To the Shareholders

Dear Sir or Madam,

MAJOR TRANSACTION

1. INTRODUCTION

On 8 April, 2004, the Board announced that on the same date, the Company and China Aviation Supplies entered into the Airbus Aircraft Acquisition Agreement with Airbus for the purpose of acquiring 15 A320-200 aircraft and six A319-100 aircraft from Airbus.

- 2 -

LETTER FROM THE BOARD

The Transaction constitutes a major transaction of the Company under the Listing Rules.

The purpose of this circular is to set out further details of the Transaction.

2. THE AIRBUS AIRCRAFT ACQUISITION AGREEMENT

(1) DATE: 8 April, 2004

(2) PARTIES

- (a) the Company, as the purchaser;
- (b) China Aviation Supplies as the import agent. The Company confirms that, to the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, each of China Aviation Supplies and its beneficial owner is an independent third party and not a connected person (as defined in the Listing Rules) of the Company; and
- (c) Airbus SNC, a company incorporated in Toulouse, as the vendor. The main business activity of Airbus is that of aircraft manufacturing. The Company confirms that, to the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, each of Airbus and its beneficial owner

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

is an independent third party and not a connected person (as defined in the Listing Rules) of the Company.

(3) AIRCRAFT TO BE ACQUIRED

15 A320-200 aircraft and six A319-100 aircraft.

(4) CONSIDERATION

The relevant percentage ratio for the Transaction with regards to the Consideration Test under Rule 14.07 of the Listing Rules is above 25%, but less than 100%.

According to the information provided by Airbus, as contained in the Airbus catalog provided to the Company by Airbus dated 31 March, 2004, the market price of a A320-200 aircraft is in the range of US\$57.6 to US\$61.6 million and that of a A319-100 aircraft is in the range of US\$50.6 to US\$61.2 million.

The aggregate consideration for the acquisition of Airbus Aircraft, which is payable wholly in cash, is determined after arm's length negotiation between the parties and is lower than the market price as contained in the Airbus catalog dated 31 March, 2004.

- 3 -

LETTER FROM THE BOARD

(5) PAYMENT AND DELIVERY TERMS

The aggregate consideration for the acquisition of Airbus Aircraft is payable in cash by installments. The Airbus Aircraft will be delivered in stages to the Company through the years 2005 to 2006.

(6) FUNDING

The Transaction will be wholly funded through commercial loans by commercial banks. Such commercial banks are not and will not be connected persons (as defined in the Listing Rules) of the Company. As of the date hereof, the Company has not entered into any agreement with any of these commercial banks for financing the Transaction.

(7) REASONS FOR THE TRANSACTION

The Company's principal business is that of civil aviation. As stated in the announcement of the Company dated 30 January, 2004, the Directors believe that the acquisition of the Airbus Aircraft will further expand the flight service network and operating capacity of the Company, thereby enhancing its ability to compete significantly in the industry. The Directors also believe that the terms of the Airbus Acquisition Agreement are fair and reasonable and in the interests of the shareholders of the Company as a whole.

(8) IMPLICATIONS UNDER THE LISTING RULES

As the relevant percentage ratio for the Transaction with regards to the Consideration Test under Rule 14.07 of the Listing Rules is above 25%, but less than 100%, the Transaction constitutes a major transaction and is therefore subject to approval by the Company's shareholders under the Listing Rules.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Each of CSAHC and its associates (as defined in the Listing Rules) does not have any interest in the Transaction other than as a shareholder of the Company. Therefore, no shareholder of the Company will be required to abstain from voting if the Company were to convene a general meeting for the approval of the Transaction. CSAHC, as the 50.30% controlling shareholder of the Company, has approved the Transaction by way of a written approval pursuant to Rule 14.44 of the Listing Rules.

LETTER FROM THE BOARD

3. PROSPECTS

In view of the visible recovery in a new cycle of economic growth in the global economy, and that China's air transportation industry has regained growth on all fronts after the Severe Acute Respiratory Syndrome outbreak, it is expected that the overall growth trend in the PRC air transportation will gain further momentum from which the PRC and the Group will benefit. On the other hand, recent political instability in the Middle East and other uncertainties continue to hamper global economic growth. The continuing high jet fuel price is also a factor unfavorable to the growth of the air transport industry.

As disclosed in the First Quarterly Report of 2004 of the Company dated 28 April 2004, during the period between 1 January, 2004 and 31 March, 2004, the domestic aviation market continued to recover with strong demand for air transportation, which was mainly stimulated by the continuous stable economic development and the increase in domestic consumption level. For the first quarter of 2004, the Company's aviation transportation business maintained a good trend of growth. All production indices were higher as compared to the same period of last year. Among which, the Company's total traffic volume was 1,041,600,000 tonne-kilometres, representing a growth of 5.6% over the same period of last year; passengers carried were 6,413,000, representing an increase of 17.1% from the same period last year; cargo and mail traffic amounted to 124,000 tonnes, representing an increase of 0.8% from the same period last year; passenger load factor was 65.3%, representing a growth of 4.1% over the corresponding period last year.

4. ADDITIONAL INFORMATION

Your attention is drawn to the financial and general information set out in the Annual Report of the Company for the period from 1 January, 2003 to 31 December, 2003.

By Order of the Board
YAN ZHI QING
Chairman

FINANCIAL INFORMATION OF THE GROUP

NOTES TO THE FINANCIAL STATEMENTS

(Prepared under International Financial Reporting Standards)
(Expressed in Renminbi)

1 BACKGROUND OF THE COMPANY

China Southern Airlines Company Limited (the "Company") and its subsidiary companies (collectively the "Group") are principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport, which is both the main hub of the Group's route network and the location of its corporate headquarters.

The Company was established in the People's Republic of China (the "PRC", "China" or the "State") on 25 March, 1995 as a joint stock limited company as part of the reorganisation (the "Reorganisation") of the Company's holding company, China Southern Air Holding Company ("CSAHC"). CSAHC is a state-owned enterprise under the supervision of the PRC central government.

The Company's H Shares and American Depositary Shares ("ADS") (each ADS representing 50 H Shares) are listed on the Stock Exchange of Hong Kong Limited and the New York Stock Exchange, respectively since July 1997. In July 2003, the Company issued 1,000,000,000 A shares which are listed on the Shanghai Stock Exchange.

2 PRINCIPAL ACCOUNTING POLICIES

(A) STATEMENT OF COMPLIANCE

The financial statements of the Group and the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance. IFRS includes International Accounting Standards ("IAS") and related interpretations.

The financial statements of the Group and the Company are prepared on the historical cost basis as modified by the revaluation of certain fixed assets. The accounting policies have been consistently applied by the Group and the Company and are consistent with those used in the previous year.

(C) BASIS OF CONSOLIDATION

The consolidated financial statements of the Group include the financial statements of the Company and all of its subsidiaries made up to 31 December each year. Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases.

The results of subsidiaries are included in the consolidated profit and loss account and the share attributable to minority shareholders is deducted from or added to the consolidated profit after taxation. Losses attributable to minority shareholders of partly owned subsidiaries are accounted for based on the respective equity owned by the minority shareholders up to the amount of the capital contribution and reserves attributable to the minority shareholders. Thereafter, all further losses are assumed by the Company.

All significant intercompany balances and transactions have been eliminated on consolidation.

(D) INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised initially at cost, less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the profit and loss account over the period of the borrowings on an effective interest basis.

An associated company is an entity in which the Group or the Company has significant influence, but not control or joint control, over its management, including participating in the financial and operating policy decisions.

A jointly controlled entity is an entity which operates under a contractual agreement between the Group or the Company and other parties, where the contractual agreement establishes the Group or the Company and one or more of the other parties share joint control over the economic activity of the entity.

The consolidated profit and loss account includes the Group's share of the results of its associated companies and jointly controlled entities for the year. In the consolidated balance sheet, the investments in associated companies and jointly controlled entities are stated at the Group's attributable share of net assets. When the Group's share of losses exceeds the carrying amount of the associated company or jointly controlled entity, the carrying amount is reduced to nil and recognition of further losses is discontinued

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

except to the extent that the Group has incurred obligations in respect of the associated company or jointly controlled entity.

The results of associated companies and jointly controlled entities are included in the Company's profit and loss account to the extent of dividends received and receivable, providing such dividends are in respect of a period ending on or before that of the Company and the Company's right to receive the dividend is established before 31 December each year. In the Company's balance sheet, investments in associated companies and jointly controlled entities are stated at cost, less impairment losses (refer to accounting policy n).

(iii) Other investments

Other investments are stated at cost less impairment losses (refer to accounting policy n). Other investments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

(F) FIXED ASSETS AND DEPRECIATION

Fixed assets are stated at cost or revalued amount less accumulated depreciation and impairment losses (refer to accounting policy n). Revaluations are performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date.

Depreciation is provided to write off the cost, or revalued amount where appropriate, of the fixed assets over their estimated useful lives on a straight line basis, after taking into account their estimated residual values, as follows:

	DEPRECIABLE LIFE	RESIDUAL VA
Buildings	15 to 40 years	
Owned and leased aircraft	8 to 15 years	28.
Other flight equipment		
- Jet engines	8 to 15 years	
- Others, including rotatable spares	8 to 15 years	
Machinery and equipment	5 to 10 years	
Vehicles	6 years	

No depreciation is provided in respect of construction in progress.

APPENDIX I

FINANCIAL INFORMATION OF THE GROUP

(G) LEASED ASSETS

Flight equipment under finance leases is stated at an amount equal to lower of its fair value and the present value of minimum lease payments at inception of the lease, and is amortised on a straight line basis over the shorter of the lease term or estimated useful life of the asset to

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

residual value. In cases where title to the asset will be acquired by the Group at the end of the lease, the asset is amortised on a straight line basis over the estimated useful life of the asset to its residual value.

Amounts payable in respect of finance leases are apportioned between interest charges and reductions of obligations based on the interest rates implicit in the leases. Interest charges are included in the profit and loss account to provide a constant periodic rate of charge over the lease term.

Gains on aircraft sale and leaseback transactions which result in finance leases are deferred and amortised over the terms of the related leases. Gains on other aircraft sale and leaseback transactions are recognised as income immediately if the transactions are established at fair value. Any excess of the sales price over fair value is deferred and amortised over the period the assets are expected to be used.

Operating lease payments are charged to the profit and loss account on a straight line basis over the terms of the related leases.

(H) CONSTRUCTION IN PROGRESS

Construction in progress represents office buildings, various infrastructure projects under construction and equipment pending installation, and is stated at cost. Cost comprises direct costs of construction as well as interest charges during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to fixed assets when the asset is substantially ready for its intended use, notwithstanding any delays in the issue of the relevant commissioning certificates by the relevant PRC authorities.

(I) LEASE PREPAYMENTS

Lease prepayments represent the purchase costs of land use rights and are amortised on a straight line basis over the period of land use rights (Note 26).

(J) INVENTORIES

Inventories, which consist primarily of expendable spare parts and supplies, are stated at cost less any applicable provision for obsolescence, and are expensed when used in operations. Cost represents the average unit cost. Inventories held for disposal is stated at the lower of cost and net realisable value. Net realisable value represents estimated resale price.

(K) TRADE AND OTHER RECEIVABLES

Trade and other receivables are stated at cost less impairment losses. Impairment losses are established based on evaluation of the recoverability of these accounts at the balance sheet date.

(L) DEFERRED EXPENDITURE

Custom duties and other direct costs in relation to modifying, introducing and certifying certain operating leased aircraft are deferred and amortised over the terms of the related leases.

Lump sum housing benefits payable to employees of the Group are deferred and amortised on a straight line basis over a period of 10 years, which represents the benefit vesting period of the employees.

(M) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash in hand and balances with banks and other financial institutions with an original maturity within three months. For the purpose of the consolidated cash flow statement, cash and cash equivalents are presented net of bank overdrafts, if any.

(N) IMPAIRMENT LOSS

The carrying amounts of the Group's and the Company's assets, other than inventories (refer to accounting policy j) and deferred tax assets (refer to accounting policy u) are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the profit and loss account.

The Group and the Company assess at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred.

(O) DEFERRED CREDITS

In connection with the acquisition or operating lease of certain aircraft and engines, the Group receives various credits. Such credits are deferred until the aircraft and engines are delivered, at which time they are either applied as a reduction of the cost of acquiring the aircraft and engines, resulting in a reduction of future depreciation, or amortised as a reduction of rental expense for aircraft and engines under operating leases.

(P) REVENUE RECOGNITION

Passenger, cargo and mail revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities as sales in advance of carriage. Revenues from airline-related business are recognised when services are rendered. Revenue is stated net of sales tax and contributions to the CAAC Infrastructure Development Fund.

Interest income is recognised as it accrues unless collectability is in doubt. Dividend income is recognised when the Group's right to receive the dividend is established.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Operating lease income is recognised on a straight line basis over the terms of the respective leases.

(Q) TRAFFIC COMMISSIONS

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded on the balance sheet as a prepaid expense.

(R) MAINTENANCE AND OVERHAUL COSTS

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed in the profit and loss account as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of scheduled overhauls required to be performed on the related aircraft prior to their return to the lessors.

APPENDIX I

FINANCIAL INFORMATION OF THE GROUP

(S) TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions during the year are translated into Renminbi at the applicable rates of exchange prevailing on the transaction dates.

Foreign currency monetary balances at the balance sheet date are translated into Renminbi at the exchange rates quoted by the People's Bank of China ruling at that date. Exchange differences are dealt with in the profit and loss account.

(T) BORROWING COSTS

Borrowing costs are expensed in the profit and loss account as and when incurred, except to the extent that they are capitalised as being directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

(U) DEFERRED TAXATION

Deferred tax is provided using the balance sheet liability method on all temporary differences between the carrying amounts for financial reporting purposes and the amounts used for taxation purposes, except differences relating to the initial recognition of assets or liabilities which affect neither accounting nor taxable profit/loss.

The tax value of losses expected to be available for utilisation against future taxable income is recognised as a deferred tax asset and offset against the deferred tax liability attributable to the same legal tax unit and jurisdiction. Net deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(V) RETIREMENT BENEFITS

Contributions to retirement schemes and additional retirement

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

benefits paid to retired employees are charged to the profit and loss account as and when incurred.

(W) FREQUENT FLYER AWARD PROGRAMMES

The Group maintains two frequent flyer award programmes, namely, the China Southern Airlines Sky Pearl Club and the Egret Mileage Plus, which provide travel awards to members based on accumulated mileage. The estimated incremental cost to provide free travel is recognised as an expense and accrued as a current liability as members accumulate mileage. As members redeem awards or their entitlements expire, the incremental cost liability is reduced accordingly to reflect the acquittal of the outstanding obligations.

Revenue from mileage sales to third parties under the frequent flyer award programmes is recognised when the related transportation services are provided.

(X) PROVISIONS

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligations. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(Y) RELATED PARTIES

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or entities.

(Z) SEGMENTAL REPORTING

The Group operates principally as a single business segment for the provision of air transportation services. The analysis of turnover and operating profit by geographical segment is based on the following criteria:

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong) is attributed to the domestic operation. Traffic revenue from inbound/outbound services between the PRC and Hong Kong, and the PRC and overseas destinations is attributed to the Hong Kong regional operation and international operation respectively.
- (ii) Other revenue from ticket selling, general aviation and ground services, air catering and other miscellaneous services is attributed on the basis of where the services are performed.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(AA) USE OF ESTIMATES

The preparation of the financial statements of the Group and the Company in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Substantially all of the Group's buildings are located in the PRC. The Group was formally granted the rights to use the twenty one parcels of land in Guangzhou, Shenzhen, Zhuhai, Beihai, Changsha, Shantou, Haikou, Zhengzhou, Guiyang and Wuhan by the relevant PRC authorities for a period of 30 to 70 years, which expire between 2020 and 2068. For other land in the PRC on which the Group's buildings are erected, the Group was formally granted the rights to use such land for periods of one to five years commencing in the second quarter of 1997 pursuant to various lease agreements between the Company and CSAHC. The leases with initial one-year term are automatically renewable for another one-year period unless the Group gives appropriate notice of termination. In this connection, rental payments totalling RMB15,224,000 (2002: RMB15,224,000) were paid to CSAHC during 2003 in respect of these leases.

APPENDIX I

FINANCIAL INFORMATION OF THE GROUP

During the year, the Company entered into operating lease arrangements to lease certain flight training facilities and buildings to Zhuhai Xiang Yi Aviation Technology Company Limited ("Zhuhai Xiang Yi"), a jointly controlled entity of the Company. The leases with initial one-year term are automatically renewable for another one year unless either party gives appropriate notice of termination. In this connection, rental income totalling RMB34,175,000 was received by the Company during 2003 in respect of the leases. As at 31 December, 2003, the cost and accumulated depreciation of the relevant fixed assets totalled RMB787,432,000 and RMB462,281,000 respectively. As at 31 December, 2003, the Company's rental receivable in respect of the leases due in 2004 amounted to RMB34,175,000.

In compliance with the PRC rules and regulations governing initial public offering of shares by PRC joint stock limited companies, the fixed assets of the Group as at 31 December, 1996 were revalued. This revaluation was conducted by Guangzhou Assets Appraisal Corp. ("GAAC"), a firm of independent valuers registered in the PRC, on a depreciated replacement cost basis, and approved by the China State-owned Assets Administration Bureau.

In accordance with IAS 16 "Property, plant and equipment", subsequent to the 1996 revaluation, which was based on replacement costs, the fixed assets of the Group are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluation is performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. In accordance with the revaluation performed by the directors in respect of fixed assets held by the Group as at 31 December, 2000, the carrying amounts of fixed assets did not differ materially from their respective fair value.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The effect of the above revaluation was to increase future annual depreciation charges of the Group by approximately RMB33,000,000 (2002: RMB33,000,000). Had the fixed assets of the Group and the Company been stated at cost, that is, the effect of the revaluation was excluded, the net book values of fixed assets of the Group and the Company as at 31 December, 2003 would have been approximately RMB28,522,787,000 and RMB22,793,781,000 respectively (2002: RMB26,874,709,000 and RMB19,440,211,000 respectively), made up as follows:

APPENDIX I

FINANCIAL INFORMATION OF THE GROUP

The Company entered into two separate arrangements (the "Arrangements") with certain independent third parties during each of 2002 and 2003. Under each of the Arrangements, the Company sold an aircraft and then immediately leased back the aircraft for an agreed period. As agreed, the lease payment obligations, with pre-determined net present value, are to be satisfied solely out of the sale proceeds and such amount has been placed irrevocably by the Company in form of deposits and debt securities in favour of the lessors. The Company has an option to purchase the aircraft at a pre-determined date and an agreed purchase price to be satisfied by the balances of the deposits and debt securities outstanding at that date. In the event that the lease agreement is early terminated by the Company, the Company is liable to pay a pre-determined penalty to the lessor. As long as the Company complies with the lease agreements, the Company is entitled to the continued possession and operation of the aircraft. Since the Company retains substantially all risks and rewards incident to ownership of the aircraft and enjoys substantially the same rights to their use as before the Arrangements, no adjustment has been made to the fixed assets. As at 31 December, 2003, the net present value of the lease commitments and the corresponding defeased deposits and debt securities amounted

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

to RMB2,409,252,000 (2002: RMB1,322,843,000). As a result of the Arrangements, the Company received net cash benefits of RMB51,682,000 and RMB69,121,000 in 2002 and 2003 respectively which have been recognised as income for the respective years.

Notes:

- (a) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer 10% of their annual net profits after taxation, as determined under relevant PRC accounting regulations, to a statutory surplus reserve until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before distribution of a dividend to shareholders.

Statutory surplus reserve can be used to offset prior years' losses, if any, and may be converted into share capital by the issue of new shares to shareholders in proportion to their existing shareholding or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

- (b) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer between 5% to 10% of their annual net profits after taxation, as determined under PRC accounting regulations, to the statutory public welfare fund. This fund can only be utilised on capital items for the collective benefits of the Company's and the relevant subsidiaries' employees such as the construction of dormitories, canteen and other staff welfare facilities. This fund is non-distributable other than in liquidation. The transfer to this reserve must be made before distribution of a dividend to shareholders.

- (c) During 2002, the Group and the Company adopted certain new PRC accounting regulations which resulted in adjustments to the amounts of the Group's and Company's profits determined under PRC accounting regulations in respect of prior years and corresponding adjustments to amounts appropriated to the statutory surplus reserve, statutory public welfare fund and discretionary surplus reserve for the prior years.

- (d) The usage of this reserve is similar to that of statutory surplus reserve.

- (e) Under PRC Company Law and the Company's Articles of Association, the net profit after taxation as reported in the PRC statutory financial statements of the Company can only be distributed as dividends after allowances have been made for:

- (i) making up cumulative prior years' losses, if any;
- (ii) allocations to the statutory surplus reserve of at least 10% of after-tax profit, until the fund aggregates to 50% of the Company's registered capital;
- (iii) allocations of 5% to 10% of after-tax profit to the Company's statutory public welfare fund; and
- (iv) allocations to the discretionary surplus reserve, if approved by the shareholders.

Pursuant to the Articles of Association of the Company, the net profit of the Company for the purpose of profit distribution is

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

deemed to be the lesser of (i) the net profit determined in accordance with the PRC accounting principles and financial regulations and (ii) the net profit determined in accordance with IFRS; or if the financial statements of the Company are not prepared in accordance with IFRS, the accounting standards of one of the countries in which its shares are listed. As at 31 December, 2003, the Company did not have any distributable reserves (2002: RMB445,636,000).

- (f) The Group adopted IAS 40 "Investment Property" in 2002. According to IAS 40, the land use rights which were previously included in fixed assets at revaluation base are now presented as lease prepayments and carried at historical cost base with effect from 1 January, 2002. Accordingly, the unamortised surplus on previous revaluations of the land use rights, net of related deferred tax asset, are reversed to the share premium and retained profits accounts. The IAS 40 was adopted prospectively in 2002 as the effect of this change did not have a material impact on the Group's financial condition and results of operations in the periods prior to the change.

FINANCIAL INFORMATION OF THE GROUP

- (o) During 2002, the Group acquired five Boeing 737-300/37K aircraft and related spare parts and certain vehicles from Zhongyuan Airlines, a subsidiary of CSAHC, at a consideration of approximately RMB1,096,866,000. Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

- (p) In August 2002, the Company acquired 90% equity interest in each of Guangzhou Aviation Hotel, Southern Airlines Advertising Company and South China International Aviation & Travel Services Company from CSAHC at an aggregate cash consideration of approximately RMB107,846,000. Such consideration is determined by reference to the valuation reports prepared by Guangzhou Zhongtian Valuation Company Limited, a firm of independent valuers registered in the PRC.

In addition to the above, certain business undertakings of CSAHC also provided hotel and other services to the Group during the year. The total amount involved is not material to the results of the Group for the year.

The directors of the Company are of the opinion that the above transactions with related parties were entered into in the normal course of business and on normal commercial terms or in accordance with the agreements governing such transactions.

28 RETIREMENT AND HOUSING BENEFITS

Employees of the Group participate in several defined contribution retirement schemes organised separately by PRC municipal governments in regions where the major operations of the Group are located. The Group is required to contribute to these schemes at the rates ranging from 14% to 19% (2002: 14% to 19%) of salary costs including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all existing and future retired staff of the Group are assumed by these schemes.

In addition, the Group was selected as one of the pilot enterprises to establish a supplementary defined contribution retirement scheme for the benefit of employees. In this connection, employees of the Group participate in a supplementary defined contribution retirement scheme whereby the Group is required to make defined contributions at a rate of 4.5% of total salaries. The Group has no obligation for the payment of pension benefits beyond the contributions described above. Contributions to the retirement schemes are charged to the profit and loss account as and when incurred.

Furthermore, pursuant to the comprehensive services agreement (the "Services Agreement") dated 22 May, 1997 between the Company and CSAHC, CSAHC agrees to provide adequate quarters to eligible employees of the Group as and when required. In return, the Group agrees to pay a fixed annual fee of RMB85,000,000 to CSAHC for a ten-year period effective 1 January, 1995.

During 2002, the Group provided additional quarters at its own expense to certain employees who are not eligible for quarters pursuant to the Services Agreement. These quarters were provided to the respective employees in accordance with the relevant PRC housing reform policy. The excess of the cost of these additional quarters over the considerations received by the Group from the employees of RMB17,624,000 were charged to expenses in 2002.

Pursuant to an additional staff housing benefit scheme effective September 2002, the Group agreed to pay lump sum housing allowances to certain employees who have not received quarters from CSAHC or the Group according to the relevant PRC housing reform policy, for subsidising their purchases of housing. Such expenditure has been deferred and amortised on a straight line basis over a period of 10 years, which represents the vesting benefit period of the employees. An employee who quits prior to the end of the vesting benefit period is required to pay back a portion of the lump sum housing benefits determined on a pro-rata basis of the vesting benefit period remained. The Group has the right to effect a charge on the employee's house and to enforce repayment through selling the house in the event of default in repayment. Any shortfall in repayment would be charged against profit and loss account. As at 31 December,

(C) INVESTING COMMITMENTS

As at 31 December, 2003, the Company was committed to make a capital contribution of approximately RMB446 million and RMB Nil respectively (2002: RMB60 million and RMB201 million respectively) to its jointly controlled entities and associated companies.

30 CONTINGENT LIABILITIES

- (a) The Company has been advised by its PRC lawyers that, except for liabilities constituting or arising out of or relating to the businesses assumed by the Company in the Reorganisation, no other liabilities were assumed by the Company, and the Company is not jointly and severally liable for other debts and obligations incurred by CSAHC prior to the Reorganisation. There are not, however, any definitive PRC regulations or other pronouncements confirming such conclusion.
- (b) The Group leases from CSAHC certain land in Guangzhou and certain land and buildings in Wuhan, Haikou and Zhengzhou. The Group has a significant investment in buildings and other leasehold improvements located on such land. However, such land in Guangzhou and such land and buildings in Wuhan, Haikou and Zhengzhou lack adequate documentation evidencing CSAHC's rights thereto.

With respect to the facilities in Guangzhou, CSAHC has received written assurance from the CAAC to the effect that CSAHC is entitled to continued use and occupancy of the land in Guangzhou. The Company understands that the CAAC is basing its conclusion on an agreement among certain government authorities relating to such land. Such assurance does not constitute formal evidence of CSAHC's right to transfer, mortgage or lease such real property interests. The Group cannot predict the magnitude of the effect on its financial condition or results of operations to the extent that its use of one or more of these parcels of land or the related facilities were successfully challenged. CSAHC has agreed to indemnify the Group against any loss or damage caused by any challenge or interference with the Group's use of any of its land and buildings.

- 42 -

APPENDIX I

FINANCIAL INFORMATION OF THE GROUP

- (c) The Company is currently involved in a civil litigation (Hong Kong High Court Action No. 515 of 2001) ("Litigation"). According to the writ of summons for the Litigation, New Link Consultants Limited, the plaintiff, claimed against the Group (as one of the defendants to the Litigation) on the basis of certain evidence proving that United Aero-Supplies System of China, Limited ("UASSC") entered into an agreement with the defendants for exclusive purchase of aviation equipment consigned to UASSC for sale and, that as the defendants failed to perform the agreement, UASSC has the right to compensation. Since UASSC is in the course of its winding up proceedings, all the rights and benefits of UASSC in connection with the claim have been transferred to the plaintiff. The Company, as

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

one of the defendants to the Litigation, has been claimed for unspecified damages for breach of the agreement. Given that the Litigation is still at its preliminary stage, it is pre-matured to predict the result of the court judgment. Based on the opinion given by its instructing solicitors, the Company's directors consider that the Company has a reasonable chance of success in its defence to the claim. At present, the Company has filed an objection in respect of the jurisdiction of the court, and has requested the court to transfer the case of Mainland China for trial. Accordingly, the Company's directors consider that a provision for such claim and/or the associated legal costs is not required.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK

Financial assets of the Group include cash and cash equivalents, investments, trade receivables and other receivables. Financial liabilities of the Group include bank and other loans, amounts due to related companies, other liabilities, accounts payable, bills payable, sales in advance of carriage, accrual expenses and obligations under finance leases.

LIQUIDITY RISK

As at 31 December, 2003, the Group's net current liabilities amounted to RMB10,792 million (2002: RMB7,016 million). For the year ended 31 December, 2003, the Group recorded a net cash inflow from operating activities of RMB2,129 million (2002: RMB3,698 million), a net cash outflow from investing activities and financing activities of RMB3,820 million (2002: RMB2,745 million) and a decrease in cash and cash equivalents of RMB1,691 million (2002: increase of RMB953 million).

With regard to 2004 and thereafter, the liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they fall due, and on its ability to obtain adequate external finance to meet its committed future capital expenditures. With regard to its short-term bank loans outstanding at 31 December, 2003, the Group has obtained firm commitments from its principal bankers to renew the relevant loans as they fall due during 2004. With regard to its future capital commitments and other financing requirements, the Group has already entered into loan financing agreements with several PRC banks to provide loan finance up to an approximate amount of RMB8,450 million during 2004 and thereafter. The directors of the Company believe that such financing will be available to the Group.

The directors of the Company have carried out a detailed review of the cash flow forecast of the Group for the twelve months ending 31 December, 2004. Based on such forecast, the directors have determined that adequate liquidity exists to finance the working capital and capital expenditure requirements of the Group during that period. In preparing the cash flow forecast, the directors have considered historical cash requirements of the Group as well as other key factors, including the availability of the above-mentioned loan finance which may impact the operations of the Group during the next twelve-month period. The directors are of the opinion that the assumptions and sensitivities which are included in the cash flow forecast are reasonable. However, as with all assumptions in regard to future events, these are subject to inherent limitations and uncertainties and some or all of these assumptions may not be realised.

BUSINESS RISK

The Group conducts its principal operations in the PRC and accordingly is subject to special considerations and significant risks not typically associated with investments in equity securities of the United States of America and Western European companies. These include risks associated with, among others, the political, economic and legal environment, influence of the CAAC over many aspects of its operations, and competition, in the passenger, cargo and mail airlines services industry.

INTEREST RATE RISK

The interest rates and maturity information of the Group's bank and other loans, and the maturity information of the Group's finance lease obligations are disclosed in Notes 21 and 22 respectively.

FOREIGN CURRENCY RISK

The Group has significant exposure to foreign currency as substantially all of the Group's lease obligations and bank loans are denominated in foreign currencies, principally US dollars, and to a lesser extent, Japanese Yen. Depreciation or appreciation of the Renminbi against foreign currencies affects the Group's results significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, entering into forward foreign exchange contracts with authorised PRC banks.

CREDIT RISKS

Substantially all of the Group's cash and cash equivalents are deposited with PRC financial institutions.

A significant portion of the Group's air tickets are sold by agents participating in the Billing and Settlement Plan ("BSP"), a clearing scheme between airlines and sales agents organised by International Air Transportation Association. As of 31 December, 2003, the balance due from BSP agents amounted to RMB446,399,000 (2002: RMB353,246,000).

SELF INSURANCE RISK

The Group maintains a limited amount of property insurance in respect of certain personal and real property.

The following methods and assumptions were used to estimate the fair value for each class of financial instrument:

- (i) Cash and cash equivalents, trade receivables, other receivables, amounts due to related companies, other liabilities, accounts payable, bills payable, sales in advance of carriage and accrued expenses

The carrying values approximate fair value because of the short maturities of these instruments.

- (ii) Bank and other loans

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The fair value has been estimated by applying a discounted cash flow approach using interest rates available to the Group for similar indebtedness.

- 45 -

APPENDIX I

FINANCIAL INFORMATION OF THE GROUP

The economic characteristics of the Group's leases vary from lease to lease. It is impractical to compare such leases with those prevailing in the market within the constraints of timeliness and cost for the purpose of estimating the fair value of such leases. Other investments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The major revenue-earning assets of the Group are its aircraft fleet, most of which are registered in the PRC. Since the Group's aircraft fleet is employed flexibly across its route network, there is no suitable basis of allocating such assets to geographic segments. Substantially all of the Group's non-aircraft identifiable assets are located in the PRC.
