Forward - Looking Financial Information This presentation contains forward - looking statements of the Company that relate to the current expectations, business plans and views of future events. Forward - looking statements often, but not always, are identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”, “expect”, “target”, “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved or other similar expressions and include statements in respect of the Company’s business plans and its ability to grow revenues and attract new customers and B2B partners, as examples only. Forward - looking statements are based on assumptions and analysis made by the Company in light of its experience and perception of historical trends, current conditions and expected future developments and other factors the Company believes are appropriate, and involve a number of risks and uncertainties. Should one or more of the risks materialize or should assumptions underlying the forward - looking statements prove incorrect, actual events or results might differ materially from events or results projected or suggested in these forward - looking statements. Given these risks, uncertainties and assumptions, prospective purchasers of securities should not place undue reliance on these forward - looking statements. These risks, uncertainties, assumptions and other factors could cause the Company’s actual results, performance, achievements and experience to differ materially from the expectations, future results, performance or achievements expressed or implied by the forward - looking statements. The forward - looking statements made in this Presentation relate only to events or information as of the date of this Presentation and the Company does not intend, nor assume any obligation, to update these forward - looking statements. Investors should read this Presentation with the understanding that the Company’s actual future results and achievements may be materially different from expectations.
