping

The Compliance Officer shall maintain the following records:

- (i) Copies of this policy as from time to time revised or supplemented;
 - (ii) A copy of each proxy statement that Tennenbaum receives regarding Client securities;
 - (iii) Voting Results for each Client;
 - (iv) A copy of any document created by Tennenbaum that was material to making a decision on how to vote proxies on behalf of a Client;
 - (v) A copy of each written Client's request for information on how Tennenbaum voted proxies on behalf of the Client and Tennenbaum's response thereto;
 - (vi) Communications to Client respecting Conflicts of Interest; and
 - (vii) All written reports arising from annual reviews of policy function.
-

The Compliance Officer shall maintain and preserve in his office the foregoing records for a period of not less than five years from the end of Tennenbaum' fiscal year during which the last entry was made on the record the first two years in an appropriate office of Tennenbaum. The Compliance Officer may use the Securities and Exchange Commission's EDGAR database for the items referred to in item (ii) above, and the Investment Committee may authorize the Compliance Officer to engage one or more service providers to perform any portion of this recordkeeping function provided (1) the function is performed in compliance with applicable governmental regulations and (2) each service provider provides a written undertaking to furnish the records to Tennenbaum promptly upon request.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT COMPANIES.

(a) (1) The five persons with the most significant responsibility for the day-to-day management of the Registrant's portfolio are Mark K. Holdsworth, Michael E. Leitner, Howard M. Levkowitz, Richard E. Spencer II, and Michael E. Tennenbaum (together, the "Portfolio Managers"). The titles, business experience, and length of service of Messrs. Holdsworth, Leitner, Levkowitz, and Tennenbaum (together, the "TCP Portfolio Managers") are included in the "Directors and Officers" section of the Annual Shareholder Report in Item 1. The title, business experience, and length of service of Mr. Spencer is as follows:

Mr. Spencer is a Managing Director of Babson Capital Management LLC ("Babson"), the registrant's co-manager, and is a voting member of the Investment Committee of Tennenbaum Capital Partners, LLC (the "Investment Manager") as a representative of Babson. Mr. Spencer joined MassMutual, of which Babson is a subsidiary, in 1989. He holds a B.A. in Economics and History from Bucknell University and an M.B.A. from the State University of New York at Buffalo. Mr. Spencer is co-head of the Mezzanine Private Equity Group within Babson and is responsible for the origination, analysis and portfolio management of mezzanine and private equity investments. He is Vice President of MassMutual Corporate Investors, MassMutual Participation Investors and Manager of Mezzco LLC, Mezzco II LLC and Mezzco III LLC, the General Partners of Tower Square Capital Partners, L.P., Tower Square Capital Partners II, L.P. and Tower Square Capital Partners III, L.P., respectively. Mr. Spencer was transferred from MassMutual Life's Investment Management Department to Babson on January 1, 2000. He is a CFA.

(a) (2) Each of the Portfolio Managers is also primarily responsible for the day-to-day management of the portfolios of seven other accounts (the "Other TCP Accounts") managed by the Investment Manager, comprised of five other registered investment companies with combined assets of \$3,061.2 million (including one registered investment company with assets of \$462.7 million that is consolidated with the Registrant) and two other pooled investment vehicles with combined assets of approximately \$17.4 million, each as of December 31, 2009, except that Mr. Spencer is not primarily responsible for the day-to-day management of one of the aforementioned registered investment companies with assets of \$370.6 million, and one of the aforementioned other pooled investment vehicles with assets of approximately \$5.9 million, each as of December 31, 2009. The advisory compensation of each of these accounts is based in part on the performance of the account during periods where such account meets minimum performance requirements.

Mr. Spencer also has primary responsibility for the day-to-day management of other Babson advisory accounts (together, the "Babson Accounts"), including two registered investment companies with combined assets of approximately \$374.7 million and five other pooled investment vehicles with combined assets of approximately \$1.3 billion, each as of December 31, 2009. The advisory fee of each of the five aforementioned Babson Accounts that are other pooled investment vehicles is based in part on the performance of the account.

Material conflicts of interest that may arise in connection with the Portfolio Managers' management of the Registrant's investments, on the one hand, and the investments of the Other TCP Accounts, on the other, include the following:

The Other TCP Accounts generally invest in assets eligible for purchase by the Registrant. The investment policies, fee arrangements and other circumstances of the Registrant may vary from those of the Other TCP Accounts. Accordingly, conflicts may arise regarding the allocation of investments or opportunities among the Registrant and the Other TCP Accounts. In general, and except with respect to any of the Other TCP Accounts that are being wound down or are feeder funds of one of the Other TCP Accounts, the Investment Manager and its affiliates will allocate investment opportunities pro rata among the Registrant and the Other TCP Accounts (assuming the investment satisfies the objectives of each) based on the amount of funds each then has available for such investment and under management by the Investment Manager and its affiliates. Investment opportunities in privately placed securities are subject to allocation procedures adopted by the Board of Directors and the terms of the co-investment exemptive order obtained for the Registrant. In certain cases, investment opportunities may be made other than on a pro rata basis. For example, the Investment Manager may determine that it is appropriate for the Registrant to retain an asset at the same time that one or more of the Other Accounts sells it. The Investment Manager and its affiliates intend to allocate investment opportunities to the Registrant and the Other TCP Accounts in a manner that they believe in their judgment and based upon their fiduciary duties to be appropriate given the investment objectives, size of transaction, investable assets, alternative investments potentially available, prior allocations, liquidity, maturity, expected holding period, diversification, lender covenants and other limitations of the Registrant and the Other TCP Accounts. All of the foregoing procedures could in certain circumstances affect adversely the price paid or received by the Registrant or the availability or size of a particular investment purchased or sold by the Registrant.

(a) (3) Each of the TCP Portfolio Managers except Mr. Tennenbaum receives a fixed salary from the Investment Manager. Additionally, each of the TCP Portfolio Managers receives fixed periodic distributions from the Investment Manager. Further, each of the TCP Portfolio Managers receives periodic pro rata distributions of any profits of the Investment Manager based on his equity interest therein. Such distributions include performance fees paid to the Investment Manager by the other registered investment companies that pay performance fees. Performance allocations from the other registered investment companies that are limited partnerships (the “LPs”) are paid to the general partner of the LPs (the “General Partner”). Performance allocations from the other pooled investment vehicles are paid to the managing member of each such vehicle (together, the “Managing Members”). Each of the TCP Portfolio Managers receives periodic pro rata distributions of any profits of the Managing Members and the General Partner, based on his equity interests therein. Mr. Leitner does not currently have equity interests in the Managing Members. Mr. Tennenbaum receives all distributions from the Investment Manager, the Managing Members, and the General Partner through Tennenbaum & Co., LLC (“TCO”), which holds Mr. Tennenbaum’s equity interest in such entities. Mr. Tennenbaum is the managing member of TCO. Each of the TCP Portfolio Managers is also eligible for a discretionary bonus paid by the Investment Manager based on an assessment by the Investment Manager of the TCP Portfolio Manager’s relative contribution to the Investment Manager’s overall activities. TCO may be reimbursed by the Investment Manager, the Registrant, and/or one or more of the Other TCP Accounts for the reasonable business use of a private aircraft. The Investment Manager pays a monthly rental fee to TCO for the use of certain personal property items.

Mr. Spencer is compensated by Babson for his services. His compensation package is comprised of a market-driven base salary, a performance-driven annual bonus, and discretionary long-term incentives. The performance-driven bonus is based on the performance of the Babson Accounts relative to appropriate benchmarks, including with respect to the Barclays Capital Intermediate U.S. Credit and the S & P Industrial Index, in addition to the Russell 2000 Index and Barclays Capital U.S. Corporate High Yield Index. Performance of the Babson Accounts are evaluated on a pre-tax basis, and are reviewed over one and three-year periods, with greater emphasis given to the latter. There are other factors that affect bonus awards to a lesser extent, such as client satisfaction, teamwork, the assets under management, and the overall success of Babson. Such factors are considered as a part of the overall annual bonus evaluation process by the management of Babson. Long-term incentives are designed to share with participants the longer-term value created in Babson. Long-term incentives may take the form of deferred cash awards (including deferred cash awards that provide Mr. Spencer with the economic equivalent of a “shareholder” interest in the firm by linking the value of the award to a formula which ties to the value of the business), and/or a deferred cash award or a direct profit sharing interest that results in Mr. Spencer receiving amounts based on the amount of the performance fee paid by such fund. These long-term incentives vest over time and are granted annually, based upon the same criteria used to determine the performance-driven annual bonus detailed above. Because Mr. Spencer is responsible for multiple accounts, he is compensated on the overall performance of the accounts that he manages, rather than a specific account, except for the portion of compensation relating to any performance fee award. Mr. Spencer also receives a percentage of the performance compensation Babson receives for its services to the registered investment companies that are managed by the Investment Manager and co-managed by Babson.

(b) (4) The dollar range of equity securities in the Registrant beneficially owned by each of the Portfolio Managers at December 31, 2009 is as follows:
