**ITEM 8.01 – Other Events**

Dishon Disposal (“Dishon”), a wholly owned subsidiary of HD Energy Services, Inc., the new name of Digerati Technologies, Inc. effective on the date specified in the SEC Form PRE-14C already filed on November 29, 2012, was notified on December 3, 2012 by the North Dakota Department of Health that Dishon was issued a permit for a Solid Waste Management Facility granted on November 29, 2012.

The permit is for the expansion of the existing Dishon special waste disposal site, expanding the site to be able to accept another 607,000 cubic yards of solid waste. It is one (1) of only three (3) sites in the state of North Dakota, used in support of the oil & gas exploration and drilling of the Bakken Formation. This permit, which has extensive provisions, provides for expanded operations at the current Dishon site, which allows revenue increases for the Dishon subsidiary.

Although HD Energy Services, Inc. has not concluded its PCAOB audit required within a timely fashion and to be filed in an SEC mandated Form 8K, the company believes that this permit is a significant event affecting the company’s ability to significantly increase revenue in coming financial periods.

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
