PROSPECTUS SUPPLEMENT

(To Prospectus dated August 23, 2016
and Prospectus Supplement dated August 24,
2016) November 21, 2016

Oxford Lane Capital Corp.
\$50,000,000
Common Stock

This prospectus supplement supplements the prospectus supplement dated August 24, 2016 (the First Prospectus Supplement) and the accompanying prospectus thereto, dated August 23, 2016 (the Base Prospectus, together with the First Prospectus Supplement and this prospectus supplement, the Prospectus), which relate to the sale of shares of common stock of Oxford Lane Capital Corp. in an at-the-market offering pursuant to an equity distribution agreement, dated March 7, 2016, with Ladenburg Thalmann & Co. Inc., which was amended on November 21, 2016 to increase the maximum aggregate offering size of the at-the-market offering from \$25,000,000 to \$50,000,000.

You should carefully read the entire Prospectus before investing in our common stock. **You should also review the information set forth under the Supplementary Risk Factor section in this prospectus supplement and the Risk Factors section beginning on page 21 of the Base Prospectus before investing.**

The terms Oxford Lane, the Company, we, us and our generally refer to Oxford Lane Capital Corp.

PRIOR SALES PURSUANT TO THE AT-THE-MARKET OFFERING

From March 7, 2016 to November 18, 2016, we sold a total of 1,425,895 shares of common stock pursuant to the at-the-market offering. The total amount of capital raised as a result of these sales of common stock was approximately \$15,023,008 and net proceeds were approximately \$14,722,220 after deducting the sales agent's commissions and offering expenses.

RECENT DEVELOPMENTS

Application for Exemptive Relief

On October 13, 2016, the Company filed an application for exemptive relief to permit the Company to invest on a concurrent basis with affiliates of its investment adviser.

Financial Results as of September 30, 2016

Net asset value per share as of September 30, 2016 stood at \$9.94 compared with a net asset value per share at June 30, 2016 of \$8.78.

Net investment income, calculated in accordance with generally accepted accounting principles (GAAP), was approximately \$7.0 million, or approximately \$0.37 per share, for the quarter ended September 30, 2016.

Our core net investment income (Core NII) was approximately \$13.6 million, or approximately \$0.71 per share, for the quarter ended September 30, 2016.

Core NII represents net investment income adjusted for additional cash distributions received, or entitled to be received (if any, in either case), on our CLO equity investments. (See additional information under Supplemental Information Regarding Core Net Investment Income below).

1

TABLE OF CONTENTS

Total investment income, calculated in accordance with GAAP, amounted to approximately \$13.6 million for the quarter ended September 30, 2016.

- For the quarter ended September 30, 2016, we recorded GAAP investment income from our portfolio as follows:
 - approximately \$13.0 million from our CLO equity investments,
 - approximately \$0.3 million from our CLO debt investments, and
 - approximately \$0.3 million from all other sources.

While our experience has been that cash flow distributions have historically represented useful indicators of our CLO equity investments' annual taxable income, we believe that current and future cash flow distributions may provide less useful indications as to the final determination of taxable income with respect to our CLO equity investments. In general, we currently expect our annual taxable income to be higher than our GAAP earnings for the current fiscal year.

- The weighted average yield of our CLO debt investments at current cost was approximately 8.9% as of September 30, 2016.
- The weighted average effective yield (GAAP) of our CLO equity investments at current cost was approximately 17.2% as of September 30, 2016.
- The weighted average cash yield of our CLO equity investments at current cost was approximately 26.1% as of September 30, 2016.

Net increase in net assets from operations was approximately \$32.6 million, or approximately \$1.72 per share, for the quarter ended September 30, 2016, including:

- Net investment income of approximately \$7.0 million;
- Net realized gains of approximately \$0.9 million; and
- Net unrealized appreciation of approximately \$24.7 million.

During the quarter ended September 30, 2016, we made additional CLO equity investments of approximately \$52.7 million.

During the quarter ended September 30, 2016, we sold approximately \$38.0 million of our CLO equity investments.

During the quarter ended September 30, 2016, we issued a total of 951,645 shares of common stock pursuant to an at the market offering, resulting in net proceeds of approximately \$10.6 million.

Our Board of Directors declared a distribution for the quarter ending December 31, 2016 of \$0.60 per common share.

Record date is December 16, 2016

Payable on December 30, 2016

Our Board of Directors has also declared the required monthly dividends on our Series 2023 Term Preferred Shares and Series 2024 Term Preferred Shares (each, a Share), as follows:

	Per Share		
	Dividend	2016	2016
	Amount	Record Dates	Payable Dates
	Declared		
Series 2023	\$0.15625	December 16, January 16, February 16	December 30, January 31, February 28
Series 2024	\$0.16930	December 16, January 16, February 16	December 30, January 31, February 28

TABLE OF CONTENTS

In accordance with their terms, each of the Series 2023 Term Preferred Shares and Series 2024 Term Preferred Shares will pay a monthly dividend at a fixed rate of 7.50% and 8.125%, respectively, of the \$25.00 per share liquidation preference, or \$1.875 and \$2.03125 per share per year, respectively. This fixed annual dividend rate is subject to adjustment under certain circumstances, but will not in any case be lower than 7.50% and 8.125% per year, respectively, for each of the Series 2023 Term Preferred Shares and Series 2024 Term Preferred Shares.

Supplemental Information Regarding Core Net Investment Income

On a supplemental basis, we provide information relating to core net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Our non-GAAP measure may differ from similar measures by other companies, even if similar terms are used to identify such measures. Core net investment income represents net investment income adjusted for additional cash distributions received, or entitled to be received (if any, in either case), on our CLO equity investments.

Income from investments in the equity class securities of CLO vehicles, for GAAP purposes, is recorded using the effective interest method based upon an effective yield to the expected redemption utilizing estimated cash flows, compared to the cost resulting in an effective yield for the investment; the difference between the actual cash received or distributions entitled to be received and the effective yield calculation is an adjustment to cost. Accordingly, investment income recognized on CLO equity securities in the GAAP statement of operations differs from the cash distributions actually received by us during the period (referred to below as CLO equity additional distributions).

Further, in order to continue to qualify to be taxed as a regulated investment company, we are required, among other things, to distribute at least 90% of our investment company taxable income annually. Therefore, core net investment income may, for certain periods, provide a better indication of estimated taxable income for a reporting period than does GAAP net investment income, although we can offer no assurance that will be the case as the ultimate tax character of our earnings cannot be determined until tax returns are prepared after the end of a fiscal year. We note that this non-GAAP measure may not be a useful indicator of taxable earnings, particularly during periods of market disruption and volatility.

The following table provides a reconciliation of net investment income to Core NII for the three months ended September 30, 2016:

	Three Months Ended September 30, 2016	
	Amount	Per Share Amounts
Net investment income	\$ 6,976,700	\$ 0.367
CLO equity additional distributions	6,596,161	0.346
Core net investment income	\$ 13,572,861	\$ 0.713

SUPPLEMENTARY RISK FACTOR

Investing in our common stock involves a number of significant risks. Before you invest in our common stock, you should be aware of various risks, including those described below and those set forth in the First Prospectus Supplement and the accompanying prospectus. You should carefully consider these risk factors, together with all of the other information included in the Prospectus, before you decide whether to make an additional investment in our common stock. The risks set out below are not the only risks we face. Additional risks and uncertainties not presently known to us or not presently deemed material by us may also impair our operations and performance. If any of the following events occur, our business, financial condition, results of operations and cash flows could be materially and adversely affected. In such case, our net asset value and the trading price of our common stock could decline, and you may lose all or part of your investment. The risk factors described below, together with those set forth in the First Prospectus Supplement and the accompanying prospectus thereto, are the principal risk factors associated with an investment in us as well as those factors generally associated with an investment company with investment objectives, investment policies, capital structure or trading markets similar to ours.

Proposed regulations may impact our ability to qualify as a RIC if we do not receive timely distributions from our CLO investments.

We may be required to include in our income our proportionate share of the income of certain CLO investments to the extent that such CLOs are passive foreign investment companies (PFICs) for which we have made a qualifying electing fund (QEF) election or are controlled foreign corporations (CFCs). To qualify as a regulated investment company (RIC), we must, among other things, derive in each taxable year at least 90% of our gross income from certain sources specified in the Code (the 90% Income Test). Although the Code generally provides that the income inclusions from a QEF or a CFC will be good income for purposes of this 90% Income Test to the extent that the QEF or the CFC distribute such income to us in the same taxable year to which the income is included in our income, the Code does not specifically provide whether these income inclusions would be good income for this 90% Income Test if we do not receive distributions from the QEF or CFC during such taxable year. The IRS has issued a series of private rulings in which it has concluded that all income inclusions from a QEF or a CFC included in a RIC's gross income would constitute good income for purposes of the 90% Income Test. Such rulings are not binding on the IRS except with respect to the taxpayers to whom such rulings were issued. Accordingly, under current law, we believe that the income inclusions from a CLO that is a QEF or a CFC would be good income for purposes of the 90% Income Test. Recently, the IRS and U.S. Treasury Department issued proposed regulations that provide that the income inclusions from a QEF or a CFC would not be good income for purposes of the 90% Income Test unless we receive a cash distribution from such entity in the same year attributable to the included income. If such income were not considered good income for purposes of the 90% Income Test, we may fail to qualify as a RIC.

SEMI-ANNUAL REPORT TO STOCKHOLDERS

On November 17, 2016, the Company filed its Semi-Annual Report to stockholders for the period from April 1, 2016 to September 30, 2016. The text of the Semi-Annual Report is attached hereto and is incorporated herein by reference.

Oxford Lane Capital Corp

November 17, 2016

To Our Shareholders:

We are pleased to submit to you the report of Oxford Lane Capital Corp. (we , us , our , the Fund or Oxford Lane) for the six months ended September 30, 2016. The net asset value of our shares at that date was \$9.94 per common share. The Fund 's common stock is traded on the NASDAQ Global Select Market and its share price can differ from its net asset value. The Fund 's closing price at September 30, 2016 was \$10.47, up from \$8.45 at March 31, 2016. The total return for Oxford Lane, for the six months ended September 30, 2016, as reflected in the Fund 's financial highlights, was 40.49%. This return reflects the change in market price for the period, as well as the positive impact of \$1.20 per share in distributions declared and paid. On November 16, 2016, the last reported sale price of the Fund 's common stock was \$11.56.

We draw your attention to our distribution policy, which has been discussed in earlier reports, as we believe that the Fund 's position deserves close attention. Oxford Lane 's distribution policy is based upon its estimates of the ultimate taxable earnings for each respective period, which are based upon the estimated cash flows for each investment. The final taxable amounts cannot be known until the tax return is filed, but the Fund 's experience has been that cash flows have historically represented a reasonable estimate of taxable earnings; however, we can offer no assurance that will be the case in the future, particularly during periods of market disruption and volatility. There may be significant differences between Oxford Lane 's GAAP earnings and its taxable earnings, particularly related to CLO equity investments where its taxable earnings are based upon the distributable share of earnings as determined under tax regulations for each CLO equity investment, while GAAP earnings are based upon an effective yield calculation. In general, the Fund currently expects its taxable earnings to be higher than its reportable GAAP earnings. While reportable GAAP revenue from our CLO equity investments for the six months ended September 30, 2016 was approximately \$24.9 million, we received or were entitled to receive approximately \$45.3 million in distributions. Our distribution policy is based upon our estimate of our taxable income.

Investment Review

The Fund 's investment objective is to maximize its portfolio 's risk adjusted total return over its investment horizon. Our current focus is to seek that return by investing in structured finance investments, specifically CLO vehicles, which primarily own senior secured corporate loans. Our investment strategy also includes investing in warehouse facilities, which are financing structures intended to aggregate senior secured corporate loans that may be used to form the basis of a CLO vehicle. As of September 30, 2016, we held debt investments in 3 different CLO structures and equity investments in 40 different CLO structures. We may also invest, on an opportunistic basis, in corporate debt securities on a direct basis and in a variety of other corporate credits.

Structurally, CLO vehicles are entities formed to purchase and manage portfolios of primarily senior secured corporate loans. The loans within a CLO vehicle are limited to those which, on an aggregated basis, meet established credit criteria. They are subject to concentration limitations in order to limit a CLO vehicle 's exposure to individual credits and industries. The CLO vehicles on which the Fund focuses are collateralized primarily by senior secured corporate loans, and generally have minimal or no exposure to real estate loans, mortgage loans or to pools of consumer-based debt, such as credit card receivables or auto loans.

Investment Outlook

We believe that the market for CLO-related assets continues to provide us with the opportunities to generate attractive risk-adjusted returns within our strategies over the long term. We believe that a number of factors support this conclusion, including:

The long-term and relatively low-cost capital that many CLO vehicles have secured, compared with current asset spreads and associated LIBOR floors, have created opportunities to purchase certain CLO equity and junior debt instruments that may produce attractive risk-adjusted returns. Additionally, given that the CLO vehicles we invest in are cash flow-based vehicles, this term financing may be extremely beneficial in periods of market volatility.

The market to invest in warehouse facilities, which are short and medium-term facilities that are generally expected to form the basis of CLO vehicles (which the Fund may participate in or be repaid by), has created additional attractive risk-adjusted investment opportunities for us.

Investing in CLO securities, and CLO equity instruments and warehouse facilities in particular, requires a high level of research and analysis. We believe that transactions in this market can only be adequately conducted by knowledgeable market participants since this market and these structures tend to be highly specialized.

The U.S. risk retention requirements imposed for CLO managers under Section 941 of the Dodd-Frank Act has created some uncertainty in the market in regards to future CLO issuances. Given that certain CLO managers may require capital provider partners to satisfy this requirement when it becomes effective on December 24, 2016, we believe that this may create additional opportunities (and additional risks) for us in the future.

The U.S. CLO market is relatively large with total assets under management of approximately \$432 billion.⁽¹⁾ We estimate that the amount outstanding of the junior-most debt tranches (specifically the tranches originally rated BB and B) and equity tranches together are approximately \$70 billion.

An investment in our Fund carries with it a significant number of meaningful risks, certain of which are discussed in the notes to our financial statements. Investors should read Note 12. Risks and Uncertainties carefully.

We continue to review a large number of CLO investment vehicles in the current market environment, and we expect that the majority of our portfolio holdings, over the near to intermediate-term, will continue to be focused on CLO debt and equity securities, with the more significant focus over the near-term likely to be on CLO equity securities and warehouse facilities.

(1) We do not control and are not an affiliate of any of our portfolio companies, each as defined in the Investment Company Act of 1940 (the 1940 Act). In general, under the 1940 Act, we would be presumed to control a portfolio company if we owned 25% or more of its voting securities and would be an affiliate of a portfolio company if we owned 5% or more of its voting securities.

(2) Fair value is determined in good faith by the Board of Directors of the Fund.

(3) Notes bear interest at variable rates.

(4) Cost value reflects accretion of original issue discount or market discount.

(5) Cost value reflects accretion of effective yield less any cash distributions received or entitled to be received from CLO equity investments.

(6) The CLO secured notes generally bear interest at a rate determined by reference to three-month LIBOR, which resets quarterly. For each CLO debt investment, the rate provided is as of September 30, 2016.

- The CLO subordinated notes and income notes are considered equity positions in the CLO funds. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the underlying fund's securities less contractual payments to debt holders and fund expenses.
- (7) The estimated yield indicated is based upon a current projection of the amount and timing of these recurring distributions and the estimated amount of repayment of principal upon termination. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.
- (8) Fair value represents discounted cash flows associated with fees earned from CLO equity investments. Investment has not made inaugural distribution for relevant period end. See Note 2. Summary of Significant Accounting Policies – Investment Income Recognition.
- (9)
- (10) The subordinated shares represent an investment in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO vehicle.

**NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016
(Unaudited)**

NOTE 1. ORGANIZATION

Oxford Lane Capital Corp. (OXLC, we, us, our or the Fund) was incorporated under the General Corporation Law of the State of Maryland on June 9, 2010. The Fund is a non-diversified closed-end management investment company that has registered under the Investment Company Act of 1940, as amended (the 1940 Act). In addition, the Fund has elected to be treated for tax purposes as a regulated investment company (RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). The Fund's investment objective is to maximize its portfolio's risk adjusted total return, and it seeks to achieve its investment objective by investing in structured finance investments, specifically collateralized loan obligation (CLO) vehicles which, primarily own senior corporate debt securities.

OXLC's investment activities are managed by Oxford Lane Management, LLC (OXLC Management), a registered investment adviser under the Investment Advisers Act of 1940, as amended. BDC Partners, LLC (BDC Partners) is the managing member of OXLC Management and serves as the administrator of OXLC.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
BASIS OF PRESENTATION**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), include the accounts of the Fund. The Fund follows the accounting and reporting requirements of the Accounting Standards Codification (ASC), *Financial Services - Investment Companies* (ASC 946), for reporting on Form N-CSR and the Fund maintains its accounting records in U.S. dollars.

USE OF ESTIMATES

The presentation of the financial statements is in conformity with GAAP, which requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of demand deposits and highly liquid investments, such as money market funds, with original maturities of three months or less at time of purchase. Cash and cash equivalents are carried at cost or amortized cost, which approximates fair value. As of September 30, 2016, cash and cash equivalents consisted solely of demand deposits.

INVESTMENT VALUATION

The Fund determines fair value of its investment portfolio in accordance with the provisions of ASC 820, *Fair Value Measurement and Disclosure*. A significant estimate made in the preparation of OXLC's financial statements is the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded.

OXLC believes that there is no single definitive method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments OXLC makes.

ASC 820-10 clarified the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities in markets that are not active; and Level 3, defined as unobservable inputs for which little

BASIS OF PRESENTATION (continued)**

or no market data exists, therefore requiring an entity to develop its own assumptions. OXLC considers the attributes of current market conditions on an on-going basis and has determined that due to the general illiquidity of the market for its investment portfolio, whereby little or no market data exists, all of OXLC's investments are valued based upon Level 3 inputs as of September 30, 2016.

Collateralized Loan Obligations Debt and Equity

OXLC has acquired debt and equity positions in CLO investment vehicles and has purchased CLO warehouse facilities. These investments are special purpose financing vehicles. In valuing such investments, OXLC considers the indicative prices provided by a recognized industry pricing service as a primary source, and the implied yield of such prices, supplemented by actual trades executed in the market at or around period-end, as well as the indicative prices provided by the broker who arranges transactions in such investment vehicles. OXLC also considers those instances in which the record date for an equity distribution payment falls on the last day of the period, and the likelihood that a prospective purchaser would require a downward adjustment to the indicative price representing substantially all of the pending distribution. Additional factors include any available information on other relevant transactions, including firm bids and offers in the market and information resulting from bids-wanted-in-competition. In addition, OXLC considers the operating metrics of the specific investment vehicle, including compliance with collateralization tests, defaulted and restructured securities, and payment defaults, if any. OXLC Management or the Fund's board of directors (the Board of Directors) may request an additional analysis by a third-party firm to assist in the valuation process of CLO investment vehicles. All information is presented to the Board of Directors for its determination of fair value of these investments.

SHARE REPURCHASES

From time to time, the Board of Directors may authorize a share repurchase program under which shares of the Fund's common stock are purchased in open market transactions. Since the Fund is incorporated in the State of Maryland, state law requires share repurchases to be accounted for as a share retirement. The cost of repurchased shares is charged against capital on the settlement date. Refer to Note 15. Common Share Repurchase Program for further details.

PREFERRED STOCK

The Fund carries its mandatorily redeemable preferred stock at accreted cost on the Statement of Assets and Liabilities, and not fair value. Refer to Note 7. Mandatorily Redeemable Preferred Stock for further details.

PREPAID EXPENSES

Prepaid expenses consist primarily of insurance costs.

INVESTMENT INCOME

Income from securitization vehicles and equity investments

Income from securitization vehicles and equity investments in the equity class securities of CLO vehicles (typically income notes or subordinated notes) is recorded using the effective interest method in accordance with the provisions of ASC 325-40, *Beneficial Interests in Securitized Financial Assets*, based upon a calculation of the effective yield to the expected redemption date based on an estimate of future cash flows, including those CLO equity investments that have not made their inaugural distribution for the relevant period end. The Fund monitors the expected residual payments, and the effective yield is determined and updated

quarterly, as needed. Accordingly, investment income recognized on CLO equity securities in the GAAP statement of operations differs from both the tax-basis investment income and from the cash distributions actually received by the Fund during the period.

The Fund also records income on its investments in CLO warehouse facilities based on a stated rate as per the underlying note purchase agreement or if there is no stated rate, then an estimated rate is calculated using a base case model projecting the timing of the ramp-up of the CLO warehouse facility.

Interest Income Debt Investments

Interest income is recorded on an accrual basis using the contractual rate applicable to each debt investment and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective interest method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Generally, if the Fund does not expect the borrower to be able to service its debt and other obligations, the Fund will, on a discretionary basis, place the debt instrument on non-accrual status and will generally cease recognizing interest income on that loan for financial reporting purposes until all principal and interest have been brought current through payment or due to restructuring such that the interest income is deemed to be collectible. The Fund generally restores non-accrual loans to accrual status when past due principal and interest is paid and, in the Fund's judgment, the payments are likely to remain current. As of September 30, 2016, the Fund had no non-accrual assets in its portfolio.

Other Income

Other income includes distributions from fee letters and success fees associated with portfolio investments. Distributions from CLO equity fee letter investments are an enhancement to the return on a CLO equity investment, are based upon a percentage of the collateral manager's fees, and are recorded as other income when earned. The Fund may also earn success fees associated with its investments in CLO warehouse facilities, which are contingent upon a take-out of the warehouse by a permanent CLO structure; such fees are earned and recognized when the take-out is completed.

U.S. FEDERAL INCOME TAXES

The Fund intends to operate so as to continue to qualify to be taxed as a RIC under Subchapter M of the U.S. Tax Code and, as such, to not be subject to U.S. federal income tax on the portion of its taxable income and gains distributed to stockholders. To qualify for RIC tax treatment, OXLC is required to distribute at least 90% of its investment company taxable income, as defined by the Code.

Because U.S. federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the financial statement to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.

Differences between distributions and net investment income may also result from the treatment of short-term gains as ordinary income for tax purposes. Our distribution policy is based upon our estimate of our distributable net investment income, which includes actual distributions from our CLO equity class investments, with further consideration given to our realized gains or losses on a taxable basis.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
BASIS OF PRESENTATION (continued)**

Distributions

Distributions from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which differ from GAAP. Distributions from net investment income, if any, are expected to be declared and paid quarterly. Net realized capital gains, unless offset by any available capital loss carry-forward, are typically distributed to shareholders annually. Distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the Fund in accordance with the Fund's distribution reinvestment plan, unless the shareholder has elected to have them paid in cash.

Amounts required to be distributed reflect estimates made by the Fund. Distributions paid by the Fund in accordance with RIC requirements are subject to re-characterization for tax purposes.

SECURITIES TRANSACTIONS

Securities transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of specific identification.

DEFERRED OFFERING COSTS ON COMMON STOCK

Deferred offering costs consist principally of legal, accounting, filing and underwriting fees incurred in relation to an offering proposed by the Fund. The deferred offering costs will be charged to capital when the offering takes place or as shares are issued. Costs related to shelf offerings are charged to capital as securities registered are issued. Deferred costs are periodically reviewed and expensed if the related registration statement is no longer active or if the offering is unsuccessful.

**DEFERRED ISSUANCE COSTS ON MANDATORILY
REDEEMABLE PREFERRED STOCK**

Deferred issuance costs on mandatorily redeemable preferred stock consist of fees and expenses incurred in connection with the closing of preferred stock offerings, and are capitalized when incurred. These costs are amortized using the straight line method over the term of the respective preferred stock series. This amortization expense is

included in interest expense on mandatorily redeemable preferred stock in the Fund's financial statements. Upon early termination of preferred stock, the remaining balance of unaccreted fees related to such debt is accelerated into interest expense on mandatorily redeemable preferred stock.

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-03, *Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. The guidance requires debt issuance costs (deferred financing costs) related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the related debt liability, similar to the presentation of debt discounts.

Additionally, in August 2015, the FASB issued ASU 2015-15, *Interest Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements*

(ASU 2015-15), which codifies an SEC staff announcement that entities are permitted to defer and present debt issuance costs related to line-of-credit arrangements as assets and subsequent amortization of the deferred costs over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the

line-of-credit arrangement. ASU 2015-03 and 2015-15 are effective for annual periods ending after December 15, 2015, and interim periods within those annual periods. The Fund adopted ASU 2015-03 and ASU 2015-15 beginning with the quarter ended June 30, 2016. The adoption of ASU 2015-03 and ASU 2015-15 did not have an effect on the Fund's results of operation and financial condition; however, at September 30, 2016 the adoption of ASU 2015-03 did result in the reclassification of approximately \$4.2 million in deferred debt issuance costs, which post-adoption are a direct deduction from the related debt liability.

Significant Unobservable Inputs for Level 3 Investments

In accordance with ASC 820-10, the following table provides quantitative information about the Fund's Level 3 fair value measurements as of September 30, 2016. The Fund's valuation policy, as described above, establishes parameters for the sources and types of valuation analysis, as well as the methodologies and inputs that the Fund uses

in determining fair value. If the Board of Directors or OXLC Management determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work may be undertaken. The weighted average calculations in the table below are based on the fair value within each respective valuation techniques and methodologies and asset category.

Quantitative Information about Level 3 Fair Value Measurements					
Assets	Fair Value as of September 30, 2016 (\$ in millions)	Valuation Techniques/ Methodologies	Unobservable Input	Range/Weighted Average ⁽⁵⁾	
CLO debt	\$10.2	Market quotes	NBIB ⁽¹⁾	71.4%	88.0%/77.8%
CLO equity	217.6	Market quotes	NBIB ⁽¹⁾	31.3%	100.0%/60.4%

CLO equity side letters	3.2	Discounted cash flow	Discount rate ⁽⁴⁾	13.9%	16.0%/14.8%
Total Fair Value for Level 3 Investments	\$297.4				

The Fund generally uses non-binding indicative bid (NBIB) prices provided by an independent pricing service or broker on or near the valuation date as the primary basis for the fair value determinations for CLO debt and equity investments, which may be adjusted for pending equity distributions as of valuation date. These bid prices are non-binding, and may not be determinative of fair value. Each bid price is

evaluated by the Board of Directors in conjunction with additional information compiled by OXLC Management, including performance and covenant compliance information as provided by the independent trustee.

Prices provided by independent pricing services are evaluated in conjunction with actual trades, and in certain (2) cases, the value represented by actual trades may be more representative of fair value as determined by the Board of Directors.

(3) Represents a single investment fair value position, and therefore the range/weighted average is not applicable.

The Fund will calculate the fair value of certain CLO equity investments based upon the net present value of expected contractual payment streams discounted using estimated market yields for the equity tranche of the (4) respective CLO vehicle. OXLC will also consider those investments in which the record date for an equity distribution payment falls on the last day of the period, and the likelihood that a prospective purchaser would require an adjustment to the transaction price representing substantially all of the pending distribution.

(5) Weighted averages are calculated based on fair value of investments.

Significant increases or decreases in any of the unobservable inputs in isolation may result in a significantly lower or higher fair value measurement.

A reconciliation of the fair value of investments for the six months ended September 30, 2016, utilizing significant unobservable inputs, is as follows:

NOTE 3. FAIR VALUE (continued)

The Fund's policy is to recognize transfers in and transfers out of valuation levels as of the beginning of the reporting period. There were no transfers between Level 1, Level 2 and Level 3 during the six months ended September 30, 2016.

NOTE 4. RELATED PARTY TRANSACTIONS

Effective September 9, 2010, the Fund entered into an agreement (Investment Advisory Agreement) with OXLC Management, a registered investment adviser under the Investment Advisers Act of 1940, as amended. BDC Partners is the managing member of OXLC Management and serves as the administrator of OXLC.

Effective September 9, 2010, the Fund entered into an agreement (Administration Agreement) with BDC Partners to serve as its administrator. Under the Administration Agreement, BDC Partners performs, or oversees the performance of, the Fund's required administrative services, which include, among other things, being responsible for the financial records which the Fund is required to maintain and for preparation of the reports to the Fund's stockholders.

Pursuant to the Investment Advisory Agreement, the Fund has agreed to pay OXLC Management a fee for advisory and management services consisting of two components a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 2.00% of the Fund's gross assets. For services rendered under the Investment Advisory Agreement, the base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of the Fund's gross assets, at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro-rated.

The incentive fee is calculated and payable quarterly in arrears based on the pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means income from securitization vehicles and investments, interest income from debt investments and any other income (including any other fees, such as commitment, origination, structuring, diligence and consulting fees or other fees that are received from an investment) accrued during the calendar quarter, minus the Fund's operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement to BDC Partners, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes accrued income that OXLC has not yet received in cash, such as the amount of any market discount it may accrete on debt instruments purchased below par value.

Pre-incentive fee net investment income does not include any realized or unrealized capital gains or losses, and the Fund could incur incentive fees in periods when there is a net decrease in net assets from operations. Pre-incentive fee

net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). For such purposes, the Fund's quarterly rate of return is determined by dividing its pre-incentive net investment income by its reported net assets as of the prior period end. OXLC's net investment income used to calculate this part of the incentive fee is also included in the amount of its gross assets used to calculate the 2.00% base management fee. The Fund pays Oxford Lane Management an incentive fee with respect to the Fund's pre-incentive fee net investment income in each calendar quarter as follows:

No incentive fee in any calendar quarter in which the Fund's pre-incentive fee net investment income does not exceed the hurdle of 1.75%;

100% of pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.1875% in any calendar quarter (8.75% annualized). The Fund refers to this portion of the pre-incentive fee net investment income (which exceeds the hurdle but is less than 2.1875%) as the catch-up. The catch-up is meant to provide the investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle did not apply if the net investment income exceeds 2.1875% in any calendar quarter; and

20% of the amount of pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to OXLC Management (once the hurdle is reached and the catch-up is achieved, 20% of all pre-incentive fee net investment income thereafter is allocated to OXLC Management).

There is no offset in subsequent quarters for any quarter in which an incentive fee is not earned. For the six months ended September 30, 2016, the Fund recognized incentive fee expense of approximately \$3.2 million. At September 30, 2016, the Fund had an incentive fee payable of approximately \$1.7 million.

BDC Partners assists the Fund in determining and publishing the Fund's net asset value, overseeing the preparation and filing of the Fund's tax returns and the printing and dissemination of reports to the Fund's stockholders, and generally overseeing the payment of the Fund's expenses and the performance of administrative and professional services rendered to the Fund by others. Payments under the Administration Agreement are equal to an amount based upon the Fund's allocable portion of BDC Partners' overhead in performing its obligations under the Administration Agreement, including rent, and the Fund's allocable portion of the compensation of the Fund's chief financial officer and any administrative support staff, including accounting personnel. Other expenses that are paid by the Fund include legal, compliance, audit and tax services, market data services, excise taxes, if any, and miscellaneous office expenses. The Administration Agreement may be terminated by either party without penalty upon 60 days' written notice to the other party. The costs associated with the functions performed by OXLC's chief compliance officer are paid directly by the Fund pursuant to the terms of an agreement between the Fund and Alaric Compliance Services, LLC.

The independent directors receive an annual fee of \$75,000. In addition, the independent directors receive \$2,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Board of Directors meeting, \$1,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Valuation Committee meeting and \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Audit Committee meeting. The Chairman of the Audit Committee also receives an additional annual fee of \$10,000. No compensation will be paid to directors who are interested persons of the Fund as defined in the 1940 Act.

Certain directors, officers and other related parties, including members of OXLC Management, owned, directly or indirectly, an aggregate 4.1% of the common stock of the Fund at September 30, 2016.

NOTE 5. CONCENTRATION OF CREDIT RISK

The Fund places its cash and cash equivalents with financial institutions and, at times, cash held in checking accounts may exceed the Federal Deposit Insurance Corporation insured limit. In addition, the Fund's portfolio may be concentrated in a limited number of investments, which will subject the Fund to a risk of significant loss if any of these investments defaults on its obligations under any of its debt securities that the Fund holds or if those sectors experience a market downturn.

NOTE 6. DISTRIBUTIONS

For the six months ended September 30, 2016, the Fund declared and paid dividends on common stock of \$1.20 per share, or \$23,138,992. The Fund declared and paid dividends on common stock of \$2.40 per share, or \$43,289,314, for the year ended March 31, 2016. The tax character of distributions paid on common stock for the six months ended September 31, 2016 will be determined when the Fund reports on its fiscal year-end financial statements. The tax character of distributions paid for the year ended March 31, 2016 represented ordinary income with no return of capital.

For the six months ended September 30, 2016 and the year ended March 31, 2016 the Fund also declared and paid dividends on preferred stock of \$5,068,804 and \$12,668,482, respectively. The tax character of distributions paid on preferred stock represents ordinary income.

In December 2010, the Regulated Investment Company Modernization Act of 2010 (the Act) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. Under the Act, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period.

However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term losses rather than being considered all short-term as under previous law.

For the fiscal year ended March 31, 2016, the Fund has available \$17,727,584 of capital losses, which can be used to offset future capital gains. These losses represent post-RIC modernization losses not subject to expiration, and are comprised of short-term capital losses of \$812,000 and long-term capital losses of \$16,915,584. Under the current law, capital losses related to securities realized after October 31 and prior to the Fund's fiscal year end may be deferred as occurring the first day of the following fiscal year. For the fiscal year ended March 31, 2016, the Fund has deferred such losses in the amount of \$27,951,864, which is comprised of short term losses of \$2,008,114 and long-term losses of \$25,943,750.

As of March 31, 2016, the estimated components of accumulated earnings on a tax basis were as follows:

Distributable ordinary income	\$ 10,140,740
Distributable long-term capital gains (capital loss carry forward)	(17,727,584)
Unrealized depreciation on investments	(116,355,326)

Other timing differences (27,961,614)

The tax basis components of accumulated earnings differ from the amounts reflected in the Statement of Assets and Liabilities due to temporary book/tax differences primarily arising from investments in CLO equity investments and permanent book/tax differences attributable to non-deductible excise taxes. For the year ended March 31, 2016, the permanent differences between financial and tax reporting were due to basis adjustments on the sale of CLO equity investments and excise taxes, resulting in a decrease of distributions in excess of investment income of \$13,028,242, an increase in accumulated net realized loss on investments of \$13,055,742, and an increase of capital in excess of par value of \$27,500. These amounts will be finalized before filing the federal tax return.

As of September 30, 2016, the aggregate gross unrealized appreciation for tax purposes was \$11,340,005, and aggregate gross unrealized depreciation was \$76,769,390. For tax purposes, the cost basis of the portfolio investments at September 30, 2016 was \$362,863,149.

NOTE 7. MANDATORILY REDEEMABLE PREFERRED STOCK

The Fund has authorized 10 million shares of mandatorily redeemable preferred stock, at a par value of \$0.01 per share, and had 5,034,880 shares issued and outstanding at September 30, 2016. Since 2012 and through July 17, 2015, the Fund completed underwritten public offerings of its 8.50% Series 2017 Term Preferred Shares (the Series 2017 Shares), 7.50% Series 2023 Term Preferred Shares (the Series 2023 Shares) and 8.125% Series 2024 Term Preferred Shares (the Series 2024 Shares), collectively the Term Preferred Shares or Term Shares. The Fund is required to redeem all of the outstanding Term Preferred Shares on their respective redemption dates, at a redemption price equal to \$25 per share plus an amount equal to accumulated but unpaid dividends, if any, to the date of the redemption. OXLC cannot effect any amendment, alteration, or repeal of the Fund's obligation to redeem all of the Term Shares without the prior unanimous vote or consent of the holders of such Term Shares. At any time on or after the optional redemption date, at the Fund's sole option, the Fund may redeem the Term Shares at a redemption price per share equal to the sum of the \$25 liquidation preference per share plus an amount equal to accumulated but unpaid dividends, if any, on such Term Shares. The Fund, with the authorization by the Board of Directors, may repurchase any of the Series 2023 Shares and/or Series 2024 Shares from time to time in the open market and effectively extinguish the debt.

On July 24, 2015 (the Redemption Date), the Fund redeemed all of the issued and outstanding 8.50% Series 2017 Shares. The Fund redeemed the Series 2017 Shares for a redemption price of \$25 per share plus accrued but unpaid dividends to the Redemption Date. In connection with the redemption of the Series 2017 Shares, the Fund recognized as interest expense an extinguishment loss of approximately \$485,000 consisting of previously unamortized deferred issuance costs.

On December 2, 2015, the Fund announced a Preferred Stock Repurchase Program for the purpose of repurchasing up to \$25 million worth of its Series 2023 Shares and up to \$25 million worth of its Series 2024 Shares. Under this Repurchase Program, the Fund repurchased 737,395 shares of its Series 2023 Shares, at an average price of \$24.23 per share, and 405,909 shares of its Series 2024 Shares, at an average price of \$24.67 per share, for the year ended March 31, 2016. In aggregate, the Fund repurchased approximately \$28.6 million of Term Preferred Stock for the year ended March 31, 2016. In connection with the repurchased Series 2023 Shares, the Fund recognized as interest expense a net extinguishment loss of approximately \$51,000, consisting of previously unamortized deferred issuance costs of approximately \$617,000, partially offset by repurchases at a net discount to par of approximately \$566,000. In connection with the repurchased Series 2024 Shares, the Fund recognized as interest expense a net extinguishment loss of approximately \$266,000, consisting of previously unamortized deferred issuance costs of approximately \$401,000, partially offset by repurchases at a net discount to par of approximately \$135,000.

On March 21, 2016, the Fund announced a new program for the purpose of repurchasing up to \$25 million worth of the outstanding shares of the Fund's Series 2023 Shares and up to \$25 million worth of the outstanding shares of the

Fund's Series 2024 Shares. Under this new repurchase program, the Fund repurchased 609,537 shares of its Series 2023 Shares, at an average price of \$25.20 per share, and 2,712 shares of its Series 2024 Shares, at an average price of \$25.40 per share, for the six months ended September 30, 2016. In connection with the repurchased Series 2023 Shares, the Fund recognized as interest expense a net extinguishment loss of approximately \$615,000, consisting of previously unamortized deferred issuance costs of approximately \$490,000, in addition to repurchases at a net premium to par of approximately \$125,000. In connection with the repurchased Series 2024 Shares, the Fund recognized as interest expense a net extinguishment loss of approximately \$3,000, consisting of previously unamortized deferred issuance costs of approximately \$2,000, in addition to repurchases at a net premium to par of approximately \$1,000.

The Fund's sales and repayments of securities totaled approximately \$59.0 million, excluding short-term investments, for the six months ended September 30, 2016.

NOTE 9. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Fund enters into a variety of undertakings containing a variety of warranties and indemnifications that may expose the Fund to some risk of loss. The risk of future loss arising from such undertakings, while not quantifiable, is expected to be remote.

As of September 30, 2016, the Fund had one commitment to fund an additional \$6.0 million of THL Credit Wind River 2016-3 CLO Ltd. Subordinated Notes.

The Fund is not currently subject to any material legal proceedings. From time to time, the Fund may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Fund's rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Fund does not expect that these proceedings will have a material effect upon its financial condition or results of operations.

NOTE 10. INDEMNIFICATION

Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these agreements cannot be known, however, the Fund expects any risk of loss to be remote.

**NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016
(Unaudited)**

NOTE 11. FINANCIAL HIGHLIGHTS (continued)

Management monitors estimated taxable earnings, including net investment income and realized capital gains, to determine if a tax return of capital may occur for the year. To the extent the Fund's taxable earnings fall below the (3) total amount of the Fund's distributions for that fiscal year, a portion of those distributions may be deemed a tax return of capital to the Fund's stockholders. The final determination of the nature of our distributions can only be made upon the filing of our tax return.

(4) Based on actual shares outstanding for the period end.

Total return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the market price as of the beginning of the period, and that distribution, capital gains and other distributions were (5) reinvested as provided for in the Fund's distribution reinvestment plan, excluding any discounts, and that the total number of shares were sold at the closing market price per share on the last day of the period. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund. Total return is not annualized.

(6) Annualized.

NOTE 12. RISKS AND UNCERTAINTIES

The U.S. capital markets have recently experienced periods of volatility and disruption. Disruptions in the capital markets tend to increase the spread between the yields realized on risk-free and higher risk securities, resulting in illiquidity in parts of the capital markets. The Fund believes these conditions may reoccur in the future. A prolonged period of market illiquidity may have an adverse effect on the Fund's business, financial condition and results of operations. Adverse economic conditions could also limit the Fund's access to the capital markets or result in a decision by lenders not to extend credit to the Fund. These events could limit the Fund's investment purchases, limit the Fund's ability to grow and negatively impact the Fund's operating results.

OXLC Management's investment team also presently manages the portfolios of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies, and TICC CLO 2012-1 LLC, a direct subsidiary of TICC Capital Corp., the assets of which are consolidated into the gross assets of TICC Capital Corp. Additionally, the OXLC Management's investment team manages the portfolio of Oxford Bridge, LLC, a limited liability company that invests principally in the equity of CLOs. In certain instances, the Fund may co-invest on a concurrent basis with affiliates of its investment adviser, subject to compliance with applicable regulations and regulatory guidance and our written allocation policies. Such co-investment may require exemptive relief from the SEC, for which the Fund has applied. There can be no assurance when, or if, such relief may be obtained. No co-investments that would require exemptive relief have been made. The affiliated entities of the Fund are subject to a written policy with respect to the allocation of investment opportunities.

Given the structure of the Fund's Investment Advisory Agreement with OXLC Management, any general increase in interest rates will likely have the effect of making it easier for OXLC Management to meet the quarterly hurdle rate for payment of net investment income incentive fees under the Investment Advisory Agreement without any additional increase in relative performance on the part of the Fund's investment adviser. In addition, in view of the catch-up provision applicable to income incentive fees under the Investment Advisory Agreement, the investment adviser could potentially receive a significant portion of the increase in the Fund's investment income attributable to such a general increase in interest rates. If that were to occur, the Fund's increase in net earnings, if any, would likely be significantly smaller than the relative increase in the investment adviser's net investment income incentive fee resulting from such a general increase in interest rates.

The Fund's portfolio consists of equity and junior debt investments in CLO vehicles, which involve a number of significant risks. CLO vehicles are typically highly levered, and therefore the junior debt and equity

tranches that the Fund invests in are subject to a higher degree of risk of total loss. As of September 30, 2016, the CLO vehicles in which the Fund was invested had average leverage of 10.4 times and ranged from approximately 6.0 times to 13.5 times levered. In particular, investors in CLO vehicles indirectly bear risks of the underlying debt investments held by such CLO vehicles.

The Fund generally has the right to receive payments only from the CLO vehicles, and generally does not have direct rights against the underlying borrowers or the entity that sponsored the CLO vehicle. While the CLO vehicles the Fund targets generally enable the investor to acquire interests in a pool of senior loans without the expenses associated with directly holding the same investments, the Fund generally pays a proportionate share of the CLO vehicles administrative and other expenses. Although it is difficult to predict whether the prices of indices and securities underlying CLO vehicles will rise or fall, these prices (and, therefore, the prices of the CLO vehicles) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally. The failure by a CLO vehicle in which we invest to satisfy financial covenants, including with respect to adequate collateralization and/or interest coverage tests, could lead to a reduction in its payments to us. In the event that a CLO vehicle fails certain tests, holders of debt senior to us may be entitled to additional payments that would, in turn, reduce the payments we would otherwise be entitled to receive. Separately, OXLC may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms with a defaulting CLO vehicle or any other investment we may make. If any of these occur, it could materially and adversely affect the Fund's operating results and cash flows.

The interests the Fund has acquired in CLO vehicles are generally thinly traded or have only a limited trading market. CLO vehicles are typically privately offered and sold, even in the secondary market. As a result, investments in CLO vehicles may be characterized as illiquid securities. In addition to the general risks associated with investing in debt securities, CLO vehicles carry additional risks, including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the fact that the Fund's investments in CLO tranches will likely be subordinate to other senior classes of note tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the CLO vehicle or unexpected investment results. The Fund's net asset value may also decline over time if the Fund's principal recovery with respect to CLO equity investments is less than the price that the Fund paid for those investments.

Section 941 of the Dodd-Frank Act added a provision to the Securities Exchange Act of 1934, as amended, requiring the seller, sponsor or securitizer of a securitization vehicle to retain no less than five percent of the credit risk in assets it sells into a securitization and prohibiting such securitizer from directly or indirectly hedging or otherwise transferring the retained credit risk. The responsible federal agencies adopted final rules implementing these

restrictions on October 22, 2014. The risk retention rules will become effective with respect to CLOs two years after publication in the Federal Register. Under the final rules, the asset manager of a CLO would be considered the sponsor of a securitization vehicle and would be required to retain five percent of the credit risk in the CLO, which may be retained horizontally in the equity tranche of the CLO or vertically as a five percent interest in each tranche of the securities issued by the CLO. Although the final rules contain an exemption from such requirements for the asset manager of a CLO if, among other things, the originator or lead arranger of all of the loans acquired by the CLO retain such risk at the asset level and, at origination of such asset, takes a loan tranche of at least 20% of the aggregate principal balance, it is possible that the originators and lead arrangers of loans in this market will not agree to assume this risk or provide such retention at origination of the asset in a manner that would provide meaningful relief from the risk retention requirements for CLO managers.

NOTE 12. RISKS AND UNCERTAINTIES (continued)

The Fund believes that the U.S. risk retention requirements imposed for CLO managers under Section 941 of the Dodd-Frank Act has created some uncertainty in the market in regard to future CLO issuance. Given that certain CLO managers may require capital provider partners to satisfy this requirement when it becomes effective on December 24, 2016, the Fund believes that this may create additional opportunities (and additional risks) for the Fund in the future.

Further, to the extent income from the Fund's CLO equity investments (which the Fund expects to decline as those vehicles deleverage after the end of their respective reinvestment periods) declines or if the Fund transitions its portfolio into lower yielding investments, the Fund's ability to pay future distributions may be harmed.

An increase in LIBOR would materially increase the CLO vehicles' financing costs. Since most of the collateral positions within the CLO investments have LIBOR floors, there may not be corresponding increases in investment income (if LIBOR increases but stays below the LIBOR floor rate of such investments) resulting in materially smaller distribution payments to the equity investors.

To illustrate the potential impact of a change in the underlying interest rate on our total estimated taxable income as it pertains to our CLO investments, we have assumed a 1% increase in the underlying three-month LIBOR, and no other change in our CLO portfolio, or to any of the credit, spread, default rate or other factors, as of September 30, 2016.

Under this analysis, we currently estimate the effect on total estimated taxable income to equal a decrease of approximately \$5.1 million on an annualized basis, reflecting the portfolio assets held within these CLO vehicles which have implied floors that would be unaffected by a 1% change in the underlying interest rate, compared to the debt carried by those CLO vehicles which are at variable rates and which would be affected by a change in three-month LIBOR. Although management believes that this analysis is broadly indicative of our existing LIBOR sensitivity, it does not adjust for changes in any of the other assumptions that could affect the return on CLO equity investments, both positively and negatively (and which could accompany changes to the three-month LIBOR rate), such as default rates, recovery rates, prepayment rates, reinvestment rates, and other factors that could affect the net increase (or decrease) in net assets resulting from operations. Accordingly, results could differ materially from the results under this hypothetical analysis.

OXLC Management anticipates that the CLO vehicles in which the Fund invests may constitute passive foreign investment companies (PFICs). If the Fund acquires shares in a PFIC (including equity tranche investments in CLO vehicles that are PFICs), the Fund may be subject to federal income tax on a portion of any excess distribution or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its stockholders. Certain elections may be available to mitigate or eliminate such tax on excess distributions, but such elections (if available) will generally require the Fund to recognize its share of the PFIC's income for each year regardless of whether the Fund receives any distributions from such PFICs. The Fund must nonetheless distribute such

income to maintain its tax treatment as a RIC.

If the Fund holds more than 10% of the shares in a foreign corporation that is treated as a controlled foreign corporation (CFC) (including equity tranche investments in a CLO vehicle treated as a CFC), the Fund may be treated as receiving a deemed distribution (taxable as ordinary income) each year from such foreign corporation in an amount equal to the Fund's pro rata share of the corporation's income for the tax year (including both ordinary earnings and capital gains). If the Fund is required to include such deemed distributions from a CFC in the Fund's income, it will be required to distribute such income to maintain its RIC tax treatment regardless of whether or not the CFC makes an actual distribution during such year.

We may be required to include in our income our proportionate share of the income of certain CLO investments to the extent that such CLOs are PFICs for which we have made a qualifying electing fund (QEF) election or are CFCs. To qualify as a RIC, we must, among other things, derive in each taxable year

27

(Unaudited)**

NOTE 12. RISKS AND UNCERTAINTIES (continued)

at least 90% of our gross income from certain sources specified in the Code (the 90% Income Test). Although the Code generally provides that the income inclusions from a QEF or a CFC will be good income for purposes of this 90% Income Test to the extent that the QEF or the CFC distribute such income to us in the same taxable year to which the income is included in our income, the Code does not specifically provide whether these income inclusions would be good income for this 90% Income Test if we do not receive distributions from the QEF or CFC during such taxable year. The IRS has issued a series of private rulings in which it has concluded that all income inclusions from a QEF or a CFC included in a RIC s gross income would constitute good income for purposes of the 90% Income Test. Such rulings are not binding on the IRS except with respect to the taxpayers to whom such rulings were issued. Accordingly, under current law, we believe that the income inclusions from a CLO that is a QEF or a CFC would be good income for purposes of the 90% Income Test. Recently, the IRS and U.S. Treasury Department issued proposed regulations that provide that the income inclusions from a QEF or a CFC would not be good income for purposes of the 90% Income Test unless we receive a cash distribution from such entity in the same year attributable to the included income. If such income were not considered good income for purposes of the 90% Income Test, we may fail to qualify as a RIC. If these regulations are finalized, we will carefully monitor our investments in CLOs to avoid disqualification as a RIC.

Legislation commonly referred to as the Foreign Account Tax Compliance Act, or FATCA, generally imposes a 30% withholding tax on payments of certain types of income to foreign financial institutions (FFI) unless such FFIs either (i) enter into an agreement with the U.S. Treasury to report certain required information with respect to accounts held by U.S. persons (or held by foreign entities that have U.S. persons as substantial owners) or (ii) reside in a jurisdiction that has entered into an intergovernmental agreement (IGA) with the United States to collect and share such information and are in compliance with the terms of such IGA and any enabling legislation or regulations. The types of income subject to the tax include U.S. source interest and dividends, and the gross proceeds from the sale of any property that could produce U.S.-source interest or dividends received after December 31, 2018.

Most CLO vehicles in which OXLC invests will be treated as non-U.S. financial entities for this purpose, and therefore will be required to comply with these reporting requirements to avoid the 30% withholding. If a CLO vehicle in which OXLC invests fails to properly comply with these reporting requirements, it could reduce the amounts available to distribute to equity and junior debt holders in such CLO vehicle, which could materially and adversely affect OXLC s operating results and cash flows.

If the Fund is required to include amounts in income prior to receiving distributions representing such income, the Fund may have to sell some of its investments at times and/or at prices management would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities. If the Fund is not able to obtain cash from other sources, it may fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax.

For additional discussion regarding the tax implications of a RIC, see Note 2. Summary of Significant Accounting Policies – U.S. Federal Income Taxes.

The Fund's Series 2023 Shares and Series 2024 Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on securities comparable to the Series 2023 Shares and Series 2024 Shares may increase, which would likely result in a decline in the secondary market price of such shares prior to the term redemption date. The Fund may be unable to pay dividends on the Series 2023 Shares and Series 2024 Shares under some circumstances. The terms of any future indebtedness OXLC may incur could preclude the payment of dividends in respect of equity securities, including such shares, under certain conditions.

As a registered closed-end investment company, OXLC is required to comply with the asset coverage requirements of the 1940 Act and the Articles Supplementary governing OXLC's Preferred Stock. Under the

TABLE OF CONTENTS

1940 Act, the Fund may not issue additional Preferred Stock if immediately after such issuance the Fund will not have an asset coverage of at least 200% (defined as the ratio of the Fund's gross assets (less all liabilities and indebtedness not represented by senior securities) to its outstanding senior securities representing indebtedness, plus the aggregate involuntary liquidation preference of OXLC's outstanding Preferred Stock). In addition, the Articles Supplementary governing OXLC's Term Preferred Shares require that the Fund have an asset coverage of at least 200% as of the end of each fiscal quarter. If the asset coverage is not at least 200% as of such measurement dates, OXLC may not be able to incur additional debt or issue additional shares of Preferred Stock and could be forced to sell a portion of its investments to repurchase or redeem some shares of Preferred Stock when it is disadvantageous to do so, which could have a material adverse effect on the Fund's operations. Further, OXLC may be restricted from making distributions to holders of the Fund's common stock if the Fund does not have asset coverage of at least 200%. See Note 7. Mandatorily Redeemable Preferred Stock.

Given the ten-year original terms, and potential for early redemption, of the Series 2023 Shares and Series 2024 Shares, holders of such shares may face an increased reinvestment risk, which is the risk that the return on an investment purchased with proceeds from the sale or redemption of such shares may be lower than the return previously obtained from the investment in such shares, see Note 7. Mandatorily Redeemable Preferred Stock.

The Fund does not intend to have the Term Preferred Shares rated by any rating agency. Unrated securities usually trade at a discount to similar, rated securities. As a result, there is a risk that any such shares may trade at a price that is lower than they might otherwise trade if rated by a rating agency.

NOTE 13. RECENT ACCOUNTING PRONOUNCEMENTS

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern* (ASU 2014-15). The update is intended to define management's responsibility to evaluate whether there is a substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosure. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods within those annual periods. The Fund will adopt ASU 2014-15 beginning with the quarter ended June 30, 2017. The Fund does not anticipate that the adoption of ASU 2014-15 will have a material effect on the Fund's results of operation and financial condition.

In February 2015, the FASB issued ASU No. 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis* (ASU 2015-02). The new guidance applies to entities in all industries and provides a new scope exception to registered money market funds and similar unregistered money market funds. It makes targeted amendments to the current consolidation guidance and ends the deferral granted to investment companies from applying the VIE

guidance. ASU 2015-02 is effective for annual periods ending after December 15, 2015, and interim periods within those annual periods. The Fund adopted ASU 2015-02 beginning with the quarter ended June 30, 2016. The adoption of ASU 2015-02 did not affect the Fund's results of operation and financial condition as, under present guidance, no investments are required to be consolidated.

In April 2015, the FASB issued ASU No. 2015-03, *Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). The new guidance requires debt issuance costs (deferred financing costs) related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the related debt liability, similar to the presentation of debt discounts. Additionally, in August 2015, the FASB issued ASU 2015-15, *Interest Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements* (ASU 2015-15), which codifies an SEC staff announcement that entities are permitted to

defer and present debt issuance costs related to line of credit arrangements as assets and subsequent amortization of the deferred costs over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. ASU 2015-03 and ASU 2015-15 are effective for annual periods ending after December 15, 2015, and interim periods within those annual periods. The Fund adopted ASU 2015-03 and ASU 2015-15 beginning with the quarter ended June 30, 2016. The adoption of ASU 2015-03 and ASU 2015-15 did not have a material effect on the Fund's results of operation and financial condition; however, at September 30, 2016 the adoption of ASU 2015-03 did result in the reclassification of approximately \$4.2 million in deferred debt issuance costs which post-adoption are a direct deduction from the related debt liability. The September 30, 2016 balances have been adjusted to reflect the retrospective application, as required by ASU 2015-03.

In August 2016, the FASB issued ASU No. 2016-15, *Classification of Certain Cash Receipts and Cash Payments (a Consensus of the Emerging Issues Task Force)* (ASU 2016-15), which is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The Fund is currently assessing the impact of ASU 2016-15 and do not anticipate an impact on our financial position, results of operations or cash flows. ASU 2016-15 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted.

NOTE 14. ISSUANCES OF EQUITY SECURITIES

The Fund sold a total of 1,006,620 shares of common stock pursuant to an at-the-market share issuance plan during the six months ended September 30, 2016. The total amount of capital raised under these issuances was approximately \$11.3 million and net proceeds were approximately \$11.0 million after deducting the sales agent's commissions and offering expenses.

For the six months ended September 30, 2016, the Fund did not issue shares of common stock under the distribution reinvestment plan.

NOTE 15. COMMON SHARE REPURCHASE PROGRAM

On August 26, 2015, the Board of Directors authorized a repurchase program to be in place until the earlier of September 30, 2016 or until \$20 million of the Fund's outstanding shares of common stock had been repurchased. Under the repurchase program, OXLC was permitted to, but was not obligated to, repurchase its outstanding common

stock in the open market from time to time provided that OXLC complied with the prohibitions under the Fund's Insider Trading Policies and Procedures and the guidelines specified in Rule 10b-18 of the Securities Exchange Act of 1934, as amended, including certain price, market volume and timing constraints. In addition, any repurchases were conducted in accordance with the 1940 Act. The Fund did not repurchase shares of its outstanding common stock during the six months ended September 30, 2016.

NOTE 16. SUBSEQUENT EVENTS

On November 2, 2016, the Board of Directors declared the required monthly dividends on its Series 2023 and Series 2024 Term Preferred Shares (each, a Share), as follows:

	Per Share Dividend Amount Declared	2016/2017 Record Dates	2016/2017 Payable Dates
Series 2023	\$ 0.15625	December 16, January 16, February 16	December 30, January 31, February 28

NOTE 16. SUBSEQUENT EVENTS (continued)

In accordance with their terms, each of the Series 2023 Shares and Series 2024 Shares will pay a monthly dividend at a fixed rate of 7.50% and 8.125%, respectively, of the \$25.00 per share liquidation preference, or \$1.875 and \$2.03125 per share per year, respectively. This fixed annual dividend rate is subject to adjustment under certain circumstances, but will not in any case be lower than 7.50% and 8.125% per year, respectively, for each of the Series 2023 Shares and Series 2024 Shares.

On November 2, 2016, the Board of Directors declared a distribution of \$0.60 per share of common stock for the quarter ending December 31, 2016, payable on December 30, 2016 to shareholders of record as of December 16, 2016.

The Fund has evaluated events and transactions that occurred after September 30, 2016 and through the date that the financial statements were issued and noted no other events that necessitate adjustments to or disclosure in the financial statements.

TABLE OF CONTENTS

DISTRIBUTION REINVESTMENT PLAN

We have adopted a distribution reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our Board of Directors authorizes, and we declare, a cash distribution, our stockholders who have not opted out of our distribution reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions.

No action will be required on the part of a registered stockholder to have his cash distribution reinvested in shares of our common stock. A registered stockholder may elect to receive an entire distribution in cash by notifying Computershare Trust Company, N.A., the plan administrator and our transfer agent and registrar, by telephone, through the Internet or in writing so that such notice is received by the plan administrator no later than the record date for distributions to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive distributions in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received by telephone, through the Internet or writing prior to the record date, the plan administrator will, instead of crediting shares to the participant's account, issue a certificate registered in the participant's name for the number of whole shares of our common stock and a check for any fractional share, less any applicable fees.

Those stockholders whose shares are held by a broker or other financial intermediary may receive distributions in cash by notifying their broker or other financial intermediary of their election.

We expect to use primarily newly-issued shares to implement the plan, whether our shares are trading at a premium or at a discount to net asset value. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by an amount equal to ninety-five (95%) percent of the market price per share of our common stock at the close of regular trading on the Nasdaq Global Select Market on the valuation date fixed by our Board of Directors for such distribution. Market price per share on that date will be the closing price for such shares on the Nasdaq Global Select Market or, if no sale is reported for such day, at the average of their electronically reported bid and asked prices. We reserve the right to purchase shares in the open market in connection with our implementation of the plan. Shares purchased in open market transactions by the plan administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There is no charge to stockholders for receiving their distributions in the form of additional shares of our common stock. Any transaction fees, brokerage charges, plan administrator's fees or any other charges for handling distributions in stock are paid by us. There are no brokerage charges with respect to shares we have issued directly as a result of distributions payable in stock. If a participant elects by telephonic, Internet or written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant's account and remit the proceeds to the participant, the plan administrator is authorized to deduct a \$2.50 transaction fee plus brokerage charges from the proceeds.

Stockholders who receive distributions in the form of stock are subject to the same federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. The amount of the distribution for U.S. federal income tax purposes will be equal to the fair market value of the stock received. A stockholder's basis for

determining gain or loss upon the sale of stock received in a distribution from us will be equal to the amount treated as a distribution for U.S. federal income tax purposes.

The plan may be terminated by us upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend or distribution by us. All correspondence concerning the plan should be directed to the plan administrator as follows: through the Internet at *www.computershare/investor*, telephone number is 1-800-426-5523 and written correspondence can be mailed to Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77845.

TABLE OF CONTENTS**MANAGEMENT**

Our Board of Directors oversees our management. The Board of Directors currently consists of five members, three of whom are not interested persons of Oxford Lane Capital Corp. as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. Our Board of Directors elects our officers, who serve at the discretion of the Board of Directors. The responsibilities of each director will include, among other things, the oversight of our investment activity, the quarterly valuation of our assets, and oversight of our financing arrangements. The Board of Directors has also established an Audit Committee and a Valuation Committee, and may establish additional committees in the future.

Our directors and officers and their principal occupations during the past five years are set forth below. Our prospectus includes additional information about our directors and is available without charge, upon request by calling (203) 983-5275, or on the Securities and Exchange Commission website at <http://www.sec.gov>.

Biographical Information**Directors**

Our directors have been divided into two groups interested directors and independent directors. An interested director is an interested person as defined in Section 2(a)(19) of the 1940 Act.

Interested Directors

Messrs. Cohen and Rosenthal are interested persons of Oxford Lane Capital as defined in the 1940 Act due to their positions as Chief Executive Officer and President, respectively, of Oxford Lane Capital and Oxford Lane Management, Oxford Lane Capital's investment adviser, and as the managing member and non-managing member, respectively, of BDC Partners, the administrator for Oxford Lane Capital.

Jonathan H. Cohen has served as Chief Executive Officer of both Oxford Lane Capital Corp. and Oxford Lane Management since 2010. Mr. Cohen has also served since 2003 as Chief Executive Officer of both TICC Capital Corp. (NasdaqGS: TICC), a publicly traded business development company, and TICC Management, LLC, TICC Capital Corp.'s investment adviser, and as the managing member of BDC Partners. Mr. Cohen has also served since November 2015 as Chief Executive Officer of Oxford Bridge Management, LLC, the investment manager to Oxford Bridge, LLC, a private investment fund. Mr. Cohen is also a member

of the Board of Directors of TICC Capital Corp. Previously, Mr. Cohen managed technology equity research groups at Wit Capital, Merrill Lynch, UBS and Smith Barney. Mr. Cohen is a member of the Board of Trustees of Connecticut College. Mr. Cohen received a B.A. in Economics from Connecticut College and an M.B.A. from Columbia University. Mr. Cohen's depth of experience in managerial positions in investment management, securities research and financial services, as well as his intimate knowledge of our business and operations, gives our Board of Directors valuable industry-specific knowledge and expertise on these and other matters.

Saul B. Rosenthal has served as President of both Oxford Lane Capital Corp. and Oxford Lane Management since 2010. Mr. Rosenthal has also served as President since 2004 of TICC Capital Corp. (NasdaqGS: TICC), a publicly traded business development company, and since 2015 as President of Oxford Bridge Management, LLC. Mr. Rosenthal was previously an attorney at the law firm of Shearman & Sterling LLP. Mr. Rosenthal serves on the boards of LiftForward, Inc., the National Museum of Mathematics and YPO New York City. Mr. Rosenthal received a B.S., magna cum laude, from the Wharton School of the University of Pennsylvania, a J.D. from Columbia University Law School, where he was a Harlan Fiske Stone Scholar, and a LL.M. (Taxation) from New York University School of Law. Mr. Rosenthal's depth of experience in managerial positions in investment management, as well as his intimate knowledge of our business and operations, gives the Board of Directors the valuable perspective of a knowledgeable corporate leader.

Independent Directors

The following directors are not interested persons of Oxford Lane Capital, as defined in the 1940 Act.

Mark J. Ashenfelter presently serves as a Senior Vice President and the General Counsel of Haebler Capital, a private investment company located in Greenwich, CT. Prior to joining Haebler Capital in 1994, Mr. Ashenfelter was an associate at Cravath, Swaine & Moore from 1985 to 1992 and Cadwalader, Wickersham & Taft from 1992 to 1994. Wharton School at the University of Pennsylvania and a J.D. from Columbia Law School. Mr. Shin's extensive experience in investment banking provides the Board of Directors with valuable insights of an experienced and diligent financial professional, as well as a diverse perspective.

Executive Officers Who Are Not Directors

Bruce L. Rubin has served as our Chief Financial Officer and Corporate Secretary since August 2015, and as our Treasurer and Controller since our initial public offering in 2011. Mr. Rubin has also served as TICC Capital Corp.'s Controller since 2005, TICC Capital Corp.'s Treasurer since 2009, and TICC Capital Corp.'s Chief Financial Officer, Chief Accounting Officer and Corporate Secretary since August 2015. Mr. Rubin also currently serves as the Chief Financial Officer and Secretary of Oxford Lane Management, TICC Management, LLC, BDC Partners, and Oxford Bridge Management, LLC, the investment manager of Oxford Bridge, LLC, a private investment fund. From 1995 to 2003, Mr. Rubin was the Assistant Treasurer & Director of Financial Planning of the New York Mercantile Exchange, Inc., the largest physical commodities futures exchange in the world, and has extensive experience with Sarbanes-Oxley, treasury operations and SEC reporting requirements. From 1989 to 1995, Mr. Rubin was a manager in financial operations for the American Stock Exchange, where he was primarily responsible for budgeting matters. Mr. Rubin began his career in commercial banking as an auditor primarily of the commercial lending and municipal bond dealer areas. Mr. Rubin received his BBA in Accounting from Hofstra University where he also obtained his M.B.A. in Finance.

Gerald Cummins has served as our Chief Compliance Officer, as well as the Chief Compliance Officer of Oxford Lane Management, TICC Capital Corp., TICC Management, LLC, since June 2015 pursuant to an agreement between us and Alaric Compliance Services, LLC (Alaric), a compliance consulting firm. Mr. Cummins has also served since November 2015 as the Chief Compliance Officer of Oxford Bridge Management, LLC, the investment manager of Oxford Bridge, LLC, a private investment fund. Mr. Cummins has been a director of Alaric since June 2014 and in that capacity he also serves as the Chief Compliance Officer to one additional business development company and a private equity firm. Prior to joining Alaric, Mr. Cummins was a consultant for Barclays Capital Inc. from 2012 to 2013, where he participated in numerous compliance projects on pricing and valuation, compliance assessments, and compliance policy and procedure development. Prior to his consulting work at Barclays, Mr. Cummins was from 2010 to 2011 the COO and the CCO for BroadArch Capital and from 2009 to 2011 the CFO and CCO to its predecessor New Castle Funds, a long-short equity asset manager. Prior to that, Mr. Cummins spent 25 years at Bear Stearns Asset Management (BSAM), where he was a Managing Director and held senior compliance, controllers and operations risk positions. Mr. Cummins graduated with a B.A. in Mathematics from Fordham University.

Compensation of Chief Executive Officer and Other Executive Officers

We do not have a compensation committee because our executive officers do not receive any direct compensation from Oxford Lane Capital. Mr. Cohen, our Chief Executive Officer, and Mr. Rosenthal, our President, through their ownership interest in BDC Partners, the managing member of Oxford Lane Management, are entitled to a portion of any profits earned by Oxford Lane Management, which includes any fees payable to Oxford Lane Management under the terms of the Investment Advisory Agreement, less expenses incurred by Oxford Lane Management in performing its services under the Investment Advisory Agreement. Messrs. Cohen and Rosenthal do not receive any additional compensation from Oxford Lane Management in connection with the management of our portfolio.

The compensation of Mr. Rubin, our Chief Financial Officer, Treasurer and Corporate Secretary, is paid by our administrator, BDC Partners, subject to reimbursement by us of an allocable portion of such compensation for services rendered by Mr. Rubin to Oxford Lane Capital.

Mr. Cummins, our Chief Compliance Officer, is a director of Alaric, and performs his functions under the terms of an agreement between us and Alaric.

BOARD APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT

At an in-person meeting of our Board of Directors held on July 27, 2016, our Board of Directors unanimously voted to approve the Investment Advisory Agreement. In reaching a decision to approve the Investment Advisory Agreement, the Board of Directors reviewed a significant amount of information and considered and concluded, among other things:

The nature, quality and extent of the advisory and other services to be provided to us by Oxford Lane Management, including the responses in a questionnaire regarding Oxford Lane Management's investment process and Oxford Lane Management's policies and guidelines currently in place to monitor and manage the risk and volatility associated with the Company's portfolio, and the qualifications and abilities of the professional personnel of Oxford Lane Management and the compensation structure for such personnel, and concluded that such services are satisfactory;

The investment performance of OXLC and Oxford Lane Management including a comparison to the performance of OXLC's peer group, and concluded that OXLC's performance is reasonable in comparison to its peers;

Comparative data with respect to advisory fees or similar expenses paid by other management investment companies with similar investment objectives, and concluded that the total advisory fees paid by OXLC to Oxford Lane Management were reasonable;

Our historical and projected operating expenses and expense ratio compared to management investment companies with similar investment objectives, and concluded that our operating expenses were reasonable;

Any existing and potential sources of indirect income to Oxford Lane Management or BDC Partners from their relationships with OXLC and the profitability of those relationships, and concluded that Oxford Lane Management's profitability was not excessive with respect to us;

The services to be performed and the personnel performing such services under the Investment Advisory Agreement, and concluded that the services to be performed and the personnel performing such services were satisfactory;

The organizational capability and financial condition of Oxford Lane Management and its affiliates, and concluded that the organizational capability and financial condition of Oxford Lane Management were reasonable;

The due diligence-related expenses, travel expenses, and expenses associated with investigating and monitoring investments, and concluded that such expenses were reasonable; and

The possibility of obtaining similar services from other third party service providers or through an internally managed structure, and concluded that our current externally managed structure with Oxford Lane Management as our investment advisor was satisfactory.

Based on the information reviewed and the discussions detailed above, the Board of Directors, including all of the directors who are not interested persons as defined in the 1940 Act, concluded that the fees payable to Oxford Lane Management pursuant to the Investment Advisory Agreement were reasonable, and comparable to the fees paid by other management investment companies with similar investment objectives, in relation to the services to be provided.

The Board of Directors did not assign relative weights to the above factors or the other factors considered by it.

Individual members of the Board of Directors may have given different weights to different factors.
