PROSPECTUS SUPPLEMENT
(To Prospectus dated December 1, 2016)

\$10,802,000

Common Stock

Trinity Place Holdings Inc. has entered into an amendment to the At The Market Offering Agreement, or the Amended Sales Agreement, with Craig-Hallum Capital Group LLC, or Craig-Hallum, relating to shares of our common stock that may be offered by this prospectus supplement and the accompanying prospectus. In accordance with the terms of the Amended Sales Agreement, we may offer and sell an aggregate of up to \$10,802,000 of common stock from time to time through Craig-Hallum, as sales agent. Under the terms of the Amended Sales Agreement, we may also sell shares to Craig-Hallum as principal for its own account.

Craig-Hallum is not required to sell any specific number or dollar amount of shares of our common stock but will use its commercially reasonable efforts consistent with its normal trading and sales practices, as our agent and subject to the terms of the Amended Sales Agreement, to sell the shares offered by this prospectus supplement and the accompanying prospectus. Sales of the shares, if any, may be made by any means permitted by law and deemed to be an at the market offering as defined in Rule 415 of the Securities Act of 1933, as amended, or the Securities Act, including sales made directly on the NYSE American, at market prices, in negotiated transactions at market prices prevailing at the time of sale or at prices related to such prevailing market prices, and/or any other method permitted by law and such other sales as may be agreed upon by Craig-Hallum and us. If we and Craig-Hallum agree on any method of distribution other than sales of shares of our common stock into the NYSE American or another existing trading market in the United States at market prices, we will file a further prospectus supplement providing all information about such offering as required by Rule 424(b) under the Securities Act.

Craig-Hallum will receive from us a commission of 2.5% based on the gross sales price per share for any shares sold through it as agent under the Amended Sales Agreement. A different amount of compensation may be paid by us when Craig-Hallum purchases shares as principal at a price agreed to by us and Craig-Hallum. We have also agreed to reimburse certain expenses of Craig-Hallum in connection with the Amended Sales Agreement. The net proceeds that we receive from sales of our common stock will depend on the number of shares actually sold and the offering price for such shares, but will not exceed \$10,802,000 in the aggregate. See Plan of Distribution beginning on page S-7 of this prospectus supplement. In connection with the sale of shares of our common stock on our behalf, Craig-Hallum may be deemed to be an underwriter within the meaning of the Securities Act, and the compensation of Craig-Hallum may be deemed to be underwriting commissions or discounts.

Our common stock is listed on the NYSE American under the symbol TPHS. On June 19, 2018, the last reported sale price for our common stock on the NYSE American was \$6.92 per share.

Investing in our securities involves a high degree of risk. See Risk Factors beginning on page S-5 of this prospectus supplement for more information.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the prospectus to which it relates is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus supplement relates only to an offering of common stock having an aggregate offering price of up to \$10.8 million through Craig-Hallum. These sales, if any, will be made pursuant to the terms of the At

The Market Offering Agreement entered into between us and Craig-Hallum on December 2, 2016, or the Sales Agreement, as amended on June 20, 2018, or the Amendment, and together the Amended Sales Agreement. Both the Sales Agreement and the Amendment have been filed with the SEC as exhibits to Current Reports on Form 8-K and are incorporated herein by reference.

This prospectus supplement and the accompanying base prospectus form part of a registration statement on Form S-3 that we filed with the SEC using a shelf registration process. This document contains two parts. The first part consists of this prospectus supplement, which provides you with specific information about this offering. The second part, the accompanying base prospectus, provides more general information, some of which may not apply to this offering. Generally, when we refer only to the prospectus, we are referring to both parts combined. This prospectus supplement may add, update or change information contained in the accompanying base prospectus. To the extent that any statement we make in this prospectus supplement is inconsistent with statements made in the accompanying base prospectus or any documents incorporated by reference herein or therein, the statements made in this prospectus supplement will be deemed to modify or supersede those made in the accompanying base prospectus and such documents incorporated by reference herein and therein; provided, however, that if any statement in one of these documents is inconsistent with a statement in another document having a later date for example, a document incorporated by reference in the accompanying base prospectus the statement in the document having the later date modifies or supersedes the earlier statement in accordance with Rule 412 promulgated under the Securities Act.

Unless otherwise indicated or unless the context otherwise requires, references in this prospectus supplement and the accompanying prospectus to Trinity, the Company, we, us and our refer to Trinity Place Holdings Inc., a Delaware corporation, and its subsidiaries and predecessor company.

You should rely only on the information contained in or incorporated by reference in this prospectus supplement, the accompanying base prospectus and in any free writing prospectus that we have authorized for use in connection with this offering. We have not, and Craig-Hallum has not, authorized anyone to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. You should assume that the information in this prospectus supplement, the accompanying base prospectus, the documents incorporated by reference in the accompanying base prospectus, and in any free writing prospectus that we have authorized for use in connection with this offering, is accurate only as of the date of those respective documents. Our business, financial condition, results of operations and prospects may have changed since those dates. You should read this prospectus supplement, the accompanying base prospectus, any free writing prospectus that we have authorized for use in connection with this offering, and the documents incorporated by reference herein and therein, in their entirety before making an investment decision. You should also read and consider the information in the documents to which we have referred you in the sections of this prospectus supplement entitled Where You Can Find More Information and Incorporation By Reference. We are not, and Craig-Hallum is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

The registration statement that contains the accompanying base prospectus (SEC Registration No. 333-214482) (including the exhibits filed with and the information incorporated by reference in the registration statement) contains additional important business and financial information about us and our common stock that is not presented or

Risk factors

An investment in our securities is highly speculative and involves a number of risks. You should carefully consider the information contained in the Risk Factors section beginning on page_S-5 of this prospectus supplement, and elsewhere in this prospectus supplement and the accompanying prospectus, and the risk factors and other information we incorporate by reference, before making your investment decision.

S-3

TABLE OF CONTENTS

RISK FACTORS

You should carefully consider the risks described below before making an investment decision. The risks described below are not the only ones we face. Additional risks we are not presently aware of or that we currently believe are immaterial may also impair our business operations. Our business could be harmed by any of these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. In assessing these risks, you should also refer to the risk factors and other information contained or incorporated by reference into this prospectus supplement and the accompanying prospectus, specifically including the risk factors contained in our Annual Report on Form 10-K for the financial year ended December 31, 2017 filed with the SEC on March 15, 2018 and the financial statements and related notes filed therewith.

The actual number of shares we will issue under the Amended Sales Agreement, and the amount of proceeds that we will receive, at any one time or in total, is uncertain.

Subject to certain limitations in the Amended Sales Agreement and compliance with applicable law, we have the discretion to deliver sales notices to Craig-Hallum at any time throughout the term of the Amended Sales Agreement. The number of shares that are sold by Craig-Hallum after delivery of a sales notice will fluctuate based on the market price of the common stock during the sales period and limits we set with Craig-Hallum. In addition, we are not obligated to issue any shares under the Amended Sales Agreement. Accordingly, and because the price per share of each share that is sold will fluctuate based on the market price of our common stock during the sales period, it is not possible at this stage to predict the number of shares, if any, that will ultimately be issued, or the resulting proceeds to us.

Even if we sell all of the shares that are able to be sold under the Amended Sales Agreement, we anticipate that we will continue to seek external sources of financing to fund operations in the future.

Our revenue generating activities have not yet produced sufficient funds for profitable operations. Accordingly, while we may raise gross proceeds of up to a maximum of \$10,802,000 through the issuance of shares under the Amended Sales Agreement, the profitable development of our business will be dependent upon the future success of our current operations as well as acquisition of new properties or businesses, which will likely require raising additional equity and/or debt financing on acceptable terms. We have relied upon, and may continue to rely substantially upon, equity and debt financing to fund our ongoing operations and the development of our business. We cannot assure you that additional sources of financing would be available to us on commercially favorable terms should our capital requirements exceed cash available from operations and existing cash and cash equivalents.

The price of our common stock is volatile and our shareholders investment in our stock could decline in value.

The market price of our common stock is subject to wide fluctuations in response to numerous factors, including factors that have little or nothing to do with us or our performance, and these fluctuations could materially reduce our stock price. These factors include, among other things, the fact that our stock is thinly traded, and as a result trades of small numbers of our shares can have a significant impact on the trading price of our stock, business conditions in our markets and the general state of the securities markets and the market for other real estate stocks, changes in capital

markets that affect the perceived availability of capital to companies in our industry, governmental legislation or regulation, and general economic and market conditions, such as recessions and downturns in the United States or global economy. Further, the issuance of the shares pursuant to the Amended Sales Agreement into the public market has the potential to cause significant downward pressure on the price of our common stock. In addition, the stock market historically has experienced significant price and volume fluctuations. These fluctuations are often unrelated to the operating performance of particular companies. These broad market fluctuations may cause declines in the market price of our common stock, which may make it difficult for you to resell shares of our common stock owned by you at times or at prices that you find attractive.

S-5

TABLE OF CONTENTS

Because we do not intend to pay dividends for the foreseeable future, shareholders will benefit from an investment in our common stock only if it appreciates in value.

We have never paid any cash dividends on our common stock and do not expect to declare cash dividends on the common stock in the foreseeable future. As a result, the success of an investment in our common stock will depend entirely upon any future appreciation. There is no guarantee that our common stock will appreciate in value or even maintain the price at which shareholders have purchased their shares.

Our management will have broad discretion in the use of the net proceeds from this offering, and we may not use these proceeds effectively.

We have not determined the specific allocation of the net proceeds of this offering. Our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not necessarily improve our results of operations or enhance the value of our common stock. The failure by our management to apply these funds effectively could result in financial losses that could have a material adverse effect on our business or financial condition and cause the price of our common stock to decline. In addition, our shareholders may not agree with the manner in which our management chooses to allocate and spend the net proceeds.

USE OF PROCEEDS

We currently intend to use the net proceeds from this offering for new investment opportunities, working capital and general corporate purposes. We have not yet determined the amount of net proceeds to be used specifically for any particular purpose or the timing of these expenditures nor have we entered into any commitments to make any material property acquisitions. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds from the sale of these securities.

PLAN OF DISTRIBUTION

We have entered into an amendment, dated June 20, 2018, to the At The Market Offering Agreement, dated December 2, 2016, with Craig-Hallum, or the Amended Sales Agreement, that provides for the issuance and sale by us of shares of our common stock having an aggregate offering price of up to \$10.8 million from time to time through Craig-Hallum acting as agent. Under the terms of the Amended Sales Agreement, we may also sell shares to Craig-Hallum as principal for its own account. This prospectus supplement relates to the offer and sale of such shares of common stock under such Amended Sales Agreement under the registration statement of which this prospectus supplement forms a part. The shares of common stock that may be sold under the Amended Sales Agreement represent the balance of shares of common stock remaining from the original At The Market Offering Agreement.

Upon instructions from us, Craig-Hallum will use commercially reasonable efforts, consistent with its normal sales and trading practices and applicable law, to sell shares of our common stock under the Amended Sales Agreement pursuant to this prospectus supplement. Sales of shares of common stock, if any, pursuant to this prospectus supplement may be made by any method permitted by law deemed to be an at the market offering as defined in Rule 415 under the Securities Act, including, without limitation, sales made directly on or through the NYSE American, the existing trading market for the common stock, on any other existing trading market for our common stock, or sales made to or through a market maker other than on an exchange, at market prices prevailing at the time of sale or at prices related to such prevailing market prices or in privately negotiated transactions. If we and Craig-Hallum agree on any method of distribution other than sales of shares of our common stock into the NYSE American or another existing trading market in the United States at market prices, we will file a further prospectus supplement providing all information about such offering as required by Rule 424(b) under the Securities Act. To the extent required by Regulation M, Craig-Hallum will not engage in any transactions that stabilize our common stock while the offering is ongoing under this prospectus supplement.

Under the Amended Sales Agreement between us and Craig-Hallum, we will instruct Craig-Hallum in a sales notice as to the maximum amount of shares of our common stock to be sold by Craig-Hallum daily, and the minimum price per share at which such shares may be sold. Subject to the conditions of the Amended Sales Agreement, Craig-Hallum will use its commercially reasonable efforts to solicit purchases on a particular day of all shares designated for sale by us on that day. The gross sales price of the shares sold will be the market price for shares of our common stock sold by Craig-Hallum on the trading market at the time of sale of the shares. We or Craig-Hallum may suspend the offering of our common stock upon proper notice and subject to certain other conditions. The obligation of Craig-Hallum under the Amended Sales Agreement to sell our common stock pursuant to a sales notice is subject to a number of conditions.

Craig-Hallum will provide written confirmation to us following the close of trading on the NYSE American following each day in which shares of our common stock are sold under the Amended Sales Agreement. Each confirmation will include the number of shares sold on the day, the aggregate gross sales proceeds, the net proceeds to us and the compensation payable by us to Craig-Hallum with respect to the sales.

We will pay Craig-Hallum commissions for its services in acting as our agent in the sale of our common stock. The compensation payable to Craig-Hallum for sales of shares of our common stock with respect to which Craig-Hallum acts as sales agent shall be equal to 2.5% of the gross sales price of those shares. There is no guarantee that there will be any sales of our common stock under this prospectus supplement and the accompanying base prospectus and actual sales, if any, of our common stock under this prospectus supplement and the accompanying base prospectus may result in gross proceeds to us of less than \$10.8million, exclusive of any sales agent compensation or other offering fees and expenses.

Edgar Filing: Trinity Place Holdings Inc. - Form 424B5

Settlement for sales of shares of our common stock will occur on the second business day following the date on which any sales are made. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

In connection with the sale of shares of our common stock on our behalf, Craig-Hallum may be deemed to be an underwriter within the meaning of the Securities Act, and the compensation of Craig-Hallum may be deemed to be underwriting commissions or discounts. We have also agreed to reimburse Craig-Hallum for

S-7

TABLE OF CONTENTS

certain specified expenses, including the fees and disbursements of its legal counsel in an amount not to exceed \$50,000 in connection with the Amended Sales Agreement, and periodic due diligence fees not to exceed \$5,000 per calendar quarter. We have agreed to provide indemnification and contribution to Craig-Hallum with respect to certain civil liabilities, including liabilities under the Securities Act and the Exchange Act.

We estimate that the total expenses of the offering payable by us, excluding commissions payable to Craig-Hallum under the Amended Sales Agreement, will be approximately \$100,000.

The offering of shares of our common stock pursuant to the Amended Sales Agreement will terminate upon the earlier of (1) the sale of all of our common stock provided for in this prospectus supplement, or (2) the termination of the Amended Sales Agreement. The Amended Sales Agreement may be terminated by us at any time in our sole discretion by giving five business days' written notice to Craig-Hallum, or by Craig-Hallum at any time in its sole discretion. The Amended Sales Agreement will remain in full force and effect until the earlier of June 30, 2019 and such date that the Amended Sales Agreement is terminated in accordance with the terms thereof, subject to extension of the term upon mutual agreement of Craig-Hallum and us.

This is a brief summary of the material provisions of the Amended Sales Agreement and does not purport to be a complete statement of its terms and conditions. A copy of both the Sales Agreement and the Amendment have been filed with the SEC as exhibits to Current Reports on Form 8-K and are incorporated herein by reference.

Craig-Hallum and its affiliates may in the future provide various investment banking and other financial services for us for which services they may in the future receive customary fees. The principal business address of Craig-Hallum is 222 South Ninth Street, Suite 350, Minneapolis, MN 55402.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the specific risk factors described below and set forth under "Risk Factors" in Item 1A of Part I of our most recent Transition Report on Form 10-KT or Annual Report on Form 10-K, any subsequent Quarterly Reports on Form 10-Q and any subsequent Current Reports on Form 8-K that we file after the date of this prospectus, together with any amendments or supplements thereto, and all other information contained or incorporated by reference into this prospectus, as updated by our subsequent filings under the Exchange Act, and the risk factors and other information contained in any applicable prospectus supplement before deciding whether to invest in our securities. For more information, see "Incorporation by Reference". The risks and uncertainties described in this prospectus and the documents incorporated by reference in this prospectus are not the only ones facing us. Additional risks and uncertainties that we do not presently know about or that we currently believe are not material may also adversely affect our business. If any of the risks and uncertainties described in this prospectus or the documents incorporated by reference herein actually occur, our business, financial condition and results of operations could be adversely affected in a material way. This could cause the value of our securities to decline, perhaps significantly, and you may lose part or all of your investment.

Risk Factors Related to Our Business

We have a limited operating history and have not generated a profit and consequently our business plan is difficult to evaluate and our long term viability cannot be assured.

Our prospects for financial success are difficult to assess because we have a limited operating history since emergence from bankruptcy and, more recently, as a going concern. Our predecessor filed for Chapter 11 relief on November 2, 2011, and we emerged from bankruptcy on September 14, 2012. We resumed reporting on the going concern basis of accounting on February 10, 2015. Since emergence from bankruptcy, we have generated limited revenues and had negative cash flow from operations and the development of our business plan will require substantial capital expenditures. Our business could be subject to any or all of the problems, expenses, delays and risks inherent in the establishment of a new business enterprise, including, but not limited to capital resources. There can be no assurance that our business will be successful, that we will be able to achieve or maintain a profitable operation, or that we will not encounter unforeseen difficulties that may deplete our capital resources more rapidly than anticipated. There can be no assurance that we will achieve or sustain profitability or positive cash flows from our operating activities.

Much of our current business plan is focused on the development of 77 Greenwich, and an inability to execute this business plan could have a material adverse effect on our results of operations.

Our business plan includes the development and, redevelopment of our remaining commercial real estate properties and in particular the development of 77 Greenwich which currently makes up a majority of our assets. As a result, our revenues and future growth are heavily dependent on the success of implementing our business plan to develop 77 Greenwich, which is currently in pre-development. An inability to successfully execute our business plan with respect to 77 Greenwich could have a material adverse effect on our results of operations.

Our investment in property development may be more costly than anticipated.

We intend to continue to develop and redevelop our current and future properties. Our current and future development and construction activities may be exposed to the following risks:

we may be unable to proceed with the development of our properties because we cannot obtain financing on favorable terms or at all;

we may incur construction costs for a development project that exceed our original estimates due to increases in interest rates and increased materials, labor, leasing or other costs, which could make completion of the project less profitable because market rents may not increase sufficiently to compensate for the increase in construction costs;

we may be unable to obtain, or face delays in obtaining, required zoning, land-use, building, occupancy, and other governmental permits and authorizations, which could result in increased costs and could require us to abandon our activities entirely with respect to a project;

2

TABLE OF CONTENTS

we may abandon development opportunities after we begin to explore them and as a result we may lose deposits or fail to recover expenses already incurred;

we may expend funds on and devote management's time to projects which we do not complete;

we may be unable to complete construction and/or leasing of a property on schedule or at all; and

we may suspend development projects after construction has begun due to changes in economic conditions or other factors, and this may result in the write-off of costs, payment of additional costs or increases in overall costs when the development project is restarted.

Investment returns from our properties planned to be developed may be less than anticipated.

Our properties planned to be developed may be exposed to the following risks:

we may sell condominiums at future developed properties at prices that are less than the prices projected at the time we decide to undertake the development;

operating expenses may be greater than projected at the time of development, resulting in our investment being less profitable than we expected; and

the pace of condominium sales at future developed properties may fluctuate depending on a number of factors, including market and economic conditions, and may result in our investments being less profitable than we expected or not profitable at all.

We face risks associated with property acquisitions.

We may acquire interests in properties, individual properties and portfolios of properties, including large portfolios that could significantly increase our size and alter our capital structure. Our acquisition activities may be exposed to, and their success may be adversely affected by, the following risks:

we may be unable to meet required closing conditions;

we may be unable to finance acquisitions and developments of properties on favorable terms or at all;

we may be unable to lease our acquired properties on the same terms or to the same level of occupancy as our existing properties;

acquired properties may fail to perform as we expected;

we may expend funds on, and devote management time to, acquisition opportunities which we do not complete, which may include non-refundable deposits;

our estimates of the costs we incur in renovating, improving, developing or redeveloping acquired properties may be inaccurate;

we may not be able to obtain adequate insurance coverage for acquired properties; and

we may be unable to quickly and efficiently integrate new acquisitions and developments, particularly acquisitions of portfolios of properties, into our existing operations, and therefore our results of operations and financial condition could be adversely affected.

We may acquire properties subject to both known and unknown liabilities and without any recourse, or with only limited recourse to the seller. As a result, if a liability were asserted against us arising from our ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow. Unknown liabilities with respect to properties acquired might include:

claims by tenants, vendors or other persons arising from dealing with the former owners of the properties;

liabilities incurred in the ordinary course of business;

TABLE OF CONTENTS

claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the properties; and

liabilities for clean-up of undisclosed environmental contamination.

Competition for acquisitions may reduce the number of acquisition opportunities available to us and increase the costs of those acquisitions.

We may acquire properties when we are presented with attractive opportunities. We may face competition for acquisition opportunities from other investors, particularly those investors who are willing to incur more leverage, and this competition may adversely affect us by subjecting us to the following risks:

an inability to acquire a desired property because of competition from other well-capitalized real estate investors, including publicly traded and privately held REITs, private real estate funds, domestic and foreign financial institutions, life insurance companies, sovereign wealth funds, pension trusts, partnerships and individual investors; and

an increase in the purchase price for such acquisition property.

If we are unable to successfully acquire additional properties, our ability to grow our business could be adversely affected. In addition, increases in the cost of acquisition opportunities could adversely affect our results of operations.

Our revenues and the value of our portfolio are affected by a number of factors that affect investments in leased real estate generally.

We are subject to the general risks of investing in and owning leased real estate. These include the ability to secure leases with new tenants, the non-performance of lease obligations by tenants, leasehold improvements that will be costly or difficult to remove or certain upgrades that may be needed should it become necessary to re-rent the leased space for other uses, rights of termination of leases due to events of casualty or condemnation affecting the leased space or the property or due to interruption of the tenant's quiet enjoyment of the leased premises, and obligations of a landlord to restore the leased premises or the property following events of casualty or condemnation. The occurrence of any of these events could adversely impact our results of operations, liquidity and financial condition. In addition, if our competitors offer space at rental rates below our current rates or the market rates, we may lose current or potential tenants to other properties in our markets. Additionally, we may need to reduce rental rates below our current rates in order to retain tenants upon expiration of their leases or to attract new tenants. Our results of operations and cash flow may be adversely affected as a result of these factors.

We may be unable to lease vacant space, renew our current leases, or re-lease space as our current leases expire.

We cannot assure you that leases at our properties will be renewed or that such properties will be re-leased at favorable rental rates. If the rental rates for our properties decrease, our tenants do not renew their leases or we do not re-lease a significant portion of our available space, including vacant space resulting from tenant defaults or space that is currently unoccupied, and space for which leases are scheduled to expire, our financial condition, results of operations and cash flows could be materially adversely affected. The bankruptcy of, or a downturn in the business of, any of our major tenants causing them to reject their leases, or to not renew their leases as they expire, or renew at lower rental rates, may adversely affect our cash flows and property values. In addition, if we are unable to renew leases or re-lease a property, the resale value of that property could be diminished because the market value of a particular property will depend in part upon the value of the leases of such property.

Competition may adversely affect our ability to attract and retain tenants and to purchase properties.

There are numerous commercial developers, real estate companies, financial institutions and other investors with greater financial resources than we have that compete with us in seeking tenants who will lease space in our properties and properties for acquisition. Our competitors include real estate investment trusts, financial institutions, private funds, insurance companies, pension funds, private companies, family offices,

4

TABLE OF CONTENTS

sovereign wealth funds and individuals. This competition may result in a higher cost for properties than we wish to pay. In addition, retailers at our properties face increasing competition from outlet malls, discount shopping clubs, e-commerce, direct mail and telemarketing, which could reduce rents payable to us and reduce our ability to attract and retain tenants at our properties leading to increased vacancy rates at our properties.

We may become subject to the risks associated with partnerships and joint ventures.

We have formed a joint venture between a wholly-owned subsidiary of the Company and an affiliate of Pacolet Milliken Enterprises, Inc., and may become involved in additional partnerships and/or joint ventures in the future with respect to current or future properties. Partnerships and joint venture investments may involve risks not otherwise present for investments made or owned solely by us, including the possibility that our partner or co-venturer might become bankrupt, or may take action contrary to our instructions, requests, policies or objectives. Other risks of joint venture investments include impasse on decisions, such as a sale, because neither we nor a joint venture partner would have full control over the joint venture, activities conducted by a partner that have a negative impact on the joint venture or us, and disputes with our partner. Also, there is no limitation under our organizational documents as to the amount of our funds that may be invested in joint ventures.

Our ability to develop and/or redevelop our properties and enter into new leases with tenants will depend on our obtaining certain permits, site plan approvals and other governmental approvals from local municipalities, which we may not be able to obtain on a timely basis or at all.

In order to develop and/or redevelop our properties, we will be required to obtain certain permits, site plan approvals or other governmental approvals from local municipalities. We may not be able to secure all the necessary permits or approvals on a timely basis or at all, which may prevent us from developing and/or redeveloping our properties according to our business plan. The specific permit and approval requirements are set by the state and the various local jurisdictions, including but not limited to city, town, county, township and state agencies having control over the specific properties. Lack of permits and approvals to develop and/or redevelop our properties could severely and adversely affect our business.

We have generated minimal revenues from operations and have limited cash resources, and may be reliant on external sources of financing to fund operations in the future.

Our revenue generating activities have not yet produced sufficient funds for profitable operations. Our continued operation will be dependent upon the success of future operations and will likely require raising additional financing on acceptable terms. We have relied and may continue to rely substantially upon equity and debt financing to fund our ongoing operations. There can be no assurance that additional sources of financing would be available to us on commercially favorable terms should our capital requirements exceed cash available from operations and existing cash and cash equivalents.

The loss of key personnel upon whom we depend to operate our business or the inability to attract additional qualified personnel could adversely affect our business.

We believe that our future success will depend in large part on our ability to retain or attract highly qualified management and other personnel, including in particular our President and Chief Executive Officer, Matthew Messenger. We may not be successful in retaining key personnel or in attracting other highly qualified personnel. Any inability to retain or attract qualified management and other personnel could have a material adverse effect on our business, results of operations and financial condition.

The failure of certain of our subsidiaries to repay or refinance outstanding loans and any liability we incur as a result of the financing arrangements and our guarantees required by those loans could have a material and adverse impact on our financial condition, results of operations and cash flows.

Certain of our subsidiaries have entered into loan agreements that are secured by our properties. The failure by such subsidiaries to make scheduled repayments under the loan agreements, or the default of any of the obligations under the loans, would have an adverse impact on our financial condition, results of operations

TABLE OF CONTENTS

and cash flows. Upon the occurrence of an event of default, our subsidiary may be required to immediately repay all amounts outstanding under the respective loan and the lenders may exercise other remedies available to them, including foreclosing on the respective property securing the loan.

Our ability to utilize our NOLs to reduce future tax payments may be limited as a result of future transactions.

Section 382 of the Internal Revenue Code, or the Code, contains rules that limit the ability of a company that undergoes an ownership change, which is generally any change in ownership by certain stockholders of more than 50% of its stock over a three-year period, to utilize its NOLs after the ownership change. These rules generally operate by focusing on ownership changes involving stockholders who directly or indirectly own 5% or more of the stock of a company and any change in ownership arising from a new issuance of stock by us. Generally, if an ownership change occurs, the annual taxable income limitation on the use of NOLs is equal to the product of the applicable long term tax exempt rate and the value of our stock immediately before the ownership change.

In order to protect our ability to utilize our NOLs and certain other tax attributes, our certificate of incorporation includes certain transfer restrictions with respect to our stock, which may limit the liquidity of our common stock.

To reduce the risk of a potential adverse effect on our ability to use our NOLs and certain other tax attributes for U.S. Federal income tax purposes, our certificate of incorporation contains certain transfer restrictions with respect to our stock by substantial stockholders. These restrictions may adversely affect the ability of certain holders of our common stock to dispose of or acquire shares of our common stock and may have an adverse impact on the liquidity of our stock generally.

Breaches of information technology systems could materially harm our business and reputation.

We collect and retain on information technology systems certain financial, personal and other sensitive information provided by third parties, including tenants, vendors and employees. We also rely on information technology systems for the collection and distribution of funds.

There can be no assurance that we will be able to prevent unauthorized access to sensitive information or the unauthorized distribution of funds. Any loss of this information or unauthorized distribution of funds as a result of a breach of information technology systems may result in loss of funds to which we are entitled, legal liability and costs (including damages and penalties), as well as damage to our reputation, that could materially and adversely affect our business and financial performance.

Political and economic uncertainty could have an adverse effect on us.

We cannot predict how current political and economic uncertainty, including uncertainty related to taxation, will affect our critical tenants, joint venture partners, lenders, financial institutions and general economic conditions, including the health and confidence of the consumer and the volatility of the stock market.

Political and economic uncertainty poses a risk to us in that it may cause consumers to postpone discretionary spending in response to tighter credit, reduced consumer confidence and other macroeconomic factors affecting

The failure of certain of our subsidiaries to repay or refinance outstanding loans and any liability we incur as a result

consumer spending behavior, resulting in a downturn in the business of our tenants. In the event current political and economic uncertainty results in financial turmoil affecting the banking system and financial markets or significant financial service institution failures, there could be a new or incremental tightening in the credit markets, low liquidity, and extreme volatility in fixed income, credit, currency and equity markets. Each of these could have an adverse effect on our business, financial condition and operating results.

We may incur significant costs to comply with environmental laws and environmental contamination may impair our ability to lease and/or sell real estate.

Our operations and properties are subject to various federal, state and local laws and regulations concerning the protection of the environment, including air and water quality, hazardous or toxic substances and health and safety. Under some environmental laws, a current or previous owner or operator of real estate

TABLE OF CONTENTS

may be required to investigate and clean up hazardous or toxic substances released at a property. The owner or operator may also be held liable to a governmental entity or to third parties for property damage or personal injuries and for investigation and clean-up costs incurred by those parties because of the contamination. These laws often impose liability without regard to whether the owner or operator knew of the release of the substances or caused the release. The presence of contamination or the failure to remediate contamination may impair our ability to sell or lease real estate or to borrow using the real estate as collateral. Other laws and regulations govern indoor and outdoor air quality including those that can require the abatement or removal of asbestos-containing materials in the event of damage, demolition, renovation or remodeling and also govern emissions of and exposure to asbestos fibers in the air. The maintenance and removal of lead paint and certain electrical equipment containing polychlorinated biphenyls (PCBs) are also regulated by federal and state laws. We are also subject to risks associated with human exposure to chemical or biological contaminants such as molds, pollens, viruses and bacteria which, above certain levels, can be alleged to be connected to allergic or other health effects and symptoms in susceptible individuals. We could incur fines for environmental compliance and be held liable for the costs of remedial action with respect to the foregoing regulated substances or related claims arising out of environmental contamination or human exposure to contamination at or from our properties.

Each of our properties has been subject to varying degrees of environmental assessment. To date, these environmental assessments have not revealed any environmental condition material to our business. However, identification of new compliance concerns or undiscovered areas of contamination, changes in the extent or known scope of contamination, human exposure to contamination or changes in clean-up or compliance requirements could result in significant costs to us.

Compliance or failure to comply with the Americans with Disabilities Act or other safety regulations and requirements could result in substantial costs.

The Americans with Disabilities Act, or ADA, generally requires that public buildings, including our properties, meet certain federal requirements related to access and use by disabled persons. These rules are subject to interpretation and change. Noncompliance could result in the imposition of fines by the federal government or the award of damages to private litigants and/or legal fees to their counsel. If, under the ADA, we are required to make substantial alterations and capital expenditures in one or more of our operating properties, including the removal of access barriers, it could adversely affect our financial condition and results of operations.

Our properties are subject to various federal, state and local regulatory requirements, such as state and local fire and life safety requirements. If we fail to comply with these requirements, we could incur fines or private damage awards. We do not know whether existing requirements will change or whether compliance with future requirements will require significant unanticipated expenditures that will affect our cash flow and results of operations.

Risks Related to Our Common Stock

Our common stock is thinly traded and the price of our common stock may fluctuate significantly.

Our common stock is listed on the NYSE MKT. Our common stock is thinly traded. We cannot assure stockholders that an active market for our common stock will develop in the foreseeable future or, if developed, that it will be sustained. As a result stockholders may not be able to resell their common stock. Because our common stock is thinly traded, even small trades can have a significant impact on the market price of our common stock. Volatility in the

We may incur significant costs to comply with environmental laws and environmental contamination may impair our

market price of our common stock may prevent stockholders from being able to sell their shares at or above the price paid for such shares. The market price could fluctuate significantly for various reasons, many of which are beyond our control, including:

volatility in global and/or U.S. equities markets;
changes in the real estate markets in which we operate;
our ability to develop or, re-develop 77 Greenwich and our other properties;
our ability to close on previously announced acquisitions;

7

TABLE OF CONTENTS

our financial results or those of other companies in our industry;
the public's reaction to our press releases and other public announcements and our filings with the SEC;
new laws or regulations or new interpretations of laws or regulations applicable to our business;
changes in general conditions in the United States and global economies or financial markets, including those resulting from war, incidents of terrorism or responses to such events;
the potential issuance of additional shares of common stock;
sales of common stock by our executive officers, directors and significant stockholders;
changes in accounting standards, policies, guidance, interpretations or principles; and
other factors described in our filings with the SEC, including among others in connection with the risks noted herein.

A sale of a substantial number of shares of our common stock may cause the price of our common stock to decline and may impair our ability to raise capital in the future.

Finance transactions resulting in a large amount of newly issued shares that become readily tradable, or other events that cause current stockholders to sell shares, could place downward pressure on the trading price of our stock. In addition, the lack of a robust resale market may require a stockholder who desires to sell a large number of shares of common stock to sell the shares in increments over time to mitigate any adverse impact of the sales on the market price of our stock.

If our stockholders sell, or the market perceives that our stockholders intend to sell for various reasons, including the ending of restrictions on resale of substantial amounts of our common stock in the public market, including shares issued upon the exercise of outstanding options, the market price of our common stock could fall. Sales of a substantial number of shares of our common stock may make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate. In addition, until our common stock is more widely held and actively traded, small sales or purchases will likely cause the price of our common stock to fluctuate dramatically up or down without regard to our financial health or business prospects.

Stockholders may experience dilution of their ownership interests because of the future issuance of additional shares of our common stock.

In the future, we may issue additional equity securities in capital raising transactions or otherwise, resulting in the dilution of the ownership interests of our present stockholders. We are currently authorized to issue an aggregate of 120,000,000 shares of capital stock consisting of 79,999,997 shares of common stock, one share of a class of special stock and 40,000,000 shares of blank-check preferred stock. As of September 30, 2016, there were 25,493,521 shares of our common stock and one share of special stock outstanding.

Any future issuance of our equity securities pursuant to a prospectus supplement or otherwise may dilute then-current stockholders' ownership percentages and could also result in a decrease in the fair market value of our equity securities, because our assets would be owned by a larger pool of outstanding equity. We may need to raise additional capital through public or private offerings of our common stock or other securities that are convertible into or exercisable for our common stock. We may also issue such securities in connection with hiring or retaining employees and consultants, as payment to providers of goods and services, in connection with future acquisitions and investments, development, redevelopment and repositioning of assets, or for other business purposes. Our board of directors may at any time authorize the issuance of additional common stock without stockholder approval, unless the approval of our common stockholders is required by applicable law, rule or regulation, including NYSE MKT regulations, or our certificate of incorporation. The terms of preferred equity securities we may issue in future

A sale of a substantial number of shares of our common stock may cause the price of our common stock to decline

transactions may be more favorable to new investors, and may include dividend and/or liquidation preferences, superior voting rights and the issuance of warrants or other derivative securities, which may have a further dilutive effect. Also, the future issuance of

any such additional shares of common stock or other securities may create downward pressure on the trading price of our common stock. There can be no assurance that any such future issuances will not be at a price or have exercise prices below the price at which shares of the common stock are then traded.

Over 50% of our shares of common stock are currently controlled by four of our stockholders who may have the ability to influence the election of directors and the outcome of matters submitted to our stockholders.

Over 50% of our shares of common stock are controlled by four of our stockholders. As a result, these stockholders may have the ability to significantly influence the outcome of issues submitted to our stockholders. The interests of these stockholders may not always coincide with our interests or the interests of other stockholders, and they may act in a manner that advances their best interests and not necessarily those of other stockholders. The concentration of ownership could also deter unsolicited takeovers, including transactions in which stockholders might otherwise receive a premium for their shares over then current market prices.

The holder of our special stock has the right to appoint a member to our board of directors and, consequently, the ability to exert influence over us.

In connection with the investment in us by Third Avenue Trust, on behalf of Third Avenue Real Estate Value Fund, or Third Avenue, a beneficial holder of 16.6% of our common stock, Third Avenue was issued one share of a class of special stock and our certificate of incorporation was amended to provide that, subject to the other terms and conditions of our certificate of incorporation, from the issuance of the one share of special stock and until the Special Stock Ownership Threshold of 2,345,000 shares of common stock is no longer satisfied, Third Avenue has the right to elect one director to the board of directors. As a result, this stockholder may be able to exert influence over our policies and management, potentially in a manner which may not be in our best interests or the best interests of the other stockholders, until such time as the Special Stock Ownership Threshold is no longer satisfied.

We have not paid dividends on our common stock in the past and do not expect to pay dividends on our common stock for the foreseeable future. Any return on investment may be limited to the value of our common stock.

No cash dividends have been paid on our common stock. We expect that any income received from operations will be devoted to our future operations and growth. We do not expect to pay cash dividends on our common stock in the near future. Payment of dividends in the future will depend upon our profitability at the time, cash available for those dividends, and such other factors as our board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on an investor's investment will only occur if our stock price appreciates.

Our charter documents and Delaware law could prevent a takeover that stockholders consider favorable and could also reduce the market price of our stock.

Our certificate of incorporation and bylaws and Delaware law contain provisions that could delay or prevent a change in control of us. These provisions could also make it more difficult for stockholders to elect directors and take other corporate actions. In addition to the matters identified in the risk factors above relating to the provisions of our

Over 50% of our shares of common stock are currently controlled by four of our stockholders who may have the ability

certificate of incorporation, these provisions include:

a classified board of directors with two-year staggered terms;
limitations in our certificate of incorporation on acquisitions and dispositions of our common stock designed to protect our NOLs and certain other tax attributes; and
authorization for blank check preferred stock, which could be issued with voting, liquidation, dividend and other rights superior to our common stock.

These and other provisions in our certificate of incorporation and bylaws and under Delaware law could discourage potential takeover attempts, reduce the price that investors might be willing to pay in the future for shares of common stock and result in the market price of the common stock being lower than it would be without these provisions.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratios of earnings to fixed charges for the periods indicated (\$in thousands). Since March 1, 2015, the start of the transition period that resulted from a change in our fiscal year end to December 31 and the reversion of our accounting basis to the going concern basis in February 2015, our net losses were insufficient to cover fixed charges. Accordingly, the ratio information is not applicable for such periods.

	Nine Months Ended September 30, 2016	Transition Period from March 1, 2015 to December 31, 2015
Ratio of Earnings to Fixed Charges⁽¹⁾		

For the nine months ended September 30, 2016 and the transition period from March 1, 2015 to December 31, 2015, we had no earnings and, therefore, are unable to calculate the ratio of fixed charges to earnings. Our earnings (1) for those periods were insufficient to cover fixed charges by \$6,449 and \$7,923, respectively. The ratio of earnings to fixed charges and preferred stock dividends is the same as the ratio of earnings to fixed charges for all periods presented because we paid no preferred dividends during these periods.

DESCRIPTION OF PREFERRED STOCK

The following description of the terms of our preferred stock is only a summary. The specific terms of any series of preferred stock will be described in the applicable prospectus supplement. This description and the description contained in any prospectus supplement are subject to and qualified in their entirety by reference to our certificate of incorporation and bylaws, each of which has previously been filed with the SEC and which we incorporate by reference as exhibits to the registration statement of which this prospectus is a part, and the DGCL.

General

Our charter provides that we may issue up to 40,000,000 shares of a class of designation preferred stock, par value \$0.01 per share. As of the date of this prospectus, we did not have any shares of preferred stock outstanding.

Prior to the issuance of shares of preferred stock, our board of directors is required to adopt resolutions and file a Certificate of Designations with the Secretary of State of the State of Delaware, fixing for each such series the designations, powers, preferences, rights, qualifications, limitations and restrictions of the shares of such series. Our board of directors could authorize the issuance of shares of preferred stock with terms and conditions which could have the effect of discouraging a takeover or other transaction which holders of some, or a majority, of such shares might believe to be in their best interests or in which holders of some, or a majority, of such shares might receive a premium for their shares over the then-market price of such shares.

Subject to limitations prescribed by the DGCL and our charter and bylaws, our board of directors is authorized to fix the number of shares constituting each series of preferred stock and the designations, powers, preferences, rights, qualifications, limitations and restrictions of the shares of such series, including such provisions as may be desired concerning voting, redemption, dividends, dissolution or the distribution of assets, conversion or exchange, and such other subjects or matters as may be fixed by resolution of the board of directors. Each series of preferred stock that we offer under this prospectus will, when issued, be fully paid and nonassessable and will not have, or be subject to, any preemptive or similar rights.

The applicable prospectus supplement(s) will describe the following terms of the series of preferred stock in respect of which this prospectus is being delivered:

- the title and stated value of the preferred stock;
- the number of shares of the preferred stock offered, the liquidation preference per share and the purchase price of the preferred stock;
- the dividend rate(s), period(s) and/or payment date(s) or the method(s) of calculation for dividends;
- whether dividends shall be cumulative or non-cumulative and, if cumulative, the date from which dividends on the preferred stock shall accumulate;
- the procedures for any auction and remarketing, if any, for the preferred stock;
- the provisions for a sinking fund, if any, for the preferred stock;
- the provisions for redemption, if applicable, of the preferred stock;
- any listing of the preferred stock on any securities exchange or market;
- the terms and conditions, if applicable, upon which the preferred stock will be convertible into common stock or another series of our preferred stock, including the conversion price (or its manner of calculation) and conversion period;
- the terms and conditions, if applicable, upon which preferred stock will be exchangeable into our debt securities,

including the exchange price, or its manner of calculation, and exchange period;

voting rights, if any, of the preferred stock;

a discussion of any material and/or special U.S. federal income tax considerations applicable to the preferred stock;

the relative ranking and preferences of the preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs;
any limitations on issuance of any series of preferred stock ranking senior to or on a parity with the preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs; and
any other specific terms, preferences, rights, limitations or restrictions on the preferred stock.

Rank

Unless otherwise specified in the prospectus supplement, with respect to dividend rights and rights upon liquidation, dissolution or winding up of the Company, the preferred stock will rank:

senior to all classes or series of our common stock, and to all equity securities issued by us the terms of which specifically provide that such equity securities rank junior to the preferred stock with respect to dividend rights or rights upon the liquidation, dissolution or winding up of us;
on a parity with all equity securities issued by us that do not rank senior or junior to the preferred stock with respect to dividend rights or rights upon the liquidation, dissolution or winding up of us; and
junior to all equity securities issued by us the terms of which do not specifically provide that such equity securities rank on a parity with or junior to the preferred stock with respect to dividend rights or rights upon the liquidation, dissolution or winding up of us (including any entity with which we may be merged or consolidated or to which all or substantially all of our assets may be transferred or which transfers all or substantially all of our assets).

As used for these purposes, the term equity securities does not include convertible debt securities.

TABLE OF CONTENTS

DESCRIPTION OF WARRANTS

The following description, together with the additional information we may include in any applicable prospectus supplements, summarizes the material terms and provisions of the warrants that we may offer under this prospectus and the related warrant agreements and warrant certificates. While the terms summarized below will apply generally to any warrants that we may offer, we will describe the particular terms of any series of warrants in more detail in the applicable prospectus supplement. If we indicate in the prospectus supplement, the terms of any warrants offered under that prospectus supplement may differ from the terms described below. Specific warrant agreements will contain additional important terms and provisions and will be incorporated by reference as an exhibit to the registration statement that includes this prospectus.

General

We may issue warrants for the purchase of common stock, preferred stock or debt securities in one or more series. We may issue warrants independently or together with common stock, preferred stock and debt securities, and the warrants may be attached to or separate from these securities.

We will evidence each series of warrants by warrant certificates that we will issue under a separate agreement. We may enter into a warrant agreement with a warrant agent. If we engage a warrant agent, each warrant agent will be a bank that we select which has its principal office in the United States. We will indicate the name and address of the warrant agent in the applicable prospectus supplement relating to a particular series of warrants.

Before exercising their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon such exercise, including:

in the case of warrants to purchase common stock or preferred stock, the right to receive dividends, if any, or, payments upon our liquidation, dissolution or winding up or to exercise voting rights, if any; or
in the case of warrants to purchase debt securities, the right to receive payments of principal of, or premium, if any, or interest on, the debt securities purchasable upon exercise or to enforce covenants in the applicable indenture.

Additional Information

We will describe in the applicable prospectus supplement the terms of the series of warrants, including, if applicable:

the offering price and aggregate number of warrants offered;
the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security or each principal amount of such security;
the date on and after which the warrants and the related securities will be separately transferable;
in the case of warrants to purchase common stock or preferred stock, the number of shares of common stock or preferred stock, as the case may be, purchasable upon the exercise of one warrant and the price at which these shares may be purchased upon such exercise;
in the case of warrants to purchase debt securities, the principal amount of debt securities purchasable upon exercise of one warrant and the price at, and currency in which, this principal amount of debt securities may be purchased upon such exercise;
the effect of any merger, consolidation, sale or other disposition of our business on the warrant agreement and the warrants;
the terms of any rights to redeem or call the warrants;

any provisions for changes to or adjustments in the exercise price or number of securities issuable upon exercise of the warrants;

the dates on which the right to exercise the warrants will commence and expire;

the manner in which the warrant agreement and warrants may be modified;
a discussion on any material or special United States federal income tax consequences of holding or exercising the warrants;

the terms of the securities issuable upon exercise of the warrants; and
any other specific terms, preferences, rights or limitations of or restrictions on the warrants.

Exercise of Warrants

Each warrant will entitle the holder to purchase the securities that we specify in the applicable prospectus supplement at the exercise price that we describe in the applicable prospectus supplement. Unless we otherwise specify in the applicable prospectus supplement, holders of the warrants may exercise the warrants at any time up to 5 p.m., Eastern time, on the expiration date that we set forth in the applicable prospectus supplement. After the specified time on the expiration date, unexercised warrants will become void.

Holders of the warrants may exercise the warrants by delivering the warrant certificate representing the warrants to be exercised together with specified information, and paying the required amount to the warrant agent in immediately available funds, as provided in the applicable prospectus supplement. We will set forth on the reverse side of the warrant certificate and in the applicable prospectus supplement the information that the holder of the warrant will be required to deliver to the warrant agent.

Upon receipt of the required payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will issue and deliver the securities purchasable upon such exercise. If fewer than all of the warrants represented by the warrant certificate are exercised, then we will issue a new warrant certificate for the remaining amount of warrants. If we so indicate in the applicable prospectus supplement, holders of the warrants may surrender securities as all or part of the exercise price for warrants.

Enforceability of Rights by Holders of Warrants

A warrant agent will act solely as our agent under the applicable warrant agreement and will not assume any obligation or relationship of agency or trust with any holder of any warrant. A single bank or trust company may act as warrant agent for more than one issue of warrants. A warrant agent will have no duty or responsibility in case of any default by us under the applicable warrant agreement or warrant, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a warrant may, without the consent of the related warrant agent or the holder of any other warrant, enforce by appropriate legal action its right to exercise, and receive the securities purchasable upon exercise of, its warrants.

DESCRIPTION OF DEBT SECURITIES

The debt securities will be direct obligations of the Company and will be either senior or subordinated debt securities and may be either secured or unsecured. We will issue the debt securities under an indenture that we will enter into with a trustee named in the indenture. While the terms we have summarized below will apply generally to any debt securities that we may offer under this prospectus, we will describe the particular terms of any debt securities that we may offer in more detail in the applicable prospectus supplement. The terms of any debt securities offered under a prospectus supplement may differ from the terms described below. Unless the context requires otherwise, whenever we refer to the indenture, we also are referring to any supplemental indentures that specify the terms of a particular series of debt securities. For purposes of this description, references to the Company, we, our and us refer only to Trinity Place Holdings Inc. and not to its subsidiaries.

We may issue debt securities in one or more series. A supplemental indenture will set forth specific terms of each series of debt securities. There will be prospectus supplements relating to particular series of debt securities. Each prospectus supplement will describe, if applicable:

The indenture will not contain any restrictions on the payment of dividends or the repurchase of our securities or any financial covenants. However, supplemental indentures relating to particular series of debt securities, or other indentures, may contain provisions of that type.

We may issue debt securities at a discount from, or at a premium to, their stated principal amount. A prospectus supplement may describe federal income tax considerations and other special considerations applicable to a debt security issued with original issue discount or a premium.

If the principal of, premium, if any, or interest, if any, with regard to any series of debt securities is payable in a foreign currency, then in the prospectus supplement relating to those debt securities, we will describe any restrictions on currency conversions, tax considerations or other material restrictions with respect to that issue of debt securities.

We may issue debt securities in certificated or uncertificated form, in registered form with or without coupons or in bearer form with coupons, if applicable.

We may issue debt securities of a series in the form of one or more global certificates evidencing all or a portion of the aggregate principal amount of the debt securities of that series. We may deposit the global certificates with depositaries, and the global certificates may be subject to restrictions upon transfer or upon exchange for debt

securities in individually certificated form.

TABLE OF CONTENTS

No Protection In the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Consolidation, Merger and Sale of Assets

We may not consolidate with, enter into a binding share exchange with, or merge with or into, or sell, assign, convey, transfer, lease or otherwise dispose of the properties and assets of the Company substantially as an entirety to another person (a successor person) unless:

we are the surviving corporation or the successor person (if other than us) is a corporation organized or existing under the laws of the United States of America, any state of the United States or the District of Columbia, or any other country recognized by the United States of America with an investment grade sovereign debt rating from either Standard & Poor's Ratings Services or Moody's Investors Service, Inc. and expressly assumes our obligations on the debt securities and under the indenture; and immediately after giving effect to the transaction, no default or event of default, shall have occurred and be continuing.

Notwithstanding the above, any of our subsidiaries may consolidate with, merge into or transfer all or part of its properties to us.

Events of Default and Remedies

An event of default with respect to each series of debt securities will include:

our default for 30 days or a different period specified in a supplemental indenture, which may be no period, in payment of any installment of interest due with regard to debt securities of any series;

our default in payment of the principal of or premium, if any, on any debt securities of any series beyond any applicable grace period;

our default in the deposit of any sinking fund payment, when and as due;

our default for 60 days after notice or a different period specified in a supplemental indenture, which may be no period, in the observance or performance of any other covenants in the indenture; and

certain events involving our bankruptcy, insolvency or reorganization.

Supplemental indentures relating to particular series of debt securities may include other events of default.

Each supplemental indenture will provide that the trustee may withhold notice to the holders of any series of debt securities of any default (except a default in payment of principal, premium, if any, or interest, if any) if the trustee in good faith determines it in the interest of the holders of the series to do so.

The indenture will provide that, if any event of default occurs and is continuing, the trustee or the holders of not less than 25% in aggregate principal amount of the series of debt securities then outstanding may declare the principal of and accrued interest, if any, on all the debt securities of that series to be due and payable immediately. However, if we cure all defaults (except the failure to pay principal, premium or interest which became due solely because of the acceleration) and certain other conditions are met, that declaration may be rescinded and past defaults may be waived

by the holders of a majority in aggregate principal amount of the series of debt securities then outstanding.

The holders of a majority of the outstanding principal amount of a series of debt securities will have the right to direct the time, method and place of conducting proceedings for any remedy available to the trustee, subject to certain limitations to be specified in the Indenture.

A prospectus supplement will describe any additional or different events of default which apply to any series of debt securities.

TABLE OF CONTENTS

Modification and Waiver

We and the trustee may modify and amend the indenture or the debt securities of any series without the consent of any holder of any debt security:

- to cure any ambiguity, defect or inconsistency;
- to provide for uncertificated securities in addition to or in place of certificated securities;
- to provide for the assumption of the Company's obligations by a successor to the Company;
- to make any change that does not adversely affect the rights of any holder of debt securities;
- to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act;
- to provide for the issuance of and establish the form and terms and conditions of debt securities of any series as permitted by the indenture;
- to effect the appointment of a successor trustee with respect to the debt securities of any series and to add to or change any of the provisions of the indenture to provide for or facilitate administration by more than one trustee; or
- to comply with the rules of any securities exchange or automated quotation system on which the debt securities may be listed or traded.

We may also modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments.

We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

- reduce the principal amount of debt securities whose holders must consent to an amendment or waiver;
- reduce the principal of or change the fixed maturity of any debt security or alter or waive any of the provisions with respect to the redemption of the debt securities;

- reduce the rate of or change the time for payment of interest, including default interest, on any debt security;
- waive a default or event of default in the payment of principal of or premium, if any, or interest, if any, on the debt securities, except a rescission of acceleration of the debt securities by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities and a waiver of the payment default that resulted from such acceleration;

- make any debt security payable in money other than that stated in the debt securities;
- make any change in the provisions of the indenture relating to waivers of past defaults or the rights of holders to receive payments of principal of or premium, interest, if any, on the debt securities; or

- make any change in the foregoing amendment and waiver provisions.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, premium or any interest on any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

TABLE OF CONTENTS

A prospectus supplement will describe any additional or changed provisions related to the modification or waiver of the indentures.

Concerning the Trustee

We will identify the trustee with respect to any series of debt securities in the prospectus supplement relating to the debt securities. You should note that if the trustee becomes a creditor of ours, the indenture and the Trust Indenture Act of 1939 limit the rights of the trustee to obtain payment of claims in certain cases, or to realize on certain property received in respect of certain claims, as security or otherwise. The trustee and its affiliates may engage in, and will be permitted to continue to engage in, other transactions with us and our affiliates. If, however, the trustee, acquires any conflicting interest within the meaning of the Trust Indenture Act of 1939, it must eliminate the conflict or resign.

The holders of a majority in principal amount of the then outstanding debt securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee with regard to that series or of exercising any trust or power conferred on the trustee with regard to the securities of that series. If an event of default occurs and is continuing, the trustee, in the exercise of its rights and powers, must use the degree of care and skill in their exercise, as a prudent person would exercise in the conduct of his or her own affairs. Subject to this provision, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any of the holders of the debt securities, unless they have offered to the trustee indemnity or security satisfactory to the trustee.

Governing Law

Each of the indentures, each supplemental indenture, and the debt securities issued under them will be governed by, and construed in accordance with, the laws of the State of New York.

- a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act.

DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among its participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants in DTC include securities brokers and dealers, including underwriters, banks, trust companies, clearing corporations and other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, or DTCC. DTCC is the holding

TABLE OF CONTENTS

company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others, which we sometimes refer to as indirect participants, that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of securities under the DTC system must be made by or through direct participants, which will receive a credit for the securities on DTC's records. The ownership interest of the actual purchaser of a security, which we sometimes refer to as a beneficial owner, is in turn recorded on the direct and indirect participants' records. Beneficial owners of securities will not receive written confirmation from DTC of their purchases. However, beneficial owners are expected to receive written confirmations providing details of their transactions, as well as periodic statements of their holdings, from the direct or indirect participants through which they purchased securities. Transfers of ownership interests in global securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the global securities, except under the limited circumstances described below.

To facilitate subsequent transfers, all global securities deposited by direct participants with DTC will be registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of securities with DTC and their registration in the name of Cede & Co. or such other nominee will not change the beneficial ownership of the securities. DTC has no knowledge of the actual beneficial owners of the securities. DTC's records reflect only the identity of the direct participants to whose accounts the securities are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

So long as the securities are in book-entry form, you will receive payments and may transfer securities only through the facilities of the depository and its direct and indirect participants. We will maintain an office or agency in the location specified in the prospectus supplement for the applicable securities, where notices and demands in respect of the securities and the indenture may be delivered to us and where certificated securities may be surrendered for payment, registration of transfer or exchange.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any legal requirements in effect from time to time.

Redemption notices will be sent to DTC. If less than all of the securities of a particular series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the securities of such series to be redeemed.

Neither DTC nor Cede & Co. (or such other DTC nominee) will consent or vote with respect to the securities. Under its usual procedures, DTC will mail an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns the consenting or voting rights of Cede & Co. to those direct participants to whose accounts the securities of such series are credited on the record date, identified in a listing attached to the omnibus proxy.

So long as securities are in book-entry form, we will make payments on those securities to the depository or its nominee, as the registered owner of such securities, by wire transfer of immediately available funds. If securities are issued in definitive certificated form under the limited circumstances described below, we will have the option of making payments by check mailed to the addresses of the persons entitled to payment or by wire transfer to bank accounts in the United States designated in writing to the applicable trustee or other designated party at least 15 days

before the applicable payment date by the persons entitled to payment.

Redemption proceeds, distributions and dividend payments on the securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us on the payment date in accordance with their respective holdings shown on DTC records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers in bearer form or registered in street name. Those

TABLE OF CONTENTS

payments will be the responsibility of participants and not of DTC or us, subject to any statutory or regulatory requirements in effect from time to time. Payment of redemption proceeds, distributions and dividend payments to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC, is our responsibility, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

Except under the limited circumstances described below, purchasers of securities will not be entitled to have securities registered in their names and will not receive physical delivery of securities. Accordingly, each beneficial owner must rely on the procedures of DTC and its participants to exercise any rights under the securities and the indenture.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. Those laws may impair the ability to transfer or pledge beneficial interests in securities.

DTC may discontinue providing its services as securities depository with respect to the securities at any time by giving reasonable notice to us. Under such circumstances, in the event that a successor depository is not obtained, securities certificates are required to be printed and delivered.

As noted above, beneficial owners of a particular series of securities generally will not receive certificates representing their ownership interests in those securities. However, if:

DTC notifies us that it is unwilling or unable to continue as a depository for the global security or securities representing such series of securities or if DTC ceases to be a clearing agency registered under the Exchange Act at a time when it is required to be registered and a successor depository is not appointed within 90 days of the notification to us or of our becoming aware of DTC's ceasing to be so registered, as the case may be;

we determine, in our sole discretion, not to have such securities represented by one or more global securities; or
an Event of Default has occurred and is continuing with respect to such series of securities,

we will prepare and deliver certificates for such securities in exchange for beneficial interests in the global securities. Any beneficial interest in a global security that is exchangeable under the circumstances described in the preceding sentence will be exchangeable for securities in definitive certificated form registered in the names that the depository directs. It is expected that these directions will be based upon directions received by the depository from its participants with respect to ownership of beneficial interests in the global securities.

We have obtained the information in this section and elsewhere in this prospectus concerning DTC and DTC's book-entry system from sources that are believed to be reliable, but we take no responsibility for the accuracy of this information.

CERTAIN PROVISIONS OF DELAWARE LAW AND OF THE COMPANY'S CERTIFICATE OF INCORPORATION AND BYLAWS

Delaware Takeover Statute

We are subject to Section 203 of the DGCL. This statute regulating corporate takeovers prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for three years following the date that the stockholder became an interested stockholder, unless:

prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding (a) shares owned by persons who are directors and also officers and (b) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or subsequent to the date of the transaction, the business combination is approved by the board and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

Section 203 defines a business combination to include:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition involving the interested stockholder of 10% or more of the assets of the corporation;

subject to exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by the entity or person.

Certificate of Incorporation and Bylaw Provisions

Our certificate of incorporation and bylaws contain some provisions which may have the effect of delaying, deferring or preventing a change in control of the Company. In particular, our certificate of incorporation and bylaws provide for the following:

Special Stock

In connection with the investment by Third Avenue in the Company in October 2013, the Company issued to Third Avenue one share of special stock, par value \$.01 per share. The sole purpose of the share of special stock is to enable Third Avenue to elect one member of the board of directors. No dividends or distributions may be declared, paid or made on the special stock. The special stock ranks senior to the common stock, as to distributions of assets on any liquidation, dissolution or winding up of the Company, but only in an amount equal to the par value of such share. The special stock will, subject to lawfully available funds, be automatically redeemed at such time as the Special Stock Ownership Threshold of 2,345,000 shares of common stock is no longer satisfied, at a per share redemption price equal to its par value. Except as expressly provided in the certificate of incorporation or as otherwise required by applicable law, the holder of the special stock is not entitled to vote such share on any matters submitted to a vote of stockholders of the Company.

TABLE OF CONTENTS

Board of Directors

Staggered Board. The board of directors is divided into two classes, as nearly equal in number as possible, designated Class I and Class II. Subject to the provisions of our certificate of incorporation, each director serves for a term ending at the second annual meeting following the annual meeting at which such director was elected and until his or her successor is elected and qualified or his or her earlier resignation or removal. In case of any increase or decrease, from time to time, in the number of directors, the number of directors in each class will be apportioned as nearly equal as possible. Any director may be removed from office at any time, with or without cause, by the affirmative vote of the holders of a majority in voting power of the shares of capital stock of the Company entitled to elect such director.

Special Stock Director. From and after the issuance of special stock and until the first date that the Special Stock Ownership Threshold is no longer satisfied, one director who is elected by the holder of the special stock, voting as a separate class to the exclusion of the holders of common stock, designation preferred stock and any preferred stock, such director referred to herein as the Special Stock Director

On the first date that the Special Stock Ownership Threshold is no longer satisfied, the term of the Special Stock Director will automatically terminate, the person formerly holding such directorship will cease to be a director of the Company and the size of the board of directors will be automatically reduced by one directorship. Immediately following such reduction, the size of the board of directors will automatically be increased by one directorship, which will be elected by the holders of common stock.

Restrictions on Transfers Related to Preservation of the Ability to Utilize Certain Tax Benefits Associated with NOLs

In order to help preserve its ability to utilize certain tax benefits primarily associated with the Company's NOLs, the Company's certificate of incorporation generally prohibits transfers or sales of stock that would result in a person or group of persons becoming a 4.75% stockholder, or that would result in the increase or decrease by a person or group of persons that is an existing 4.75% stockholder of its percentage ownership interest in the Company. Any direct or indirect transfer attempted in violation of the certificate of incorporation will be void. The restrictions on transfer under the certificate of incorporation will not apply if the transferor or the transferee obtains the prior written approval of the board of directors. Any person who desires to effect an otherwise prohibited transaction may, prior to the date of the proposed transaction, submit a request in writing that the board of directors review and authorize the transaction, following the procedures set forth in the certificate of incorporation. These restrictive provisions in the certificate of incorporation will expire by their terms on the earliest to occur of, among other things, February 12, 2025; the date selected by the board of directors, if the board of directors determines that it is in the best interests of the Company's stockholders for the restrictions set forth in the certificate of incorporation to be removed or released; and the date selected by the holders of a majority of the voting power of the Company, approved at an annual or special meeting of stockholders or by written consent.

Special Meetings

Our bylaws provide that a special meeting of the stockholders for any purpose or purposes shall be called pursuant to a resolution approved by the board of directors and may not be called by any other person or persons.

Designation Preferred Stock

Subject to the rights of the holder of the special stock, and subject to the limitations prescribed by law, the board of directors is authorized, subject to any limitations prescribed by law or expressly set forth in the Certificate of Incorporation, to provide for the issuance of shares of designation preferred stock in series, and by filing a certificate pursuant to the applicable law of the State of Delaware, or a Preferred Stock Designation, to establish from time to time the number of shares to be included in each such series, and to fix the designation, powers, preferences, and rights of the shares of each such series and any qualifications, limitations or restrictions thereof.

TABLE OF CONTENTS

The number of authorized shares of designation preferred stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the voting power of all of the then-outstanding shares of capital stock of the Company entitled to vote thereon, without a vote of the holders of the designation preferred stock, or of any series thereof, unless a vote of any such holders is required pursuant to the terms of any Preferred Stock Designation.

As of the date of this prospectus, no designation preferred stock has been issued.

TABLE OF CONTENTS

We will provide in the applicable prospectus supplement any compensation we will pay to underwriters, dealers or agents in connection with the offering of our securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers. In compliance with guidelines of the Financial Industry Regulatory Authority, or FINRA, the maximum consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of securities offered pursuant to this prospectus and any applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of our securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of our securities may be deemed to be underwriting discounts and commissions. We may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof. In the event that an offering made pursuant to this prospectus is subject to FINRA Rule 5121, the prospectus supplement will comply with the prominent disclosure provisions of that rule.

The securities may or may not be listed on a national securities exchange. To facilitate the offering of our securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of our securities. This may include overallotments or short sales of our securities, which involves the sale by persons participating in the offering of more securities than we sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option. In addition, these persons may stabilize or maintain the price of shares of our securities by bidding for or purchasing our securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if our securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of our securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The underwriters, dealers and agents may engage in transactions with us, or perform services for us, in the ordinary course of business.

Delayed Delivery Contracts

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase our securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Derivative Transactions

We may enter into derivative transactions with third parties, or sell our securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement so indicates, in connection with any derivative transaction, the third parties may sell our securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use our securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of securities, and may use our securities received from us in settlement of those derivatives to close out any related open borrowings of securities. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement or a post-effective amendment to the registration statement of which this prospectus is a part. In addition, we may otherwise loan or pledge our securities to a financial institution or other third party that in turn

may sell our securities short using this prospectus. Such financial institution or other third party may transfer its economic short position to investors in our securities or in connection with a concurrent offering of other securities.
