Note 1 - Nature of Operations and Continuance of Business

The unaudited interim financial statements included herein have been prepared by Soul and Vibe Interactive Inc. (“**SVI**”) and its wholly owned subsidiary Soul and Vibe Entertainment, Inc., a Nevada corporation (“**Soul**,” and collectively with SVI, the “**Company**”) in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (the “**SEC**”). These interim financial statements should be read in conjunction with the audited financial statements and notes thereto included in our Form 10-K for the year ended December 31, 2012, as filed with the SEC. We believe that all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein and that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year as reported in Form 10-K have been omitted.

Note 2 - Going Concern

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Through March 31, 2013, the Company had incurred cumulative losses of \$307,169 since inception. Additionally, the Company has accumulated significant losses, has negative working capital, and a deficit in stockholders' equity. All of these items raise substantial doubt about its ability to continue as a going concern. In view of the matters described in the preceding paragraph, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital and generate revenues from its operations. The financial statements include any adjustments relating to the discontinued operations of the previous company but do not include classification of recorded asset amounts or amounts and classification of liabilities that might be necessary, should the Company be unable to continue as a going concern.

Management has taken the following steps to revise its operating and financial requirements, which it believes are sufficient to provide the Company with the ability to continue as a going concern. Management devoted considerable effort during the period ended March 31, 2013, towards (i) obtaining additional equity financing and (ii) evaluation of its distribution and marketing methods.

Management's plans with respect to alleviating the adverse financial conditions that caused the Company's independent auditors to express substantial doubt about the Company's ability to continue as a going concern are as follows:

Management requires \$2.5M to \$3M in capitalization in order to begin execution of its business plan and to continue operations. This capital will be utilized over a twelve-month period. The capitalization will cover the acquisition of pick-ups (depending on the value of the capitalization, also the development of a proprietary IP product) along with the release of the games as well as the marketing and PR expenses associated with bringing them to market on a variety of hardware platforms that include: video game consoles, mobile devices and personal computers. The anticipated number of pick-ups is two. The capitalization will also cover general and administrative expenses, operational expenses and will allow the Company to secure an initial number of premium full-time employees. The Company is currently evaluating capitalization opportunities that are compatible with its growth plans and business model. Additional capitalization (beyond the identified \$2.5m to \$3M; cumulatively of \$5M) will allow the Company to pursue development of multiple projects "from scratch" and publish them in a "staggered" release, as per its current three-year business plan.

Note 3 - Notes Payable - Related Party

On numerous dates from January 5, 2011 through December 31, 2012, the Company received unsecured loans from the Company's former president bearing interest at 8% and due on demand. On March 26, 2013, the Company entered into an Exchange Agreement with the former president whereby these notes totaling \$29,813 and accrued interest on the related notes payable totaling \$3,646 were assumed by the former president in exchange for inventories from discontinued operations. As a result of the Exchange Agreement, the Company recognized a \$0 balance for this related party note as of March 31, 2013.

As of March 31, 2013, the Company had a loan payable to an officer of the Company in the amount of \$58,600. This loan was established pursuant to an agreement dated July 14, 2011, as amended on December 31, 2012. The loan is unsecured, is due on demand, and bears interest at 3.5% per annum.

Note 4 - Notes Payable

On numerous dates from January 5, 2011 through December 31, 2012, the Company received unsecured notes totaling \$15,074 bearing interest at 8% and due on demand. Accrued interest related to these loans totaled \$892. On March 26, 2013, the Company entered into an Exchange Agreement with this note holder wherein these notes assumed by the note holder in exchange of inventories from discontinued operations. As a result of the Exchange Agreement, the Company recognized a \$0 balance for this related party note as of March 31, 2013.

Note 5 – Share Exchange Agreement

On February 5, 2013, SVI entered into a Share Exchange Agreement (the “**Agreement**”) with Soul and the sole shareholder of Soul (the “**Shareholder**”), all related parties. Pursuant to the Agreement, Soul became a wholly owned subsidiary of the Company (the “**Exchange**”). As consideration for the Exchange, the Shareholder exchanged an aggregate of 18,000,000 shares of common stock of Soul, constituting all shares of capital stock of Soul issued and outstanding (the “**Soul Shares**”) for an aggregate of 37,000,000 shares of the Company’s common stock (the “**Common Stock**”). The Agreement contains customary terms and conditions for a transaction of this type, including representations, warranties and covenants, as well as provisions describing the consideration exchanged, the process of exchanging the consideration and the effect of the Exchange.

The Exchange was deemed to be an acquisition of a related party entity in accordance with Accounting Standards Codification (“ASC”) 850, *Business Combinations*. As such, the Company did not recognize any step-up fair value basis in the assets or liabilities of Soul from the Exchange, which were recorded in the consolidated financial statements at their historical carrying amounts.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that

they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on the issuance of debt and equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund planned acquisitions and exploration activities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of disclosure controls and procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined) in Exchange Act Rules 13a – 15(c) and 15d – 15(e)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”) is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our principal executive officer and principal financial officer does not expect that our disclosure controls will prevent all error and all fraud. Although our disclosure controls and procedures were designed to provide reasonable assurance of achieving their objectives and our principal executive officer and principal financial officer has determined that our disclosure controls and procedures are effective at doing so, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute assurance that the objectives of the system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented if there exists in an individual a desire to do so. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in Internal Control over Financial Reporting
